RE: Assignment Agreement
Seniors Housing & Care
Windsor,
1230 E Windsor Rd
Glendale, CA 91205

Dear Ms. Ghassemi:

We are pleased to submit this proposal and our Terms and Conditions for this assignment.

PROPOSAL SPECIFICATIONS

Purpose:	To estimate the Market Value of the referenced real estate
Premise:	As Is
Rights Appraised:	Fee Simple
Intended Use:	Acquisition/Disposition/Exchange Due Diligence
Intended User:	The intended user is HumanGood ("Client"), and such other parties and entities (if any) expressly recognized by CBRE as "Intended Users" (as further defined herein).
Reliance:	Reliance on any reports produced by CBRE under this Agreement is extended solely to parties and entities expressly acknowledged in a signed writing by CBRE as Intended Users of the respective reports, provided that any conditions to such acknowledgement required by CBRE or hereunder have been satisfied. Parties or entities other than Intended Users who obtain a copy of the report or any portion thereof (including Client if it is not named as an Intended User), whether as a result of its direct dissemination or by any other means, may not rely upon any opinions or conclusions contained in the report or such portions thereof, and CBRE will not be responsible for any unpermitted use of the report, its conclusions or contents or have any liability in connection therewith.

CBRE, Inc.
400 S. Hope Street, Ste 2500
Los Angeles, CA 90071

www.cbre.us/valuation

Michael Thiel, MAI

Director

Scope of Inspection:	A full interior and exterior inspection of the property will be conducted and arranged with the property contact and performed by CBRE Valuations. If this expected property inspection is not possible due to unforeseen issues (such as lack of on-site personnel cooperation, physical obstructions, or appraiser/property contact health and safety concerns), the client will be promptly advised. The client may continue this assignment based on other inspection options agreed upon by CBRE and client or provide CBRE with a written notice to cancel. If CBRE determines that a credible appraisal result cannot be achieved due to inspection limitations, it will promptly provide the client with a written cancellation of this assignment.
Valuation Approaches:	All three traditional approaches to value will be considered.
Report Type:	Standard Appraisal Report
Appraisal Standards:	USPAP/FIRREA
Appraisal Fee:	\$5,600.00. If cancelled by either party before a completion, the fee will be based on CBRE's hourly rates for the time expended; plus actual expenses.
Expenses:	Fee includes all associated expenses
Retainer:	A retainer is not required for this assignment.
Payment Terms:	Final payment is due upon delivery of the final report or within thirty (30) days of your receipt of the draft report, whichever is sooner. The full appraisal fee is considered earned upon delivery of the draft report. We will invoice you for the assignment in its entirety at the completion of the assignment.
Delivery Instructions:	CBRE encourages our clients to join in our environmental sustainability efforts by accepting an electronic copy of the report. An Adobe PDF file via email will be delivered to orestd@beacondevgroup.com. The client has requested 0 bound final copy (ies).
Delivery Schedule:	
Preliminary Value:	N/A
Draft Report:	15 business days after the Start Date
Final Report:	5 business days subsequent to the receipt of final review comments
Start Date:	The appraisal process will start upon receipt of your signed agreement and the property specific data. <i>The report will be completed or supervised by James Graber, MAI.</i>
Acceptance Date:	These specifications are subject to modification if this proposal is not accepted within 5 business days from the date of this letter.

When executed and delivered by all parties, this letter, together with the Terms and Conditions and the Specific Property Data Request attached hereto and incorporated herein, will serve as the

Agreement for appraisal services by and between CBRE and Client. Each person signing below represents that it is authorized to enter into this Agreement and to bind the respective parties, including all intended users, hereto.

We appreciate this opportunity to be of service to you on this assignment. If you have additional questions, please contact us.

Sincerely,

CBRE, Inc.

ADDITIONAL OPTIONAL SERVICE

Assessment & Consulting Services: CBRE's Assessment & Consulting Services group has the capability of providing a wide array of solution-oriented due diligence services in the form of property condition and environmental site assessment reports and other necessary due diligence service (seismic risk analysis, zoning compliance service, construction risk management, annual inspections, etc.).

Initial below if you desire CBRE to contact you to discuss a proposal for any part or the full complement of consulting services, or you may reach out to us at ACSProposals@cbre.com. We will route your request to the appropriate manager. For more information, please visit www.cbre.com/assessment.

TERMS AND CONDITIONS

1. The Terms and Conditions herein are part of an agreement for appraisal services (the "Agreement") between CBRE, Inc. (the "Appraiser") and the client signing this Agreement, and for whom the appraisal services will be performed (the "Client"), and shall be deemed a part of such Agreement as though set forth in full therein. The Agreement shall be governed by the laws of the state where the appraisal office is located for the Appraiser executing this Agreement.
2. Client shall be responsible for the payment of all fees stipulated in the Agreement. Payment of the appraisal fee and preparation of an appraisal report (the "Appraisal Report, or the "report") are not contingent upon any predetermined value or on an action or event resulting from the analyses, opinions, conclusions, or use of the Appraisal Report. Final payment is due as provided in the Proposal Specifications Section of this Agreement. If a draft report is requested, the fee is considered earned upon delivery of the draft report. It is understood that the Client may cancel this assignment in writing at any time prior to delivery of the completed report. In such event, the Client is obligated only for the hourly rate of the time and expenses incurred (including travel expenses to and from the job site), with a minimum charge of \$500. Additional copies of the Appraisal Reports are available at a cost of \$250 per original color copy and \$100 per photocopy (black and white), plus shipping fees of \$30 per report.
3. If Appraiser is subpoenaed or ordered to give testimony, produce documents or information, or otherwise required or requested by Client or a third party to participate in meetings, phone calls, conferences, litigation or other legal proceedings (including preparation for such proceedings) because of, connected with or in any way pertaining to this engagement, the Appraisal Report, the Appraiser's expertise, or the Property, Client shall pay Appraiser's additional costs and expenses, including but not limited to Appraiser's attorneys' fees, and additional time incurred by Appraiser based on Appraiser's then-prevailing hourly rates and related fees. Such charges include and pertain to, but are not limited to, time spent in preparing for and providing court room testimony, depositions, travel time, mileage and related travel expenses, waiting time, document review and production, and preparation time (excluding preparation of the Appraisal Report), meeting participation, and Appraiser's other related commitment of time and expertise. Hourly charges and other fees for such participation will be provided upon request. In the event Client requests additional appraisal services beyond the scope and purpose stated in the Agreement, Client agrees to pay additional fees for such services and to reimburse related expenses, whether or not the completed report has been delivered to Client at the time of such request.
4. Appraiser shall have the right to terminate this Agreement at any time for cause effective immediately upon written notice to Client on the occurrence of fraud or the willful misconduct of Client, its employees or agents, or without cause upon 5 days written notice.
5. In the event Client fails to make payments when due then, from the date due until paid, the amount due and payable shall bear interest at the maximum rate permitted in the state where the office is located for the Appraiser executing the Agreement. In the event either party institutes legal action against the other to enforce its rights under this Agreement, the prevailing party shall be entitled to recover its reasonable attorney's fees and expenses. Each party waives the right to a trial by jury in any action arising under this Agreement.
6. Appraiser assumes there are no major or significant items or issues affecting the Property that would require the expertise of a professional building contractor, engineer, or environmental consultant for Appraiser to prepare a valid report. Client acknowledges that such additional expertise is not covered in the Appraisal fee and agrees that, if such additional expertise is required, it shall be provided by others at the discretion and direction of the Client, and solely at Client's additional cost and expense.
7. In the event of any dispute between Client and Appraiser relating to this Agreement, or Appraiser's or Client's performance hereunder, Appraiser and Client agree that such dispute shall be resolved by means of binding arbitration in accordance with the commercial arbitration rules of the American Arbitration Association, and judgment upon the award rendered by an arbitrator may be entered in any court of competent jurisdiction. Depositions may be taken and other discovery obtained during such arbitration proceedings to the same extent as authorized in civil judicial proceedings in the state where the office of the Appraiser executing this Agreement is located. The arbitrator shall be limited to awarding compensatory damages and shall have no authority to award punitive, exemplary or similar damages. The prevailing party in the arbitration proceeding shall be entitled to recover its expenses from the losing party, including costs of the arbitration proceeding, and reasonable attorney's fees. Client acknowledges that Appraiser is being retained hereunder as an independent contractor to perform the services described herein and nothing in this Agreement shall be deemed to create any other relationship between

Client and Appraiser. This engagement shall be deemed concluded and the services hereunder completed upon delivery to Client of the Appraisal Report discussed herein.

8. All statements of fact in the report which are used as the basis of the Appraiser's analyses, opinions, and conclusions will be true and correct to Appraiser's actual knowledge and belief. Appraiser does not make any representation or warranty, express or implied, as to the accuracy or completeness of the information or the condition of the Property furnished to Appraiser by Client or others. TO THE FULLEST EXTENT PERMITTED BY LAW, APPRAISER DISCLAIMS ANY GUARANTEE OR WARRANTY AS TO THE OPINIONS AND CONCLUSIONS PRESENTED ORALLY OR IN ANY APPRAISAL REPORT, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF FITNESS FOR ANY PARTICULAR PURPOSE EVEN IF KNOWN TO APPRAISER. Furthermore, the conclusions and any permitted reliance on and use of the Appraisal Report shall be subject to the assumptions, limitations, and qualifying statements contained in the report.
9. Appraiser shall have no responsibility for legal matters, including zoning, or questions of survey or title, soil or subsoil conditions, engineering, or other similar technical matters. The report will not constitute a survey of the Property analyzed.
10. Client shall provide Appraiser with such materials with respect to the assignment as are requested by Appraiser and in the possession or under the control of Client. Client shall provide Appraiser with sufficient access to the Property to be analyzed, and hereby grants permission for entry unless discussed in advance to the contrary.
11. The data gathered in the course of the assignment (except data furnished by Client) and the report prepared pursuant to the Agreement are, and will remain, the property of Appraiser. With respect to data provided by Client, Appraiser shall not violate the confidential nature of the Appraiser-Client relationship by improperly disclosing any proprietary information furnished to Appraiser. Notwithstanding the foregoing, Appraiser is authorized by Client to disclose all or any portion of the report and related data as may be required by statute, government regulation, legal process, or judicial decree, including to appropriate representatives of the Appraisal Institute if such disclosure is required to enable Appraiser to comply with the Bylaws and Regulations of such Institute as now or hereafter in effect.
12. Unless specifically noted, in preparing the Appraisal Report the Appraiser will not be considering the possible existence of asbestos, PCB transformers, or other toxic, hazardous, or contaminated substances and/or underground storage tanks (collectively, "Hazardous Material") on or affecting the Property, or the cost of encapsulation or removal thereof. Further, Client represents that there is no major or significant deferred maintenance of the Property that would require the expertise of a professional cost estimator or contractor. If such repairs are needed, the estimates are to be prepared by others, at Client's discretion and direction, and are not covered as part of the Appraisal fee.
13. In the event Client intends to use the Appraisal Report in connection with a tax matter, Client acknowledges that Appraiser provides no warranty, representation or prediction as to the outcome of such tax matter. Client understands and acknowledges that any relevant taxing authority (whether the Internal Revenue Service or any other federal, state or local taxing authority) may disagree with or reject the Appraisal Report or otherwise disagree with Client's tax position, and further understands and acknowledges that the taxing authority may seek to collect additional taxes, interest, penalties or fees from Client beyond what may be suggested by the Appraisal Report. Client agrees that Appraiser shall have no responsibility or liability to Client or any other party for any such taxes, interest, penalties or fees and that Client will not seek damages or other compensation from Appraiser relating to any such taxes, interest, penalties or fees imposed on Client, or for any attorneys' fees, costs or other expenses relating to Client's tax matters.
14. Appraiser shall have no liability with respect to any loss, damage, claim or expense incurred by or asserted against Client arising out of, based upon or resulting from Client's failure to provide accurate or complete information or documentation pertaining to an assignment ordered under or in connection with this Agreement, including Client's failure, or the failure of any of Client's agents, to provide a complete copy of the Appraisal Report to any third party.
15. LIMITATION OF LIABILITY. EXCEPT TO THE EXTENT ARISING FROM SECTION 16 BELOW, OR SECTION 17 IF APPLICABLE, IN NO EVENT SHALL EITHER PARTY OR ANY OF ITS AFFILIATE, OFFICERS, DIRECTORS, EMPLOYEES, AGENTS, OR CONTRACTORS BE LIABLE TO THE OTHER, WHETHER BASED IN CONTRACT, WARRANTY, INDEMNITY, NEGLIGENCE, STRICT LIABILITY OR OTHER TORT OR OTHERWISE, FOR ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, INCIDENTAL OR INDIRECT DAMAGES, AND AGGREGATE DAMAGES IN CONNECTION WITH THIS AGREEMENT FOR EITHER PARTY (EXCLUDING THE OBLIGATION TO PAY THE FEES REQUIRED HEREUNDER) SHALL NOT EXCEED THE GREATER OF THE TOTAL FEES PAYABLE TO APPRAISER UNDER THIS AGREEMENT OR TEN THOUSAND DOLLARS (\$10,000). THIS LIABILITY LIMITATION SHALL NOT APPLY IN THE EVENT OF A FINAL FINDING BY AN ARBITRATOR OR A COURT OF COMPETENT JURISDICTION THAT SUCH LIABILITY IS THE RESULT OF A PARTY'S FRAUD OR WILLFUL MISCONDUCT.

16. Client shall not disseminate, distribute, make available or otherwise provide any Appraisal Report prepared hereunder to any third party (including without limitation, incorporating or referencing the Appraisal Report, in whole or in part, in any offering or other material intended for review by other parties) except to (i) any third party expressly acknowledged in a signed writing by Appraiser as an "Intended User" of the Appraisal Report provided that either Appraiser has received an acceptable release from such third party with respect to such Appraisal Report or Client provides acceptable indemnity protections to Appraiser against any claims resulting from the distribution of the Appraisal Report to such third party, (ii) any third party service provider (including rating agencies and auditors) using the Appraisal Report in the course of providing services for the sole benefit of an Intended User, or (iii) as required by statute, government regulation, legal process, or judicial decree. In the event Appraiser consents, in writing, to Client incorporating or referencing the Appraisal Report in any offering or other materials intended for review by other parties, Client shall not distribute, file, or otherwise make such materials available to any such parties unless and until Client has provided Appraiser with complete copies of such materials and Appraiser has approved all such materials in writing. Client shall not modify any such materials once approved by Appraiser. In the absence of satisfying the conditions of this paragraph with respect to a party who is not designated as an Intended User, in no event shall the receipt of an Appraisal Report by such party extend any right to the party to use and rely on such report, and Appraiser shall have no liability for such unauthorized use and reliance on any Appraisal Report. In the event Client breaches the provisions of this paragraph, Client shall indemnify, defend and hold Appraiser, and its affiliates and their officers, directors, employees, contractors, agents and other representatives (Appraiser and each of the foregoing an "Indemnified Party" and collectively the "Indemnified Parties"), fully harmless from and against all losses, liabilities, damages and expenses (collectively, "Damages") claimed against, sustained or incurred by any Indemnified Party arising out of or in connection with such breach, regardless of any negligence on the part of any Indemnified Party in preparing the Appraisal Report.
17. Furthermore, Client shall indemnify, defend and hold each of the Indemnified Parties harmless from and against any Damages in connection with (i) any transaction contemplated by this Agreement or in connection with the appraisal or the engagement of or performance of services by any Indemnified Party hereunder, (ii) any Damages claimed by any user or recipient of the Appraisal Report, whether or not an Intended User, (iii) any actual or alleged untrue statement of a material fact, or the actual or alleged failure to state a material fact necessary to make a statement not misleading in light of the circumstances under which it was made with respect to all information furnished to any Indemnified Party or made available to a prospective party to a transaction, or (iv) an actual or alleged violation of applicable law by an Intended User (including, without limitation, securities laws) or the negligent or intentional acts or omissions of an Intended User (including the failure to perform any duty imposed by law); and will reimburse each Indemnified Party for all reasonable fees and expenses (including fees and expenses of counsel) (collectively, "Expenses") as incurred in connection with investigating, preparing, pursuing or defending any threatened or pending claim, action, proceeding or investigation (collectively, "Proceedings") arising therefrom, and regardless of whether such Indemnified Party is a formal party to such Proceeding. Client agrees not to enter into any waiver, release or settlement of any Proceeding (whether or not any Indemnified Party is a formal party to such Proceeding) without the prior written consent of Appraiser (which consent will not be unreasonably withheld or delayed) unless such waiver, release or settlement includes an unconditional release of each Indemnified Party from all liability arising out of such Proceeding.
18. Time Period for Legal Action. Unless the time period is shorter under applicable law, except in connection with paragraphs 16 and 17 above, Appraiser and Client agree that any legal action or lawsuit by one party against the other party or its affiliates, officers, directors, employees, contractors, agents, or other representatives, whether based in contract, warranty, indemnity, negligence, strict liability or other tort or otherwise, relating to (a) this Agreement or the Appraisal Report, (b) any services or appraisals under this Agreement or (c) any acts or conduct relating to such services or appraisals, shall be filed within two (2) years from the date of delivery to Client of the Appraisal Report to which the claims or causes of action in the legal action or lawsuit relate. The time period stated in this section shall not be extended by any incapacity of a party or any delay in the discovery or accrual of the underlying claims, causes of action or damages.

SPECIFIC PROPERTY DATA REQUEST

In order to complete this assignment under the terms outlined, CBRE, Inc., Valuation & Advisory Services, will require the following specific information for the property:

1. PLEASE NOTIFY US IMMEDIATELY IF ANY OTHER CBRE SERVICE LINE (INCLUDING CAPSTONE) IS INVOLVED IN THE BROKERAGE, FINANCING, INVESTMENT OR MANAGEMENT OF THIS ASSET.
2. Current title report and title holder name
3. Legal description
4. Survey and/or plat map
5. Site plan for the existing development
6. Building plans and specifications, including square footage for all buildings and units
7. Current county property tax assessment or tax bill
8. Details on any sale, contract, or listing of the property within the past three years
9. Engineering studies, soil tests or environmental assessments
10. Ground lease, if applicable
11. Details regarding the development costs, including land cost, if developed within the past three years
12. Three-year and YTD property income and expenses
13. Current year property income and expense budget
14. Detailed occupancy report for the past three years and current YTD
15. Detailed current rent roll indicating any vacant units
16. Details regarding any pending changes to the rent roll, including deposits for future occupancies
17. Details regarding any concessions currently being offered or provided for all leases pending or signed over the prior 12 months
18. Details regarding all personal property, including furniture, fixtures, and equipment
19. Analysis of prospective payment system (Medicaid, Medicare, and private pay)
20. Details regarding the historical and future replacement schedule (i.e., carpets, appliances, cabinetry, laundry facilities, HVAC, etc.)
21. Details regarding capital expenditures made within the last 12 months, or scheduled for the next 12 months
22. Marketing plan and/or local competitive study, if available
23. Any previous market/demand studies or appraisals
24. Name and telephone number of property contact for physical inspection and additional information needed during the appraisal process
25. Any other information that might be helpful in valuing this property

If any of the requested data and information is not available, CBRE, Inc., reserves the right to extend the delivery date by the amount of time it takes to receive the requested information or make other arrangements. Please have the requested information delivered to the following:

Professional Background

James Graber, MAI, as a Managing Director within Valuation & Advisory Services, is the National Practice Leader of Seniors Housing & Healthcare at CBRE, the largest real estate firm in the world. As the national head of the Seniors Housing & Healthcare practice, James leads a geographically-diverse team that focuses solely on valuation and advisory services for seniors housing assets, including active adult, independent living, assisted living, memory care, skilled nursing, and life plan communities (LPC/CCRC). The National Seniors Housing & Healthcare practice group is an industry thought leader, with James regularly publishing market-leading research, contributing on industry panels, as well as interviewed and quoted in various industry media outlets.

For over 15 years, James has been active in the real estate valuation industry, completing assignments throughout the United States and abroad, with a primary specialization on Seniors Housing & Healthcare assets. Provided valuation and advisory services include third-party appraisals, Fair Market Value and Fair Market Rent analyses, purchase price allocations, IPA-NAV valuations, market studies, portfolio valuations, development support as an expert witness, arbiter in value disputes, market/need studies, and feasibility analyses. Clients served include lenders, operators, health systems, local and national investment firms, development and operating companies, commercial and investment banks, insurance companies, private equity firms, pension funds, and REITs.

Prior to joining CBRE, Mr. Graber was a Managing Director at Salus Valuation Group, which has since been acquired by Newmark Knight Frank. While at Salus, he developed and directed a dynamic team within the healthcare and seniors housing valuation and advisory industry. Preceding Salus Valuation Group, James was an was a Senior Appraiser with a commercial real estate valuation firm situated within the South Florida market.

While spending a majority of his career in the Florida and New York markets, James resides in Dallas, Texas, and is a proud husband of 13 years and father to two boys.

Experience

Stephanie Velde is part of CBRE's National Senior Housing & Healthcare Group. Ms. Velde has completed valuation and consulting services for over 15 years on behalf of local and national investment firms, financial institutions, development and operating companies, REITs, corporations, individual investors and legal firms for the acquisition, disposition, and financing of investment grade real estate.

Ms. Velde has experience in third-party valuations, operational due diligence, asset management, market studies, and feasibility analyses of single-asset to large portfolio transactions.

The CBRE Seniors Housing & Healthcare group provides valuation and advisory services; asset care levels include active adult, independent living, assisted living, memory care, skilled nursing, and continuing care retirement communities (CCRC). CBRE has a national footprint and our team takes pride in the depth and breadth of our industry knowledge and network, within the seniors housing space. Our philosophy centers the client's needs at the forefront of our production results. This approach to providing world class service has led to the strengthening of our existing client base as well as the addition of new clientele.

Section 999.5(d)(2)(C)

4) NDA from Solheim dated October 13, 2021

CONFIDENTIALITY AND NON-DISCLOSURE AGREEMENT

This Confidentiality and Non-Disclosure Agreement is made and entered into effective the 13th day of October, 2021, by and between HumanGood, a California nonprofit public benefit corporation, on behalf of itself and its affiliates (collectively, “HumanGood”), and Sam Oden, for himself and on behalf of Solheim Lutheran Home dba Solheim Senior Community and its affiliates (“Solheim” and together with HumanGood, the “parties”), with reference to the following:

WHEREAS, HumanGood and Solheim are contemplating a potential business transaction between the parties (the “Business Purpose”). In connection therewith, the parties wish to exchange certain Confidential Information (as hereinafter defined). The parties require, as a condition precedent to such exchange, the parties’ agreement to maintain the confidentiality of Confidential Information pursuant to this Agreement.

NOW, THEREFORE, in consideration of the above and the mutual promises herein contained, the parties hereto agree as follows:

1. Confidential Information. “Confidential Information” means any oral, electronic, digital or written information of a non-public nature which is sensitive and/or valuable from a business perspective, and which is made available to a party hereto or any of its affiliates or their officers, directors, employees, agents, accountants or attorneys (herein, “Recipient”) by the other party hereto or any of its corporate affiliates or its or their officers, directors, employees, agents, accountants or attorneys (herein, “Disclosing Party”) after the operative date of this agreement—regardless of the manner in which this information is furnished to the Recipient by the Disclosing Party. Confidential Information includes, by way of illustration only and without limitation: (i) compilations and analyses prepared by Recipient, (ii) names of current and potential manufacturers, suppliers, customers and/or marketing relationships of any Disclosing Party, and (iii) the nature, terms, conditions or other facts respecting any discussions between Disclosing Party and Recipient (including their existence and status). Confidential Information does not include information which, at the time of disclosure, was publicly available (other than as a result of a disclosure made to third parties by Recipient) or was available to Recipient on a nonconfidential basis from a source other than a Disclosing Party not under a duty of confidentiality to a Disclosing Party.

2. Confidentiality; Disclosure. Confidential Information will be kept confidential by each Recipient, and will not be used for any purpose by its Recipient other than for the Business Purpose. The Recipient of any Confidential Information hereby agrees to undertake no exploitation or utilization (commercial or otherwise) of any portion of the Confidential Information, and not to disclose, utilize, exploit, or distribute the Confidential Information, or cause or allow the Confidential Information to be disclosed, utilized, exploited, or distributed to others. The Recipient agrees to take reasonable steps necessary to prevent any unauthorized disclosure of any of the Confidential Information to any unauthorized recipient. Recipient will be responsible for any breach of this Agreement by any of its officers, directors, employees, agents, accountants and attorneys. Recipient shall restrict the dissemination of the Confidential

Information to its employees who have a valid business reason need to see it, and shall cause any agent, accountant, or other non-employee to whom it wishes to show the Confidential Information to first sign an agreement in the form hereof in advance thereof. Recipient will keep confidential any Confidential Information contained in any analyses, compilations, studies or other documents prepared by Recipient that contain or reflect any Confidential Information. Upon request from Disclosing Party, Recipient promptly will return or destroy all copies of the Confidential Information in its possession.

3. Termination. Upon the termination of the relationship between the Parties, each Party shall either return to the other Party or destroy any copies of the Confidential Information that are in its possession.

4. Protective Order. If Recipient becomes legally compelled to disclose any Confidential Information, it shall provide Disclosing Party with prompt prior written notice so that Disclosing Party may seek a protective order or other appropriate remedy, if it deems it necessary or appropriate to do so. If such protective order or other remedy is not obtained, Recipient shall (i) furnish only that portion of the Confidential Information which, in accordance with the advice of its own counsel, it is legally required to be furnished, and (ii) exercise reasonable efforts to obtain assurances that confidential treatment will be accorded the Confidential Information so furnished.

5. No Representation or Warranty. Recipient acknowledges that no Disclosing Party is making any representation or warranty concerning either the accuracy or completeness of any information furnished (except specifically to the extent and only to such extent as shall be expressly set forth in an executed and delivered definitive agreement). No Disclosing Party or any of its officers, directors, employees, agents, or controlling persons (including, without limitation, parent and subsidiary companies) shall have any liability to a Recipient or any other person relating to or arising from the use of the Confidential Information provided by a Disclosing Party.

6. Conduct of Process. Except for any confidentiality agreements, Disclosing Party is not under any obligation to Recipient, and both parties are free to elect not to consummate an contemplated agreement or to furnish or requested information. Nothing contained in this Agreement shall prevent any party from negotiating with or entering into a definitive agreement with any other person or entity without prior notice to the other party. Until the parties enter into a definitive and legally binding final written and executed agreement, no contract or agreement or other investment or relationship (other than the obligations incurred in this document regarding Confidential Information) shall be deemed to exist between any Disclosing Party or any Recipient as a result of (by way of illustration only and without limitation) this Agreement; the issuance of a term sheet, the issuance, receipt, review or analysis of information; or the negotiation of definitive documentation; and none of the foregoing shall be relied upon by either party as the basis for arguing in favor of the existence of any implied contract or any contract by estoppel.

7. Intellectual Property Rights. Nothing contained herein grants any rights respecting any intellectual property (whether or not trademarked, copyrighted, or patented) or uses thereof.

8. Costs and Expenses. Except as otherwise provided in any other signed written agreement that may be executed between the parties, the parties shall bear their own costs and expenses, including, without limitation, fees of counsel, accountants, and other consultants and advisors.

9. Remedies. Each party shall be entitled to equitable relief, including injunction and specific performance, in the event of any breach hereof—in addition to and without prejudice against any and all other remedies that may be available at law or in equity. No failure or delay by either party in exercising any right, power or privilege hereunder will operate as a waiver, nor will any single or partial exercise or waiver of a right, power or privilege preclude any other or further exercise thereof. In the event of litigation to enforce any provision of this Agreement, the prevailing party shall be entitled to recover its reasonable attorneys' fees and costs.

10. Venue and Choice of Law. The terms of this Agreement—which the parties (both of whom are domiciled and operating in California) contemplate fully performing within the State of California—shall be governed by the laws of the State of California. Any suit, action, or proceeding arising out of the subject matter hereof, or the interpretation, performance or breach hereof, shall be instituted in any State or Federal court in Alameda County, California (the “Acceptable Forums”). Each party agrees that the Acceptable Forums are convenient to it, and each party irrevocably submits to the jurisdiction of the Acceptable Forums, and waives any and all objections to jurisdiction or venue that it may have any such suit, action or proceeding.

11. Notices. Any notices or requests made under or pursuant to this Agreement shall be made in writing and addressed as follows:

If to HumanGood:

HumanGood
1900 Huntington Drive
Duarte, California 91010
Attn: Dan Ogus

If to Solheim:

Solheim Senior Community
2236 Merton Ave
Los Angeles, CA 90041
Attn: Sam Oden

12. Survival. This Agreement shall be binding on and inure to the benefit of all successors-in-interest of each party. The restrictions and obligations contained herein shall survive any expiration, termination, or cancellation of this Agreement or the business relationship between the parties and shall continue to bind the parties hereto, their successors and assigns.

13. HIPAA. Each of the parties warrant that it is aware of the requirements of the Healthcare Insurance Portability and Accountability Act of 1996 (HIPAA). Each of the parties

further agrees not to share any information that constitutes Protected Health Information (“PHI”), as defined under the HIPAA Privacy Rule, until such time as the parties have entered into a definitive legal agreement that contemplates the exchange of PHI in accordance with HIPAA.

14. Miscellaneous. This Agreement constitutes the entire agreement of the parties relating to its subject matter, and supersedes all prior communications, representations, or agreements, verbal or written. This Agreement may only be waived or amended in writing. Notices hereunder shall be in writing and be effective when actually delivered. This Agreement may be executed in counterparts, each of which, when taken together, shall constitute one and the same original instrument. Neither party may assign or otherwise transfer its rights or delegate its duties hereunder without prior written consent, and any attempt to do so is void. This Agreement is in addition to, and not in replacement of, any previously executed non-disclosure agreement or other written agreement to maintain confidentiality between the parties (including any affiliates thereof).

Except as provided below, Recipient agrees that the Recipient will not, without the prior written permission of the Disclosing Party: (i) contact any of the Disclosing Party’s personnel; (ii) visit properties owned or operated by the Disclosing Party; or (iii) request Confidential Information in any manner directly from the Disclosing Party.

IN WITNESS WHEREOF, the undersigned have executed and delivered as of the day and year first above written.

Bethany,

Following up on our conversation yesterday, this email confirms that Solheim is fine with a full mutual waiver of the NDA provision that is currently in effect between Solheim and HumanGood – subject to and effective immediately upon HumanGood also confirming, in writing, that it also agrees to fully mutually waive that NDA provision.

Happy to discuss via telephone if there's anything else that you think we should address regarding this or any other issues.

Thanks,
Adam

Hi Adam, just so I can give you some context, would you have some time to discuss this afternoon?

Best,
Bethany

Subject: NDA

[EXTERNAL EMAIL]

Hello Sam,

It was nice to catch up. Pursuant to our conversation yesterday, HumanGood agrees to terminate the attached NDA between Solheim and HumanGood and to the release by each party of the other party from any obligation imposed by the NDA, including any obligation to keep confidential communications between the parties relating to Solheim's offer to purchase the Windsor community. Please confirm Solheim's agreement to these terms. HumanGood will consider this confirmation sufficient to terminate the NDA.

Thank you,
Dan

Reference: Phase I Site Assessment
Windsor manor
1230 East Windsor Road, Glendale, CA

Dear Ms. Heintzelman:

1.00 ABSTRACT

- 1.01 Pacific Southwest Group completed a Phase I Site Assessment of the above referenced property. The objective of the study was to assess, to the extent feasible, the subject site with respect to environmental issues associated with past and/or present operations at the site, or neighboring properties which might pose liability for the owners or lenders.
- 1.02 The following report has been formulated upon the information collected from the visual site inspection, interviews with people knowledgeable about the site and surrounding area, a review of available "Site History" documentation, and available records of known environmental concerns on, or within the standard ASTM search radius of the property.

I declare that to the best of my professional knowledge and belief, I meet the definition of *Environmental professional* as defined in #312.10 of 40 CFR 312.

I have the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject *property*. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

We have performed this Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice: E 1527-05. Any exceptions to, or deletions from, this practice are designated in Section 2.04 of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the property.

2.00 EXECUTIVE SUMMARY

2.01 Mr. Robert Vanderstraeten of Pacific Southwest Group visited the site and adjacent properties on March 18, 2009. The site visit included an inspection of the subject facility and adjacent properties, and a general reconnaissance of local environmental concerns within one mile of the site.

2.02 Conclusions

The site and adjacent property inspection, review of available historical and regulatory records, interviews with persons knowledgeable about the site, and examination of available historical aerial photographs indicate that:

- Current usage/site conditions noted during the site investigation are not a concern to recognized environmental concerns and do not require further investigation at this time.
- There have been no activities on this site which may have contributed to recognized environmental concerns in the area.
- None of the properties adjacent to this site pose a recognized environmental concern to the subject site.
- None of the sites listed on the enclosed Environmental Records Search pose a recognized environmental concern to the subject site.

Based upon these investigations, this site does not appear to have any historical or current recognized environmental concerns.

2.03 Recommendations

Based upon these investigations, it is Pacific Southwest Group's professional opinion that further environmental investigations do not appear to be necessary for this site at this time.

However, Pacific Southwest Group recommends that the fluorescent light fixture ballasts should be examined for leakage by a trained, competent person.

Leaking ballasts which are not labeled must be removed by a person trained in the industrial hygiene, removal, and disposal of PCB-containing materials. Any leaking ballasts should be removed, contained, manifested, and disposed in a Class 1 landfill or incinerated in a RCRA certified incinerator.

2.04 Limitations and Exceptions of Assessment

This assessment has been performed in a professional manner by a competent environmental professional using the degree of skill and care exercised in similar projects under similar conditions.

The following report is based upon information provided by others with no independent verification of such information. Pacific Southwest Group shall not be responsible for conditions or consequences arising from relevant facts that were concealed, withheld or not fully disclosed at the time this survey was performed.

Exceptions and Deletions from the Standard Practice and All Appropriate Inquiries requirements in the report are as follows: None.

This Phase I Site Assessment is not intended to identify all unsafe conditions or imply that others do not exist.

This assessment was performed for the benefit of SCPH. Pacific Southwest Group consents to the release of this report to third parties at the client's discretion. However, any use of the information contained within, or reliance upon it by someone other than the client, shall be solely at the risk of such third party with no recourse against Pacific Southwest Group, its affiliates or employees. This report shall not be used by any party which does not agree to be bound by these conditions.

We declare that to the best of our knowledge and belief, we meet the definition of Environmental Professional as defined in #312.10 of this part.

We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part.312.

Should you have any questions regarding this report, please do not hesitate to contact me at your convenience.

Sincerely,
PACIFIC SOUTHWEST GROUP, INC.

3.00 SITE DESCRIPTION

3.01 Site Summary

Site Designation: & Address:	Windsor Manor 1230 E. Windsor Road
(Fig. 1, Site Loc. Map)	Glendale, California
Legal Description:	APN's: 5679-032-001, 5679-032-004, 5679-032-005, 5679-032-008, and 5679-032-016
Size of Site:	Land: 125,450 Sq. Ft. (2.88 Acres) Buildings: 120,463 Sq. Ft.
Current Use:	Continuing Care Retirement Community
Zoning:	R-4, Multi-Family Residential

3.02 Site and Vicinity Characteristics

The subject site (Figure 2, Aerial Plot Plan, Photographs 1 - 7) is an irregular shaped parcel that covers most of the block surrounded by Windsor Road on the north, Porter Street on the east, Garfield Avenue on the south, and Chevy Chase Drive on the west. The only portion of the block that is not included in the subject site is the property occupied by the Chevy Chase Baptist Church which located at the southwest corner of the block. The subject site is occupied by several interconnected buildings on the main portion of the site and three small residential structures along the Chevy Chase Drive portion of the site. The main portion of the site is accessible from Windsor Road and Garfield Avenue with access to the dwelling units along Chevy Chase Drive accessible from that street.

The surrounding area (Figure 2, Photographs 8 - 14) is in residential and commercial use. North of the site the area is in residential use with single family dwellings. East of the site is a small community park with single family dwellings farther to the east. South of the subject site is the John Muir Elementary School and the Baptist Church. West of the site is a medical complex, and northwest of the site there are apartment buildings.

3.03 Description of Structures, Roads, Other Improvements on Site

The buildings on the subject site are occupied by a continuing care residential community. The complex consists of 82 independent living units, 35 assisted living units, and 28 skilled nursing units. The building at the east end of the site is a four story building with a basement. All of the rest of the buildings are single story structures. The main kitchen and dining area is south of the lobby near the center of the site. The laundry facilities and medical center are south of the kitchen and dining room. There is a small dining area for the assisted living portion of the facility near the west end of the site.

The four story building is of reinforced concrete block construction with a painted stucco exterior. The single story buildings are all frame and stucco construction. The roofs of the buildings were not accessed for this assessment. Visible portions of the roofs were asphalt shingle roofing systems. Interior finishes in the buildings included ceilings of painted gypsum board and 2' x 4' ceiling panels. Walls in the buildings were gypsum board that was either painted or covered with wall paper. Floors in the buildings were covered with carpet, ceramic tile, and sheet vinyl flooring. The HVAC systems for the buildings are supplied by furnaces and boilers in the equipment rooms and by wall air conditioning units in some of the buildings. The buildings are equipped with a fire alarm system and there are sprinklers in the basement area of the four story building and in the public areas. Fire extinguishers on wall mounted brackets within the complex were last serviced by Sheldon Extinguisher Company, (626) 444 8575, on 2/27/09.

The parking area for the site is behind the four story building at the southeast corner of the site. There is a small parking area near the west side of the site and the dwelling units along Chevy Chase Drive have their own parking areas. The parking areas are paved with asphalt and concrete which is in good condition. The loading dock for the site is next to the kitchen and laundry rooms at the rear of the complex.

The site is about 85% capped with structures covering 70% and paving covering 15%.

There is no indication or historical record of underground tanks on this site.

There are no active, inactive, or destroyed wells on this site¹.

Fencing: There are block wall and metal fences between the buildings and along the west side of the main portion of the site.

Soils and Vegetation: Observable soils were not stained and did not show evidence of contamination. On-site vegetation does not show any evidence of contamination. Soil type is sand mixed with silt.

Utilities: Power: Glendale Department of Public Works
Water: City of Glendale
Sewer: City of Glendale
Storm
Drains: City of Glendale

3.04 Information Regarding Environmental Liens

No underground tanks were observed on the property. We found no information indicating there were environmental liens or citations against the property.

3.05 Hydrology and Geology

Topography²: Elevation: 520 Feet
Slope: 2.0%
Drainage to the South

Hydrology³: Depth to groundwater: 110 Feet

Nominal direction of flow: Southerly

Surface waters: None local. The Los Angeles River is about 2.0 miles southwest of the subject site.

The subject site lies within an area of alluvial deposits of Recent age near the southeastern end of the San Fernando Valley⁴. The San Fernando Valley is a large area of alluvial deposits several miles northwest of the downtown area of the city of Los Angeles. It lies between the Santa Monica Mountains to the south, the Simi Hills to the west, the Santa Susana Mountains on the northwest, and the San Gabriel Mountains and the Verdugo Hills on the north and northeast. The area is drained by the Los Angeles River system. The river runs along the southern side of the valley about 2.0 miles southwest of the subject site.

Groundwater in the San Fernando Valley generally flows to the east southeast following the river and the slope of the valley. In the area of the subject site the river has turned toward the south and the groundwater flow direction has also turn toward the south. The depth to groundwater in the site area is reported to be 110 feet, but that depth fluctuates based upon the amount of pumping and the amount of recharge from rainfall.

The closest earthquake faults to the subject site are the Santa Monica Fault which extends into the site area from the southwest and several small faults and fractures in the Santa Monica Mountains two miles west of the site and the Repetto Hills southeast of the site.

3.06 Section Summary

Based upon these observations, current usage/site conditions are not an environmental concern.

4.00 **SITE HISTORY AND RECORDS REVIEW**

4.01 Past Uses of the Property

A review of Sanborn maps⁵, building permits⁶ and aerial photographs⁷ the subject site has been at least partially developed since 1937. No Sanborn Maps were found for the subject site. Building permits supplies by the Glendale Department of Building and Safety indicate that there was a room addition and a bath added to a dwelling unit on the site in 1937, and there was a permit to repair termite damage to a building on the site in 1942. A 19 room building was added to the site in 1945 and another new building was added to the site in 1950. The records in the Los Angeles County Assessor's office show that a 35,764 square foot building was built on the site in 1950, and two more buildings totaling more than 75,000 square feet were added in 1972. Aerial photographs reviewed from 1945 through the present showed the site as developed property throughout the entire period. The photo from 1948 was not clear, but the property appeared to be residential. There may have been an undeveloped parcel at the northwest corner at that time. In 1952 the property was developed with residential dwellings and there appeared to be an apartment building at the east end of the site. The lot along Garfield Avenue that is now vacant had a residential dwelling on it in 1952. By 1973 the subject site had been developed as it is at the present time based upon the aerial photograph from that year. Photographs from 1980, 1985, 2002, and the present all showed the property as it is at the present time.

4.02 Past Uses of Adjoining Properties

Based upon the aerial photographs, the area around the subject site was partially developed in 1948. The areas north, east and west of the subject site were all developed with single family dwellings at that time. The church was in place southwest of the site and the school property south of the subject site was vacant in 1948. There was very little change in the site area from 1948 to 1952. By 1973 the area west of the site had begun to change to commercial, but the medical building complex directly west of the site had not been developed. The area northwest of the site had begun to be converted to apartments in by 1973, but the school property south of the site was still undeveloped. By 1980 the area around the subject site had been developed much as it is now except that the school property was still vacant. The school had been developed on that site by 1985.

4.03 Records Review

A. Standard Environmental Records Search:

The Environmental Records Search (**Appendix c**) of available Federal and State agency lists identifies 60 sites within the ASTM standard search radius of the subject site. Several sites may appear on more than one list.

B. NPL - National Priority List:

In 1980 contamination was discovered in the groundwater in the San Fernando Valley. The contaminants were industrial solvents including TCE and PCE. After several investigations into the groundwater contamination, four areas within the Valley were identified and placed in the NPL. The areas were the North Hollywood Wellfield Area, the Crystal Springs Wellfield Area, the Verdugo Wellfield Area, and the Pollock Wellfield Area. Extensive searches have been made to identify potential responsible parties (PRP's) for the contamination in the groundwater. None of the historic occupants of the subject site have been identified as PRP's. Remediation of the groundwater has been ongoing for several years primarily through extraction wells with solids being stripped from the water and vapor extraction used to remove VOC's. Groundwater monitoring is also ongoing with numerous monitoring wells installed in the affected wellfield areas.

The subject site is located at the southeastern end of the Crystal Springs Wellfield Area. The eastern boundary of the Pollock Wellfield Area is approximately 1.0 mile southwest of the subject site, and the Glorietta/Verdugo Wellfield Area is several miles north of the subject site. None of the identified contamination plumes is beneath the subject site.

Based upon the information available, the contamination in the groundwater is not a concern to recognized environmental concerns on the subject site.

C. CERCLIS - Comprehensive Environmental Response, Compensation, and Liability Information System:

No listings within the specified range.

D. FEDFAC - Federal Facilities:

No listings within the specified range.

E. ERNS - Emergency Response Notification System:

Neither of the sites listed is on or adjacent to the subject site and neither is considered to be a concern to recognized environmental concerns on the site..

F. HMIRS – Hazardous Material Incident Report System:

The site listed is not on or adjacent to the subject site and it is not considered to be a concern to recognized environmental concerns on the site.

G. SETS - Site Enforcement Tracking System:

The site listed is not on or adjacent to the subject site and it is not considered to be a concern to recognized environmental concerns on the site.

H. DO – Enforcement Docket System/Consent Decree Tracking System:

No listings within the specified range.

-
- I. CD – Criminal Docket System:
No listings within the specified range.
- J. ICIS – Integrated Compliance Information System:
47 Chevron Station 9 2885, 2960 W. Broadway, Status not defined, 0.8 miles up and cross slope and gradient.
- K. RCRA - RCRA Violators List:
No listings within the specified range.
- L. RCRA –D – Resource Conservation and Recovery Information System – Treatment, Storage & Disposal:
No listings within the specified range.
- M. FD - Federal Enforcement Dockets:
No listings within the specified range.
- N. FL – State Response Sites – Federal Lead:
Please refer to comments under NPL above.
- O. SR – State Response Sites:
No listings within the specified range.
- P. VCP – Voluntary Cleanup Program:
No listings within the specified range.
- Q. FE – Sites Needing Further Evaluation:
No listings within the specified range.
- R. ME – Military Evaluation Sites:
No listings within the specified range.

-
- S. EP – Expedited Remedial Action Program:
No listings within the specified range.
- T. BZ – Border Zone Properties:
No listings within the specified range.
- U. SCH – School Property Evaluation Program Properties:
No listings within the specified range.
- V. LUR – Brownfields Reuse Program Facility Sites with Land Use Restrictions:
No listings within the specified range.
- W. DR – Hazardous Waste Management Program Facility Sites with Deed/Land Use Restrictions:
No listings within the specified range.
- X. CA – Hazardous Waste Sites – Permitted & Corrective Action:
No listings within the specified range.
- Y. HIS – Historical Site:
54 Pacific Airmotive, 926 S. Brand Blvd., Status not identified,
0.95 miles cross slope and gradient.
- Z. AW - Annual Work Plan (State):
No listings within the specified range.
- J. CALS - CALSITES:
No listings within the specified range.
- AA. CORTESE - State of California:
No listings within the specified range.

-
- BB. Leaking Underground Storage Tanks (State & Regional):
- # 32 Mobil #11-816, 301 S. Verdugo Rd., Leak confirmed 8/30/91, only soil impacted, managed by a local agency, 0.45 miles up slope and gradient.
- The other seven (7) active sites are all more than 0.5 miles from the subject site and none are considered to be a concern to recognized environmental concerns on the site.
- CC. SWIS - Solid Waste Information System:
- # 45 City of Glendale Corporate Yard, 541 E. Chevy Chase Dr., active, limited volume transfer station, 0.6 miles cross slope and gradient.
- DD. NT - Toxic Releases:
- No listings within the specified range.
- EE. TPC - Toxic Pits:
- No listings within the specified range.
- FF. SWAT - Solid Waste Assessment Test (State & Regional):
- No listings within the specified range.
- GG. WIP - Well Investigation Program:
- No listings within the specified range.
- HH. WQ - Drinking Water Program:
- No listings within the specified range.

II. Operating Permits:

Operating permits are listed for information purposes only. There are 16 RCRA-G hazardous waste generator sites, 48 sites listed on the HWIS Hazardous Waste Information System and 14 permitted underground storage tank sites within the ASTM standard search radius of the subject site.

Two of the listed operating permits are on adjacent properties. They are:

- # 2 HCMG Glendale Burbank Medical Group, west of the subject site
- # 3 Glendale USD/Muir Elementary School, south of the subject site.

4.04 Historical Environmental Concerns or Liabilities

None known or discovered.

4.05 Previous Environmental Investigations: None Known

4.06 Section Summary

Based upon the available sources of information presented above, it is our opinion that:

- Past uses of the property have not contributed to recognized environmental concerns in the area.
- Past uses of adjoining properties do not pose a recognized environmental concern to the subject site.
- None of the sites listed on the Environmental Records Search pose a recognized environmental concern to the subject site either because of remoteness or because of relative slope and gradient.

5.00 INFORMATION FROM SITE RECONNAISSANCE AND INTERVIEWS**5.01 Hazardous Substances in Connection with Identified Uses**

Asbestos-containing materials: Asbestos survey to be supplied under separate cover.

Based upon the construction date of the buildings, painted surfaces are suspect of containing lead based paint. No flaking or peeling areas of paint were observed on the subject site during the site investigation.

No areas of visible mold were observed on the subject site during the site investigation.

5.02 PCB's

Fluorescent light fixture ballasts could not be examined for "No PCB's" labeling.

Ballasts which are not labeled are assumed by law to contain PCB's. Leaking ballasts must be removed by a person trained in the industrial hygiene, removal and disposal of PCB-containing materials. Any leaking ballasts should be removed, contained, manifested, and disposed in a Class 1 landfill or incinerated in a RCRA certified incinerator.

The following transformers were observed on the subject site:

There is a transformer on a pole behind the subject site and there is a transformer in a vault adjacent to the east side of the site. There is also electrical equipment which may include a transformer in a locked room in the basement of the building on the east side of the site. There is a sign on the door of that room saying that there are no PCB's in the equipment in that room. The other transformers were not identified as to possible PCB content. The transformers are the property of the Glendale Public Works Department and they would be responsible for any maintenance on their transformers.

Serial numbers: None visible.

The transformers may contain PCB's.

5.03 Radon Evaluation

Site specific sampling/analysis for radon gas was not included in this project.

The initial phase of the California Statewide Radon Survey conducted in 1990 indicates that 0.5% of the homes in U.S. EPA Region 9 (Los Angeles, Orange, San Bernardino, Riverside, Imperial and San Diego Counties) are predicted to have radon gas at levels above the EPA recommended level of 4.0 pCi/l⁸.

Based upon this data, it does not appear that elevated levels of radon gas are a significant problem in the buildings in the vicinity of this site.

5.04 Wastewater and Wastewater Management

- Drainage Lines and Ditches: None, the property drains to the street.
- Catch Basins: None
- Septic Tanks/Leach Fields: None
- Sanitary Sewers: City of Glendale
- Process Water Disposal: N/A
- Sumps: In the basement area of the four story building
- Wells/Cisterns: None
- Pits, Ponds, Lagoons: None
- Floor Drains: In the kitchen area and in the public restrooms.

5.05 Solid Waste Management Observations

Process Area: N/A

Storage Area: Dumpsters located in an enclosure in the parking area at the rear of the subject site serviced by Crown Disposal Co., (818) 767 0675.

Battery Storage Area: N/A

5.06 Liquid Waste

The only liquid wastes observed on the subject site during the site investigation kitchen grease and minor amounts of medical wastes. The kitchen grease is stored in a 55 gallon DOT drum in the loading dock area behind the kitchen and it is picked up for disposal on a regular basis. The medical waste is stored in red hazmat containers in the medical center area. It is picked up for disposal by a licensed disposal company on an as needed basis.

5.07 Hazardous Materials

No hazardous materials other than the medical wastes were observed on the subject site during the site investigation.

Storage Tanks: None

5.08 Physical Setting Analysis

As discussed earlier, the site is located in an area of alluvial deposits in the southeastern end of the San Fernando Valley. The site and immediate site area are fairly flat with a gentle slope toward the south

5.09 Sensitive Receptors/Areas Within 1,000 Feet of the Site

There are no day schools, habitats, wetlands, marshes, etc. within a 1,000 foot radius of the subject site.

John Muir Elementary School is across Garfield Avenue south of the subject site.

5.10 Section Summary

Based upon our site reconnaissance and interviews, no conditions were discovered that pose a recognized environmental concern for the subject site.

APPENDIX C

ENVIRONMENTAL RECORDS SEARCH

INTRODUCTION

This document, prepared in accordance with ASTM Standard E-1527-05 and 40 CFR 312.26; Reviews of Federal, State, Tribal, and local government records on 03-05-2009 at the request of PACIFIC SOUTHWEST GROUP, reports the findings of BBL's investigation of environmental concerns in the vicinity of 1230 E Windsor Rd, Glendale CA.

A total of 96 records were identified, representing 63 separate sites. None of these records relates to the subject site itself. In addition, 2 large area sites were found in the vicinity.

A total of 3 records with incomplete location information were found that could be close by the subject site.

The identified sites are grouped into two separate categories - sites with known environmental concerns (25) and sites which have just operating permits (38).

The report is divided into the following segments:

- ◆ Overview Table - An overview of all the identified records of concern summarized by distance and source.
- ◆ Topographic Map - of the surrounding area of the subject site.
- ◆ Contour Map - of the surrounding area of the subject site.
- ◆ Present Aerial Photograph - of the surrounding area of the subject site.
- ◆ Summary - listing of the identified records grouped by site and in order of distance to the subject property grouped into the categories of sites with Known Environmental Concerns and Operating Permits Only.
- ◆ Detailed Report - describing the sources investigated and the resulting findings.
- ◆ Fire Insurance Map review - describing the area of the subject site.

CONTOUR DATA IN THE VICINITY OF THE SUBJECT SITE LOCATED AT 1230 E WINDSOR RD, GLENDALE

- LIQUEFACTION
Areas where historic occurrence of liquefaction, or geological, geotechnical and groundwater conditions indicate a potential for permanent ground displacements such that mitigation as defined in Public Resources Code Section 2693(c) would be required.
- EARTHQUAKE-INDUCED LANDSLIDES
Areas where previous occurrence of landslide movement, or topographic, geological, geotechnical and subsurface water conditions indicate a potential for permanent ground displacements such that mitigation as defined in Public Resources Code Section 2693(c) would be required.
- LIQUEFACTION and EARTHQUAKE-INDUCED LANDSLIDES
- AREAS COVERED BY INVESTIGATION
- AREAS NOT COVERED BY INVESTIGATION

- EARTHQUAKE FAULT ZONES
As defined by the Alquist-Priolo Earthquake Fault Zoning Act described in Public Resource Code Chap 7.5 Div 2

Faults considered to have been active during Holocene time and to have a relatively high potential for surface rupture. Evidence of historical offset indicated by year of event or C for displacement caused by creep or possible creep
- Accurately located
- Approximately located
- Inferred location
- concealed location

ENVIRONMENTAL RECORD SEARCH
LISTED BY SOURCE

INTRODUCTION

BBL has used its best effort but makes no claims as to the completeness or accuracy of the referenced government sources or the completeness of the search. Our records are frequently updated but only as current as their publishing date and may not represent the entire field of known or potential hazardous waste or contaminated sites. To ensure complete coverage of the subject property and surrounding area, sites may be included in the list if there is any doubt as to the location because of discrepancies in map location, zip code, address, or other information in our sources. For additional information call 858 793-0641.

In accordance with ASTM E-1527-05, the following government sources have been searched for sites at the street address, within the distances of the subject location listed below.

FEDERAL SOURCES

NPL National Priority List

EPA has prioritized sites with significant risk to human health and the environment. These sites receive remedial funding under the Comprehensive Environmental Response Conservation and Liability Act (CERCLA).

This list has been researched within 1 mile radius of the subject site.

Site: SAN FERNANDO VALLEY
Address: CRYSTAL SPRINGS WELLFIELD AREA
City: GLENDALE
Status: F - Currently on the Final NPL
EPA ID#: CAD980894901

Discovery of this Hazardous Waste site was brought to EPA's attention on 12/01/83. A numeric estimate of the relative severity of a hazardous substance release and its potential, computed using the Hazard Ranking System, was established on 04/01/84. The Preliminary Assessment, consisting of collecting and documenting existing information about the source and nature of the site hazard was completed on 04/01/84. On 04/01/84, a screening Site Inspection was completed, collecting site data and samples to characterize the severity of the hazard to support the ranking and enforcement of the clean-up required.

As published in the Federal Register on 10/15/84, this site was proposed to be placed on the National Priority List (NPL), based on the site's Hazard Ranking Score. A search of PRPS was initiated on 09/30/84. The action was completed on 08/15/85. On 06/10/86, the proposed NPL status was converted to Final Status. A Removal Investigation was started on 06/17/91, collecting field data on the actual hazardous substance at the site for the purpose of characterizing the magnitude and severity of the hazard. The action was completed on 06/17/91. A search of PRPS was initiated on 10/01/89. The action was completed on 06/30/93. A voluntary and enforceable agreement, Administrative Order of Consent, pursuant to CERCLA was signed by EPA and PRPS on 03/30/94, whereby the PRPS agree to perform and/or pay for the response costs involved in site cleanup. The order describes the PRP response to be taken at the site, stipulated penalties, indemnification, effective date, and may be subject to public comment. Discussions and information exchange were started on 09/30/93 between PRPS and EPA over the PRPS's liability, willingness and ability to conduct the remedial design and action as identified in the ROD. The action was completed on 03/30/94. Discussions and information exchange were started on 10/12/95 between PRPS and EPA over the PRPS's liability, willingness and ability to conduct the remedial design and action as identified in the ROD. The action was completed on 11/26/96. An Administrative Order was issued on 11/26/96 by the EPA unilaterally (under section 106 of SARA). An Administrative Order was issued on 09/30/97 by the EPA unilaterally (under section 106 of SARA). An enforcement

instrument (e.g. Consent Decree) is lodged by DOJ with the court. A judicial Consent Decree was entered between the Federal government and the PRPS settling a claim under CERCLA. A Judicial referral under section 107 for recovery from PRPS was made on 03/04/97. A package was prepared in support of cost recovery actions containing site-specific cost documentation information for direct expenditures and indirect costs. A voluntary and enforceable agreement, Administrative Order of Consent, pursuant to CERCLA was signed by EPA and PRPS, whereby the PRPS agree to perform and/or pay for the response costs involved in site cleanup. The order describes the PRP response to be taken at the site, stipulated penalties, indemnification, effective date, and may be subject to public comment.

ACTIONS AT OVERALL SITE/AREAWIDE

Data was collected on 08/16/85 for analyses of the site problem, identification of preliminary remedial alternatives, and recommendations of a cost-effective remedy (RI/FS). Participation in the conduct of fund-financed Remedial Investigation/Feasibility Study (RI/FS). A baseline risk assessment was performed on 12/15/92 assessing the the hazard posed by the site which determines of whether an imminent and substantial endangerment of public health or the environment exists. The action was completed on 12/15/92. Assessment was started on 12/15/92 of the baseline risks posed by the site to ecological receptors.

ACTIONS AT GLENDALE NORTH TO RD ONLY

Data was collected on 06/18/93 for analyses of the site problem, identification of preliminary remedial alternatives, and recommendations of a cost-effective remedy (RI/FS). An additional final Record of Decision (ROD) was approved on 06/18/93 indicating that the agency has chosen the remedy for the site. Oversight was provided on 11/11/96 of Potentially Responsible Party (PRP) response action for Remedial Design (RD), including all activities for monitoring and supervising the performance of the responsible parties to determine whether such performance is consistent with the requirements of the administrative orders on consent, unilateral administrative orders, consent decrees, judicial decrees, information agreements, and compliance schedules.

ACTIONS AT GLENDALE SOUTH(TO ROD)&COMBINE

Data was collected on 06/18/93 for analyses of the site problem, identification of preliminary remedial alternatives, and recommendations of a cost-effective remedy (RI/FS). An additional final Record of Decision (ROD) was approved on 06/18/93 indicating that the agency has chosen the remedy for the site. Oversight was provided on 11/11/96 of Potentially Responsible Party (PRP) response action for Remedial Design (RD), including all activities for monitoring and supervising the performance of the responsible parties to determine whether such performance is consistent with the requirements of the administrative orders on consent, unilateral administrative orders, consent decrees, judicial decrees, information agreements, and compliance schedules. EPA reviews on 12/02/99 a formal request for a Prospective Purchaser Agreement (PPA), resulting in a decision to grant or deny the request. An additional voluntary and enforceable agreement, Administrative Order of Consent, pursuant to CERCLA was signed by EPA and PRPS, whereby the PRPS agree to perform and/or pay for the response costs involved in site cleanup. The order describes the PRP response to be taken at the site, stipulated penalties, indemnification, effective date, and may be subject to public comment. EPA reviews a formal request for a Prospective Purchaser Agreement (PPA), resulting in a decision to grant or deny the request. An additional voluntary and enforceable agreement, Administrative Order of Consent, pursuant to CERCLA was signed by EPA and PRPS, whereby the PRPS agree to perform and/or pay for the response costs involved in site cleanup. The order describes the PRP response to be taken at the site, stipulated penalties, indemnification, effective date, and may be subject to public comment. Oversight was provided on 10/17/97 of Potentially Responsible Party (PRP) response action for Remedial Action (RA), including all activities for monitoring and supervising the performance of the responsible parties to determine whether such performance is consistent with the requirements of the administrative orders on consent, unilateral administrative orders, consent decrees, judicial decrees, information agreements, and compliance schedules. Oversight was provided of responsible party response action for Long Term Response (LR), including all activities for monitoring and supervising the performance of the responsible parties to determine whether such performance is consistent with the requirements of the administrative orders on consent, unilateral administrative orders, consent decrees, judicial decrees, information agreements, and compliance schedules. The Long Term Response includes all site requirements associated with a remedy that must be performed after completion of a remedial action.

ACTIONS AT SITEWIDE CHROMIUM

An additional Administrative Order was issued by the EPA unilaterally (under section 106 of SARA). Oversight was provided of Potentially Responsible Party (PRP) response action for Remedial Investigation/Feasibility Study (RI/FS), including all activities for monitoring and supervising the performance of the responsible parties to determine whether such performance is consistent with the requirements of the administrative orders on consent, unilateral administrative orders, consent decrees, judicial decrees, information agreements, and compliance schedules. An additional voluntary and

enforceable agreement, Administrative Order of Consent, pursuant to CERCLA was signed by EPA and PRPS, whereby the PRPS agree to perform and/or pay for the response costs involved in site cleanup. The order describes the PRP response to be taken at the site, stipulated penalties, indemnification, effective date, and may be subject to public comment. An additional voluntary and enforceable agreement, Administrative Order of Consent, pursuant to CERCLA was signed by EPA and PRPS, whereby the PRPS agree to perform and/or pay for the response costs involved in site cleanup. The order describes the PRP response to be taken at the site, stipulated penalties, indemnification, effective date, and may be subject to public comment.

271793SAN FERNANDO #2 IS AN AREA OF CONTAM GRD WTR IN VICINITY OF CRYSTAL SPRINGS WELL FLD AREA IN L.A., CO. PART OF THE SAN FERNANDO VLY BASIN, A NATURAL UNDRD RESERVOIR, SOURCE OF DRK WTR FOR 3 MIL. CONTAMINATED WITH TCE & PCE.

RECORD OF DECISION (EPA/ROD/R09-93/093) was issued on 06/18/93 (Copy of complete text of the ROD is available from BBL).

Contaminants: VOCs, Other Organics, Metals, Inorganics

SITE HISTORY/DESCRIPTION:

The San Fernando Valley Area 2 (Operable Unit 3) site is part of the Crystal Springs NPL site, which is one of four San Fernando Valley Superfund sites in Los Angeles County, California. Land use in the area is mixed industrial, commercial, and residential. The 122,800-acre Glendale Study Area is located within the San Fernando Basin, is adjacent to the Los Angeles River, and consists of the North Plume and the South Plume, which are two main portions of the aquifer in the San Fernando Basin where high concentrations of contaminants have been identified. An estimated 800,000 residents use the ground water of the San Fernando Basin as a significant source of their drinking water supply. In 1980, after finding organic chemical contamination in the ground water of the San Gabriel Valley, the State ordered all major water purveyors in the San Fernando Valley using ground water to conduct tests for the presence of certain industrial chemicals. Initial and subsequent testing revealed the presence of VOCs in the San Fernando Valley ground water. As a result, several municipal supply wells were taken out of service in Los Angeles, Burbank, and Glendale. By 1986, four sites within the San Fernando Valley had been added to the NPL; the North Hollywood, Crystal Springs, Verdugo, and Pollock sites, also referred to as San Fernando Valley Areas 1, 2, 3, and 4, respectively. EPA has preliminarily identified twelve facilities that are located in the vicinity of the Glendale Study Area (South Plume) and that are potentially responsible for the ground water contamination. 1987 and 1989 RODs addressed interim remedies for contaminated ground water at the North Hollywood site and the Burbank site, respectively. This ROD addresses an interim remedy for the Glendale South Study Area, which includes the South Plume of VOC contamination and adjacent areas where contamination is known or believed to have migrated, as OU3. Another 1993 ROD addresses the Glendale North Study Area, as OU2. Future RODs will address additional OUs and a final remedy for the San Fernando Valley Areas 1, 2, 3, and 4. The primary contaminants of concern affecting the ground water are VOCs, including PCE and TCE; other organics, including PAHs; metals, including chromium; and other inorganics, including nitrates.

SELECTED REMEDIAL ACTION:

The selected interim remedial action for this site includes installing new extraction wells in locations to most effectively inhibit the migration of the contaminant plume and maximize extraction of the most contaminated ground water; extracting approximately 2,000 gpm of contaminated ground water; filtering the extracted ground water to remove suspended solids, if necessary, followed by onsite treatment to remove VOCs using single-stage or dual-stage air stripping or liquid phase GAC; using vapor-phase GAC adsorption for emissions control, if air stripping is used; implementing a chromium reduction and filtration unit to meet drinking water standards, if necessary; blending the VOC-treated water offsite with water that does not contain nitrate in excess of the nitrate MCL to reduce nitrate levels, followed by delivering water to the Glendale public drinking water supply system or another municipal system; providing for a contingency remedy with no nitrate treatment/blending and with recharge of the treated water into the aquifer at the Headworks Spreading Ground for the treated ground water, if the City of Glendale or another municipality does not accept any or all of the treated water; and installing ground water monitoring wells to evaluate the effectiveness of the remedy. In order to decrease cost, treatment, and delivery of treated water for the Glendale North and Glendale South operable units will be combined. The estimated present worth cost for this interim remedial action is \$25,020,000, which includes an estimated annual O&M cost of \$1,852,000 for 12 years. Additional costs for chromium treatment, if necessary, include an estimated present worth cost of \$6,750,000, which includes an estimated annual O&M cost of \$611,000 for 12 years. If the treatment plants for the Glendale North and South Plumes are combined as planned, the estimated present worth cost for both would be \$47,532,000.

PERFORMANCE STANDARDS OR GOALS:

Chemical-specific cleanup goals for the treatment plant effluent from the Glendale South OU are based on Federal MCLs for VOCs and any more stringent State MCLs for VOCs, and include bis(2-ethylhexyl) phthalate 4 ug/l; carbon tetrachloride 0.5 ug/l; 1,1-DCA 5 ug/l; 1,2-DCA 0.5 ug/l; 1,1-DCE 6 ug/l; 1,2-DCE 6 ug/l; 1,1,2,2-PCE 1 ug/l; PCE 5 ug/l, and TCE 5 ug/l.

INSTITUTIONAL CONTROLS:

Not provided.

Remedy:

Site: SAN FERNANDO VALLEY
Address: POLLOCK WELLFIELD
City: LOS ANGELES
Status: F - Currently on the Final NPL
EPA ID#: CAD980894976

.Discovery of this Hazardous Waste site was brought to EPA's attention on 12/01/83. A numeric estimate of the relative severity of a hazardous substance release and its potential, computed using the Hazard Ranking System, was established on 04/01/84. The Preliminary Assessment, consisting of collecting and documenting existing information about the source and nature of the site hazard was completed on 04/01/84. On 04/01/84, a screening Site Inspection was completed, collecting site data and samples to characterize the severity of the hazard to support the ranking and enforcement of the clean-up required.

As published in the Federal Register on 10/15/84, this site was proposed to be placed on the National Priority List (NPL), based on the site's Hazard Ranking Score. A search of PRPS was initiated on 09/30/84. The action was completed on 08/15/85. On 06/10/86, the proposed NPL status was converted to Final Status. A Removal Investigation was started on 06/17/91, collecting field data on the actual hazardous substance at the site for the purpose of characterizing the magnitude and severity of the hazard. The action was completed on 06/17/91. A search of PRPS was initiated on 10/01/89. The action was completed on 06/30/93. A voluntary and enforceable agreement, Administrative Order of Consent, pursuant to CERCLA was signed by EPA and PRPS, whereby the PRPS agree to perform and/or pay for the response costs involved in site cleanup. The order describes the PRP response to be taken at the site, stipulated penalties, indemnification, effective date, and may be subject to public comment.

ACTIONS AT OVERALL SITE/AREAWIDE

Data was collected on 08/16/85 for analyses of the site problem, identification of preliminary remedial alternatives, and recommendations of a cost-effective remedy (RI/FS). A baseline risk assessment was performed on 12/15/92 assessing the the hazard posed by the site which determines of whether an imminent and substantial endangerment of public health or the environment exists. The action was completed on 12/15/92. Assessment was started on 12/15/92 of the baseline risks posed by the site to ecological receptors.

ACTIONS AT POLLOCK

Data was collected on 09/28/92 for analyses of the site problem, identification of preliminary remedial alternatives, and recommendations of a cost-effective remedy (RI/FS).
270600SAN FERNANDO #4 IS AN AREA OF CONTAM GRD WTR IN POLLOCK WELLFLD AEA IN LOS ANGELES,CA.PART OF SAN FERNANDO VLY BASIN,A NATURAL UNDRD RESERVOIR THAT IS SOURCE OF DRK WTR FOR 3 MILGRD WTR CONTAM WITH TCE & PCE.

Site: SAN FERNANDO VALLEY
Address: GLORIETTA WELLFIELD AREA
City: GLENDALE
Status: D - Deleted from the NPL
EPA ID#: CAD980894984

.Discovery of this Hazardous Waste site was brought to EPA's attention on 12/01/83. A numeric estimate of the relative severity of a hazardous substance release and its potential, computed using the Hazard Ranking System, was established on 04/01/84. The Preliminary Assessment, consisting of collecting and documenting existing information about the source and nature of the site hazard was completed on 04/01/84. On 04/01/84, a screening Site Inspection was completed, collecting site data and samples to characterize the severity of the hazard to support the ranking and enforcement of the clean-up required.

As published in the Federal Register on 10/15/84, this site was proposed to be placed on the National Priority List (NPL), based on the site's Hazard Ranking Score. A search of PRPS was initiated on 09/30/84. The action was completed on 08/15/85. On 06/10/86, the proposed NPL status was converted to Final Status. A Removal Investigation was started on 06/17/91, collecting field data on the actual hazardous substance at the site for the purpose of characterizing the magnitude and severity of the hazard. The action was completed on 06/17/91. The site was deleted from the NPL.

ACTIONS AT VERDUGO

An additional Remedial Investigation was started on 09/30/85 to gather the data to determine the nature and extent of problems at the site; establish cleanup criteria; identify preliminary alternative remedial actions; and support technical cost analyses of the alternatives. The action was completed on 12/31/92. Data was collected on 08/16/85 for analyses of the site problem, identification of preliminary remedial alternatives, and recommendations of a cost-effective remedy (RI/FS). An additional final Record of Decision (ROD) was approved indicating that the agency has chosen the remedy for the site.

273220The Verdugo Study Area covers an area of approximately 2,000 acres of the 4,400 acre Verdugo Basin, which is situated in the eastern portion of the San Fernando Valley Basin (SFVB). The Verdugo Basin is bounded on the northeast by the San Gabriel Mountains, on the west by the Verdugo Mountains, and on the southeast by the San Rafael Hills. The Verdugo Study Area is generally considered a small tributary of the larger SFVB ground water basin. Land use in the Verdugo Study Area is primarily residential along the floor of the valley, and undeveloped open space in surrounding mountains. A northwest-oriented strip of commercial development is present along Foothill Boulevard, and a commercial sector is present in the southern portion of the basin. The Verdugo Study Area is not an industrial area and does not contain a point source that is a primary source of groundwater contamination. Rather, it is an area of historical and current residential, commercial, and limited agricultural use with contamination likely due to non-point sources. In 1981, the Los Angeles Department of Water and Power (LADWP) began a 2-year study designed to assess groundwater contamination in the SFVB, including wells located in the Glorietta, Glenwood, and Mills Well Fields in the Verdugo Basin. More than 600 water supply wells were sampled as part of this program. Additional work included a review of existing hydrogeologic data and industrial site surveys. Results of this work are presented in the Groundwater Quality Management Plan for the San Fernando Valley Basin, and indicated that 45 percent of LADWP supply wells in the eastern SFVB contained trichloroethene (TCE) in excess of maximum contaminant levels (MCLs) and/or perchloroethene (PCE) in excess of 1983 state action levels. Pursuant to California Assembly Bill 1803 (AB 1803), wells within the SFVB were sampled in 1983 for volatile organic compounds (VOCs), semivolatile organic compounds (SVOCs), and pesticides/herbicides. The current

273221t EPA and California Department of Health Services (DHS) MCL for both TCE and PCE is 5.0 parts per billion (ppb). Results of the 1983 sampling revealed concentrations of VOCs above MCLs in several SFVB well fields. TCE and PCE were the two most common VOCs detected. PCE was the main contaminant detected in the Verdugo Study Area, and was detected in excess of its MCL (52 ppb during 1982) in several water supply production wells in this basin. In 1986, at the request of the State of California, EPA placed four areas within the SFVB on the National Priorities List (NPL) as individual Superfund sites, due to the presence of VOCs (TCE and PCE) in groundwater that had been detected in concentrations that exceeded state and federal drinking water standards. The four areas are: North Hollywood (Area 1) containing the North Hollywood Operable Unit (OU) and the Burbank OU; Crystal Springs (Area 2) containing the Glendale North and South OUs; Verdugo (Area 3); and Pollock (Area 4). The Verdugo Basin is generally considered a small tributary of the larger SFV groundwater basin. EPA subsequently entered into a cooperative agreement with the LADWP to conduct a Remedial Investigation (RI) of the SFVB. The RI included a baseline risk assessment for the eastern portion of the SFVB. In 1989, LADWP completed a soil gas sampling and analysis program within the SFVB designed to better define limits of shallow groundwater contamination. In the Verdugo Study Area, 73 soil gas samples were obtained and analyzed. Based upon results of soil gas sampling and available data from existing wells, seven vertical profile borings (VPBs) in the Verdugo Study Area were converted into shallow monitoring wells in 1990. A baseline risk assessment was conducted in conjunction with the San

Fernando Valley RI in 1991. This baseline risk assessment was completed on a regional scale, addressing compounds that exceeded MCLs in the groundwater of the entire eastern portion of the SFVB, which incl

273222udes the Verdugo Study Area. The primary contributors to risks were evaluated based on a reasonable maximum exposure (RME) calculated from observed VOC concentrations. These RMEs were calculated based on regional data rather than from specific areas within the SFVB. In the Verdugo Study Area, the levels of contaminants observed were significantly lower than the concentration levels used to calculate risk for the entire SFVB; no VOCs were observed at concentrations exceeding their respective MCLs. EPA completed a hydrogeologic site assessment of the Verdugo Study Area in 1993. This document assisted in evaluating the nature and extent of groundwater contamination in the basin and provided recommendations for ongoing monitoring of groundwater contamination. A further evaluation of the geological setting, groundwater recharge, discharge and flow conditions, and a summary of water quality was conducted. Since the completion of the RI in 1992 through 2002, EPA has continued to monitor groundwater quality by sampling groundwater in wells in the Verdugo Study Area four times a year as part of the SFVB basinwide monitoring program. The right to use groundwater in the Verdugo Study Area is strictly controlled by a 1979 adjudicated judicial agreement (Judgment) concerning water rights in the SFVB. Under the Judgment, only the City of Glendale and the Crescenta Valley Water District (CVWD), formerly the Crescenta Valley County Water District (CVCWD), can use surface and groundwater in the Verdugo Study Area. Groundwater within the Verdugo Study Area is used as a source of potable water supply by the City of Glendale and the CVWD. Land use in the Verdugo Study Area is primarily residential along the floor of the valley, and undeveloped open space in surrounding mountains. A northwest-oriented strip of commercial development is present along Foothill Boulevard, and a commercial sector is present in the southern portion of the basin. The basin contains four scattered ag

273223ricultural areas, and no industrial development. The CVWD produces approximately 65% of its customers' annual water demand from the operation of groundwater wells, all located in the lower, southerly portion of the Crescenta Valley. The remainder of the District's water supply is treated surface water purchased from the Foothill Municipal Water District (FMWD). The District and the City of Glendale are the only two water-rights holders in the Verdugo Basin by the order of a court adjudication of the entire San Fernando Basin decreed in 1979. Overall groundwater supply management of both basins is performed by a court-appointed Watermaster and his staff working in the office of the Los Angeles Department of Water & Power. A Record of Decision addressing OU2 at the Verdugo Study Area (SFVB Area 3) was completed in February 2004.

CERCLIS Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS is a database used by the EPA to track activities conducted under the Comprehensive Environmental Response and Liability Act CERCLA (1980) and the amendment the Superfund Amendments and Reauthorization Act SARA (1986).

Sites to be included are identified primarily by the reporting requirements of hazardous substances Treatment, Storage and Disposal (TSD) facilities and releases larger than specific Reportable Quantities (RQ), established by EPA.

Using the National Oil and hazardous Substance Pollution Contingency Plan (National Contingency Plan) the EPA set priorities for cleanup.

The EPA rates National Contingency Plan sites according to a quantitative Hazard Ranking System (HRS) based on the potential health risk via any one or more pathways: groundwater, surface water, air, direct contact, and fire/explosion.

The EPA and state agencies seek to identify potentially responsible parties (PRP) and ultimately Responsible Parties (RP) who can be required to finance cleanup activities, either directly or through reimbursement of federal Superfund expenditures.

Any Institutional/Engineering controls issued under CERCLA are described in the status detail for each site. Sites delisted from the NPL list are included here.

No listings within 1 mile radius of the subject site.

NFRAP No Further Remedial Action Planned sites (CERCLIS)

As of February 1995, CERCLIS sites designated 'No Further Remedial Action Planned' NFRAP have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the site being placed on the NPL, or the contamination was not serious enough to require Federal Superfund action or NPL consideration.

EPA has removed these NFRAP sites from CERCLIS to lift unintended barriers to the redevelopment of these properties. This policy change is part of EPA's Brownfields Redevelopment Program to help cities, states, private investors and affected citizens promote economic redevelopment of unproductive urban sites.

Discovery of this Hazardous Waste site was brought to EPA's attention on 06/01/81. The Preliminary Assessment, consisting of collecting and documenting existing information about the source and nature of the site hazard was completed on 11/01/84.

FEDFAC Federal Facilities

As part of the CERCLA program, federal facilities with known or suspected environmental problems, the Federal Facilities Hazardous Waste Compliance Docket is tracked separately to comply with a Federal Court order.

No listings within 1 mile radius of the subject site.

ERNS Emergency Response Notification System

The ERNS is a national computer database used to store information on unauthorized releases of oil and hazardous substances. The program is a cooperative effort of the Environmental Protection Agency, the Department of Transportation Research and Special Program Administration's John Volpe National Transportation System Center and the National Response Center.

There are primarily five Federal statutes that require release reporting the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) section 103; the Superfund Amendments and Reauthorization Act (SARA) Title III Section 304; the Clean Water Act of 1972(CWA) section 311(b)(3); and the Hazardous Material Transportation Act of 1974(HMTA section 1808(b).

CLEANED TRAIN AND TRACKS.
NO ADDITIONAL INFORMATION..

HMIRS Hazardous Material Incident Report System

The Hazardous Material Report Incident Report Subsystem HMIRS of the Research and Special Programs Administration (RSPA) Hazardous Material Information System was established in 1971 to fulfill the requirements of the Federal hazardous material transportation law. Part 171 of Title 49, Code of Federal Regulations (49 CFR) contains the incident reporting requirements of carriers of hazardous materials. An unintentional release of hazardous materials meeting the criteria set forth in Section 171.16, 49 CFR, must be reported on DOT Form 5800.1. The data from the reports received are subsequently entered in the HAZMAT database.

On 07/30/2001, an incident involving a van occurred. 70% HYDROFLUORIC ACI was released.

TBA Targeted Brownfields Assessments

EPA's Targeted Brownfields Assessment (TBA) program is designed to help states, tribes, and municipalities especially those without EPA Brownfields Assessment Pilots/Grants minimize the uncertainties of contamination often associated with brownfields. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Program to promote the cleanup and redevelopment of brownfields. EPA's TBA assistance is available through two sources: directly from EPA through EPA Regional Brownfields offices under Subtitle A of the law, and from state or tribal voluntary response program offices receiving funding under Subtitle C of the law

No listings within 1 mile radius of the subject site.

SETS Site Enforcement Tracking System (SETS)

When expanding Superfund monies at a CERCLA (Comprehensive Environmental Response, Compensation and Liability Act) Site, EPA must conduct a search to identify parties with potential financial responsibility for remediation of uncontrolled hazardous waste sites. EPA regional Superfund Waste Management Staff issue a notice letter to the potentially responsible party (PRP). The status field contains the EPA ID number and name of the site where the actual pollution occurred.

DO Enforcement Docket System (DOCKET)/Consent Decree Tracking System (CDETS)

DOCKET tracks civil judicial cases against environmental polluters, while CDETS processes court settlements, called consent decrees.

No listings within half of a mile radius of the subject site.

CD Criminal Docket System (C-DOCKET)

The Criminal Docket System is a comprehensive automated system for tracking criminal enforcement actions. C-Docket handles data for all environmental statues and tracks enforcement actions from the initial stages of investigations through conclusion.

No listings within half of a mile radius of the subject site.

ICIS Integrated Compliance Information System (ICIS)

ICIS is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

RCRA RCRA Violators List (CORRACTS)

The Resource Conservation and Recovery Act of 1976 provides for "cradle to grave" regulation of hazardous wastes. RCRA requires regulation of hazardous waste generators, transporters, and storage/treatment/disposal sites. Evaluation to potential violations, ranging from manifest requirements to hazardous waste discharges, is typically conducted by the US EPA. This database is also known as Corrective Action Report (CORRACTS)

If enforcement is required, it is typically delegated to a state agency.

Any Institutional/Engineering controls issued under CORRACTS are described in the status detail for each site

No listings within 1 mile radius of the subject site.

RCRA-D Resource Conservation and Recovery Information System - Treatment, Storage & Disposal

The Environmental Protection Agency regulates the treatment, storage and disposal of hazardous material through the Resource Conservation and Recovery Act (RCRA). All hazardous waste TSD facilities are required to notify EPA of their existence by submitting the Federal Notification of Regulated Waste Activity Form (EPA Form 8700-12) or a state equivalent form as well as part A (EPA form 8700-23) and Part B of their Hazardous Waste Permit Application.

Status Codes:	I	Incinerator
	T	Storage/Treatment facility other than Incinerator
	D	Land Disposal Facility

No listings within 1 mile radius of the subject site.

FD Federal Enforcement Dockets

The US EPA, Office of Enforcement, maintains a list of sites under enforcement by the US EPA.

No listings within 1 mile radius of the subject site.

CALIFORNIA STATE SOURCES

FL State Response Sites - Federal Lead

The Site Mitigation and Brownfields Reuse Database (SMBRD) identifies certain high priority hazardous waste sites where the U.S. EPA is the lead agency. These sites are typically proposed, on or delisted from the National Priority List.

This list has been researched within 1 mile radius of the subject site.

Site: SAN FERNANDO VALLEY GROUNDWATER
Address: POLLOCK WELLFIELD
City: LOS ANGELES
Status: id: 19990009 010184 NONCLASSIFIABLE ESTABLISHMENTS
Program: MULTI-SITE COOPERATIVE AGREEMENT

The San Fernando Valley Ground Water Basin (SFVGB) is located within the Upper Los Angeles River Area and consists of the eastern portion of the San Fernando Valley and the entire Verdugo Basin. The SFVGB encompasses approximately 112,000 acres of alluvial valley fill deposits and provides enough water to serve approximately 600,000 residents. The Basin is bounded on the north and the northwest by the Santa Susana Mountains, on the northeast by the San Gabriel Mountains, on the west by the Simi Hills and on the south by the Santa Monica Mountains. The San Fernando Valley Study area includes four National Priorities List (NPL) sites. They are: Area #1 - North Hollywood NPL Site covers 9336 acres in the eastern part of the San Fernando Valley. The site has been divided into the North Hollywood Operable Unit (OU) and the Burbank OU Area #2 - Crystal Springs NPL Site covers 3975 acres southeast of the North

Hollywood NPL Site and is located in the cities of Glendale and Los Angeles. Area #3 - Verdugo NPL Site covers 2673 acres in the eastern part of the San Fernando Valley and is located in and adjacent to La Crescenta in the Verdugo Mountains. Area #4 - the Pollock NPL Site covers 1635 acres in the southeastern part of the San Fernando Valley and is located in and adjacent to the cities of Los Angeles and Glendale. Groundwater contamination in the SFVGWB is linked to prewar, postwar, and current industrialization in the San Fernando Valley. The contaminants of concern are volatile organic compounds (VOCs), trichloroethylene (TCE) and tetrachloroethylene (PCE) which have been and/or are being used in many San Fernando Valley industries, such as aeronautical, automotive, dry cleaning, and metal plating. These solvents have found their way to the groundwater basin as a result of both past and improper use, storage and disposal practices. The SFVGWB Superfund sites, added to the NPL in 1986, are areas where groundwater from wells have been found to contain VOCs above the state and federal drinking water standards. Groundwater contamination at numerous wells have been so severe with TCE and PCE that these wells have essential put out of commission. Exposure of receptors to contaminants can possibly occur through ingestion of contaminated drinking water, inhalation of VOCs released from the contaminated water as in taking showers, and dermal exposure as in washing or bathing. However, with the strict regulatory control over water quality by the State's Department of Health, Office of Drinking Water (ODW), the RWQCB, and other agencies, residents are assured that the water they consume is safe and that no one is drinking water which contains concentrations of contaminants above regulatory standards. Federal, state, and local agencies have been conducting investigation and cleanup of contaminated groundwater in the SFVGWB since contamination was discovered in 1979. These activities involve measuring the extent of contamination, developing & implementing cleanup remedies, and identifying responsible parties. EPA provided oversight of the basinwide Remedial investigation (RI) of groundwater contamination conducted by the Los Angeles Department of Water and Power (LADWP). The RI objectives were to collect lithological and water quality data and information regarding basin operations for the eastern SF and Verdugo basins; develop a regional characterization of geology, hydrology, and the nature and extent of groundwater contamination within the eastern and Verdugo basins; study fate and transport of compounds in the environment; identify ARARs; and evaluate the potential risk to human health and the environment. The Remedial investigations of the SFVGWB were divided into two phases: Phase I activities have included vertical profile borings and installation of monitoring wells to obtain preliminary contaminant information. Monitoring wells have been installed as follows: 34 in North Hollywood (Area #1); 29 in Crystal Springs (Area #2); 7 in Verdugo (Area #3); and 17 in Pollock (Area #4). Information obtained from Phase I investigation activities identified the need for several operable units. Operable Unit is a federal term which is similar to the State's definition of a removal action. Phase II activities consist of a basinwide remedial investigation conducted by LADWP. Remedial Actions (RAs): North Hollywood (Area #1) -- Two RAs were identified for Area #1, the North Hollywood OU and the Burbank OU. A Record of Decision (ROD) for the North Hollywood RA was signed in September 1987, selecting groundwater extraction and treatment (air stripping) of 2,000 gallons per minute (gpm) of contaminated water as an interim remedy. This RA was constructed with funding from EPA and the State and has been treating contaminated groundwater since March 1989. This facility is located at 11845 Vose Street in the N. Hollywood section of Los Angeles. A ROD for the Burbank OU was signed in June 1989, again selecting groundwater extraction and treatment of about 12,000 gpm of contaminated water. Negotiations are continuing with PRPs for the design and construction of this RA. Crystal Springs (Area #2) -- LADWP has completed a focused RI/FS for this proposed RA. The Glendale OU was separated into a North OU and a South OU based on the amount of contamination and the facilities contributing to the GW contamination. A ROD for each OU was signed on June 18, 1993 designating groundwater extraction and treatment as the interim remedy. The PRPs formed a group and combined the RA efforts for each OU into one document. The selected alternative is GW extraction and treatment. Verdugo and Pollock (Areas #3 and #4) -- Currently no RAs have been identified for Area #3 or for Area #4. In October 2003, US EPA proposed No Remedial Action for Verdugo Basin (Area #3). EPA and the RWQCB are identifying potential sources of contamination and pursuing PRPs that may be responsible for contaminating groundwater. As these PRPs are identified, individual site investigations and mitigation activities will be pursued. Enforceable agreements and orders have been implemented at numerous specific potential source sites within the Basin by RWQCB and the Department.

(01/01/84) This is the date the site was first listed AWP pursuant to Section 25356.

(01/01/95) The U.S. EPA will not pursue a Remedial Investigation in the Pollock OU. U.S. EPA has determined that the groundwater extraction system that will be implemented by the LADWP constitutes treatment and will be an adequate interim remedial measure to contain the groundwater plume. U.S. EPA is funding the LARWQCB to investigate and cleanup soil contamination.

(07/25/91) Area 4 covers 5,829 acres in the Pollock Area and is located in and adjacent to the cities of Los Angeles and Glendale. Groundwater is contaminated with TCE and PCE.

(09/20/01) The Pollock Wells treatment plant returned to operation on 7/24/2001. After replacement of spent GAC from the previous years operation. With the exception of the one week the plant was shutdown for the carbon replacement, the plant has been operating continuously with Pollock wells #4 and #6 pumping. In the months of July and August approximately 130 million gallons of water was treated.

Site: SAN FERNANDO VALLEY (AREA 2)
Address: CRYSTAL SPRINGS WELLFIELD AREA
City: GLENDALE
Status: id: 19990012 010184 NONCLASSIFIABLE ESTABLISHMENTS
Program: MULTI-SITE COOPERATIVE AGREEMENT

Actions:

PUBLIC PARTICIPATION PLAN - completed on 04/30/90.
REMEDIAL INVESTIGATION / FEASIBILITY STUDY (GLNOU) - completed on 01/30/92.
REMEDIAL INVESTIGATION / FEASIBILITY STUDY - completed on 04/30/92.
REMEDIAL INVESTIGATION / FEASIBILITY STUDY (SOUTH) - completed on 08/30/92.
REMEDIAL ACTION PLAN / RECORD OF DECISION (GLNOU) - completed on 06/18/93.
REMEDIAL ACTION PLAN / RECORD OF DECISION (GLSOU) - completed on 06/18/93.
I/SE, IORSE, FFA, FFSRA, VCA, EA (AOC) - completed on 03/30/94.
DESIGN (GLOU) - completed on 11/11/96.
REMEDIAL ACTION (RAP REQUIRED) (GLOU) - completed on 04/23/01.
OPERATION & MAINTENANCE (GLOU) - is scheduled to be completed on 09/30/20.

The San Fernando Valley Ground Water Basin (SFVGB) is located within the Upper Los Angeles River Area and consists of the eastern portion of the San Fernando Valley and the entire Verdugo Basin. The SFVGB encompasses approximately 112,000 acres of alluvial valley fill deposits and provides enough water to serve approximately 600,000 residents. The Basin is bounded on the north and the northwest by the Santa Susana Mountains, on the northeast by the San Gabriel Mountains, on the west by the Simi Hills and on the south by the Santa Monica Mountains. The San Fernando Valley Study area includes four National Priorities List (NPL) sites. They are: Area #1 - North Hollywood NPL site covers 9336 acres in the eastern part of the San Fernando Valley. The site has been divided into the North Hollywood Operable Unit (OU) and the Burbank OU. Area #2 - Crystal Springs NPL Site covers 3975 acres south- east of the North Hollywood NPL site and is located in the cities of Glendale and Los Angeles. Area #3 - Verdugo NPL Site covers 2673 acres in the eastern part of the San Fernando Valley and is located in and adjacent to La Crescenta in the Verdugo Mountains. Area #4 - Pollock NPL Site covers 1653 acres in the southeastern part of the San Fernando Valley and is located in and adjacent to the cities of Los Angeles and Glendale. Groundwater contamination in the SFVGB is linked to prewar, postwar, and current industrialization in the San Fernando Valley. The primary contaminants of concern are volatile organic compounds (VOCs), trichloroethylene (TCE), and tetrachloroethylene (PCE), which have been and/or are being used in many San Fernando Valley industries, such as aeronautical, automotive, dry cleaning, and metal plating. These solvents have found their way to the groundwater basin as a result of both past and improper use, storage, and disposal practices. The SFVGB Superfund sites, added to the NPL in 1986, are areas where groundwater from wells have been found to contain VOCs above the state and federal drinking water standards. Groundwater contamination at numerous wells have been so severe with TCE and PCE that these wells have essentially been put out of commission. Exposure of receptors to contaminants can possibly occur through ingestion of contaminated drinking water, inhalation of vapors released from the contaminated water as in taking showers, and dermal exposure as in washing or bathing. However, with the strict regulatory control over water quality by the State's Department of Health, Office of Drinking Water (ODW), the RWQCB, and other agencies, residents are assured that the water they consume is safe and that no one is drinking water which contains concentrations of contaminants above regulatory standards. Federal, state, and local agencies have been conducting investigations and cleanup of contaminated groundwater in the SFVGB since contamination was discovered in 1979. These activities involve measuring the extent of contamination, developing and implementing cleanup remedies, and identifying responsible parties. EPA provided oversight of the basinwide Remedial Investigation (RI) of groundwater contamination conducted by the Los Angeles Department of Water and Power (LADWP). The RI objectives were to collect lithological and water quality data and information regarding basin operations for the eastern SF and Verdugo basins; develop a regional characterization of geology, hydrology, hydrogeology and the nature and extent of groundwater contamination within the eastern & Verdugo basins; study fate and transport of compounds in the environment; identify Applicable or Relevant and Appropriate Requirements (ARAR's); and evaluate the potential risk to human health and the environment. The Remedial Investigation of the SFVGB was divided into two phases: Phase I activities have included vertical profile borings and installation of monitoring wells to obtain preliminary contamination information.

Monitoring wells have been installed as follows: 34 in North Hollywood (Area #1); 29 in Crystal Springs (Area #2); 7 in Verdugo (Area #3); and 17 in Pollock (Area #4). Information obtained from Phase I investigation activities identified the need for several operable units. Operable Unit is a federal term which is similar to the State's definition of a removal action. Phase II activities consist of basinwide remedial investigation conducted by the LADWP. Remedial Actions (RAs): North Hollywood (Area #1) -- Two RAs were identified for Area #1, the North Hollywood OU and the Burbank OU. A Record of Decision (ROD) for the North Hollywood RA was signed in September 1987, selecting groundwater extraction and treatment (air stripping) of 2,000 gallons per minute (gpm) of contaminated water as an interim remedy. This RA was constructed with funding from EPA and the State and has been treating contaminated groundwater since March 1989. This facility is located at 11845 Vose Street in the N. Hollywood section of Los Angeles. A ROD for the Burbank OU was signed in June 1989, again selecting groundwater extraction and treatment

of about 12,000 gpm of contaminated water. Phase I of the Burbank OU began operations in January 1996 treating groundwater at a rate of 6,000 gpm. Phase II began operations in May 1998 adding an additional 3,000 gpm to the Burbank OU's treatment capacity. Crystal Springs (Area #2) -- LADWP has completed a focused RI/FS for this proposed RA. The Glendale OU was separated into a North OU and a South OU based on the amount of contamination and the facilities contributing to the GW contamination. A ROD for each OU was signed on June 18, 1993 designating groundwater extraction and treatment as the interim remedy. The PRPs formed a group and combined the RA efforts for each OU into one document. The selected alternative is GW extraction and treatment. The Glendale OU began operations in September 2000. Verdugo and Pollock (Areas #3 and #4) -- Currently no RAs have been identified for Area #3 or for Area #4. In October 2003, US EPA proposed No Remedial Action Verdugo Basin (Area #3). Another contaminant of concern, hexavalent chromium, has been identified in the San Fernando Valley Groundwater Basin. EPA and the RWQCB are currently identifying potential sources of contamination and pursuing PRPs that may be responsible for contaminating groundwater. As these PRPs are identified, individual site investigations and mitigation activities will be pursued. Enforceable agreements and orders will be implemented at numerous specific potential source sites within the Basin by RWQCB and DTSC.

(01/01/84) Groundwater contaminated with TCE and PCE. The site covers 7229 acres in the Crystal Springs area.

(01/02/01) City of Glendale notifies US EPA that they will not accept the treated water from the Glendale Water Treatment Plant. They are requesting additional time to evaluate treatment options for hexavalent chromium. In addition, the City will submit a proposal to US EPA discussing the options available.

(03/29/01) City of Glendale submits proposal for operation of the Glendale Water Treatment Plant. Under the City's proposal, the two chromium-impacted wells will run at a reduced rate. The treated water will still contain detectable amounts of hexavalent chromium and will continue to be discharged into the Los Angeles River. The City of Glendale is still pursuing treatment options to treat the water down to non-detect levels of hexavalent chromium.

(03/30/94) An Administrative Order on Consent is signed by U.S. EPA and PRPs to conduct the Remedial Design of the groundwater extraction, treatment, disinfection, blending, and distribution facilities necessary to implement the Glendale North and South RODs.

(04/02/01) US EPA accepts the City of Glendale's proposal to operate the treatment plant.

(04/04/97) The Final Remedial Design consists of a proposed Water Treatment Plant (WTP) located in the North OU that is designed to treat VOCs (primarily TCE and PCE). The groundwater will be pumped at a combined extraction flow rate of 5,000 gpm from 7 shallow wells and one deep well located in both the Glendale North and South OUs. At the proposed WTP, the affected groundwater will be pumped directly into two single-stage Packed Tower Aerators (PTAs) that are followed by liquid phase granular activated carbon (LPGAC) vessels, then disinfected. The water will then be ammoniated, mixed with low nitrate MWD blending water and discharged into the City of Glendale's potable water system. The off gasses from the PTAs will be treated through a vapor phase GAC system.

(04/20/95) The PRP group is preparing remedial design documents for review by the agencies. Glendale North OU and Glendale South OU PRPs submitting one document for the design of the remedy for both OUs

(04/23/01) City of Glendale assumes operation of the Glendale Water Treatment Plant.

(08/03/00) City of Glendale receives the 97-005 permit from Department of Health Services.

(09/20/01) The treatment plant continues to operate with the City of Glendale taking all of the treated water.

(09/25/00) City of Glendale is scheduled to receive treated water from the Glendale Water Treatment Plant. The City notifies the US EPA that it will not accept the treated water due to the levels of hexavalent chromium present in the treated water. The City also requests for a 90-day extension from US EPA to accept the treated water.

(09/27/00) City of Glendale meets with US EPA to discuss their requests for delay and outlines what they intend on accomplishing during the 90-day extension. Their primary objective is to determine a treatment option to treat hexavalent chromium down to non-detect levels.

(10/12/00) US EPA grants extension to City of Glendale until 1/2/2001. During this time the Glendale Water Treatment Plant will operate with the treated water being discharged directly into the Los Angeles River.

(10/19/99) Construction completed for both Glendale North and South Operable Units. The City is working on obtaining a permit from the Department of Health Services to operate the treatment facilities

SR State Response Sites

The Site Mitigation and Brownfields Reuse Database (SMBRD) identifies certain potential hazardous waste sites. These are confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity and deemed generally high-priority and high potential risk.

The information has been compiled into this database by the California Environmental Protection Agency, Department of Toxic Substance Control (DTSC) in accordance with Section 25359.6 of the California Health and Safety Code.

No listings within 1 mile radius of the subject site.

VCP Voluntary Cleanup Program

This category contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have requested that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

No listings within half of a mile radius of the subject site.

FE Properties Needing Further Evaluation

This category of Envirostor, formerly The Site Mitigation and Brownfields Reuse Program Database SMBRPD, contains properties that are suspected, but unconfirmed, contaminated sites that need or have gone through an investigation and assessment process. If a site is found to have confirmed contamination, it will change from Evaluation to either a State Response or Voluntary Cleanup site type. Sites found to have no contamination at the completion of the investigation and assessment process result in a No Action Required (for Phase 1 assessments) or No Further Action (for Phase 2 assessments) determination.

No listings within half of a mile radius of the subject site.

ME Military Evaluation Sites

This category the Site Mitigation and Brownfields Reuse Program Database SMBRPD, contains Formerly Used Defense Sites (FUDS) and Open or Closed military facilities with confirmed or unconfirmed releases and where DTSC is involved in investigation and/or remediation, either in a lead or support capacity. Sites with confirmed releases are generally considered high-priority and high potential risk.

No listings within 1 mile radius of the subject site.

EP Expedited Remedial Action Program

The Expedited Remedial Action Program is a pilot program limited to 30 sites. These are confirmed release sites worked on by Responsible Parties with oversight of the cleanup by DTSC. These confirmed sites are generally high-priority and high potential risk.

No listings within half of a mile radius of the subject site.

BZ Border Zone Properties

These sites went through the Hazardous Waste Property or Border Zone Property evaluation and formal determination process. (Chapter 6.5, Health and Safety Code section 25221.)

No listings within half of a mile radius of the subject site.

SCH School Property Evaluation Program Properties

This category the Site Mitigation and Brownfields Reuse Program Database (SMBRPD), contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. School sites are further defined as Cleanup (remedial actions occurred) or Evaluation (no remedial action occurred) based on completed activities. All proposed school sites that will receive State funding for acquisition or construction are required to go through a rigorous environmental review and cleanup process under DTSC's oversight.

No listings within half of a mile radius of the subject site.

LUR Brownfields Reuse Program Facility Sites with Land Use Restrictions

The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents land use restrictions that are active. Some sites have multiple land use restrictions.

No listings within half of a mile radius of the subject site.

DR Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction

The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

No listings within half of a mile radius of the subject site.

CA Hazardous Waste sites - Permitted and Corrective Action

Permitted and Corrective Action sites are RCRA-permitted facilities undergoing cleanup activities or permitted to handle Hazardous Waste.

No listings within 1 mile radius of the subject site.

HIS Historical Site

This category of The Site Mitigation and Brownfields Reuse Program Database (SMBRPD), contains sites from an older database where no site type was identified. Most of these sites have a status of Referred or No Further Action. DTSC is working to clean up this data by identifying an appropriate site type for each Historic site.

This list has been researched within 1 mile radius of the subject site.

CORTESE State of California Office of Planning and Research

This database is a consolidation of information from various sources. It is maintained by the State Office of Planning and Research and lists potential and confirmed hazardous waste or substances sites.

Facilities that have been reported elsewhere in this report will not be included in the listing below.

Status Codes:	WRCBT	Tank leaks. Compiled by Water Resource Control Board
	DHS1	Abandoned hazardous waste site. Compiled by Toxic Substance Control Div. of DHS
	DHS2	Contaminated public water drinking wells serving less than 200 connections. Compiled by Env. Health Div. of DHS
	DHS3	Contaminated public water drinking wells serving more than 200 connections
	DHS5	Sites pursuant to section 25356 of the Health and Safety Code (see BEP)
	CWMB	Solid waste disposal sites with known migration of hazardous waste

No listings within 1 mile radius of the subject site.

LUST Leaking Underground Storage Tanks - California State

The Leaking Underground Storage Tanks Information System is maintained by the State Water Resource Board pursuant to Section 25295 of the Health and Safety Code.

Status Codes:	0	No action
	1	Leak being confirmed
	3A	Prel site assessment workplan submitted
	3B	Prel site assessment underway
	5C	Pollution characterization
	5R	Remediation plan
	7	Remedial action underway
	8	Post remedial action monitoring
	9	Case closed
	P	Case purged from agency list

This list has been researched within 1 mile radius of the subject site.

The aquifer is potentially impacted. The case, 03799126, is managed by the Regional Water Quality Board.

- The leak was confirmed on 03/27/87.

SWIS Solid Waste Information System

As legislated under the Solid Waste Management and Resource Recovery Act of 1972, the California Waste Management Board maintains lists of certain facilities, i.e. Active solid waste disposal sites, Inactive or Closed solid waste disposal sites and Transfer facilities.

This list has been researched within 1 mile radius of the subject site.

Site: CITY OF GLENDALE CORPORATION Y
Address: 541 E CHEVY CHASE DR
City: GLENDALE
Map Loc: 45 - about .63 mile W of the subject
Status: ACTV - Active

id: 19-AA-1059
Unit: 01
Activity: LIMITED VOLUME TRANSFER OPERATION
Status: ACTIVE (Operational)
NOTIFICATION (Regulatory)
Inspection: QUARTERLY
Waste: GREEN MATERIALS,INERT,MIXED MUNICIPAL
Permit Date: PERMITDATE
Capacity: 1500 TONS/YEAR
Operator: CITY OF GLENDALE, PUBLIC WORKS
541 CHEVY CHASE BLVD.
GLENDALE CA
818-5483950
Owner: CITY OF GLENDALE, PUBLIC WORKS
633 EAST BROADWAY BLVD.
GLENDALE CA

WIP Well Investigation Program

The Well Investigation Program (AB1803) identifies groundwater that is already contaminated and empowers the California Department of Health Services and local health officers to order ongoing monitoring programs. The focus of this program is to monitor and protect drinking water.

No listings within 1 mile radius of the subject site.

WQ Drinking Water Program

The California Health and Safety Code section 116275-116300 stipulates that it is the intent of the Legislature to improve laws governing drinking water quality to improve upon the minimum requirements of the federal Safe Drinking Water Act Amendments of 1986, to establish primary drinking water standards that are at least as stringent as those established under the federal Safe Drinking Water Act, and to establish a program under this chapter that is more protective of public health than the minimum federal requirements.

In order to provide for the orderly and efficient delivery of safe drinking water the State Department of Health Services collect information on the quality of public drinking water wells under the California Drinking Program.

Below, the latest and maximum analysis of contaminants are reported (only positive reading are included). MCL is the Maximum Contaminant Level or enforceable drinking water standard. RPHL is the Recommended Public Health Level. Additional information is available upon request.

No listings within 1 mile radius of the subject site.

REGIONAL SOURCES

NT Toxic Releases

The California Regional Water Quality Control Boards or local Department of Health Services keeps track of toxic releases to the environment. These lists are known as Unauthorized Releases, Spill, Leaks, Investigations and Cleanups (SLIC), Non-Tank Releases, Toxics List or similar, depending on the local agency.

No listings within 1 mile radius of the subject site.

TPC Toxic Pits

The Toxic Pits Clean-Up Act (Katz Bill) places strict limitations on the discharge of liquid hazardous wastes into surface impoundment, toxic ponds, pits and lagoons. Regional Water Quality Control Boards are required to inspect all surface impoundment annually, in addition, every facility was required to file a Hydrogeological Assessment Report. Recent legislation allows the Department of Health Services to exempt facilities that closed on or before December 31, 1985, if a showing is made that no significant environmental risk remains (AB1046).

Special exemption provisions have been created for surface impoundment that receive mining wastes.

No listings within 1 mile radius of the subject site.

SWAT Solid Waste Assessment Test - Regional

This program, provided for under the Calderon legislation (Section 13273 of the Water Code), requires that disposal sites with more than 50,000 cubic yards of waste provide sufficient information to the regional water quality control board to determine whether or not the site has discharged hazardous substances which will impact the environment.

Site operators are required to file Solid Waste Assessment Test reports on a staggered basis. Operators of the 150 highest ranking (Rank 1) sites were required to submit Solid Waste Assessment Tests by July 1, 1987, Rank 2 in 1988 and so on.

Operators submit water quality tests to the Regional Water Quality Control Board, describing surface and groundwater quality and supply; and the geology within 1 mile of the site. Air quality tests are submitted to the local Air Quality Management District or Air Pollution Control District.

This program is currently not funded and thus not updated.

Status Codes: Facilities or sites are ranked within each region on a scale 1-15 according to priority.

No listings within 1 mile radius of the subject site.

OPERATING PERMITS

Various agencies issue operating permits or regulate the handling, movements, storage and disposal of hazardous materials and require mandatory reporting. The inclusion in this section does not imply that an environmental problem exists presently or has in the past.

RCRA-G Resource Conservation and Recovery Information System - Generators

The Environmental Protection Agency regulates generators of hazardous material through the Resource Conservation and Recovery Act (RCRA). All hazardous waste generators are required to notify EPA of their existence by submitting the Federal Notification of Regulated Waste Activity Form (EPA Form 8700-12) or a state equivalent form. The notification form provides basic identification information and specific waste activities.

Status Codes: L - Generators who generate at least 1000 kg/mo of non-acutely hazardous waste (or 1 kg/mo of acutely hazardous waste).
S - Generators who generate 100 kg/mo but less than 1000 kg/mo of non-acutely haz waste.
T - Transporter.

This list has been researched within half of a mile radius of the subject site.

SARA SARA Title III, section 313 (TRIS)

Title III of the Superfund Amendments and Reauthorization Act, Section 313, also known as Emergency Planning and Community Right-to-Know Act of 1986 requires owners or operators of facilities with more than 10 employees and are listed under Standard Industrial Classification (SIC) Codes 20 through 39 to report the manufacturing, processing or use of more than a threshold of certain chemical or chemical categories listed under section 313. This data base is also known as Toxic Release Information System (TRIS).

Below summary information for the last five year period is reported grouping the releases into air, water, underground injection, land, public offsite treatment (potw) and transportation offsite.

No listings within half of a mile radius of the subject site.

NC Nuclear Regulatory Commission Licensees

The Nuclear Regulatory Commission, Office of Nuclear Material Safety and Safeguards has been mandated (10 CFR Ch 1.42) to protect the public health and safety, the common defense and security, and the environment by licensing, inspection, and environmental impact assessment for all nuclear facilities and activities, and for the import and export of special nuclear material.

No listings within half of a mile radius of the subject site.

PCB PCB Waste Handlers Database

The U.S. Environmental Protection Agency tracks generators, transporters, commercial stores and/or brokers and disposers of PCB's in accordance with the Toxic Substance Control Act.

No listings within half of a mile radius of the subject site.

PCS Permit Compliance System

PCS is a database which contains data on National Pollutant Discharge Elimination System (NPDES) permit holding facilities. PCS was developed by The U.S. Environmental Protection Agency to meet the information needs of the NPDES program under the Clean Water Act. PCS tracks permit, compliance, and enforcement states of NPDES facilities.

This list has been researched within half of a mile radius of the subject site.

Site: GLENDALE ADVENTIST MEDICAL CTR
Address: 801 S CHEVY CHASE DR
City: GLENDALE
Map Loc: 2 - about 7.000000000000001D-02 mile W of the subject
Status: Permit id#: CA0058246

AFS AIRS Facility System

AFS contains emissions and compliance data on air pollution point sources tracked by the U.S. EPA and state and local environmental regulatory agencies. There are seven "criteria pollutants" for which data must be reported to EPA and stored in AIRS: PM10 (particulate matters less than 10 microns in size), carbon monoxide, sulfur dioxide, nitrogen dioxide, lead, reactive volatile organic compounds (VOC), and ozone.

AFS replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aeromatic Data (SAROAD).

No listings within half of a mile radius of the subject site.

PE Section Seven Tracking System (SSTS)

SSTS evolved from the FIFRA and TSCA Enforcement System (FATES). SSTS tracks the registration of all pesticide producing establishments and tracks annually the types and amounts of pesticides, active ingredients, and devices that are produced, sold or distributed each year.

No listings within half of a mile radius of the subject site.

FIFRA FIFRA/TSCA Tracking System/ National Compliance Database (FTTS/NCDB)

NCDB supports implementation of the Federal Insecticide, Fungicide and Rodenticide Control Act (FIFRA) and the Toxic Substance Control Act (TSCA).

No listings within half of a mile radius of the subject site.

FFIS Federal Facilities Information System (FFIS)

Federal Facilities Information System (FFIS) contains a list of all Treatment Storage and Disposal Facilities (TSDs) owned and operated by federal agencies.

No listings within half of a mile radius of the subject site.

CICIS Chemicals in Commerce Information System (CICIS)

Chemicals in Commerce Information System contains an inventory of chemicals manufactured in commerce or imported for Toxic Substances Control Act regulated commercial purposes. CICIS allows EPA to maintain a comprehensive listing of over 70,000 chemical substances that are manufactured or imported and are regulated under TSCA.

No listings within half of a mile radius of the subject site.

FINDS FINDS EPA Facility Index System

The U.S. Environmental Protection Agency maintains an index system of all facilities which are regulated or have been assigned an identification number for other purposes.

Facilities that have been reported elsewhere in this report will not be listed under this category.

No listings within half of a mile radius of the subject site.

HWIS Hazardous Waste Information System

The Department of Toxic Substance Control, California Environmental Protection Agency, maintains a data base keeping track of the movement and disposal of hazardous waste. The data is used to support the Tanner legislation, AB 2948.

Status Codes: EPA Facility Permit Number

- CAL - State permanent number
- CAC - State provisional or emergency number
- CAH - State prov or perm number for household hazardous waste collections
- CAI - State permanent number for exotic pest detection
- CAS - State permanent number issued by county for emergency response
- CAE - State prov number for hazardous waste removal caused by natural disasters
- CAX - State permanent or provisional number issued prior to 1987. No longer used.
- CLU - State permanent number issued by county for clandestine lab cleanup
- CAR - Federal permanent number
- CA - Federal permanent number
- CAD - Federal permanent or provisional number. State provisional before 1988.
- CAT - Federal permanent number
- CAP - Federal provisional or emergency number

This list has been researched within half of a mile radius of the subject site.

UST Permitted Underground Storage Tanks - State Water Quality Control Board

The Corteses Bill (AB2013), enacted in 1983, required registration of all underground storage tanks (UST) with the State Water Quality Control Board by July 1, 1984. About 176,000 tanks and surface impounds were registered between 1984 and 1987. An amendment (AB 1413) was passed in 1987, effectively removing the State Board from the registration process starting January 1, 1988. The data reflects the information collected by the state between 1984 and 1987 as well as recent time and includes all tanks and surface impounds in use or closed after 1974.

Home and farm heating fuel tanks with capacities of 1,100 gallons or less and "structures such as sumps, separators, storm drains, catch basins, oil field gathering lines, refinery pipelines, lagoons, evaporation ponds, well cellars, separation sumps, lined and unlined pits, sumps and lagoons" except those defined as UST under HSWA or may be regulated to protect water quality under the Porter-Cologne Water Quality Control Act are excluded.

This list has been researched within half of a mile radius of the subject site.

FIRE INSURANCE MAP REVIEW

APPENDIX

FIRE INSURANCE MAP REVIEW

Fire insurance maps are large-scale maps that depict the commercial, industrial and residential sections of some twelve thousand cities and towns in the United States. These specialized maps were first prepared for the exclusive use of fire insurance companies and underwriters to provide accurate, current and detailed information about the buildings they were insuring. Information relied upon in place of personal examinations of property. Fire insurance maps show the size, shape and construction of dwellings, commercial buildings and factories, as well as indicate widths and names of streets, property boundaries, and house and block numbers. The primary benefit of reviewing fire insurance maps is to analyze historical land use of a subject property and its immediate area. In this review, special emphasis is given to the existence and location of fuel storage tanks, flammable or other potentially hazardous substances, as well as the nature of businesses located on site.

No Fire Insurance Maps are available for the area surrounding the subject site. Lack of coverage of the site indicates an area of little commercial development prior to 1950.

APPENDIX
AERIAL PHOTOGRAPH SEARCH

AERIAL PHOTOGRAPH SEARCH

Aerial photos first emerged in the 1840's when the first pictures of the earth's surface were taken from balloons. By the first World War, cameras mounted on airplanes provided aerial photos used for reconnaissance. From then until today, aerial photographs have been used in the making of maps, land surveys and for a wide variety of other purposes.

Aerial photos can provide different information depending on the type and class of the photo. The major classes of photos are black and white, color, and color infared photos. Generally, color photos provide the most information, however are expensive to produce. For that reason, black and white photos are the most common. Color infared photos can detect vegetation other photos miss. These photos are generally taken in more rural areas for agricultural purposes.

The type of photo refers to the camera angle at the time of the flyover. There are 2 major types -vertical and oblique. Vertical photos are taken while directly overhead, and give the effect of looking straight down on the area. Oblique photos are taken at a 30 to 60 degree angle. The camera angle creates a 3-D effect so height and depth of structures are more easily discernible.

Vertical photos are taken by either 1 or 2 cameras. One camera flyovers produce vertical recon photos. Vertical carto photos are taken with 2 cameras offset horizontally. When the photos are viewed side by side through stereophonic lenses the photos create a 3-D effect.

Photo collections are compiled by both private and government agencies. Many collections date back to the 1940's and sometimes even earlier. BBL has searched over 600 collections for coverage of the USGS quadrangle of the subject site. The percentage of the quadrangle that the photo covers is noted as a % under quadcov. The list that follows includes all known photos with a resolution greater than 1:12,000. Photos with lower resolution have been excluded from the listing as they provide less detail than generally required.

If additional site investigation is necessary, historical photos can be helpful in determining prior land use. These photos can help track the development of the area as well as provide you with details of long gone buildings, tanks, waste storage areas, marshlands and vegetation.

APPENDIX D

HISTORICAL TENANT REPORT

HISTORICAL TENANT REPORT

INTRODUCTION

The purpose of this Historical Tenant Report is to identify the tenants (be it the owner or lessee) of 1230 E WINDSOR RD, GLENDALE over the last 50 years.

Sources for the research includes various city directories, street address directories and criss-cross directories published from 1920 forward. The actual site address as well as neighboring addresses on the same block are also investigated for informational purposes, and to cover a potential address change of the subject site.

BBL has used its best effort but makes no claims as to the completeness of the referenced sources or completeness of the search. For additional information call (619) 793-0641.

DIRECTORY INFORMATION

The three general types of directories researched for the Historical Tenant Report are the 1) city directory, 2) street address directory, and 3) criss-cross directory. All three either are devoted to or have sections that list the Tenant and telephone number of given street addresses by their street name and address. These telephone directories, not as readily available to the public as white pages or yellow pages, are excellent for uncovering names, business names and the nature of businesses as listed by street address.

In addition to the actual site address the following neighboring addresses have been researched for commercial listings as well:

1015 E WINDSOR RD
1200 E WINDSOR RD
1224 E WINDSOR RD
1227 E WINDSOR RD
1312 E WINDSOR RD
1351 E WINDSOR RD
1377 E WINDSOR RD

The actual site address, as it is known presently, is marked by an asterisk in the findings of the search as reported on the following pages.

PACIFIC SOUTHWEST GROUP
a California corporation by:

R. G. Vanderstraeten
Registered Environmental Assessor #05364

SECTION 999.5(d)(2)(E)

- (E) For joint venture transactions, all asset contribution agreements and related valuations, all limited liability corporation or limited liability partnership operating agreements, management contracts, and put option agreements.**

(Not Applicable)

SECTION 999.5(d)(3)

INUREMENT AND SELF-DEALING

(d)(3)(A)

- (A) Copies of any documents or writings of any kind that relate or refer to any personal financial benefit that a proposed affiliation between applicant and the transferee would confer on any officer, director, employee, doctor, medical group or other entity affiliated with applicant or any family member of any such person as identified in Corporations Code section 5227(b)(2).**

HumanGood SoCal represents that no officer, director, employee, doctor, medical group, or other entity affiliated with HumanGood SoCal, or any family member of any such person as identified in Corporations Code section 5227(b)(2), will derive a personal financial benefit from the proposed sale of Windsor to Ararat. No documents or writings exist pertaining to any such purported benefits.

SECTION 999.5(d)(3)(B)

- (B) The identity of each and every officer, trustee or director of applicant (or any family member of such persons as identified in Corporations Code section 5227(b)(2)) or any affiliate of applicant who or which has any personal financial interest in any company, firm, partnership, or business entity (other than salary and directors/trustees' fees) currently doing business with applicant, any affiliate of applicant, or the transferee or any affiliate of the transferee.**

HumanGood SoCal represents that no officer, director, or other affiliate of HumanGood SoCal, or any family member of any such person as identified in Corporations Code section 5227(b)(2), has any personal financial interest in any company, firm, partnership, or business entity (other than salary and any directors/trustees' fees) currently doing business with Ararat, or any affiliate of Ararat.

SECTION 999.5(d)(3)(C)

- (C) A statement describing how the board of directors of the nonprofit corporations involved in the transaction are complying with the provisions of Health and Safety Code sections 1260 and 1260.1.**

No member of the board of directors of HumanGood SoCal who negotiated the terms and conditions of the sale of Windsor or transfer of its assets, has received or will receive, directly or indirectly, any salary, compensation, payment, or other form of remuneration from Ararat following the close of the sale or other transfer of assets.

Each person who is a member of management of HumanGood SoCal and who has presented information or opinions to the HumanGood SoCal board regarding the sale of Windsor or other transfer of its assets that are relied upon, or considered by, any of the board members in making decisions regarding the sale or transfer, has made a written affirmative declaration that he or she will not work for, or receive any form of remuneration from, Ararat in the future.

The following declarations have been executed and attached to this section:

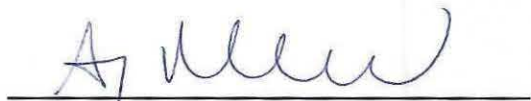

1. Declaration of Andrew McDonald, Chief Financial Officer of HumanGood SoCal
2. Declaration of John Cochrane, Chief Executive Officer of HumanGood SoCal
3. Declaration of Bethany Ghassemi, General Counsel of HumanGood SoCal
4. Declaration of Dan Ogus, Chief Operating Officer of HumanGood SoCal
5. Declaration of James Park, Senior Vice President of Corporate Communications for HumanGood SoCal
6. Declaration of Marc Herrera, Vice President of Healthcare & Quality for HumanGood SoCal
7. Declaration of Suzanne Nagel, Vice President of Marketing for HumanGood SoCal
8. Declaration of Tara McGuinness, Vice President of Operations for HumanGood SoCal
9. Declaration of Greg Bearce, Vice President and Executive Director of Windsor Manor

DECLARATION

I, Andrew McDonald, as a member of management of HumanGood SoCal, presented information or opinions concerning the sale of Windsor Manor or the transfer of its assets to members of the HumanGood SoCal board.

In connection with my role in presenting this information, I certify that I have not, nor will I receive, either directly or indirectly, any salary, compensation, payment, or other form of remuneration from Ararat Home of Los Angeles, Inc. in connection with the close of the sale or the transfer of assets of HumanGood's Windsor Manor facility.

Signed,

A handwritten signature in blue ink, appearing to read "Andrew McDonald", is written over a horizontal line.

Andrew McDonald, CFO

DECLARATION

I, John Cochrane, as a member of management of HumanGood SoCal, presented information or opinions concerning the sale of Windsor Manor or the transfer of its assets to members of the HumanGood SoCal board.

In connection with my role in presenting this information, I certify that I have not, nor will I receive, either directly or indirectly, any salary, compensation, payment, or other form of remuneration from Ararat Home of Los Angeles, Inc. in connection with the close of the sale or the transfer of assets of HumanGood's Windsor Manor facility.

Signed,

John Cochrane, CEO

DECLARATION

I, Bethany Ghassemi, as a member of management of HumanGood SoCal, presented information or opinions concerning the sale of Windsor Manor or the transfer of its assets to members of the HumanGood SoCal board.

In connection with my role in presenting this information, I certify that I have not, nor will I receive, either directly or indirectly, any salary, compensation, payment, or other form of remuneration from Ararat Home of Los Angeles, Inc. in connection with the close of the sale or the transfer of assets of HumanGood's Windsor Manor facility.

Signed,

A handwritten signature in black ink that reads "Bethany Ghassemi". The signature is written in a cursive style and is positioned above a solid horizontal line.

Bethany Ghassemi, General Counsel

DECLARATION

I, Dan Ogus, as a member of management of HumanGood SoCal, presented information or opinions concerning the sale of Windsor Manor or the transfer of its assets to members of the HumanGood SoCal board.

In connection with my role in presenting this information, I certify that I have not, nor will I receive, either directly or indirectly, any salary, compensation, payment, or other form of remuneration from Ararat Home of Los Angeles, Inc. in connection with the close of the sale or the transfer of assets of HumanGood's Windsor Manor facility.

Signed,

Dan Ogus, COO

DECLARATION

I, James Park, as a member of management of HumanGood SoCal, presented information or opinions concerning the sale of Windsor Manor or the transfer of its assets to members of the HumanGood SoCal board.

In connection with my role in presenting this information, I certify that I have not, nor will I receive, either directly or indirectly, any salary, compensation, payment, or other form of remuneration from Ararat Home of Los Angeles, Inc. in connection with the close of the sale or the transfer of assets of HumanGood's Windsor Manor facility.

Signed,

A handwritten signature in black ink, appearing to be 'James Park', written in a cursive style.

James Park, Sr. Vice President, Corporate Communications

DECLARATION

I, Marc Herrera, as a member of management of HumanGood SoCal, presented information or opinions concerning the sale of Windsor Manor or the transfer of its assets to members of the HumanGood SoCal board.

In connection with my role in presenting this information, I certify that I have not, nor will I receive, either directly or indirectly, any salary, compensation, payment, or other form of remuneration from Ararat Home of Los Angeles, Inc. in connection with the close of the sale or the transfer of assets of HumanGood's Windsor Manor facility.

Signed,

A handwritten signature in black ink, appearing to read "Marc Herrera", is written over a horizontal line.

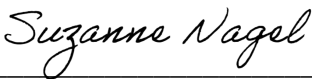

Marc Herrera, Vice President, Healthcare & Quality

DECLARATION

I, Suzanne Nagel, as a member of management of HumanGood SoCal, presented information or opinions concerning the sale of Windsor Manor or the transfer of its assets to members of the HumanGood SoCal board.

In connection with my role in presenting this information, I certify that I have not, nor will I receive, either directly or indirectly, any salary, compensation, payment, or other form of remuneration from Ararat Home of Los Angeles, Inc. in connection with the close of the sale or the transfer of assets of HumanGood's Windsor Manor facility.

Signed,

Suzanne Nagel, Vice President of Marketing

DECLARATION

I, Tara McGuinness, as a member of management of HumanGood SoCal, presented information or opinions concerning the sale of Windsor Manor or the transfer of its assets to members of the HumanGood SoCal board.

In connection with my role in presenting this information, I certify that I have not, nor will I receive, either directly or indirectly, any salary, compensation, payment, or other form of remuneration from Ararat Home of Los Angeles, Inc. in connection with the close of the sale or the transfer of assets of HumanGood's Windsor Manor facility.

Signed,

A handwritten signature in cursive script, appearing to read "Tara McGuinness", is written over a horizontal line. To the right of the signature, the date "8/1/22" is handwritten.

Tara McGuinness, Vice President, Operations

DECLARATION

I, Gregory Bearce, as a member of management of HumanGood SoCal, presented information or opinions concerning the sale of Windsor Manor or the transfer of its assets to members of the HumanGood SoCal board.

In connection with my role in presenting this information, I certify that I have not, nor will I receive, either directly or indirectly, any salary, compensation, payment, or other form of remuneration from Ararat Home of Los Angeles, Inc. in connection with the close of the sale or the transfer of assets of HumanGood's Windsor Manor facility.

Signed,

A handwritten signature in black ink, appearing to read 'G. Bearce', written over a horizontal line.

Gregory Bearce, Vice President and Executive Director

SECTION 999.5(d)(4)

CHARITABLE USE OF ASSETS

(d)(4)(A)

- (A) The applicant's articles of incorporation and all amendments thereto and current bylaws, any charitable trust restrictions, and any other information necessary to define the charitable trust purpose of the applicant's assets.**

ARTICLES OF INCORPORATION

OF

MAR 23 1955

SOUTHERN CALIFORNIA PRESBYTERIAN HOMES

FRANK M. EDGAN, Secretary of State

300159

By [Signature] Deputy We the undersigned do hereby voluntarily associate

ourselves for the purpose of forming a private nonprofit corporation under the General Nonprofit Corporation Law as contained in the Corporations Code of the State of California, and we hereby certify:

1. That the name of this corporation is SOUTHERN CALIFORNIA PRESBYTERIAN HOMES.

2. The primary business in which the corporation intends to initially engage is to establish, build, equip, maintain, conduct and operate one or more establishment or establishments, institution or institutions, home or homes and other place or places for the reception and care of aged persons, including, but not limited to, those who are members of the Presbyterian Church in the United States of America within The Presbyteries of Los Angeles, Riverside, and Santa Barbara.

The purposes for which this corporation is formed are:

(a) To provide a home or homes, including such establishments, institutions, commissaries, dining rooms, recreational equipment, infirmaries, dispensaries, and such other places and facilities as may be desirable or required for the reception and care of aged persons.

(b) To supply, for aged persons, shelter, care, protection, love, understanding, companionship and those essentials of a full and devoted life believed to be desirable or essential by those believing in and accepting the teachings of Christ and the principles and doctrines of The Presbyterian Church in the United States of America.

Restriction of right
to amend articles

Yes

Yes

(c) To acquire, receive, hold, buy, sell, exchange, mortgage, deed in trust, maintain, operate and generally deal in any and all property, real or personal, of any and every kind, and wheresoever situate, and to receive, acquire, hold and dispose of such property by gift, endowment, purchase, grant, benefit, allowance, appropriation, devise, legacy, bequest, in trust or otherwise, and to perform any and all acts to realize said gifts, endowments, purchases, grants, benefits, allowances, appropriations, devises, legacies or bequests and to make the same available to the corporation.

(d) To act as trustee under any trust or endowment incidental to the principal objects of the corporation, and in connection therewith to receive, hold, administer and expend funds and real and personal property of every kind and character whatsoever, subject to any such trust or endowment.

(e) To enter into, make, perform and carry out contracts of every kind, for any lawful purpose, without limit as to amount, with any person, firm, association or corporation, municipality, county, church, parish, state, territory, government or other municipal or governmental subdivision.

(f) From time to time to apply for, purchase, acquire by assignment, transfer or otherwise exercise, carry out and enjoy any benefit, right, privilege, prerogative or power conferred by, acquired under, or granted by, any statute, ordinance, order, license, power, authority, franchise, commission or privilege which any government or authority or governmental agency or corporation or other public body may be empowered to enact, make or grant; to pay for, aid in, and contribute toward carrying the same into effect, and to appropriate any of this corporation's assets to defray the costs, charges and expenses thereof.

(g) To subscribe or cause to be subscribed for and to take, purchase and otherwise acquire, own, hold, use, sell, assign, transfer, exchange, distribute and otherwise dispose of the whole or any part of the shares of the capital stock, bonds, coupons, mortgages, deeds of trust, debentures, securities, obligations, evidences of indebtedness, notes, good will, rights and assets and property of any kind or any part thereof of any other corporation or corporations, association or associations, firm or firms or person or persons, together with the shares, rights, units, or interest in or in respect of any trust estate now or hereafter

existing, and whether created by or under the laws of the State of California or of any other state, territory or country, and, while the owner of any such shares of capital stock or other assets, to exercise all of the rights, powers and privileges of ownership of every kind and description, including the right to vote thereon, with power to designate some person or persons for that purpose from time to time and to the same extent as natural persons might or could do.

(h) To promote or to aid in any manner, financially or otherwise, any person, firm, corporation or association and for this purpose to guarantee the contracts and other obligations of such other person, firm, corporation or association.

(i) To borrow and lend money, but nothing herein contained shall be construed as authorizing the business of banking or as including the principal purposes of a commercial bank, savings bank or trust company.

(j) To issue promissory notes, evidences of indebtedness, bonds, debentures or other obligations of this corporation from time to time for any of the objects or purposes of this corporation and to secure the same by mortgage, deed of trust, pledge or otherwise, or to issue the same unsecured; to purchase or otherwise acquire any of such promissory notes, evidences of indebtedness, bonds, debentures or other obligations of this corporation or any subsidiary thereof.

(k) In general to carry on any other business in connection with the foregoing and to have and exercise all of the powers conferred by the laws of the State of California upon nonprofit corporations formed under the laws of said State as such laws are now in effect or may at any time hereafter be amended, and to do any acts incident to the transaction of its business or conducive to the attainment of the purposes of the corporation.

The foregoing statement of purposes shall be construed as a statement of both purposes and powers, and the purposes and powers stated in each clause shall, except where otherwise expressed, be in nowise limited or restricted by reference to or inference from the terms or provisions

from any other clause, but shall be regarded as independent purposes and powers.

This corporation is organized pursuant to the General Nonprofit Corporation Law of the State of California and does not contemplate the distribution of gains, profits or dividends to the members thereof. No part of the net earnings of this corporation shall inure to the benefit of any individual or member thereof, and no substantial part of the activities of this corporation shall be devoted to carrying on propaganda for or otherwise attempting to influence legislation, and this corporation shall not participate in or intervene in any political campaign on behalf of any candidate for public office. The property of this corporation is irrevocably dedicated to charitable and religious purposes, and upon any liquidation or dissolution of this corporation or abandonment of its assets and property, no part of its property or assets shall be distributed to or inure to the benefit of any private member or individual but shall, after payment or provisions for the corporation's debts and obligations, be distributed to a fund, foundation or corporation organized and operated for charitable and religious purposes.

3. The principal office for the transaction of the business of the corporation shall be located in the County of Los Angeles, State of California.

4. The governing body of this corporation shall be known as the Board of Trustees which shall be subject to the laws of the State of California relating to directors generally, except as may be otherwise provided by the General Nonprofit Corporation Law. The Board of Trustees shall be

at least three (3) in number. The following are the names and addresses of those persons who are to act in the capacity of Trustees until the selection of their successors:

<u>Name</u>	<u>Address</u>
Hugh Abernethy	5757 Wilshire Boulevard Los Angeles 54, California
Myron M. Wasson	900 Wilshire Boulevard Los Angeles 17, California
Rev. Clarence W. Kerr	314 Cumberland Road Glendale 2, California
Max Eddy Utt	1706 North Highland Avenue Glendale 2, California

Authority is hereby granted to change the member of Trustees from time to time by the adoption of a By-law or Amendment thereof.

5. The authorized number and the qualifications of membership, the different classes of membership, the property, voting, and other rights and privileges of each class of membership, and the liability of each or all classes for the payment of dues or assessments and the method of collection thereof, shall all be set forth in the By-Laws.

IN WITNESS WHEREOF, we, the undersigned, who are all of the persons named herein as Trustees have hereunto set our hands this 21st day of March, 1955.

Hugh Abernethy
Myron M. Wasson
Rev. Clarence W. Kerr
Max Eddy Utt

March 23, 1955

Southern California Presbyterian Homes
c/o Gibson, Dunn & Crutcher, Lawyers
634 South Spring Street
Los Angeles 14, California

Gentlemen:

RE: Exemption From Franchise Tax

It is the opinion of this office, based upon the evidence presented, that you are exempt from State franchise tax under the provisions of Section 2370d of the Revenue and Taxation Code, as it is shown that you are organized and operated exclusively as a charitable organization.

Accordingly, you will not be required to file franchise tax returns unless you change the character of your organization, the purposes for which you were organized, or your method of operation. Any such changes should be reported immediately to this office in order that their effect upon your exempt status may be determined.

You will be required, however, to file annually, beginning with your current accounting period, an information return on Form 199 by the 15th day of the fifth month following the close of your fiscal year with this office as long as this exemption remains in effect. However, if you have income that is taxable under the provisions of Section 23771 of the Revenue and Taxation Code, a return on Form 109 must be filed by the 15th day of the third month following the close of your fiscal year. These forms may be obtained from this office or any of its branches.

Contributions made to you are deductible by the donors in arriving at their taxable net income in the manner and to the extent provided by Sections 17315, 17316, 17317, and 24121k of the Revenue and Taxation Code.

If the organization is not yet incorporated or has not yet qualified to do business in California, this approval will expire within thirty days unless incorporation or qualification is completed within such period.

Very truly yours

FRANCHISE TAX BOARD
John J. Campbell
Executive Officer

CERTIFICATE OF AMENDMENT
OF
ARTICLES OF INCORPORATION
OF SOUTHERN CALIFORNIA PRESBYTERIAN HOMES
a California nonprofit corporation

The undersigned, Myron M. Wasson and Max Eddy
Utt, do hereby certify that they are now and have been at all
times herein mentioned, respectively, the duly elected and
acting President and Secretary of Southern California Presbyterian
Homes, a California nonprofit corporation, and further that:

1. At a regular meeting of the Board of Trustees
of said corporation duly held at the principal office of the
corporation, 1501 Wilshire Boulevard, Los Angeles, California,
at 7:30 o'clock p.m. on the 23rd day of September, 1957, at
which meeting there was at all times present and acting a quorum
of the members of said Board, the following resolutions were
duly adopted:

"BE IT RESOLVED, that the Articles of
Incorporation of Southern California Presbyterian
Homes, a California nonprofit corporation, are
hereby amended as follows:

"1. Section 2 is hereby amended so
that subparagraph (a) of the second paragraph
thereof containing the purposes for which the
corporation is formed shall read as follows:

"(a) To provide a home or homes, includ-
ing such establishments, institutions, commissaries,
dining rooms, recreational equipment, infirmaries,
dispensaries, and such other places and facilities
as may be desirable or required for the reception
and care of aged persons, which said home or
homes shall be organized and operated exclusively
for charitable and religious purposes, no part
of the net earnings of which inures to the bene-
fit of any private individual, no substantial
part of the activity of which is carrying on
propaganda, or otherwise attempting to influence
legislation, and which does not participate in,
or intervencs in (including the publishing or
distributing of statements), any political
campaign on behalf of any candidate for public
office.

"2. Section 2 is hereby further amended so that the final unnumbered paragraph thereof which now reads as follows:

'This corporation is organized pursuant to the General Nonprofit Corporation Law of the State of California and does not contemplate the distribution of gains, profits or dividends to the members thereof. No part of the net earnings of this corporation shall inure to the benefit of any individual or member thereof, and no substantial part of the activities of this corporation shall be devoted to carrying on propaganda for or otherwise attempting to influence legislation, and this corporation shall not participate in or intervene in any political campaign on behalf of any candidate for public office. The property of this corporation is irrevocably dedicated to charitable and religious purposes, and upon any liquidation or dissolution of this corporation or abandonment of its assets and property, no part of its property or assets shall be distributed to or inure to the benefit of any private member or individual but shall, after payment or provisions for the corporation's debts and obligations, be distributed to a fund, foundation or corporation organized and operated for charitable and religious purposes.'

is amended to read as follows:

"This corporation is organized pursuant to the General Nonprofit Corporation Law of the State of California and does not contemplate the distribution of gains, profits or dividends to the members thereof. The property of this corporation is irrevocably dedicated to charitable and religious purposes, and upon any liquidation or dissolution of this corporation or abandonment of its assets and property, no part of its property or assets shall be distributed to or inure to the benefit of any private member or individual but shall, after payment or provisions for the corporation's debts and obligations, be distributed to a fund, foundation or corporation organized and operated for charitable and religious purposes.

"RESOLVED FURTHER, that the President or the Vice President and the Secretary or the Assistant Secretary of this corporation be and they hereby are authorized and directed to procure the adoption and approval of the foregoing amendment by the Board or written consent of the members of this corporation constituting at least two-thirds of a quorum thereof, and thereafter to sign and verify by their oaths and to file a certificate in the form and manner required by Section 3672 of the Corporations Code of the State of California, and in general to do

any and all things necessary to effect said amendment in accordance with law."

2. After the adoption of the resolutions by the Board of Trustees of Southern California Presbyterian Homes as set forth in 1 above, the amendments to said Articles of Incorporation set forth in said resolutions were adopted by the written consent of members holding at least a majority of the voting power of said corporation and by members constituting at least two-thirds of a quorum of the members of said corporation. Said corporation is a nonstock corporation.

3. A copy of the form of written consent signed by the members of said corporation is as follows:

OF
ARTICLES OF INCORPORATION
OF SOUTHERN CALIFORNIA PRESBYTERIAN HOMES

MAR 13 1958
FRANK M. JENNARD, Secretary of State
[Signature]

a California nonprofit corporation

The undersigned, Max Eddy Utt and Gladys Barricklow, do hereby certify that they are now and have been at all times herein mentioned, respectively the duly elected and acting President and Assistant Secretary of Southern California Presbyterian Homes, a California nonprofit corporation, and further that:

1. At the Annual Meeting of the Board of Trustees of said corporation duly held at the principal office of the corporation, 1501 Wilshire Boulevard, Los Angeles, California, at 6:30 o'clock p.m. on the 24th day of February, 1958, at which meeting there was at all times present and acting a quorum of the members of said Board, the following resolutions were duly adopted:

"BE IT RESOLVED, that the Articles of Incorporation of Southern California Presbyterian Homes, a California nonprofit corporation, are hereby amended as follows:

"Section 2 is hereby amended so that there is added in the second unnumbered paragraph thereof to the purposes for which this corporation is formed a new subparagraph (1) which will follow present subparagraph (k) which said new subparagraph (1) is as follows:

"(1) Notwithstanding any other provision contained herein the corporation formed hereby is authorized to enter into a contract (Regulatory Agreement) with the Federal Housing Commissioner and shall be bound by the terms thereof to enable the Commissioner to carry out the provisions of Title II, Section 207 (b) (2) of the National Housing Act, as amended. Upon execution the contract (Regulatory Agreement) shall be binding upon the corporation, its successors and assigns, so long as a mortgage is outstanding, unpaid, and insured or held by the Federal Housing Commissioner.

"BE IT FURTHER RESOLVED, that the President or the Vice President and the Secretary or the Assistant Secretary of this corporation be and they hereby are authorized and directed to procure the adoption and approval of the foregoing amendment by the Board by the vote or written consent of the members of this corporation constituting at least two-thirds of a quorum thereof, and thereafter to sign and verify by their oaths, and to file, a certificate in the form and manner required by Section 3672 of the Corporations Code of the State of California, and in general, to do any and all things necessary to effect said amendment in accordance with law."

2. After the adoption of the resolutions by the Board of Trustees of Southern California Presbyterian Homes as set forth in 1 above, the amendments to said Articles of Incorporation set forth in said resolutions were adopted by the written consent of members holding at least a majority of the voting power of said corporation and by members constituting at least two-thirds of a quorum of the members of said corporation. AGREEMENT OF MERGER

This Agreement of Merger dated as of the 1st day of January, 1959, made by and between UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST, a California non-profit corporation, and SOUTHERN CALIFORNIA PRESBYTERIAN HOMES, a California non-profit corporation, said corporations collectively being hereinafter sometimes referred to as the "Constituent Corporations";

Survivor

W I T N E S S E T H :

WHEREAS UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST, a California non-profit corporation, has heretofore operated in Glendale, County of Los Angeles, California, a home for aged persons as a part of the program of and supported by THE UNITED PRESBYTERIAN CHURCH OF NORTH AMERICA, a religious organization; and

WHEREAS SOUTHERN CALIFORNIA PRESBYTERIAN HOMES, a California non-profit corporation, has heretofore operated in La Jolla, County of San Diego, California, a home for aged persons and is presently constructing a similar home in Duarte, County of Los Angeles, California, as part of a program of and supported by THE PRESBYTERIAN CHURCH IN THE UNITED STATES OF AMERICA, a religious organization; and

WHEREAS, said UNITED PRESBYTERIAN CHURCH OF NORTH AMERICA and said THE PRESBYTERIAN CHURCH IN THE UNITED STATES

OF AMERICA have merged and become unified into one new religious organization entitled "The United Presbyterian Church in the United States of America"; and

WHEREAS, in consideration of the premises, the parties to this Agreement deem it to be to the best interests of their respective organizations and the members thereof that UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST and SOUTHERN CALIFORNIA PRESBYTERIAN HOMES be merged and that SOUTHERN CALIFORNIA PRESBYTERIAN HOMES be the surviving corporation;

NOW, THEREFORE, the Constituent Corporations agree as follows:

1. The Constituent Corporations shall be and are hereby merged into a single corporation by merging into Southern California Presbyterian Homes (hereinafter sometimes referred to as "The Surviving Corporation") pursuant to the provisions of the Corporations Code of the State of California.

2. The terms and conditions of the Merger and the mode of carrying the same into effect, and the manner and basis of converting said Constituent Corporations and their respective memberships into The Surviving Corporation and its memberships are as follows:

Upon the merger of UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST and SOUTHERN CALIFORNIA PRESBY-

TERIAN HOMES, the separate existence of UNITED PRESBY-
TERIAN WOMEN'S ASSOCIATION OF THE WEST shall cease and
The Surviving Corporation, SOUTHERN CALIFORNIA PRESBY-
TERIAN HOMES, a California non-profit corporation, shall
succeed to and shall become the owner, without other
transfer, of all of the rights and properties of each of
the Constituent Corporations, and The Surviving Corpora-
tion shall be subject to all the debts and liabilities of
each of the Constituent Corporations, in the same manner
as if The Surviving Corporation had itself incurred them.
Members heretofore existing in UNITED PRESBYTERIAN
WOMEN'S ASSOCIATION OF THE WEST shall thereupon cease and
the members of The Surviving Corporation shall be as pro-
vided in and by the Articles of Incorporation and By-Laws
of SOUTHERN CALIFORNIA PRESBYTERIAN HOMES.

The first unnumbered paragraph of Article 2 of
the Articles of Incorporation of SOUTHERN CALIFORNIA PRES-
BYTERIAN HOMES at Southern California which presently
reads:

"The primary business in which the corporation
intends to initially engage is to establish, build,
equip, maintain, conduct and operate one or more
establishment or establishments, institution or insti-
tutions, home or homes and other place or places for
the reception and care of aged persons, including,
but not limited to, those who are members of the

Presbyterian Church in the United States of America within The Presbyteries of Los Angeles, Riverside, and Santa Barbara."

shall be and the same hereby is amended to read as follows:

"The primary business in which the corporation intends to initially engage is to establish, build, equip, maintain, conduct and operate one or more establishment or establishments, institution or institutions, home or homes and other place or places for the reception and care of aged persons, including, but not limited to, those who are members of The United Presbyterian Church in the United States of America within The Presbyteries of Los Angeles, Riverside, and Santa Barbara."

Subparagraph (b) of the second unnumbered paragraph of Article 2 of the Articles of Incorporation of The Surviving Corporation which presently reads as follows:

"To supply for aged persons, shelter, care, protection, love, understanding, companionship and those essentials of a full and devoted life believed to be desirable or essential by those believing in and accepting the teachings of Christ and the principles and doctrines of The Presbyterian Church in the United States of America."

shall be and the same hereby is amended to read as follows:

"To supply for aged persons, shelter, care, protection, love, understanding, companionship and those essentials of a full and devoted life believed to be desirable or essential by those believing in and accepting the teachings of Christ and the principles and doctrines of The United Presbyterian Church in the United States of America."

3. UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST will from time to time, as and when requested by The Surviving Corporation, execute such documents and do such other acts and things and take or cause to be taken such action as The Surviving Corporation may deem reasonably necessary or desirable in order to vest in and confirm to The Surviving Corporation title to and possession of the rights, properties, assets and business of UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST, and otherwise to carry out the full intent and purposes of this Agreement of Merger

IN WITNESS WHEREOF the parties hereto have caused this Agreement of Merger to be executed by their respective officers thereunto duly authorized and to

have caused their respective corporate seals to be impressed thereon as of the day and year first above written.

CERTIFICATE OF SOUTHERN CALIFORNIA PRESBYTERIAN HOMES, A NON-PROFIT CALIFORNIA CORPORATION, AS TO MERGER WITH UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST, A NON-PROFIT CALIFORNIA CORPORATION

The undersigned, MAX EDDY UTT and H. EUGENE BREITENBACH, and each of them, hereby certify that they are and at all times herein mentioned were respectively the President and Assistant Secretary of SOUTHERN CALIFORNIA PRESBYTERIAN HOMES, a California non-profit corporation, which has executed an Agreement of Merger, dated as of January 1, 1959, made by and between said SOUTHERN CALIFORNIA PRESBYTERIAN HOMES, a California non-profit corporation, and UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST, a California non-profit corporation, and that prior to the date hereof and prior to the execution of said Agreement of Merger, the same was approved by said SOUTHERN CALIFORNIA PRESBYTERIAN HOMES and its members, as follows:

Swinton

(a) A meeting of the Board of Trustees of SOUTHERN CALIFORNIA PRESBYTERIAN HOMES at which approval was given to said Agreement of Merger was held on December 1, 1958, at the office of the corporation, 1501 Wilshire Boulevard, Los Angeles, California, the same being a regular meeting of the Board of Trustees called and noticed under and pursuant to the provisions therefor of the By-Laws of said corporation.

(b) Attached hereto and incorporated herein is a copy of the Resolution adopted at said meeting of the said Board of Trustees, showing approval of the terms and conditions of said Agreement of Merger.

(c) Pursuant to said By-Laws, said Board of Trustees consists of twenty-one members, and at the time of the holding of said meeting there were duly elected and acting eighteen members of said Board. In the said By-Laws it is provided that the presence of five members of said Board of Trustees shall constitute a quorum at any meeting. At said meeting on December 1, 1958, there was present a quorum consisting of 12 members. The Resolution approving of said Agreement of Merger was adopted by a vote of 11 "Ayes" to 0 "Nays."

(d) Following the said action of the Board of Trustees the Agreement of Merger was submitted for

approval to a meeting of all members of said corporation entitled to vote, duly called upon notice of the time and place and purpose thereof given to each member at least twenty days prior to the date of said meeting, which notice of the meeting contained a statement of the general terms of the proposed Agreement of Merger. Such meeting of the members was held at the office of the corporation at 1501 Wilshire Boulevard, Los Angeles, California, on January 5, 1959, at the hour of 6:15 P.M. At said time and pursuant to the By-Laws of said corporation there existed eighteen members entitled to vote. In attendance or represented by proxy at said meeting were 17 members constituting a quorum thereof. There is but one class of members. There was presented to the meeting a Resolution approving of the said Agreement of Merger, and the Resolution of the Board of Trustees adopted December 1, 1958, which is referred to in subparagraph (b) above. Whereupon the said members by the affirmative vote of not less than two-thirds of those entitled to vote at a meeting approved the said Agreement of Merger and the terms and conditions thereof, those voting in favor of the approval of the Agreement of Merger were 17 members, and those voting against were 0 members.

(e) The corporation being a non-profit corporation it has no shares of stock outstanding and but one class of members, all of whom are entitled to vote.

(f) The notice of the time, place and purpose of the meeting was mailed to such members as set forth in subparagraph (d) above on December 8, 1958.

(g) The surviving corporation as provided in said Agreement of Merger is SOUTHERN CALIFORNIA PRESBYTERIAN HOMES, a California non-profit corporation.

(h) The Agreement of Merger, dated as of January 1, 1959, made by and between UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST, a California non-profit corporation, and SOUTHERN CALIFORNIA PRESBYTERIAN HOMES, a California non-profit corporation, filed with the Secretary of State concurrently with this Certificate pursuant to Section 4113 of the Corporations Code of the State of California is the Agreement of Merger above referred to and approved as hereinabove set forth by the said Board of Trustees and the members of SOUTHERN CALIFORNIA PRESBYTERIAN HOMES, and sets forth the terms and conditions

approved by said Resolution of the Trustees and the vote of the members.

DATED this 5th day of January, 1959.

RESOLUTION OF BOARD OF TRUSTEES
OF
SOUTHERN CALIFORNIA PRESBYTERIAN HOMES

RESOLVED, that the Agreement of Merger between United Presbyterian Women's Association of the West, a California non-profit corporation, and Southern California Presbyterian Homes, a California non-profit corporation, dated as of January 1, 1959, a copy or counterpart of which is attached hereto, is hereby approved and the terms and conditions of said Agreement of Merger and the mode of carrying them into effect as well as the manner and basis of converting the membership of the constituent corporations into the membership of the surviving corporation, as set forth in said Agreement of Merger, are, and each of them is, hereby approved; and be it

FURTHER RESOLVED, that said Agreement of Merger shall be submitted for approval to the members of this corporation entitled to vote as provided in Section 4107 of the Corporations Code of the State of California, and upon approval as therein provided, the President or a Vice President and the Secretary or an Assistant Secretary of this corporation shall execute a certificate as to the approval of such Agreement of Merger by this Board of Trustees and by such members in the form and manner as required by Sections 4110 and 4113 of said Corporations Code, and there shall be filed the said Agreement of Merger and said certificate with the Secretary of State as so provided, and upon such filing said Agreement of Merger shall become effective in accordance with its terms.

(Agreement of Merger attached)

AGREEMENT OF MERGER

This Agreement of Merger dated as of the 1st day of January, 1959, made by and between UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST, a California non-profit corporation, and SOUTHERN CALIFORNIA PRESBYTERIAN HOMES, a California non-profit corporation, said corporations collectively being hereinafter sometimes referred to as the "Constituent Corporations";

W I T N E S S E T H :

WHEREAS UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST, a California non-profit corporation, has heretofore operated in Glendale, County of Los Angeles, California, a home for aged persons as a part of the program of and supported by THE UNITED PRESBYTERIAN CHURCH OF NORTH AMERICA, a religious organization; and

WHEREAS SOUTHERN CALIFORNIA PRESBYTERIAN HOMES, a California non-profit corporation, has heretofore operated in La Jolla, County of San Diego, California, a home for aged persons and is presently constructing a similar home in Duarte, County of Los Angeles, California, as part of a program of and supported by THE PRESBYTERIAN CHURCH IN THE UNITED STATES OF AMERICA, a religious organization; and

WHEREAS, said UNITED PRESBYTERIAN CHURCH OF NORTH AMERICA and said THE PRESBYTERIAN CHURCH IN THE UNITED STATES

OF AMERICA have merged and become unified into one new religious organization entitled "The United Presbyterian Church in the United States of America"; and

WHEREAS, in consideration of the premises, the parties to this Agreement deem it to be to the best interests of their respective organizations and the members thereof that UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST and SOUTHERN CALIFORNIA PRESBYTERIAN HOMES be merged and that SOUTHERN CALIFORNIA PRESBYTERIAN HOMES be the surviving corporation;

NOW, THEREFORE, the Constituent Corporations agree as follows:

1. The Constituent Corporations shall be and are hereby merged into a single corporation by merging into Southern California Presbyterian Homes (hereinafter sometimes referred to as "The Surviving Corporation") pursuant to the provisions of the Corporations Code of the State of California.

2. The terms and conditions of the Merger and the mode of carrying the same into effect, and the manner and basis of converting said Constituent Corporations and their respective memberships into The Surviving Corporation and its memberships are as follows:

Upon the merger of UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST and SOUTHERN CALIFORNIA PRESBY-

TERIAN HOMES, the separate existence of UNITED PRESBY-
TERIAN WOMEN'S ASSOCIATION OF THE WEST shall cease and
The Surviving Corporation, SOUTHERN CALIFORNIA PRESBY-
TERIAN HOMES, a California non-profit corporation, shall
succeed to and shall become the owner, without other
transfer, of all of the rights and properties of each of
the Constituent Corporations, and The Surviving Corpora-
tion shall be subject to all the debts and liabilities of
each of the Constituent Corporations, in the same manner
as if The Surviving Corporation had itself incurred them.
Members heretofore existing in UNITED PRESBYTERIAN
WOMEN'S ASSOCIATION OF THE WEST shall thereupon cease and
the members of The Surviving Corporation shall be as pro-
vided in and by the Articles of Incorporation and By-Laws
of SOUTHERN CALIFORNIA PRESBYTERIAN HOMES.

The first unnumbered paragraph of Article 2 of
the Articles of Incorporation of SOUTHERN CALIFORNIA PRES-
BYTERIAN HOMES at Southern California which presently
reads:

"The primary business in which the corporation
intends to initially engage is to establish, build,
equip, maintain, conduct and operate one or more
establishment or establishments, institution or insti-
tutions, home or homes and other place or places for
the reception and care of aged persons, including,
but not limited to, those who are members of the

Presbyterian Church in the United States of
America within The Presbyteries of Los Angeles,
Riverside, and Santa Barbara."

shall be and the same hereby is amended to read as follows:

"The primary business in which the corporation intends to initially engage is to establish, build, equip, maintain, conduct and operate one or more establishment or establishments, institution or institutions, home or homes and other place or places for the reception and care of aged persons, including, but not limited to, those who are members of The United Presbyterian Church in the United States of America within The Presbyteries of Los Angeles, Riverside, and Santa Barbara."

Subparagraph (b) of the second unnumbered paragraph of Article 2 of the Articles of Incorporation of The Surviving Corporation which presently reads as follows:

"To supply for aged persons, shelter, care, protection, love, understanding, companionship and those essentials of a full and devoted life believed to be desirable or essential by those believing in and accepting the teachings of Christ and the principles and doctrines of The Presbyterian Church in the United States of America."

shall be and the same hereby is amended to read as follows:

"To supply for aged persons, shelter, care, protection, love, understanding, companionship and those essentials of a full and devoted life believed to be desirable or essential by those believing in and accepting the teachings of Christ and the principles and doctrines of The United Presbyterian Church in the United States of America."

3. UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST will from time to time, as and when requested by The Surviving Corporation, execute such documents and do such other acts and things and take or cause to be taken such action as The Surviving Corporation may deem reasonably necessary or desirable in order to vest in and confirm to The Surviving Corporation title to and possession of the rights, properties, assets and business of UNITED PRESBYTERIAN WOMEN'S ASSOCIATION OF THE WEST, and otherwise to carry out the full intent and purposes of this Agreement of Merger

IN WITNESS WHEREOF the parties hereto have caused this Agreement of Merger to be executed by their respective officers thereunto duly authorized and to

have caused their respective corporate seals to be impressed thereon as of the day and year first above written.

CERTIFICATE OF AMENDMENT
OF
ARTICLES OF INCORPORATION OF
SOUTHERN CALIFORNIA PRESBYTERIAN HOMES
a California nonprofit corporation

A16198

X FILED
In the Office of the Secretary of State
of the State of California
APR 15 1959
FRANK McKEON, Secretary of State
By *Ralph R. Martiny*
Deputy

The undersigned, MAX EDDY UTT and FRED E. RHODES, do hereby certify that they are now and have been at all times herein mentioned, respectively, the duly elected and acting President and Secretary of Southern California Presbyterian Homes, a California nonprofit corporation, and further that:

1. At a regular meeting of the Board of Trustees of said corporation, duly and regularly held at 1230 East Windsor Road, Glendale, California, on Monday, April 6, 1959, at 6:30 P.M., at which meeting there was at all times present and acting a quorum of the members of said Board, the following resolutions were duly adopted:

"BE IT RESOLVED, that for the purpose of clarification only, and without intent to enlarge upon or diminish the meaning of prior provisions, the Articles of Incorporation of Southern California Presbyterian Homes, a California nonprofit corporation, are hereby amended as follows:

"Section 2 in its entirety is amended to read:

"2. The primary business in which the corporation intends to initially engage is as a charitable corporation to establish, build, equip, maintain, conduct and operate one or more establishment or establishments, institution or institutions, home or homes and other place or places for the reception and care of aged persons, including, but not limited to, those who are members of the United Presbyterian Church in the United States of America within the Presbyteries of

Los Angeles, Riverside, and
Santa Barbara.

"The purposes for which this corporation is formed are and shall continue to be solely, irrevocably and exclusively charitable. In furtherance of such purposes and only when consistent therewith, the corporation shall:

"(a) Provide relief for the distress and hardship of aged persons.

"(b) Provide for the rehabilitation, recreation or education of aged persons who lack financial means to provide for themselves without financial distress.

"(c) Administer to the needs of the aged.

"(d) Maintain residence for aged persons, including such establishments, institutions, commissaries, dining rooms, recreational equipment, infirmaries, dispensaries and such other places and facilities as may be convenient or necessary.

"(e) Supply for aged persons, shelter, care, protection, love, understanding, companionship and those essentials of a full and devoted life believed to be desirable by those believing in and accepting the teachings of Christ and the principles and doctrines of The United Presbyterian Church in the United States of America.

"(f) Exercise those powers given to nonprofit corporations by the Corporations Code of the State of California.

"(g) Do all other acts necessary or expedient for the administration of the affairs and the attainment of the purposes of the corporation.

"The foregoing statement of purposes shall be construed as a statement of both purposes and powers, and the purposes and powers stated in each clause shall, except where otherwise expressed, be in nowise limited or restricted by reference to or inference from the terms or provisions from any other clause, but shall be regarded as independent purposes and powers.

"This corporation is organized pursuant to the General Nonprofit Corporation Law of the State of California and does not contemplate the distribution of gains, profits or dividends to the members thereof. The property of this corporation, and all parts thereof, is hereby dedicated solely, irrevocably and exclusively to charitable and religious purposes. No substantial part of the activity of this corporation shall be devoted to carrying on propaganda or otherwise attempting to influence legislation, and the corporation shall not participate in or intervene in (including the publishing or distribution of statements) any political campaign on behalf of any candidate for public office. Upon any liquidation or dissolution of this corporation or any abandonment of its assets or property, no part of any such property or assets shall be distributed to or inure to the benefit of any private member or individual, but said property and assets and all parts thereof shall, after payment or provision for the payment of the corporation's debts and obligations, be distributed to a fund, foundation or corporation organized and operated solely, exclusively and irrevocably for charitable and religious purposes.

"Notwithstanding any other provision contained herein, the corporation formed hereby is authorized to enter into a contract (Regulatory Agreement) with the Federal Housing Commissioner and shall be bound by the terms thereof to enable the Commissioner to carry out the provisions of Title II, Section 207 (b) (2) of the National Housing Act, as amended. Upon execution the contract (Regulatory Agreement) shall be binding upon the corporation, its successors and assigns, so long as a mortgage is outstanding, unpaid and insured or held by the Federal Housing Commissioner.

"BE IT FURTHER RESOLVED, that the President or Vice President and the Secretary or the Assistant Secretary of this corporation be and they hereby are authorized and directed to procure the adoption and approval of the foregoing amendment by the Board by the vote or written consent of the members of this corporation constituting at least two-thirds of a quorum thereof, and thereafter to sign and verify by their oaths, and to file, a certificate in the form and manner required by Section 3672 of the Corporations Code of the State of California, and in general, to do any and all things necessary to effect said amendment in accordance with law."

2. After the adoption of the resolutions by the Board of Trustees, as set forth in 1 above, the amendments to said Articles of Incorporation set forth in said resolutions were adopted by the written consent of members holding at least a majority of the voting power of said corporation and by members constituting at least two-thirds of a quorum of the members of said corporation. Said corporation is a nonstock corporation.

3. A copy of the form of written consent signed by the members of said corporation is as follows:

" WRITTEN CONSENT OF MEMBERS TO
AMENDMENT OF ARTICLES OF INCORPORATION OF
SOUTHERN CALIFORNIA PRESBYTERIAN HOMES

WHEREAS, at a Regular Meeting of the Board of Trustees of Southern California Presbyterian Homes, a California nonprofit corporation, duly and regularly held at 1230 East Windsor Road, Glendale, California, on Monday, April 6, 1959, at 6:30 P.M., at which meeting there was at all times present and acting a quorum of the members of said Board, the following resolutions were adopted:

"BE IT RESOLVED that for the purpose of clarification only, and without intent to enlarge upon or diminish the meaning of prior provisions, the Articles of Incorporation of Southern California Presbyterian Homes, a California nonprofit corporation, are hereby amended as follows:

"Section 2 in its entirety is amended to read:

"2. The primary business in which the corporation intends to initially engage is as a charitable corporation to establish, build, equip, maintain, conduct and operate one or more establishment or establishments, institution or institutions, home or homes and other place or places for the reception and care of aged persons, including, but not limited to, those who are members of the United Presbyterian Church in the United States of America within the Presbyteries of Los Angeles, Riverside and Santa Barbara.

"The purposes for which this corporation is formed are and shall continue to be solely, irrevocably and exclusively charitable. In furtherance of such purposes and only when consistent therewith, the corporation shall:

"(a) Provide relief for the distress and hardship of aged persons.

"(b) Provide for the rehabilitation, recreation or education of aged persons who lack financial means to provide for themselves without financial distress.

"(c) Administer to the needs of the aged.

"(d) Maintain residence for aged persons, including such establishments, institutions, commissaries, dining rooms, recreational equipment, infirmaries, dispensaries and such other places and facilities as may be convenient or necessary.

"(e) Supply for aged persons, shelter, care, protection, love, understanding, companionship and those essentials of a full and devoted life believed to be desirable by those believing in and accepting the teachings of Christ and the principles and doctrines of The United Presbyterian Church in the United States of America.

"(f) Exercise those powers given to nonprofit corporations by the Corporations Code of the State of California.

"(g) Do all other acts necessary or expedient for the administration of the affairs and the attainment of the purposes of the corporation.

"The foregoing statement of purposes shall be construed as a statement of both purposes and powers, and the purposes and powers stated in each clause shall, except where otherwise expressed, be in nowise limited or restricted by reference to or inference from the terms or provisions from any other clause, but shall be regarded as independent purposes and powers.

"This corporation is organized pursuant to the General Nonprofit Corporation Law of the State of California and does not contemplate the distribution of gains, profits or dividends to the members thereof. The property of this corporation, and all parts thereof, is hereby dedicated solely, irrevocably and exclusively to

charitable and religious purposes. No substantial part of the activity of this corporation shall be devoted to carrying on propaganda or otherwise attempting to influence legislation, and the corporation shall not participate in or intervene in (including the publishing or distribution of statements) any political campaign on behalf of any candidate for public office. Upon any liquidation or dissolution of this corporation or any abandonment of its assets or property, no part of any such property or assets shall be distributed to or inure to the benefit of any private member or individual, but said property and assets and all parts thereof shall, after payment or provision for the payment of the corporation's debts and obligations, be distributed to a fund, foundation or corporation organized and operated solely, exclusively and irrevocably for charitable and religious purposes.

"Notwithstanding any other provision contained herein, the corporation formed hereby is authorized to enter into a contract (Regulatory Agreement) with the Federal Housing Commissioner and shall be bound by the terms thereof to enable the Commissioner to carry out the provisions of Title II, Section 207 (b) (2) of the National Housing Act, as amended. Upon execution the contract (Regulatory Agreement) shall be binding upon the corporation, its successors and assigns, so long as a mortgage is outstanding, unpaid and insured or held by the Federal Housing Commissioner.

"BE IT FURTHER RESOLVED, that the President or Vice President and the Secretary or the Assistant Secretary of this corporation be and they hereby are authorized and directed to procure the adoption and approval of the foregoing amendment by the Board by the vote or written consent of the members of this corporation constituting at least two-thirds of a quorum thereof, and thereafter to sign and verify by their oaths, and to file, a certificate in the form and manner required by Section 3672 of the Corporations Code of the State of California, and in general, to do any and all things necessary to effect said amendment in accordance with law."

4. The total number of members entitled to vote on or consent to the adoption of such amendment is twenty, and pursuant to the By-Laws five members constitute a quorum. The total number of members signing said written consent was eighteen.

IN WITNESS WHEREOF, the undersigned have executed this Certificate of Amendment this 6th day of April, 1959.

Max Eddy Utt
President, Southern California
Presbyterian Homes

Fred E. Rhodes
Secretary, Southern California
Presbyterian Homes

STATE OF CALIFORNIA }

RESTATED
ARTICLES OF INCORPORATION
OF
SOUTHERN CALIFORNIA PRESBYTERIAN HOMES

ARTICLE I

The name of this corporation is SOUTHERN CALIFORNIA PRESBYTERIAN HOMES.

ARTICLE II

This corporation is a nonprofit public benefit corporation and is not organized for the private gain of any person. It is organized under the Nonprofit Public Benefit Corporation Law for charitable purposes. This corporation elects to be governed by all of the provisions of the Nonprofit Public Benefit Corporation Law of 1980 not otherwise applicable to it under Part 5. A further description of the corporation's purposes is as follows: to establish, build, equip, maintain and operate one or more institutions, homes or other places for the reception and care of individuals.

ARTICLE III

A. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (or the corresponding provisions of any future United States Internal Revenue Law).

B. No substantial part of the activities of this corporation shall consist of carrying on propaganda, or otherwise attempting to influence legislation, except as provided in Section 501(h) of the Internal Revenue Code of 1986, as amended (or the corresponding provisions of any future United States Internal Revenue Law), and this corporation shall not participate or intervene in any political campaign (including the publishing or distribution of statements) on behalf of (or in opposition to) any candidate for public office.

ARTICLE IV

Notwithstanding any other provision of these Articles, the corporation shall not carry on any other activities not permitted to be carried on (a) by a corporation exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (or the corresponding provision of any future United States Internal Revenue Law), or (b) by a corporation, contributions to which are deductible under Section 170(c)(2) of the

Internal Revenue Code of 1986, as amended (or the corresponding provision of any future United States Internal Revenue Law).

ARTICLE V

The property of this corporation is irrevocably dedicated to charitable purposes, and no part of the net income or assets of this corporation shall ever inure to the benefit of any director, officer or member thereof, or to the benefit of any private person. Upon the dissolution or winding up of this corporation, its assets remaining after payment, or provision for payment, of all debts and liabilities of this corporation shall be distributed to a nonprofit fund, foundation or corporation which is organized and operated exclusively for charitable purposes and which has established its tax-exempt status under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (or the corresponding provision of any future United States Internal Revenue Law).

**RESTATED
ARTICLES OF INCORPORATION
OF**

**SOUTHERN CALIFORNIA PRESBYTERIAN HOMES,
a California Nonprofit Public Benefit Corporation**

The undersigned certify that:

1. They are the Chair of the Board and the Secretary, respectively, of Southern California Presbyterian Homes, a California nonprofit public benefit corporation.
2. The Articles of Incorporation of this corporation are amended and restated to read as follows:

ARTICLE I

The name of this corporation is SOUTHERN CALIFORNIA PRESBYTERIAN HOMES.

ARTICLE II

A. This corporation is a nonprofit public benefit corporation and is not organized for the private gain of any person. It is organized under the Nonprofit Public Benefit Corporation Law for charitable purposes. This corporation elects to be governed by all of the provisions of the Nonprofit Public Benefit Corporation Law of 1980 not otherwise applicable to it under Part 5.

B. The purposes of this corporation are (1) to develop and operate housing specially designed for older adults, with arrangements for residents' health care and financial security, and otherwise to promote the interests and serve the needs of older adults, provided that such activities are consistent with this corporation's exempt purposes; (2) to promote the health and well-being of older adults by providing home care, home health care, palliative care, hospice care, and other forms of care and services; (3) to provide affordable housing; and (4) to engage in any other charitable activities.

ARTICLE III

A. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the "Code") and Sections 214 and 23701d of the California Revenue and Taxation Code, as amended.

B. No substantial part of the activities of this corporation shall consist of carrying on propaganda, or otherwise attempting to influence legislation, except as provided in Section 501(h) of the Code. This corporation shall not participate or intervene in any political

campaign (including the publication or distribution of statements) on behalf of or in opposition to any candidate for public office.

ARTICLE IV

Notwithstanding any other provision of these articles, this corporation shall not conduct or carry on any activities not permitted to be conducted or carried on (a) by an organization exempt under Section 501(c)(3) of the Code; or (b) an organization, contributions to which are deductible under Section 170 of the Code.

ARTICLE V

The property of this corporation is irrevocably dedicated to charitable purposes and no part of the net income or assets of this corporation shall ever inure to the benefit of any director, officer, or member thereof or to the benefit of any private person. Upon the liquidation, dissolution, or winding up of the corporation, its assets remaining after payment, or provision for payment, of all debts and liabilities of this corporation shall be distributed to a fund, foundation, or corporation that is organized and operated exclusively for charitable purposes and that has established its tax-exempt status under Section 501(c)(3) of the Code.

ARTICLE VI

The liability of the directors of this corporation for monetary damages shall be eliminated to the fullest extent permissible under California law.

3. The foregoing restatement of Articles of Incorporation has been duly approved by the board of directors.
4. This corporation has no members.

We further declare under penalty of perjury under the laws of the State of California that the matters set forth in this certification are true and correct of our own knowledge.

ARTICLES OF INCORPORATION

OF

SOUTHERN CALIFORNIA PRESBYTERIAN HOMES,

a California Nonprofit Public Benefit Corporation

FILED CU
Secretary of State
State of California VM

APR 29 2016

IPC

The undersigned, John H. Cochrane III and David R. Decker, hereby certify that:

1. They are the duly elected and acting President/CEO and Secretary, respectively, of Southern California Presbyterian Homes, a California nonprofit public benefit corporation (the "Corporation").
2. The Articles of Incorporation of the Corporation are amended and restated to read in their entirety as follows:

I

The name of this Corporation shall be SOUTHERN CALIFORNIA PRESBYTERIAN HOMES.

II

A. This Corporation is a nonprofit public benefit corporation and is not organized for the private gain of any person. It is organized under the Nonprofit Public Benefit Corporation Law for public and charitable purposes.

B. The specific and primary purposes for which this Corporation is formed are to: (1) provide healthcare services, supportive services and/or housing, including affordable housing, as well as related facilities and services to low income households, elderly persons and others with special needs, on a nonprofit charitable basis; (2) own, operate, conduct, and maintain nonprofit charitable continuing care retirement communities, skilled nursing facilities, personal care units, and such other facilities that may advance the general purposes for which this Corporation is formed; (3) receive donations, gifts, and other funds for use in the advancement of the purposes of this Corporation; and (4) engage in any other charitable activities.

III

A. This Corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the "Code").

B. Notwithstanding any other provision of these articles or the bylaws, this Corporation shall not carry on any activities not permitted to be carried on by: (i) a corporation

exempt from federal income tax under Section 501(c)(3) of the Code, or (ii) a corporation, contributions to which are deductible under Section 170(c)(2) of the Code.

C. No substantial part of the activities of this Corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and this Corporation shall not participate in or intervene in (including the publishing or distribution of statements) any political campaign on behalf of or in opposition to any candidate for public office.

D. The property of this Corporation is irrevocably dedicated to charitable purposes and no part of the net income or assets of this Corporation shall inure to the benefit of any director, officer or member thereof or to the benefit of any private person.

E. Upon the dissolution or winding up of the Corporation, its assets remaining after payment, or provision for payment, of all debts and liabilities of this Corporation shall be distributed to a nonprofit fund, foundation or corporation which is organized and operated exclusively for charitable purposes and which has established its tax exempt status under Section 501(c)(3) of the Code.

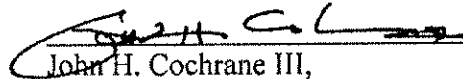

IV

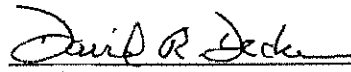

The liability of the directors of this Corporation for monetary damages shall be eliminated to the fullest extent permissible under California law.

3. The foregoing Amended and Restated Articles of Incorporation of the Corporation have been duly approved by the board of directors of the Corporation.
4. The Corporation has no members.

Each of the undersigned declares under penalty of perjury under the laws of the State of California that the matters set forth in this Certificate of Amendment and Restatement are true and correct of his or her own knowledge.

IN WITNESS WHEREOF, the undersigned executed this Certificate of Amendment and Restatement on 28 April, 2016.

ICC

The undersigned, John Cochrane and S. Louise Rankin, hereby certify that:

1. They are the duly elected and acting President/CEO and Assistant Secretary, respectively, of Southern California Presbyterian Homes, a California nonprofit public benefit corporation (the "Corporation").
2. The Articles of Incorporation of the Corporation are amended and restated to read in their entirety as follows:

I

The name of this Corporation shall be HumanGood SoCal.

II

A. This Corporation is a nonprofit public benefit corporation and is not organized for the private gain of any person. It is organized under the Nonprofit Public Benefit Corporation Law for public and charitable purposes.

B. The specific and primary purposes for which this Corporation is formed are to: (1) provide healthcare services, supportive services and/or housing, including affordable housing, as well as related facilities and services to low income households, elderly persons and others with special needs, on a nonprofit charitable basis; (2) own, operate, conduct, and maintain nonprofit charitable continuing care retirement communities, skilled nursing facilities, personal care units, and such other facilities that may advance the general purposes for which this Corporation is formed; (3) receive donations, gifts, and other funds for use in the advancement of the purposes of this Corporation; and (4) engage in any other charitable activities.

III

A. This Corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the "Code").

B. Notwithstanding any other provision of these articles or the bylaws, this Corporation shall not carry on any activities not permitted to be carried on by: (i) a corporation exempt from federal income tax under Section 501(c)(3) of the Code, or (ii) a corporation, contributions to which are deductible under Section 170(c)(2) of the Code.

C. No substantial part of the activities of this Corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and this Corporation shall not participate in or intervene in (including the publishing or distribution of statements) any political campaign on behalf of or in opposition to any candidate for public office.

D. The property of this Corporation is irrevocably dedicated to charitable purposes and no part of the net income or assets of this Corporation shall inure to the benefit of any director, officer or member thereof or to the benefit of any private person.

E. Upon the dissolution or winding up of the Corporation, its assets remaining after payment, or provision for payment, of all debts and liabilities of this Corporation shall be distributed to a nonprofit fund, foundation or corporation which is organized and operated exclusively for charitable purposes and which has established its tax exempt status under Section 501(c)(3) of the Code.

IV

The liability of the directors of this Corporation for monetary damages shall be eliminated to the fullest extent permissible under California law.

3. The foregoing Amended and Restated Articles of Incorporation of the Corporation have been duly approved by the board of directors of the Corporation.
4. The foregoing Amended and Restated Articles of Incorporation have been duly approved by the member of the Corporation.

Each of the undersigned declares under penalty of perjury under the laws of the State of California that the matters set forth in this Certificate of Amendment and Restatement are true and correct of his or her own knowledge.

Date:

Alex Padilla

ALEX PADILLA, Secretary of State

SECTION 999.5(d)(4)

2) Current Bylaws for HumanGood SoCal

**Amended and Restated Bylaws of
HumanGood SoCal
a California Nonprofit Public Benefit Corporation**

ARTICLE 1 NAME

The name of this Corporation is “HumanGood SoCal” (formerly known as Southern California Presbyterian Homes, dba be.group).

ARTICLE 2 OFFICES

2.1 *PRINCIPAL OFFICE*

The Corporation shall have a principal office at which it shall maintain its official records and transact other business. The principal office shall be located at a place as determined by the Board of Directors within or outside the State of California.

2.2 *OTHER OFFICES*

The Corporation may also have other offices within and outside of California as the Board of Directors may determine.

ARTICLE 3 PURPOSES

The primary purpose of this Corporation is as set forth in the Corporation’s Articles of Incorporation. The Corporation’s purposes may be amended exclusively by an amendment to the Articles of Incorporation as set forth in Section 12.3.

ARTICLE 4 MEMBER

4.1 *MEMBER*

The sole member of the Corporation is HumanGood, a California nonprofit public benefit corporation (the “Member”).

The Member shall continue to serve as the sole Member until such time as the Corporation is dissolved or these bylaws are amended by the Member to provide otherwise, or the Member is dissolved or ceases to be recognized by the Internal Revenue Service as an organization described by section 501(c)(3) of the Internal Revenue Code.

4.2 RIGHTS OF THE MEMBER

The Member shall have the right to vote, as set forth in these bylaws, on the election and removal of directors, the disposition of all or substantially all of the assets of the Corporation, any merger and its principal terms and any amendment of those terms, and any election to dissolve the Corporation. In addition, the Member shall have all rights afforded members under Section 5230 and following of the California Nonprofit Public Benefit Corporation Law (the "Nonprofit Law").

4.3 TRANSFER TO DIRECTORS IF MEMBER FAILS

If at any time during the term of this Corporation, the Member dissolves or ceases to be recognized by the Internal Revenue Service as an organization described by section 501(c)(3) of the Internal Revenue Code, then the directors in office at that time shall become members of the corporation without the need for further action.

4.4 MEETINGS OF MEMBER

The annual meeting of the Member as a member of this Corporation shall take place concurrently with or immediately after the annual board meeting of the Member as specified in the Member's bylaws.

A special meeting of the Member may be called in accordance with the bylaws of the Member.

4.5 ACTIONS BY WRITTEN CONSENT

Any action required or permitted to be taken by the Member may be taken without a meeting if the Member consents in writing to the action. The written consent or consents shall be filed with the minutes of the Corporation. The action by written consent shall have the same force and effect as a vote of the Member.

ARTICLE 5 DIRECTORS, ELECTION AND REMOVAL

5.1 POWERS OF BOARD OF DIRECTORS

The Corporation shall have a Board of Directors (referred to, in these bylaws, as the "Board"). The activities and affairs of the Corporation shall be conducted and all corporate powers shall be exercised by or under the direction of the Board, acting as a body. The Board may delegate the management of the activities and affairs of the Corporation to any person or persons, management company, or committee however composed, provided that the activities and affairs of the Corporation shall be managed and all corporate powers shall be exercised under the ultimate direction of the Board.

5.2 NUMBER

The Board shall have no less than seven and no more than eleven directors. Upon the effective date of these Restated and Amended Bylaws (the "Adoption Date"), the authorized number of directors shall be nine. The authorized number of directors may be set within these limits from time-to-time by vote of a majority of the directors then in office.

5.3 ELECTION OF DIRECTORS, TERMS OF OFFICE

At all times, the Board shall consist of:

(a) One "At-Large Director," who may be a person who concurrently serves on the governing board of HumanGood NorCal, a California public benefit corporation; the At-Large Director is nominated by the Board and elected by the Member;

(b) One "Resident Director," who shall be a resident of a continuing care retirement community in California operated by the Corporation who is nominated by the residents of such communities and who is elected by the Member; and

(c) "Ex Officio Directors," who shall be the seven (7) individuals who serve as board members of the Member, who shall also serve as voting directors of this Corporation *ex officio*.

Notwithstanding the preceding paragraph, upon the Adoption Date, and subject to the resignation of all then-current directors of the Corporation, the directors shall be the persons listed in Appendix A (the "Initial Directors"), who shall serve in the offices set forth therein.

All Initial Directors shall serve an initial term of four years (the "Initial Term"), concluding at the 2020 annual meeting of the Corporation.

5.4 SUCCESSOR DIRECTORS

As of the fiscal year commencing in 2020, the terms of the Ex Officio Directors shall be the same as the terms of those individuals serving as board members of the Member. At the annual meeting of the Corporation held in 2020, the Board shall assign the At-Large Director and the Resident Director to 1, 2 or 3 year terms.

Commencing in 2020, prior to the Member's annual meeting, the Corporation shall forward to the Member nominees for the At-Large Director and the Resident Director each year that the At-Large Director's or the Resident Director's position will expire at the Corporation's annual meeting in that year. At each annual meeting, the Member shall elect the At-Large Director and the Resident Director from the nominees presented by the Board to fill directorships that expire that fiscal year. The Member may, in its sole discretion, reject any individual nominated. In that

event, the Board may continue to nominate individuals until the open directorships are filled by election by the Member.

Including the Initial Term, no person shall serve as a director of this Corporation for more than three consecutive terms. A director who has served three consecutive terms may be eligible to serve as a director again after one year has passed since that person was last a director, and may serve for a maximum of an additional three consecutive terms.

5.5 REMOVAL OF DIRECTORS

An Initial Director may be removed only for cause during his or her Initial Term. A director other than an Initial Director during the Initial Term may be removed without cause by the vote of a majority of the directors then in office.

5.6 VACANCIES

Vacancies on the Board shall exist (i) on the death or resignation of a director, or (ii) removal of any director by the Board in accordance with Section 5.5, or (iii) whenever the number of authorized directors is increased, or (iv) on the declaration by Board resolution of a vacancy in the office of a director who has been declared of unsound mind by a final order of court, or convicted of a felony, or been found by a final order or judgment of any court to have breached any duty under the Nonprofit Law.

Any director may resign effective upon giving written notice to the President, the Secretary, or the Board. Any such resignation shall take effect at the date of receipt of such notice or at any later date specified therein. Unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective. No director may resign if such resignation will leave the Corporation without at least one duly elected director in charge of its affairs except upon notice to the Attorney General of the State of California.

A reduction of the number of authorized directors shall be effective only upon the expiration of the then-current directors' terms of office or upon the occurrence of any other vacancy in the Board, unless the reduction or the amendment also provides for the removal of one or more specified directors.

In the case of the vacancy of the At-Large Director, the then-current directors shall nominate a person who meets the requirements of Section 5.3(a), who shall be considered for election by the Member pursuant to the procedure set forth in Section 5.4 at the Member's annual meeting or at any special meeting of the Member.

In the case of the vacancy of the Resident Director, the Board shall consider residents' selections and nominate a resident in the manner set forth in Section 5.3(b), who shall be considered for election by the Member pursuant to the procedure set forth in Section 5.4 at the Member's annual meeting or at any special meeting of the Member.

The office of any Ex Officio Director who ceases to be a director of the Member for any reason shall be deemed vacant until that vacant Member directorship is filled.

ARTICLE 6 DIRECTOR DUTY OF CARE AND CONDUCT

6.1 DUTY OF CARE AND LOYALTY

It is the obligation of each director of the Corporation to perform his or her duties in good faith, in a manner such director believes to be in the best interests of the Corporation, and with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances. This obligation extends to all activities a director performs in that capacity including, without limitation, duties as a member of any committee of the Board on which a director may serve.

In the administration of the powers to make and retain investments and to delegate investment management of corporate funds, the Board shall consider among other relevant considerations the long and short term needs of the Corporation in carrying out its purposes, its present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions.

6.2 GENERAL DUTIES

It is the duty of each director to:

(a) Perform any and all duties imposed on him or her individually, or collectively upon the Board, by law, by the Articles of Incorporation of this Corporation, or by these bylaws; and

(b) Register his or her addresses, phone and facsimile numbers, and primary email address with the Secretary of the Corporation. Notices of meetings delivered or telephoned to a director at such address shall be valid notices. Notices of meetings delivered by phone (including a voice messaging system), facsimile, email or by other electronic means shall be valid notices thereof if, prior to delivery of the notice, the director has given his or her consent to receive notice by such means.

It is the duty of the Board to:

(a) Appoint and remove the President and appointed officers.

(b) Meet at such times and places as required by these bylaws.

6.3 RESTRICTION REGARDING INTERESTED DIRECTORS

Notwithstanding any other provision of these bylaws, not more than 49% of the persons serving on the Board may be interested persons. An "interested person" is:

(a) Any person currently being compensated by the Corporation for services rendered it in the previous 12 months excluding any reasonable compensation paid to a director as director. For purposes of this definition, compensation means any payment as a full or part-time employee, an officer, a contractor, a vendor or otherwise.

(b) Any brother, sister, ancestor, descendant, spouse, brother-in-law, sister-in-law, son-in-law, daughter-in-law, mother-in-law, or father-in-law of any such person.

6.4 SELF-DEALING

The Corporation shall not enter into any contract or transaction, directly or indirectly, with any: (i) director of the Corporation; (ii) officer of the Corporation; (iii) any person who during the 5-year period ending on the date of the such transaction was in a position to exercise substantial influence over the affairs of the Corporation; or (iv) any person who is a relative by blood or marriage of such a person or who along with such a person owns more than 35% of the voting power, profit interest or beneficial interest in an entity, unless:

(a) The material facts regarding that person's financial interest in such contract or transaction, or regarding such common directorship, officership, or financial interest, are fully disclosed in good faith and noted in the minutes, or are known to all directors, prior to consideration by the Board of such contract or transaction;

(b) Such contract or transaction is authorized in good faith by a vote of the majority of the directors then in office, without counting the votes of any director who has a financial interest in the transaction;

(c) Before authorizing or approving the transaction, the Board considers and in good faith determines, after reasonable investigation, that the Corporation could not obtain a more advantageous arrangement with reasonable effort under the circumstances; and

(d) At the time the transaction is entered into:

(i) The transaction is fair and reasonable to the Corporation; and

(ii) The Corporation entered into it for its own benefit.

6.5 MUTUAL DIRECTORS

The Corporation shall not enter into a contract or transaction with any other entity of which one or more of the Corporation's directors are directors (or the equivalent) unless:

(a) The material facts as to the transaction and as to such director's other directorship are fully disclosed or known to the Board, and the Board or committee authorizes, approves or ratifies the contract or transaction in good faith, or

(b) The contract or transaction is just and reasonable to the Corporation at the time it is authorized, approved or ratified.

6.6 COMPENSATION

Directors shall serve without compensation. Directors and other disqualified persons may be allowed reasonable advancement or reimbursement of expenses incurred in the performance of their regular duties as specified in Section 6.2. Directors may be compensated for rendering services to the Corporation in any capacity other than director only if such other compensation is reasonable, allowable, and has been authorized under the provisions of Sections 6.3 and 6.4.

6.7 LOANS TO OFFICERS OR DIRECTORS

The Corporation shall not make any loan of money or property to or guarantee the obligation of any director or officer, unless approved by the Attorney General; provided, however, that the Corporation may advance money to a director or officer of the Corporation or of its parent or any subsidiary for expenses reasonably anticipated to be incurred in the performance of the duties of such officer or director, provided that in the absence of such advance, such director or officer would be entitled to be reimbursed for such expenses by such Corporation, its parent, or any subsidiary.

The provisions of this Section do not apply to:

(a) The payment of premiums in whole or in part by the Corporation on a life insurance policy on the life of a director or officer so long as repayment to the Corporation of the amount paid by it is secured by the proceeds of the policy and its cash surrender value; or

(b) A loan of money to or for the benefit of an officer in circumstances where the loan is necessary, in the judgment of the Board, to provide financing for the purchase of the principal residence of the officer in order to secure the services or continued services of the officer and the loan is secured by real property located in California.

6.8 NON-LIABILITY OF DIRECTORS

The directors shall not be personally liable for the debts, liabilities, or other obligations of the Corporation.

6.9 INSURANCE FOR CORPORATE AGENTS

This Corporation shall have the right to purchase and maintain insurance to the full extent permitted by law on behalf of its officers, directors, employees, and other agents to cover any liability asserted against or incurred by any officer, director, employee, or agent in such capacity or arising from the officer's, director's, employee's, or agent's status as such.

6.10 INDEMNIFICATION BY CORPORATION OF DIRECTORS, OFFICERS, EMPLOYEES AND OTHER AGENTS

(a) For purposes of this Section, the following terms shall have the meanings ascribed:

(i) "Agent" means any person who is or was a director, officer, employee, or other agent of this Corporation;

(ii) "Proceeding" means any threatened, pending, or completed action or proceeding, whether civil, criminal, administrative, or investigative; and

(iii) "Expenses" includes, without limitation, all attorney fees, costs, and any other expenses incurred in the defense of any claims or proceedings against an agent by reason of his position or relationship as agent and all attorneys' fees, costs, and other expenses incurred in establishing a right to indemnification under this Article.

(b) Subject to the required findings to be made pursuant to Subsection 6.10(f), this Corporation shall indemnify any person who was or is a party, or is threatened to be made a party, to any proceeding for all expenses, judgments, fines, settlements, and other amounts actually and reasonably incurred in connection with the proceeding, other than an action brought by, or on behalf of, this Corporation, or by an officer, director or person granted related status by the Attorney General, or by the Attorney General on the ground that the defendant director was or is engaging in self-dealing within the meaning of section 5233 of the Nonprofit Law or by the Attorney General or a person granted related status by the Attorney General for any breach of duty relating to assets held in charitable trust, by reason of the fact that such person is or was an agent of this Corporation.

(c) This Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action brought by or on behalf of this Corporation by reason of the fact that the person is or was an agent of this

Corporation, for all expenses actually and reasonably incurred in connection with the defense of that action, provided that both of the following are met:

(i) The determination of good faith conduct required by Subsection 6.10(f) must be made in the manner provided for in that Subsection; and

(ii) Upon application, the court in which the action was brought must determine that, in view of all of the circumstances of the case, the agent should be entitled to indemnity for the expenses incurred. If the agent is found to be so entitled, the court shall determine the appropriate amount of expenses to be reimbursed.

(d) To the extent that an agent of this Corporation has been successful on the merits in the defense of any proceeding referred to in this Article, or in the defense of any claim, issue, or matter therein, the agent shall be indemnified against expenses actually and reasonably incurred by the agent in connection with the claim. If an agent either settles any such claim or sustains a judgment rendered against him, then the provisions of Subsections 6.10(c) and 6.10(f) shall determine whether the agent is entitled to indemnification.

(e) If any agent settles or otherwise disposes of a threatened or pending action brought by or on behalf of this Corporation, with or without court approval, the agent shall receive no indemnification for either amounts paid pursuant to the terms of the settlement or other disposition or for any expenses incurred in defending against the proceeding.

(f) The indemnification granted to an agent in Subsections 6.10(b) through 6.10(d) is conditioned on the following:

(i) The agent seeking reimbursement must be found, in the manner provided below, to have acted in good faith, in a manner he believed to be in the best interest of this Corporation, and with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use in similar circumstances. The termination of any proceeding by judgment, order, settlement, conviction, or on a plea of nolo contendere, or its equivalent shall not, of itself, create a presumption that the person did not act in good faith or in a manner which he reasonably believed to be in the best interest of this Corporation or that he had reasonable cause to believe that his conduct was unlawful. In the case of a criminal proceeding, the person must have had no reasonable cause to believe that his conduct was unlawful; and

(ii) The determination that the agent did act in a manner complying with Subsection (i) above, shall be made by:

(A) The Board by a majority vote of a quorum consisting of directors who are not parties to the proceeding; or

(B) The court in which the proceeding is or was pending. Such determination may be made on application brought by this Corporation or the

agent or the attorney or other person rendering a defense to the agent, whether or not this Corporation opposes the application by the agent, attorney, or other person.

(g) Expenses incurred in defending any proceeding may be advanced by this Corporation before the final disposition of the proceeding on receipt of an undertaking by or on behalf of the agent to repay the amount of the advance unless it is determined ultimately that the agent is entitled to be indemnified as authorized in this Article. However, no indemnification or advance shall be made under this Section, in any circumstance when it appears:

(i) That the indemnification or advance would be inconsistent with a provision of the Articles, or an agreement in effect at the time of the accrual of the alleged cause of action asserted in the proceeding in which the expenses were incurred or other amounts were paid, which prohibits or otherwise limits indemnification; or

(ii) That the indemnification would be inconsistent with any condition expressly imposed by a court in approving a settlement.

(h) Nothing contained in this Section shall affect any right to indemnification to which persons other than directors and officers of this Corporation, or any subsidiary hereof, may be entitled by contract or otherwise. This Section does not apply to any proceeding against any trustee, investment manager, or other fiduciary of a pension, deferred compensation, savings, thrift, or other retirement, incentive, or benefit plan, trust, or provision for any or all of the Corporation's directors, officers, employees, and persons providing services to the Corporation or any of its subsidiary or related or affiliated corporations, in that person's capacity as such, even though that person may also be an agent of the Corporation as defined in bylaws. Nothing contained in this Section shall limit any right to indemnification to which such a trustee, investment manager, or other fiduciary may be entitled by contract or otherwise, which shall be enforceable to the extent permitted by applicable law.

6.11 EMERGENCY POWERS

The emergency bylaw provisions of this section are adopted in accordance with Section 5151(g) of the Nonprofit Law. Notwithstanding anything to the contrary herein, this section applies solely during an Emergency, which is the limited period of time during which a quorum cannot be readily convened for action as a result of the following events or circumstances until the event or circumstance has subsided or ended and a quorum can be readily convened in accordance with the notice and quorum requirements in Sections 7.5 and 7.8 of these bylaws:

(a) A natural catastrophe, including, but not limited to, a hurricane, tornado, storm, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought, or regardless of cause, any fire, flood, or explosion;

(b) An attack on this state or nation by an enemy of the United States of America, or on receipt by this state of a warning from the federal government indicating that an enemy attack is probable or imminent;

(c) An act of terrorism or other manmade disaster that results in extraordinary levels of casualties or damage or disruption severely affecting the infrastructure, environment, economy, government function, or population, including, but not limited to, mass evacuations; or

(d) A state of emergency proclaimed by the governor of the state in which one or more Directors are resident, or by the President of the United States.

During an emergency, the board may:

(a) Modify lines of succession to accommodate the incapacity of any director, officer, employee, or agent resulting from the emergency;

(b) Relocate the principal office or authorize the officers to do so;

(c) Give notice to a director or directors in any practicable manner under the circumstances, including, but not limited to, by publication and radio, when notice of a meeting of the board cannot be given to that director or directors in the manner prescribed by Section 7.5 of these bylaws; and

(d) Deem that one or more officers present at a board meeting is a director, in order of rank and within the same rank in order of seniority, as necessary to achieve a quorum.

ARTICLE 7 MEETINGS OF THE BOARD

7.1 REGULAR AND ANNUAL MEETINGS

Regular meetings of the Board shall be held at least three times per fiscal year at a place and time to be determined by the Board. The regular meeting held during the second quarter of each fiscal year shall be the annual meeting.

At the annual meeting the Board shall undertake the election of officers and the transaction of other business.

7.2 SPECIAL MEETINGS

Special meetings of the Board may be called by the Chair, a Vice Chair, the Secretary, the President, or by any two directors, and such meetings shall be held at the place, within or

outside the State of California, designated by the person or persons calling the meeting, or in the absence of such designation, at the principal office of the Corporation.

7.3 MINUTES

The Board shall be responsible for recording, approving and maintaining minutes of the proceedings of the meeting of the Board and of committees of the Board. The Secretary shall take the minutes of Board meetings. In the event the Secretary is not in attendance at a meeting, and at all committee meetings, the chair of such meeting shall designate a person to record the minutes of the meeting.

7.4 PLACE OF MEETINGS

Meetings of the Board may be held at any place within or outside California that has been designated by resolution of the Board or in the notice of the meeting, or if not so designated, at the principal office of the Corporation.

Any director may participate in a meeting, and any meeting of the Board may be held by, conference telephone, video screen or other transmission, provided the requirements specified below are met. A director who participates in a meeting by such means shall be considered present in person for that meeting.

(a) In the case of a meeting held by conference telephone or video screen, all directors participating in the meeting are able to hear one another.

(b) In the case of other electronic transmission,

(i) Each director participating in the meeting can communicate with all other directors concurrently, and

(ii) Each director is provided the means of participating in all matters before the Board, including, without limitation, the capacity to propose or to interpose an objection to a specific action to be taken by the Corporation.

7.5 NOTICE OF MEETINGS

Notices of Board meetings are valid if made by:

- (i) First-class mail, postage prepaid;
- (ii) Personal delivery of a written notice;
- (iii) Delivery by overnight courier or private delivery service that can be and is confirmed;
- (iv) Telephone, including a voice messaging system or other technology designed to record and communicate messages, either directly to the director or to a

person at the director's office or home who would reasonably be expected to communicate that notice promptly to the director;

- (v) Facsimile;
- (vi) Email; or
- (vii) Other electronic means;

provided, however, that notice may only be provided by facsimile, email or other electronic means to a director who has given his or her consent to receive notice by such means and if a record capable of retention, retrieval and review of such notice is recorded.

Notice of regular meetings need not be given if fixed by a resolution of the Board that is noted in minutes distributed to all directors. Otherwise, notice of regular meetings will be valid if made no less than seven days prior to the date of the meeting. Notice of special meetings shall be valid if made at least three days prior to the date and time of the meeting.

Notice of the time and place of holding an adjourned meeting need not be given to absent directors if the time and place of the adjourned meeting are fixed at the meeting adjourned and if such adjourned meeting is held no more than 24 hours from the time of the original meeting. Notice shall be given of any adjourned regular or special meeting to directors absent from the original meeting if the adjourned meeting is held more than 24 hours from the time of the original meeting.

7.6 CONTENTS OF NOTICE

Notice of meetings not herein dispensed with shall specify the place (if other than the Corporation's principal office), day and hour of the meeting. The purpose of any meeting of the Board need not be specified in the notice.

7.7 WAIVER OF NOTICE AND CONSENT TO HOLDING MEETINGS

Notice of a meeting of the Board need not be given to any director who:

- (a) Either before or after the meeting:
 - (i) Signs a waiver of notice;
 - (ii) Signs a written consent to the holding of the meeting;
 - (iii) Approves of the minutes of the meeting; or

(b) Attends the meeting and who, before or at the beginning of the meeting, does not protest the lack of proper notice to him or her.

The waiver of notice or consent need not specify the purpose of the meeting. All such waivers, consents, and approvals shall be filed with the corporate records or made a part of the minutes of the meetings.

7.8 QUORUM FOR MEETINGS

A majority of the directors then in office shall constitute a quorum for the transaction of any business except adjournment.

If during a meeting at which a quorum was initially present some directors leave rendering the meeting without a quorum, the Board or committee may continue to transact business so long as any action taken or decision made is approved by at least the number of directors required to take action if a quorum were present.

Except as otherwise provided in these bylaws (including without limitation the preceding paragraph), in the Corporation's Articles of Incorporation, or by law, no business shall be considered by the Board at any meeting at which a quorum, as defined above, is not present. The only motion which is permitted at a meeting at which a quorum is not initially present is a motion to adjourn. A majority of the directors present at such meeting may adjourn from time to time until the time fixed for the next regular meeting of the Board.

Regardless of any other provision of these bylaws, a quorum must consist of no less than five directors.

7.9 MAJORITY ACTION AS BOARD ACTION; PROHIBITED ACTIONS

Subject to the restrictions set forth in the following paragraph, the Board may act by approving a resolution properly set before the Board by the affirmative vote of a majority of the directors present at a duly held meeting at which a quorum is present (subject to the more stringent provisions of these bylaws or the Nonprofit Law including, without limitation, provisions relating to (i) approval of contracts or transactions in which a director has a direct or indirect material financial interest, (ii) approval of certain transactions between corporations having common directorships, (iii) creation of, and appointment to, committees of the Board, and (iv) indemnification of directors).

For the first five years after the Adoption Date, the affirmative vote of at least five Initial Ex Officio Directors (as identified on Appendix A), which five must include no less than three of the HumanGood NorCal Initial Ex Officio Directors and two of the HumanGood SoCal Initial Ex Officio Directors, shall be required to approve any of the following actions:

- (a) Amendment of the articles or bylaws of the Corporation;
- (b) The acquisition or disposition of substantial assets by the Corporation;
- (c) The Corporation entering into any future affiliation with another entity; and

(d) Removal of John Cochrane as the President and the selection of any successor President.

7.10 CONDUCT OF MEETINGS

The Chair of the Board shall preside at meetings of the Board or, in his or her absence, the Vice Chair of the Board or, in the absence of each of these persons, a person chosen by a majority of the directors present at the meeting. The Secretary of the Corporation shall act as Secretary of all meetings of the Board, provided that, in his or her absence, the presiding officer shall appoint another person to act as Secretary of the meeting.

7.11 ACTION BY UNANIMOUS WRITTEN CONSENT WITHOUT MEETING

(a) Any action required or permitted to be taken by the Board may be taken without a meeting if all directors individually or collectively (i.e., in one or more identically worded documents) consent in writing or electronic transmission (pursuant to Subsection 7.11(c) below) to such action. Such action by written consent shall have the same force and effect as any other validly approved action of the Board. All such consents shall be filed with the minutes of the proceedings of the Board.

(b) Notwithstanding the above, the consent of any director who has a material financial interest in a transaction to which the Corporation is a party and who is an “interested person” as defined in Section 6.3 of these bylaws shall not be required for approval of that transaction.

(c) Written consent may be made by the means set forth below in this Subsection only if the Corporation:

(i) Has placed in effect reasonable measures to verify that the sender is the director purporting to send the transmission;

(ii) The transmission creates a record that is capable of retention, retrieval, and review that may thereafter be rendered into clearly legible tangible form; and

(iii) All such transmissions are made pursuant to such measures and means:

(A) Facsimile telecommunication or email, when such transmission is directed to the facsimile number or email address, respectively, that the Corporation has provided from time-to-time to directors for sending communications to the Corporation;

(B) Posting on an electronic message Board or network that the Corporation has designated for those communications, and which transmission shall be validly delivered upon the posting; or

(C) Other means of electronic communication.

ARTICLE 8 OFFICERS

8.1 ELECTED OFFICERS

The elected officers of the Corporation shall be a Chair, a Vice Chair, and a Secretary. Each such officer shall be a director and shall have such power and duties as are set forth in these bylaws. The Corporation may also have, as determined by the Board, one or more Assistant Secretaries, which Assistant Secretaries need not be directors. Any two offices may be held concurrently by the same person except that Chair may not concurrently serve as Secretary or Treasurer.

8.2 APPOINTED OFFICERS

The appointed officers of the Corporation shall be a President/Chief Executive Officer (the "President") and a Treasurer/Chief Financial Officer ("Treasurer"). The Board may also appoint one or more Vice Presidents, based on the selection by the President.

8.3 ELECTION AND TERM OF OFFICE

The elected officers shall be elected by the Board at the annual meeting, and shall serve at the pleasure of the Board, subject to the rights of any officer under any employment contract. Each elected officer shall hold office for a term of one year. The appointed officers of the Corporation, except the President, shall be selected by the President, and their terms will be set by the President. The President shall be appointed by, and shall serve at the will of, the Board.

8.4 REMOVAL AND RESIGNATION

Subject to the rights, if any, of an officer under any contract of employment, any elected officer and the President may be removed, either with or without cause, by the Board at any regular or special meeting of the Board, provided that, during the first five years after the Adoption Date, John Cochrane may only be removed as President by the vote of at least five Initial Ex Officio Directors, which five must include no less than three of the HumanGood NorCal Initial Ex Officio Directors and two of the HumanGood SoCal Initial Ex Officio Directors. Any officer appointed by the President may be removed, either with or without cause, by the President.

Any officer may resign at any time by giving written notice to the Board or to the Chair. Any such resignation shall take effect at the date of receipt of such notice or at any later date specified therein. Unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective. The above provisions of this Section shall be superseded by any conflicting terms of a contract which has been approved or ratified by the Board relating to the employment of any officer of the Corporation.

8.5 VACANCIES

Any vacancy caused by the death, resignation, removal, disqualification, or otherwise, of any elected officer or the President shall be filled by the Board. In the event of a vacancy in any office other than that of Chair, such vacancy may be filled temporarily by appointment by the Chair until such time as the Board shall fill the vacancy. A person so appointed to a vacant office (whether appointed by the Chair or elected by the Board) shall hold that office until the next annual meeting of the Member or until his or her death, resignation or removal from office. Vacancies occurring in offices of officers appointed at the discretion of the Board may or may not be filled as the Board shall determine.

8.6 DUTIES OF CHAIR

The Chair is to:

- (a) Preside at all meetings of the Board;
- (b) In the absence, inability to act or vacancy in the office of President, the Chair shall have and exercise the power of the President until a President is appointed; and
- (c) Perform all other duties incident to his or her office and such other duties as may be required by the Nonprofit Law, by the Articles of Incorporation of this Corporation, or by these bylaws, or which may be prescribed from time to time by the Board.

8.7 DUTIES OF VICE CHAIR

In the absence or disability of the Chair, the Vice Chair shall perform all powers of, and be subject to all the restrictions upon, the Chair. The Vice Chair shall have such other powers and perform such other duties as from time to time may be prescribed by the Board or the Chair.

8.8 DUTIES OF SECRETARY

The Secretary is to:

- (a) Certify and keep, or cause to be kept, at the principal office of the Corporation the original, or a copy, of the Articles of Incorporation and of these bylaws, as amended or otherwise altered to date;
- (b) Keep, or cause to be kept, at the principal office of the Corporation or at such other place as the Board may direct, a book of minutes of all meetings, proceedings and actions of the Board and of committees of the Board;
- (c) See that all notices are duly given in accordance with the provisions of these bylaws or as required by law;

(d) Exhibit or cause to be exhibited at all reasonable times to any director of the Corporation, or to his or her agent or attorney, on request therefor, these bylaws as amended to date, the Articles of Incorporation as amended to date, the minutes of the proceedings of the Board and committees of the board, and the Corporation's applications for tax exemption; and

(e) In general, perform all duties incident to the office of Secretary and such other duties as may be required by the Nonprofit Law, by the Articles of Incorporation of this Corporation, or by these bylaws, or which may be assigned to him or her from time to time by the Board.

8.9 PRESIDENT/CHIEF EXECUTIVE OFFICER

Subject to the control of the Board, the President shall be the chief executive officer of the Corporation and shall generally supervise, direct and control the Corporation's activities and affairs. The President shall:

(a) Except as otherwise expressly provided by law, by the Articles of Incorporation, or by these bylaws, in the name of the Corporation, execute such deeds, mortgages, bonds, contracts, checks, or other instruments which may from time to time be authorized by the Board;

(b) Authorize the employment of and determine the tenure of all appointive officers and employed staff of this Corporation and shall supervise their duties;

(c) Formulate the Annual Report of this Corporation and shall submit said report to the annual meeting of this Corporation. A copy of the Annual Report shall be sent to each director of this Corporation at least fifteen days prior to the annual meeting of this Corporation;

(d) Prepare a proposed budget for the ensuing fiscal year, that is responsive to the corporate financial goals established by the Board, and present it to the Board of Directors at least ten days prior to the meeting of the Board of Directors at which the budget is scheduled to be adopted; and

(e) Perform such other duties as may be prescribed from time to time by the Board.

8.10 DUTIES OF TREASURER/CHIEF FINANCIAL OFFICER

The Treasurer shall be the chief financial officer of the Corporation. The duties of the Treasurer are to:

(a) Keep and maintain, or cause to be kept and maintained, adequate and correct books and accounts of the Corporation's properties and business transactions, including

accounts of its assets, liabilities, receipts, disbursements, gains and losses. Books of account shall be maintained in accordance with applicable Generally Accepted Accounting Principles;

(b) Send, or cause to be given, to the directors and the President such financial statements and reports as are required to be given by law, by these bylaws, or by the Board;

(c) Exhibit at all reasonable times to any director of the Corporation, or to his or her agent or attorney, on request therefor, the books of account of the Corporation;

(d) Have charge and custody of, and be responsible for, all funds and securities of the Corporation, and (i) deposit, or cause to be deposited, all money and other valuables in the name and to the credit of the Corporation with such depositories as the Board may designate, and (ii) disburse, or cause to be disbursed, the Corporation's funds as the Board may order;

(e) Develop budgetary procedures for the Corporation and monitor compliance therewith;

(f) Render to the Chair, the President and directors, whenever requested, an account of any or all of his or her transactions as Treasurer, and of the financial condition of the Corporation;

(g) Prepare, or cause to be prepared, and certify, or cause to be certified, the financial statements to be included in any required reports;

(h) In general, perform all duties incident to the office of Treasurer and such other duties as may be required by the Nonprofit Law, by the Articles of Incorporation of the Corporation, or by these bylaws, or which may be assigned to him or her from time to time by the Board; and

(i) Provide, or cause to be provided, to the public, all filings required to be disclosed and made generally available to the public in the form or forms required by the Internal Revenue Service and all other tax regulation and charitable solicitation regulation authorities, or by statute.

ARTICLE 9 COMMITTEES

9.1 COMMITTEES

The Board may, by resolution adopted by a majority of the number of directors then in office, provided that a quorum is present, create committees of the Board that exercise some authority of the Board, each consisting of two or more directors, to serve at the pleasure of the Board and have such authority as is delegated by the Board. The Board shall create such committees as may be required by the Nonprofit Law. Committees of the board may include

directors and persons who are not directors, but shall not include managers of the Corporation. Committees of the board may include non-voting members who are managers of the Corporation.

By a majority vote of the directors then in office, the Board may at any time revoke or modify any or all of the authority delegated to any committee of the Board, increase or decrease (but not fewer than two) the number of members of any committee of the Board, and fill vacancies in any committees of the Board.

Each committee of the Board shall prepare a charter describing its duties and responsibilities, consistent with these bylaws. The committee shall compare its activities with its charter at least annually, and record its findings in the committee minutes.

All committees of the Board shall keep regular minutes of their proceedings, cause them to be filed with the corporate records, and report the same to the Board from time to time as the Board may require.

Directors who serve on committees shall receive no additional compensation.

9.2 MEETINGS AND ACTIONS OF COMMITTEES

Meetings and actions of all committees shall be governed by, noticed, held and taken in accordance with the provisions of Article 7, substituting the word “committee” for “Board,” and “committee member” for “director,” as context requires. Notwithstanding, the time for regular meetings of committees may be fixed by resolution of the Board or by the committee. The Board may also adopt rules and regulations pertaining to the conduct of meetings of committees to the extent that such rules and regulations are not inconsistent with the provisions of these bylaws.

9.3 RESTRICTIONS ON COMMITTEE AUTHORITY

The following powers are reserved to the Board of Directors as a whole and may not be delegated to any committees thereof:

- (a) The filling of vacancies on the Board or on any committee that has the authority of the Board;
- (b) The appointment of committees of the Board or the members thereof;
- (c) The fixing of compensation of the directors for serving on the Board or on any committee;
- (d) The amendment or repeal of bylaws or Articles of Incorporation, or the adoption of new bylaws or Articles of Incorporation;

(e) The amendment or repeal of any resolution of the Board which by its express terms is not so amendable or repealable;

(f) The expenditure of corporate funds to support a nominee for director after there are more people nominated for director than can be elected;

(g) The approval of any action for which the law requires approval of members or approval of a majority of all members regardless whether the Corporation has members; and

(h) The approval of any transaction to which this Corporation is a party and in which one or more of the directors has a material financial interest, except as expressly provided in section 5233(d)(3) of the Nonprofit Law.

9.4 ADVISORY COMMITTEES

The Corporation may have such other committees as may from time to time be designated by resolution of the Board. Such other committees may consist of persons who are not also members of the Board. These additional committees shall act in an advisory capacity only and shall be clearly titled as “advisory” committees.

ARTICLE 10 EXECUTION OF INSTRUMENTS, DEPOSITS AND FUNDS

10.1 EXECUTION OF INSTRUMENTS

Except as otherwise provided in these bylaws, the Board may by resolution authorize any officer or agent of the Corporation to enter into any contract or execute and deliver any instrument in the name of and on behalf of the Corporation, and such authority may be general or confined to specific instances. Unless so authorized, no officer, agent, or employee shall have any power or authority to bind the Corporation by any contract or engagement or to pledge its credit or to render it liable monetarily for any purpose or in any amount.

10.2 CHECKS AND NOTES

The Board shall determine who shall be authorized from time to time on the Corporation's behalf to sign checks, drafts and other orders for payment of money. Such authority may be general or confined to specific instances.

10.3 DEPOSITS

All funds of the Corporation shall be deposited from time to time to the credit of the Corporation in such banks, trust companies, or other depositories as the Board may select.

10.4 GIFTS

The Board may accept on behalf of the Corporation, any contribution, gift, bequest, or devise for the charitable or public purposes of this Corporation.

10.5 REPRESENTATION OF SHARES OF OTHER CORPORATIONS

The Chair or any other officer or officers authorized by the Board are each authorized to vote, represent, and exercise on behalf of the Corporation all rights incident to any and all shares of any other corporation. The authority herein granted may be exercised either by any such officer in person or by any other person authorized to do so by proxy or power of attorney duly executed by said officer. Notwithstanding the above, the Board shall vote or direct the President with respect to matters involving this Corporation's membership in other nonprofit corporations.

ARTICLE 11 CORPORATE RECORDS, REPORTS

11.1 MAINTENANCE OF CORPORATE RECORDS

The Corporation shall keep at its principal office:

(a) Minutes of all meetings of directors and committees of the Board, indicating the time and place of holding such meetings, whether regular or special, how called, the notice given, and the names of those present and the proceedings thereof;

(b) Adequate and correct books and records of account, including accounts of its properties and business transactions and accounts of its assets, liabilities, receipts, disbursements, gains and losses;

(c) A copy of the Corporation's Articles of Incorporation and these bylaws as amended to date; and

(d) Copies of all filings made to the Internal Revenue Service, the California Franchise Tax Board, California Secretary of State, and California Attorney General that the Corporation is required, by statute or regulation, to make generally available to the public.

11.2 CORPORATE SEAL

The Board may adopt, use, and at will alter, a corporate seal, but no seal is required, and failure to affix the seal to corporate instruments shall not affect the validity of such instrument. The seal, if any, shall be kept at the principal office of the Corporation.

11.3 INSPECTION RIGHTS

Every director and the Member shall have the absolute right at any reasonable time to inspect and copy all books, records and documents of every kind and to inspect the physical property of the Corporation. Any inspection under the provisions of this Article may be made in person or by an agent or attorney. The right to inspection includes the right to copy and make extracts.

11.4 ANNUAL REPORT

The Board shall cause an annual report to be furnished not later than 120 days after the close of the Corporation's fiscal year to all directors and the Member, which report shall contain the following information in appropriate detail:

- (a) The assets and liabilities, including the trust funds, of the Corporation as of the end of the fiscal year;
- (b) The principal changes in assets and liabilities, including trust funds, during the fiscal year;
- (c) The revenue or receipts of the Corporation, both unrestricted and restricted to particular purposes, for the fiscal year; and
- (d) The expenses or disbursements of the Corporation, for both general and restricted purposes, during the fiscal year.

The annual report shall be accompanied by any report thereon of independent accountants, or, if there is no such report, the certificate of an authorized officer of the Corporation that such statements were prepared without an audit from the books and records of the Corporation.

This requirement of an annual report shall not apply if the Corporation receives less than \$25,000 in gross receipts during the fiscal year, provided, however, that the information specified above for inclusion in an annual report must be furnished annually to all directors.

11.5 ANNUAL STATEMENT OF INDEMNIFICATIONS

As part of the annual report to all directors and the Member, or as a separate document if no annual report is issued, the Corporation shall, within 120 days after the end of the Corporation's fiscal year, annually prepare and furnish to each director a statement of any transactions or indemnifications of any indemnification or advances aggregating more than \$10,000 paid during the fiscal year to any officer or director of the Corporation pursuant to section 5238 of the Nonprofit Law.

ARTICLE 12 MISCELLANEOUS PROVISIONS

12.1 FISCAL YEAR OF THE CORPORATION

The fiscal year of the Corporation shall begin on the first day of January in each calendar year and end on the last day of December of that year.

12.2 AMENDMENT OF BYLAWS

Subject to the approval of the Member and any provision of law applicable to the amendment of bylaws of a California nonprofit corporation under the Nonprofit Law, these bylaws, or any of them, may be altered, amended or repealed, and new bylaws adopted by approval of the Board of directors; provided that, during the Initial Term, these bylaws may be amended only by the vote of at least five Initial Ex Officio Directors, which five must include no less than three of the HumanGood NorCal Initial Ex Officio Directors and two of the HumanGood SoCal Initial Ex Officio Directors.

No amendments to these bylaws will become effective until the Member has approved such amendments.

12.3 AMENDMENT OF ARTICLES OF INCORPORATION

Any amendment of the Articles of Incorporation may be adopted by the affirmative vote of a majority of the directors then in office and the vote of the Member; provided that, during the Initial Term, the Articles may be amended only by the vote of at least five Initial Ex Officio Directors, which five must include no less than three of the HumanGood NorCal Initial Ex Officio Directors and two of the HumanGood SoCal Initial Ex Officio Directors.

No amendments to the Corporation's Articles will become effective until the Member has approved such amendments.

Notwithstanding the first paragraph of this section 12.3, this Corporation shall not amend its Articles of Incorporation to add or to alter any statement which appears in the original Articles of Incorporation regarding the Corporation's initial street address or mailing address, the names and addresses of the first directors of the Corporation, or the name and address of its initial agent, except to correct an error in such statement or to delete the information after the Corporation has filed the Statement required by section 6210 of the Nonprofit Law.

12.4 CONSTRUCTION AND DEFINITIONS

Unless the context requires otherwise, the general provisions, rules of construction, and definitions in the Nonprofit Law shall govern the construction of these bylaws. Without limiting the generality of the above, the masculine gender includes the feminine and neuter, the singular number includes the plural, the plural number includes the singular, the term "person"

includes both the Corporation and a natural person, and vice versa. All references to statutes, regulations and laws shall include any future statutes, regulations and laws that replace those referenced.

SECTION 999.5(d)(4)(B)

- (B) Applicant's plan for use of the net proceeds after the close of the proposed transaction together with a statement explaining how the proposed plan is as consistent as possible with existing charitable purposes and complies with all applicable charitable trusts that govern use of applicant's assets. The plan must include any proposed amendments to the articles of incorporation or bylaws of the applicant or any entity related to the applicant that will control any of the proceeds from the proposed transfer.**

The net sale proceeds will be for the unrestricted use of HumanGood SoCal, whose activities include providing housing, health care, and activities to seniors in HumanGood SoCal's existing California facilities. These facilities have subsidized the operation of Windsor prior to the sale.

HumanGood SoCal does not anticipate that this plan will require any amendments to its Articles of Incorporation or Bylaws.

SECTION 999.5(d)(5)

IMPACTS ON HEALTH CARE SERVICES

(d)(5)(A)

- (A) A copy of the two most recent “community needs assessments” prepared by applicant for any health facility or facility that provides similar health care services that is the subject of the agreement or transaction.**

HumanGood SoCal owns and operates continuing care retirement communities (“CCRCs”) under the regulatory jurisdiction of the California Department of Social Services, the California Department of Public Health, the California Department of Health Care Services, and the United States Department of Health and Human Services. As a result, HumanGood SoCal is currently governed by the Continuing Care Contract Statutes, the statutes and regulations applicable to RCFEs and SNFs, and the Medicare and Medi-Cal laws. None of these laws require a CCRC, RCFE, or SNF to complete a community needs assessment and HumanGood SoCal has not done so.

SECTION 999.5(d)(5)(B)

- (B) A description of all charity care provided in the last five years by each health facility or facility that provides similar health care services that is the subject of the agreement or transaction. This description shall include annual total charity care spending; inpatient, outpatient and emergency room charity care spending; a description of how the amount of charity care spending was calculated; annual charity care inpatient discharges, outpatient visits, and emergency visits; a description of the types of charity care services provided annually; and a description of the policies, procedures, and eligibility requirements for the provision of charity care.**

Windsor is a CCRC with an on-site SNF, not a hospital. Questions regarding inpatient, outpatient, and emergency room charity care are not applicable in the SNF context. Further, HumanGood SoCal understands this question to pertain to charity care provided to residents of the Windsor SNF, but not to charity care that is provided in non-health-facility settings, such as independent living and assisted living.

Windsor participates in the Medi-Cal program. In the event that a resident at the Windsor SNF becomes unable to pay his or her monthly fee, the resident enrolls in Medi-Cal, and HumanGood SoCal accepts the Medi-Cal negotiated rate for the resident's care. HumanGood SoCal does not apply benevolence funds to supplement any shortfall between the Medi-Cal rate and HumanGood SoCal's rates for skilled nursing services. Rather, any such shortfall is accounted for as a reduction to HumanGood SoCal's net income.

HumanGood SoCal subsidizes the care and residence of continuing care residents in the event that they become unable to pay their monthly fees. These subsidies are typically reserved for residential living and assisted living residents, and are rarely applied in the SNF context. The reason for this is that Medi-Cal covers skilled nursing services for residents who become unable to cover the cost of their care, whereas independent or assisted living services are not covered by Medi-Cal.

Residents become eligible to receive benevolence subsidies after spending down their assets to meet the requirements for Medi-Cal eligibility. Residents must apply for other public assistance benefits, if eligible and will be allowed a monthly spending allowance of up to \$500 per month (or \$750 per couple.) HumanGood SoCal reviews and approves a resident's application for benevolence funds on a case-by-case basis. Once approved, the resident is allowed to pay what he or she can toward the contracted monthly fee, and HumanGood SoCal subsidizes the remainder of the monthly fee. (See attached Benevolence Policy for HumanGood SoCal). Under the PSA with Ararat, HumanGood SoCal has agreed to continue to pay the benevolence subsidies for the two Windsor residents who currently receive them. HumanGood SoCal with subsidize the care of these two residents for the remainder of their stay at Windsor.

Below is a table of HumanGood SoCal's total expenditure in benevolence funds for Windsor residents for the past five years:

Facility Type	2018	2019	2020	2021	2022 (through June)
Residential Living	\$19,236.00	\$64,554.60	\$4,900.00	\$5,600.00	\$2,984.00
Assisted Living	\$0	\$0	\$0	\$62,652.59	\$44,721.19

As of the date of the PSA, two Windsor residents received benevolence from HumanGood SoCal. As provided in Section 10.10 of the PSA, HumanGood SoCal will continue to subsidize the care and residence of those two residents (to the extent not covered by Medi-Cal) following the sale of Windsor and for so long as those residents continue to reside at Windsor. The obligation to consider all other residents' application for benevolence subsidies shall be assumed by Ararat with its assumption of resident contracts following the sale.

BENEVOLENCE POLICY Resident Alternative Payment Arrangements	Effective Date	1/30/2019
	Revision Dates	1/30/2019
	Departments Approving	Legal, Operations, Finance
Departments Affected	Operations of Life Plan Communities	

Summary of Policy and Procedure

The purpose of this policy is to outline the eligibility requirements and scope of benevolent discounts available to CCRC contract residents.

Policy

Resident alternative payment arrangements are available to eligible residents only at HumanGood’s discretion. If, through no fault of their own, the resident runs out of funds and is unable to pay their monthly fees or other charges promptly, HumanGood may, in its sole discretion, agree to grant “benevolence,” an alternative payment arrangement between the resident and HumanGood involving either subsidization by the Community of amounts owed to it or an extension of time to make any payments that are due.

Terms and Conditions

A. **Conditions to qualify for benevolence**

- 1) **Compliance with Agreement.** Resident must be in compliance with all terms of his or her Care and Residence Agreement in order to qualify for benevolence.
- 2) **Submission of updated financial materials.** As part of the application for benevolence (see attached “Application for Resident Financial Assistance”), the resident must submit to the Executive Director all requested documentation certifying to the use of residents income and other assets during their stay at the Community. Incomplete applications will not be considered.
- 3) **Conservation of Assets.** In order to qualify for benevolence, the resident must show that over the course of their residency at the Community they have conserved their assets to the extent possible in order to pay their basic healthcare and residence expenses. As a precondition to receiving benevolence, they may be required to agree to take reasonable steps to minimize HumanGood expenses, including (without limitation) moving to a less expensive apartment at the Community or, if they are in the Village, another Community owned or operated by HumanGood or one of its affiliates.

- 4) Spend-Down of Assets. The resident will be required to spend down their assets to meet the requirements for Medicaid eligibility in order to be eligible for benevolence. Any rebate payment owed to resident under their Care and Residence Agreement is such an asset. Therefore, in order to be eligible for benevolence, the resident will be required to sign an addendum to their Care and Residence Agreement agreeing to apply their rebate payment to the payment of their monthly fees and any other charges they incur at the Community. The rebate payment (if any) must be applied in full to pay such costs before they receive any benevolence.

In addition, the resident is required to spend all assets and income declared in their application forms on their care before they may apply for Medicaid, and the resident's failure to do so will be considered a breach of their Care and Residence Agreement, entitling HumanGood to terminate their residency.

- 5) Application for Public Benefits. Before the resident may qualify for benevolence, they must apply for, and seek the benefits of, any public assistance program for which they might qualify, including but not limited to, Supplemental Security Income/State Supplemental Program (SSI/SSP), Veteran's Pension, Medicaid, and Old Age Assistance.
- 6) Automatic Disqualification. The resident will not receive benevolence if any of the following are true:
 - (a) their residency application or any other personal financial information they provided to the Community contains any misrepresentations, whether intentional or otherwise, or
 - (b) at any time after they submit their initial application for residency at the Community,
 - (i) they transfer their assets or income to a third party, including family members, for less than their fair market value (e.g. by gift, tithing, philanthropic donation, or bargain sale); or
 - (ii) they transfer or unnecessarily deplete their assets or reduce the size of their estate in order to receive benevolence.

B. Maintaining Benevolence.

The resident must do all of the following to maintain their benevolence arrangement with HumanGood:

- 1) report promptly to HumanGood any material increase in their assets or the value, whether the increase occurs by way of gift, inheritance, appreciation in value, or otherwise;
- 2) refrain from transferring material portions of their assets or income for less than the fair market value;
- 3) refrain from transferring assets or reducing the size of their estate in order to retain such benevolence;
- 4) make arrangements at HumanGood's request for the preservation and management of their property by others, including conservators and trustees;
- 5) execute any instruments (including but not limited to addenda, promissory notes, assignments, security agreements, and deeds of trust) that HumanGood deems necessary

to evidence or secure its claim for repayment of any sums due as a result of granting benevolence; and

- 6) upon request or as periodically required by the Community, provide documentation necessary to recertify their income and assets including a financial statement and the most current income tax return (Form 1040).

c. **Personal Spending Allowance**

The resident will be allowed a personal spending allowance up to \$500 (\$750 for a couple). Expenses related to transportation (including auto insurance and parking space rental) will not be allowed as a separate line of expense, but will need to be covered by the personal spending allowance. Gifts to benevolences, employee appreciation fund, or other donations must be made from within the resident's personal spending allowance. See Attachment A for a detailed listing of covered and non-covered expenses.

d. **Repayment to HumanGood.**

The resident must agree that any benevolence HumanGood extends to them, including deferral or subsidization of their monthly fees or other charges, shall be deemed a loan to the resident by HumanGood, shall be a first lien against the resident's estate, and shall be deducted, along with simple interest, which shall accrue at the fixed rate equal to the 2-year U.S. Treasury rate in effect on the first date of subsidization or deferral, from any funds returned to the resident pursuant to their Care and Residence Agreement. Resident must agree to execute such documents as HumanGood requests to evidence and secure such lien. If the resident's financial situation improves while they are a resident, HumanGood's subsidy may be decreased or eliminated, as determined by the Community in its sole discretion. If the resident's financial situation improves to the extent that they are able to repay all or part of the Community's assistance, the resident will be required to make such repayment at a rate and on terms as established by the Community in its sole discretion. Upon repayment of all of the Community's assistance to you, HumanGood will execute appropriate documents to release its lien

 - c. Medical and dental bills – Must apply for Medicaid, if eligible
 - d. Dentures, hearing aids, glasses and prosthetics – Medicaid may reimburse
 - e. Personal Care – As needed, and not for companionship
 - f. Incontinence Supplies – As needed, if not covered by monthly fee
 - g. LTC insurance – Must apply for Medicaid, if eligible and/or ED must review policy to determine if keeping policy is cost effective

SECTION 999.5(d)(5)(C)

- (C) A description of all services provided by each health facility or facility that provides similar health care services that is the subject of the agreement or transaction in the past five years to Medi-Cal patients, county indigent patients, and any other class of patients. This description shall include but not be limited to the type and volume of services provided, the payors for the services provided, the demographic characteristics of and zip code data for the patients served by the health facility or facility that provides similar health care services, and the costs and revenues for the services provided.**

The following are attached to this Section:

1. Annual Medi-Cal and Medicare resident census for Windsor;
2. Medi-Cal resident demographics for Windsor; and
3. Summary of cost report data detailing revenues, expenses, and balance sheet information for Windsor.

SECTION 999.5(d)(5)(C)

1) Annual Medi-Cal resident census for Windsor

103					

*Owner means any individual having a 5% or more equity interest, direct or indirect, in the entity licensed as a health facility as defined in 42 CFR 455.101 and 455.102. An owner's relatives are defined as: spouse, son, daughter, grandchild, great-grandchild, stepchild, brother, sister, half-brother, half-sister, stepbrother, stepsister, parent, grandparent, great-grandparent, stepmother, stepfather, niece, nephew, aunt, uncle, son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law.

** Compensation as used in this schedule has the same definition as in 42 CFR 413.102 and refers to cash, personal benefits, cost of assets or services used, deferred compensation, or other consideration, including non-monetary, given in exchange for services provided to the organization.

(1) For the purposes of this voluntary supplemental schedule, the following definitions apply:

- Capital Addition - land, buildings, building equipment and major moveable equipment that have an estimated useful life at the time of the acquisition of at least two years, a historical cost of at least \$5,000 per item, and is not considered a replacement of a previously acquired asset.
- Capital Improvement - betterment of land, buildings, building equipment, major moveable equipment or leasehold property that either extends the useful life of at least two years beyond the original useful life of such asset or significantly increases the productivity over the original productivity of such asset, a cost of at least \$5,000 per item and is not considered a replacement of a previously acquired asset.
- Capital Replacement - land, building, building equipment, major moveable equipment and leasehold improvements that would be classified as a capital addition or improvement under the above definitions, except that such asset is considered a replacement of a previously acquired asset. A replacement is an asset that fills the place, position or purpose once filled by an asset that has been lost, destroyed, discarded, or is no longer usable or adequate.

(2) Refer to CMS Publication 15-1, Sections 104-117 for additional information on useful life standards.

615	Average number of employees	117	43	26
620	Total number of people employed during the period **	149	62	36
625	TURNOVER PERCENTAGE [(Ln 620 / Ln 615) X 100] - 100	27.35	44.19	38.46
630	Number of employees with continuous service for entire reporting period	101	34	21

CHFC 7041 h-6 & MC530

* Include all employees (RN's, LVN's, Nurse Assistants, technicians, specialists and others) providing direct nursing care.
Do not include supervisors who provide no direct nursing care.
Do include supervisors whose duties include some provision of nursing care.

** Total number of people cannot be less than the number of employees at the beginning of the period, less the number of employees with continuous service for the entire period, plus the number of employees at the end of the period (line 605 - line 630 + line 610).
This calculation is the MINIMUM possible number of people employed during the period.
It does not include employees who were hired after the period began and left or were discharged before the period ended.
Therefore, in most cases, line 620 should be greater than this calculation.

NOTICE OF AMOUNT OF PROGRAM REIMBURSEMENT

RE: Provider: Windsor Manor
Provider Number: 55-5616
Fiscal Year End: December 31, 2017

Dear Mr. Cochrane:

Our final determination, made in accordance with 42 CFR 405.1803, resulted in no adjustment to the submitted cost report. The amount due to you was determined as follows:

Net Amount Due to Provider (Program) \$ 0

Any amount due to you will be included in a Remittance Advice within 15 days from the date of this letter.

CMS regulations require that interest be recalculated whenever a cost report settlement determination is revised. If your facility was previously assessed interest on a settlement for this cost reporting period, the amount of interest due to the Medicare Program will be recalculated. If we determine that there has been an overpayment of interest, the amount overpaid will be refunded on a future Remittance

If your facility has an approved Extended Repayment Plan prior to determination of this underpayment, you will have fifteen (15) calendar days from the date of this letter to submit a written statement explaining why we should not apply this underpayment to the Extended Repayment Plan per 42 CFR 405.374(a).

A CMS Medicare Administrative Contractor

Noridian Healthcare Solutions LLC

2031/044 (3203) 4-13

WINDSOR 001325

Windsor Manor
July 3, 2018
Page 2

Your response must be received in our office on or before July 17, 2018, for it to be considered timely. In the event your response is not received timely, we will offset the funds to reduce the outstanding balance of the Extended Repayment Plan. If the response is received timely, we will not offset the funds until we complete our review of the submitted documentation. Should we determine that the offset is appropriate, in whole or in part, we will notify you in writing of our specific findings of the conditions on which the offset was based.

To avoid delay due to mailing, you may fax your statement to (701) 277-6572. Questions may be directed to JE-Reimb@noridian.com.

Your rebuttal must be submitted, in writing, to the address listed below:

Noridian Healthcare Solutions
Attention: Provider Audit Reimbursement
900 42nd Street South
PO Box 6782
Fargo, ND 58108-6709

If you disagree with the cost report settlement, you have the right to appeal this settlement. If you disagree with a settlement amount aggregating at least \$10,000 (\$50,000 for a group of providers appealing a common issue) in program reimbursement, your appeal is to the Provider Reimbursement Review Board PRRB. Direct your appeal to:

Chairperson
Provider Reimbursement Review Board
1508 Woodlawn Drive, Suite 100
Baltimore, MD 21207
(410) 786-2671

A copy of the appeal request should be sent to the following:

Provider Audit Appeals Coordinator
Noridian Healthcare Solutions, LLC
PO Box 6782
Fargo, ND 58108-6782

An electronic version of the appeal request and subsequent correspondence should be sent to Federal Specialized Services, LLC (FSS) via email to "prrb@fssappeals.com." In the Subject line, reference the case number first, followed by the case name, followed by the nature of the correspondence.

Windsor Manor
July 3, 2018
Page 3

There is no need to send a paper copy to FSS. All correspondence will be retrieved from the "prrb@fssappeals.com" mailbox and directed to the appropriate Federal Specialized Services appeals consultant.

The Federal Specialized Services is accommodating contractor and provider initiatives to reduce paper usage. This will facilitate savings in printing, mailing, and filing a significant of paper associated with PRRB appeals cases.

Reminder: In accordance with PRRB instruction 27.6 H regarding confidential information, please do not send any protected health information (PHI) or personally identifiable information (PII). Files containing PHI or PII will be returned to the sender.

If you disagree with a settlement amount aggregating at least \$1,000 but less than \$10,000, your appeal should be directed to FSS via email to intermediary@fssappeals.com.

If filing appeals documents electronically is not an option, the following address shall be used for U.S. mail or express delivery services:

PRRB Appeals OR Intermediary Appeals
Federal Specialized Services
1701 S. Racine Avenue
Chicago, IL 60608-4058

Your request for a hearing must meet the following requirements:

1. It must be filed in writing and signed by a responsible official, employee, or duly authorized representative of the provider.
2. Except where good cause can be shown, it must be filed by the 180th calendar day following the date of the Notice of Program Reimbursement.
3. It must identify each issue in dispute and identify the amount of Medicare reimbursement related to each issue.
4. It must cite any laws, regulations, and instructions upon which you base your objections and give specific reasons why you believe the settlement is incorrect. Include any documentation necessary to support your position.

PROVIDER NAME: Windsor Manor

PROVIDER NUMBER(S): 55-5616

REPORTING PERIOD ENDING: December 31, 2017

We have reviewed the provider's Medicare cost report for the cost report stated above.

Preparation of the cost report and compliance with Medicare laws, regulations, and instructions are the responsibility of the provider's management.

We have performed a review of the cost report. The attached Medicare cost report has been adjusted, where required, for items of noncompliance discovered during our review, which are listed in the attached adjustment report, if necessary.

This report is intended for the information of the provider and the Centers for Medicare and Medicaid Services (CMS). This restriction is not intended to limit distribution of this report, which is a matter of public record, unless otherwise restricted by applicable law.

RE: Rate Adjustment
Provider Number: 55-5616
FYE 12/31/2018

Dear Mr. Cochrane:

The 42 Code of Federal Regulations, Section 413.64 of the Regulations, Payments to Providers, makes a provision for interim payments to approximate the actual costs of the provider. The intent expressed is to approximate actual cost as closely as possible in order to minimize the retroactive adjustment to be made on the basis of actual costs. Accordingly, based on the cost report submitted for the period ended December 31, 2017, the following interim rate will be used until any subsequent change that may be necessary:

	<u>Current Rate</u>	<u>New Rate</u>	
Part B	71%	71%	NO CHANGE

This represents the level of interim reimbursement that will be paid on Medicare Claims. However, the amount to be credited to an individual patient account is the sum total of the Provider Payment and the Contract Adjustment shown on the Medicare Remittance Advice. The Contract Adjustment amount should not be billed to any patient or other third party payer.

Please contact us via email at JE-Reimb@noridian.com if you have any questions on the interim rates above. Please use a subject of 55-5616 FYE 12/31/17 TS Rates. Any other questions should be directed to the Provider Contact Center at (855) 609-9960.

Sincerely,

/s/

RE: SNF PPS Bi-Weekly Payment for Bad Debts
Provider Number: 55-5616
Cost Reporting Period Ending December 31, 2018

Dear Mr. Cochrane:

We have reviewed your Medicare cost report for the cost reporting period ended December 31, 2017, to develop a bi-weekly payment for bad debts.

Per the sequestration order, as required by law and directed by CMS, the pass-through payments listed below have been reduced by 2 percent for payments made on or after April 1, 2013.

Based on our review, the bi-weekly payment for bad debt pass-through costs for your facility will not change as indicated below:

	Current Rate		New Rate		No Change
Bad Debt	-		-		

The established bi-weekly payment will continue until such time that it is adjusted based on a future Medicare cost report submission or in response to a provider's request.

Please contact us via email at JE-Reimb@noridian.com if you have any questions on the interim rates above. Please use a subject of 55-5616 FYE 12/31/17 TS Pass Throughs. Any other questions should be directed to the Provider Contact Center at (855) 609-9960.

Sincerely,

/s/

<p>A notice published in the Federal Register Volume 68, No. 149 August 4, 2003 provided for an increase in the RUG payments beginning 10/01/2003. Congress expected this increase to be used for direct patient care and related expenses. For lines 101 through 106: Enter in column 1 the amount of the expense for each category. Enter in column 2 the percentage of total expenses for each category to total SNF revenue from Worksheet G-2, Part I, line 1, column 3. Indicate in column 3 "Y" for yes or "N" for no if the spending reflects increases associated with direct patient care and related expenses for each category. (If column 2 is zero, enter N/A in column 3) (See instructions)</p>

COMPUTATION OF INPATIENT ROUTINE COSTS		Provider No.: 555616	Period: From 01/01/2017 To 12/31/2017	Worksheet D-1 Parts I-II Date/Time Prepared: 7/3/2018 1:40 pm
		Title XVIII	Skilled Nursing Facility	PPS
				1.00

PART I CALCULATION OF INPATIENT ROUTINE COSTS				
INPATIENT DAYS				
1.00	Inpatient days including private room days		8,746	1.00
2.00	Private room days		0	2.00
3.00	Inpatient days including private room days applicable to the Program		1,007	3.00
4.00	Medically necessary private room days applicable to the Program		0	4.00
5.00	Total general inpatient routine service cost		3,541,065	5.00
PRIVATE ROOM DIFFERENTIAL ADJUSTMENT				
6.00	General inpatient routine service charges		2,627,106	6.00
7.00	General inpatient routine service cost/charge ratio (Line 5 divided by line 6)		1.347896	7.00
8.00	Enter private room charges from your records		0	8.00
9.00	Average private room per diem charge (Private room charges line 8 divided by private room days, line 2)		0.00	9.00
10.00	Enter semi-private room charges from your records		287,528	10.00
11.00	Average semi-private room per diem charge (Semi-private room charges line 10, divided by semi-private room days)		32.88	11.00
12.00	Average per diem private room charge differential (Line 9 minus line 11)		0.00	12.00
13.00	Average per diem private room cost differential (Line 7 times line 12)		0.00	13.00
14.00	Private room cost differential adjustment (Line 2 times line 13)		0	14.00
15.00	General inpatient routine service cost net of private room cost differential (Line 5 minus line 14)		3,541,065	15.00
PROGRAM INPATIENT ROUTINE SERVICE COSTS				
16.00	Adjusted general inpatient service cost per diem (Line 15 divided by line 1)		404.88	16.00
17.00	Program routine service cost (Line 3 times line 16)		407,714	17.00
18.00	Medically necessary private room cost applicable to program (line 4 times line 13)		0	18.00
19.00	Total program general inpatient routine service cost (Line 17 plus line 18)		407,714	19.00
20.00	Capital related cost allocated to inpatient routine service costs (From wkst. B, Part II column 18, line 30 for SNF; line 31 for NF, or line 32 for ICF/IID)		41,685	20.00
21.00	Per diem capital related costs (Line 20 divided by line 1)		4.77	21.00
22.00	Program capital related cost (Line 3 times line 21)		4,803	22.00
23.00	Inpatient routine service cost (Line 19 minus line 22)		402,911	23.00
24.00	Aggregate charges to beneficiaries for excess costs (From provider records)		0	24.00
25.00	Total program routine service costs for comparison to the cost limitation (Line 23 minus line 24)		402,911	25.00
26.00	Enter the per diem limitation (1)			26.00
27.00	Inpatient routine service cost limitation (Line 3 times the per diem limitation line 26) (1)			27.00
28.00	Reimbursable inpatient routine service costs (Line 22 plus the lesser of line 25 or line 27) (Transfer to Worksheet E, Part II, line 4) (See instructions)			28.00

(1) Lines 26 and 27 are not applicable for title XVIII, but may be used for title V and or title XIX

PART II CALCULATION OF INPATIENT NURSING & ALLIED HEALTH COSTS FOR PPS PASS-THROUGH				
				1.00
1.00	Total SNF inpatient days		8,746	1.00
2.00	Program inpatient days (see instructions)		1,007	2.00
3.00	Total nursing & allied health costs. (see instructions)(Do not complete for titles V or XIX)		0	3.00
4.00	Nursing & allied health ratio. (line 2 divided by line 1)		0.115138	4.00
5.00	Program nursing & allied health costs for pass-through. (line 3 times line 4)		0	5.00

CALCULATION OF REIMBURSEMENT SETTLEMENT FOR TITLE XVIII		Provider No.: 555616	Period: From 01/01/2017 To 12/31/2017	Worksheet E Part I Date/Time Prepared: 7/3/2018 1:40 pm
		Title XVIII	Skilled Nursing Facility	PPS
				1.00
PART A - INPATIENT SERVICE PPS PROVIDER COMPUTATION OF REIMBURSEMENT				
1.00	Inpatient PPS amount (See Instructions)		610,908	1.00
2.00	Nursing and Allied Health Education Activities (pass through payments)		0	2.00
3.00	Subtotal (Sum of lines 1 and 2)		610,908	3.00
4.00	Primary payor amounts		0	4.00
5.00	Coinsurance		93,601	5.00
6.00	Allowable bad debts (From your records)		0	6.00
7.00	Allowable Bad debts for dual eligible beneficiaries (See instructions)		0	7.00
8.00	Adjusted reimbursable bad debts. (See instructions)		0	8.00
9.00	Recovery of bad debts - for statistical records only		0	9.00
10.00	Utilization review		0	10.00
11.00	Subtotal (See instructions)		517,307	11.00
12.00	Interim payments (See instructions)		506,961	12.00
13.00	Tentative adjustment		0	13.00
14.00	OTHER ADJUSTMENT (SEE INSTRUCTIONS)		0	14.00
14.50	Pioneer ACO demonstration payment adjustment (see instructions)		0	14.50
14.99	Sequestration amount (see instructions)		10,346	14.99
15.00	Balance due provider/program (see Instructions)		0	15.00
16.00	Protested amounts (Nonallowable cost report items in accordance with CMS Pub. 15-2, section 115.2)		0	16.00
PART B - ANCILLARY SERVICE COMPUTATION OF REIMBURSEMENT LESSER OF COST OR CHARGES - TITLE XVIII ONLY				
17.00	Ancillary services Part B		0	17.00
18.00	Vaccine cost (From Wkst D, Part II, line 3)		0	18.00
19.00	Total reasonable costs (Sum of lines 17 and 18)		0	19.00
20.00	Medicare Part B ancillary charges (See instructions)		0	20.00
21.00	Cost of covered services (Lesser of line 19 or line 20)		0	21.00
22.00	Primary payor amounts		0	22.00
23.00	Coinsurance and deductibles		0	23.00
24.00	Allowable bad debts (From your records)		0	24.00
24.01	Allowable Bad debts for dual eligible beneficiaries (see instructions)		0	24.01
24.02	Adjusted reimbursable bad debts (see instructions)		0	24.02
25.00	Subtotal (Sum of lines 21 and 24, minus lines 22 and 23)		0	25.00
26.00	Interim payments (See instructions)		0	26.00
27.00	Tentative adjustment		0	27.00
28.00	Other Adjustments (See instructions) Specify		0	28.00
28.50	Pioneer ACO demonstration payment adjustment (see instructions)		0	28.50
28.99	Sequestration amount (see instructions)		0	28.99
29.00	Balance due provider/program (see instructions)		0	29.00
30.00	Protested amounts (Nonallowable cost report items) in accordance with CMS Pub.15-2, section 115.2		0	30.00

ANALYSIS OF PAYMENTS TO PROVIDERS FOR SERVICES RENDERED

Provider No.: 555616

Period:
From 01/01/2017
To 12/31/2017

Worksheet E-1

Independent Accountants' Compilation Report

To Management
HumanGood
dba Windsor Manor
Pleasanton, California

Management is responsible for the accompanying Long-Term Care Facility Integrated Disclosure and Medi-Cal Cost Report and related schedules which are listed in the preceding table of contents of HumanGood, dba Windsor Manor for the year ended December 31, 2018 in accordance with the requirements of the State of California Department of Health Care Services. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the cost report nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on this cost report.

Basis of Accounting

The Long-Term Care Facility Integrated Disclosure and Medi-Cal Cost Report and related schedules which are listed in the preceding table of contents are prepared in accordance with the requirements of the Office of Statewide Health Planning and Development, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the State of California Department of Health Care Services. Accordingly, this cost report is not designed for those who are not informed about such differences.

Hansen, Hunter & Company, P.C.

CERTIFICATION

I, PAMELS CLAASSEN, certify under penalty of perjury as follows: That I am an official of WINDSOR MANOR and am duly authorized to sign this certification; that the Office of Statewide Health Planning and Development's accounting and reporting system as set forth in the Office's "Accounting and Reporting Manual for California Long-Term Care Facilities" has been implemented by this institution; that as applicable, the data in the accompanying reports are based on that system; and that to the best of my knowledge and information I believe each statement and amount in the accompanying report to be true and correct, and in compliance with Section 51511.2, Title 22, California Administrative Code.

I understand that a printed facsimile report will be produced from the data submitted to the Office on diskette. The printed facsimile report will be the official report of this facility's Long-Term Care Facility Integrated Disclosure and Medi-Cal cost report for all purposes. Further, I understand that this printed report will be forwarded to the California Department of Health Services by the Office as the basis for audit of Medi-Cal costs reported by this facility. No other diskette or facsimile in the possession of the provider, its vendor or other parties can be utilized or substituted for the official diskette or facsimile for the purposes of Medi-Cal cost reporting and disclosure without the written permission of the Department of Health Services and Office.

CODE EXPLANATION: Enter appropriate code in column 1 for every item.

1. Service maintained in facility and staffed by facility personnel. Related expenses reported on page 10.1, columns 1, 2 and 3.
2. Service maintained in facility and purchased by the facility under contract arrangement with an outside provider. Related expenses reported on page 10.1, column 3.
3. Service not maintained in facility but available from an outside provider under contract arrangement whereby facility is billed directly by the provider. Related expenses reported on page 10.1, column 3.
4. Service not maintained in facility but available from an outside provider under contract arrangement whereby patient or third party payors are billed directly by the outside provider.
5. Service not maintained in facility and no formal referral agreement exists with an outside provider. Patients or responsible third party payors who independently purchase services are billed directly by the provider.
6. Service maintained, but not used during reporting cycle.

The purpose of this schedule is to identify the facility's transactions during the current reporting period with related persons or organization related by common ownership or control as defined in Title 42 of Federal Regulations (CFR), Section 413.17. For an explanation of related party control, see the instructions for this form.

A. Are there any costs or revenues included in the Statement of Income for the current period which are a result of transactions with related persons or organizations as defined in the instructions?(Exclude compensation of owners and their relatives reported in G).

005 Yes (If "Yes", complete Item A1) [] No

A1. List below those transactions referred to in A.
 RELATED PARTY TRANSACTIONS - STATEMENT OF INCOME

285 Administration	5,124	132,629	25.88
290 Subtotal (Sum of Lines 250 thru 285)	28,624	471,718	16.48
300 Total (Sum of 065, 130, 180, 230 & 290)	65,281	1,233,236	18.89

* Productive hours are actual hours worked and exclude 1) vacation, 2) sick leave, 3) on call, 4) holiday, 5) other paid time off. Report to nearest whole hour.

**For all facilities:

Column 2, line 65 must agree with the sum of page 10.1, col 1, lines 105, 110, 115, 120, 130 and 135.
 Line 130 must agree with page 10.1, col 1, line 125. Line 180 must agree with page 10.1, col 1, line 126.
 Line 230 must agree with page 10.1 col. 1, lines 75 through 100.

Report to the nearest whole dollar.

For non-residential care facilities:

Lines 250 through 290 must agree with appropriate lines on page 10.1, column 1.

For residential care facilities:

Report only productive hours and salaries and wages related to health care on lines 250 through 290 of this page

If page 10.1, columns 5 through 9 are used to determine expenses related to health care, use the same method to determine productive hours and salaries and wages related to health care for this page.

	(1) Productive Hours*	(2) Productive** Salaries	(3) Hourly Average (2/1)
Salary and Wages

Labor Turnover			
	(1) All Employees	(2) Dir Nursg Employees*	(3) Nurse Assistants
605 No. of employees-beginning of period	39	24	18
610 No. of employees-end of period	38	22	13
615 Average No. of employees(See Instructions)	35	22	13
620 Total No. of people employed during period	52	32	23
625 Turnover percentage((Line 405 / Line 400) x 100) - 100	48.57	45.45	76.92%
630 Number of employees with continuous service for entire reporting period	25	14	8

* Include all employees(RN's, LVN's, Nurse Assistants, technicians, specialists, and others) providing direct nursing care. Do not include supervisors who provide no direct nursing care. Do not include supervisors whose duties include some provision of nursing care.

** Total number of people employed can not be less than the number of employees at the beginning of the period, less the number of employees with continuous service for the entire period, plus the number of employees at the end of the period (line 605 - line 630 + line 610). This calculation is the MINIMUM possible number of people employed during the period. It does not include employees who were hired after the period began and left or were discharged before the period ended. Therefore, in most cases, line 620 should be greater than this calculation.

Independent Accountants' Compilation Report

To Management
HumanGood
dba Windsor Manor Facility
Pleasanton, California

Management is responsible for the accompanying Skilled Nursing Facility Cost Report, Form CMS 2540-10 and related schedules, which are listed in the preceding table of contents, of HumanGood, dba Windsor Manor Facility for the year ended December 31, 2018 in accordance with the requirements of the Centers for Medicare and Medicaid Services. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the cost report nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on this cost report.

Basis of Accounting

Form CMS 2540-10 and related schedules (listed in the preceding table of contents) are prepared in accordance with the requirements of the Centers for Medicare and Medicaid Services, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the Centers for Medicare and Medicaid Services. Accordingly, this cost report is not designed for those who are not informed about such differences.

Hansen, Hunter & Company, P.C.

May 25, 2019

This report is required by law (42 USC 1395g; 42 CFR 413.20(b)). Failure to report can result in all interim payments made since the beginning of the cost reporting period being deemed overpayments (42 USC 1395g).

FORM APPROVED OMB NO. 0938-0463 Expires: 12/31/2021

Table with 4 columns: Facility Name (SKILLED NURSING FACILITY AND SKILLED NURSING FACILITY HEALTH CARE COMPLEX COST REPORT CERTIFICATION AND SETTLEMENT SUMMARY), Provider CCN (555616), Period (01/01/2018 to 12/31/2018), and Worksheet (5 Parts I, II & III Date/Time Prepared: 5/30/2019 1:37 pm)

PART I - COST REPORT STATUS

Form with fields for Provider use only (1-3) and Contractor use only (4-12). Includes checkboxes for electronic filing, manual submission, and Medicare utilization.

PART II - CERTIFICATION

MISREPRESENTATION OR FALSIFICATION OF ANY INFORMATION CONTAINED IN THIS COST REPORT MAY BE PUNISHABLE BY CRIMINAL, CIVIL AND ADMINISTRATIVE ACTION, FINE AND/OR IMPRISONMENT UNDER FEDERAL LAW.

CERTIFICATION BY CHIEF FINANCIAL OFFICER OR ADMINISTRATOR OF PROVIDER(S)

I HEREBY CERTIFY that I have read the above certification statement and that I have examined the accompanying electronically filed or manually submitted cost report and the Balance Sheet and Statement of Revenue and Expenses prepared by Human Good - Windsor Manor (555616) for the cost reporting period beginning 01/01/2018 and ending 12/31/2018...

[x] I have read and agree with the above certification statement. I certify that I intend my electronic signature on this certification statement to be the legally binding equivalent of my original signature.

		1.00	2.00	3.00

A notice published in the Federal Register Volume 68, No. 149 August 4, 2003 provided for an increase in the RUG payments beginning 10/01/2003. Congress expected this increase to be used for direct patient care and related expenses. For lines 101 through 106: Enter in column 1 the amount of the expense for each category. Enter in column 2 the percentage of total expenses for each category to total SNF revenue from worksheet G-2, Part I, line 1, column 3. Indicate in column 3 "Y" for yes or "N" for no if the spending reflects increases associated with direct patient care and related expenses for each category. (If column 2 is zero, enter N/A in column 3) (See instructions)

	Symbol (1)	Name	Percentage of Ownership	
	1.00	2.00	3.00	

PART II. INTERRELATIONSHIP TO RELATED ORGANIZATION(S) AND/OR HOME OFFICE:

The Secretary, by virtue of the authority granted under section 1814(b)(1) of the Social Security Act, requires that you furnish the information requested under Part B of this worksheet.

This information is used by the Centers for Medicare and Medicaid Services and its intermediaries/contractors in determining that the costs applicable to services, facilities, and supplies furnished by organizations related to you by common ownership or control represent reasonable costs as determined under section 1861 of the Social Security Act. If you do not provide all or any part of the request information, the cost report is considered incomplete and not acceptable for purposes of claiming reimbursement under title XVIII.

1.00

PART I CALCULATION OF INPATIENT ROUTINE COSTS

INPATIENT DAYS

1.00	Inpatient days including private room days	8,367	1.00
2.00	Private room days	0	2.00
3.00	Inpatient days including private room days applicable to the Program	761	3.00
4.00	Medically necessary private room days applicable to the Program	0	4.00
5.00	Total general inpatient routine service cost	2,222,245	5.00
PRIVATE ROOM DIFFERENTIAL ADJUSTMENT			
6.00	General inpatient routine service charges	2,629,058	6.00
7.00	General inpatient routine service cost/charge ratio (Line 5 divided by line 6)	0.845263	7.00
8.00	Enter private room charges from your records	0	8.00
9.00	Average private room per diem charge (Private room charges line 8 divided by private room days, line 2)	0.00	9.00
10.00	Enter semi-private room charges from your records	2,629,058	10.00
11.00	Average semi-private room per diem charge (Semi-private room charges line 10, divided by semi-private room days)	314.22	11.00
12.00	Average per diem private room charge differential (Line 9 minus line 11)	0.00	12.00
13.00	Average per diem private room cost differential (Line 7 times line 12)	0.00	13.00
14.00	Private room cost differential adjustment (Line 2 times line 13)	0	14.00
15.00	General inpatient routine service cost net of private room cost differential (Line 5 minus line 14)	2,222,245	15.00
PROGRAM INPATIENT ROUTINE SERVICE COSTS			
16.00	Adjusted general inpatient service cost per diem (Line 15 divided by line 1)	265.60	16.00
17.00	Program routine service cost (Line 3 times line 16)	202,122	17.00
18.00	Medically necessary private room cost applicable to program (line 4 times line 13)	0	18.00
19.00	Total program general inpatient routine service cost (Line 17 plus line 18)	202,122	19.00
20.00	Capital related cost allocated to inpatient routine service costs (From wkst. B, Part II column 18, line 30 for SNF; line 31 for NF, or line 32 for ICF/IID)	30,611	20.00
21.00	Per diem capital related costs (Line 20 divided by line 1)	3.66	21.00
22.00	Program capital related cost (Line 3 times line 21)	2,785	22.00
23.00	Inpatient routine service cost (Line 19 minus line 22)	199,337	23.00
24.00	Aggregate charges to beneficiaries for excess costs (From provider records)	0	24.00
25.00	Total program routine service costs for comparison to the cost limitation (Line 23 minus line 24)	199,337	25.00
26.00	Enter the per diem limitation (1)		26.00
27.00	Inpatient routine service cost limitation (Line 3 times the per diem limitation line 26) (1)		27.00
28.00	Reimbursable inpatient routine service costs (Line 22 plus the lesser of line 25 or line 27) (Transfer to worksheet E, Part II, line 4) (See instructions)		28.00

(1) Lines 26 and 27 are not applicable for title XVIII, but may be used for title V and or title XIX

1.00

PART II CALCULATION OF INPATIENT NURSING & ALLIED HEALTH COSTS FOR PPS PASS-THROUGH

1.00	Total SNF inpatient days	8,367	1.00
2.00	Program inpatient days (see instructions)	761	2.00
3.00	Total nursing & allied health costs. (see instructions)(Do not complete for titles V or XIX)	0	3.00

HANSEN HUNTER & CO. P.C.

Independent Accountants' Compilation Report

To Management
HumanGood
dba Windsor Manor
Pleasanton, California

Management is responsible for the accompanying Long-Term Care Facility Integrated Disclosure and Medi-Cal Cost Report and related schedules which are listed in the preceding table of contents of HumanGood, dba Windsor Manor, for the year ended December 31, 2019 in accordance with the requirements of the State of California Department of Health Care Services. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the cost report nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on this cost report.

Basis of Accounting

The Long-Term Care Facility Integrated Disclosure and Medi-Cal Cost Report and related schedules which are listed in the preceding table of contents are prepared in accordance with the requirements of the Office of Statewide Health Planning and Development, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the State of California Department of Health Care Services. Accordingly, this cost report is not designed for those who are not informed about such differences.

CODE EXPLANATION: Enter appropriate code in column 1 for every item.

1. Service maintained in facility and staffed by facility personnel. Related expenses reported on page 10.1, columns 1, 2 and 3.
2. Service maintained in facility and purchased by the facility under contract arrangement with an outside provider. Related expenses reported on page 10.1, column 3.
3. Service not maintained in facility but available from an outside provider under contract arrangement whereby facility is billed directly by the provider. Related expenses reported on page 10.1, column 3.
4. Service not maintained in facility but available from an outside provider under contract arrangement whereby patient or third party payors are billed directly by the outside provider.
5. Service not maintained in facility and no formal referral agreement exists with an outside provider. Patients or responsible third party payors who independently purchase services are billed directly by the provider.
6. Service maintained, but not used during reporting cycle.

The purpose of this schedule is to identify the facility's transactions during the current reporting period with related persons or organization related by common ownership or control as defined in Title 42 of Federal Regulations (CFR), Section 413.17. For an explanation of related party control, see the instructions for this form.

A. Are there any costs or revenues included in the Statement of Income for the current period which are a result of transactions with related persons or organizations as defined in the instructions?(Exclude compensation of owners and their relatives reported in G).

005 Yes (If "Yes", complete Item A1) [] No

A1. List below those transactions referred to in A.

RELATED PARTY TRANSACTIONS - STATEMENT OF INCOME			
(1) Account Title	(2) Related Party	(3) Service or Supply MANAGEMENT SERVICES	(4) Transaction Amount
010 ADMINISTRATION	HUMANGOOD		609,843
012			
013			
014			

B. Are there any assets or liabilities which are included in the Balance Sheet for the current period which are a result of transactions with related persons or organizations as defined in the instructions for this form.

035 Yes (If "Yes", complete Item B1) [] No

B1. List below those transactions referred to in B.

RELATED PARTY TRANSACTIONS - BALANCE SHEET

Notes:
 (1) For the purposes of this voluntary supplemental schedule, the following definitions apply:

* Capital Addition - land, building equipment major moveable equipment that have an estimated useful life at the time of the acquisition of at least two years, a historical cost of at least \$5,000 per item, and is not considered a replacement of a previously acquired asset.

* Capital Improvement - betterment of land, buildings, building equipment, major moveable equipment or leasehold property that either extends the useful life of at least two years beyond the original useful life of such asset or significantly increases the productivity over the original productivity of such asset, a cost of at least \$5,000 per item and is not

considered a replacement of a previously acquired asset.

* Capital Replacement - Land, buildings, building equipment, major moveable equipment and leasehold improvements that would be classified as a capital addition or improvement under the above definitions, except that such asset is considered a replacement of a previously acquired asset. A replacement is an asset that fills the place, position or purpose once filled by an asset that has been lost, destroyed, discarded or is no longer usable or adequate.

(2) Refer to CMS Publication 15-1, Sections 104-117 for additional information on useful life standards.

(3) Refer to CMS Publication 15-1, Section 132 for additional information.

(4) Refer to CMS Publication 15-1, Section 104 for additional information on the manner of disposal.

* Productive hours are actual hours worked and exclude 1) vacation, 2) sick leave, 3) on call, 4) holiday, 5) other paid time off. Report to nearest whole hour.

**For all facilities:

Column 2, line 65 must agree with the sum of page 10.1, col 1, lines 105, 110, 115, 120, 130 and 135.

Line 130 must agree with page 10.1, col 1, line 125. Line 180 must agree with page 10.1, col 1, line 126.

Line 230 must agree with page 10.1 col. 1, lines 75 through 100.

Report to the nearest whole dollar.

For non-residential care facilities:

Lines 250 through 290 must agree with appropriate lines on page 10.1, column 1.

For residential care facilities:

Report only productive hours and salaries and wages related to health care on lines 250 through 290 of this page

If page 10.1, columns 5 through 9 are used to determine expenses related to health care, use the same method to determine productive hours and salaries and wages related to health care for this page.

605 No. of employees-beginning of period	41	27	17
610 No. of employees-end of period	43	28	14
615 Average No. of employees(See Instructions)	43	27	14
620 Total No. of people employed during period	58	40	21
625 Turnover percentage((Line 405 / Line 400) x 100) - 100	34.88	48.15	50.00%
630 Number of employees with continuous service for entire reporting period	33	21	12

* Include all employees(RN's, LVN's, Nurse Assistants, technicians, specialists, and others) providing direct nursing care. Do not include supervisors who provide no direct nursing care. Do not include supervisors whose duties include some provision of nursing care.

** Total number of people employed can not be less than the number of employees at the beginning of the period, less the number of employees with continuous service for the entire period, plus the number of employees at the end of the period (line 605 - line 630 + line 610). This calculation is the MINIMUM possible number of people employed during the period. It does not include employees who were hired after the period began and left or were discharged before the period ended. Therefore, in most cases, line 620 should be greater than this calculation.

This report is required by law (42 USC 1395g; 42 CFR 413.20(b)). Failure to report can result in all interim payments made since the beginning of the cost reporting period being deemed overpayments (42 USC 1395g). FORM APPROVED OMB NO. 0938-0463 Expires: 12/31/2021

SKILLED NURSING FACILITY AND SKILLED NURSING FACILITY HEALTH CARE COMPLEX COST REPORT CERTIFICATION AND SETTLEMENT SUMMARY	Provider CCN: 555616	Period: From 01/01/2019 To 12/31/2019	Worksheet S Parts I, II & III Date/Time Prepared: 8/29/2020 12:15 pm

PART I - COST REPORT STATUS	
Provider use only	1. <input checked="" type="checkbox"/> Electronically filed cost report 2. <input type="checkbox"/> Manually submitted cost report 3. <input type="checkbox"/> If this is an amended report enter the number of times the provider resubmitted this cost report 3.01 <input type="checkbox"/> No Medicare Utilization. Enter "Y" for yes or leave blank for no.
Contractor use only	4. <input checked="" type="checkbox"/> Cost Report Status (1) As Submitted (2) Settled without audit (3) Settled with audit (4) Reopened (5) Amended 5. Date Received: 6. Contractor No. 7. <input type="checkbox"/> First Cost Report for this Provider CCN 8. <input type="checkbox"/> Last Cost Report for this Provider CCN 9. NPR Date: 10. <input type="checkbox"/> If line 4, column 1 is "4": Enter number of times reopened 11. Contractor Vendor Code 4 12. <input type="checkbox"/> Medicare Utilization. Enter "F" for full, "L" for low, or "N" for no utilization.

PART II - CERTIFICATION
 MISREPRESENTATION OR FALSIFICATION OF ANY INFORMATION CONTAINED IN THIS COST REPORT MAY BE PUNISHABLE BY CRIMINAL, CIVIL AND ADMINISTRATIVE ACTION, FINE AND/OR IMPRISONMENT UNDER FEDERAL LAW. FURTHERMORE, IF SERVICES IDENTIFIED IN THIS REPORT WERE PROVIDED OR PROCURED THROUGH THE PAYMENT DIRECTLY OR INDIRECTLY OF A KICKBACK OR WERE OTHERWISE ILLEGAL, CRIMINAL, CIVIL AND ADMINISTRATIVE ACTION, FINES AND/OR IMPRISONMENT MAY RESULT.

CERTIFICATION BY CHIEF FINANCIAL OFFICER OR ADMINISTRATOR OF PROVIDER(S)

I HEREBY CERTIFY that I have read the above certification statement and that I have examined the accompanying electronically filed or manually submitted cost report and the Balance Sheet and Statement of Revenue and Expenses prepared by WINDSOR MANOR (555616) for the cost reporting period beginning 01/01/2019 and ending 12/31/2019 and to the best of my knowledge and belief, this report and statement are true, correct, complete and prepared from the books and records of the provider in accordance with applicable instructions, except as noted. I further certify that I am familiar with the laws and regulations regarding the provision of health care services, and that the services identified in this cost report were provided in compliance with such laws and regulations.

I have read and agree with the above certification statement. I certify that I intend my electronic signature on this certification statement to be the legally binding equivalent of my original signature.

(Signed) ANDREW MCDONALD
 Chief Financial Officer or Administrator of Provider(s)
 CFO

		Y/N	Date		
		1.00	2.00		
General Instruction: For all column 1 responses enter in column 1, "Y" for Yes or "N" for No. For all the date responses the format will be (mm/dd/yyyy)					
Completed by All Skilled Nursing Facilities					
Provider Organization and Operation					
1.00	Has the provider changed ownership immediately prior to the beginning of the cost reporting period? If column 1 is "Y", enter the date of the change in column 2. (see instructions)	N			1.00
		Y/N	Date	V/I	
		1.00	2.00	3.00	
2.00	Has the provider terminated participation in the Medicare Program? If column 1 is yes, enter in column 2 the date of termination and in column 3, "V" for voluntary or "I" for involuntary.	N			2.00
3.00	Is the provider involved in business transactions, including management contracts, with individuals or entities (e.g., chain home offices, drug or medical supply companies) that are related to the provider or its officers, medical staff, management personnel, or members of the board of directors through ownership, control, or family and other similar relationships? (see instructions)	Y			3.00
		Y/N	Type	Date	
		1.00	2.00	3.00	
Financial Data and Reports					
4.00	Column 1: Were the financial statements prepared by a Certified Public Accountant? (Y/N) Column 2: If yes, enter "A" for Audited, "C" for Compiled, or "R" for Reviewed. Submit complete copy or enter date available in column 3. (see instructions) If no, see instructions.	Y	A		4.00
5.00	Are the cost report total expenses and total revenues different from those on the filed financial statements? If column 1 is "Y", submit reconciliation.	N			5.00
		Y/N	Legal Oper.		
		1.00	2.00		
Approved Educational Activities					
6.00	Column 1: Were costs claimed for Nursing School? (Y/N) Column 2: Is the provider the legal operator of the program? (Y/N)	N	N		6.00
7.00	Were costs claimed for Allied Health Programs? (Y/N) see instructions.	N			7.00
8.00	Were approvals and/or renewals obtained during the cost reporting period for Nursing School and/or Allied Health Program? (Y/N) see instructions.	N			8.00
		Y/N			
		1.00			
Bad Debts					
9.00	Is the provider seeking reimbursement for bad debts? (Y/N) see instructions.		N		9.00
10.00	If line 9 is "Y", did the provider's bad debt collection policy change during this cost reporting period? If "Y", submit copy.		N		10.00
11.00	If line 9 is "Y", are patient deductibles and/or coinsurance waived? If "Y", see instructions.		N		11.00
Bed Complement					
12.00	Have total beds available changed from prior cost reporting period? If "Y", see instructions.		N		12.00
		Part A		Part B	
		Description	Y/N	Date	Y/N
		0	1.00	2.00	3.00
PS&R Data					
13.00	Was the cost report prepared using the PS&R only? If either col. 1 or 3 is "Y", enter the paid through date of the PS&R used to prepare this cost report in cols. 2 and 4. (see Instructions.)	N		N	13.00
14.00	Was the cost report prepared using the PS&R for total and the provider's records for allocation? If either col. 1 or 3 is "Y" enter the paid through date of the PS&R used to prepare this cost report in columns 2 and 4.	N		N	14.00
15.00	If line 13 or 14 is "Y", were adjustments made to PS&R data for additional claims that have been billed but are not included on the PS&R used to file this cost report? If "Y", see Instructions.	N		N	15.00
16.00	If line 13 or 14 is "Y", then were adjustments made to PS&R data for corrections of other PS&R Report information? If yes, see instructions.	N		N	16.00
17.00	If line 13 or 14 is "Y", then were adjustments made to PS&R data for Other? Describe the other adjustments:	N		N	17.00
18.00	Was the cost report prepared only using the provider's records? If "Y" see Instructions.	Y		Y	18.00

A notice published in the Federal Register Volume 68, No. 149 August 4, 2003 provided for an increase in the RUG payments beginning 10/01/2003. Congress expected this increase to be used for direct patient care and related expenses. For lines 101 through 106: Enter in column 1 the amount of the expense for each category. Enter in column 2 the percentage of total expenses for each category to total SNF revenue from Worksheet G-2, Part I, line 1, column 3. Indicate in column 3 "Y" for yes or "N" for no if the spending reflects increases associated with direct patient care and related expenses for each category. (If column 2 is zero, enter N/A in column 3) (See instructions)

COMPUTATION OF INPATIENT ROUTINE COSTS	Provider No. : 555616	Period: From 01/01/2019 To 12/31/2019	Worksheet D-1 Parts I-III Date/Time Prepared: 8/29/2020 12:15 pm
	Title XVIII	Skilled Nursing Facility	PPS

			1.00	
PART I CALCULATION OF INPATIENT ROUTINE COSTS				
INPATIENT DAYS				
1.00	Inpatient days including private room days		7,777	1.00
2.00	Private room days		0	2.00
3.00	Inpatient days including private room days applicable to the Program		779	3.00
4.00	Medically necessary private room days applicable to the Program		0	4.00
5.00	Total general inpatient routine service cost		2,709,050	5.00
PRIVATE ROOM DIFFERENTIAL ADJUSTMENT				
6.00	General inpatient routine service charges		2,514,918	6.00
7.00	General inpatient routine service cost/charge ratio (Line 5 divided by line 6)		1.077192	7.00
8.00	Enter private room charges from your records		0	8.00
9.00	Average private room per diem charge (Private room charges line 8 divided by private room days, line 2)		0.00	9.00
10.00	Enter semi-private room charges from your records		2,514,918	10.00
11.00	Average semi-private room per diem charge (Semi-private room charges line 10, divided by semi-private room days)		323.38	11.00
12.00	Average per diem private room charge differential (Line 9 minus line 11)		0.00	12.00
13.00	Average per diem private room cost differential (Line 7 times line 12)		0.00	13.00
14.00	Private room cost differential adjustment (Line 2 times line 13)		0	14.00
15.00	General inpatient routine service cost net of private room cost differential (Line 5 minus line 14)		2,709,050	15.00
PROGRAM INPATIENT ROUTINE SERVICE COSTS				
16.00	Adjusted general inpatient service cost per diem (Line 15 divided by line 1)		348.34	16.00
17.00	Program routine service cost (Line 3 times line 16)		271,357	17.00
18.00	Medically necessary private room cost applicable to program (line 4 times line 13)		0	18.00
19.00	Total program general inpatient routine service cost (Line 17 plus line 18)		271,357	19.00
20.00	Capital related cost allocated to inpatient routine service costs (From Wkst. B, Part II column 18, line 30 for SNF; line 31 for NF, or line 32 for ICF/IID)		31,434	20.00
21.00	Per diem capital related costs (Line 20 divided by line 1)		4.04	21.00
22.00	Program capital related cost (Line 3 times line 21)		3,147	22.00
23.00	Inpatient routine service cost (Line 19 minus line 22)		268,210	23.00
24.00	Aggregate charges to beneficiaries for excess costs (From provider records)		0	24.00
25.00	Total program routine service costs for comparison to the cost limitation (Line 23 minus line 24)		268,210	25.00
26.00	Enter the per diem limitation (1)			26.00
27.00	Inpatient routine service cost limitation (Line 3 times the per diem limitation line 26) (1)			27.00
28.00	Reimbursable inpatient routine service costs (Line 22 plus the lesser of line 25 or line 27) (Transfer to Worksheet E, Part II, line 4) (See instructions)			28.00

(1) Lines 26 and 27 are not applicable for title XVIII, but may be used for title V and or title XIX

			1.00	
PART II CALCULATION OF INPATIENT NURSING & ALLIED HEALTH COSTS FOR PPS PASS-THROUGH				
1.00	Total SNF inpatient days		7,777	1.00
2.00	Program inpatient days (see instructions)		779	2.00
3.00	Total nursing & allied health costs. (see instructions)(Do not complete for titles V or XIX)		0	3.00
4.00	Nursing & allied health ratio. (line 2 divided by line 1)		0.100167	4.00
5.00	Program nursing & allied health costs for pass-through. (line 3 times line 4)		0	5.00

CALCULATION OF REIMBURSEMENT SETTLEMENT FOR TITLE XVIII		Provider No. : 555616	Period: From 01/01/2019 To 12/31/2019	Worksheet E Part I Date/Time Prepared: 8/29/2020 12:15 pm
		Title XVIII	Skilled Nursing Facility	PPS

			1.00	
PART A - INPATIENT SERVICE PPS PROVIDER COMPUTATION OF REIMBURSEMENT				
1.00	Inpatient PPS amount (See Instructions)		529,242	1.00
2.00	Nursing and Allied Health Education Activities (pass through payments)		0	2.00
3.00	Subtotal (Sum of lines 1 and 2)		529,242	3.00
4.00	Primary payor amounts		0	4.00
5.00	Coinsurance		46,888	5.00
6.00	Allowable bad debts (From your records)		0	6.00
7.00	Allowable Bad debts for dual eligible beneficiaries (See instructions)		0	7.00
8.00	Adjusted reimbursable bad debts. (See instructions)		0	8.00
9.00	Recovery of bad debts - for statistical records only		0	9.00
10.00	Utilization review		0	10.00
11.00	Subtotal (See instructions)		482,354	11.00
12.00	Interim payments (See instructions)		472,707	12.00
13.00	Tentative adjustment		0	13.00
14.00	OTHER adjustment (See instructions)		0	14.00
14.50	Demonstration payment adjustment amount before sequestration		0	14.50
14.55	Demonstration payment adjustment amount after sequestration		0	14.55
14.99	Sequestration amount (see instructions)		9,647	14.99
15.00	Balance due provider/program (see Instructions)		0	15.00
16.00	Protested amounts (Nonallowable cost report items in accordance with CMS Pub. 15-2, section 115.2)		0	16.00
PART B - ANCILLARY SERVICE COMPUTATION OF REIMBURSEMENT LESSER OF COST OR CHARGES - TITLE XVIII ONLY				
17.00	Ancillary services Part B		0	17.00
18.00	Vaccine cost (From Wkst D, Part II, line 3)		0	18.00
19.00	Total reasonable costs (Sum of lines 17 and 18)		0	19.00
20.00	Medicare Part B ancillary charges (See instructions)		0	20.00
21.00	Cost of covered services (Lesser of line 19 or line 20)		0	21.00
22.00	Primary payor amounts		0	22.00
23.00	Coinsurance and deductibles		0	23.00
24.00	Allowable bad debts (From your records)		0	24.00
24.01	Allowable Bad debts for dual eligible beneficiaries (see instructions)		0	24.01
24.02	Adjusted reimbursable bad debts (see instructions)		0	24.02
25.00	Subtotal (Sum of lines 21 and 24, minus lines 22 and 23)		0	25.00
26.00	Interim payments (See instructions)		0	26.00
27.00	Tentative adjustment		0	27.00
28.00	Other Adjustments (See instructions) Specify		0	28.00
28.50	Demonstration payment adjustment amount before sequestration		0	28.50
28.55	Demonstration payment adjustment amount after sequestration		0	28.55
28.99	Sequestration amount (see instructions)		0	28.99
29.00	Balance due provider/program (see instructions)		0	29.00
30.00	Protested amounts (Nonallowable cost report items) in accordance with CMS Pub.15-2, section 115.2		0	30.00

ANALYSIS OF PAYMENTS TO PROVIDERS FOR SERVICES RENDERED		Provider No. : 555616	Period: From 01/01/2019 To 12/31/2019	Worksheet E-1 Date/Time Prepared: 8/29/2020 12:15 pm	
		Title XVIII	Skilled Nursing Facility	PPS	
		Inpatient Part A		Part B	
		mm/dd/yyyy	Amount	mm/dd/yyyy	Amount
		1.00	2.00	3.00	4.00
1.00	Total interim payments paid to provider		472,707		0
2.00	Interim payments payable on individual bills, either submitted or to be submitted to the contractor for services rendered in the cost reporting period. If none, enter zero		0		0
3.00	List separately each retroactive lump sum adjustment amount based on subsequent revision of the interim rate for the cost reporting period. Also show date of each payment. If none, write "NONE" or enter a zero. (1)				0
Program to Provider					
3.01	ADJUSTMENTS TO PROVIDER		0		0
3.02			0		0

Independent Accountants' Compilation Report

To Management
HumanGood
dba Windsor Manor
Pleasanton, California

Management is responsible for the accompanying Long-Term Care Facility Integrated Disclosure and Medi-Cal Cost Report and related schedules which are listed in the preceding table of contents of HumanGood, dba Windsor Manor, for the year ended December 31, 2020 in accordance with the requirements of the State of California Department of Health Care Services. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the cost report nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on this cost report.

Basis of Accounting

The Long-Term Care Facility Integrated Disclosure and Medi-Cal Cost Report and related schedules which are listed in the preceding table of contents are prepared in accordance with the requirements of the Office of Statewide Health Planning and Development, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the State of California Department of Health Care Services. Accordingly, this cost report is not designed for those who are not informed about such differences.

275.00	Activities	4,747	74,648	15.73	275.00
280.00	Inservice Education - Nursing	696	34,875	50.11	280.00
285.00	Administration	5,129	155,555	30.33	285.00
290.00	Subtotal (Sum of lines 250 through 285)	28,452	562,176	19.76	290.00
300.00	TOTAL (Sum of lines 65, 130, 180,199, 230, and 290)	70,799	1,688,997	23.86	300.00

* Productive hours are actual hours worked and exclude 1) vacation, 2) sick leave, 3) on call, 4) holiday, 5) other paid time off.
Report to the nearest whole hour.

**** For all facilities:**

Column 2, line 65 must agree with the sum of Page 10.1, column 1, lines 105, 110, 115, 120, 130 and 135.
Line 130 must agree with Page 10.1, column 1, line 125. Line 180 must agree with Page 10.1, column 1, line 126. Line 199 must agree with Page 10.1, column 1, line 128.
Line 230 must agree with Page 10.1, column 1, lines 75 through 100.
Report to the nearest whole dollar.

For non-residential care facilities:

Lines 250 through 290 must agree with appropriate lines on Page 10.1, column 1.

For residential care facilities:

Report only productive hours, salaries, and wages related to health care on lines 250 through 290 of this page. If Page 10.1, columns 5 through 9 are used to determine expenses related to health care, use the same method to determine productive hours, salaries, and wages related to health care for this page.

LABOR TURNOVER

	All Employees	Direct Nursing Employees*	Nurse Assistants	
	1.00	2.00	3.00	
605.00	Number of employees at beginning of period	46	28	14
610.00	Number of employees at end of period	43	26	15
615.00	Average number of employees (See instructions)	51	30	16
620.00	Total number of people employed during the period **	75	54	25
625.00	Turnover percentage [(line 620 / line 615) X 100] - 100	47.06	80.00	56.25
630.00	Number of employees with continuous service for entire reporting period	42	25	14

* Include all employees (RN's, LVN's, Nurse Assistants, technicians, specialists and others) providing direct nursing care.
Do not include supervisors who provide no direct nursing care.
Do include supervisors whose duties include some provision of nursing care.

** Total number of people employed can not be less than the number of employees at the beginning of the period, less the number of employees with continuous service for the entire period, plus the number of employees at the end of the period (line 605 - line 630 + line 610).
This calculation is the MINIMUM possible number of people employed during the period. It does not include employees who were hired after the period began and left or were discharged before the period ended.
Therefore, in most cases, line 620 should be greater than this calculation.

Independent Accountants' Compilation Report

To Management
HumanGood
dba Windsor Manor Facility
Pleasanton, California

Management is responsible for the accompanying Skilled Nursing Facility Cost Report, Form CMS 2540-10 and related schedules, which are listed in the preceding table of contents, of HumanGood, dba Windsor Manor Facility for the year ended December 31, 2020 in accordance with the requirements of the Centers for Medicare and Medicaid Services. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the cost report nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on this cost report.

Basis of Accounting

Form CMS 2540-10 and related schedules (listed in the preceding table of contents) are prepared in accordance with the requirements of the Centers for Medicare and Medicaid Services, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the Centers for Medicare and Medicaid Services. Accordingly, this cost report is not designed for those who are not informed about such differences.

Hansen Hunter & Co. P.C.

July 27, 2021

This report is required by law (42 USC 1395g; 42 CFR 413.20(b)). Failure to report can result in all interim payments made since the beginning of the cost reporting period being deemed overpayments (42 USC 1395g). FORM APPROVED OMB NO. 0938-0463 Expires: 12/31/2021

19.00	Enter the first name, last name and the title/position held by the cost report preparer in columns 1, 2, and 3, respectively.	JEFF	MOORE	19.00
20.00	Enter the employer/company name of the cost report preparer.	HANSEN HUNTER & CO. P.C.		20.00
21.00	Enter the telephone number and email address of the cost report preparer in columns 1 and 2, respectively.	503-244-2134	JMOORE@HHC-CPA.COM	21.00

SKILLED NURSING FACILITY AND SKILLED NURSING FACILITY HEALTH CARE
 COMPLEX REIMBURSEMENT QUESTIONNAIRE

Provider No. : 555616

Period:
 From 01/01/2020
 To 12/31/2020

Worksheet S-2
 Part II
 Date/Time Prepared:
 7/27/2021 4:10 pm

		Part B	
		Date	
		4.00	
PS&R Data			
13.00	Was the cost report prepared using the PS&R only? If either col. 1 or 3 is "Y", enter the paid through date of the PS&R used to prepare this cost report in cols. 2 and 4. (see Instructions.)		13.00
14.00	Was the cost report prepared using the PS&R for total and the provider's records for allocation? If either col. 1 or 3 is "Y" enter the paid through date of the PS&R used to prepare this cost report in columns 2 and 4.		14.00
15.00	If line 13 or 14 is "Y", were adjustments made to PS&R data for additional claims that have been billed but are not included on the PS&R used to file this cost report? If "Y", see Instructions.		15.00
16.00	If line 13 or 14 is "Y", then were adjustments made to PS&R data for corrections of other PS&R Report information? If yes, see instructions.		16.00
17.00	If line 13 or 14 is "Y", then were adjustments made to PS&R data for Other? Describe the other adjustments:		17.00
18.00	Was the cost report prepared only using the provider's records? If "Y" see Instructions.		18.00
		3.00	
Cost Report Preparer Contact Information			
19.00	Enter the first name, last name and the title/position held by the cost report preparer in columns 1, 2, and 3, respectively.	SHAREHOLDER	19.00
20.00	Enter the employer/company name of the cost report preparer.		20.00
21.00	Enter the telephone number and email address of the cost report preparer in columns 1 and 2, respectively.		21.00

				100.00
		Expenses	Percentage	Y/N
		1.00	2.00	3.00
A notice published in the Federal Register Volume 68, No. 149 August 4, 2003 provided for an increase in the RUG payments beginning 10/01/2003. Congress expected this increase to be used for direct patient care and related expenses. For lines 101 through 106: Enter in column 1 the amount of the expense for each category. Enter in column 2 the percentage of total expenses for each category to total SNF revenue from Worksheet G-2, Part I, line 1, column 3. Indicate in column 3 "Y" for yes or "N" for no if the spending reflects increases associated with direct patient care and related expenses for each category. (If column 2 is zero, enter N/A in column 3) (See instructions)				
101.00	Staffing			101.00
102.00	Recruitment			102.00
103.00	Retention of employees			103.00
104.00	Training			104.00
105.00	OTHER (SPECIFY)			105.00
106.00	Total SNF revenue (Worksheet G-2, Part I, line 1, column 3)			106.00

Parts I-III
Date/Time Prepared:
7/27/2021 4:10 pm

Symbol (1)	Name	Percentage of Ownership
1.00	2.00	3.00

PART II. INTERRELATIONSHIP TO RELATED ORGANIZATION(S) AND/OR HOME OFFICE:

The Secretary, by virtue of the authority granted under section 1814(b)(1) of the Social Security Act, requires that you furnish the information requested under Part B of this worksheet.

This information is used by the Centers for Medicare and Medicaid Services and its intermediaries/contractors in determining that the costs applicable to services, facilities, and supplies furnished by organizations related to you by common ownership or control represent reasonable costs as determined under section 1861 of the Social Security Act. If you do not provide all or any part of the request information, the cost report is considered incomplete and not acceptable for purposes of claiming reimbursement under title XVIII.

1.00	B	HUMANGOOD	100.00	1.00
2.00	B	HUMANGOOD	100.00	2.00
3.00			0.00	3.00
4.00			0.00	4.00

			1.00	
PART I CALCULATION OF INPATIENT ROUTINE COSTS				
INPATIENT DAYS				
1.00	Inpatient days including private room days		8,150	1.00
2.00	Private room days		0	2.00
3.00	Inpatient days including private room days applicable to the Program		1,203	3.00
4.00	Medically necessary private room days applicable to the Program		0	4.00
5.00	Total general inpatient routine service cost		3,280,771	5.00
PRIVATE ROOM DIFFERENTIAL ADJUSTMENT				
6.00	General inpatient routine service charges		2,706,780	6.00
7.00	General inpatient routine service cost/charge ratio (Line 5 divided by line 6)		1.212057	7.00
8.00	Enter private room charges from your records		0	8.00
9.00	Average private room per diem charge (Private room charges line 8 divided by private room days, line 2)		0.00	9.00
10.00	Enter semi-private room charges from your records		2,706,780	10.00
11.00	Average semi-private room per diem charge (Semi-private room charges line 10, divided by semi-private room days)		332.12	11.00
12.00	Average per diem private room charge differential (Line 9 minus line 11)		0.00	12.00
13.00	Average per diem private room cost differential (Line 7 times line 12)		0.00	13.00
14.00	Private room cost differential adjustment (Line 2 times line 13)		0	14.00
15.00	General inpatient routine service cost net of private room cost differential (Line 5 minus line 14)		3,280,771	15.00
PROGRAM INPATIENT ROUTINE SERVICE COSTS				
16.00	Adjusted general inpatient service cost per diem (Line 15 divided by line 1)		402.55	16.00
17.00	Program routine service cost (Line 3 times line 16)		484,268	17.00
18.00	Medically necessary private room cost applicable to program (line 4 times line 13)		0	18.00
19.00	Total program general inpatient routine service cost (Line 17 plus line 18)		484,268	19.00
20.00	Capital related cost allocated to inpatient routine service costs (From Wkst. B, Part II column 18, line 30 for SNF; line 31 for NF, or line 32 for ICF/IID)		34,385	20.00
21.00	Per diem capital related costs (Line 20 divided by line 1)		4.22	21.00
22.00	Program capital related cost (Line 3 times line 21)		5,077	22.00
23.00	Inpatient routine service cost (Line 19 minus line 22)		479,191	23.00
24.00	Aggregate charges to beneficiaries for excess costs (From provider records)		0	24.00
25.00	Total program routine service costs for comparison to the cost limitation (Line 23 minus line 24)		479,191	25.00
26.00	Enter the per diem limitation (1)			26.00
27.00	Inpatient routine service cost limitation (Line 3 times the per diem limitation line 26) (1)			27.00
28.00	Reimbursable inpatient routine service costs (Line 22 plus the lesser of line 25 or line 27) (Transfer to Worksheet E, Part II, line 4) (See instructions)			28.00

(1) Lines 26 and 27 are not applicable for title XVIII, but may be used for title V and or title XIX

			1.00	
PART II CALCULATION OF INPATIENT NURSING & ALLIED HEALTH COSTS FOR PPS PASS-THROUGH				
1.00	Total SNF inpatient days		8,150	1.00
2.00	Program inpatient days (see instructions)		1,203	2.00
3.00	Total nursing & allied health costs. (see instructions)(Do not complete for titles V or XIX)		0	3.00
4.00	Nursing & allied health ratio. (line 2 divided by line 1)		0.147607	4.00
5.00	Program nursing & allied health costs for pass-through. (line 3 times line 4)		0	5.00

CALCULATION OF REIMBURSEMENT SETTLEMENT FOR TITLE XVIIII		Provider No. : 555616	Period: From 01/01/2020 To 12/31/2020	Worksheet E Part I Date/Time Prepared: 7/27/2021 4:10 pm
		Title XVIIII	Skilled Nursing Facility	PPS

			1.00	
PART A - INPATIENT SERVICE PPS PROVIDER COMPUTATION OF REIMBURSEMENT				
1.00	Inpatient PPS amount (See Instructions)		846,793	1.00
2.00	Nursing and Allied Health Education Activities (pass through payments)		0	2.00
3.00	Subtotal (Sum of lines 1 and 2)		846,793	3.00
4.00	Primary payor amounts		0	4.00
5.00	Coinsurance		120,213	5.00
6.00	Allowable bad debts (From your records)		0	6.00
7.00	Allowable Bad debts for dual eligible beneficiaries (See instructions)		0	7.00
8.00	Adjusted reimbursable bad debts. (See instructions)		0	8.00
9.00	Recovery of bad debts - for statistical records only		0	9.00
10.00	Utilization review		0	10.00
11.00	Subtotal (See instructions)		726,580	11.00
12.00	Interim payments (See instructions)		721,736	12.00
13.00	Tentative adjustment		0	13.00
14.00	OTHER adjustment (See instructions)		0	14.00
14.50	Demonstration payment adjustment amount before sequestration		0	14.50
14.55	Demonstration payment adjustment amount after sequestration		0	14.55
14.75	Sequestration for non-claims based amounts (see instructions)		0	14.75
14.99	Sequestration amount (see instructions)		4,844	14.99
15.00	Balance due provider/program (see Instructions)		0	15.00
16.00	Protested amounts (Nonallowable cost report items in accordance with CMS Pub. 15-2, section 115.2)		0	16.00
PART B - ANCILLARY SERVICE COMPUTATION OF REIMBURSEMENT LESSER OF COST OR CHARGES - TITLE XVIIII ONLY				
17.00	Ancillary services Part B		0	17.00
18.00	Vaccine cost (From Wkst D, Part II, line 3)		0	18.00
19.00	Total reasonable costs (Sum of lines 17 and 18)		0	19.00
20.00	Medicare Part B ancillary charges (See instructions)		0	20.00
21.00	Cost of covered services (Lesser of line 19 or line 20)		0	21.00
22.00	Primary payor amounts		0	22.00
23.00	Coinsurance and deductibles		0	23.00
24.00	Allowable bad debts (From your records)		0	24.00
24.01	Allowable Bad debts for dual eligible beneficiaries (see instructions)		0	24.01
24.02	Adjusted reimbursable bad debts (see instructions)		0	24.02
25.00	Subtotal (Sum of lines 21 and 24, minus lines 22 and 23)		0	25.00
26.00	Interim payments (See instructions)		0	26.00
27.00	Tentative adjustment		0	27.00
28.00	Other Adjustments (See instructions) Specify		0	28.00

Independent Accountants' Compilation Report

To Management
HumanGood
dba Windsor Manor
Duarte, California

Management is responsible for the accompanying Long-Term Care Facility Integrated Disclosure and Medi-Cal Cost Report and related schedules which are listed in the preceding table of contents of HumanGood, dba Windsor Manor, for the year ended December 31, 2021 in accordance with the requirements of the State of California Department of Health Care Services. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the cost report nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on this cost report.

Basis of Accounting

The Long-Term Care Facility Integrated Disclosure and Medi-Cal Cost Report and related schedules which are listed in the preceding table of contents are prepared in accordance with the requirements of the California Department of Health Care Access and Information, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the State of California Department of Health Care Services. Accordingly, this cost report is not designed for those who are not informed about such differences.

* Productive hours are actual hours worked and exclude 1) vacation, 2) sick leave, 3) on call, 4) holiday, 5) other paid time off.
Report to the nearest whole hour.

**** For all facilities:**

Column 2, line 65 must agree with the sum of Page 10.1, column 1, lines 105, 110, 115, 120, 130 and 135.
Line 130 must agree with Page 10.1, column 1, line 125. Line 180 must agree with Page 10.1, column 1, line 126. Line 199 must agree with Page 10.1, column 1, line 128.
Line 230 must agree with Page 10.1, column 1, lines 75 through 100.
Report to the nearest whole dollar.

For non-residential care facilities:

Lines 250 through 290 must agree with appropriate lines on Page 10.1, column 1.

For residential care facilities:

Report only productive hours, salaries, and wages related to health care on lines 250 through 290 of this page. If Page 10.1, columns 5 through 9 are used to determine expenses related to health care, use the same method to determine productive hours, salaries, and wages related to health care for this page.

LABOR TURNOVER

		All Employees	Direct Nursing Employees*	Nurse Assistants	
		1.00	2.00	3.00	
605.00	Number of employees at beginning of period	42	24	12	605.00
610.00	Number of employees at end of period	44	28	15	610.00
615.00	Average number of employees (See instructions)	44	28	15	615.00
620.00	Total number of people employed during the period **	70	46	25	620.00
625.00	Turnover percentage [(line 620 / line 615) X 100] - 100	59.09	64.29	66.67	625.00
630.00	Number of employees with continuous service for entire reporting period	27	15	8	630.00

* Include all employees (RN's, LVN's, Nurse Assistants, technicians, specialists and others) providing direct nursing care.
Do not include supervisors who provide no direct nursing care.
Do include supervisors whose duties include some provision of nursing care.

** Total number of people employed can not be less than the number of employees at the beginning of the period, less the number of employees with continuous service for the entire period, plus the number of employees at the end of the period (line 605 - line 630 + line 610).
This calculation is the MINIMUM possible number of people employed during the period. It does not include employees who were hired after the period began and left or were discharged before the period ended.
Therefore, in most cases, line 620 should be greater than this calculation.

Independent Accountants' Compilation Report

To Management
HumanGood
dba Windsor Manor Facility
Duarte, California

Management is responsible for the accompanying Skilled Nursing Facility Cost Report, Form CMS 2540-10 and related schedules, which are listed in the preceding table of contents, of HumanGood, dba Windsor Manor Facility for the year ended December 31, 2021 in accordance with the requirements of the Centers for Medicare and Medicaid Services. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the cost report nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on this cost report.

Basis of Accounting

Form CMS 2540-10 and related schedules (listed in the preceding table of contents) are prepared in accordance with the requirements of the Centers for Medicare and Medicaid Services, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the Centers for Medicare and Medicaid Services. Accordingly, this cost report is not designed for those who are not informed about such differences.

Hansen Hunter & Co. P.C.

May 28, 2022

This report is required by law (42 USC 1395g; 42 CFR 413.20(b)). Failure to report can result in all interim payments made since the beginning of the cost reporting period being deemed overpayments (42 USC 1395g).

The above amounts represent "due to" or "due from" the applicable program for the element of the above complex indicated. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0463. The time required to complete and review the information collection is estimated 202 hours per response, including the time to review instructions, search existing resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving the form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Report Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850. Please do not send applications, claims, payments, medical records or any documents containing sensitive information to the PRA Reports Clearance Office. Please note that any correspondence not pertaining to the information collection burden approved under the associated OMB control number listed on this form will not be reviewed, forwarded, or retained. If you have questions or concerns regarding where to submit your documents, please contact 1-800-MEDICARE.

SKILLED NURSING FACILITY AND SKILLED NURSING FACILITY HEALTH CARE COMPLEX REIMBURSEMENT QUESTIONNAIRE		Provider No. : 555616	Period: From 01/01/2021 To 12/31/2021	Worksheet S-2 Part II Date/Time Prepared: 5/28/2022 4:21 pm	
		Y/N	Date		
		1.00	2.00		
General Instruction: For all column 1 responses enter in column 1, "Y" for Yes or "N" for No. For all the date responses the format will be (mm/dd/yyyy)					
Completed by All Skilled Nursing Facilities					
Provider Organization and Operation					
1.00	Has the provider changed ownership immediately prior to the beginning of the cost reporting period? If column 1 is "Y", enter the date of the change in column 2. (see instructions)	N			1.00
		Y/N	Date	V/I	
		1.00	2.00	3.00	
2.00	Has the provider terminated participation in the Medicare Program? If column 1 is yes, enter in column 2 the date of termination and in column 3, "V" for voluntary or "I" for involuntary.	N			2.00
3.00	Is the provider involved in business transactions, including management contracts, with individuals or entities (e.g., chain home offices, drug or medical supply companies) that are related to the provider or its officers, medical staff, management personnel, or members of the board of directors through ownership, control, or family and other similar relationships? (see instructions)	Y			3.00
		Y/N	Type	Date	
		1.00	2.00	3.00	
Financial Data and Reports					
4.00	Column 1: Were the financial statements prepared by a Certified Public Accountant? (Y/N) Column 2: If yes, enter "A" for Audited, "C" for Compiled, or "R" for Reviewed. Submit complete copy or enter date available in column 3. (see instructions) If no, see instructions.	N			4.00
5.00	Are the cost report total expenses and total revenues different from those on the filed financial statements? If column 1 is "Y", submit reconciliation.	N			5.00
		Y/N	Legal Oper.		
		1.00	2.00		
Approved Educational Activities					
6.00	Column 1: Were costs claimed for Nursing School? (Y/N) Column 2: Is the provider the legal operator of the program? (Y/N)	N	N		6.00
7.00	Were costs claimed for Allied Health Programs? (Y/N) see instructions.	N			7.00
8.00	Were approvals and/or renewals obtained during the cost reporting period for Nursing School and/or Allied Health Program? (Y/N) see instructions.	N			8.00
		Y/N			
		1.00			
Bad Debts					
9.00	Is the provider seeking reimbursement for bad debts? (Y/N) see instructions.		N		9.00
10.00	If line 9 is "Y", did the provider's bad debt collection policy change during this cost reporting period? If "Y", submit copy.		N		10.00
11.00	If line 9 is "Y", are patient deductibles and/or coinsurance waived? If "Y", see instructions.		N		11.00
Bed Complement					
12.00	Have total beds available changed from prior cost reporting period? If "Y", see instructions.		N		12.00
		Part A		Part B	
		Description	Y/N	Date	Y/N
		0	1.00	2.00	3.00
PS&R Data					
13.00	Was the cost report prepared using the PS&R only? If either col. 1 or 3 is "Y", enter the paid through date of the PS&R used to prepare this cost report in cols. 2 and 4. (see Instructions.)	N		N	13.00
14.00	Was the cost report prepared using the PS&R for total and the provider's records for allocation? If either col. 1 or 3 is "Y" enter the paid through date of the PS&R used to prepare this cost report in columns 2 and 4.	N		N	14.00
15.00	If line 13 or 14 is "Y", were adjustments made to PS&R data for additional claims that have been billed but are not included on the PS&R used to file this cost report? If "Y", see Instructions.	N		N	15.00
16.00	If line 13 or 14 is "Y", then were adjustments made to PS&R data for corrections of other PS&R Report information? If yes, see instructions.	N		N	16.00
17.00	If line 13 or 14 is "Y", then were adjustments made to PS&R data for Other? Describe the other adjustments:	N		N	17.00
18.00	Was the cost report prepared only using the provider's records? If "Y" see Instructions.	Y		Y	18.00

		1.00	2.00	3.00
<p>A notice published in the Federal Register Volume 68, No. 149 August 4, 2003 provided for an increase in the RUG payments beginning 10/01/2003. Congress expected this increase to be used for direct patient care and related expenses. For lines 101 through 106: Enter in column 1 the amount of the expense for each category. Enter in column 2 the percentage of total expenses for each category to total SNF revenue from Worksheet G-2, Part I, line 1, column 3. Indicate in column 3 "Y" for yes or "N" for no if the spending reflects increases associated with direct patient care and related expenses for each category. (If column 2 is zero, enter N/A in column 3) (See instructions)</p>

COMPUTATION OF INPATIENT ROUTINE COSTS		Provider No. : 555616	Period: From 01/01/2021 To 12/31/2021	Worksheet D-1 Parts I-III Date/Time Prepared: 5/28/2022 4:21 pm
		Title XVIII	Skilled Nursing Facility	PPS
				1.00
PART I CALCULATION OF INPATIENT ROUTINE COSTS				
INPATIENT DAYS				
1.00	Inpatient days including private room days		7,726	1.00
2.00	Private room days		0	2.00
3.00	Inpatient days including private room days applicable to the Program		1,555	3.00
4.00	Medically necessary private room days applicable to the Program		0	4.00
5.00	Total general inpatient routine service cost		3,367,753	5.00
PRIVATE ROOM DIFFERENTIAL ADJUSTMENT				
6.00	General inpatient routine service charges		2,723,524	6.00
7.00	General inpatient routine service cost/charge ratio (Line 5 divided by line 6)		1.236542	7.00
8.00	Enter private room charges from your records		0	8.00
9.00	Average private room per diem charge (Private room charges line 8 divided by private room days, line 2)		0.00	9.00
10.00	Enter semi-private room charges from your records		2,723,524	10.00
11.00	Average semi-private room per diem charge (Semi-private room charges line 10, divided by semi-private room days)		352.51	11.00
12.00	Average per diem private room charge differential (Line 9 minus line 11)		0.00	12.00
13.00	Average per diem private room cost differential (Line 7 times line 12)		0.00	13.00
14.00	Private room cost differential adjustment (Line 2 times line 13)		0	14.00
15.00	General inpatient routine service cost net of private room cost differential (Line 5 minus line 14)		3,367,753	15.00
PROGRAM INPATIENT ROUTINE SERVICE COSTS				
16.00	Adjusted general inpatient service cost per diem (Line 15 divided by line 1)		435.90	16.00
17.00	Program routine service cost (Line 3 times line 16)		677,825	17.00
18.00	Medically necessary private room cost applicable to program (line 4 times line 13)		0	18.00
19.00	Total program general inpatient routine service cost (Line 17 plus line 18)		677,825	19.00
20.00	Capital related cost allocated to inpatient routine service costs (From Wkst. B, Part II column 18, line 30 for SNF; line 31 for NF, or line 32 for ICF/IID)		34,182	20.00
21.00	Per diem capital related costs (Line 20 divided by line 1)		4.42	21.00
22.00	Program capital related cost (Line 3 times line 21)		6,873	22.00
23.00	Inpatient routine service cost (Line 19 minus line 22)		670,952	23.00
24.00	Aggregate charges to beneficiaries for excess costs (From provider records)		0	24.00
25.00	Total program routine service costs for comparison to the cost limitation (Line 23 minus line 24)		670,952	25.00
26.00	Enter the per diem limitation (1)			26.00
27.00	Inpatient routine service cost limitation (Line 3 times the per diem limitation line 26) (1)			27.00
28.00	Reimbursable inpatient routine service costs (Line 22 plus the lesser of line 25 or line 27) (Transfer to Worksheet E, Part II, line 4) (See instructions)			28.00
(1) Lines 26 and 27 are not applicable for title XVIII, but may be used for title V and or title XIX				
				1.00
PART II CALCULATION OF INPATIENT NURSING & ALLIED HEALTH COSTS FOR PPS PASS-THROUGH				
1.00	Total SNF inpatient days		7,726	1.00
2.00	Program inpatient days (see instructions)		1,555	2.00
3.00	Total nursing & allied health costs. (see instructions)(Do not complete for titles V or XIX)		0	3.00
4.00	Nursing & allied health ratio. (line 2 divided by line 1)		0.201268	4.00
5.00	Program nursing & allied health costs for pass-through. (line 3 times line 4)		0	5.00

CALCULATION OF REIMBURSEMENT SETTLEMENT FOR TITLE XVIII		Provider No. : 555616	Period: From 01/01/2021 To 12/31/2021	Worksheet E Part I Date/Time Prepared: 5/28/2022 4:21 pm
		Title XVIII	Skilled Nursing Facility	PPS

		1.00	
PART A - INPATIENT SERVICE PPS PROVIDER COMPUTATION OF REIMBURSEMENT			
1.00	Inpatient PPS amount (See Instructions)	1,154,402	1.00
2.00	Nursing and Allied Health Education Activities (pass through payments)	0	2.00
3.00	Subtotal (Sum of lines 1 and 2)	1,154,402	3.00
4.00	Primary payor amounts	0	4.00
5.00	Coinurance	167,453	5.00
6.00	Allowable bad debts (From your records)	0	6.00
7.00	Allowable Bad debts for dual eligible beneficiaries (See instructions)	0	7.00
8.00	Adjusted reimbursable bad debts. (See instructions)	0	8.00
9.00	Recovery of bad debts - for statistical records only	0	9.00
10.00	Utilization review	0	10.00
11.00	Subtotal (See instructions)	986,949	11.00
12.00	Interim payments (See instructions)	986,949	12.00
13.00	Tentative adjustment	0	13.00
14.00	OTHER adjustment (See instructions)	0	14.00
14.50	Demonstration payment adjustment amount before sequestration	0	14.50
14.55	Demonstration payment adjustment amount after sequestration	0	14.55
14.75	Sequestration for non-claims based amounts (see instructions)	0	14.75
14.99	Sequestration amount (see instructions)	0	14.99
15.00	Balance due provider/program (see Instructions)	0	15.00
16.00	Protested amounts (Nonallowable cost report items in accordance with CMS Pub. 15-2, section 115.2)	0	16.00
PART B - ANCI LLARY SERVICE COMPUTATION OF REIMBURSEMENT LESSER OF COST OR CHARGES - TITLE XVIII ONLY			
17.00	Ancillary services Part B	0	17.00
18.00	Vaccine cost (From Wkst D, Part II, line 3)	0	18.00
19.00	Total reasonable costs (Sum of lines 17 and 18)	0	19.00
20.00	Medicare Part B ancillary charges (See instructions)	0	20.00
21.00	Cost of covered services (Lesser of line 19 or line 20)	0	21.00
22.00	Primary payor amounts	0	22.00
23.00	Coinurance and deductibles	0	23.00
24.00	Allowable bad debts (From your records)	0	24.00
24.01	Allowable Bad debts for dual eligible beneficiaries (see instructions)	0	24.01
24.02	Adjusted reimbursable bad debts (see instructions)	0	24.02
25.00	Subtotal (Sum of lines 21 and 24, minus lines 22 and 23)	0	25.00
26.00	Interim payments (See instructions)	0	26.00
27.00	Tentative adjustment	0	27.00
28.00	Other Adjustments (See instructions) Specify	0	28.00
28.50	Demonstration payment adjustment amount before sequestration	0	28.50
28.55	Demonstration payment adjustment amount after sequestration	0	28.55
28.99	Sequestration amount (see instructions)	0	28.99
29.00	Balance due provider/program (see instructions)	0	29.00
30.00	Protested amounts (Nonallowable cost report items) in accordance with CMS Pub. 15-2, section 115.2	0	30.00

ANALYSIS OF PAYMENTS TO PROVIDERS FOR SERVICES RENDERED

Provider No. : 555616

Period:
From 01/01/2021
To 12/31/2021

Date/Time Prepared:
5/28/2022 4:21 pm

		1.00	
1.00	Total patient revenues (From Wkst. G-2, Part I, col. 3, line 14)	9,110,067	1.00
2.00	Less: contractual allowances and discounts on patients accounts	-9,376	2.00
3.00	Net patient revenues (Line 1 minus line 2)	9,119,443	3.00
4.00	Less: total operating expenses (From Worksheet G-2, Part II, line 15)	11,894,761	4.00
5.00	Net income from service to patients (Line 3 minus 4)	-2,775,318	5.00
Other income:			
6.00	Contributions, donations, bequests, etc	0	6.00
7.00	Income from investments	0	7.00
8.00	Revenues from communications (Telephone and Internet service)	0	8.00
9.00	Revenue from television and radio service	0	9.00
10.00	Purchase discounts	0	10.00
11.00	Rebates and refunds of expenses	0	11.00
12.00	Parking lot receipts	0	12.00
13.00	Revenue from laundry and linen service	0	13.00
14.00	Revenue from meals sold to employees and guests	0	14.00
15.00	Revenue from rental of living quarters	0	15.00
16.00	Revenue from sale of medical and surgical supplies to other than patients	0	16.00
17.00	Revenue from sale of drugs to other than patients	0	17.00
18.00	Revenue from sale of medical records and abstracts	0	18.00
19.00	Tuition (fees, sale of textbooks, uniforms, etc.)	0	19.00
20.00	Revenue from gifts, flower, coffee shops, canteen	0	20.00
21.00	Rental of vending machines	0	21.00
22.00	Rental of skilled nursing space	0	22.00
23.00	Governmental appropriations	0	23.00
24.00	Other miscellaneous revenue (specify)	105,212	24.00
24.50	COVID-19 PHE Funding	35,229	24.50
25.00	Total other income (Sum of lines 6 - 24)	140,441	25.00
26.00	Total (Line 5 plus line 25)	-2,634,877	26.00
27.00	Other expenses (specify)	0	27.00
28.00		0	28.00
29.00		0	29.00
30.00	Total other expenses (Sum of lines 27 - 29)	0	30.00
31.00	Net income (or loss) for the period (Line 26 minus line 30)	-2,634,877	31.00

SECTION 999.5(d)(5)(D)

- (D) A description of any community benefit program provided by the health facility or facility that provides similar health care services during the past five years with an annual cost of at least \$ 10,000 and the annual cost of each program for the past five years.**

HumanGood SoCal's health facilities (CCRC-based SNFs) do not operate any community benefit programs that meet this definition.

SECTION 999.5(d)(5)(E)

- (E) For each health facility or facility that provides similar health care services that is the subject of the agreement or transaction, a description of current policies and procedures on staffing for patient care areas; employee input on health quality and staffing issues; and employee wages, salaries, benefits, working conditions and employment protections. Such description shall include a list of all existing staffing plans, policy and procedure manuals, employee handbooks, collective bargaining agreements or similar employment-related documents.**

Policies and Procedures for SNF staffing:

HumanGood SoCal has established policies and procedures to ensure adequate SNF staffing levels at Windsor. Attached to this Section are the following:

1. SNF staffing plan;
2. SNF policies and procedures;
3. SNF Quality Assessment and Performance Improvement (“QAPI”) Plan.

Employee input on health quality and staffing issues:

HumanGood SoCal employees can provide input on health quality and staffing issues in a number of ways, including but not limited to raising the issues to immediate supervisors, the Executive Directors, during staff meetings, and during resident/staff town hall meetings.

Employees can raise employment or staffing issues by speaking with a supervisor, by contacting the HumanGood SoCal Home Office Human Resources Department, the HumanGood SoCal Compliance Officer, or by speaking with any other management representative with whom they feel comfortable. See the SNF policies and procedures and QAPI Plan for more information. For more information regarding employee reporting, anonymous reporting, and whistleblower protection, see the Employee Handbook attached to this Section (pp. 60-62).

Additional employment-related documents:

In addition, the following documents are attached to this Section:

4. Employee Benefits Guide;
5. Employee (Team Member) Handbook;
6. Employment Policies and Procedures; and
7. Job Descriptions
8. Windsor Employee Wage and Salary Information

SECTION 999.5(d)(5)(E)

How to Use the PDF Version of this Manual on Flash Drive

We highly recommend that you print these instructions and place them with your flash drive. This will provide you with a hard copy tutorial as you learn to use the flash drive version of this manual. To print these instructions, click on the printer icon  located on the horizontal toolbar at the top of your computer screen. When the “Print” prompt appears, select “Pages from” and enter the appropriate page numbers then press “Enter” on your keyboard. The selected pages will be printed.

This flash drive contains the Adobe Acrobat Reader 9 software only. These instructions pertain to the features available in the Acrobat Reader Software. For information on the advanced features available in the full version of Adobe Acrobat, please visit www.adobe.com.

The PDF version of this manual on flash drive is designed to allow the user to locate information quickly and easily using the “Search,” “Bookmarks” and “Hyperlinks” tools.

Browsing the Manual:

To enlarge the size of the page you are viewing, select the “Zoom In Tool” icon  located on the toolbar. (Note: If the “Zoom Out Tool”  is present on the toolbar, click on the “Zoom Out Tool” and continue to hold until the “Zoom In Tool” appears then select it.) Next, place the cursor on the page and click. Each click on the page will increase the viewing size of the text. You are encouraged to use this tool when viewing indexes or crosswalks.

To decrease the size of the page you are viewing, select the “Zoom Out Tool” icon  located on the toolbar. (Note: If the “Zoom In Tool”  is present on the toolbar, click on the “Zoom In Tool” and continue to hold until the “Zoom Out Tool” appears then select it.) Next, place the cursor on the page and click. Each click on the page will decrease the viewing size of the text.

To advance to the next page, click the “Next Page” icon  in the tool bar located at the top of your computer screen OR press the “Page Down” key on your keyboard.

To view a previous page click the “Previous Page” icon  in the tool bar located at the top of your computer screen OR press the “Page Up” key on your keyboard. Selecting the “Previous Page” icon will also allow you to retrace your viewing path.

To move down one line at a time, press the “Down Arrow” key on your keyboard. This will advance your cursor down one line at a time.

To move up one line at a time, press the **“Up Arrow”** key on your keyboard. This will advance your cursor up one line at a time.

To browse through this manual using the **“Page Counter”** at the bottom of the computer screen, place the cursor inside the page counter and double click to highlight. Next, enter the page number you wish to view and press **“Enter”** on your keyboard. The page you selected will appear on your computer screen. You may also browse through this manual using the **“Arrow”** icons located on either side of the **“Page Counter”**.

Locating Specific Information:

1. Selecting **“Search”** from the **“Edit”** Menu –

NOTE: The **“Search”** feature can be utilized using the Adobe Acrobat Reader 9.0 software that is included on this flash drive.

Select **“Edit”** from the tool bar at the top of your screen. Under this directory select **“Search”**; this will produce a prompt box on your screen. In the prompt box enter the word or phrase you wish to search and press **“Enter”** on your keyboard. The program will locate all occasions of the word or phrase throughout the manual and display the results. If more than one result is found you can advance to the next reference by clicking the next item in the results display, or by using the **“Down Arrow”** key on your keyboard.

2. Bookmarks –

The **“Bookmarks”** directory appears on the left portion of your computer screen when the program is open. **“Bookmarks”** is a directory of files contained on the flash drive. Directories are identified by a plus symbol  located to the left of the file name. The plus symbol  indicates that the directory contains additional files.

To access information from the **“Bookmarks,”** you must first click on the  symbol to the left of the directory you wish to view. The contents of the directory will be displayed. To open a particular file within a directory you must click on the name of the document you wish to open.

To close a file, click on the  symbol to the left of the file.

3. Hyperlinked Text –

Hyperlinks, identified by **blue text**, enable the user to quickly advance to text and phrases without using the **“Search”** function.

To use the hyperlinked text function, place the cursor on the **blue text**; when the cursor changes to the **“Pointing Finger”** icon, click once to advance to the link. To return to the previous page, click on the  icon.

Printing Pages:

An Important Reminder –

When printing a page(s) from this manual you must first determine the page(s) you wish to print by referring to the **“Page Counter”** at the bottom of the computer screen. Due to the digital formatting of this manual, page numbers on the **“Page Counter”** will not match the page numbers that appear on the pages within the document.

Printing Pages from the Manual Flash Drive –

Printing pages from the Manual flash drive can be accomplished by printing a single page or multiple pages.

Once you have located the page you wish to print, click on the page in the document and then click on the **“Printer”** icon  located in the horizontal tool bar at the top of your computer screen. Clicking on this icon will produce the **“Print”** prompt. When the **“Print”** prompt appears, select **“Current Page”** and press **“Enter”** on your keyboard. The page you are viewing on your computer screen will be printed.

To print more than one page you must first determine the page numbers you wish to print. This information can be found in the **“Page Counter”** located at the bottom of the computer screen. Click on the **“Printer”** icon  located in the horizontal tool bar at the top of your computer screen. When the **“Print”** prompt appears, select **“Pages from”** and enter the appropriate page numbers, then press **“Enter”** on your keyboard. The selected pages will be printed.

Customizing Policies:

Text in the PDF file format can only be customized using the Adobe Acrobat Professional 9, **not** the Adobe Reader 9 software provided on the manual flash drive. The Adobe Acrobat Professional 9 may be purchased from an authorized reseller or from www.adobe.com. *It is important to note that Adobe Acrobat is not intended for use as a word processing application. It is possible to make minor (“touch up text”) changes within the application, but large-scale editing is not recommended. If page numbers are altered, the hyperlinks in the PDF file may become unusable.*

Note: This flash drive may also contain Microsoft Word (.doc) files. If these files are available, we highly recommend making custom changes in those files using the Microsoft Word application.

Technical Support

Heaton Resources Customer Support

Technical Support

1-800-438-8884

NOTE: Heaton Resources only provides technical support for questions concerning the use of Adobe Acrobat Reader 9.0 with our products. For all other technical support issues (i.e., installing, text editing, printing, etc.) please see the Customer Support information below.

Adobe Acrobat Reader Customer Support

Adobe customers outside the United States and Canada, please contact the sales or support team of your local Adobe distributor or see the 24-Hour Complimentary Support section below.

Contact Customer Services for Adobe Acrobat Reader at www.adobe.com to:

- Get answers about product information, pricing, system requirements, and availability (including upgrades).
- Get answers about product serial numbers and licensing.
- Register or transfer ownership of Adobe products.
- Purchase Adobe products and upgrades.

Foreword

The forces that shape how long-term care is delivered are multifaceted and at times seemingly incompatible. Facilities must contend with staffing shortages, budget restraints and high acuity residents within an environment of increased public scrutiny, regulatory demands, and ongoing revisions to practice standards. Concepts such as “resident-centered care” and “evidence-based practice” can appear to be irreconcilable, and clinicians, administrators and regulators are frequently at odds regarding how to prioritize scarce resources in order to optimize resident outcomes. For these reasons, long-term care is among the most complex and challenging of today’s health care systems.

Meeting the demands of today’s long-term care environment requires, at a minimum, consistent and coordinated care delivery processes. Sound care delivery processes allow for an approach to resident care that is simultaneously evidence-based and adaptable to resident needs and wishes. Coordinated, interdisciplinary care processes help the resident to attain the highest practicable functional levels, and improve or maintain the best possible quality of life. In addition, adequate staff training, availability of current clinical resources, active professional participation and a means to distribute information are necessary to support the organization at large.

The Care Process

A multidisciplinary, problem-oriented approach to care, include the following steps, which define the key elements required to manage the complex and dynamic clinical conditions and situations found among long-term care residents:

- Assessments (admission, change of condition, periodic)
 - nursing history and physical
 - physician history and physical
 - completion of relevant documentation, including the minimum data set (MDS)
- Diagnoses
 - define problems
 - identify causes
 - determine problems causing other problems
 - define the physical, functional, and psychosocial causes of risks and actual problems
- Care planning
 - identify existing treatments and their effects
 - link current treatments and services with diagnoses and problems
 - determine overall objectives of care
 - modify/refine current services/interventions
 - define functions and tasks associated with delivering care
 - assign responsibilities
- Interventions
 - provide care as assigned, in the proper context, by discipline
 - ensure correct performance of tasks and functions
- Monitoring and follow-up evaluations
 - periodically review the resident’s progress
 - determine the effectiveness, and undesired effects, of treatments
 - determine continued need for services or need to modify existing treatments/services

The Purpose of this Manual

The purpose of this manual is to provide the framework for a structured interdisciplinary care process. The detailed nursing policies and procedures are written within the context of the care process model outlined above. The documents are intended to define the expectations and tasks of licensed nurses and their support staff, as well as their roles within the interdisciplinary team.

Organization of the Manual

This manual consists of two volumes. Volume 1 contains policies and procedures that govern the core clinical and administrative nursing processes. These processes tend to be structured and static across situations and residents. For example, documentation guidelines and general resident safety.

Volume 1 includes the following sections:

- Admissions, Transfers and Discharges
- Assessments and Care Planning
- Documentation
- Food Services
- Infection Control
- Intravenous Therapy
- Medications
- Orders, Receiving and Transcribing
- Personal Care
- Personnel and Staffing
- Positioning and Moving
- Rehabilitative and Restorative Care
- Resident Rights and Dignity
- Resident Safety
- Specimen Collection

Volume 2 contains policies and procedures related to specific clinical conditions and situations affecting the geriatric, post-acute, and/or chronically ill population. These policies and procedures delve into the more complex and dynamic situations that are seen in the long-term care environment; those that require interdisciplinary coordination, a resident-centered approach and ongoing monitoring.

Volume 2 includes the following sections:

- Behavior, Mood and Cognition
- Cardiovascular Conditions
- Diabetic Care
- Emergency and First Aid
- End of Life Care
- Falls and Fall Risk
- Gastrointestinal Conditions
- Managing Infections
- Miscellaneous
- Musculoskeletal Conditions
- Nutrition and Hydration
- Pain Management
- Respiratory and Pulmonary Conditions
- Skin and Wound Management
- Urinary and Renal Conditions

With few exceptions, complex clinical conditions and situations addressed in Volume 2 are guided by multidisciplinary Clinical Protocols. These protocols reflect the overall care process and address each discipline's responsibility within that process. This approach is compatible with the care process outlined above and with the framework established in the clinical practice guidelines from the American Medical Directors Association (AMDA), which are designed specifically for the long-term and post-acute care populations.

Organization of Chapters

Each chapter consists of clinical protocols (where applicable), policies, procedures, and appendices. **Appendices, which are located on the accompanying flash drive**, contain documentation examples, documentation templates, and supporting materials. Supporting materials may include reference materials, Care Area Assessment resources, sample care plans, clinical guidelines and tools. All clinical protocols, policies and procedures are listed separately in alphabetical order for timely access, and cross-referenced to related documents.

Organization of Documents

Each document type has a slightly different format that reflects its unique underlying objective. For example:

- **Clinical Protocols** create the framework for structured, interdisciplinary care of specific conditions/situations and the format supports that objective (see above).
- **Policies** establish the overarching organizational statement of purpose and a summary of the implementation strategies and/or specific outcome goals.
- **Procedures** establish specific guidelines for nursing care that are based on best practice standards. Procedures include the purpose of the procedure, preparation, general guidelines, equipment and supplies, steps in the procedure, documentation and reporting. Each procedure includes a clinical tier that establishes the complexity of the procedure and the level of skill and training associated with the procedure. (Note: facilities should use this as a guideline only and *always* defer to the state licensing requirements and practice standards for each discipline.) Clinical tiers for procedures consist of the following parameters:
 - **Level I:** Consists of procedures that represent basic levels of care in the facility. These procedures may be performed by all trained and oriented clinical staff (licensed or unlicensed) and in some cases non-clinical staff (e.g., housekeeping).
 - **Level II:** Represents procedures that require additional skill, experience, or special training for CNAs to perform. In some cases, procedures may only be performed under the supervision of licensed staff.
 - **Level III:** Represents specialized or complex procedures that should be performed by licensed and trained staff (for details, consult state licensing and practice guidelines).

Miscellaneous Terminology

Long-term care facilities care for both permanent residents and short-stay (primarily post-acute) patients. This manual generally uses the term “residents” whether the individual lives in the facility permanently or is there only to receive short-term care. “Infection Preventionist” is intended to reflect the primary role of the Infection Control Professional. For the purposes of this manual, Infection Control Coordinator and Infection Preventionist are used interchangeably.

The term “physician” is used to indicate where a policy or procedure is invariably applicable to more than just physicians. Depending on the state standards of practice, and/or the specific policy, procedure, or clinical protocol, this term may also apply to mid-level practitioners who are performing tasks on behalf of or in place of a physician.

Definitions

Terminology and definitions that are specific to regulatory compliance (including definitions of clinical conditions and situations) are included in the “Definitions” section that follows. It is important to understand how this

terminology is used in the Guidance to Surveyors so that facilities are prepared to address questions or concerns within their appropriate context.

2017 Requirements of Participation

With the much anticipated publication of the revised Medicare and Medicaid Requirements of Participation for long-term care (“the mega rule”), facilities are faced with the overwhelming task of reviewing and revising processes to meet the specifications of these requirements. As such, the policies and procedures in this manual are being adapted to meet changing terminology and in some instances to address certain areas of focus. During this time of uncertainty, the *Nursing Services Policy and Procedure Manual for Long-Term Care* will continue to serve as a foundation for meeting regulatory and clinical expectations and to orient long-term care staff and practitioners toward facilitating the best possible outcome for each resident in his or her care.

Stacy Lundin Yale, RN, BSN, Author and Managing Editor
Steven Levenson, MD, CMD, Author and Contributing Editor

Nursing Services Policy and Procedure Manual for Long-Term Care - Clinical Tiers

Unit Title	Chapter	Clinical Tier
Alcoholic Beverages	Miscellaneous	I
Answering the Call Light	Personal Care	I
Assisting the Impaired Resident with In-Room Meals	Food Services	I
Assisting the Resident with In-Room Meals	Food Services	I
Bed Bugs, Preventing and Managing Infestations of	Managing Infections	I
Cleaning Broken Glass When Contaminated With Blood or Body Fluid	Infection Control	I
Cleaning Spills or Splashes of Blood or Body Fluids	Infection Control	I
Departmental (Environmental Services) - Laundry and Linen	Infection Control	I
Departmental (Occupational Therapy) - Prevention of Infection	Infection Control	I
Departmental (Physical Therapy) - Prevention of Infection	Infection Control	I
Departmental (Recreational Therapy) - Prevention of Infection	Infection Control	I
Departmental (Respiratory Therapy) - Prevention of Infection	Infection Control	I
Dietary/Food Handling	Food Services	I
Making an Unoccupied Bed	Personal Care	I
Medical Waste, Handling of	Infection Control	I
Needle Handling and/or Disposal	Infection Control	I
Personal Protective Equipment - Using Face Masks	Infection Control	I
Personal Protective Equipment - Using Gloves	Infection Control	I
Personal Protective Equipment - Using Gowns	Infection Control	I
Personal Protective Equipment - Using Protective Eyewear	Infection Control	I
Preparing the Resident for a Meal	Food Services	I
Serving Drinking Water	Nutrition and Hydration	I
Snacks (Between Meal and Bedtime), Serving	Food Services	I
Transfer, Room to Room	Admissions, Transfers and Discharges	I
24-Hour Urine Specimen	Specimen Collection	II
Apical Pulse, Measuring	Assessments and Care Planning	II
Applying a Cold Compress or Soak	Personal Care	II
Applying a Warm Compress or Soak	Personal Care	II
Applying a Warm Water Bottle	Personal Care	II
Artificial Limb, Care of	Personal Care	II
Assisting a Resident to Walk to the Bathroom	Personal Care	II
Assisting the Nurse in Examining and Assessing the Resident	Assessments and Care Planning	II
Bedpan/Urinal, Offering/Removing	Personal Care	II
Bedside Commode, Offering/Removing	Personal Care	II
Blood Pressure, Measuring	Assessments and Care Planning	II
Brushing and Combing Hair	Personal Care	II
Care of Artificial Eye	Personal Care	II
Care of Fingernails/Toenails	Personal Care	II
Care of Hearing Aid	Personal Care	II
Care of the Hearing Impaired Resident	Personal Care	II
Care of the Visually Impaired Resident	Personal Care	II

Unit Title	Chapter	Clinical Tier
Changing the Resident's Gown or Pajamas	Personal Care	II
Cold Eye Compress	Personal Care	II
Dentures, Cleaning and Storing	Personal Care	II
Diapers/Underpads	Infection Control	II
Diarrhea and Fecal Incontinence	Infection Control	II
Disinfection of Durable Medical Equipment for Intravenous Therapy	Intravenous Therapy	II
Dorsal Recumbent Position	Positioning and Moving	II
Dressing and Undressing the Resident	Personal Care	II
Emergency Procedure – Cardiopulmonary Resuscitation	Emergency and First Aid	II
Emergency Procedure for Choking	Emergency and First Aid	II
Emptying a Urinary Drainage Bag	Urinary and Renal Conditions	II
Encouraging and Restricting Fluids	Nutrition and Hydration	II
Feeding Syringes, Sanitization of Reusable	Gastrointestinal Conditions	II
Fowler's Position	Positioning and Moving	II
Giving a Backrub	Personal Care	II
Giving a Bedbath	Personal Care	II
Hot Eye Compress	Personal Care	II
Intake, Measuring and Recording	Nutrition and Hydration	II
Lifting Machine, Using a Mechanical	Positioning and Moving	II
Locking Arms with the Resident	Positioning and Moving	II
Log Rolling a Resident	Positioning and Moving	II
Making an Occupied Bed	Personal Care	II
Mouth Care	Personal Care	II
Moving a Mattress to the Head of the Bed	Positioning and Moving	II
Output, Measuring and Recording	Nutrition and Hydration	II
Perineal Care	Personal Care	II
Pressure Ulcers/Injuries Overview	Skin and Wound Management	II
Prevention of Pressure Ulcers/Injuries	Skin and Wound Management	II
Prone Position	Positioning and Moving	II
Proper Use of Side Rails	Resident Safety	II
Radial Pulse, Measuring	Assessments and Care Planning	II
Range of Motion Exercises	Rehabilitative and Restorative Care	II
Ready to Use Enema (Cleansing or Oil)	Gastrointestinal Conditions	II
Rectal Tube with Connected Flatus Bag	Gastrointestinal Conditions	II
Repositioning	Positioning and Moving	II
Respirations, Measuring	Assessments and Care Planning	II
Return Flow Enema (Harris Flush)	Gastrointestinal Conditions	II
Shampooing Hair	Personal Care	II
Shaving the Resident	Personal Care	II
Shower/Tub Bath	Personal Care	II
Sims' Position	Positioning and Moving	II

Skin Tears – Abrasions and Minor Breaks, Care of	Skin and Wound Management	II
Supine Position	Positioning and Moving	II
Support Surface Guidelines	Skin and Wound Management	II
Teeth, Brushing	Personal Care	II
Temperature, Axillary (Digital Thermometer)	Assessments and Care Planning	II
Temperature, Oral (Digital Thermometer)	Assessments and Care Planning	II
Temperature, Rectal (Digital Thermometer)	Assessments and Care Planning	II
Temperature, Tympanic	Assessments and Care Planning	II
Terminal/Dying Resident, Caring for the	End of Life Care	II
The Side-Lying Position	Positioning and Moving	II
Turning A Resident On His/Her Side Away From You	Positioning and Moving	II
Weighing and Measuring the Resident	Assessments and Care Planning	II
Emergency Procedure – Seizure Management	Emergency and First Aid	II - III
Administering Medications by IV Push	Medications	III
Administering Medications via Secondary Tubing	Medications	III
Administering Medications through a Metered Dose Inhaler	Medications	III
Administering Medications through a Small Volume (Handheld) Nebulizer	Medications	III
Administering Medications through an Enteral Tube	Medications	III
Administering Oral Medications	Medications	III
Administering Pain Medications	Pain Management	III
Administering Rectal or Vaginal Medications	Medications	III
Administering Topical Medications	Medications	III
Administration of Inotropic Therapy	Cardiovascular Conditions	III
Administration Set/Tubing Changes	Intravenous Therapy	III
Admission Assessment and Follow-Up: Role of the Nurse	Admissions, Transfers and Discharges	III
Admitting the Resident: Role of the Nursing Assistant	Admissions, Transfers and Discharges	III
Application of Eye Ointment	Medications	III
Applying a Pneumatic Compression Device (PCD)	Cardiovascular Conditions	III
Applying Anti-Emboli Stockings (TED Hose)	Cardiovascular Conditions	III
Assessing Falls and Their Causes	Falls and Fall Risk	III
Behavioral Programs and Toileting Plans for Urinary Incontinence	Urinary and Renal Conditions	III
Blood Sampling - Capillary (Finger Sticks)	Specimen Collection	III
Calculating Flow Rates/Dosages	Intravenous Therapy	III
Catheter Care, Urinary	Urinary and Renal Conditions	III
Catheter Irrigation, Open System	Urinary and Renal Conditions	III
Catheterization, Intermittent, Female Resident	Urinary and Renal Conditions	III
Catheterization, Intermittent, Male Resident	Urinary and Renal Conditions	III
Catheterization, Residual Use	Urinary and Renal Conditions	III
Central Venous Catheter Dressing Changes	Intravenous Therapy	III
Changing a Percutaneous Endoscopic Gastrostomy (PEG) Tube	Gastrointestinal Conditions	III
Changing the Needleless Connection Device and Extension Tubing	Intravenous Therapy	III

Record of Adoption

On _____ the _____ day of _____
20 _____ the Governing Board of this facility adopted the policies and procedures outlined in this manual. Such policies and procedures have been reviewed by the Board, the Medical Director, and the Quality Assurance and Performance Improvement Committee and found to be adequate in meeting the day-to-day operational needs of this facility and our residents. The Administrator has been delegated the administrative authority, responsibility, and accountability of assuring that all personnel, residents, and the community are made aware of these policies and procedures through an established orientation and/or in-service training program.

Comments:

Documents with Blank Spaces

The following chart includes documents that have **blank areas** that are to be completed by the facility in order to tailor the policy or procedure to the facility's practice. The blanks may be filled in by hand, or by accessing the Microsoft Word™ file on the Flash Drive. Please follow the instructions on the Flash Drive for customizing Word documents and replacing pages in the printed manual. Once each blank has been filled in, date and initial the boxes in this chart as a record of completion.

Volume	Chapter Title	Document	Date	Initials
1		Record of Adoption		
	Admissions, Transfers and Discharges	Admission Criteria		
	Assessments and Care Planning	Care Area Assessments		
	Documentation	Release of Information		
	Food Services	Frequency of Meals		
	Infection Control	Laundry and Bedding, Soiled		
		Departmental (Environmental Services) – Laundry and Linen		
		Personal Protective Equipment – Contingency and Crisis Use of Eye Protection (COVID-19 Outbreak)

State Operations Manual – Appendix PP Definitions

–**A need to alter treatment significantly**” means a need to stop a form of treatment because of adverse consequences (such as an adverse drug reaction), or commence a new form of treatment to deal with a problem (for example, the use of any medical procedure, or therapy that has not been used on that resident before).

“**A resident or family group**” is defined as a group of residents or residents’ family members that meets regularly to: Discuss and offer suggestions about facility policies and procedures affecting residents’ care, treatment, and quality of life; Support each other; Plan resident and family activities; Participate in educational activities; or For any other purpose.

–**Abuse**” is defined at §483.5 as –the willful infliction of injury, unreasonable confinement, intimidation, or punishment with resulting physical harm, pain or mental anguish. Abuse also includes the deprivation by an individual, including a caretaker, of goods or services that are necessary to attain or maintain physical, mental, and psychosocial well-being. Instances of abuse of all residents, irrespective of any mental or physical condition, cause physical harm, pain or mental anguish. It includes verbal abuse, sexual abuse, physical abuse, and mental abuse including abuse facilitated or enabled through the use of technology.”

“**Acceptable parameters of nutritional status**” refers to factors that reflect that an individual’s nutritional status is adequate, relative to his/her overall condition and prognosis, such as weight, food/fluid intake, and pertinent laboratory values.

“**Accepted professional standards and principles**” means Federal, State and local laws or professional licensure standards.

“**Accident**” refers to any unexpected or unintentional incident, which results or may result in injury or illness to a resident. This does not include other types of harm, such as adverse outcomes that are a direct consequence of treatment or care that is provided in accordance with current professional standards of practice (e.g., drug side effects or reaction).

“**Accurate**” means that the encoded MDS data matches the MDS form in the clinical record. Also refer to guidance regarding accuracy at §483.20(g), and the information accurately reflects the resident’s status as of the Assessment Reference Date (ARD).

“**Acquiring medication**” is the process by which a facility requests and obtains a medication.

“**Active Assisted ROM**” means the use of the muscles surrounding the joint to perform the exercise but requires some help from the therapist or equipment (such as a strap). Mobility refers to all types of movement, including walking, movement in a bed, transferring from a bed to a chair, all with or without assistance or moving about an area either with or without an appliance (chair, walker, cane, crutches, etc.).

“**Active ROM**” means the performance of an exercise to move a joint without any assistance or effort of another person to the muscles surrounding the joint.

“Activities” refer to any endeavor, other than routine ADLs, in which a resident participates that is intended to enhance her/his sense of well-being and to promote or enhance physical, cognitive, and emotional health. These include, but are not limited to, activities that promote self-esteem, pleasure, comfort, education, creativity, success, and independence.

–Adequate lighting” means levels of illumination suitable to tasks the resident chooses to perform or the facility staff must perform.

“Adjuvant Medication” describes any medication with a primary indication other than pain management but with analgesic properties in some painful conditions.²

“Advance care planning” is a process of communication between individuals and their healthcare agents to understand, reflect on, discuss, and plan for future healthcare decisions for a time when individuals are not able to make their own healthcare decisions.

“Advance directive” is defined as a written instruction, such as a living will or durable power of attorney for health care, recognized under State law (whether statutory or as recognized by the courts of the State), relating to the provision of health care when the individual is incapacitated. 42 CFR §489.100. Some States also recognize a documented oral instruction.

“Adverse Consequence” is an unpleasant symptom or event that is due to or associated with a medication, such as impairment or decline in a resident’s mental or physical condition or functional or psychosocial status. It may include various types of adverse drug reactions and interactions (e.g., medication-medication, medication-food, and medication-disease).

“Adverse Events” An adverse event is defined as an untoward, undesirable, and usually unanticipated event that causes death or serious injury, or the risk thereof, which includes near misses.

“Airborne precautions” actions taken to prevent or minimize the transmission of infectious agents/organisms that remain infectious over long distances when suspended in the air. These infectious particles can remain suspended in the air for prolonged periods of time and can be carried on normal air currents in a room or beyond, to adjacent spaces or areas receiving exhaust air.

“Alcohol-based handrub (ABHR)” a 60-95 percent ethanol or isopropyl alcohol- containing preparation base designed for application to the hands to reduce the number of viable microorganisms.

“All rules and regulations” relates to State and Federal requirements and facility policies.

“Alleged violation” is a situation or occurrence that is observed or reported by staff, resident, relative, visitor or others but has not yet been investigated and, if verified, could be noncompliance with the Federal requirements related to mistreatment, exploitation, neglect, or abuse, including injuries of unknown source, and misappropriation of resident property.

“Antibiotic Stewardship” refers to a set of commitments and actions designed to optimize the treatment of infections while reducing the adverse events associated with antibiotic use. This can be accomplished through improving antibiotic prescribing, administration, and management practices thus reducing inappropriate use to ensure that residents receive the right antibiotic for the right indication, dose, and duration.

“Antibiotic” a medication used to treat bacterial infections. They are not effective for infections caused by viruses (e.g., influenza or most cases of bronchitis).

“Anticipated Discharge” A discharge that is planned and not due to the resident’s death or an emergency (e.g., hospitalization for an acute condition or emergency evacuation).

“Artificial nutrition and hydration” are medical treatments and refer to nutrition that is provided through routes other than the usual oral route, typically by placing a tube directly into the stomach, the intestine or a vein.

“Assessment Reference Date (ARD)” is the specific end point for the look-back periods in the Minimum Data Set (MDS) assessment process. This look-back period is also called the observation or assessment period.

“Assistance Device or Assistive Device” refers to any item (e.g., fixtures such as handrails, grab bars, and mechanical devices/equipment such as stand-alone or overhead transfer lifts, canes, wheelchairs, and walkers, etc.) that is used by, or in the care of a resident to promote, supplement, or enhance the resident’s function and/or safety.

“Assistive devices to maintain vision” include, but are not limited to, glasses, contact lenses, magnifying lens or other devices that are used by the resident. Assistive devices to maintain hearing include, but are not limited to, hearing aids, and amplifiers.

“Assistance with the bathroom” refers to the resident’s ability to use the toilet room (or commode, bedpan, urinal); transfer on/off the toilet, clean themselves, change absorbent pads or briefs, manage ostomy or catheter, and adjust clothes.

“Attending physician” refers to the primary physician who is responsible for managing the resident’s medical care. This does not include other physicians whom the resident may see periodically, such as specialists.

–Authority having jurisdiction” is the public agency, i.e., Federal, State or local, or official(s) having the authority to make a determination of noncompliance, and is responsible for providing and signing official correspondence notifying the facility or professional of their final adverse action.

“Automatic self-adjusting positive airway pressure (APAP)”. APAP is a non-invasive ventilation machine that automatically adjusts the air pressure according to the patient's requirement at a particular time.

“Avoidable Accident” means that an accident occurred because the facility failed to:

- Identify environmental hazards and/or assess individual resident risk of an accident, including the need for supervision and/or assistive devices; and/or
- Evaluate/analyze the hazards and risks and eliminate them, if possible, or, if not possible, identify and implement measures to reduce the hazards/risks as much as possible; and/or
- Implement interventions, including adequate supervision and assistive devices, consistent with a resident’s needs, goals, care plan and current professional standards of practice in order to eliminate the risk, if possible, and, if not, reduce the risk of an accident; and/or
- Monitor the effectiveness of the interventions and modify the care plan as necessary, in accordance with current professional standards of practice.

“Background (face-sheet) information” refers to the MDS Entry tracking record

“Bacteremia” is the presence of bacteria in the bloodstream.

“Bacteriuria” is defined as the presence of bacteria in the urine.

“Basic life support” is a level of medical care which is used for victims of life-threatening illnesses or injuries until they can be given full medical care at a hospital, and may include recognition of sudden cardiac arrest, activation of the emergency response system, early cardiopulmonary resuscitation, and rapid defibrillation with an automated external defibrillator, if available.

“Bed rails” are adjustable metal or rigid plastic bars that attach to the bed. They are available in a variety of types, shapes, and sizes ranging from full to one-half, one-quarter, or one-eighth lengths. Also, some bed rails are not designed as part of the bed by the manufacturer and may be installed on or used along the side of a bed. Examples of bed rails include, but are not limited to: side rails, bed side rails, and safety rails; and grab bars and assist bars.

“Bed-hold” Holding or reserving a resident’s bed while the resident is absent from the facility for therapeutic leave or hospitalization.

“Bi-level positive airway pressure (BiPAP)”. BiPAP is a non-invasive ventilation machine that is capable of generating two adjustable pressure levels - Inspiratory Positive Airway Pressure (IPAP) - high amount of pressure, applied when the patient inhales and a low Expiratory Positive Airway Pressure (EPAP) during exhalation.

“Biologicals” are made from a variety of natural sources—human, animal, or microorganisms. Biologicals are used to treat, prevent, or diagnose diseases and medical conditions. They may include a wide range of products such as vaccines, blood and blood components, allergenics, somatic cells, gene therapy, tissues, and recombinant therapeutic proteins.

“Bolus feeding” is the administration of a limited volume of enteral formula over brief periods of time.

“Both orally and in writing” means if a resident can read and understand written materials without assistance, an oral summary, along with the written document, is acceptable.

“CAA Summary” (Section V of the MDS) provides a location for documentation of the care area(s) that have triggered from the MDS, the decisions made during the CAA process regarding whether or not to proceed to care planning, and the location and date of the CAA documentation.

“Care Area Assessment (CAA)” is the further investigation of triggered areas, to determine if the care area triggers require interventions and care planning.

“Care Area Triggers (CATs)” are specific resident responses for one or a combination of MDS elements. The triggers identify residents who have or are at risk for developing specific functional problems and require further assessment.

“Campus” Campus is defined in §413.65(a)(2) and means the physical area immediately adjacent to the provider’s main buildings, other areas and structures that are not strictly contiguous to the main buildings but are located within 250 yards of the main buildings, and any other areas determined on an individual case basis, by the CMS regional office, to be part of the provider’s campus.

“Capable of transmitting” means that the facility has encoded and edited according to CMS specifications, the record accurately reflects the resident’s overall clinical status as of the assessment reference date, and the record is ready for transmission.

“Cardiopulmonary resuscitation (CPR)” refers to any medical intervention used to restore circulatory and/or respiratory function that has ceased.

“Care Area Assessment (CAA) Process” is a process outlined in Chapter 4 of the MDS manual designed to assist the assessor to systematically interpret the information recorded on the MDS. Once a care area has been triggered, nursing home providers use current, evidence-based clinical resources to conduct an assessment of the potential problem and determine whether or not to care plan for it. The CAA process helps the clinician to focus on key issues identified during the assessment process so that decisions as to whether and how to intervene can be explored with the resident. This process has three components:

–Chemical restraint” is defined as any drug that is used for discipline or staff convenience and not required to treat medical symptoms.

“Cleaning” removal of visible soil (e.g., organic and inorganic material) from objects and surfaces and is normally accomplished manually or mechanically using water with detergents or enzymatic products.

“Clinical nurse specialist” is a registered professional nurse currently licensed to practice in the State and who meets the State’s requirements governing the qualifications of clinical nurse specialists.

“Clinically significant” refers to effects, results, or consequences that materially affect or are likely to affect an individual’s physical, mental, or psychosocial well-being either positively by preventing, stabilizing, or improving a condition or reducing a risk, or negatively by exacerbating, causing, or contributing to a symptom, illness, or decline in status.

“Clostridium difficile infection (C. difficile or CDI)” an infection from a bacterium that causes colitis, an inflammation of the colon, causing diarrhea.

–Code Status” refers to the level of medical interventions a person wishes to have started if their heart or breathing stops.

“Cohorting” the practice of grouping residents infected or colonized with the same infectious agent together to confine their care to one area and prevent contact with susceptible residents (cohorting residents). During outbreaks, healthcare staff may be assigned to a specific cohort of residents to further limit opportunities for transmission (cohorting staff). The terms –cohort or –cohorting” is standardized language used in the practice of infection prevention and control; the use of this terminology is not intended to offend residents or staff.

“Collaboration” is a process often governed by the laws of a given State in which a non-physician practitioner (NPP) works with one or more physicians to deliver health care services within the scope of the NPP’s expertise, with medical direction and appropriate supervision as provided for in jointly developed guidelines or other mechanisms.

“Colonization” the presence of microorganisms on or within body sites without detectable host immune response, cellular damage, or clinical expression.

“Comfortable and safe temperature levels” means that the ambient temperature should be in a relatively narrow range that minimizes residents’ susceptibility to loss of body heat and risk of hypothermia, or hyperthermia, or and is comfortable for the residents.

–Comfortable lighting” means lighting that minimizes glare and provides maximum resident control, where feasible, over the intensity, location, and direction of lighting to meet their needs or enhance independent functioning.

“Comfortable sound levels” do not interfere with resident’s hearing and enhance privacy when privacy is desired, and encourage interaction when social participation is desired. Of particular concern to comfortable sound levels is the resident’s control over unwanted noise.

“Communicable disease” (also known as [a.k.a.] **–ontagious disease”**): an infection transmissible (e.g., from person-to-person) by direct contact with an affected individual or the individual's body fluids or by indirect means (e.g., contaminated object).

“Community-acquired infections” (a.k.a. **–resent on admission”**): infections that are present or incubating at the time of admission and which generally develop within 72 hours of admission.

“Competency” is a measurable pattern of knowledge, skills, abilities, behaviors, and other characteristics that an individual needs to perform work roles or occupational functions successfully.

“Complete” means that all items required according to the record type, and in accordance with CMS’ record specifications and State required edits are in effect at the time the record is completed.

“Composite distinct part” A composite distinct part is a distinct part consisting of two or more noncontiguous components that are not located within the same campus, as that term is defined in §413.65(a)(2) of this chapter. Additional requirements specific to SNF/NF composite distinct parts are found at §483.5.

“Comprehensive Assessment” includes the completion of the MDS as well as the CAA process, followed by the development and/or review of the comprehensive care plan. Comprehensive MDS assessments include Admission, Annual, Significant Change in Status Assessment and Significant Correction to Prior Comprehensive Assessment.

“Confidentiality” is defined as safeguarding the content of information including video, audio, or other computer stored information from unauthorized disclosure without the consent of the resident and/or the individual’s surrogate or representative. If there is information considered too confidential to place in the record used by all staff, such as the family’s financial assets or sensitive medical data, it may be retained in a secure place in the facility, such as a locked cabinet in the administrator’s office. The record must show the location of this confidential information.

“Consultants” means an individual who gives professional advice or services. They are generally not direct employees of the facility and may work either full or part-time.

“Contact precautions” measures that are intended to prevent transmission of infectious agents which are spread by direct or indirect contact with the resident or the resident’s environment.

“Contaminated laundry” laundry which has been soiled with blood/body fluids or other potentially infectious materials or may contain sharps.

“Continence” refers to any void that occurs voluntarily, or as the result of prompted, assisted, or scheduled use of the bathroom.

“Continuing Care Provider” The entity or person who will assume responsibility for the resident’s care after discharge. This includes licensed facilities, agencies, physicians, practitioners, and/or other licensed caregivers.

“Continuous feeding” is the uninterrupted administration of enteral formula over extended periods of time.

“Continuous positive airway pressure (CPAP)”. CPAP is a non-invasive ventilation machine that involves the administration of air usually through the nose by an external device at a predetermined level of pressure.

“Controlled Medications” are substances that have an accepted medical use (medications which fall under US Drug Enforcement Agency (DEA) Schedules II—V), have a potential for abuse, ranging from low to high, and may also lead to physical or psychological dependence.

“Convenience” is defined as the result of any action that has the effect of altering a resident’s behavior such that the resident requires a lesser amount of effort or care, and is not in the resident’s best interest.

“Corrective Action” A written and implemented plan of action for correcting or improving performance in response to an identified quality deficiency. Use of the term corrective action in this guidance is not synonymous with a Plan of Correction (formal response to cited deficiencies). This is also separate from the written QAPI plan.

“Court of competent jurisdiction” means any court with the authority to hear and determine a case or suit with the matter in question.

“Covered individual” is anyone who is an owner, operator, employee, manager, agent or contractor of the facility (See section 1150B(a)(3) of the Act).

“Crime” Section 1150B(b)(1) of the Act provides that a ~~crime~~ is defined by law of the applicable political subdivision where the facility is located. A political subdivision would be a city, county, township or village, or any local unit of government created by or pursuant to State law.

“Criminal sexual abuse” In the case of ~~criminal sexual abuse~~ which is defined in section 2011(19)(B) of the Act (as added by section 6703(a)(1)(C) of the Affordable Care Act), serious bodily injury/harm shall be considered to have occurred if the conduct causing the injury is conduct described in section 2241 (relating to aggravated sexual abuse) or section 2242 (relating to sexual abuse) of Title 18, United States Code, or any similar offense under State law. In other words, serious bodily injury includes sexual intercourse with a resident by force or incapacitation or through threats of harm to the resident or others or any sexual act involving a child. Serious bodily injury also includes sexual intercourse with a resident who is incapable of declining to participate in the sexual act or lacks the ability to understand the nature of the sexual act.

“Critical Control Point” means a specific point, procedure, or step in food preparation and serving process at which control can be exercised to reduce, eliminate, or prevent the possibility of a food safety hazard.

“Cross-contamination” means the transfer of harmful substances or disease-causing microorganisms to food by hands, food contact surfaces, sponges, cloth towels, or utensils which are not cleaned after touching raw food, and then touch ready-to-eat foods. Cross-contamination can also occur when raw food touches or drips onto cooked or ready-to-eat foods.

“Current professional standards of practice” refers to approaches to care, procedures, techniques, treatments, etc., that are based on research and/or expert consensus and that are contained in current manuals, textbooks, or publications, or that are accepted, adopted or promulgated by recognized professional organizations or national accrediting bodies.

“Danger Zone” means temperatures above 41 degrees Fahrenheit (F) and below 135 degrees F that allow the rapid growth of pathogenic microorganisms that can cause foodborne illness. Potentially Hazardous Foods (PHF) or Time/Temperature Control for Safety (TCS) Foods held in the danger zone for more than 4 hours (if being prepared from ingredients at ambient temperature) or 6 hours (if cooked and cooled) may cause a foodborne illness outbreak if consumed.

“Decontamination” the use of physical or chemical means to remove, inactivate, or destroy pathogenic organisms on a surface or item to the point where they are no longer capable of transmitting infectious particles and the surface or item is rendered safe for handling, use, or disposal.

“Dementia” is a general term to describe a group of symptoms related to loss of memory, judgment, language, complex motor skills, and other intellectual function, caused by the permanent damage or death of the brain's nerve cells, or neurons. However, dementia is not a specific disease. There are many types and causes of dementia with varying symptomology and rates of progression. (Adapted from: —About Dementia.” Alzheimer’s Foundation of America. 30 Nov 2016. Accessed at: <https://www.alzfdn.org/AboutDementia/definition.html>)

“Dialysis facility” - means an entity that provides outpatient maintenance dialysis services or home dialysis training and support services, or both. (§494.10 Definitions)

“Dialysis” - A process by which dissolved substances are removed from a patient’s body by diffusion from one fluid compartment to another across a semipermeable membrane. The two types of dialysis that are currently in common use are hemodialysis (HD) and peritoneal dialysis (PD). (§405.2102)

“Dietary supplements” refers to herbal and alternative products that are not regulated by the Food and Drug Administration and their composition is not standardized. Dietary supplements must be labeled as such and must not be represented for use as a conventional food or as the sole item of a meal or the diet.

“Discharge Planning” A process that generally begins on admission and involves identifying each resident’s discharge goals and needs, developing and implementing interventions to address them, and continuously evaluating them throughout the resident’s stay to ensure a successful discharge.

“Discharge subset of items” refers to the MDS Discharge assessment.

“Discipline” is defined as any action taken by facility staff for the purpose of punishing or penalizing residents.

“Disinfectant” usually a chemical agent (but sometimes a physical agent) that destroys disease- causing pathogens or other harmful microorganisms but might not kill bacterial spores. It refers to substances applied to inanimate objects.

“Disinfection” thermal or chemical destruction of pathogenic and other types of microorganisms. Disinfection is less lethal than sterilization because it destroys most recognized pathogenic microorganisms but not necessarily all microbial forms (e.g., bacterial spores).

“Dispensing” is a process that includes the interpretation of a prescription; selection, measurement, and packaging or repackaging of the product (as necessary); and labeling of the medication or device pursuant to a prescription/order.

“Disposition” is the process of returning and/or destroying unused medications.

“Distinct Part” A distinct part SNF or NF is part of a larger institution or institutional complex. The distinct part SNF or NF is physically distinguishable from the larger institution or complex and may be comprised of one or more buildings or parts of buildings (such as wings, wards, or floors). Distinct part SNFs or NFs must be immediately adjacent or in close proximity to the institution’s main buildings. CMS may determine, on an individual basis that other areas are part of the institution’s campus and considered to be a distinct part SNF or NF. A distinct part SNF or NF must include all of the beds within the designated area, and cannot consist of a random collection of individual rooms or beds that are scattered throughout the physical plant. The term “distinct part” also includes composite distinct part SNFs or NFs. Additional requirements specific to distinct part SNFs or NFs are found at §483.5.

“Diversion of medications” is the transfer of a controlled substance or other medication from a lawful to an unlawful channel of distribution or use, as adapted from the Uniform Controlled Substances Act.

–Do Not Resuscitate (DNR) Order” refers to a medical order issued by a physician or other authorized non-physician practitioner that directs healthcare providers not to administer CPR in the event of cardiac or respiratory arrest. Existence of an advance directive does not imply that a resident has a DNR order. The medical record should show evidence of documented discussions leading to a DNR order.

“Droplet precautions” actions designed to reduce/prevent the transmission of pathogens spread through close respiratory or mucous membrane contact with respiratory secretions.

“Dry Storage” means storing/maintaining dry foods (canned goods, flour, sugar, etc.) and supplies (disposable dishware, napkins, and kitchen cleaning supplies).

“Emergency dental services” includes services needed to treat an episode of acute pain in teeth, gums, or palate; broken, or otherwise damaged teeth, or any other problem of the oral cavity that required immediate attention by a dentist.

“Encoding” means entering information into the facility MDS software in the computer.

“End-Stage Renal Disease (ESRD)” - The stage of renal impairment that appears irreversible and permanent, and requires a regular course of dialysis or kidney transplantation to maintain life. (42 CFR, Part 405 - §405.2102)

“Enteral feeding” (also referred to as ~~tube~~ feeding”) is the delivery of nutrients through a feeding tube directly into the stomach, duodenum, or jejunum.

“Entrapment” is an event in which a resident is caught, trapped, or entangled in the space in or about the bed rail.

“Environment” refers to any environment or area in the facility that is frequented by or accessible to residents, including (but not limited to) the residents’ rooms, bathrooms, hallways, dining areas, lobby, outdoor patios, therapy areas and activity areas.

“Experimental research” refers to the development, testing and use of a clinical treatment, such as an investigational drug or therapy that has not yet been approved by the FDA or medical community as effective and conforming to accepted medical practice.

–Exploitation,” as defined at §483.5, means ~~taking~~ advantage of a resident for personal gain, through the use of manipulation, intimidation, threats, or coercion.”

“Facility-initiated transfer or discharge” A transfer or discharge which the resident objects to, did not originate through a resident’s verbal or written request, and/or is not in alignment with the resident’s stated goals for care and preferences.

“Fall” refers to unintentionally coming to rest on the ground, floor, or other lower level, but not as a result of an overwhelming external force (e.g., resident pushes another resident). An episode where a resident lost his/her balance and would have fallen, if not for another person or if he or she had not caught him/herself, is considered a fall. A fall without injury is still a fall. Unless there is evidence suggesting otherwise, when a resident is found on the floor, a fall is considered to have occurred (refer to Resident Assessment Instrument User’s Manual. Version 3.0, Chapter 3, page J-27).

“Feeding tube” refers to a medical device used to provide liquid nourishment, fluids, and medications by bypassing oral intake. There are two basic categories, nasogastric and gastrostomy. The type of feeding tube used must be based on clinical assessment and needs of the resident since there are various kinds of feeding tubes within each category.

“Finding” is defined as a determination made by the State that validates allegations of abuse, neglect, exploitation, mistreatment of residents, or misappropriation of their property.

“Food attractiveness” refers to the appearance of the food when **served** to residents.

“Food Contamination” means the unintended presence of potentially harmful substances, including, but not limited to microorganisms, chemicals, or physical objects in food.

“Food palatability” refers to the taste and/or flavor of the food.

“Food Preparation” means the series of operational processes involved in preparing foods for serving, such as: washing, thawing, mixing ingredients, cutting, slicing, diluting concentrates, cooking, pureeing, blending, cooling, and reheating.

“Food Service/Distribution” means the processes involved in getting food to the resident. This may include holding foods hot on the steam table or under refrigeration for cold temperature control, dispensing food portions for individual residents, family style and dining room service, or delivering trays to residents’ rooms or units, etc.

“Found guilty ... by a court of law” applies to situations where the defendant pleads guilty, is found guilty, or pleads no contest to charges of abuse, neglect, exploitation, misappropriation of property, or mistreatment.

“Free of accident hazards as is possible” refers to being free of accident hazards over which the facility has control.

–Freedom of movement” means any change in place or position for the body or any part of the body that the person is physically able to control.

“Full-time” is defined as working 35 or more hours a week.

“Gastrostomy tube” ("G-tube") is a tube that is placed directly into the stomach through an abdominal wall incision for administration of food, fluids, and medications. The most common type is a percutaneous endoscopic gastrostomy (PEG) tube

“Governing body” refers to individuals such as facility owner(s), Chief Executive Officer(s), or other individuals who are legally responsible to establish and implement policies regarding the management and operations of the facility.

“Hand hygiene” a general term that applies to hand washing, antiseptic hand wash, and alcohol-based hand rub.

“Hand washing” the vigorous, brief rubbing together of all surfaces of hands with plain (i.e., nonantimicrobial) soap and water, followed by rinsing under a stream of water.

“Hazards over which the facility has control” are those hazards in the resident environment where reasonable efforts by the facility could influence the risk for resulting injury or illness.

“Hazards” refer to elements of the resident environment that have the potential to cause injury or illness.

“Health Care Provider” includes a physician, physician assistant, nurse practitioner, or clinical nurse specialist, or a qualified dietitian or other qualified nutrition professional acting within their state scope of practice and to whom the attending physician has delegated the task. For issues related to delegation to dietitians, refer to §483.60(e)(2), F808.

“Healthcare-associated infection (HAI)” an infection that residents acquire, that is associated with a medical or surgical intervention (e.g., podiatry, wound care debridement) within a nursing home and was not present or incubating at the time of admission.

“High risk” Refers to care or service areas associated with significant risk to the health or safety of residents, e.g., tracheostomy care; pressure injury prevention; administration of high risk medications such as warfarin, insulin, and opioids.

“High Volume” Refers to care or service areas performed frequently or affecting a large population, thus increasing the scope of the problem, e.g., transcription of orders; medication administration; laboratory testing.

“Highest practicable physical, mental, and psychosocial well-being” is defined as the highest possible level of functioning and well-being, limited by the individual’s recognized pathology and normal aging process. Highest practicable is determined through the comprehensive resident assessment and by recognizing and competently and thoroughly addressing the physical, mental or psychosocial needs of the individual.

“Hold, safeguard, manage, and account for” means that the facility must act as fiduciary of the resident’s funds and report at least quarterly on the status of these funds in a clear and understandable manner. Managing the resident’s financial affairs includes money that an individual gives to the facility for the sake of providing a resident with a non-covered service. In these instances, the facility will provide a receipt to the gift giver and retain a copy.

“Home Dialysis” - Home dialysis means dialysis performed at home by an ESRD patient or caregiver who has completed an appropriate course of training as described in §494.100(a) of this part.

“Home Health Agency (HHA)” a public agency or private organization (or a subdivision of either) which is primarily engaged in providing skilled nursing services and other therapeutic services in the patient’s home and meets the requirements of sections 1861(o) and 1891 of the Social Security Act.

“Hospice care” means a comprehensive set of services described in Section 1861(dd)(1) of the Social Security Act, identified and coordinated by an interdisciplinary group (IDG) to provide for the physical, psychosocial, spiritual, and emotional needs of a terminally ill patient and/or family members, as delineated in a specific patient plan of care. (42 CFR §418.3) Note: These services are provided by a Medicare-certified hospice.

“Hygienically clean” being free of pathogens in sufficient numbers to cause human illness.

“Hypoxemia” means decreased oxygen level in arterial blood.

“Hypoxia” means decreased perfusion of oxygen to the tissues.

“Immediately” means as soon as possible, in the absence of a shorter State time frame requirement, but not later than 2 hours after the allegation is made, if the events that cause the allegation involve abuse or result in serious bodily injury, or not later than 24 hours if the events that cause the allegation do not involve abuse and do not result in serious bodily injury.

“In a language that the resident understands” means verbally, in writing, and in a language that is clear and understandable to the resident and/or his or her representative.

“Indication for use” is defined as the identified, documented clinical rationale for administering a medication that is based upon an assessment of the resident’s condition and therapeutic goals and is consistent with manufacturer’s recommendations and/or clinical practice guidelines, clinical standards of practice, medication references, clinical studies or evidence-based review articles that are published in medical and/or pharmacy journals.

“Infection preventionist” is a term used for the person(s) designated by the facility to be responsible for the infection prevention and control program. **NOTE:** Designation of a specific individual, detailed training, qualifications, and hourly requirements for an infection preventionist are not required until implementation of Phase 3.

“Infection” the establishment of an infective agent in or on a suitable host, producing clinical signs and symptoms (e.g., fever, redness, heat, purulent exudates, etc.).

“Injuries of unknown source” – An injury should be classified as an ~~in~~injury of unknown source” when **both** of the following criteria are met:

- The source of the injury was not observed by any person or the source of the injury could not be explained by the resident; **and**
- The injury is suspicious because of the extent of the injury or the location of the injury (e.g., the injury is located in an area not generally vulnerable to trauma) or the number of injuries observed at one particular point in time or the incidence of injuries over time.

“Inpatient Rehabilitation Facility (IRF)” are freestanding rehabilitation hospitals or rehabilitation units in acute care hospitals that serve an inpatient population requiring intensive services for treatment.

“Intellectual Disability (ID)” is defined in 42 CFR 483.102(b)(3), as follows: An individual is considered to have intellectual disability (ID) if he or she has—

- (i) A level of retardation (mild, moderate, severe or profound) described in the American Association on Intellectual’s Disability Manual on Classification in Intellectual Disability (1983); or
- (ii) A related condition as defined by §435.1010 of this chapter.

“Interest bearing” means a rate of return equal to or above the rate at local banking institutions in the area. If pooled accounts are used, interest must be prorated per individual on the basis of actual earnings or end-of quarter balance.

“Intermittent positive pressure breathing (IPPB)” is a technique used to provide short term or intermittent mechanical ventilation for the purpose of augmenting lung expansion, delivering aerosol medication, or assisting ventilation and can include pressure- and time-limited as well as pressure, time, and flow-cycled ventilation, and may be delivered to artificial airways and non-intubated patients.

“Interventions” Actions, treatments, procedures, or activities designed to meet an objective.

~~In~~**voluntary seclusion”** is defined as separation of a resident from other residents or from her/his room or confinement to her/his room (with or without roommates) against the resident’s will, or the will of the resident representative.

“Jejunostomy tube” (a.k.a. ~~per~~cutaneous endoscopic jejunostomy”) (PEJ or ~~—~~tube”) is a feeding tube placed directly into the small intestine.

“Laboratory service ” as referenced in §493.2, is any examination of materials derived from the human body for purposes of providing information for the diagnosis, prevention, or treatment of any disease or impairment of, or the assessment of the health of human beings.

“Law enforcement,” as defined in section 2011(13) of the Act, is the full range of potential responders to elder abuse, neglect, and exploitation including: police, sheriffs, detectives, public safety officers; corrections personnel; prosecutors; medical examiners; investigators; and coroners.

“Licensed health professional” as defined at §483.5 is a physician; physician assistant; nurse practitioner; physical, speech, or occupational therapist; physical or occupational therapy assistant; registered professional nurse; licensed practical nurse; or licensed or certified social worker; or registered respiratory therapist or certified respiratory therapy technician.

“Local Contact Agency” refers to each State’s designated community contact agencies that can provide individuals with information about community living options and available supports and services. These local contact agencies may be a single entry point agency, such as an Aging and Disability Resource Center (ADRC), an Area Agency on Aging (AAA), a Center for Independent Living (CIL), or other state designated entities.

“Long Term Care Hospital (LTCH)” are certified as acute-care hospitals, but focus on patients who, on average, stay more than 25 days. Many of the patients in LTCHs are transferred there from an intensive or critical care unit. LTCHs specialize in treating patients who may have more than one serious condition, but who may improve with time and care, and return home.

~~–Manual method”~~ means to hold or limit a resident’s voluntary movement by using body contact as a method of physical restraint.

“Measurable” The ability to be evaluated or quantified.

“Mechanical Ventilation” may be defined as a life support system designed to replace or support normal ventilatory lung function.

~~–Mechanically altered diet”~~ means one in which the texture of a diet is altered. When the texture is modified, the type of texture modification must be specific and part of the physicians’ or delegated registered or licensed dietitian order.

“Medical contraindication” a condition or risk that precludes the administration of a treatment or intervention because of the substantial probability that harm to the individual may occur.

“Medical director” means a physician who oversees the medical care and other designated care and services in a health care organization or facility. Under these regulations, the medical director is responsible for coordinating medical care and helping to implement and evaluate resident care policies that reflect current professional standards of practice.

~~–Medical symptom”~~ is defined as an indication or characteristic of a physical or psychological condition.

~~–Medication error rate”~~ is determined by calculating the percentage of medication errors observed during a medication administration observation. The numerator in the ratio is the total number of errors that the survey team observes, both significant and non-significant. The denominator consists of the total number of observations or ~~—pp~~portunities for errors” and includes all the doses the survey team observed being administered plus the doses ordered but not administered. The equation for calculating a medication error rate is as follows: Medication Error Rate = Number of Errors Observed divided by the Opportunities for Errors (doses given plus doses ordered but not given) X 100.

“Medication Error” means the observed or identified preparation or administration of medications or biologicals which is not in accordance with:

- 1) The prescriber’s order;
- 2) Manufacturer’s specifications (not recommendations) regarding the preparation and administration of the medication or biological; or
- 3) Accepted professional standards and principles which apply to professionals providing services. Accepted professional standards and principles include the various practice regulations in each State, and current commonly accepted health standards established by national organizations, boards, and councils.

“Mental Disorder (MD)” For purposes of this section, the term ~~“mental disorder”~~ is the equivalent of ~~“mental illness”~~ used in the definition of serious mental illness in 42 CFR 483.102(b)(1), which states: An individual is considered to have a serious mental illness (MI) if the individual meets the following requirements on diagnosis, level of impairment and duration of illness:

(i) Diagnosis. The individual has a major mental disorder diagnosable under the Diagnostic and Statistical Manual of Mental Disorders, 3rd edition, revised in 1987.

This mental disorder is—

(A) A schizophrenic, mood, paranoid, panic or other severe anxiety disorder; somatoform disorder; personality disorder; other psychotic disorder; or another mental disorder that may lead to a chronic disability; but

(B) Not a primary diagnosis of dementia, including Alzheimer’s disease or a related disorder, or a non-primary diagnosis of dementia unless the primary diagnosis is a major mental disorder as defined in paragraph (b)(1)(i)(A) of this section.

(ii) Level of impairment. The disorder results in functional limitations in major life activities within the past 3 to 6 months that would be appropriate for the individual’s developmental stage. An individual typically has at least one of the following characteristics on a continuing or intermittent basis:

(A) Interpersonal functioning. The individual has serious difficulty interacting appropriately and communicating effectively with other persons, has a possible history of altercations, evictions, firing, fear of strangers, avoidance of interpersonal relationships and social isolation;

(B) Concentration, persistence, and pace. The individual has serious difficulty in sustaining focused attention for a long enough period to permit the completion of tasks commonly found in work settings or in work-like structured activities occurring in school or home settings, manifests difficulties in concentration, inability to complete simple tasks within an established time period, makes frequent errors, or requires assistance in the completion of these tasks; and

(C) Adaptation to change. The individual has serious difficulty in adapting to typical changes in circumstances associated with work, school, family, or social interaction, manifests agitation, exacerbated signs and symptoms associated with the illness, or withdrawal from the situation, or requires intervention by the mental health or judicial system.

(iii) Recent treatment. The treatment history indicates that the individual has experienced at least one of the following:

(A) Psychiatric treatment more intensive than outpatient care more than once in the past 2 years (e.g., partial hospitalization or inpatient hospitalization); or

(B) Within the last 2 years, due to the mental disorder, experienced an episode of significant disruption to the normal living situation, for which supportive services were required to maintain functioning at home, or in a residential treatment environment, or which resulted in intervention by housing or law enforcement officials.

“Mental disorder” is a syndrome characterized by a clinically significant disturbance in an individual's cognition, emotion regulation, or behavior that reflects a dysfunction in the psychological, biological, or developmental processes underlying mental functioning (American Psychiatric Association. Diagnostic and Statistical Manual of Mental Disorders, Fifth edition. Arlington, VA: American Psychiatric Association Publishing, 2013.).

“Methicillin-resistant Staphylococcus aureus (MRSA)” (a.k.a. Oxacillin-resistant Staphylococcus aureus): Staphylococcus aureus bacteria that are resistant to treatment with one of the semi-synthetic penicillins (e.g., Oxacillin/Nafcillin/Methicillin).

“Minimum Data Set” The Minimum Data Set (MDS) is part of the U.S. federally mandated process for clinical assessment of all residents in Medicare or Medicaid-certified nursing homes. It is a core set of screening, clinical and functional status elements, including common Definitions and coding categories, which forms the foundation of a comprehensive assessment.

“Misappropriation of resident property,” as defined at §483.5, means ~~the~~ deliberate misplacement, exploitation, or wrongful, temporary, or permanent use of a resident's belongings or money without the resident's consent.”

“Mistreatment,” as defined at §483.5, is ~~in~~appropriate treatment or exploitation of a resident.”

“Multidrug-Resistant Organisms (MDROs)” microorganisms, predominantly bacteria, that are resistant to one or more classes of antimicrobial agents.⁵¹ Although the names of certain MDROs describe resistance to only one agent, these pathogens are frequently resistant to most available antimicrobial agents and include multidrug-resistant gram negative bacteria (GNB), Carbapenem-resistant Enterobacteriaceae (CRE), and extended spectrum beta-lactamase-producing Enterobacteriaceae (ESBLs).

“Muscle atrophy” means the wasting or loss of muscle tissue.

“Must be seen” for purposes of the visits required by §483.30(c)(1), means that the physician or NPP must make actual face-to-face contact with the resident, and at the same physical location, not via a telehealth arrangement. There is no requirement for this type of contact at the time of admission, since the decision to admit an individual to a nursing facility (whether from a hospital or from the individual's own residence) generally involves physician contact during the period immediately preceding the admission.

“Naso-gastric feeding tube” (“NG tube”) is a tube that is passed through the nose and down through the nasopharynx and esophagus into the stomach.

“Near Miss” A potential harm event that did not reach a resident.

“Neglect,” as defined at §483.5, means ~~the~~ failure of the facility, its employees or service providers to provide goods and services to a resident that are necessary to avoid physical harm, pain, mental anguish or emotional distress.”

“Noninvasive ventilation (NIV)” refers to the administration of ventilatory support without using an invasive artificial airway (endotracheal tube or tracheostomy tube).

“Non-pharmacological intervention” refers to approaches to care that do not involve medications, generally directed towards stabilizing and/or improving a resident’s mental, physical, and psychosocial well-being.

“Non-physician practitioner (NPP)” is a nurse practitioner (NP), clinical nurse specialist (CNS), or physician assistant (PA).

“Nurse Aide” as defined in §483.5, is any individual providing nursing or nursing-related services to residents in a facility. This term may also include an individual who provides these services through an agency or under a contract with the facility, but is not a licensed health professional, a registered dietitian, or someone who volunteers to provide such services without pay. Nurse aides do not include those individuals who furnish services to residents only as paid feeding assistants as defined in §488.301.

“Nurse practitioner” is a registered professional nurse currently licensed to practice in the State and who meets one of the following conditions:

- 1) is currently certified as a primary care nurse practitioner by the American Nurses’ Association or by the National Board of Pediatric Nurse Practitioners and Associates; or
- 2) has satisfactorily completed a formal 1 academic year educational program that
 - a. prepares registered nurses to perform an expanded role in the delivery of primary care;
 - b. includes at least 4 months (in the aggregate) of classroom instruction and a component of supervised clinical practice; and
 - c. awards a degree, diploma or certificate to persons who successfully complete the program; or
- 3) has successfully completed a formal educational program (for preparing registered nurses to perform an expanded role in the delivery of primary care) that does not meet the requirements above and has been performing an expanded role in the delivery of primary care for a total of 12 months during the 18-month period immediately preceding September 22, 2006.

“Nutritional status” includes both nutrition and hydration status.

“Nutritional Supplements” refers to products that are used to complement a resident’s dietary needs (e.g., calorie or nutrient dense drinks, total parenteral products, enteral products, and meal replacement products).

“Objective” A statement describing the results to be achieved to meet the resident’s goals.

“Obstructive Sleep Apnea (OSA)” refers to apnea syndromes due primarily to collapse of the upper airway during sleep.

“Oral care” refers to the maintenance of a healthy mouth, which includes not only teeth, but the lips, gums, and supporting tissues. This involves not only activities such as brushing of teeth or oral appliances, but also maintenance of oral mucosa.

“Oxygen therapy” is the administration of oxygen at concentrations greater than that in ambient air (20.9%) with the intent of treating or preventing the symptoms and manifestations of hypoxia.

“Paid feeding assistant” is defined in the regulation at 42 CFR §488.301 as —an individual who meets the requirements specified at 42 CFR §483.60(h)(1)(i) and who is paid by the facility to feed residents, or who is used under an arrangement with another agency or organization.”

“Palliative care” means patient and family-centered care that optimizes quality of life by anticipating, preventing, and treating suffering. Palliative care throughout the continuum of illness involves addressing physical, intellectual, emotional, social, and spiritual needs and to facilitate patient autonomy, access to information, and choice. (§418.3)

“Part-time” employees typically work fewer hours in a day or during a work week than full-time employees. The U.S. Department of Labor, Bureau of Statistics uses a definition of 34 or fewer hours a week as part-time work. Part-time workers may also be those who only work during certain parts of the year.

“Passing standard edits” means that the encoded responses to MDS items are consistent and within range, in accordance with CMS-specified standards. In general, inconsistent responses are either not plausible or ignore a skip pattern on the MDS. An example of inconsistency would be if one or more MDS items on a list were checked as present, and the “None of the Above” response was also checked for the same list. Out of range responses are invalid responses, such as using a response code of 2 for an MDS item for which the valid responses are zero or 1.

“Passive ROM” means the movement of a joint through the range of motion with no effort from the patient.

“Patient Assessment Data” standardized, publicly available information derived from a post-acute care provider’s patient/resident assessment instrument, e.g., Minimum Data Set (MDS), Outcome and Assessment Information Set (OASIS).

“Periodically” means whenever changes are being introduced that will affect the resident’s liability and whenever there are changes in services.

“Person Centered Care” means to focus on the resident as the locus of control and support the resident in making their own choices and having control over their daily lives.

“Personal protective equipment (PPE)” protective items or garments worn to protect the body or clothing from hazards that can cause injury and to protect residents from cross-transmission.

“Persons with Related Conditions” is defined in 42 CFR 435.1010 as follows:

Persons with related conditions means individuals who have a severe, chronic disability that meets all of the following conditions:

- 1) It is attributable to—
 - a) Cerebral palsy or epilepsy; or
 - b) Any other condition, other than a mental illness, found to be closely related to Intellectual Disability because this condition results in impairment of general intellectual functioning or adaptive behavior similar to that of mentally retarded persons, and requires treatment or services similar to those required for these persons.
- 2) It is manifested before the person reaches age 22.
- 3) It is likely to continue indefinitely.
- 4) It results in substantial functional limitations in three or more of the following areas of major life activity:
 - c) Self-care.
 - d) Understanding and use of language.
 - e) Learning.
 - f) Mobility.

- g) Self-direction.
- h) Capacity for independent living.

“Pervasive” For the purposes of this guidance, pervasive means spread through or embedded within every part of something.

“Pharmaceutical Services” refers to The process (including documentation, as applicable) of receiving and interpreting prescriber’s orders; acquiring, receiving, storing, controlling, reconciling, compounding (e.g., intravenous antibiotics), dispensing, packaging, labeling, distributing, administering, monitoring responses to, using and/or disposing of all medications, biologicals, chemicals (e.g., povidone iodine, hydrogen peroxide); the provision of medication-related information to health care professionals and residents; the process of identifying, evaluating and addressing medication-related issues including the prevention and reporting of medication errors; and the provision, monitoring and/or the use of medication-related devices.

“Pharmacy assistant or technician” refers to the ancillary personnel who work under the supervision and delegation of the pharmacist, consistent with state requirements.

–Physical restraint” is defined as any manual method, physical or mechanical device, equipment, or material that meets all of the following criteria:

- Is attached or adjacent to the resident’s body;
- Cannot be removed easily by the resident; and
- Restricts the resident’s freedom of movement or normal access to his/her body.

–Removes easily” means that the manual method, physical or mechanical device, equipment, or material, can be removed intentionally by the resident in the same manner as it was applied by the staff.

“Physician assistant” is a person who meets the applicable State requirements governing the qualifications for assistants to primary care physicians, and who meets at least one of the following conditions: is currently certified by the National Commission on Certification of Physician Assistants to assist primary care physicians; or has satisfactorily completed a program for preparing physician’s assistants that:

- 1) was at least 1 academic year in length;
- 2) consisted of supervised clinical practice and at least 4 months (in the aggregate) of classroom instruction directed toward preparing students to deliver health care; and
- 3) was accredited by the American Medical Association’s Committee on Allied Health Education and Accreditation; or as satisfactorily completed a formal educational program (for preparing physician assistants) that does not meet the requirements above and has been assisting physicians for a total of 12 months during the 18-month period that ended on December 31, 1986.

“Physician Orders for Life-Sustaining Treatment (or POLST) paradigm form” is a form designed to improve patient care by creating a portable medical order form that records patients’ treatment wishes so that emergency personnel know what treatments the patient wants in the event of a medical emergency, taking the patient’s current medical condition into consideration. A POLST paradigm form is not an advance directive.

“Physician/practitioner” (physician assistant, nurse practitioner, clinical nurse specialist) means the individual who has responsibility for the medical care of a resident.

–Place readily accessible” is a place (such as a lobby or other area frequented by most residents, visitors or other individuals) where individuals wishing to examine survey results do not have to ask to see them.

“Plan Do Study Act (PDSA) Cycle” An iterative four-step improvement method used to quickly test change in a process, resulting in continuous improvement. Also known as a Deming cycle, rapid-cycle improvement, or Plan Do Check Act (PDCA) cycle.

“Position change alarms” are alerting devices intended to monitor a resident’s movement. The devices emit an audible signal when the resident moves in a certain way. Types of position change alarms include chair and bed sensor pads, bedside alarmed mats, alarms clipped to a resident’s clothing, seatbelt alarms, and infrared beam motion detectors.⁷ Position change alarms do not include alarms intended to monitor for unsafe wandering such as door or elevator alarms.

“Potentially Hazardous Food (PHF)” or **“Time/Temperature Control for Safety (TCS) Food”** means food that requires time/temperature control for safety to limit the growth of pathogens (i.e., bacterial or viral organisms capable of causing a disease or toxin formation).

“Preadmission Screening and Resident Review (PASARR)” is a federal requirement to help ensure that individuals who have a mental disorder or intellectual disabilities are not inappropriately placed in nursing homes for long term care. PASARR requires that 1) all applicants to a Medicaid-certified nursing facility be evaluated for a serious mental disorder and/or intellectual disability; 2) be offered the most appropriate setting for their needs (in the community, a nursing facility, or acute care setting); and 3) receive the services they need in those settings. Regulations governing PASARR are found at 42 CFR §§483.100-483.138.

“Precaution” a condition in a potential recipient that might increase the risk for a serious adverse reaction or that might compromise the vaccine’s induction of immunity. For example, as a result of the resident’s condition, complications could result, or a person might experience a more severe reaction to the vaccine than would have otherwise been expected. However, the risk for this happening is less than expected with medical contraindications.

“Pressure Ulcer/Injury (PU/PI)” refers to localized damage to the skin and/or underlying soft tissue usually over a bony prominence or related to a medical or other device. A pressure injury will present as intact skin and may be painful. A pressure ulcer will present as an open ulcer, the appearance of which will vary depending on the stage and may be painful. The injury occurs as a result of intense and/or prolonged pressure or pressure in combination with shear. The tolerance of soft tissue for pressure and shear may also be affected by skin temperature and moisture, nutrition, perfusion, co-morbidities and condition of the soft tissue.

“Prevailing rate” is the wage paid to the majority of workers in the community surrounding the facility for the same type, quality, and quantity of work requiring comparable skills.

“Problem-prone” Refers to care or service areas that have historically had repeated problems, e.g., call bell response times; staff turnover; lost laundry.

–Prompt efforts to resolve” include facility acknowledgment of a complaint/grievance and actively working toward resolution of that complaint/grievance.

“Promptly” [resident mail] means delivery of mail or other materials to the resident within 24 hours of delivery by the postal service (including a post office box) and delivery of outgoing mail to the postal service within 24 hours, except when there is no regularly scheduled postal delivery and pick-up service.

“Promptly” [dental services] means within 3 business days or less from the time the loss or damage to dentures is identified unless the facility can provide documentation of extenuating circumstances that resulted in the delay.

“Proper (safe and appetizing) temperature” means both appetizing to the resident and minimizing the risk for scalding and burns.

“Qualified dietitian” – is defined in §483.60 as follows: §483.60(a)(1) A qualified dietitian or other clinically qualified nutrition professional either full-time, part-time, or on a consultant basis. A qualified dietitian or other clinically qualified nutrition professional is one who—

- 1) Holds a bachelor’s or higher degree granted by a regionally accredited college or university in the United States (or an equivalent foreign degree) with completion of the academic requirements of a program in nutrition or dietetics accredited by an appropriate national accreditation organization recognized for this purpose.
- 2) Has completed at least 900 hours of supervised dietetics practice under the supervision of a registered dietitian or nutrition professional.
- 3) licensed or certified as a dietitian or nutrition professional by the State in which the services are performed. In a State that does not provide for licensure or certification, the individual will be deemed to have met this requirement if he or she is recognized as a “registered dietitian” by the Commission on Dietetic Registration or its successor organization, or meets the requirements of paragraphs (a)(1)(i) and (ii) of this section. (For dietitians hired or contracted with prior to November 28, 2016, meets these requirements no later than 5 years after November 28, 2016 or as required by state law.)

“Qualified Personnel” means a physical therapist, occupational therapist, respiratory therapist, speech-language pathologist, physician, nurse practitioner, clinical nurse specialist, or physician’s assistant, who is licensed or certified by the state to furnish therapy services. Qualified personnel may also include a physical therapist assistant (PTA), or an occupational therapy assistant (OTA) when furnishing services under the supervision of a qualified therapist.

“Qualified therapist” – professional staff, licensed, certified or registered to provide specialized therapy/rehabilitative services in accordance with State laws. Includes: Physical, Occupational, and Respiratory therapists and Speech-Language Pathologists.

“Quality Assurance and Performance Improvement (QAPI)” Nursing home QAPI is the coordinated application of two mutually-reinforcing aspects of a quality management system: Quality Assurance (QA) and Performance Improvement (PI). QAPI takes a systematic, interdisciplinary, comprehensive, and data-driven approach to maintaining and improving safety and quality in nursing homes while involving residents and families, and all nursing home caregivers in practical and creative problem solving.

“Quality Deficiency (or Opportunity for Improvement)” A deviation in performance resulting in an actual or potential undesirable outcome, or an opportunity for improvement. A quality deficiency is anything the facility considers to be in need of further investigation and correction or improvement. Examples include problems such as medical errors and accidents, as well as improvement opportunities such as responses to questionnaires showing decreased satisfaction. This term is not necessarily synonymous with a deficiency cited by surveyors, but may include issues related to deficiencies cited on annual or complaint surveys.

“Quality of Life” An individual’s sense of well-being, level of satisfaction with life and feeling of self-worth and self-esteem. For nursing home residents, this includes a basic sense of satisfaction with oneself, the environment, the care received, the accomplishments of desired goals, and control over one’s life.”

“Quarterly Review Assessment” is an OBRA §87-required, non-comprehensive assessment that must be completed at least every 92 days following the previous OBRA assessment of any type. It is used to track a resident’s status between comprehensive assessments to ensure critical indicators of gradual change in a resident’s status are monitored. As such, not all Minimum Data Set (MDS) items appear on the Quarterly assessment.

“Range of motion (ROM)” means the full movement potential of a joint.

“Reasonable access” means that telephones, computers and other communication devices are easily accessible to residents and are adapted to accommodate resident’s needs and abilities, such as hearing or vision loss.

“Reasonable accommodation of resident needs and preferences” means the facility’s efforts to individualize the resident’s physical environment.

“Reasonable clinical and safety restrictions” include a facility’s policies, procedures or practices that protect the health and security of all residents and staff. These may include, but are not be limited to:

- Restrictions placed to prevent community-associated infection or communicable disease transmission to the resident. A resident’s risk factors for infection (e.g., immunocompromised condition) or current health state (e.g., end-of-life care) should be considered when restricting visitors. In general, visitors with signs and symptoms of a transmissible infection (e.g., a visitor is febrile and exhibiting signs and symptoms of an influenza-like illness) should defer visitation until he or she is no longer potentially infectious (e.g., 24 hours after resolution of fever without antipyretic medication). If deferral cannot occur such as the case of end-of-life, the visitor should follow respiratory hygiene/cough etiquette as well as other infection prevention and control practices such as appropriate hand hygiene.
- Keeping the facility locked or secured at night with a system in place for allowing visitors approved by the resident;
- Denying access or providing limited and supervised access to an individual if that individual is suspected of abusing, exploiting, or coercing a resident until an investigation into the allegation has been completed or has been found to be abusing, exploiting, or coercing a resident;
- Denying access to individuals who have been found to have been committing criminal acts such as theft; or
- Denying access to individuals who are inebriated or disruptive.

“Reasonable effort” means assessing individual resident needs and preferences and demonstrating actions to meet those needs and preferences, including reviewing availability of procurement sources of such food items, identifying preparation methods and approaches, and determining whether purchasing and serving such items can occur.

“Recapitulation of Stay” A concise summary of the resident’s stay and course of treatment in the facility.

“Receiving medication”—for the purpose of this guidance—is the process that a facility uses to ensure that medications, accepted from the facility’s pharmacy or an outside source (e.g., vending pharmacy delivery agent, Veterans Administration, family member), are accurate (e.g., doses, amount).

“Recognized accrediting body” refers to those organizations that certify, register, or license therapeutic recreation specialists, activity professionals, or occupational therapists.

“Reconciliation of Medications” A process of comparing pre-discharge medications to post-discharge medications by creating an accurate list of both prescription and over the counter medications that includes the drug name, dosage, frequency, route, and indication for use for the purpose of preventing unintended changes or omissions at transition points in care.

“Reconciliation”—for the purpose of this guidance—refers to a system of recordkeeping that ensures an accurate inventory of medications by accounting for controlled medications that have been received, dispensed, administered, and/or, including the process of disposition.

“Records,” includes all records, in addition to clinical records, pertaining to the resident, such as trust fund ledgers pertinent to the resident and contracts between the resident and the facility.

–Refunds for previous payments” refers to refunds due as a result of Medicaid and Medicare payments when eligibility has been determined retroactively.

“(Regulated) Medical waste” liquid or semi-liquid blood or other potentially infectious materials; contaminated items that would release blood or other potentially infectious materials in a liquid or semi-liquid state if compressed; items that are caked with dried blood or other potentially infectious materials and are capable of releasing these materials during handling (e.g., blood-soaked bandages); contaminated sharps. **NOTE:** Authorities having jurisdiction may have more stringent regulations than OSHA.

“Removes easily” means that the manual method, physical or mechanical device, equipment, or material, can be removed intentionally by the resident in the same manner as it was applied by the staff.

“Reserve Bed Payment” Payments made by a State to the facility to hold a bed during a resident’s temporary absence from a nursing facility.

“Resident Assessment Instrument (RAI)” consists of three basic components: the Minimum Data Set (MDS) version 3.0, the Care Area Assessment (CAA) process and the RAI utilization guidelines. The utilization of these components of the RAI yields information about a resident’s functional status, strengths, weaknesses, and preferences, as well as offering guidance on further assessment once problems have been identified.

“Resident care policies” refers to the facility’s overall goals, directives, and governing statements that direct the delivery of care and services to residents consistent with current professional standards of practice.

“Resident representative” For purposes of this subpart, the term resident representative may mean any of the following:

1. An individual chosen by the resident to act on behalf of the resident in order to support the resident in decision-making; access medical, social or other personal information of the resident; manage financial matters; or receive notifications;
2. A person authorized by State or Federal law (including but not limited to agents under power of attorney, representative payees, and other fiduciaries) to act on behalf of the resident in order to support the resident in decision-making; access medical, social or other personal information of the resident; manage financial matters; or receive notifications; or
3. Legal representative, as used in section 712 of the Older Americans Act; or
4. The court-appointed guardian or conservator of a resident.

“Resident’s Goal” The resident’s desired outcomes and preferences for admission, which guide decision making during care planning.

“Resident-initiated transfer or discharge” Means the resident or, if appropriate, the resident representative has provided verbal or written notice of intent to leave the facility (leaving the facility does not include the general expression of a desire to return home or the elopement of residents with cognitive impairment).

“Respiratory Therapy Service” are-services that are provided by a qualified professional (respiratory therapists, respiratory nurse) for the assessment, treatment, and monitoring of residents with deficiencies or abnormalities of pulmonary function (See 483.65, Specialized Rehabilitative Services).

“Results of the most recent survey” means the Statement of Deficiencies (Form CMS-2567) and the Statement of Isolated Deficiencies generated by the most recent standard survey and any subsequent extended surveys, and any deficiencies resulting from any subsequent complaint investigation(s).

“Right to personal privacy” includes the resident’s right to meet or communicate with whomever they want without being watched or overheard. Private space may be created flexibly and need not be dedicated solely for visitation purposes.

“Risk” refers to any external factor, facility characteristic (e.g., staffing or physical environment) or characteristic of an individual resident that influences the likelihood of an accident.

“Routine dental services” means an annual inspection of the oral cavity for signs of disease, diagnosis of dental disease, dental radiographs as needed, dental cleaning, fillings (new and repairs), minor partial or full denture adjustments, smoothing of broken teeth, and limited prosthodontic procedures, e.g., taking impressions for dentures and fitting dentures.

“Sepsis” is the body’s overwhelming and life-threatening response to an infection which can lead to tissue damage, organ failure, and death.

“Serious bodily injury” means an injury involving extreme physical pain; involving substantial risk of death; involving protracted loss or impairment of the function of a bodily member, organ, or mental faculty; requiring medical intervention such as surgery, hospitalization, or physical rehabilitation; or an injury resulting from criminal sexual abuse (See section 2011(19)(A) of the Act).

~~“Sexual abuse,”~~ is defined at §483.5 as ~~non-consensual sexual contact of any type with a resident.”~~

“Significant Change in Status Assessment (SCSA)” is a comprehensive assessment that must be completed when the Interdisciplinary Team (IDT) has determined that a resident meets the significant change guidelines for either major improvement or decline.

“Significant Change” is a major decline or improvement in a resident’s status that 1) will not normally resolve itself without intervention by staff or by implementing standard disease-related clinical interventions; the decline is not considered ~~self-limiting~~ (NOTE: Self-limiting is when the condition will normally resolve itself without further intervention or by staff implementing standard clinical interventions to resolve the condition.); 2) impacts more than one area of the resident’s health status; and 3) requires interdisciplinary review and/or revision of the care plan. This does not change the facility’s requirement to immediately consult with a resident’s physician of changes as required under 42 CFR 483.10(i)(14), F580.

~~“Significant medication error”~~ means one which causes the resident discomfort or jeopardizes his or her health and safety. Criteria for judging significant medication errors as well as examples are provided below. Significance may be subjective or relative depending on the individual situation and duration, e.g., constipation that is unrelieved because an ordered laxative is omitted for one day, resulting in a medication error, may cause a resident slight discomfort or perhaps no discomfort at all. However, if this omission leads to constipation that persists for greater than three days, the medication error may be deemed significant since constipation that causes an obstruction or fecal impaction can directly jeopardize the resident’s health and safety.

“Specialized Services for MD or ID” means the services specified by the State that exceed the services ordinarily provided by the nursing facility (NF) under its per diem rate. These services must be provided or arranged by the state and could include hiring additional staff or contractors such as qualified mental health/intellectual disability professionals. When specialized services are combined with services provided by the nursing facility, the result is a continuous and aggressive implementation of an individualized plan of care for individuals with MD or ID. The resident’s Level II PASARR identifies the specialized services required by the resident.

“Speech, language or other functional communication systems” refers to the resident’s ability to effectively communicate requests, needs, opinions, and urgent problems; to express emotion, to listen to others and to participate in social conversation whether in speech, writing, gesture, behavior, or a combination of these (e.g., a communication board or electronic augmentative communication device).

“Standard Precautions” infection prevention practices that apply to all residents, regardless of suspected or confirmed diagnosis or presumed infection status. Standard precautions is based on the principle that all blood, body fluids, secretions, excretions except sweat, regardless of whether they contain visible blood, non-intact skin, and mucous membranes may contain transmissible infectious agents. Furthermore, equipment or items in the patient environment likely to have been contaminated with infectious body fluids must be handled in a manner to prevent transmission of infectious agents. Standard precautions include but are not limited to hand hygiene; use of gloves, gown, mask, eye protection, or face shield, depending on the anticipated exposure; safe injection practices, and respiratory

hygiene/cough etiquette. Also, equipment or items in the patient environment likely to have been contaminated with infectious body fluids must be handled in a manner to prevent transmission of infectious agents (e.g., wear gloves for direct contact, properly clean and disinfect or sterilize reusable equipment before use on another patient).

“Storage” refers to the retention of food (before and after preparation) and associated dry goods.

“Substance use disorder” is defined as recurrent use of alcohol and/or drugs that causes clinically and functionally significant impairment, such as health problems or disability (Adapted from: Substance Abuse and Mental Health Services Administration (SAMHSA) definition found at <http://www.samhsa.gov/disorders/substance-use>).

“Suitable and nourishing alternative meals and snacks” means that when an alternate meal or snack is provided, it is of similar nutritive value as the meal or snack offered at the normally scheduled time and consistent with the resident plan of care.

“Supervision/Adequate Supervision” refers to an intervention and means of mitigating the risk of an accident. Facilities are obligated to provide adequate supervision to prevent accidents. Adequate supervision is determined by assessing the appropriate level and number of staff required, the competency and training of the staff, and the frequency of supervision needed. This determination is based on the individual resident’s assessed needs and identified hazards in the resident environment. Adequate supervision may vary from resident to resident and from time to time for the same resident.

“Terminally ill” means that the individual has a medical prognosis that his or her life expectancy is 6 months or less if the illness runs its normal course. (§418.3)

“The Advisory Committee on Immunization Practices (ACIP)” a group of medical and public health experts that develops recommendations on how to use vaccines to control diseases in the United States. ACIP’s recommendations stand as public health advice that will lead to a reduction in the incidence of vaccine preventable diseases and an increase in the safe use of vaccines and related biological products. See <http://www.cdc.gov/vaccines/acip/index.html> for further information.

–Therapeutic Diet” means a diet ordered by a physician or delegated registered or licensed dietitian as part of treatment for a disease or clinical condition, or to eliminate or decrease specific nutrients in the diet, (e.g., sodium) or to increase specific nutrients in the diet (e.g., potassium), or to provide food the resident is able to eat (e.g., a mechanically altered diet).

“Therapeutic Leave” Absences for purposes other than required hospitalization.

“Timeliness” means that services are completed and results are provided within the timeframe(s) specified in accordance with facility policies and procedures, the medical orders, or professional standards of practice; and that facility staff notifies the resident’s physician, dentist, physician assistant, nurse practitioner or clinical nurse specialist as directed in the medical order.

“Total health status” includes functional status, nutritional status, rehabilitation and restorative potential, ability to participate in activities, cognitive status, oral health status, psychosocial status, and sensory and physical impairments.

“Tracheotomy or Tracheostomy” is an opening surgically created through the neck into the trachea (windpipe) to allow direct access to the breathing tube and is commonly done in an operating room under general anesthesia. A tube is usually placed through this opening to provide an airway and to remove secretions from the lungs. Breathing is done through the tracheostomy tube rather than through the nose and mouth. The term ~~“tracheotomy”~~ refers to the incision into the trachea (windpipe) that forms a temporary or permanent opening, which is called a ~~“tracheostomy,”~~ however the terms are sometimes used interchangeably.

“Transfer and Discharge” Includes movement of a resident to a bed outside of the certified facility whether that bed is in the same physical plant or not. Transfer and discharge does not refer to movement of a resident to a bed within the same certified facility. Specifically, transfer refers to the movement of a resident from a bed in one certified facility to a bed in another certified facility when the resident expects to return to the original facility. Discharge refers to the movement of a resident from a bed in one certified facility to a bed in another certified facility or other location in the community, when return to the original facility is not expected.

“Transfer” refers to resident’s ability to move between surfaces - to/from: bed, chair, wheelchair, and standing positions. (Excludes to/from bath/toilet.)

“Transgastric jejunal feeding tube” (~~“G tube”~~) is a feeding tube that is placed through the stomach into the jejunum and that has dual ports to access both the stomach and the small intestine.

“Transmission-based precautions” (a.k.a. **“Isolation Precautions”**): actions (precautions) implemented, in addition to standard precautions, that are based upon the means of transmission (airborne, contact, and droplet) in order to prevent or control infections. **NOTE:** Although the regulatory language refers to ~~“isolation,”~~ the nomenclature widely accepted and used in this guidance will refer to ~~“transmission-based precautions”~~ instead of ~~“isolation”~~.

“Transmitted” means electronically transmitting to the Quality Improvement Evaluation System (QIES) Assessment Submission and Processing (ASAP) System, an MDS record that passes CMS’ standard edits and is accepted into the system, within 14 days of the final completion date, or event date in the case of Entry and Death in Facility situations, of the record.

“Transmitting data” refers to electronically sending encoded MDS information, from the facility to the QIES ASAP System.

“Treatment” refers to medical care, nursing care, and interventions provided to maintain or restore health and well-being, improve functional level, or relieve symptoms.

“TTY (TeleTYpe) and TDD (Telecommunications Device for the Deaf)” are acronyms used interchangeably to refer to any type of text-based telecommunications equipment used by a person who does not have enough functional hearing to understand speech, even with amplification.

“Tube feeding” refers to the delivery of nutrients through a feeding tube directly into the stomach, duodenum, or jejunum. It is also referred to as an enteral feeding.

“Unavoidable Accident” means that an accident occurred despite sufficient and comprehensive facility systems designed and implemented to:

- Identify environmental hazards and individual resident risk of an accident, including the need for supervision; and
- Evaluate/analyze the hazards and risks and eliminate them, if possible and, if not possible, reduce

them as much as possible;

- Implement interventions, including adequate supervision, consistent with the resident's needs, goals, care plan, and current professional standards of practice in order to eliminate or reduce the risk of an accident; and
- Monitor the effectiveness of the interventions and modify the interventions as necessary, in accordance with current professional standards of practice.

“Urinary Incontinence” is the involuntary loss or leakage of urine.

“Urinary Retention” is the inability to completely empty the urinary bladder by micturition.

“Urinary Tract Infection (UTI)” is a clinically detectable condition associated with invasion by disease causing microorganisms of some part of the urinary tract, including the urethra (urethritis), bladder (cystitis), ureters (ureteritis), and/or kidney (pyelonephritis). An infection of the urethra or bladder is classified as a lower tract UTI and infection involving the ureter or kidney is classified as an upper tract UTI.

“Utilization Guidelines” provide instructions for when and how to use the RAI. The Utilization Guidelines are also known as the Long-Term Care Facility Resident Assessment Instrument 3.0 User's Manual.

“Vancomycin resistant enterococcus (VRE)” species of enterococcus which have developed resistance to the antibiotic, vancomycin.

“Ventilator Assisted Individual (VAI)” requires mechanical aid for breathing to augment or replace spontaneous ventilatory efforts to achieve medical stability or maintain life.

~~–Willful,~~ as defined at §483.5 and as used in the definition of ~~–abuse,~~ ~~–means~~ the individual must have acted deliberately, not that the individual must have intended to inflict injury or harm.”

~~–Nourishing snack”~~ means items from the basic food groups, either singly or in combination with each other.

“Performance Improvement (PI)” PI (also called Quality Improvement - QI) is the continuous study and improvement of processes with the intent to improve services or outcomes, and prevent or decrease the likelihood of problems, by identifying opportunities for improvement, and testing new approaches to fix underlying causes of persistent/systemic problems or barriers to improvement. PI in nursing homes aims to improve facility processes involved in care delivery and enhanced resident quality of life. PI can make good quality even better.

“Permanent employee” is defined as any employee the facility expects to continue working on an ongoing basis.

“Persons with related conditions means” individuals who have a severe, chronic disability that meets all of the following conditions:

“Quality Assurance (QA)” QA is the specification of standards for quality of care, service and outcomes, and systems throughout the facility for assuring that care is maintained at acceptable levels in relation to those standards. QA is on-going and both anticipatory and retrospective in its efforts to identify how the organization is performing, including where and why facility performance is at risk or has failed to meet standards.

Nursing Services Policy and Procedure Manual for Long-Term Care

UPDATE: 1st Period 2021

Product #: H50075

What information does this update contain?

This manual has been updated to reflect recent changes in regulatory and clinical guidelines. These regulatory and guideline changes include:

- 2021** Centers for Disease Control and Prevention. *COVID-19 Vaccination Information* (02-26-21).
- 2021** Centers for Disease Control and Prevention. *Long-Term Care Facility Toolkit: Preparing for COVID-19 Vaccination at Your Facility* (02-22-21).
- 2021** Centers for Disease Control and Prevention. *Interim Clinical Considerations for the Use of COVID-19 Vaccines Currently Authorized in the United States* (March 5, 2021).
- 2020** CMS QSO-21-02-NH – *Compliance with Residents' Rights Requirement Related to Nursing Home Residents' Right to Vote* (10-05-2020).

Note: All appendices have been removed from the printed manual and are now included on the accompanying Flash Drive only. See individual chapter folders in the Flash Drive Documents Folder for corresponding appendix documentation (e.g., sample documentation, guidelines, tools, etc.).

IMPORTANT – PLEASE READ

This update is provided **FREE** as part of your *Subscription Service*. There is **no additional charge** for this update. If the name of the person on the shipping label is no longer at your facility, please contact our customer service department and inform them of the name of the person to whom your update service should be directed. It is not necessary to return this update to us. If you need information about your Subscription Service, please contact our customer service department at 800-438-8884.

See Filing Instructions

Tips for Filing Updates

- After reviewing the content changes, record the date of adoption and initials on the *List of Revisions*.
- File this update as soon as possible to prevent loss of important information.
- Remove all pages that are **replaced** by this update and retain all removed information indefinitely. (See *Archiving Removed Pages*.)
- File updates in the order in which you receive them.
- Do not file updates out of sequential order.

Need assistance with this update or have questions about our subscription services?

Admission Criteria

Policy Statement

Our facility admits only residents whose medical and nursing care needs can be met.

Policy Interpretation and Implementation

1. The objectives of our admission criteria policy are to:
 - a. provide uniform criteria for admitting residents to the facility;
 - b. admit residents who can be cared for adequately by the facility;
 - c. address concerns of residents and families during the admission process;
 - d. review with the resident, and/or his/her representative, the facility's policies and procedures relating to resident rights, resident care, financial obligations, visiting hours, etc.; and
 - e. assure that the facility receives appropriate medical and financial records prior to or upon the resident's admission.
2. Residents (and potential residents) are not asked or required to:
 - a. waive their rights to Medicare or Medicaid benefits;
 - b. submit written assurance that they are not eligible for or will not apply for Medicare or Medicaid benefits;
 - c. waive facility liability for losses of personal property; or
 - d. provide a third party guarantee of payment as a condition of admission, expected admission or continued stay.
3. Resident representatives may be requested to or required to sign a contract or agreement that he or she will provide facility payment from the resident's income or resources as long as the representative:
 - a. has legal access to the resident's income or resources; and
 - b. is not incurring personal financial liability to the facility.
4. Prior to admission, the resident or representative is informed of any service limitations or special characteristics of the facility.
5. Prior to or at the time of admission, the resident's attending physician provides the facility with information needed for the immediate care of the resident, including orders covering at least:
 - a. type of diet (e.g., regular, mechanical, etc.);
 - b. medication orders, including (as necessary) a medical condition or problem associated with each medication; and
 - c. routine care orders to maintain or improve the resident's function until the physician and care planning team can conduct a comprehensive assessment and develop a more detailed interdisciplinary care plan.
6. Residents are admitted to this facility as long as their needs can be met adequately by the facility. Examples of conditions that can be treated adequately in this facility include:
 - a. diabetes;
 - b. COPD;
 - c. neuromuscular disorders;

continues on next page

- d. dementia;
 - e. _____;
 - f. _____; and
 - g. _____.
7. Examples of nursing/medical needs that can be met adequately include:
- a. medication management;
 - b. limited mobility;
 - c. post-operative care needs;
 - d. incontinence;
 - e. catheterization (urinary or intravenous);
 - f. enteral nutrition;
 - g. _____;
 - h. _____; and
 - i. _____.
8. The acceptance of residents with certain conditions or needs may require authorization or approval by the medical director, director of nursing services, and/or the administrator.
9. All new admissions and readmissions are screened for mental disorders (MD), intellectual disabilities (ID) or related disorders (RD) per the Medicaid Pre-Admission Screening and Resident Review (PASARR) process.
- a. The facility conducts a Level I PASARR screen for all potential admissions, regardless of payer source, to determine if the individual meets the criteria for a MD, ID or RD.
 - b. If the level I screen indicates that the individual may meet the criteria for a MD, ID, or RD, he or she is referred to the state PASARR representative for the Level II (evaluation and determination) screening process.
 - (1) The admitting nurse notifies the social services department when a resident is identified as having a possible (or evident) MD, ID or RD.
 - (2) The social worker is responsible for making referrals to the appropriate state-designated authority.
 - c. Upon completion of the Level II evaluation, the state PASARR representative determines if the individual has a physical or mental condition, what specialized or rehabilitative services he or she needs, and whether placement in the facility is appropriate.
 - d. The state PASARR representative provides a copy of the report to the facility.
 - e. The interdisciplinary team determines whether the facility is capable of meeting the needs and services of the potential resident that are outlined in the evaluation.
 - f. Once a decision is made, the state PASARR representative, the potential resident and his or her representative are notified.
10. The preadmission screening program requirements do not apply to residents who, after being admitted to the facility, were transferred to a hospital.
11. The state may choose not to apply the preadmission screening requirement if:
- a. the individual is admitted directly to the facility from a hospital where he or she received acute inpatient care;
 - b. the individual requires facility services for the condition for which he or she received care in the hospital; and
 - c. the attending physician has certified (prior to admission) that the individual will likely need less than 30 days of care at the facility.

continues on next page

12. Our admission policies apply to all residents admitted to the facility regardless of race, color, creed, national origin, age, sex, religion, handicap, ancestry, marital or veteran status, and/or payment source.
13. The administrator, through the admissions department, ensures that the resident and the facility follow applicable admission policies.

Admission Notes

Policy Statement

Preliminary resident information shall be documented upon a resident's admission to the facility.

Policy Interpretation and Implementation

1. When a resident is admitted to the nursing unit, the admitting nurse must document the following information (as each may apply) in the nurses' notes, admission form, or other appropriate place, as designated by facility protocol:
 - a. The date and time of the resident's admission;
 - b. The resident's age, sex, race, and marital status;
 - c. From where the resident was admitted (i.e., hospital, home, other facility);
 - d. Reason for the admission;
 - e. The admitting diagnosis;
 - f. The general condition of the resident upon admission;
 - g. The time the attending physician was notified of the resident's admission;
 - h. The time the physician's orders were received and verified;
 - i. Description of any lab work completed or the time specimens were sent to the lab;
 - j. The presence of a catheter, dressings, etc.;
 - k. The time the dietary department was notified of the diet order;
 - l. The time medications were ordered from the pharmacy;
 - m. A brief description of any disabilities (i.e., blind, deaf, hemiplegia, speech impairment, paralysis, mobility, etc.);
 - n. Any known allergies;
 - o. Prosthesis required (i.e., glasses, dentures, hearing aid, artificial limbs, eye, etc.);
 - p. The height and weight of the resident;
 - q. A statement indicating that the nursing history and preliminary assessment is completed or has been started;
 - r. Notation of any signs or symptoms of an infectious or communicable disease;
 - s. Notation as to whether or not advance directives apply; and
 - t. The signature and title of the person recording the data.
2. This initial information-gathering precedes the complete history and physical assessment that also accompanies the resident admission process.

continues on next page

3. The nurses' original admission note must remain on the resident's chart maintained at the nurses' station.
4. Should a resident be discharged from and readmitted to the facility, new admission data must be recorded.

Admission of Residents with Communicable Disease

Policy Statement

Admission to this facility depends upon our ability to provide appropriate medical and nursing care. This includes situations where a resident has a known communicable disease or infection.

Policy Interpretation and Implementation

1. Prior to or upon admission, the infection preventionist, or designee, will assess the following infection risks for each admission:
 - a. *M. tuberculosis* (TB) infection, by purified protein derivative (PPD) test or recent chest x-ray;
 - b. Immunization status, by history;
 - c. During the period of October 1 through March 31, current status of influenza immunization, by history;
 - d. Evidence of continuing active infection or clinically significant colonization by multidrug-resistant organism by history and review of hospital discharge summaries;
 - e. Clinical evidence of a current infection; and
 - f. Evidence of pediculosis or scabies, by direct observation.
2. The infection preventionist or designee will request an infection control transfer form from the sending facility prior to the resident's transfer. This form should provide information on the resident's infection status, isolation precautions, signs and symptoms of infection(s), antibiotic usage, and influenza/pneumococcal immunization status.
3. The infection preventionist or designee will maintain a log of residents with current evidence of infection or colonization due to multidrug-resistant organisms, including methicillin-resistant *Staphylococcus aureus*, vancomycin-resistant *enterococci* and *Clostridium difficile* (MRSA/VRE/*C. difficile*). When considering room assignments the log will be checked to prevent placing a resident with MDRO infection or colonization with a resident at risk of infection.
4. A resident who is transferred to an acute care facility with infection due to a multidrug-resistant organism should be reviewed prior to return for details of the status of any such infection and clarification of any possible infection control risks that the situation presents.
5. A resident admitted with colonization or infection due to a multidrug-resistant organism may be placed in a private room, or cohorted with another resident of the same sex who is colonized with a similar organism. A colonized resident also may be cohorted or placed with a non-colonized resident who is not immunocompromised, if no other bed is available.
6. Our facility will not deny admission to someone just because they have infection with the human immunodeficiency virus (HIV), or are HIV antibody positive.
7. Placement of individuals with other potentially infectious conditions such as herpes zoster or scabies will be made based on appropriate clinical evaluation by the attending physician and/or medical director of the status of the infection and risk for its dissemination.
8. The facility will not admit individuals with active tuberculosis or acid-fast bacillus (AFB) positive sputum until they have been treated elsewhere for long enough to no longer be considered contagious.

continues on next page

9. Persons found upon admission evaluation to have a positive PPD reaction or a suspicious chest X-ray will be evaluated promptly to determine whether they might have active TB, in which case they will either not be admitted, will be moved to a section of the facility where appropriate isolation can occur (if available), or will be discharged promptly to a facility where they can be isolated or treated appropriately for active TB.
10. Admissions requiring infection control restrictions will be placed on appropriate isolation precautions based on this facility's policies governing isolation precautions.

Admission Orientation

Policy Statement

Nursing services will be responsible for providing newly admitted residents/family members with an orientation to our facility, its programs and services.

Policy Interpretation and Implementation

1. Prior to or upon admission, the resident and/or his or her representative (sponsor) will be provided with a facility tour and an orientation of our facility’s policies, programs, and services. Such orientation includes, but is not limited to, a review of our facility policies and procedures governing:
 - a. resident rights and responsibilities;
 - b. financial agreements and services (e.g., resident funds);
 - c. general safety and smoking;
 - d. resident assessments and care plans;
 - e. facility services and programming (e.g., dietary, activity, restorative services); and
 - f. others as necessary or appropriate.
2. Residents with limited English proficiency shall be provided with orientation information in a language that is understandable to him/her, in accordance with the facility’s language access program.
3. A written record of such orientation is maintained and a copy is filed in the resident’s medical/clinical record.
4. Should the resident be declared medically incapable of understanding his or her rights, the resident’s representative (sponsor) will be required to attend the orientation program.
5. Each newly admitted resident will be accompanied to his or her room by a staff member of the nursing services department. The resident will be introduced to his or her roommate and other staff members by the person escorting the resident to his or her room.
6. The resident will also be oriented to his or her surroundings (room and facility).
7. Inquiries concerning the residents’ orientation program should be referred to the director of nursing services.

Admission, Emergency

Policy Statement

Emergency admissions will be permitted should such measures be necessary to meet the immediate medical and nursing needs of the resident.

Policy Interpretation and Implementation

1. The medical director, director of nursing services, and/or the administrator may permit emergency admissions (including weekend admissions) when it has been deemed appropriate or necessary to meet the emergency medical/nursing needs of the resident.
2. A physician's order for the immediate care and treatment of the resident must be provided to the facility prior to or upon admission of the resident to the facility.
3. Should orders for the immediate care and treatment of the resident not be available, the medical director or emergency care physician may issue temporary orders until the resident's attending physician can be contacted for issuance of orders for the care of the resident.
4. Complete admission data must be provided to the facility within forty-eight (48) hours of the resident's admission. Failure to do so may result in immediate discharge of the resident.
5. Residents admitted under emergency conditions may be placed in isolation until complete medical reports relative to infectious diseases have been obtained.
6. Residents may not be admitted under emergency conditions until a behavior screening has been conducted to ensure the resident is not a danger to him/herself or to other residents/staff.

Version	1.1 (H5MAPL0243)

Advance Directives

Policy Statement

Advance directives will be respected in accordance with state law and facility policy.

Policy Interpretation and Implementation

1. Upon admission, the resident will be provided with written information concerning the right to refuse or accept medical or surgical treatment and to formulate an advance directive if he or she chooses to do so.
2. Written information will include a description of the facility's policies to implement advance directives and applicable state law.
3. If the resident is incapacitated and unable to receive information about his or her right to formulate an advance directive, the information may be provided to the resident's legal representative.
4. If the resident becomes able to receive and understand this information later, he or she will be provided with the same written materials as described above, even if his or her legal representative has already been given the information.
5. Each resident will also be informed that the facility's policies do not condition the provision of care or discriminate against an individual based on whether or not the individual has executed an advance directive.
6. Prior to or upon admission of a resident, the social services director or designee will inquire of the resident, his/her family members and/or his or her legal representative, about the existence of any written advance directives.
7. Information about whether or not the resident has executed an advance directive shall be displayed prominently in the medical record.
8. If the resident indicates that he or she has not established advance directives, the facility staff will offer assistance in establishing advance directives.
 - a. The resident will be given the option to accept or decline the assistance, and care will not be contingent on either decision.
 - b. Nursing staff will document in the medical record the offer to assist and the resident's decision to accept or decline assistance.
9. The attending physician will provide information to the resident and legal representative regarding the resident's health status, treatment options and expected outcomes during the development of the initial comprehensive assessment and care plan.
10. The plan of care for each resident will be consistent with his or her documented treatment preferences and/or advance directive.
11. The resident has the right to refuse treatment, whether or not he or she has an advance directive. A resident will not be treated against his or her own wishes. Residents who refuse treatment will not be transferred to another facility unless all other criteria for transfer are met.
12. Depending on state requirements, the legal representative may also have the right to refuse or forego treatment.

continues on next page

13. If the resident or representative refuses treatment, the facility and care providers will:
 - a. reassess the resident for significant change of condition related to the refusal;
 - b. determine the decision-making capacity of the resident and invoke the decisions of the legal representative if appropriate to the situation;
 - c. document specifically what the resident/representative is refusing;
 - d. assess and document the stated reason for the refusal;
 - e. advise the resident of the consequences and/or potential outcomes of refusal;
 - f. offer pertinent alternative treatments; and
 - g. modify the care plan as appropriate, providing all other appropriate services (i.e., those that will allow him or her to maintain the highest practicable physical, mental and psychosocial well-being).
14. The resident's attending physician will clarify and present any relevant medical issues and decisions to the resident or legal representative as the resident's condition changes in an effort to clarify and adhere to the resident's wishes.
15. In accordance with current OBRA definitions and guidelines governing advance directives, our facility has defined advanced directives as preferences regarding treatment options and include, but are not limited to:
 - a. **Advance Directive** — a written instruction, such as a living will or durable power of attorney for health care, recognized by state law, relating to the provisions of health care when the individual is incapacitated.
 - b. **Living Will** — a document that specifies a resident's preferences about measures that are used to prolong life when there is a terminal prognosis.
 - c. **Durable Power of Attorney for Health Care** (i.e., Medical Power of Attorney) — a document delegating authority to a legal representative to make health care decisions in case the individual delegating that authority subsequently becomes incapacitated.
 - d. **Legal Representative** (i.e., substitute decision-maker, proxy, agent) — a person designated and authorized by an advance directive or state law to make treatment decisions for another person in the event the other person becomes unable to make necessary health care decisions.
 - e. **Do Not Resuscitate** — indicates that, in case of respiratory or cardiac failure, the resident, legal guardian, health care proxy, or representative (sponsor) has directed that no cardiopulmonary resuscitation (CPR) or other life-sustaining treatments or methods are to be used.
 - f. **Do Not Hospitalize** — indicates that the resident is not to be hospitalized, even if he or she has a medical condition that would usually require hospitalization.
 - g. **Organ Donation** — indicates that the resident wishes his or her organs to be available for transplantation upon his or her death.
 - h. **Life-Sustaining Treatment** — treatment that, based on reasonable medical judgment, sustains an individual's life and without it the individual will die. This includes medications and interventions that are considered life-sustaining, but not those that are considered palliative or comfort measures.
 - i. **Feeding Restrictions** — indicates that the resident, legal guardian, health care proxy, or representative (sponsor) does not wish for the resident to be fed by artificial means (e.g., tube; intravenous nutrition, etc.) if he or she is not able to be nourished by oral means.
 - j. **Medication Restrictions** — indicates that the resident, legal guardian, health care proxy, or representative (sponsor) does not wish for the resident to receive life-sustaining medications (e.g., antibiotics, chemotherapy, etc.).
 - k. **Other Treatment Restrictions** — indicates that the resident, legal guardian, health care proxy, or representative (sponsor) does not wish for the resident to receive certain medical treatments. Examples include, but are not restricted to, blood transfusions, tracheotomy, respiratory intubation, etc.

continues on next page

16. If advance directive documents were developed in another state, the resident must have such documents reviewed and revised (as necessary) by his/her legal counsel in this state before the facility may honor such directives.
17. The interdisciplinary team will conduct ongoing review of the resident's decision-making capacity and communicate significant changes to the resident's legal representative. Such changes will be documented in the care plan and medical record.
18. The interdisciplinary team will review annually with the resident his or her advance directives to ensure that such directives are still the wishes of the resident. Such reviews will be made during the annual assessment process and recorded on the resident assessment instrument (MDS).
19. Changes or revocations of a directive must be submitted in writing to the administrator. The administrator may require new documents if changes are extensive. The care plan team will be informed of such changes and/or revocations so that appropriate changes can be made in the resident assessment (MDS) and care plan.
20. The director of nursing services or designee will notify the attending physician of advance directives so that appropriate orders can be documented in the resident's medical record and plan of care. The attending physician will not be required to write orders for which he or she has an ethical or conscientious objection.
21. The nurse supervisor will be required to inform emergency medical personnel of a resident's advance directive regarding treatment options and provide such personnel with a copy of such directive when transfer from the facility via ambulance or other means is made.
22. The staff development coordinator will be responsible for scheduling advance directive training classes for newly hired staff members as well as scheduling annual advance directive in-service training programs to ensure that our staff remains informed about the residents' rights to formulate advance directives and facility policy governing such rights.
23. Inquiries from the community relative to advance directives must be referred to the staff development coordinator. Written information will be provided and will include, as a minimum, a summary of the state law outlining the rights of residents to formulate advance directives and a copy of the facility's policies governing advance directives.
24. Inquiries concerning advance directives should be referred to the administrator, director of nursing services, and/or to the social services director.

Bed-Holds and Returns

Policy Statement

Prior to transfers and therapeutic leaves, residents or resident representatives will be informed in writing of the bed-hold and return policy.

Policy Interpretation and Implementation

1. Residents may return to and resume residence in the facility after hospitalization or therapeutic leave as outlined in this policy.
2. The current bed-hold and return policy established by the state (if applicable) will apply to Medicaid residents in the facility.
3. Prior to a transfer, written information will be given to the residents and the resident representatives that explains in detail:
 - a. the rights and limitations of the resident regarding bed-holds;
 - b. the reserve bed payment policy as indicated by the state plan (Medicaid residents);
 - c. the facility per diem rate required to hold a bed (non-Medicaid residents), or to hold a bed beyond the state bed-hold period (Medicaid residents); and
 - d. the details of the transfer (per the notice of transfer).
4. Medicaid residents who exceed the state's bed hold limit and/or non-Medicaid residents who request a bed-hold are responsible for the facility's basic per diem rate while his or her bed is held.
5. If a Medicaid resident exceeds the state bed-hold period, he or she will be permitted to return to the facility, to his or her previous room (if available) or immediately upon the first availability of a bed in a semi-private room provided that the resident:
 - a. requires the services of the facility; and
 - b. is eligible for Medicare skilled nursing services or Medicaid nursing services.
6. If the resident is transferred with the expectation that he or she will return, but it is determined that the resident cannot return, that resident will be formally discharged.
7. The resident will be permitted to return to an available bed in the location of the facility that he or she previously resided. If there is not an available bed in that part, the resident will be given the option to take an available bed in another distinct part of the facility and return to the previous distinct part when a bed becomes available.

Discharge Medications

Policy Statement

Unless otherwise specified by facility policy, or contrary to current law or regulation, medications shall be sent with the resident upon discharge. Controlled substances may not be released to the resident upon discharge.

Policy Interpretation and Implementation

1. A physician must be contacted for an order to discharge a resident with medications before they will be dispensed.
2. The charge nurse shall verify that the medications are labeled consistent with current physician orders including instructions for use.
3. Controlled substances shall not be released upon discharge of the resident unless permitted by current state law governing the release of controlled substances and as authorized (in writing) by the resident's attending physician.
4. The nurse will reconcile pre-discharge medications with the resident's post-discharge medications. The medication reconciliation will be documented.
5. The nurse shall review medication instructions with the resident, family member or representative before the resident leaves the facility.
6. The nurse shall complete the medication disposition record, including:
 - a. the resident's name;
 - b. the name of the person who will be assisting or administering the medication after discharge;
 - c. the date of discharge;
 - d. the name of each medication;
 - e. the prescription (Rx) number of each medication;
 - f. the quantity or amount of each medication;
 - g. the strength of each medication;
 - h. any special instructions;
 - i. telephone numbers for the physician, pharmacy and facility;
 - j. the signature of the person receiving the medications; and
 - k. the signature of the nurse releasing the medications.
7. The nursing staff shall forward completed drug disposition records to medical records. The complete list of the resident's medications shall also be provided to the resident upon discharge.

Discharge Summary and Plan

Policy Statement

When a resident's discharge is anticipated, a discharge summary and post-discharge plan will be developed to assist the resident to adjust to his/her new living environment.

Policy Interpretation and Implementation

1. When the facility anticipates a resident's discharge to a private residence, another nursing care facility (i.e., skilled, intermediate care, ICF/IID, etc.), a discharge summary and a post-discharge plan will be developed which will assist the resident to adjust to his or her new living environment.
2. The **discharge summary** will include a recapitulation of the resident's stay at this facility and a final summary of the resident's status at the time of the discharge in accordance with established regulations governing release of resident information and as permitted by the resident. The discharge summary shall include a description of the resident's:
 - a. current diagnosis;
 - b. medical history (including any history of mental disorders and intellectual disabilities);
 - c. course of illness, treatment and/or therapy since entering the facility;
 - d. current laboratory, radiology, consultation, and diagnostic test results;
 - e. physical and mental functional status;
 - f. ability to perform activities of daily living including:
 - (1) bathing, dressing and grooming, transferring and ambulating, toilet use, eating, and using speech, language, and other communication systems;
 - (2) the need for staff assistance and assistive devices or equipment to maintain or improve functional abilities; and
 - (3) the ability to form relationships, make decisions including health care decisions, and participate (to the extent physically able) in the day-to-day activities of the facility.
 - g. sensory and physical impairments (neurological, or muscular deficits; for example, a decrease in vision and hearing, paralysis, and bladder incontinence);
 - h. nutritional status and requirements:
 - (1) weight and height;
 - (2) nutritional intake; and
 - (3) eating habits, preferences and dietary restrictions.
 - i. special treatments or procedures (treatments and procedures that are not part of basic services provided);
 - j. mental and psychosocial status (ability to deal with life, interpersonal relationships and goals, make health care decisions, and indicators of resident behavior and mood);
 - k. discharge potential (the expectation of discharging the resident from the facility within the next three months);
 - l. dental condition (the condition of the teeth, gums, and other structures of the oral cavity that may affect a resident's nutritional status, communications abilities, quality of life, and the need for and use of dentures or other dental appliances);

continues on next page

- m. activities potential (the ability and desire to take part in activity pursuits which maintain or improve physical, mental, and psychosocial well-being);
 - n. rehabilitation potential (the ability to improve independence in functional status through restorative care programs);
 - o. cognitive status (the ability to problem solve, decide, remember, and be aware of and respond to safety hazards); and
 - p. medication therapy (all prescription and over-the-counter medications taken by the resident including dosage, frequency of administration, and recognition of significant side effects that would be most likely to occur in the resident).
3. As part of the discharge summary, the nurse will reconcile all pre-discharge medication with the resident's post-discharge medications. The medication reconciliation will be documented.
 4. Every resident will be evaluated for his or her discharge needs and will have an individualized post-discharge plan.
 5. The **post-discharge plan** will be developed by the care planning/interdisciplinary team with the assistance of the resident and his or her family and will include:
 - a. where the individual plans to reside;
 - b. arrangements that have been made for follow-up care and services;
 - c. a description of the resident's stated discharge goals;
 - d. the degree of caregiver/support person availability, capacity and capability to perform required care;
 - e. how the IDT will support the resident or representative in the transition to post-discharge care;
 - f. what factors may make the resident vulnerable to preventable readmission; and
 - g. how those factors will be addressed.
 6. The discharge plan will be re-evaluated based on changes in the resident's condition or needs prior to discharge.
 7. The resident/representative will be involved in the post-discharge planning process and informed of the final post-discharge plan.
 8. Residents will be asked about their interest in returning to the community. If the resident indicates an interest in returning to the community, he or she will be referred to local agencies and support services that can assist in accommodating the resident's post-discharge preferences.
 9. If it is determined that returning to the community is not feasible, it will be documented why this is the case and who made the determination.
 10. Residents transferring to another skilled nursing facility or who are discharged to a home health agency, long-term care hospital or inpatient rehabilitation facility will be assisted in selecting a post-acute care provider that is relevant and applicable to the resident's goals of care and treatment preferences. Data used in helping the resident select an appropriate facility includes the receiving facility's:
 - a. standardized patient assessment data;
 - b. quality measure data; and
 - c. data on resource use.
 11. The resident or representative (sponsor) should provide the facility with a minimum of a seventy-two (72) hour notice of a discharge to assure that an adequate discharge evaluation and post-discharge plan can be developed.
 12. A member of the IDT will review the final post-discharge plan with the resident and family at least twenty-four (24) hours before the discharge is to take place.

continues on next page

13. A copy of the following will be provided to the resident and receiving facility and a copy will be filed in the resident’s medical records:
- a. An evaluation of the resident’s discharge needs;
 - b. The post-discharge plan; and
 - c. The discharge summary.

Discharging a Resident to the Mortuary

Policy Statement

Our facility releases the body of a deceased resident to the mortuary identified on the resident's record of admission.

Policy Interpretation and Implementation

1. When it becomes necessary to discharge a resident to the mortuary, the following procedures will be implemented:
 - a. The resident must be declared legally dead in accordance with state law (either direct or indirect pronouncement by a licensed physician).
 - b. All information pertaining to the death must be recorded on the nurses' notes (i.e., date, time of death, etc.).
 - c. The attending physician must complete and file a death certificate with the appropriate agency within twenty-four (24) hours of the resident's death.
 - d. The charge nurse must notify the resident's representative (sponsor) of the resident's death.
 - e. Nursing services will be responsible for cleaning and preparing the body for removal.
 - f. The charge nurse or the resident's representative (sponsor) will notify the undertaker to pick up the body. (Note: The charge nurse must inform the undertaker of any isolation precautions and the type of precautions the resident was on, if applicable.)
 - g. The name of the funeral home and the name of the person removing the body must be entered in the resident's chart.
 - h. The person picking up the body must sign the release for the body, and the release must be placed in the resident's chart.
 - i. All records must be completed and forwarded to medical records office within twenty-four (24) hours of the discharge.
 - j. Policies governing post-mortem procedures are outlined in the nursing service procedure manual located at each nurses' station.
2. Nursing services will be responsible for preparing the resident's personal effects for the family to pick up.

Discharging a Resident without a Physician’s Approval

Policy Statement

A physician’s order should be obtained for all discharges, unless a resident or representative is discharging himself or herself against medical advice.

Policy Interpretation and Implementation

1. Should a resident, or his or her representative (sponsor), request an immediate discharge, the resident’s attending physician will be promptly notified.
2. The order for an approved discharge must be signed and dated by a physician and recorded in the resident’s medical record no later than seventy-two (72) hours after the discharge.
3. If the resident or representative (sponsor) insists upon being discharged without the approval of the attending physician, the resident and/or representative (sponsor) must sign a release of responsibility form. Should either party refuse to sign the release, such refusal must be documented in the resident’s medical record and witnessed by two staff members.
4. Should a resident and/or representative (sponsor) request a discharge from the facility during the time the resident is on isolation (transmission-based) precautions, the charge nurse must notify the director of nursing services and the resident’s attending physician of the discharge request.
5. The director of nursing services, or charge nurse, shall inform the resident, and/or representative (sponsor) of the potential hazards involved in the early discharge of the resident and shall request that the resident remain in the facility until such time as the isolation/precautionary period has ended.

Medications Brought to the Facility by the Resident/Family

Policy Statement

The facility shall ordinarily not permit residents and families to bring medications into the facility.

Policy Interpretation and Implementation

1. Residents and families must report to the nursing staff any medications that they want to bring, or have brought into the facility.
2. The facility discourages the use of medications brought in from outside, and will inform residents and families of that policy as well as applicable laws and regulations.
3. If a medication is not otherwise available and/or it is determined to be essential to the resident's life, health, safety, or well-being to be able to take a medication brought in from outside, the director of nursing services and nursing staff, with support of the attending physician and consultant pharmacist, shall check to ensure that:
 - a. state law and regulations allow such use;
 - b. the medications have been ordered by the resident's attending physician, and documented on the physician's order sheet;
 - c. the contents of each container are labeled in accordance with established policies; and
 - d. the contents of each container have been verified by a licensed pharmacist.
4. Non-prescription medications in sealed containers and/or medications received directly from a transferring facility may be administered without further verification, if approved for use as stated above.
5. Medications brought into the facility that are not approved for the resident's use shall be returned to the family. If the family does not pick up those medications within thirty (30) days, the facility may destroy them in accordance with established policies.

Personal Property

Policy Statement

Residents are permitted to retain and use personal possessions and appropriate clothing, as space permits.

Policy Interpretation and Implementation

1. Each resident's room is equipped with private closet space that includes clothes racks and shelving and that permits easy access to the resident's clothing.
2. The resident is encouraged to maintain his/her room in a home-like environment by bringing personal items (i.e., photographs, knickknacks, etc.) to place on nightstands, televisions, etc.
3. The resident is permitted to bring room furnishings if:
 - a. the room is large enough to accommodate the furniture;
 - b. the furniture does not infringe upon the rights of others; and
 - c. the furniture does not violate current life safety code requirements.
4. A representative of the admitting office will advise the resident, prior to or upon admission, as to the types and amount of personal clothing and possessions that the resident may keep in his or her room.
5. The resident's personal belongings and clothing shall be inventoried and documented upon admission and as such items are replenished.
6. The facility will promptly investigate any complaints of misappropriation or mistreatment of resident property.

Transfer or Discharge Documentation

Policy Statement

When a resident is transferred or discharged, details of the transfer or discharge will be documented in the medical record and appropriate information will be communicated to the receiving health care facility or provider.

Policy Interpretation and Implementation

1. Each resident will be permitted to remain in the facility, and not be transferred or discharged unless—
 - a. the transfer or discharge is necessary for the resident’s welfare and the resident’s needs cannot be met in this facility;
 - b. the transfer or discharge is appropriate because the resident’s health has improved sufficiently so the resident no longer needs the services provided by this facility;
 - c. the safety of individuals in the facility is endangered due to the clinical or behavioral status of the resident;
 - d. the health of individuals in the facility would otherwise be endangered;
 - e. the resident has failed, after reasonable and appropriate notice, to pay for (or to have paid under Medicare or Medicaid) a stay at this facility.
 - (1) Nonpayment applies if the resident does not submit the necessary paperwork for third party payment or after the third party, including Medicare or Medicaid, denies the claim and the resident refuses to pay for his or her stay.
 - (2) For a resident who becomes eligible for Medicaid after admission to a facility, the facility will charge a resident only allowable charges under Medicaid; or
 - f. This facility ceases to operate.
2. If a resident exercises his or her right to appeal a transfer or discharge notice he or she will not be transferred or discharged while the appeal is pending, unless the failure to discharge or transfer would endanger the health or safety of the resident or other individuals in the facility.
3. If the resident is transferred or discharged despite his or her pending appeal, the danger that failure to transfer or discharge would pose will be documented.
4. When a resident is transferred or discharged from the facility, the following information will be documented in the **medical record**:
 - a. The basis for the transfer or discharge;
 - (1) If the resident is being transferred or discharged because his or her needs cannot be met at the facility, documentation will include:
 - (a) the specific resident needs that cannot be met;
 - (b) this facility’s attempt to meet those needs; and
 - (c) the receiving facility’s service(s) that are available to meet those needs.
 - b. That an appropriate notice was provided to the resident and/or legal representative;
 - c. The date and time of the transfer or discharge;
 - d. The new location of the resident;
 - e. The mode of transportation;
 - f. A summary of the resident’s overall medical, physical, and mental condition;

continues on next page

- g. Disposition of personal effects;
 - h. Disposition of medications;
 - i. Others as appropriate or as necessary; and
 - j. The signature of the person recording the data in the medical record.
5. Should the resident be transferred or discharged for any of the following reasons, the basis for the transfer or discharge will be documented in the resident’s clinical record by the resident’s **attending physician**:
 - a. The transfer or discharge is necessary for the resident’s welfare, and the resident’s needs cannot be met in the facility; or
 - b. The transfer or discharge is appropriate because the resident’s health has improved sufficiently so the resident no longer needs the services provided by the facility.
 6. Should the resident be transferred or discharged for any of the following reasons, the basis for the transfer or discharge will be documented in the resident’s clinical record by a **physician**:
 - a. The safety of individuals in the facility is endangered due to the clinical or behavioral status of the resident; or
 - b. The health of individuals in the facility would otherwise be endangered.
 7. Should a resident be transferred or discharged for any reason, the following information will be communicated to the **receiving facility or provider**:
 - a. The basis for the transfer or discharge;
 - (1) If the resident is being transferred or discharged because his or her needs cannot be met at the facility, documentation will include:
 - (a) the specific resident needs that cannot be met;
 - (b) this facility’s attempt to meet those needs; and
 - (c) the receiving facility’s service(s) that are available to meet those needs.
 - b. Contact information of the practitioner responsible for the care of the resident;
 - c. Resident representative information including contact information;
 - d. Advance directive information;
 - e. All special instructions or precautions for ongoing care, as appropriate;
 - f. Comprehensive care plan goals; and
 - g. All other necessary information, including a copy of the residents discharge summary, and any other documentation, as applicable, to ensure a safe and effective transition of care.

Transfer or Discharge, Emergency

Policy Statement

Emergency transfers or discharges may be necessary to protect the health and/or well-being of the resident(s).

Policy Interpretation and Implementation

1. Residents will not be transferred unless:
 - a. the transfer or discharge is necessary for the resident's welfare and the resident's needs cannot be met in the facility;
 - b. the transfer or discharge is appropriate because the resident's health has improved sufficiently so the resident no longer needs the services provided by the facility;
 - c. the safety of individuals in the facility is endangered due to the clinical or behavioral status of the resident;
 - d. the health of individuals in the facility would otherwise be endangered;
 - e. the resident has failed, after reasonable and appropriate notice, to pay for (or to have paid under Medicare or Medicaid) a stay at the facility. Nonpayment applies:
 - (1) if the resident does not submit the necessary paperwork for third party payment; or
 - (2) after the third party, including Medicare or Medicaid, denies the claim and the resident refuses to pay for his or her stay; or
 - f. the facility ceases to operate.
2. If a resident exercises his or her right to appeal a transfer or discharge notice he or she will not be transferred or discharged while the appeal is pending, unless the failure to discharge or transfer would endanger the health or safety of the resident or other individuals in the facility.
3. If the resident is transferred or discharged despite his or her pending appeal, the danger that failure to transfer or discharge would pose will be documented.
4. Should it become necessary to make an emergency transfer or discharge to a hospital or other related institution, our facility will implement the following procedures:
 - a. Notify the resident's attending physician;
 - b. Notify the receiving facility that the transfer is being made;
 - c. Prepare the resident for transfer;
 - d. Prepare a transfer form to send with the resident;
 - e. Notify the representative (sponsor) or other family member;
 - f. Assist in obtaining transportation; and
 - g. Others as appropriate or as necessary.
5. Should it become necessary to transfer residents during emergency or disaster situations, transfer procedures outlined in our disaster plan will be implemented.
6. The resident's medical record must be forwarded to the medical records office within twenty-four (24) hours of the transfer or discharge.

Transfer or Discharge Notice

Policy Statement

Our facility shall provide a resident and/or the resident's representative (sponsor) with a thirty (30)-day written notice of an impending transfer or discharge.

Policy Interpretation and Implementation

1. A resident, and/or his or her representative (sponsor), will be given a thirty (30)-day advance notice of an impending transfer or discharge from our facility.
2. Under the following circumstances, the notice will be given as soon as it is practicable but before the transfer or discharge:
 - a. The transfer is necessary for the resident's welfare and the resident's needs cannot be met in the facility;
 - b. The transfer or discharge is appropriate because the resident's health has improved sufficiently so the resident no longer needs the services provided by the facility;
 - c. The safety of individuals in the facility is endangered;
 - d. The health of individuals in the facility would otherwise be endangered;
 - e. The resident has failed, after reasonable and appropriate notice, to pay for (or to have paid under Medicare or Medicaid) a stay at the facility;
 - f. An immediate transfer or discharge is required by the resident's urgent medical needs;
 - g. The resident has not resided in the facility for thirty (30) days; and/or
 - h. The facility ceases to operate.
3. The resident and/or representative (sponsor) will be notified in writing of the following information:
 - a. The reason for the transfer or discharge;
 - b. The effective date of the transfer or discharge;
 - c. The location to which the resident is being transferred or discharged;
 - d. A statement of the resident's rights to appeal the transfer or discharge, including:
 - (1) the name, address, email and telephone number of the entity which receives such requests;
 - (2) information about how to obtain, complete and submit an appeal form; and
 - (3) how to get assistance completing the appeal process;
 - e. The facility bed-hold policy;
 - f. The name, address, and telephone number of the Office of the State Long-term Care Ombudsman;
 - g. The name, address, email and telephone number of the agency responsible for the protection and advocacy of residents with intellectual and developmental (or related) disabilities (as applies);
 - h. The name, address, email and telephone number of the agency responsible for the protection and advocacy of residents with a mental disorder or related disabilities (as applies); and
 - i. The name, address, and telephone number of the state health department agency that has been designated to handle appeals of transfers and discharge notices.
4. A copy of the notice will be sent to the Office of the State Long-Term Care Ombudsman.
5. The reasons for the transfer or discharge will be documented in the resident's medical record.

continues on next page

6. If the information in the notice changes prior to the transfer or discharge, the recipients of the notice will be updated as soon as practicable.
7. If the facility will be closing, the administrator will provide written notices to the residents and the residents' representatives of the impending closure at least sixty (60) days prior to the date of closure.
8. If the facility will be closing, the administrator will provide the following information to the Office of the State Long-Term Care Ombudsman prior to the impending closure:
 - a. Notification of the impending facility closure; and
 - b. The plan for the transfer and adequate relocation of the residents.
9. Once written notification of impending closure is submitted to residents and responsible parties, the facility will cease to admit any new residents.
10. At the time of notification, the facility will provide each resident and responsible party with the following information:
 - a. The plan for the transfer and adequate relocation of the resident;
 - b. The date by which the transfer/relocation will be completed; and
 - c. Assurances that the resident will be transferred to the most appropriate facility or setting to meet his or her needs in terms of quality, service and location.
11. In determining the transfer location for a resident, the decision to transfer to a particular location will be determined by the needs, choices and best interests of that resident.
12. If the facility's Medicare and Medicaid provider agreement is terminated by the state or by CMS, the state will determine the appropriate date for notification and arrange for the transfer of Medicare/Medicaid residents.

Transfer or Discharge, Preparing a Resident for

Policy Statement

Residents will be prepared in advance for discharge.

Policy Interpretation and Implementation

1. When a resident is scheduled for transfer or discharge, the business office will notify nursing services of the transfer or discharge so that appropriate procedures can be implemented.
2. A post-discharge plan is developed for each resident prior to his or her transfer or discharge. This plan will be reviewed with the resident, and/or his or her family, at least twenty-four (24) hours before the resident's discharge or transfer from the facility.
3. Nursing services is responsible for:
 - a. obtaining orders for discharge or transfer, as well as the recommended discharge services and equipment;
 - b. preparing the discharge summary and post-discharge plan;
 - c. preparing the medications to be discharged with the resident (as permitted by law);
 - d. providing the resident or representative (sponsor) with required documents (i.e., discharge summary and plan);
 - e. packing and collecting personal possessions (if the resident is not expected to return);
 - f. assisting with transportation as applicable (i.e., calling for an ambulance);
 - g. escorting the resident to transportation;
 - h. completing discharge note in the medical record;
 - i. forwarding charge slips to the business office;
 - j. directing the resident or representative (sponsor) to the business office prior to the transfer or discharge; and
 - k. forwarding completed records to the business office.
4. The business office is responsible for:
 - a. informing appropriate departments of the resident's transfer or discharge;
 - b. informing the resident, or his or her representative (sponsor) of our facility's readmission appeal rights, bed-holding policies, etc.; and
 - c. others as appropriate or as necessary.

Admission Assessment and Follow Up: Role of the Nurse Level III

Purpose

The purpose of this procedure is to gather information about the resident's physical, emotional, cognitive, and psychosocial condition upon admission for the purposes of managing the resident, initiating the care plan, and completing required assessment instruments, including the MDS.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure.

1. Wheelchair or stretcher, as needed;
2. Admission Kit, per facility policy;
3. Thermometer;
4. Blood pressure cuff and sphygmomanometer;
5. Stethoscope;
6. Pen/pencil and paper;
7. Relevant assessment forms; and
8. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Knock and gain permission before entering the room.
2. Greet the resident by his or her name.
3. Introduce yourself. Let the resident know that you will be performing one or more examinations.
4. Should the resident be admitted by stretcher, immediately assist the resident into bed. Obtain assistance as necessary.
5. If the resident is admitted by wheelchair, position him/her as he/she desires.
6. Make the resident as comfortable as possible.
7. Conduct an admission assessment (history and physical), including:
 - a. A summary of the individual's recent medical history, including hospitalizations, acute illnesses, and overall status prior to admission.
 - b. Relevant medical, social, and family history.
 - c. A list of active medical diagnoses and patient problems (such as recurrent falling or impaired mobility), especially those most related to reasons for admission to the facility and those that are affecting function, behavior, cognition, nutrition, hydration, quality of life, likelihood of functional recovery, and ability to participate in activities and to socialize.
 - d. Current medications and treatments.
8. Conduct a physical assessment, including the following systems:
 - a. Eyes, Ears, Nose, Throat;
 - b. Head and Neck;
 - c. Teeth and Gums;
 - d. Cardiovascular;
 - e. Respiratory;
 - f. Neurological;

continues on next page

- g. Musculoskeletal;
 - h. Gastrointestinal;
 - i. Genitourinary; and
 - j. Skin.
9. Conduct supplemental assessments (following facility forms and protocol) including:
 - a. Activity level;
 - b. Pain assessment;
 - c. Fall risk assessment;
 - d. Neurological assessment;
 - e. Skin assessment;
 - f. Functional assessment – ability to perform ADLs; and
 - g. Behavioral assessment.
 10. Determine if the resident has existing advance directives. If so, initiate the process of obtaining a copy for the medical record. If not, provide the resident with information on his/her rights to have advance directives and initiate the process of establishing them.
 11. Reconcile the list of medications from the medication history, admitting orders, the previous MAR (if available), and the discharge summary from the previous institution, according to established procedures.
 12. Contact the Attending Physician to communicate and review the findings of the initial assessment and any other pertinent information and obtain admission orders that are based on these findings.
 13. Notify other disciplines and departments of the resident's admission, including:
 - a. Dietary;
 - b. Housekeeping;
 - c. Activities;
 - d. Social Services; and
 - e. Pastoral Care.
 14. Contact outside services, such as laboratory or diagnostic services, as necessary.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the assessment was performed.
2. The name and title of the individual(s) who performed the procedure.
3. All relevant assessment data obtained during the procedure.
4. How the resident tolerated the assessment.
5. Orders obtained from the physician.
6. The signature and title of the person recording the data.

continues on next page

Reporting

1. Notify the supervisor and the Attending Physician of immediate needs that the resident may have.
2. Notify the supervisor if the resident refuses the procedure.
3. Report other information in accordance with facility policy and professional standards of practice.

Admitting the Resident: Role of the Nursing Assistant

Level III

Purpose

The purposes of this procedure are to assist the resident to his/her room and to help alleviate concerns and answer questions that the resident and family may have.

Preparation

To prepare the room for a new admission you should:

1. Ensure that the bed has been prepared (made) with clean linen.
2. Ensure that a bedspread, blanket, and pillow are on the bed.
3. Ensure that the closet, bedside table, drawers, etc., are clean and ready to store the resident's personal effects.
4. Place the resident's name on the room entrance door, bed, and closet.
5. Ensure that an Admission Kit is placed in the room, as applicable per facility policy.
6. Check the call light to ensure that it is working properly.
7. Check to be sure that the bed and/or reading light is working properly.
8. Check to be sure that the heating/air conditioning is working properly.
9. Report any equipment, supply, maintenance, or housekeeping needs to your supervisor.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure.

1. Wheelchair or stretcher, as needed;
2. Admission Kit, per facility policy;
3. Thermometer;
4. Blood pressure cuff and sphygmomanometer;
5. Stethoscope;
6. Pen/pencil and paper;
7. *Inventory of Personal Effects Record*;
8. Soap and water;
9. Laundry marker; and
10. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Greet the resident by his or her name.
2. Introduce yourself. Let the resident know that you will be assisting him or her to his or her room.
3. Should the resident be admitted by stretcher, immediately assist the resident into bed. Position the bed as permitted. Obtain assistance as necessary.
4. If the resident is admitted by wheelchair, position him/her as he/she desires.
5. If the resident will be sharing a room, knock, and gain permission before entering the room. Introduce the resident to his or her roommate.
6. Make the resident as comfortable as possible.

continues on next page

7. Demonstrate the use of the nurses' call signal. Place the call light within easy reach of the resident.
8. Measure and record the resident's temperature, pulse, respiration, blood pressure, weight, and height.
9. Observe the general condition of the resident (i.e., rashes, burns, bruises, sores, etc.), as well as his or her reaction to the admission.
10. Greet the resident's family and friends if they accompanied the resident.
11. Write the resident's name on appropriate articles (i.e., water pitcher, cup, urinal, denture cup, etc.).
12. Unless otherwise instructed, fill the water pitcher with ice and water. Place on the bedside table.
13. Store the bedpan, urinal, basin, etc., in their designated areas.

Inventorying the Resident's Personal Effects

To inventory the resident's personal effects, you should:

1. Ask family member(s) to remain in the room to witness the inventory.
2. Tell the resident that you are going to inventory his or her personal effects.
3. Complete the resident identification portion of the inventory record (i.e., name, room number, date of admission, etc.).
4. Inventory all clothing, equipment, valuables, etc. Record:
 - a. The quantity of each item;
 - b. The description of each item; and
 - c. Other identifying factors as necessary or appropriate.
5. When all personal items have been inventoried and recorded on the *Inventory of Personal Effects Record*, sign your name and title and instruct the family member that witnessed the inventory to also sign the form.
6. Provide the resident and/or family member with a copy of the completed and signed inventory record. (Note: The original copy of the inventory record must be provided to the supervisor.)
7. Using the indelible ink marker, mark each item of clothing with the resident's first and last name.
8. Place laundry marks on the inside of the resident's clothing (i.e., collar, tail of shirts or robes, etc., and on the waistband of trousers, underwear, etc.).
9. All laundry marks must be legible and neatly placed in the resident's clothing.
10. Store marked clothing in their designated areas (i.e., hang in the closet, put in dresser drawer, etc.).
11. Using the indelible ink marker, mark each item of equipment with the resident's first and last name.
12. Store equipment in appropriate areas (i.e., bedside table, bathroom, etc.).
13. Inform the family that any additional items brought to or removed from the facility must be reported to the supervisor so that the inventory record can be kept current.
14. Give the original copy of the *Inventory of Personal Effects Record* to the nurse supervisor.
15. If the resident wishes the facility to store his or her valuables for safe keeping, give the envelope containing the valuables to your supervisor.

Orientation

Upon completion of the admission process and inventorying the resident's personal effects, it is important that the resident be oriented to the facility and room equipment. The caregiver should:

1. Demonstrate how the call signal at the bedside works.
2. Demonstrate how the bed or reading light works.
3. Show the resident his or her bathroom facilities.
4. Demonstrate how the bathroom call signal works.
5. Show the resident where the lobbies, dayrooms, and activity rooms are located.
6. Show the resident where his or her nurses' station is located.

continues on next page

7. Show the resident his or her dining area.
8. Inform the resident of the times that meals are served.
9. Even though the resident may be unable to leave his or her room, it is still important that you orient the resident to everything in his or her room. Tell the resident about other areas of the facility, including activity and social service programs.

Documentation

The following information should be recorded in the resident’s medical record:

1. The date and time the procedure was performed.
2. The name and title of the individual(s) who performed the procedure.
3. Any observations made during the procedure (e.g., bruises, rashes, sores, etc.).
4. The resident’s vital signs.
5. The resident’s height and weight.
6. How the resident tolerated the procedure.
7. If the resident refused the procedure, the reason(s) why and the intervention taken.
8. Whether or not the resident has retained any valuables on his or her possession.
9. That you provided the resident and/or family with a copy of the signed and completed inventory record.
10. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor and the attending physician of any wounds that the resident may have that may need to be treated.
2. Notify the supervisor if the resident refuses the procedure.
3. Report other information in accordance with facility policy and professional standards of practice.

Discharging the Resident

Level III

Purpose

The purpose of this procedure is to provide guidelines for the discharge process.

Preparation

1. The resident should be consulted about the discharge.
2. Discharges can be frightening to the resident. Approach the discharge in a positive manner.
3. Reassure the resident that all his or her personal effects will be taken to his or her place of residence.
4. If discharging the resident to another long-term care facility tell the resident:
 - a. Where the new facility is located.
 - b. How large the facility is, what services it offers, what it looks like, etc. (if known).
 - c. Any information you can about the facility. (Note: If you don't know, ask the supervisor about this information.)
 - d. Who will be providing the resident's care (i.e., nurses, assistants, therapists, etc.).
 - e. That his or her family and visitors will be informed of the discharge and where the resident will be living.
 - f. Why the discharge is necessary (i.e., closer to home, relatives, etc.). (Note: If this information is not known, ask the supervisor about this information.)
5. If the resident is being discharged home, ensure that resident and/or responsible party receive teaching and discharge instructions.
6. If the resident is being discharged to a hospital or another facility, ensure that a transfer summary is completed and telephone report is called to the receiving facility.
7. Assess and document resident's condition at discharge, including skin assessment, if medical condition allows.
8. All ambulatory residents being discharged must be transported to the pickup area by wheelchair.
9. Assemble the equipment and supplies necessary to discharge the resident.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure.

1. Stretcher or wheelchair;
2. Cart;
3. Soap and water;
4. Other equipment, as needed; and
5. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

continues on next page

Steps in the Procedure

1. Place the clean equipment on the bedside stand. Arrange the supplies so they can be easily reached.
2. Wash and dry your hands thoroughly.

Discharging the resident to home or another long-term care facility:

1. If visitors are present, tell them you are preparing the resident for discharge and to please wait outside until the bath has been completed unless resident allows visitors to remain in the room.
2. Be careful in packing the resident's personal effects. Encourage the resident to assist you in arranging the order of packing. (Note: Visitors may assist you in packing and transporting the resident's personal effects to the pickup area.) Review the personal effects inventory with the resident or responsible party and have them sign off that they have received all personal effects.
3. Collect the resident's personal effects. Put them on the cart for transporting to the pickup area. Place cart where it will be out of the way until the resident is transported to the pickup area.
4. When the resident's transportation has arrived, assist the resident into the wheelchair. If the resident is in bed, close the cubicle curtain while the resident is getting out of the bed. Open the cubicle curtain when the resident is dressed or in the wheelchair.
5. Transport the resident to the pickup area. (Note: Allow the resident stops along the way to say goodbye to other residents and staff.)
6. Assist the resident into the automobile. Make the resident as comfortable as possible.
7. Assist the family in loading the resident's personal effects.
8. Say goodbye to the resident and family.
9. Return the wheelchair to the section from which it was taken. Wipe the wheelchair with a disinfectant. Store in designated area.
10. Wash and dry your hands thoroughly.

Discharging the resident to the hospital:

1. Follow steps 1-2 above.
2. Pull the cubicle curtain around the bed.
3. If the resident's medical condition permits, bathe the resident. If not, put a clean gown or pajamas on the resident.
4. Make the resident as comfortable as possible.
5. Return the cubicle curtain to the open position.
6. Wash and dry your hands thoroughly.
7. Tell visitors that they may return to the room.
8. As soon as the resident's transportation arrives, ask visitors to step outside unless resident allows visitors to remain in the room.
9. Close the room door. Assist the resident onto the stretcher or into the wheelchair. Cover with sheet or blanket as necessary.
10. Open the room entrance door. Escort the resident to the pickup area.
11. Assist in the loading procedures as necessary.
12. If a wheelchair was used in transporting the resident to the pickup area, return it to the section from which it was taken. Wipe the wheelchair with a disinfectant. Store in designated area.
13. Wash and dry your hands thoroughly.

continues on next page

Discharging the resident to the mortuary:

1. Follow steps 1-2 above.
2. Ask family members or visitors to please wait outside until the procedure is completed.
3. Pull the cubicle curtain around the bed. Close the room entrance door.
4. Perform post-mortem procedures.
5. Wash and dry your hands thoroughly.
6. Return the cubicle curtain to the open position only if it is a private room.
7. Tell the family or visitors that they may enter the room. Keep the room door closed. (Note: If family members or visitors are not present, stay with the deceased resident until the resident has been discharged to the mortuary.)
8. As soon as the hearse arrives, ask visitors to step outside.
9. Close the room door. Assist placing the resident onto the stretcher if requested. Cover the resident with a sheet or blanket.
10. Open the room entrance door. Escort the resident to the pickup area.
11. Assist in the loading procedures as necessary.
12. Return to your assigned section.
13. Wash and dry your hands thoroughly.
14. Return to the resident's room.
15. Knock before entering the resident's room, if applicable.
16. Strip and clean the discharged resident's bed.
17. Make the unoccupied bed.
18. Discard soiled linen in the soiled linen hamper.
19. Remove all unnecessary supplies and equipment. Store in designated area or return to supply area for cleaning and disinfection.
20. Discard all disposable items into designated containers.
21. Wash and dry your hands thoroughly.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the discharge was made.
2. The name and title of the individual(s) who assisted in the discharge.
3. All assessment data obtained during the procedure, if applicable.
4. How the resident tolerated the procedure, if applicable.
5. If the resident refused the discharge, the reason(s) why and the intervention taken.
6. The signature and title of the person recording the data.

continues on next page

Reporting

1. Notify the supervisor if the resident refuses the discharge.
2. Report other information in accordance with facility policy and professional standards of practice.

Reconciliation of Medications on Admission

Level III

Purpose

The purpose of this procedure is to ensure medication safety by accurately accounting for the resident's medications, routes and dosages upon admission or readmission to the facility.

Preparation

1. Gather the information needed to reconcile the medication list:
 - a. Approved medication reconciliation form;
 - b. Discharge summary from referring facility;
 - c. Admission order sheet;
 - d. All prescription and supplement information obtained from the resident/family during the medication history; and
 - e. Most recent medication administration record (MAR), if this is a readmission.
2. Find a quiet place that is free from distractions.

General Guidelines

1. Medication reconciliation is the process of comparing pre-discharge medications to post-discharge medications by creating an accurate list of both prescription and over the counter medications that includes the drug name, dosage, frequency, route, and indication for use for the purpose of preventing unintended changes or omissions at transition points in care.
2. Medication reconciliation reduces medication errors and enhances resident safety by ensuring that the medications the resident needs and has been taking continue to be administered without interruption, in the correct dosages and routes, during the admission/transfer process.
3. Medication reconciliation helps to ensure that all medications, routes and dosages on the list are appropriate for the resident and his/her condition, and do not interact in a negative way with other medications/supplements on the list.
4. Medication reconciliation helps to ensure that medications, routes and dosages have been accurately communicated to the Attending Physician and care team.

Steps in the Procedure

1. If a medication history has not been obtained from the resident or family, complete this first. Information from the medication history should include:
 - a. Prescription medications, including those taken only as needed;
 - b. Non-prescription/over-the-counter medications, including those taken only as needed;
 - c. Herbal or dietary supplements, including vitamins and minerals;
 - d. Patches, eye drops, creams, inhalers, shots, sample medications;
 - e. Dose, route, frequency and last dose taken for all items; and
 - f. Reason(s) for taking each medication/supplement.
2. Ask the resident to list all physicians and pharmacies from which he or she has obtained medications.
3. Using an approved medication reconciliation form or other record, list all medications from the medication history, the discharge summary, the previous MAR (if applicable), and the admitting orders ("sources").

continues on next page

4. List the dose, route and frequency for all medications.
5. Review the list carefully to determine if there are discrepancies/conflicts. For example:
 - a. The dosage on the discharge summary does not match the dosage from the resident’s previous MAR;
 - b. There is a potential medication interaction between a medication from the admitting orders and a supplement from the resident’s medication history; or
 - c. There is a medication listed on the discharge summary for which there is no diagnosis or condition to support the use of the medication.
6. If there is a discrepancy or conflict in medications, dose, route or frequency, determine the most appropriate action to resolve the discrepancy. For example:
 - a. Contact the nurse from the referring facility;
 - b. Contact the physician from the referring facility;
 - c. Discuss with the resident or family;
 - d. Contact the resident’s primary physician in the community;
 - e. Contact the resident’s secondary physician(s) in the community;
 - f. Contact the community pharmacy used by the resident; or
 - g. Contact the admitting and/or Attending Physician.
7. Document findings and actions (see *Documentation* below).
8. When a resident is transferred to another facility, or within the organization, the reconciled medication list will be sent to the receiving care provider and the communication will be documented.

Documentation

1. Document the medication discrepancy on the medication reconciliation form.
2. Document what actions were taken by the nurse to resolve the discrepancy.
3. If the discrepancy was unresolved, document how the discrepancy was communicated to the charge nurse, physician, pharmacy, and/or next shift.
4. If the discrepancy was resolved, document how the discrepancy was resolved.

Transfer, Room to Room

Level I

Purpose

The purpose of this procedure is to provide guidelines for safely transferring residents from one room to another when such transfer has been approved in accordance with facility policies.

Preparation

1. Orient the resident to the transfer in a form and manner that the resident can understand. Provide the resident with information about:
 - a. Where the room is located.
 - b. Who the resident's new roommate, if any, will be.
 - c. Who will be providing the resident's care.
 - d. That his or her family and visitors will be informed of the room change.
 - e. Why the transfer is taking place.
2. Reassure the resident that all his or her personal effects will be brought to his or her new room.
3. Assemble the necessary equipment and supplies for making the room change.
4. Ensure that the new room is ready for receiving the resident.
5. If possible, take the resident to see his or her new room before the actual move is made.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure.

1. Stretcher or resident's bed (for bedfast residents);
2. Wheelchair (for non-ambulatory residents);
3. Walker (as necessary);
4. Soap and water;
5. Cart; and
6. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Wash and dry your hands thoroughly.
2. Inform the resident that you are going to move him or her to his or her new room.
3. Collect the resident's personal effects. Put them on the cart for transporting to the new room.
4. If the resident is in bed, close the cubicle curtain while the resident is getting out of the bed. Assist as necessary.
5. Open the cubicle curtain when the resident is dressed or in the wheelchair.
6. Transport the resident to his or her new room. Follow safety precautions while transporting the resident.
7. If there is a roommate, knock before entering the room.
8. Introduce the resident to his or her new roommate.
9. Put the resident to bed or leave him or her up, whichever the resident desires.
10. If the resident wishes to be put to bed, close the cubicle curtain while the resident is getting into bed. Assist as necessary.
11. Reposition the bed covers. Make the resident comfortable.

continues on next page

12. Place the call light within easy reach of the resident.
13. If the resident desires, return the door and curtains to an open position and if visitors are waiting, tell them they may now enter the room.
14. Introduce the resident to his or her new attendants.
15. Store the resident's personal effects. Ask the resident how he or she would like them arranged.
16. Wash and dry your hands thoroughly.
17. Make your report to the supervisor on the new unit.
18. Return to your assigned area. Strip and clean the bed.
19. Discard soiled linen in designated containers.
20. Remove all unnecessary and soiled equipment. Store in designated areas or take to central supply for cleaning and disinfection.
21. Wash and dry your hands thoroughly.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the room transfer was made.
2. The name and title of the individual(s) who assisted in the move.
3. All assessment data obtained during the move.
4. How the resident tolerated the move.
5. If the resident refused the move, the reason(s) why and the intervention taken.
6. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the move.
2. Report other information in accordance with facility policy and professional standards of practice.

Assessment and Recognition

1. The physician will help identify individuals with a significant risk for having acute changes of condition during their stay; for example, an individual with an indwelling urinary catheter who has had recurrent symptomatic urinary tract infections, or someone with unstable vital signs or recurrent pneumonia.
2. In addition, the nurse shall assess and document/report the following baseline information:
 - a. Vital signs;
 - b. Neurological status;
 - c. Current level of pain, and any recent changes in pain level;
 - d. Level of consciousness;
 - e. Cognitive and emotional status;
 - f. Resident's age and sex;
 - g. Onset, duration, severity;
 - h. Recent labs;
 - i. History of psychiatric disturbances, mental illness, depression, etc.;
 - j. All active diagnoses; and
 - k. All current medications.
3. Direct care staff, including nursing assistants will be trained in recognizing subtle but significant changes in the resident (for example, a decrease in food intake, increased agitation, changes in skin color or condition) and how to communicate these changes to the Nurse.
4. Nursing assistants are encouraged to use the Stop and Watch Early Warning Tool to communicate subtle changes in the resident to the nurse.
5. The physician and nursing staff will review the details of any recent hospitalization and will identify complications and problems that occurred during the hospital stay that may indicate instability or the risk of having additional complications; for example, acute bronchitis or gastrointestinal bleeding in someone with advanced COPD who is receiving corticosteroids after a prolonged, complicated, recent hospitalization.
6. The physician will help identify medications and medication combinations that are associated with adverse consequences that could cause significant changes in condition.
7. Before contacting a physician about someone with an acute change of condition, the nursing staff will collect pertinent details to report to the physician; for example, the history of present illness and previous and recent test results for comparison.
 - a. Phone calls to attending or on-call physicians should be made by an adequately prepared nurse who has collected and organized pertinent information, including the resident/patient's current symptoms and status.
8. The nursing staff will contact the physician based on the urgency of the situation. For emergencies, they will call or page the physician and request a prompt response (within approximately one-half hour or less).

continues on next page

9. The attending physician (or a practitioner providing backup coverage) will respond in a timely manner to notification of problems or changes in condition and status.
 - a. The nursing staff will contact the medical director for additional guidance and consultation if they do not receive a timely or appropriate response.
10. The nurse and physician will discuss and evaluate the situation.
 - a. The physician should request information to clarify the situation; for example, vital signs, physical findings, a detailed sequence of events and description of symptoms.

Cause Identification

1. The staff and physician will discuss possible causes of the condition change based on factors including resident/patient history, current symptoms, medication regimen, and diagnostic test results.
 - a. If necessary, the physician will order diagnostic tests and evaluate the patient directly.
2. As needed, the physician will discuss with the staff and resident/patient and/or family the pros and cons of diagnosing and managing the situation in the facility or the need for hospitalization.
 - a. Many acute changes of condition can be managed effectively in nursing facilities with outcomes that are comparable to those of hospitalization.
 - b. This discussion should consider the patient's overall condition, prognosis, and wishes (either direct or as conveyed by a substitute decision-maker).

Treatment/Management

1. The physician will help identify and authorize appropriate treatments.
2. The physician and staff will identify relevant resident/patient wishes, including advance directives and POLST orders related to life-sustaining treatments.
3. If it is decided, after sufficient review, that care or observation cannot reasonably be provided in the facility, the physician will authorize transfer to an acute hospital, Emergency Room, or another appropriate setting.

Monitoring and Follow-Up

1. The staff will monitor and document the resident/patient's progress and responses to treatment, and the physician will adjust treatment accordingly.
2. The physician will help the staff monitor a resident/patient with a recent acute change of condition until the problem or condition has resolved or stabilized.
3. At the next visit, the physician will review the status of the condition change and document his/her evaluation, including the anticipated impact on the individual's function, prognosis, and quality of life.
 - a. The physician will make interim visits as needed to assess the situation (especially if the individual is not stable or is not improving as anticipated).

Prevention and Screening – Clinical Protocol

Assessment and Recognition

1. Where medically indicated and accepted by the resident or a substitute decision-maker, the attending physician will identify primary, secondary, and tertiary preventive and screening measures.
 - a. Primary prevention is aimed at reducing the incidence of a disease or condition by preventing its occurrence; for example, immunizations, injury prevention, medication adjustments to prevent adverse drug reactions, fall prevention measures, pressure ulcer prevention measures, management of risk factors for delirium, prophylaxis of osteoporosis, and stroke prevention.
 - b. Secondary prevention targets early identification of a disease or condition to limit its course and complications, for example, early mobilization after a stroke to prevent contractures and falls.
 - c. Tertiary prevention focuses on preventing additional problems, complications, and impairments that might otherwise result from a disease or disability that is not preventable or fully correctable.
 - d. Secondary and tertiary preventive measures may include control of hypertension to prevent cardiovascular disease and stroke, treating existing dental disease, managing diabetes and diabetic complications, visual and hearing aids, managing medication complications, addressing treatable causes of incontinence, screening for depression, treating existing osteoporosis, and addressing injury risks from falling.
2. The physician will order lab screening tests that are relevant to monitoring the individual’s treatment regimen or identifying modifiable risks and complications.
 - a. Most routine annual or other periodic laboratory screening has not been demonstrated to be clinically valuable or cost-effective unless targeted specifically to help monitor a resident’s conditions, risks, or medication regimen.
3. The staff and physician will address ethical issues related to situations where residents decline, to receive, or are unlikely to benefit from screening, preventive measures, or aggressive medical interventions.

Care Area Assessments

Policy Statement

Care area assessments (CAAs) are used to help analyze data obtained from the MDS and to develop individualized care plans.

Policy Interpretation and Implementation

1. Triggered care areas are evaluated by the interdisciplinary team to determine the underlying causes, potential consequences and relationships to other triggered care areas.
2. The care area assessments (CAAs) process consists of the following steps:
 - a. Identify areas of concern triggered on the MDS:
 - (1) This can be done using software or by manually using the CAT logic tables in the RAI User's Manual.
 - b. Review the triggered CAAs by doing an in-depth, resident-specific assessment of the triggered condition:
 - (1) History taking;
 - (2) Physical assessment;
 - (3) Gathering of relevant information (labs, tests, etc.); and
 - (4) Sequencing of clinically significant events.
 - c. Define the problem(s):
 - (1) Identify the functional, physical, and/or behavioral implications of the problem(s);
 - (2) Identify the relationships between risk factors, triggers and problems;
 - (3) Distinguish between causes and consequences; and
 - (4) Look for common causes of multiple issues.
 - d. Make decisions about the care plan:
 - (1) Determine whether the problem(s) needs intervention;
 - (2) Evaluate the resident's goals, wishes, strengths and needs;
 - (3) Design interventions that address causes, not symptoms; and
 - (4) Establish which items need further assessment or additional review.
 - e. Document interventions on the care plan:
 - (1) Include specific interventions, including those that address common causes of multiple issues; and
 - (2) Include recommendations for monitoring and follow-up timeframes.
3. The IDT utilizes tools and resources during the CAA process, including evidenced-based research and clinical practice guidelines, along with sound clinical decision making and problem-solving.
4. CAA documentation explains the basis for the care plan. This documentation should include:
 - a. causes and contributing factors for the triggered care areas;
 - b. the nature of the condition or issue (i.e., What exactly is the problem and why is it a problem?);
 - c. complications contributing to (or caused by) the care area;
 - d. risk factors related to the condition;
 - e. factors that should be considered in developing the care plan (including reasons to care plan or not to care plan particular findings);

continues on next page

- f. any need for further evaluation by the physician or other healthcare provider;
 - g. resources and tools used for decision-making;
 - h. conclusions that arose from the care area assessment process; and
 - i. completion of Section V of the MDS.
5. Documentation of the CAA process may be in the resident’s medical record in any of the following formats:
- a. Progress notes;
 - b. Discipline flow sheets;
 - c. Care plan summary notes;
 - d. CAA summary; and/or
 - e. Other _____.

Care Planning – Interdisciplinary Team

Policy Statement

Our facility's care planning/interdisciplinary team is responsible for the development of an individualized comprehensive care plan for each resident.

Policy Interpretation and Implementation

1. A comprehensive care plan for each resident is developed within seven (7) days of completion of the resident assessment (MDS).
2. The care plan is based on the resident's comprehensive assessment and is developed by a care planning/interdisciplinary team which includes, but is not necessarily limited to the following personnel:
 - a. The resident's attending physician;
 - b. The registered nurse who has responsibility for the resident;
 - c. The dietary manager/dietitian;
 - d. The social services worker responsible for the resident;
 - e. The activity director/coordinator;
 - f. Therapists (speech, occupational, recreational, etc.), as applicable;
 - g. Consultants (as appropriate);
 - h. The director of nursing (as applicable);
 - i. The charge nurse responsible for resident care;
 - j. Nursing assistants responsible for the resident's care; and
 - k. Others as appropriate or necessary to meet the needs of the resident.
3. The resident, the resident's family and/or the resident's legal representative/guardian or surrogate are encouraged to participate in the development of and revisions to the resident's care plan.
4. Every effort will be made to schedule care plan meetings at the best time of the day for the resident and family.
5. The mechanics of how the interdisciplinary team meets its responsibilities in the development of the interdisciplinary care plan (e.g., face-to-face, teleconference, written communication, etc.) is at the discretion of the care planning committee.

Version	1.1 (H5MAPL0108)

Care Plans, Comprehensive Person-Centered

Policy Statement

A comprehensive, person-centered care plan that includes measurable objectives and timetables to meet the resident's physical, psychosocial and functional needs is developed and implemented for each resident.

Policy Interpretation and Implementation

1. The interdisciplinary team (IDT), in conjunction with the resident and his/her family or legal representative, develops and implements a comprehensive, person-centered care plan for each resident.
2. The care plan interventions are derived from a thorough analysis of the information gathered as part of the comprehensive assessment.
3. The IDT includes:
 - a. the attending physician;
 - b. a registered nurse who has responsibility for the resident;
 - c. a nurse aide who has responsibility for the resident;
 - d. a member of the food and nutrition services staff;
 - e. the resident and the resident's legal representative (to the extent practicable); and
 - f. other appropriate staff or professionals as determined by the resident's needs or as requested by the resident.
4. Each resident's comprehensive person-centered care plan will be consistent with the resident's rights to participate in the development and implementation of his or her plan of care, including the right to:
 - a. participate in the planning process;
 - b. identify individuals or roles to be included;
 - c. request meetings;
 - d. request revisions to the plan of care;
 - e. participate in establishing the expected goals and outcomes of care;
 - f. participate in determining the type, amount, frequency and duration of care;
 - g. receive the services and/or items included in the plan of care; and
 - h. see the care plan and sign it after significant changes are made.
5. The resident will be informed of his or her right to participate in his or her treatment.
6. An explanation will be included in a resident's medical record if the participation of the resident and his/her resident representative for developing the resident's care plan is determined to not be practicable.
7. The care planning process will:
 - a. facilitate resident and/or representative involvement;
 - b. include an assessment of the resident's strengths and needs; and
 - c. incorporate the resident's personal and cultural preferences in developing the goals of care.

continues on next page

8. The comprehensive, person-centered care plan will:
 - a. include measurable objectives and timeframes;
 - b. describe the services that are to be furnished to attain or maintain the resident's highest practicable physical, mental, and psychosocial well-being;
 - c. describe services that would otherwise be provided for the above, but are not provided due to the resident exercising his or her rights, including the right to refuse treatment;
 - d. describe any specialized services to be provided as a result of PASARR recommendations;
 - e. include the resident's stated goals upon admission and desired outcomes;
 - f. include the resident's stated preference and potential for future discharge, including his or her desire to return to the community and any referrals made to local agencies or other entities to support such a desire;
 - g. incorporate identified problem areas;
 - h. incorporate risk factors associated with identified problems;
 - i. build on the resident's strengths;
 - j. reflect the resident's expressed wishes regarding care and treatment goals;
 - k. reflect treatment goals, timetables and objectives in measurable outcomes;
 - l. identify the professional services that are responsible for each element of care;
 - m. aid in preventing or reducing decline in the resident's functional status and/or functional levels;
 - n. enhance the optimal functioning of the resident by focusing on a rehabilitative program; and
 - o. reflect currently recognized standards of practice for problem areas and conditions.
9. Areas of concern that are identified during the resident assessment will be evaluated before interventions are added to the care plan.
10. Identifying problem areas and their causes, and developing interventions that are targeted and meaningful to the resident, are the endpoint of an interdisciplinary process.
 - a. No single discipline can manage an approach in isolation.
 - b. The resident's physician (or primary healthcare provider) is integral to this process.
11. Care plan interventions are chosen only after careful data gathering, proper sequencing of events, careful consideration of the relationship between the resident's problem areas and their causes, and relevant clinical decision making.
 - a. When possible, interventions address the underlying source(s) of the problem area(s), not just addressing only symptoms or triggers.
 - b. Care planning individual symptoms in isolation may have little, if any, benefit for the resident.
12. The comprehensive, person-centered care plan is developed within seven (7) days of the completion of the required comprehensive assessment (MDS).
13. Assessments of residents are ongoing and care plans are revised as information about the residents and the residents' conditions change.
14. The interdisciplinary team must review and update the care plan:
 - a. when there has been a significant change in the resident's condition;
 - b. when the desired outcome is not met;
 - c. when the resident has been readmitted to the facility from a hospital stay; and
 - d. at least quarterly, in conjunction with the required quarterly MDS assessment.
15. The resident has the right to refuse to participate in the development of his/her care plan and medical and nursing treatments. Such refusals will be documented in the resident's clinical record in accordance with established policies.

Care Plans – Baseline

Policy Statement

A baseline plan of care to meet the resident's immediate needs shall be developed for each resident within forty-eight (48) hours of admission.

Policy Interpretation and Implementation

1. To assure that the resident's immediate care needs are met and maintained, a baseline care plan will be developed within forty-eight (48) hours of the resident's admission.
2. The interdisciplinary team will review the healthcare practitioner's orders (e.g., dietary needs, medications, routine treatments, etc.) and implement a baseline care plan to meet the resident's immediate care needs including, but not limited to the following:
 - a. Initial goals based on admission orders;
 - b. Physician orders;
 - c. Dietary orders;
 - d. Therapy services;
 - e. Social services; and
 - f. PASARR recommendation, if applicable.
3. The baseline care plan will be used until the staff can conduct the comprehensive assessment and develop an interdisciplinary person-centered care plan.
4. The resident and their representative will be provided a summary of the baseline care plan that includes, but is not limited to the following:
 - a. The initial goals of the resident;
 - b. A summary of the resident's medications and dietary instructions;
 - c. Any services and treatments to be administered by the facility and personnel acting on behalf of the facility; and
 - d. Any updated information based on the details of the comprehensive care plan, as necessary.

Change in a Resident's Condition or Status

Policy Statement

Our facility promptly notifies the resident, his or her attending physician, and the resident representative of changes in the resident's medical/mental condition and/or status (e.g., changes in level of care, billing/payments, resident rights, etc.).

Policy Interpretation and Implementation

1. The nurse will notify the resident's attending physician or physician on call when there has been a(an):
 - a. accident or incident involving the resident;
 - b. discovery of injuries of an unknown source;
 - c. adverse reaction to medication;
 - d. significant change in the resident's physical/emotional/mental condition;
 - e. need to alter the resident's medical treatment significantly;
 - f. refusal of treatment or medications two (2) or more consecutive times);
 - g. need to transfer the resident to a hospital/treatment center;
 - h. discharge without proper medical authority; and/or
 - i. specific instruction to notify the physician of changes in the resident's condition.
2. A "significant change" of condition is a major decline or improvement in the resident's status that:
 - a. will not normally resolve itself without intervention by staff or by implementing standard disease-related clinical interventions (is not "self-limiting");
 - b. impacts more than one area of the resident's health status;
 - c. requires interdisciplinary review and/or revision to the care plan; and
 - d. ultimately is based on the judgment of the clinical staff and the guidelines outlined in the *Resident Assessment Instrument*.
3. Prior to notifying the physician or healthcare provider, the nurse will make detailed observations and gather relevant and pertinent information for the provider, including (for example) information prompted by the Interact SBAR Communication Form.
4. Unless otherwise instructed by the resident, a nurse will notify the resident's representative when:
 - a. the resident is involved in any accident or incident that results in an injury including injuries of an unknown source;
 - b. there is a significant change in the resident's physical, mental, or psychosocial status;
 - c. there is a need to change the resident's room assignment;
 - d. a decision has been made to discharge the resident from the facility; and/or
 - e. it is necessary to transfer the resident to a hospital/treatment center.
5. Except in medical emergencies, notifications will be made within twenty-four (24) hours of a change occurring in the resident's medical/mental condition or status.
6. Regardless of the resident's current mental or physical condition, a nurse or healthcare provider will inform the resident of any changes in his/her medical care or nursing treatments.

continues on next page

7. In addition to notifying the resident and/or representative, the state mental health agency or state intellectual disability agency will be notified within 24 hours of a significant change in the mental or physical condition of a resident with a mental disorder or intellectual disability.
8. The nurse will record in the resident's medical record information relative to changes in the resident's medical/mental condition or status.
9. If a significant change in the resident's physical or mental condition occurs, a comprehensive assessment of the resident's condition will be conducted as required by current OBRA regulations governing resident assessments and as outlined in the MDS RAI Instruction Manual.
10. The business office manager or designee will verify the address and telephone number of the resident's family or representative (sponsor) on a quarterly basis. Any noted changes will be reported to the director of nursing services to ensure that such information is changed in the resident's medical record.
11. A representative of the business office will notify the resident, his/her family, or representative (sponsor), when:
 - a. there is a change in the resident's billing;
 - b. there is a change in the resident's level of care status;
 - c. there is a change in resident rights under federal or state law or regulations; and/or
 - d. there is a change in the rules of the facility that affects the rights or responsibilities of the resident.

Comprehensive Assessment and the Care Delivery Process

Policy Statement

Comprehensive assessments will be conducted to assist in developing person-centered care plans.

Policy Interpretation and Implementation

1. Comprehensive assessments, care planning and the care delivery process involve collecting and analyzing information, choosing and initiating interventions, and then monitoring results and adjusting interventions.
2. **Assessment and information** collection includes (WHAT, WHERE and WHEN?). The objective of the information collection (assessment) phase is to obtain, organize, and subsequently analyze information about a patient.
 - a. Assess the individual.
 - (1) Gather relevant information from multiple sources, including:
 - (a) observation;
 - (b) physical assessment;
 - (c) symptom or condition-related assessments (Braden, AIMS, falls, etc.);
 - (d) resident and family interview;
 - (e) hospital discharge summaries;
 - (f) consultant reports;
 - (g) lab and diagnostic test results; and
 - (h) evaluations from other disciplines (for example, dietary, respiratory, social services, etc.).
 - (2) Complete the Minimum Data Set within 14 days after admission, within 14 days after it is determined that the resident has had a significant change in physical or mental condition, and annually.
3. **Information analysis** steps include (HOW AND WHY?).
 - a. Define issues, including problems, risk factors, and other concerns (to which all disciplines can relate).
 - (1) Determine CAAs that have been triggered during completion of the MDS; and
 - (2) Expanding on the triggered CAAs and the data gathered in Step 1, begin to define problems and symptoms within the context of the overall clinical picture. For example, try to determine what precipitates, aggravates or causes problems instead of simply listing the problems.
 - b. Define conditions and problems that are causing, or could cause, other problems.
 - (1) Identify potential causes or contributing factors of problems and symptoms, including:
 - (a) medical;
 - (b) psychosocial;
 - (c) environmental; and
 - (d) functional.
 - (2) Arrange conditions, problems and outcomes in their proper order based on the information gathered in steps 1 and 2.
 - (3) Try to determine the interrelationship between existing problems. For example, does one symptom or cluster of symptoms seem to appear or worsen when another symptom or cluster of symptoms appears or worsens?
 - (4) Determine the most plausible relationships between conditions and their causes.

continues on next page

- c. Define current treatments and services; link with problems/diagnoses.
 - (1) Identify the current interventions and treatments; and
 - (2) Link these to problems and diagnoses they are supposed to be treating.
 - d. Identify overall care goals and specific objectives of individual treatments.
 - (1) Evaluate whether or not these treatments are accomplishing the anticipated results.
 - e. Make decisions about care and treatment.
 - (1) Apply clinical reasoning to assessment information and determine the most appropriate interventions.
4. **Decision making** leading to a person-centered plan of care includes:
 - a. selecting and implementing interventions, based on the results of the above.
 5. **Monitoring results and adjusting interventions** includes:
 - a. periodically reviewing progress and adjusting treatments.
 - (1) Continue to define or refine the objectives of specific treatments as well as overall care and services.
 6. Comprehensive assessments are conducted and coordinated by a registered nurse with appropriate participation of other health professionals.
 7. Completed assessments (baseline, comprehensive, MDS, etc.) are maintained in the resident's active record for a minimum of 15 months. These assessments are used to develop, review and revise the resident's comprehensive care plan.

Facility Assessment

Policy Statement

A facility assessment is conducted annually to determine and update our capacity to meet the needs of and competently care for our residents during day-to-day operations. Determining our capacity to meet the needs of and care for our residents during emergencies is included in this assessment.

Policy Interpretation and Implementation

1. Once a year, and as needed, a designated team conducts a facility-wide assessment to ensure that the resources are available to meet the specific needs of our residents.
2. The team responsible for conducting, reviewing and updating the facility assessment includes the following:
 - a. The administrator;
 - b. A representative of the governing body;
 - c. The medical director;
 - d. The director of nursing services;
 - e. The infection preventionist; and
 - f. The director (or designee) from the following departments:
 - (1) Environmental services;
 - (2) Physical operations;
 - (3) Dietary services;
 - (4) Social services;
 - (5) Activity services; and
 - (6) Rehabilitative services.
3. The facility assessment includes a detailed review of the resident population. This part of the assessment includes:
 - a. resident census data from the previous 12 months;
 - b. resident capacity of the facility and its occupancy rate for the past 12 months;
 - c. factors that affect the overall acuity of the residents, such as the number and percentage of residents with:
 - (1) need for assistance with ADLs;
 - (2) mobility impairments;
 - (3) incontinence (bowel or bladder);
 - (4) cognitive or behavioral impairments; and
 - (5) conditions or diseases that require specialized care (e.g., dialysis, ventilators, wound care).
 - d. religious, ethnic or cultural factors that affect the delivery of care and services, such as:
 - (1) food and nutrition requirements;
 - (2) decision making and end of life care;
 - (3) activities; and
 - (4) language translation requirements.

continues on next page

4. The facility assessment also includes a detailed review of the resources available to meet the needs of the resident population. This part of the assessment includes the following:
 - a. The physical characteristics of the facility including:
 - (1) buildings and their intended or potential purpose;
 - (2) number of beds/resident capacity; and
 - (3) vehicles.
 - b. Equipment and supplies (medical and non-medical);
 - c. The contracts or agreements with third parties to provide services, equipment and supplies to the facility during normal operations and in the event of an emergency;
 - d. Services currently provided, including:
 - (1) skilled or specialized care (e.g., memory care);
 - (2) physical or occupational therapies;
 - (3) rehabilitative or restorative; and
 - (4) pharmacy.
 - e. All personnel, including:
 - (1) directors;
 - (2) managers;
 - (3) regular employees (full and part time);
 - (4) contracted staff (full and part time); and
 - (5) volunteers.
 - f. A breakdown of the training, licensure, education, skill level and measures of competency for all personnel;
 - g. The current status of health information technology, including:
 - (1) electronic health records;
 - (2) electronic exchange of information with other organizations; and
 - (3) personnel access to devices and equipment, internet and other tools.
5. Once the reviews of the resident needs and the facility resources are conducted, the facility assessment consists of systematically evaluating how well aligned these are. Each department provides input on current or potential gaps in care or services due to possible misalignment or lack of appropriate resources.
6. The facility assessment is intended to help our facility plan for and respond to changes in the needs of our resident population and helps to determine budget, staffing, training, equipment and supplies needed. It is separate from the quality assurance and performance improvement evaluation.
7. Our facility's ability to meet the requirements of our residents during emergency situations is a component of the facility assessment. This assessment is based on the information acquired during the assessment of operations under normal conditions, and the facility's hazards vulnerability assessment conducted as part of our emergency preparedness plan.
8. Our facility's ability to address the needs of residents during the emergence of infectious disease events or outbreaks is a component of the facility assessment. This assessment is based on information acquired during a facility-based infection control risk assessment, as well as a community-based risk assessment.
9. The facility assessment is reviewed and updated annually, and as needed. Facility or resident changes or modifications that may prompt a reassessment sooner include:
 - a. a decision to provide specialized care or services that had not been previously available to residents;
 - b. a change to the physical environment that would affect the care and services provided to our residents;

continues on next page

- c. a significant change in the resident census and/or overall acuity of our residents; or
 - d. a change in cultural, ethnic or religious factors that may affect the provision of care or service.
10. The QAPI committee is responsible for reviewing facility and resident information quarterly to determine if a facility reassessment is warranted.
11. Residents, representatives and family members may be asked to participate in the review of the care and services provided to meet the needs of our residents.

Goals and Objectives, Care Plans

Policy Statement

Care plans shall incorporate goals and objectives that lead to the resident's highest obtainable level of independence.

Policy Interpretation and Implementation

1. Care plan goals and objectives are defined as the desired outcome for a specific resident problem.
2. When goals and objectives are not achieved, the resident's clinical record will be documented as to why the results were not achieved and what new goals and objectives have been established. Care plans will be modified accordingly.
3. Care plan goals and objectives are derived from information contained in the resident's comprehensive assessment and:
 - a. are resident oriented;
 - b. are behaviorally stated;
 - c. are measurable; and
 - d. contain timetables to meet the resident's needs in accordance with the comprehensive assessment.
4. Goals and objectives are entered on the resident's care plan so that all disciplines have access to such information and are able to report whether or not the desired outcomes are being achieved.
5. Goals and objectives are reviewed and/or revised:
 - a. when there has been a significant change in the resident's condition;
 - b. when the desired outcome has not been achieved;
 - c. when the resident has been readmitted to the facility from a hospital/ rehabilitation stay; and
 - d. at least quarterly.
6. The resident has the right to refuse to participate in establishing care plan goals and objectives. When such refusals are made, appropriate documentation will be entered into the resident's clinical records in accordance with established policies.

Physician Services

Policy Statement

The medical care of each resident is supervised by a licensed physician.

Policy Interpretation and Implementation

1. A physician must recommend in writing that an individual be admitted to the facility. This can be accomplished through:
 - a. hospital transfer summary completed by a physician;
 - b. admission paperwork completed by the resident's physician in the community;
 - c. other written form completed by a physician; or
 - d. a physician's admission orders for the resident's immediate care.
2. Once a resident is admitted, orders for the resident's immediate care and needs can be provided by a physician, physician assistant (PA), nurse practitioner (NP), or clinical nurse specialist (CNS).
3. Supervising the medical care of residents includes (but is not limited to):
 - a. participating in the resident's assessment and care planning;
 - b. monitoring changes in resident's medical status;
 - c. providing consultation or treatment when called by the facility;
 - d. prescribing medications and therapy;
 - e. ordering transfers to the hospital if necessary;
 - f. conducting routine required visits;
 - g. delegating and supervising follow-up visits by non-physician practitioners (NPs, PA, CNS's); and
 - h. overseeing a relevant plan of care for the resident.
4. Each resident remains under the care of a physician. An alternate physician supervises the care of residents when his or her attending physician is not available.
 - a. The attending physician may designate another physician to act on his or her behalf when unavailable.
 - b. If the attending physician does not delegate another physician, the facility will have a physician available to supervise the care of the resident.
5. The attending physician will determine the relevance of any recommended interventions from other disciplines. The physician is not obligated to accept these recommendations if he or she has clinically valid reasons for not doing so.
6. Physician orders and progress notes are maintained in accordance with current OBRA regulations and facility policy.
7. Physician visits, frequency of visits, emergency care of residents, etc., are provided in accordance with current OBRA regulations and facility policy.
8. Consultative services are made available from community-based consultants or from a local hospital or medical center.
9. The medical director identifies attending physician qualifications and responsibilities, based on clinical and regulatory requirements and the recommendations of relevant professional associations.

Problem Identification List

Policy Statement

Prior to care planning conferences, a problem identification list shall be developed to assist the care planning/interdisciplinary team in developing and revising comprehensive care plans.

Policy Interpretation and Implementation

1. Prior to attending scheduled care planning conferences, each discipline will be responsible for developing a problem identification list.
2. Each discipline will provide a written or oral report of the resident’s problems, strengths, goals, and approaches as outlined below:
 - a. Problems — Any area of difficulty or concern that prevents the resident from reaching his/her fullest potential. Problems must be stated in behavioral and/or functional terms associated with the diagnoses or symptoms.
 - b. Strengths — Any positive aspects of the resident’s overall physical, social, emotional, or spiritual functioning as it relates to the problem.
 - c. Short-Term Goals — The desired outcome for the problem. Short-term goals must be resident oriented, behaviorally stated, measurable, and include a time frame.
 - d. Approach — The specific action(s) or intervention(s) that the staff will take to assist the resident in meeting/achieving the short-term goal(s).
 - e. Time Frame — The time limit assigned to meet each goal.

Resident Assessments

Policy Statement

A comprehensive assessment of every resident's needs is made at intervals designated by OBRA and PPS requirements.

Policy Interpretation and Implementation

1. The resident assessment coordinator is responsible for ensuring that the interdisciplinary team conducts timely and appropriate resident assessments and reviews according to the following requirements:
 - a. OBRA required assessments – conducted for all residents in the facility:
 - (1) **Initial Assessment** (Comprehensive) – Conducted within fourteen (14) days of the resident's admission to the facility;
 - (2) **Quarterly Assessment** – Conducted not less frequently than three (3) months following the most recent OBRA assessment of any type;
 - (3) **Significant Change in Status Assessment** (Comprehensive) – Conducted when there has been a significant change in the resident's condition;
 - (4) **Annual Assessment** (Comprehensive) – Conducted not less than once every twelve (12) months; and
 - (5) **Discharge Assessment** – Conducted when a resident is discharged from the facility.
 - b. PPS required assessments – Conducted (in addition to the OBRA required assessments) for residents for whom the facility receives Medicare Part A SNF benefits:
 - (1) **5-day Assessment** – Conducted within fourteen (14) days after the established ARD. Determines the payment rate for the PPS stay.
 - (2) **Interim Payment Assessment** – Conducted when deemed appropriate by the provider to capture changes in the resident's status and condition, and to reset payment for the remainder of the stay.
 - (3) **Part A PPS Discharge Assessment** – Conducted when a resident's Medicare Part A stay ends, but the resident remains in the facility (unless it is an instance of an interrupted stay).
2. A “comprehensive assessment” includes:
 - a. completion of the Minimum Data Set (MDS);
 - b. completion of the care area assessment (CAA) process; and
 - c. development of the comprehensive care plan.
3. A significant change in status assessment (SCSA) is completed within 14 days of the interdisciplinary team determining that the resident meets the guidelines for major improvement or decline.
4. A SCSA cannot be completed until after a comprehensive admission assessment is submitted.
5. A SCSA is required when a resident:
 - a. enrolls in a hospice program;
 - b. changes hospice providers and remains in the facility;
 - c. discontinues hospice services; or

continues on next page

- d. experiences a consistent pattern of changes with two or more areas of decline from baseline. Examples of decline from baseline include:
 - (1) resident's decision-making ability has changed;
 - (2) presence of a resident mood item not previously reported by the resident or staff and/or an increase in the symptom frequency, e.g., increase in the number of areas where behavioral symptoms are coded as being present and/or the frequency of a symptom increases for items in Section E Behavior;
 - (3) changes in frequency or severity of behavioral symptoms of dementia that indicate progression of the disease process since last assessment;
 - (4) any decline in an ADL physical functioning area (at least 1) where a resident is newly coded as extensive assistance, total dependence, or activity did not occur since last assessment and does not reflect normal fluctuations in that individual's functioning;
 - (5) resident's incontinence pattern changes or there was placement of an indwelling catheter;
 - (6) emergence of unplanned weight loss problem (5% change in 30 days or 10% change in 180 days);
 - (7) emergence of a new pressure ulcer at stage 2 or higher, a new unstageable pressure ulcer/injury, a new deep tissue injury or worsening in pressure ulcer status;
 - (8) resident begins to use a restraint of any type, when it was not used before; or
 - (9) emergence of a condition/disease in which a resident is judged to be unstable.
 - e. experiences a consistent pattern of changes with two or more areas of improvement from baseline. Examples of improvement from baseline include:
 - (1) any improvement in ADL physical functioning area (at least 1) where a resident is newly coded as independent, supervision, or limited assistance since last assessment and does not reflect normal fluctuations in that individual's functioning;
 - (2) decrease in the number of areas where behavioral symptoms are coded as being present and/or the frequency of a symptom decreases;
 - (3) resident's decision making ability improves; or
 - (4) resident's incontinence pattern improves.
 - f. examples of circumstances that would NOT prompt a SCSA include:
 - (1) short-term acute illness, such as a mild fever secondary to a cold from which the IDT expects the resident to fully recover;
 - (2) well-established, predictable cyclical patterns of clinical signs and symptoms associated with previously diagnosed conditions (e.g., depressive symptoms in a resident previously diagnosed with bipolar disease would not precipitate a significant change assessment);
 - (3) instances in which the resident continues to make steady progress under the current course of care. Reassessment is required only when the condition has stabilized;
 - (4) instances in which the resident has stabilized but is expected to be discharged in the immediate future; or
 - (5) the facility has engaged in discharge planning with the resident and family, and a comprehensive reassessment is not necessary to facilitate discharge planning.
6. The IDT may determine that the resident could benefit from a SCSA based on just one area of decline or improvement. The rationale for completion of an assessment that does not meet the criteria for completion will be documented.
7. OBRA and PPS assessments may be combined when all requirements for each type can be met. The RAI User's Manual (Chapter 2) provides further information on combining assessments.

continues on next page

8. The interdisciplinary team uses the MDS form currently mandated by federal and state regulations to conduct the resident assessment. Other assessment forms may be used in addition to the MDS form.
9. Residents and/or their representatives (sponsors) are encouraged to participate in the assessment process. The resident assessment coordinator or designee is responsible for notifying the resident and/or sponsor in advance of the scheduled assessment or review.
10. All members of the care team, including licensed and unlicensed staff members, are asked to participate in the resident assessment process.
11. All persons who have completed any portion of the MDS resident assessment form must sign the document attesting to the accuracy of such information.
12. All resident assessments completed within the previous 15 months are maintained in the resident's active clinical record. The results of the assessments are used to develop, review and revise the resident's comprehensive care plan.

Resident Participation – Assessment/Care Plans

Policy Statement

The resident and his or her representative are encouraged to participate in the resident's assessment and in the development and implementation of the resident's care plan.

Policy Interpretation and Implementation

1. The resident and his or her legal representative are encouraged to attend and participate in the resident's assessment and in the development of the resident's person-centered care plan.
2. Spouses and other members of the family may participate in the resident assessment and development of the person-centered care plan with the resident's permission.
 - a. "Family" includes the spouse, which is defined as an individual who has been lawfully married to the resident regardless of the state or local laws of the jurisdiction of the facility.
 - b. Same-sex and transgender spouses and domestic partners are encouraged to participate in the resident assessment and care planning conference with the resident's permission.
3. The resident/representative's right to participate in the development and implementation of his or her plan of care includes the right to:
 - a. participate in the planning process;
 - b. identify individuals to be included in the planning process;
 - c. request meetings;
 - d. request revisions to the plan of care;
 - e. participate in establishing his or her goals and expected outcomes of care;
 - f. participate in the type, amount, frequency and duration of care;
 - g. receive the services and/or items included in the care plan;
 - h. be informed, in advance, of changes to the plan of care;
 - i. refuse, request changes to and/or discontinue care or treatment offered or proposed;
 - j. be informed, in advance (by the physician, practitioner or professional), of the risks and benefits of the care or treatment proposed;
 - k. have access to and review the care plan; and
 - l. review and sign the care plan after any significant changes are made.
4. The care planning process:
 - a. facilitates the inclusion of the resident and/or representative;
 - b. includes an assessment of the resident's strengths and his or her needs; and
 - c. incorporates the resident's personal and cultural preferences in establishing goals of care.
5. Facility staff supports and encourages resident/representative participation in the care planning process by:
 - a. ensuring that residents, representatives and families understand the care planning process;
 - b. holding care planning meetings at times of day when the resident, representative and family members can attend and are functioning at their best;
 - c. providing sufficient notice in advance of the meeting; and
 - d. planning for enough time for exchange of information and decision making.

continues on next page

6. Resident assessments are begun on the first day of admission and completed no later than the fourteenth (14th) day after admission.
7. A comprehensive care plan is developed within seven (7) days of completing the resident assessment.
8. A seven (7) day advance notice of the care planning conference is provided to the resident and his or her representative. Such notice is made by mail and/or telephone.
9. The social services director or designee is responsible for notifying the resident/representative and for maintaining records of such notices. Notices include:
 - a. the date, time and location of the conference;
 - b. the name of each person contacted and the date he or she was contacted;
 - c. the method of contact (e.g., mail, telephone, email, etc.);
 - d. input from the resident or representative if they are not able to attend;
 - e. refusal of participation, if applicable; and
 - f. the date and signature of the individual making the contact.

Using the Care Plan

Policy Statement

The care plan shall be used in developing the resident’s daily care routines and will be available to staff personnel who have responsibility for providing care or services to the resident.

Policy Interpretation and Implementation

1. Completed care plans are placed in the resident’s chart and/or in a 3-ring binder located at the appropriate nurses’ station.
2. The nurse supervisor uses the care plan to complete the CNAs daily/weekly work assignment sheets and/or flow sheets.
3. CNAs are responsible for reporting to the nurse supervisor any change in the resident’s condition and care plan goals and objectives that have not been met or expected outcomes that have not been achieved.
4. Other facility staff noting a change in the resident’s condition must also report those changes to the nurse supervisor and/or the MDS assessment coordinator.
5. Changes in the resident’s condition must be reported to the MDS assessment coordinator so that a review of the resident’s assessment and care plan can be made.
6. Documentation must be consistent with the resident’s care plan.
7. Information contained on the care plan and other documents used by the nursing staff shall be maintained in a confidential manner in accordance with established facility policy.

Apical Pulse, Measuring

Purpose

The purpose of this procedure is to determine the resident's heart rate and rhythm.

Preparation

1. Review the resident's care plan to assess for any special needs of the resident.
2. Assemble the equipment and supplies as needed.

General Guidelines

1. The normal apical pulse rate for an adult is from 60 to 90 beats per minute.
2. The apical pulse is a measurement of the heartbeat just under the left breast (at the fourth to fifth intercostal space) at the apex or top point of the heart.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Watch (with second hand);
2. Stethoscope;
3. Antiseptic swabs;
4. Pen or pencil;
5. Paper; and
6. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Wash and dry your hands thoroughly before beginning the procedure.
2. Place the equipment on the bedside stand or overbed table. Arrange the supplies so that they can be easily reached.
3. Clean the earpieces and diaphragm of the stethoscope with antiseptic swabs. Place the earpieces in your ears. Warm the diaphragm of the stethoscope by holding it tightly in your hand for a few seconds before allowing it to touch the resident's skin.
4. Fold the top covers back over the left side of the chest. Avoid unnecessary exposure of the resident's body.
5. Locate the apex of the resident's heart by placing the diaphragm of the stethoscope under the resident's left breast (at the fourth to fifth intercostal space).
6. Count the resident's pulse rate for one full minute (60 seconds). Note if the beat is regular or irregular.
7. Reposition the covers and make the resident comfortable.
8. Record the pulse rate on the paper.
9. Reposition the bed covers. Make the resident comfortable.
10. Place the call light within easy reach of the resident.
11. Clean the earpieces and diaphragm of the stethoscope with antiseptic swabs.
12. If the resident desires, return the door and curtains to the open position and if visitors are waiting, tell them they may now enter the room.
13. Wash and dry your hands thoroughly.

continues on next page

Documentation

The following information should be recorded in the resident’s medical record:

1. The date and time the pulse rate was measured.
2. The name and title of the individual(s) who measured the pulse.
3. The pulse rate and that it was taken apically.
4. If the pulse rate was weak or strong.
5. If the pulse rate was regular or irregular (rhythm).
6. If the resident refused the treatment, the reason(s) why and the intervention taken.
7. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the procedure.
2. Report other information in accordance with facility policy and professional standards of practice.

Assisting the Nurse in Examining and Assessing the Resident

Level II

Purpose

The purpose of this procedure is to assist the nurse in gathering information about the overall condition of the resident and his or her performance of activities of daily living.

General Guidelines

1. The primary purpose of assessing the resident is to gather detailed information that will help to develop a plan of care that is appropriate for the resident.
2. The assessment process is continuous. It begins upon admission and continues until the resident is discharged.
3. While only licensed nurses can conduct a full assessment, non-licensed nurses obtain important information about the resident in their daily observations and interactions.
4. Accurately documenting and reporting your observations provides the interdisciplinary team with information that helps tailor the care plan to the specific needs of the resident.

Components of the Observation

Activities of Daily Living

1. Activities of daily living (ADL) include the resident's physical, psychological, social and spiritual activities.
2. During your daily contact with the resident, be observant of the resident's level of independence in performing ADL. As you observe the resident, note if the resident performs activities of daily living:
 - a. Without assistance;
 - b. With some assistance; or
 - c. With total assistance.
3. Eating - As you serve the resident his or her meals, you should note:
 - a. Assistance needed with eating (i.e., opening milk cartons, cutting foods, special devices, etc.);
 - b. The amount and types of food eaten; and
 - c. Any changes in the resident's eating habits.
4. Grooming and Dressing - As you provide the resident with personal care needs, you should note:
 - a. The type of bath the resident likes (i.e., tub, shower, etc.);
 - b. Assistance needed with bathing, hair and nail care, dressing and undressing, mouth care; and
 - c. Any changes in the resident's grooming or dressing habits.
5. Toileting - As you provide the resident with personal toileting needs, you should note:
 - a. Assistance needed with going to the bathroom; and
 - b. Any changes in the resident's toileting habits.
6. Ambulation - As you provide the resident with daily care, you should note:
 - a. Assistance needed with ambulating (i.e., cane, wheelchair, walker, etc.);
 - b. Assistance needed with getting into and out of bed or chairs; and
 - c. Any changes in the resident's ability to move around.

continues on next page

Rest and Sleep Habits

1. Because rest and sleep are important to the resident’s health and well-being, it is important to note:
 - a. The number and length of rest periods taken during the day;
 - b. How long the resident sleeps during the night;
 - c. How many times the resident gets up during the night;
 - d. How many times the resident calls for assistance during the night; and
 - e. Any change in the resident’s sleeping habits (i.e., gets days and nights mixed up, sleeps longer, sleeps less, restless, etc.).

Level of Comfort or Pain

1. Untreated pain can lead to depression, decreased socialization, sleep disturbances, impaired ambulation, and slow healing. It is important to report any of the following signs/symptoms of pain:
 - a. Verbal expressions such as groaning, crying, screaming;
 - b. Facial expressions such as grimacing, frowning, clenching of the jaw, etc.;
 - c. Changes in gait, skin color, vital signs, or increased perspiration;
 - d. Behavior such as resisting care, irritability, depression, decreased participation in usual activities;
 - e. Limitations in his or her level of activity due to the presence of pain;
 - f. Guarding, rubbing or favoring a particular part of the body;
 - g. Difficulty eating or loss of appetite;
 - h. Insomnia; and
 - i. Evidence of depression, anxiety, fear or hopelessness.

Blood Pressure, Measuring

Level II

Purpose

The purpose of this procedure is to measure the pressure exerted by the circulating volume of blood on the walls of the arteries, veins and chambers of the heart.

Preparation

1. Review the resident's care plan to assess for any special needs of the resident.
2. Assemble the equipment and supplies as needed.

General Guidelines

1. A blood pressure reading is represented as a ratio or fraction. The top number (the systolic pressure) measures the blood pressure during the contractions of the heart (systole). The bottom number (the diastolic pressure) measures the pressure of the blood while the heart is at rest (diastole).
2. The blood pressure is generally defined as **Normal** when the systolic pressure is in the range of 101 to 129 mm/Hg and the diastolic pressure is in the range of 61 to 84 mm/Hg.
3. **Borderline hypertension** is typically defined as a systolic pressure of 130 to 139 mm/Hg and a diastolic pressure of 85 to 89 mm/Hg.
4. **Hypertension** is usually defined as blood pressure over 140/90 mm/Hg (although the elderly often have persistent systolic readings from 140 to 160 mm/Hg).
5. Hypertension should be reported to the physician. If a resident has a hypertensive reading, staff should record several readings taken at different times of the day. Staff should note any pertinent medications and/or recent changes of condition when reporting to the physician.
6. **Hypotension** is defined as blood pressure less than 100/60 mm/Hg.
7. **Orthostatic (postural) hypotension** is defined as a 20 mm/Hg (or greater) decline in systolic blood pressure or a 10 mm/Hg (or greater) decline in diastolic blood pressure upon standing.
8. **Post-prandial hypotension** is defined as a 20 mm/Hg decline in systolic blood pressure (or a 10 mm/Hg drop if the baseline is less than 100 mm/Hg) within two (2) hours after eating a meal.
9. Hypotension should be reported to the physician. Staff should record several readings throughout the day, including before and after meals.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Sphygmomanometer;
2. Stethoscope;
3. Antiseptic swabs;
4. Paper and pencil or pen; and
5. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

continues on next page

Steps in the Procedure

1. Wash and dry your hands thoroughly before beginning the procedure.
2. Place the equipment on the bedside stand or overbed table. Arrange the supplies so that they can be easily reached.
3. If the resident is standing, instruct the resident to sit in a chair or lie down on the bed.
4. Expose the resident's arm by rolling the sleeve up about 5 inches above the elbow.
5. Wrap the blood pressure cuff evenly around the upper arm, approximately one (1) inch from the elbow. (Note: The cuff should fit snugly, but not so tightly that the resident is uncomfortable. If the cuff is placed too loosely, you will get a **false** high blood pressure reading.)
6. Be sure the manometer is positioned so that you can see the numbers clearly.
7. Wipe the earplugs and diaphragm of the stethoscope with an antiseptic swab. Discard the swab into the designated container. Place the earplugs of the stethoscope into your ears.
8. Close the valve on the air pump. (Note: Turn the thumbscrew clockwise. However, do not tighten it too much or it will be difficult to open when you try to release the pressure from the cuff.)
9. With your second and third finger of one hand, locate the brachial pulse at the bend in the elbow.
10. When you locate the pulsation, place the diaphragm of the stethoscope firmly against the skin. Hold the diaphragm in place with your hand.
11. With your free hand, pump air into the cuff by squeezing the bulb until you can no longer hear the pulsation. (Note: You must be watching the mercury level on the manometer while you are pumping the air in the cuff.)
12. When you hear the last pulsation sound, loosen the thumbscrew slowly to let the air out. Watch the mercury reading on the manometer. Listen for the **first** sound. Note the number. This will be the top (**systolic**) reading.
13. Continue to listen for the pulsation sound and watch the mercury reading on the manometer. When you hear the **last** sound, note the number. This will be the lower (**diastolic**) reading.
14. Record the blood pressure on the paper.
15. To measure orthostatic blood pressure, repeat steps eight (8) through fourteen (14) immediately after helping the resident to a standing position. Note the changes in both the systolic and diastolic measurements compared to the reading taken while the resident was in a seated position.
16. To measure post-prandial blood pressure, perform steps one (1) through fourteen (14) before meals and repeat one (1) to two (2) hours after meals.
17. Deflate the cuff completely and remove it from the resident's arm.
18. Roll up the blood pressure cuff. (Note: If using a mercury apparatus, place the cuff in the case.)
19. Wipe the earplugs and diaphragm of the stethoscope with an antiseptic swab. Discard the swab into the designated container.
20. Reposition the bed covers. Make the resident comfortable.
21. Place the call light within easy reach of the resident.
22. If the resident desires, return the door and curtains to the open position and if visitors are waiting, tell them they may now enter the room.
23. Wash and dry your hands thoroughly.

continues on next page

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the blood pressure was measured.
2. The name and title of the individual(s) who measured the blood pressure.
3. The blood pressure reading.
4. If the resident refused the treatment, the reason(s) why and the intervention taken.
5. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the treatment.
2. Report other information in accordance with facility policy and professional standards of practice.

Radial Pulse, Measuring

Purpose

The purpose of this procedure is to determine the resident's heart rate and rhythm.

Preparation

1. Review the resident's care plan to assess for any special needs of the resident.
2. Assemble the equipment and supplies as needed.

General Guidelines

1. The normal pulse rate beat for an adult is from 60 to 90 beats per minute.
2. When you have found the pulse, notice how regular the beat is (**rhythm**), how weak or strong the beat is, and the number of beats per minute (**rate**).
3. Unless otherwise instructed, report any pulse rate under 60 and over 100 to the nurse supervisor promptly.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Watch (with second hand);
2. Paper and pencil or pen; and
3. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Wash and dry your hands thoroughly before beginning the procedure.
2. Place the equipment on the bedside stand or overbed table. Arrange the supplies so that they can be easily reached.
3. If the resident is standing, instruct the resident to sit in a chair or on the edge of the bed.
4. Be sure the resident's hand and arm are well-supported and resting comfortably.
5. Find the radial pulse by:
 - a. Placing the tips of your first three fingers on the thumb side of the resident's wrist. Do not use your thumb.
 - b. Align the fingers in line with the resident's thumb.
 - c. Press lightly until you find the pulse.
6. Measure the pulse by:
 - a. Looking at the second hand on the watch. (**Note:** If counting for 60 seconds, count all beats for the full 60 seconds. If counting for 30 seconds, multiply the count by 2.)
 - b. Start counting when you first feel the pulse.
7. Should the resident's pulse be irregular, count the beats for one full minute (60 seconds).
8. Record the pulse rate on the paper.
9. Reposition the bed covers. Make the resident comfortable.
10. Place the call light within easy reach of the resident.

continues on next page

11. If the resident desires, return the door and curtains to the open position and if visitors are waiting, tell them they may now enter the room.
12. Wash and dry your hands thoroughly.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the pulse was measured.
2. The name and title of the individual(s) who measured the pulse.
3. The pulse rate and that it was taken radially.
4. If the pulse rate was weak or strong.
5. If the pulse rate was regular or irregular (rhythm).
6. If the resident refused the treatment, the reason(s) why and the intervention taken.
7. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the procedure.
2. Report other information in accordance with facility policy and professional standards of practice.

Resident Examination and Assessment

Level III

Purpose

The purpose of this procedure is to examine and assess the resident for any abnormalities in health status, which provides a basis for the care plan.

Preparation

1. Review the resident's admission assessment and/or preliminary care plan to assess for any special situations regarding the resident's care.
2. Assemble equipment and supplies needed.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Stethoscope;
2. Pen light;
3. Blood pressure cuff and sphygmomanometer;
4. Thermometer;
5. Wristwatch with second hand;
6. Soap and water;
7. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed); and
8. Examination/assessment documentation tools.

Steps in the Procedure

1. Wash and dry your hands thoroughly.
2. Put on clean gloves.
3. Explain the procedure to the resident.
4. Conduct physical exam.

Physical Exam

1. Vital Signs:
 - a. blood pressure (standing and sitting);
 - b. pulse (carotid);
 - c. respirations; and
 - d. temperature.
2. Cardiovascular:
 - a. heart rate and rhythm;
 - b. peripheral pulses (brachial, radial, femoral, politeal, dorsalis pedis) palpable and equal; and
 - c. capillary refill.

continues on next page

3. Respiratory:
 - a. lung sounds (upper and lower lobes) for wheezing, rales, rhonchi, or crackles;
 - b. irregular or labored respirations;
 - c. cough (productive or nonproductive); and
 - d. consistency and color of sputum.
4. Neurological:
 - a. alertness and orientation;
 - b. speech clarity;
 - c. drooping eyelids, facial paralysis, asymmetry;
 - d. strength and equality of the hand grasps; and
 - e. numbness or tingling in extremities.
5. Musculoskeletal:
 - a. gait;
 - b. mobility and range of motion of extremities;
 - c. joint deformity;
 - d. fractures;
 - e. contractures; and
 - f. muscle tone.
6. Gastrointestinal:
 - a. abdominal distension and hardness;
 - b. rebound or guarding;
 - c. bowel sounds in all four quadrants hypoactive, normal, or hyperactive;
 - d. stool consistency;
 - e. diarrhea or constipation;
 - f. hemorrhoids; and
 - g. fecal impaction.
7. Genitourinary:
 - a. urine clear or cloudy;
 - b. continent or incontinent;
 - c. presence of foley catheter (and whether intact);
 - d. discharge, swelling, pain or bleeding of genitalia; and
 - e. uterine prolapsed.
8. Skin:
 - a. intactness;
 - b. moisture;
 - c. color;
 - d. texture; and
 - e. presence of bruises, pressure sores, redness, edema, rashes.
9. Activity level:
 - a. able to perform ADLs; and
 - b. degree of assistance required.

continues on next page

10. Eyes, Ears, Nose, Throat:
 - a. pupils equal, regular, reactive to light;
 - b. cataracts;
 - c. conjunctival redness;
 - d. hearing intact; and
 - e. nasal discharge.
11. Head and Neck:
 - a. range of motion;
 - b. jugular vein distension;
 - c. evidence of trauma; and
 - d. symmetry.
12. Teeth and Gums:
 - a. oral ulcers;
 - b. missing teeth;
 - c. mucous membranes intact;
 - d. periodontal disease; and
 - e. dentures.
13. Psychiatric/Behavioral:
 - a. oriented to time, place, person;
 - b. affect;
 - c. attention span;
 - d. appropriate response to questions; and
 - e. combativeness.
14. Pain:
 - a. description of pain;
 - b. location, duration, severity;
 - c. factors that worsen pain;
 - d. factors that relieve pain;
 - e. how pain affects ADLs, mood, sleep, appetite; and
 - f. current medications and treatments for pain.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the procedure was performed.
2. The name and title of the individual(s) who performed the procedure.
3. All assessment data obtained during the procedure.
4. How the resident tolerated the procedure.
5. If the resident refused the procedure, the reason(s) why and the intervention taken.
6. The signature and title of the person recording the data.

continues on next page

Reporting

1. Notify the supervisor if the resident refuses the examination.
2. Notify the physician of any abnormalities such as, but not limited to:
 - a. abnormal vital signs;
 - b. labored breathing; breath sounds that are not clear; or cough, productive or nonproductive;
 - c. change in cognitive, behavioral or neurological status from baseline;
 - d. distended, hard abdomen or absence of bowel sounds;
 - e. wounds or rashes on the resident's skin; and
 - f. worsening pain, as reported by the resident.
3. Report other information in accordance with facility policy and professional standards of practice.

Respirations, Measuring

Level II

Purpose

The purpose of this procedure is to determine how many times the resident breathes in and out per minute.

Preparation

1. Review the resident's care plan to assess for any special needs of the resident.
2. Assemble the equipment and supplies as needed.

General Guidelines

1. The following respiratory qualities should be promptly reported to the nurse supervisor:
 - a. Shallow respirations – The resident breathes with only the upper part of his or her lungs.
 - b. Deep respirations – The resident breathes with increased movement of the chest and abdomen.
 - c. Irregular respirations – The resident's breathing changes and the rate of the rise and fall of the chest is irregular (not steady).
 - d. Noisy respirations – There is a blocked, gurgling or high-pitched noise when the resident breathes.
2. Respiration is the process of breathing in (inhaling) and out (exhaling). When the resident inhales the chest gets larger (expands). When the resident exhales the chest gets smaller (contracts).
3. Normal respiratory rate for an adult is from 12 to 18 breaths per minute. One respiration includes inhaling once and exhaling once.
4. Report respirations that are below 10 breaths per minute.
5. The resident should be lying on his or her back when you are counting respirations.
6. Try to count respirations without the resident knowing what you are doing. If the resident knows you are counting his or her respirations, he or she may not breathe naturally.
7. When counting respirations, take the resident's wrist and hold it as though you were taking his or her pulse.
8. Should you be unable to see the resident's chest rise and fall, place the resident's arm over his or her chest and hold the wrist as though you were taking the pulse.
9. While counting the resident's respirations, be attentive of how the resident is breathing (labored or effortless) and if the breathing is noisy.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Watch (with second hand);
2. Paper and pencil or pen; and
3. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Wash and dry your hands thoroughly before beginning the procedure.
2. Place the equipment on the bedside stand or overbed table. Arrange the supplies so that they can be easily reached.

continues on next page

3. If the resident is standing, instruct the resident to lie down on the bed.
4. To count the respirations:
 - a. Look at the second hand on the watch. (Note: If counting for 60 seconds, count for the full 60 seconds. If counting for 30 seconds, multiply the count by 2.)
 - b. Start counting when you see the resident's chest rise.
 - c. Count "one" when you see the chest rise, "two" when you see it rise again, and so on until the counting time has elapsed.
5. Should the resident's respirations be irregular or labored, count the respirations for one full minute (60 seconds).
6. Record the respiration count on the paper. Note if the respirations were shallow or deep, noisy or labored.
7. Reposition the bed covers. Make the resident comfortable.
8. Place the call light within easy reach of the resident.
9. If the resident desires, return the door and curtains to the open position and if visitors are waiting, tell them they may now enter the room.
10. Wash and dry your hands thoroughly.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the procedure was performed.
2. The name and title of the individual(s) who performed the procedure.
3. The respiratory rate.
4. If the respirations were easy or labored.
5. If the respirations were noisy.
6. If the resident refused the treatment, the reason(s) why and the intervention taken.
7. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the procedure.
2. Report breathing abnormalities to the nurse.
3. Report other information in accordance with facility policy and professional standards of practice.

Temperature, Axillary (Digital Thermometer)

Level II

Purpose

The purpose of this procedure is to measure the resident's body temperature.

Preparation

1. Review the resident's care plan to assess for any special needs of the resident.
2. Assemble the equipment and supplies as needed.

General Guidelines

1. The axillary temperature is taken under the resident's arm.
2. The thermometer should be in the center of the resident's axilla and held upright between the arm and the chest.
3. Never leave the resident while taking an axillary temperature.
4. If the resident is unconscious or weak you will need to hold the thermometer in place.
5. When recording the axillary temperature, place an "AX" in front of the figures.
6. If the resident's temperature is 100°F or greater, it should be taken at least every four (4) hours until it returns to normal.
7. Temperatures below 97°F and above 99°F must be rechecked with another thermometer and must be reported to the nurse supervisor.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Digital thermometer;
2. Plastic disposable probe cover (sheath);
3. Paper and pencil or pen;
4. Tissue or paper towels; and
5. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Wash and dry your hands thoroughly before beginning the procedure.
2. Place the equipment on the bedside stand or overbed table. Arrange the supplies so that they can be easily reached.
3. Fold the top covers down enough to remove the resident's arm from his or her pajama or gown sleeve.
4. If the armpit is moist, pat it dry with a paper towel. Discard the towel into the trash receptacle.
5. Remove the **probe** from its stored position.
6. Insert the **probe** into the probe cover (sheath).
7. Place the tip of the probe in the center of the resident's armpit. The thermometer should be in an upright position between the armpit and chest.
8. Place the arm holding the thermometer across the resident's chest or abdomen.

continues on next page

9. If the resident is unconscious or too weak to hold the thermometer in place, you will need to hold it in place for the resident.
10. Wait until the digital reading is displayed (usually 15 seconds).
11. Remove the probe from the resident's armpit.
12. Record the temperature reading. Place an "AX" in front of the figures. Do not replace the probe until you have recorded the temperature--the reading will automatically return to zero when placed in its holder.
13. Discard the used probe cover (sheath) into the designated container. Do not touch the sheath.
14. Return the probe into its stored position.
15. Put the resident's arm back in his or her pajama or gown sleeve.
16. Reposition the bed covers. Make the resident comfortable.
17. Place the call light within easy reach of the resident.
18. If the resident desires, return the door and curtains to the open position and if visitors are waiting, tell them they may now enter the room.
19. Wash and dry your hands thoroughly.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the temperature was measured.
2. The name and title of the individual(s) who measured the temperature.
3. That the resident's temperature was axillary.
4. The temperature reading.
5. If the resident refused the procedure, the reason(s) why and the intervention taken.
6. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the procedure.
2. Report other information in accordance with facility policy and professional standards of practice.

Temperature, Oral (Digital Thermometer)

Level II

Purpose

The purpose of this procedure is to measure the resident's body temperature.

Preparation

1. Review the resident's care plan to assess for any special needs of the resident.
2. Assemble the equipment and supplies as needed.

General Guidelines

1. If the resident's temperature is 100°F or greater, it should be taken at least every four (4) hours until it returns to normal.
2. Temperatures below 97°F and above 99°F must be rechecked with another thermometer and must be reported to the nurse supervisor.
3. Keep rectal thermometers separate from oral thermometers.
4. Do not take an oral temperature when the resident:
 - a. Is disoriented or unconscious.
 - b. Is combative or uncooperative.
 - c. Is receiving oxygen or has a nasogastric tube.
 - d. Is breathing through his or her mouth or has a nasal obstruction.
 - e. Cannot keep his or her mouth closed on the thermometer.
 - f. Is suffering from a stroke causing partial paralysis to the face.
5. Store the digital thermometer in its charging stand when it is not in use.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Digital thermometer;
2. Plastic disposable probe cover (sheath);
3. Paper and pencil or pen;
4. Tissue or paper towels; and
5. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Wash and dry your hands thoroughly before beginning the procedure.
2. Place the equipment on the bedside stand or overbed table. Arrange the supplies so that they can be easily reached.
3. Ask the resident if he or she has had hot/cold fluids or has smoked a cigarette, cigar or a pipe within the last thirty (30) minutes. (**Note:** If the answer is yes, wait thirty (30) minutes before measuring the temperature.)
4. If the resident is standing, instruct the resident to sit in a chair or on the edge of the bed.
5. Remove the probe from its stored position.
6. Insert the probe into the probe cover (sheath).

continues on next page

7. Gently place the tip of the probe in the resident's mouth under the tongue.
8. Hold the probe in the resident's mouth.
9. Wait until the digital reading is displayed (usually 15 seconds).
10. Remove the probe from the resident's mouth.
11. Record the temperature reading. Place an "O" in front of the figures. Do not replace the probe until you have recorded the temperature--the reading will automatically return to zero when placed in its holder.
12. Discard the used probe cover (sheath) into the designated container. Do not touch the sheath.
13. Return the probe into its stored position.
14. Reposition the bed covers. Make the resident comfortable.
15. Place the call light within easy reach of the resident.
16. If the resident desires, return the door and curtains to the open position and if visitors are waiting, tell them they may now enter the room.
17. Wash and dry your hands thoroughly.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the temperature was measured.
2. The name and title of the individual(s) who measured the temperature.
3. That the resident's temperature was measured orally.
4. The temperature reading.
5. If the resident refused the procedure, the reason(s) why and the intervention taken.
6. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the procedure.
2. Report other information in accordance with facility policy and professional standards of practice.

Version	1.2 (H5MAPR0275)

Temperature, Rectal (Digital Thermometer)

Level II

Purpose

The purpose of this procedure is to measure the resident's body temperature.

Preparation

1. Review the resident's care plan to assess for any special needs of the resident.
2. Assemble the equipment and supplies as needed.

General Guidelines

1. If the resident's temperature is 100°F or greater, it should be taken at least every four (4) hours until it returns to normal.
2. Temperatures below 97°F and above 99°F must be rechecked with another thermometer and must be reported to the nurse supervisor.
3. Do not take a rectal temperature when the resident:
 - a. Has diarrhea.
 - b. Has a fecal impaction.
 - c. Is combative or uncooperative.
 - d. Has rectal bleeding.
4. Keep rectal thermometers separate from oral thermometers.
5. Store the digital thermometer in its charging stand when it is not in use.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Digital thermometer;
2. Plastic disposable probe cover (sheath);
3. Paper and pencil or pen;
4. Tissue or paper towels; and
5. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Wash and dry your hands thoroughly before beginning the procedure.
2. Place the equipment on the bedside stand or overbed table. Arrange the supplies so that they can be easily reached.
3. Put on disposable gloves.
4. Remove the probe from its stored position.
5. Insert the probe into the sheath.
6. Instruct the resident to turn on his or her side away from you. Assist as necessary.
7. Fold the top covers enough to expose the buttocks. Avoid unnecessary exposure of the resident's body.
8. With one hand, raise the upper buttock until you can see the opening to the rectum.

continues on next page

9. With your free hand, gently insert the covered probe approximately 1.5 inches into the rectum. (Note: Do not force the entry. If you have difficulty with the insertion, summon the staff/charge nurse.)
10. Hold the probe in the resident's rectum.
11. Wait until the digital reading is displayed (usually 15 seconds).
12. Remove the probe from the resident's rectum.
13. Record the temperature reading. Place an "R" in front of the figures. Do not replace the probe until you have recorded the temperature--the reading will automatically return to zero when placed in its holder.
14. Discard the used sheath (probe cover) into the trash receptacle. Do not touch the sheath.
15. Return the probe into its stored position.
16. Remove gloves. Discard into the designated container. Wash and dry your hands thoroughly.
17. Reposition the bed covers. Make the resident comfortable.
18. Place the call light within easy reach of the resident.
19. If the resident desires, return the door and curtains to the open position and if visitors are waiting, tell them they may now enter the room.
20. Wash and dry your hands thoroughly.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the temperature was measured.
2. The name and title of the individual(s) who measured the temperature.
3. That the resident's temperature was measured rectally.
4. The temperature reading.
5. If the resident refused the procedure, the reason(s) why and the intervention taken.
6. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the procedure.
2. Report other information in accordance with facility policy and professional standards of practice.

Temperature, Tympanic

Purpose

The purpose of this procedure is to measure the resident's body temperature.

Preparation

1. Review the resident's care plan to assess for any special needs of the resident.
2. Assemble the equipment and supplies as needed.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Tympanic thermometer;
2. Plastic disposable probe cover;
3. Paper and pencil or pen; and
4. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Wash and dry your hands thoroughly before beginning the procedure.
2. Place the equipment on the bedside stand or overbed table. Arrange the supplies so that they can be easily reached.
3. Attach tympanic probe cover to thermometer unit.
4. Insert probe into ear canal applying a gentle but firm pressure.
5. Remove thermometer after reading is displayed on digital unit, approximately two (2) seconds.
6. Record the temperature reading.
7. Remove probe cover and discard in proper container.
8. Reposition the bed covers. Make the resident comfortable.
9. Place the call light within easy reach of the resident.
10. If the resident desires, return the door and curtains to the open position and if visitors are waiting, tell them they may now enter the room.
11. Wash and dry your hands thoroughly.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the temperature was measured.
2. The name and title of the individual(s) who measured the temperature.
3. That the resident's temperature was measured tympanically.
4. The temperature reading.
5. If the resident refused the procedure, the reason(s) why and the intervention taken.
6. The signature and title of the person recording the data.

continues on next page

Reporting

1. Notify the supervisor if the resident refuses the procedure.
2. Report other information in accordance with facility policy and professional standards of practice.

Weighing and Measuring the Resident

Level II

Purpose

The purposes of this procedure are to determine the resident's weight and height, to provide a baseline and an ongoing record of the resident's body weight as an indicator of the nutritional status and medical condition of the resident, and to provide a baseline height in order to determine the ideal weight of the resident.

Preparation

1. Review the resident's care plan to assess for any special needs of the resident.
2. Assemble equipment and supplies needed.
3. Height is usually measured only once on admission. (Note: Height is measured in feet and inches [12 inches = 1 foot].)
4. Weight is usually measured upon admission and monthly during the resident's stay. (Note: Weight is measured in pounds [16 ounces = 1 pound].)
5. When weighing the resident the following guidelines will promote accurate weight assessment across time:
 - a. If practical, weigh at the same time of day each time.
 - b. If the resident's condition permits, use the same scale for weighing the resident each time.
 - c. If possible, weigh the resident with approximately the same amount of clothing on the resident each time.
6. Be sure that the weight scale is calibrated (balanced to zero).

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Appropriate scale:
 - a. Standing scale (for ambulatory residents); or
 - b. Mechanical lift (for bedfast residents); or
 - c. Platform scale (for non-ambulatory residents);
2. Tape measure (for measuring bedfast or non-ambulatory residents);
3. Pen/pencil and paper;
4. Paper towels; and
5. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Wash and dry your hands thoroughly before and after weighing and measuring each resident.
2. Place the clean supplies on the bedside stand. Arrange the supplies so they can be easily reached.
3. To measure the ambulating resident's weight using the standing scale:
 - a. Assist or take the resident to the scale.
 - b. Calibrate (balance) the scale. (Note: Place both weights at zero [0] and adjust until the balance beam is centered.)
 - c. Assist the resident onto the scale. Be sure the resident's feet are firmly positioned on the scale platform.

continues on next page

- d. Instruct the resident to stand straight and to put both hands at his or her sides.
 - e. Adjust the weights on the upper and lower scale until the pointer stays in the middle of the metal square.
 - f. Note and record the resident's weight.
4. To measure the ambulating resident's height:
 - a. Raise the measuring rod above the resident's head.
 - b. Instruct the resident to turn around so that his or her back is against the measuring rod. Assist as necessary.
 - c. Instruct the resident to stand straight and to place his or her heels so that they touch the measuring bar.
 - d. Bring the measuring rod down until it touches the top of the resident's head.
 - e. Note and record the resident's height.
 - f. Raise the measuring rod.
 - g. Assist the resident down from the platform.
 - h. Assist the resident to his or her room as needed.
 - i. When finished with equipment, return it to the proper storage area.
 5. To measure the bedfast resident's weight using the mechanical lift:
 - a. Zero the scale.
 - b. Roll resident toward you on his or her side.
 - c. Place the sling, fan-folded, along the back of the resident. (Note: Be sure the top of the sling is at the head of the resident and the bottom is at the resident's knees.)
 - d. Roll the resident to the other side and position the sling flat on the bed.
 - e. Attach the hooks to the sling. Be sure the hooks are placed so that they are facing away from the resident.
 - f. Bring the lifter into position over the resident. Be sure the arm of the lifter is in the low position.
 - g. Attach the sling to the lift. Be sure the hooks are placed so that they are facing away from the resident.
 - h. Instruct the resident to fold both arms across his or her chest, if possible.
 - i. If permitted, raise the head of the bed to a sitting position.
 - j. Using the crank, raise the resident from the bed.
 - k. Assist the resident in moving his or her legs off the bed.
 - l. Move the lifter away from the bed. Be sure that the resident is turned in such a manner that the resident is facing you. Do not pull the resident backwards.
 - m. Position the lift over the chair scale. Be sure that the resident is positioned over the seat of the chair.
 - n. Slowly lower the resident into the chair scale.
 - o. To position the resident comfortably in the chair, grasp the top of the sling with one hand and pull back on the sling while lowering the resident into the chair. (Note: You can also push gently on the resident's knees while lowering the resident into the chair.)
 - p. Be sure that the resident is comfortable.
 - q. Remove the hooks from the lift.
 - r. Remove the lifter. Secure the resident in the chair as instructed.
 - s. Adjust the scale until the pointer is balanced. (Note: Be sure to allow for the weight of the sling.)
 - t. Note and record the resident's weight.
 6. To return the resident to bed after using the mechanical lift:
 - a. Attach the hooks to the sling. Be sure the hooks are facing away from the resident.
 - b. Bring the lifter into position over the resident. Be sure the lifter is in the low position.
 - c. Attach the sling to the lift. Be sure the hooks are facing away from the resident.
 - d. Instruct the resident to fold both arms over his or her chest, if possible.

continues on next page

- e. Using the crank, raise the resident from the chair scale.
 - f. Assist the resident in guiding his or her legs.
 - g. Move the lifter away from the chair. Be sure the resident is turned in such a manner that the resident is facing you. Do not pull the resident backwards.
 - h. Position the lift over the bed.
 - i. Lower the resident into the center of the bed.
 - j. Remove the hooks from the lift.
 - k. Remove the hooks from the sling.
 - l. Remove the sling from under the resident.
 - m. Remove the lifter.
 - n. Position the resident in a comfortable position that promotes good body alignment.
7. To measure the bedfast/non-ambulatory resident's height, you should:
 - a. Lower the bed to a flat position, if not contraindicated.
 - b. Remove the pillow from the resident's head, if not contraindicated.
 - c. Place the tape measure at the top of the resident's head. Measure to the sole of the resident's feet.
 - d. Note and record the resident's height.
 - e. Replace the pillow under the resident's head.
 8. To measure the non-ambulatory resident's weight using the platform scale:
 - a. Zero the scale.
 - b. Weigh the wheelchair. Record the weight.
 - c. Assist the resident into the wheelchair.
 - d. Transport resident to platform scale.
 - e. Roll the resident onto the platform. Lock the wheels.
 - f. Adjust both weights until the balance beam is centered.
 - g. Note and record the resident's weight. (Note: Subtract the weight of the wheelchair.)
 - h. Unlock the wheels. Roll resident from the platform.
 - i. Transport the resident to his or her room.
 9. Discard disposable supplies in the designated containers.
 10. Clean reusable equipment according to the manufacturer's instructions.
 11. Clean the bedside stand.
 12. Reposition the bed covers. Make the resident comfortable.
 13. Place the call light within easy reach of the resident.
 14. Wash and dry your hands thoroughly.
 15. If the resident desires, return the door and curtains to the open position and if visitors are waiting, tell them they may now enter the room.

Documentation

The following information should be recorded in the resident's medical record:

1. The date and time the procedure was performed.
2. The name and title of the individual(s) who performed the procedure.
3. The height and weight of the resident.
4. All assessment data obtained during the procedure.
5. How the resident tolerated the procedure.
6. If the resident refused the procedure, the reason(s) why and the intervention taken.
7. The signature and title of the person recording the data.

continues on next page

Reporting

1. Report significant weight loss/weight gain to the nurse supervisor.
2. The threshold for significant unplanned and undesired weight loss/gain will be based on the following criteria (where *percentage of body weight loss* = $[usual\ weight - actual\ weight] / [usual\ weight] \times 100$):
 - a. 1 month – 5% weight loss is significant; greater than 5% is severe.
 - b. 3 months – 7.5% weight loss is significant; greater than 7.5% is severe.
 - c. 6 months – 10% weight loss is significant; greater than 10% is severe.
3. Notify the Nurse Supervisor if the resident refuses the procedure.
4. Report other information in accordance with facility policy and professional standards of practice.

Charting and Documentation

Policy Statement

All services provided to the resident, progress toward the care plan goals, or any changes in the resident's medical, physical, functional or psychosocial condition, shall be documented in the resident's medical record. The medical record should facilitate communication between the interdisciplinary team regarding the resident's condition and response to care.

Policy Interpretation and Implementation

1. Documentation in the medical record may be electronic, manual or a combination.
2. The following information is to be documented in the resident medical record:
 - a. Objective observations;
 - b. Medications administered;
 - c. Treatments or services performed;
 - d. Changes in the resident's condition;
 - e. Events, incidents or accidents involving the resident; and
 - f. Progress toward or changes in the care plan goals and objectives.
3. Documentation in the medical record will be objective (not opinionated or speculative), complete, and accurate.
4. Entries may only be recorded in the resident's clinical record by licensed personnel (e.g., RN, LPN/LVN, physicians, therapists, etc.) in accordance with state law and facility policy. Certified nursing assistants may only make entries in the resident's medical chart as permitted by facility policy.
5. Information documented in the resident's clinical record is confidential and may only be released in accordance with state law, the Health Insurance Portability and Accountability Act (HIPAA) and facility policy. Refer all requests for information to the director of nursing services, nurse supervisor/charge nurse or to the business office.
6. To ensure consistency in charting and documentation of the resident's clinical record, only facility approved abbreviations and symbols may be used when recording entries in the resident's clinical records.
7. Documentation of procedures and treatments will include care-specific details, including:
 - a. the date and time the procedure/treatment was provided;
 - b. the name and title of the individual(s) who provided the care;
 - c. the assessment data and/or any unusual findings obtained during the procedure/treatment;
 - d. how the resident tolerated the procedure/treatment;
 - e. whether the resident refused the procedure/treatment;
 - f. notification of family, physician or other staff, if indicated; and
 - g. the signature and title of the individual documenting.

Charting Errors and/or Omissions

Policy Statement

Accurate medical records shall be maintained by this facility.

Policy Interpretation and Implementation

1. If an error is made while recording the data in the medical record, line through the error with a single line and correct the error.
2. If it is necessary to change or add information in the resident's medical record, it shall be completed by means of an addendum and signed and dated by the person making such change or addition.
3. Late entries in the medical record shall be dated at the time of entry and noted as a "late entry."
4. No erasures or deletions shall be made in the medical record. Correction fluid shall not be used in the correction of mistakes or errors in the medical record when making original entries.
5. All corrections, changes, or addenda must be signed and dated by the person making such entries.

Electronic Medical Records

Policy Statement

Electronic medical records may be used in lieu of paper records when approved by the administrator.

Policy Interpretation and Implementation

1. Electronic records are an acceptable form of medical record management.
2. The administrator, in conjunction with the quality assurance and performance improvement committee, shall review requests for and the implementation of our electronic medical records system.
3. Only authorized persons who have been issued a password and user ID code will be permitted access to the electronic medical records system.
4. The facility will make reasonable efforts to limit the use or disclosure of protected health information to only the minimum necessary to accomplish the intended purpose of the use or disclosure.
5. The HIPAA compliance officer, administrator and director of nursing services maintain a listing of each user ID code. Such listing is confidential and secured.
6. When personnel changes occur, or there is reason to believe that unauthorized access to protected information has occurred, the HIPAA compliance officer, administrator and director of nursing services shall review the security of the information and change user ID codes if necessary.
7. Authorized federal and state survey agents, etc., as outlined in current regulations, may be granted access to electronic medical records.
8. Our electronic medical records system has safeguards to prevent unauthorized access of electronic protected health information (e-PHI). These safeguards include administrative, technical and physical safeguards that are appropriate for:
 - a. the probability and criticality of risks to e-PHI based on a thorough risk analysis conducted by this facility;
 - b. the size, complexity and capabilities of this organization; and
 - c. the technical infrastructure, hardware, software and security capabilities.

Electronic Transmission of the MDS

Policy Statement

All MDS assessments (e.g., admission, annual, significant change, quarterly review, etc.) and discharge and reentry records are completed and electronically encoded into our facility's MDS information system and transmitted to CMS' QIES Assessment Submission and Processing (ASAP) system in accordance with current OBRA regulations governing the transmission of MDS data.

Policy Interpretation and Implementation

1. All staff members responsible for completion of the MDS receive training on the assessment, data entry, and transmission processes, in accordance with the MDS RAI Instruction Manual, before being permitted to use the MDS information system. A copy of the MDS RAI Instruction Manual is maintained by the resident assessment coordinator.
2. Staff members are trained on updates/revisions to the MDS form and software upgrades as they are released. Such training is provided by the staff development director and/or computer software vendor.
3. Only personnel authorized to complete portions of the MDS have access to the MDS information system. Access codes and passwords are changed at least twice yearly.
4. A current list of employees who have access to the MDS information system is maintained by the resident assessment coordinator. The list contains each employee's access code and password.
5. Only the administrator, director of nursing services and resident assessment coordinator have access to this list.
6. The resident assessment coordinator is responsible for providing the administrator and director of nursing services with a current access list.
7. Employee access codes and passwords are provided by the resident assessment coordinator. Access codes and passwords are deleted within twenty-four hours of the employee's termination from employment or when the employee no longer has responsibility for completing portions of the MDS.
8. The MDS coordinator is responsible for ensuring that appropriate edits are made prior to transmitting MDS data and that feedback and validation reports from each transmission are maintained for historical purposes and for tracking.
9. Resident assessments are maintained electronically and can be printed at the request of authorized individuals, including the resident.
10. All electronically submitted MDSs have corresponding hard copy (printed) signature pages on file. These signature pages include:
 - a. information that identifies the resident;
 - b. the type of assessment;
 - c. dates of completion; and
 - d. signatures of each individual involved in completing the assessment.
11. Signature pages are maintained in the resident's active clinical record for 15 months.
12. All MDS assessment data is backed up daily.

MDS Completion and Submission Timeframes

Policy Statement

Our facility will conduct and submit resident assessments in accordance with current federal and state submission timeframes.

Policy Interpretation and Implementation

1. The assessment coordinator or designee is responsible for ensuring that resident assessments are submitted to CMS' QIES Assessment Submission and Processing (ASAP) system in accordance with current federal and state guidelines.
2. Timeframes for completion and submission of assessments is based on the current requirements published in the *Resident Assessment Instrument Manual*.
3. Submission of MDS records to the QIES ASAP is electronic. A hard copy of each record submitted is maintained in the resident's clinical record for a period of fifteen (15) months from the date submitted.

MDS Error Correction

Policy Statement

The assessment coordinator and/or the interdisciplinary assessment team will follow the established processes for making corrections to the MDS.

Policy Interpretation and Implementation

1. Once completed, edited and accepted into the QIES ASAP system, MDS data may not be changed just because the resident's status has changed during the course of his or her stay at the facility.
 - a. Minor changes in condition or status are documented in the resident's medical record and adjustments in care or services are made in accordance with standards of clinical practice.
 - b. Major changes in the resident's status may prompt a significant change in status assessment, as described below.
2. Note that the QIES ASAP system has defined record rejection standards and data that is outside the reference range will not be accepted by the system (e.g., a 4 is entered when only 0-3 are allowable responses).
3. If an error in data is discovered within 7 days of the completion of the MDS and before submission to the QIES ASAP system (the "encoding and editing period"):
 - a. The correction is made to the hard copy of the form using standard editing procedures (cross out, enter correct response, initial and date);
 - b. Corresponding corrections are made to the facility's MDS database. (Note: Software used to encode the MDS runs all standard edits as defined in the CMS data specifications); and
 - c. The resident's care plan is reviewed and modified as necessary.
4. If an error is discovered after the encoding and editing period and the record in error is an entry, discharge or PPS assessment, then correct the record and submit to the QIES ASAP system.
5. If an error is discovered after the encoding period and the record in error is an OBRA assessment, determine if the error is *major* or *minor*.
 - a. A *minor* error is one related to the coding of the MDS. For minor errors, correct the record and submit to the QIES ASAP system.
 - b. A *major* error is one that inaccurately reflects the resident's clinical status and/or may result in an inappropriate plan of care. For major errors:
 - (1) correct the original assessment to reflect the resident's status as of the original assessment reference date and submit the record; AND
 - (2) perform a new significant change in status (if this has occurred) OR a new significant correction to a prior assessment with a new observation period and assessment reference date.
6. If an error is discovered in a record that has already been accepted by the QIES ASAP system, implement procedures for either modification or inactivation of the information in the system within 14 days of the discovery of the error.

continues on next page

7. Modification requests are used when information in the record contains clinical or demographic errors. [Note: The only MDS items that cannot be altered with a modification request are: Type of Provider (A0200), Submission Requirement A0410); and the state-assigned facility submission ID (FAC_ID). These items require a special manual record correction request.]
8. To modify errors in entry, PPS, or discharge records that are not OBRA:
 - a. create a corrected record with all items included, not just the items in error;
 - b. complete the correction request section (X) items and include with the corrected record (Item X0100 should have a value of 2, indicating a modification request.); and
 - c. submit the modification request record.
9. To modify errors in an OBRA assessment when the errors are minor:
 - a. create a corrected record with all items included, not just the items in error;
 - b. complete the correction request section (X) items and include with the corrected record (Item X0100 should have a value of 2, indicating a modification request.); and
 - c. submit the modification request record.
10. To modify errors in an OBRA assessment when the errors are major:
 - a. create a corrected record with all items included, not just the items in error;
 - b. complete the correction request section (X) items and include with the corrected record (Item X0100 should have a value of 2, indicating a modification request.);
 - c. submit the modification request record; and
 - d. perform a new significant change in status assessment (if this has occurred) OR a new significant correction of a prior assessment.
11. Inactivation requests are used when a record has been accepted to the QIES ASAP system but the corresponding event did not occur (e.g., a discharge record was submitted for a resident but there was no discharge).
12. To submit an inactivation request, complete and submit an MDS record with only section X items completed.
13. For manual record correction request instructions, refer to the RAI User's Manual.

Release of Information

Policy Statement

Our facility maintains the confidentiality of each resident's personal and protected health information.

Policy Interpretation and Implementation

1. Each resident will receive confidential treatment of his or her personal and medical records and may approve or refuse their release to any individual outside the facility, except in case of a transfer to another healthcare institution or as required by current HIPAA law.
2. Medical records are the property of the facility.
3. All information contained in the resident's medical record is confidential and may only be released by the written consent of the resident or his/her legal representative (sponsor), consistent with state laws and regulations.
4. Release of resident information including video, audio, or electronically stored information will be based on the facility's concern for protecting resident rights.
5. Access to the resident's medical records will be limited to the staff and consultants providing services to the resident. (Note: Representatives of state and federal regulatory agencies have access to resident information without the resident's consent.)
6. Resident records, whether medical, financial, or social in nature, are safeguarded to protect the confidentiality of the information. Only those persons concerned with the fiscal affairs of the resident will have access to the resident's financial records as permitted by current HIPAA laws.
7. Closed or thinned medical records are maintained in the medical records department and are available only to authorized personnel. Authorized personnel include, but are not necessarily limited to:
 - a. nursing personnel;
 - b. physicians;
 - c. consultants;
 - d. support services (i.e., dietary, activities, social, etc.);
 - e. administration;
 - f. government agencies; and/or
 - g. resident/representative (sponsor).
8. The resident may initiate a request to release such information contained in his/her records and charts to anyone he/she wishes. Such requests will be honored only upon the receipt of a written, signed, and dated request from the resident or representative (sponsor).
9. A resident may have access to his or her records within _____ hours (excluding weekends or holidays) of the resident's written or oral request.
10. A resident may obtain photocopies of his or her records by providing the facility with at least a forty-eight (48) hour (excluding weekends and holidays) advance notice of such request. A fee may be charged for copying services.
11. The facility may recommend that the resident or representative review the active chart in the presence of a knowledgeable staff person who can discuss the information and answer questions capably.

Assistance with Meals

Policy Statement

Residents shall receive assistance with meals in a manner that meets the individual needs of each resident.

Policy Interpretation and Implementation

Dining Room Residents:

1. All residents will be encouraged to eat in the dining room.
2. Facility staff will serve resident trays and will help residents who require assistance with eating.
3. Residents who cannot feed themselves will be fed with attention to safety, comfort and dignity, for example:
 - a. not standing over residents while assisting them with meals;
 - b. keeping interactions with other staff to a minimum while assisting residents with meals;
 - c. avoiding the use of labels when referring to residents (e.g., “feeders”); and
 - d. avoiding the use of bibs or clothing protectors instead of napkins, unless requested by the resident.

Residents Who May Benefit from Assistive Devices:

1. Adaptive devices (special eating equipment and utensils) will be provided for residents who need or request them. These may include devices such as silverware with enlarged/padded handles, plate guards, and/or specialized cups.
2. Assistance will be provided to ensure that residents can use and benefit from special eating equipment and utensils.
3. Residents may choose not to use adaptive devices.

Residents Confined to Bed:

1. The food services department will deliver food carts to appropriate areas.
2. The nursing staff will prepare residents for eating.
3. The nursing staff and/or feeding assistants will take food trays into residents' rooms.
4. Nursing services and/or feeding assistants will pick up residents' food trays after each meal and will notify the food services staff to pick up food carts.

Residents Requiring Full Assistance:

1. Nursing staff will remove food trays from the food cart and deliver the trays to each resident's room.
2. Residents who cannot feed themselves will be fed with attention to safety, comfort and dignity, for example:
 - a. not standing over residents while assisting them with meals;
 - b. keeping interactions with other staff to a minimum while assisting residents with meals;

continues on next page

- c. avoiding the use of labels when referring to residents (e.g., “feeders”); and
- d. avoiding the use of bibs or clothing protectors instead of napkins, unless requested by the resident.

Residents with Feeding Tubes:

- 1. Nursing staff will provide feedings to tube-fed residents.
- 2. Commercially produced tube feeding formulas will be used based on review by the medical director, dietitian and director of nursing services.

All residents:

- 1. Hot foods shall be held at a temperature of 136 degrees or above until served. Cold foods shall be held at 40 degrees or below until served. Nursing and dietary services will establish procedures such that delivery of food to serving areas accommodates this requirement.
- 2. To minimize the risk of foodborne illness, the time that potentially hazardous foods remain in the “danger zone” (41°F to 135°F) will be kept to a minimum. Foods that are left on trays without a source of heat (for hot foods) or refrigeration (for cold foods) longer than 2 hours will be discarded.
- 3. All employees who provide resident assistance with meals will be trained and shall demonstrate competency in the prevention of foodborne illness, including personal hygiene practices and safe food handling.

Food Allergies and Intolerances

Policy Statement

Residents with food allergies and/or intolerances are identified upon admission and offered food substitutions of similar appeal and nutritional value. Steps are taken to prevent resident exposure to the allergen(s).

Policy Interpretation and Implementation

General Guidelines:

1. **Food allergies** are immune system responses to allergens (foods). IgE antibodies to foods attach to mast cells in body tissue (e.g., skin, nose, throat, lungs and gastrointestinal tract) and basophils in blood. When allergens are eaten, the IgE antibodies attach to mast cells and basophils in certain sites and those cells produce histamine, an inflammatory compound.
2. **Food intolerances** are unpleasant reactions to specific foods that are not life threatening but can necessitate avoidance of the triggering foods. For example, lactose intolerance is the inability to digest milk sugars due to a deficiency in the enzyme lactase. Lactose intolerance causes gas, bloating, cramping and diarrhea.

Assessment and Interventions:

1. Residents are assessed for a history of food allergies and intolerances upon admission and as part of the comprehensive assessment.
2. All resident reported food allergies and intolerances are documented in the assessment notes and incorporated into the resident's care plan.
3. Severe food allergies are noted on the face of the chart (in the form of a sticker or permanent marking indicating "Severe Food Allergy: (name of food)" and communicated in writing directly to the dietitian and the director of food and nutrition services.
4. Meals for residents with severe food allergies are specially prepared so that cross-contamination with allergens does not occur.
5. Residents with food intolerances and allergies are offered appropriate substitutions for foods that they cannot eat.
6. The dietitian will determine whether food allergies or intolerances are interfering with the resident's overall nutrition status and make recommendations regarding appropriate food substitutions and/or dietary supplements.
7. Nursing staff and food service employees are trained in the signs and symptoms of allergic reactions to foods and basic first aid measures in the event of a food allergy emergency.
8. The attending physician will be notified of the resident's food allergies and orders for emergency medications (e.g., epinephrine, antihistamines) and emergency interventions will be documented.

Food and Nutrition Services

Policy Statement

Each resident is provided with a nourishing, palatable, well-balanced diet that meets his or her daily nutritional and special dietary needs, taking into consideration the preferences of each resident.

Policy Interpretation and Implementation

1. The multidisciplinary staff, including nursing staff, the attending physician and the dietitian will assess each resident's nutritional needs, food likes, dislikes and eating habits, as well as physical, functional, and psychosocial factors that affect eating and nutritional intake and utilization.
2. A resident-centered diet and nutrition plan will be based on this assessment.
3. Meals and/or nutritional supplements will be provided within 45 minutes of either resident request or scheduled meal time, and in accordance with the resident's medication requirements.
4. Reasonable efforts will be made to accommodate resident choices and preferences.
5. The food and nutrition staff will be available and adequately staffed to assist residents with eating as needed. Nurse aides and feeding assistants will provide support to enhance the resident experience, but not as a critical component to the functioning of the department.
6. Nursing staff will ensure that assistive devices are available to residents as needed.
7. Food and nutrition services staff will inspect food trays to ensure that the correct meal is provided to each resident, the food appears palatable and attractive, and it is served at a safe and appetizing temperature.
 - a. If an incorrect meal is provided to a resident, or a meal does not appear palatable, nursing staff will report it to the food service manager so that a new food tray can be issued.
 - b. Foods that are left without a source of heat (for hot foods) or refrigeration (for cold foods) longer than 2 hours will be discarded.
8. Nursing personnel, with the assistance of the food and nutrition services staff, will evaluate (and document as indicated) food and fluid intake of residents with, or at risk for, significant nutritional problems.
 - a. Variations from usual eating or intake patterns will be recorded in the resident's medical record and brought to the attention of the nurse.
 - b. A nurse will evaluate the significance of such information and report it, as indicated, to the attending physician and dietitian.
9. Meals are scheduled at regular times to assure that each resident receives at least three (3) meals per day. Meal times are posted in facility common areas.
10. Nourishing snacks are available to the residents 24 hours a day. The resident may request snacks as desired, or snacks may be scheduled between meals to accommodate the resident's typical eating patterns.

Foods Brought by Family/Visitors

Policy Statement

Food brought to the facility by visitors and family is permitted. Facility staff will strive to balance resident choice and a homelike environment with the nutritional and safety needs of residents.

Policy Interpretation and Implementation

1. Family members and visitors are requested to inform nursing staff of their desire to bring foods into the facility.
2. Nursing staff will provide family/visitors who wish to bring foods to the facility with a copy of this policy. Residents will also be provided a copy in a language and format he or she can understand.
3. Foods brought by family/visitors for individual residents may not be shared with or distributed to other residents.
4. Family/visitors are asked to prepare and transport food using safe food handling practices, including:
 - a. safe cooling and reheating processes;
 - b. holding temperatures;
 - c. preventing cross-contamination with raw or undercooked foods; and
 - d. hand hygiene.
5. All personnel involved in preparing, handling, serving or assisting the resident with meals or snacks will be trained in safe food handling practices.
6. Safe food handling practices will be explained to family/visitors in a language and format they understand.
7. Food brought by family/visitors that is left with the resident to consume later will be labeled and stored in a manner that it is clearly distinguishable from facility-prepared food.
 - a. Non-perishable foods will be stored in re-sealable containers with tight-fitting lids. Intact fresh fruit may be stored without a lid.
 - b. Perishable foods must be stored in re-sealable containers with tightly fitting lids in a refrigerator. Containers will be labeled with the resident's name, the item and the "use by" date.
8. The nursing staff will discard perishable foods on or before the "use by" date.
9. The nursing and/or food service staff will discard any foods prepared for the resident that show obvious signs of potential foodborne danger (for example, mold growth, foul odor, past due package expiration dates).
10. Potentially hazardous foods that are left out for the resident without a source of heat or refrigeration longer than 2 hours will be discarded.
11. Foods that present a potential choking hazard for residents with impaired cognitive function or swallowing difficulty will be taken from the resident and returned to the family/visitor.
12. Facility staff will assist the resident with accessing his or her food if unable to do so independently.

continues on next page

13. When meals or snacks are provided by family/visitors, the nurse will inform the dietitian of these substitutions.
14. When meals or snacks are provided by family/visitors frequently (more than 3 times a week), the dietitian or nurse may request a meeting with the resident or representative to discuss the nutrition goals and wishes of the resident.

Frequency of Meals

Policy Statement

Each resident shall receive at least three (3) meals daily, at times comparable to typical mealtimes in the community, or in accordance with resident needs, preferences, requests and the plan of care.

Policy Interpretation and Implementation

1. The facility will serve at least three (3) meals or their equivalent daily at scheduled times. There will not be more than a fourteen (14) hour span between the evening meal and breakfast.
2. Meals will be served four (4) to six (6) hours apart to help assure that residents receive nutritional requirements. The following meal times have been established by our facility for residents:

Breakfast	
Lunch	
Dinner	

3. A schedule of meal times and snacks shall be posted in resident areas.
4. Alternative meals will be offered to residents who choose to eat at non-traditional or outside of scheduled mealtimes, consistent with the plan of care.
5. Nourishing snacks will be available for residents who need or desire additional food between meals.
6. Evening snacks will be offered routinely to all residents. Timing of the snack will consider relevant factors (e.g., individuals with gastroesophageal reflux disease may be advised not to eat too close to bedtime).
7. Residents will also be offered nourishing snacks if the time span between the evening meal and the next day's breakfast exceeds fourteen (14) hours. Nourishing snacks are items from the basic food groups, offered either separately or with each other.
8. A substantial evening meal is an offering of two or more menu items at one time, one of which includes a high quality protein such as meat, fish, eggs or cheese. The meal represents no less than 20% of the day's total nutritional requirements.
9. The facility will choose the snacks that are served at bedtime. However, the dietitian and food services manager will solicit input from the residents and/or the resident council.

Interdepartmental Notification of Diet (Including Changes and Reports)

Policy Statement

Nursing services shall notify the food and nutrition services department of a resident's diet orders, including any changes in the resident's diet, meal service, and food preferences.

Policy Interpretation and Implementation

1. When a new resident is admitted, or a diet has been changed, the nurse supervisor shall ensure that the food and nutrition services department receives a written notice of the diet order.
2. The food and nutrition services department will be notified verbally if the diet change or report occurs one hour or less before a scheduled meal, or if circumstances indicate that the written procedures will not be adequate to ensure service at the next meal.
3. Should a resident be away from the facility during meal hours, the food and nutrition services department shall be notified, either verbally or in writing, that the resident will be away and when the resident is expected to return. Written notification will be provided for absences of more than one meal.
4. Should it become necessary to hold a resident's food tray (e.g., because the individual is scheduled to have a test or treatment requiring abstention from eating), the nursing staff on the appropriate unit will inform the food and nutrition services department in writing and will indicate when the food tray may be sent to the resident.
5. Nursing services shall notify the physician and dietitian when a nutritional problem (e.g., weight loss, pressure ulcer, eating problem, etc.) has been identified and shall collaborate with the dietitian and physician to initiate an appropriate process of clinical review for causes of the nutritional problem.
6. Each nursing station shall maintain a supply of diet order/change in diet forms.

Paid Feeding Assistants

Policy Statement

Residents are assessed for appropriateness for the feeding assistant program and receive services according to their plan of care. Paid feeding assistants are trained and supervised.

Policy Interpretation and Implementation

1. Paid feeding assistants provide dining assistance only for residents with no complicated feeding problems. Complicated feeding problems include difficulty swallowing, recurrent lung aspirations and tube or parenteral IV feedings.
2. Residents are assessed for appropriateness for the feeding assistant program by the interdisciplinary team, taking into consideration the most recent assessment and plan of care.
3. Only residents who have been selected by the interdisciplinary team are eligible for feeding assistance by a paid feeding assistant.
4. Paid feeding assistants must successfully complete a state-approved training course taught by qualified professionals (as defined by state law) before being permitted to feed residents.
5. Our facility's state-approved training program consists of eight (8) hours of training in the following topics:
 - a. Feeding techniques;
 - b. Assistance with feeding and hydration;
 - c. Communication and interpersonal skills;
 - d. Appropriate responses to resident behavior;
 - e. Safety and emergency procedures, including the Heimlich maneuver;
 - f. Infection control;
 - g. Resident rights; and
 - h. Recognizing changes in residents that are inconsistent with their normal behavior and the importance of reporting those changes to the supervisory nurse.
6. In conjunction with the facility's registered dietitian (RD), an RN will oversee the feeding assistant training program to ensure that feeding techniques are taught correctly.
7. Our facility's paid feeding assistants will work under the supervision of a registered nurse (RN) or a licensed practical nurse (LPN). Specifically, the supervising nurse will monitor paid feeding assistants for:
 - a. the use of appropriate feeding techniques;
 - b. whether they are assisting the resident according to his/her identified eating and drinking needs;
 - c. whether they are respecting the resident's rights and dignity; and
 - d. adherence to infection control and safe food handling practices.
8. The use of paid feeding assistants is not intended to substitute for nursing staff.
9. In the case of an emergency, the paid feeding assistant shall call the nurse supervisor through the resident call system.

continues on next page

10. Paid feeding assistants will report or record resident intake after each meal, and report changes in eating patterns to the RN and/or RD.
11. The administrative office will maintain a record of each individual's completion of the feeding assistant training course and a record of all individuals used as paid feeding assistants.
12. Any staff who has successfully completed the feeding assistant training program may feed residents.
13. Inquiries concerning our facility's use of paid feeding assistants should be referred to the director of nursing services or to the administrator.

Preventing Foodborne Illness – Employee Hygiene and Sanitary Practices

Policy Statement

Food and nutrition services employees will follow appropriate hygiene and sanitary procedures to prevent the spread of foodborne illness.

Policy Interpretation and Implementation

1. All employees who handle, prepare or serve food will be trained in the practices of safe food handling and preventing foodborne illness. Employees will demonstrate knowledge and competency in these practices prior to working with food or serving food to residents.
2. Employees who handle food must be free of acute respiratory or gastrointestinal infection or lesions on their hands or other exposed body parts.
3. Food and nutrition services employees must inform the supervisor of:
 - a. diarrheal illness;
 - b. salmonella, shigella or hepatitis infections (of self or close family member);
 - c. boils or infected wounds;
 - d. persistent discharge from the eyes, nose or mouth;
 - e. staphylococcal infection; and/or
 - f. diagnosed streptococcal (Group A) sore throat.
4. Employees with salmonella infection must be reassigned from food handling duties until after three (3) negative stool cultures are taken twenty-four (24) hours apart.
5. Employees with shigella infection must be reassigned from food handling duties until three (3) negative stool cultures are taken forty-eight (48) hours after the discontinuance of antibiotics.
6. Employees must wash their hands:
 - a. after personal body functions (i.e., toileting, blowing/wiping nose, coughing, sneezing, etc.);
 - b. after using tobacco, eating or drinking;
 - c. whenever entering or re-entering the kitchen;
 - d. before coming in contact with any food surfaces;
 - e. after handling raw meat, poultry or fish and when switching between working with raw food and working with ready-to-eat food;
 - f. after handling soiled equipment or utensils;
 - g. during food preparation, as often as necessary to remove soil and contamination and to prevent cross contamination when changing tasks; and/or
 - h. after engaging in other activities that contaminate the hands.
7. **Antimicrobial hand gel CANNOT be used in place of handwashing in food service areas.**
8. Contact between food and bare (ungloved) hands is prohibited.
9. Food service employees will be trained in the proper use of utensils such as tongs, gloves, deli paper and spatulas as tools to prevent foodborne illness.

continues on next page

10. Gloves are considered single-use items and must be discarded after completing the task for which they are used. The use of disposable gloves does not substitute for proper handwashing.
11. Clean uniforms must be worn daily.
12. Hair nets or caps and/or beard restraints must be worn to keep hair from contacting exposed food, clean equipment, utensils and linens.
13. Jewelry will be kept to a minimum and hand jewelry (e.g., rings) will be kept covered with gloves during food handling. Fingernails shall be kept clean and trimmed.
14. Personnel may not smoke or use other tobacco products, eat or drink in the food preparation area.

Preventing Foodborne Illness – Food Handling

Policy Statement

Food will be stored, prepared, handled and served so that the risk of foodborne illness is minimized.

Policy Interpretation and Implementation

1. This facility recognizes that the critical factors implicated in foodborne illness are:
 - a. poor personal hygiene of food service employees;
 - b. inadequate cooking and improper holding temperatures;
 - c. contaminated equipment; and
 - d. unsafe food sources.
2. With these factors as the primary focus of preventative measures, this facility strives to minimize the risk of foodborne illness to our residents.
3. All employees who handle, prepare or serve food will be trained in the practices of safe food handling and preventing foodborne illness. Employees will demonstrate knowledge and competency in these practices prior to working with food or serving food to residents.
4. This facility only accepts prepared foods from suppliers subject to federal, state or local food service inspections and who remain in good standing with such agencies.
5. Functioning of the refrigeration and food temperatures will be monitored at designated intervals throughout the day and documented according to state-specific requirements. Federal standards require that refrigerated food be stored below 41°F, and that freezers keep frozen foods solid.
6. Potentially hazardous foods will be cooked to the appropriate internal temperatures and held at those temperatures for the appropriate length of time to destroy pathogenic microorganisms.
7. Potentially hazardous foods held in the “danger zone” (41°F to 135°F) for more than 4 hours (if being prepared from ingredients at room temperature) or 6 hours (if cooked and then cooled) will be discarded.
8. Food that has been served to residents without temperature controls (e.g., trays, snacks, etc.) will be discarded if not eaten within two hours.
9. All food service equipment and utensils will be sanitized according to current guidelines and manufacturers’ recommendations.
10. No one may bring or house animals in any area used for the storage, preparation, or serving of food.
11. Supervised pets related to specific activities (e.g., formal pet-related activities or guide dogs for visually impaired individuals) will be allowed in the dining area but not in areas used to prepare or store food.
12. Outbreaks (or suspected outbreaks) of foodborne illness will be reported to the local health department.

Resident Food Preferences

Policy Statement

Individual food preferences will be assessed upon admission and communicated to the interdisciplinary team. Modifications to diet will only be ordered with the resident’s or representative’s consent.

Policy Interpretation and Implementation

1. Upon the resident’s admission (or within twenty-four (24) hours after his/her admission) the dietitian or nursing staff will identify a resident’s food preferences.
2. When possible, staff will interview the resident directly to determine current food preferences based on history and life patterns related to food and mealtimes.
3. Nursing staff will document the resident’s food and eating preferences in the care plan.
4. The dietitian and nursing staff, assisted by the physician, will identify any nutritional issues and dietary recommendations that might be in conflict with the resident’s food preferences.
5. The dietitian will discuss with the resident or representative the rationale of any prescribed therapeutic diet. The physician and dietitian will communicate the risks and benefits of specialized therapeutic vs. liberalized diets.
6. Therapeutic diets will be ordered only after the resident/representative agrees with and consents to such a diet.
7. The resident has the right not to comply with therapeutic diets.
8. If the resident refuses or is unhappy with his or her diet, the staff will create a care plan that the resident is satisfied with.
9. Documenting that a resident is refusing meals due to “non-compliance” with diet orders is not appropriate.
10. The food services department will offer a variety of foods at each scheduled meal, as well as access to nourishing snacks throughout the day and night.
11. The facility’s quality assessment and performance improvement (QAPI) committee will periodically review issues related to food preferences and meals to try to identify more widespread concerns about meal offerings, food preparation, etc.

Resident-Maintained Gardens

Policy Statement

Produce harvested from resident-maintained gardens may be served to residents as long as the produce is stored, prepared and served under sanitary conditions.

Policy Interpretation and Implementation

1. The use of fresh produce in resident food choices is encouraged, including produce grown in resident-maintained gardens.
2. The facility shall follow safe food handling practices at all times, including the handling of produce harvested from resident-maintained gardens.
3. The facility will follow state and local requirements related to food grown on site for resident consumption.
4. Food safety tips for growing and preparing produce intended for consumption include the following:
 - a. Preventing contamination is more effective in preventing foodborne illness than relying on cooking or washing produce.
 - b. During the growing and harvesting seasons, keep gardens as free from domestic and wild animals as possible.
 - (1) Consider fencing the garden area.
 - (2) Remove unnecessary vegetation from the edges of produce gardens. These can attract nesting birds and animals.
 - (3) Remove decaying produce, or anything that would attract pests, from the garden.
 - c. Keep harvesting supplies and equipment clean.
 - d. Use domestic green manure or heat-treated manure for fertilizer. Do not use manure from dogs, cats or pigs to fertilize the garden.
 - e. Maximize the time between manure application and harvest.
 - f. Do not use “gray water” (wastewater from showers, baths, washing machines, etc.) to irrigate the garden.
 - g. Minimize contact between water and the edible parts of plants.
 - h. Use only potable water for watering leaves and/or washing produce.
5. Follow hand hygiene practices before and after gardening and before handling fresh produce.
6. Report any outbreaks of foodborne illness to the local health department.

Residents on Leave or Pass

Policy Statement

The food services department shall be notified when a resident will be away from the facility during scheduled meal times.

Policy Interpretation and Implementation

1. Nursing services will notify the food services department when a resident will be away from the facility during meal times. Notification will be in writing unless time constraints require verbal notification.
2. Such information will include, but is not necessarily limited to:
 - a. which meal(s) the resident will miss;
 - b. how long the resident will be absent; and
 - c. which meal the resident will be served upon returning to the facility.
3. Should the resident return before his/her scheduled return date, or will be away longer than planned, nursing services will notify the food services department of such information.

Assisting the Impaired Resident with In-Room Meals

Level I

Purpose

The purpose of this procedure is to provide appropriate support for residents who need assistance with eating.

Preparation

1. Review the resident's care plan and provide for any special needs of the resident.
2. Assemble equipment and supplies needed.
3. Check the tray before serving it to the resident to be sure that it is the correct diet ordered and that the food consistency is appropriate to the resident's ability to chew and swallow.
4. Ensure that the necessary non-food items (i.e., silverware, napkin, special devices, straw, etc.) are on the tray. Report or replace missing items.
5. If food has been spilled on the tray, clean the tray before serving to the resident. If necessary, return the tray to the kitchen for a replacement tray.
6. Check that hot foods are hot (but not scalding temperature) and that cold foods are cold.
7. To minimize the risk of foodborne illness, the time that potentially hazardous foods remain in the "danger zone" (41°F to 135°F) will be kept to a minimum. Foods that are left on trays without a source of heat (for hot foods) or refrigeration (for cold foods) longer than 2 hours will be discarded.
8. Be sure the resident is prepared to receive the meal (i.e., offered bedpan or urinal, face and hands washed, hair combed, etc.).
9. The resident should be positioned so his or her head and upper body are as upright as possible and with the head tipped slightly forward. If the resident is served his or her meal in bed, use wedges and pillows to achieve a nearly upright position.
10. Avoid loud noises, bright lights, and sudden movements to make the mealtime more relaxing and to help the resident eat better.
11. Employees must wash their hands before serving food to residents. It is not necessary to wash hands between each resident tray; however, if there is contact with soiled dishes, clothing or the resident's personal effects, the employee must wash their hands before serving food to the next resident.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Food service tray;
2. Silverware, napkin and flexible straw;
3. Special feeding devices (as indicated);
4. Condiments (i.e., ketchup, mustard, salt, pepper, etc.) as permitted by the diet;
5. Wash cloth and towel;
6. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed); and
7. Other as necessary or appropriate.

Steps in the Procedure

1. Place the tray on the overbed table or bedside table. Be sure that eating utensils are within easy reach.
2. Remove food covers.

continues on next page

3. If you are going to be seated during the feeding, position a chair where it will be convenient for you and the resident.
4. Place a napkin under the resident's chin.
5. Season the resident's food according to his or her likes and in accordance with the resident's diet.
6. Use utensils to feed the resident.
7. Fill the spoon only half-full. Feed the resident from the tip of the spoon, not the side.
8. Put the food in one side of the resident's mouth so that he or she can chew it more easily. (Note: If the resident is partially paralyzed, put the food in the side of the mouth that is not paralyzed.)
9. If the resident is visually impaired, identify the foods and ask him or her in what order he or she would like to eat them.
10. Alternate food and liquids.
11. If more than one beverage is served, use a different straw for each beverage.
12. Tell the resident if the food or beverage is hot or cold.
13. Feed the resident slowly. Allow plenty of time between mouthfuls. Wipe the resident's mouth as often as necessary.
14. If the resident is visually impaired and wishes to feed himself or herself, identify the foods on the tray and use the clock method to describe the location of the foods (i.e., beverage at 1:00, meat at 9:00, potatoes at 6:00, etc.).
15. Encourage the resident to eat all of his or her meal, but do not force him or her to eat.
16. When the resident has finished his or her meal, wipe his or her mouth, or allow the resident to do it himself or herself.
17. Remove the tray when the resident has finished his or her meal. (Note: Allow the resident plenty of time to eat his or her meal.)
18. Wash the resident's face and hands after removing the meal tray.
19. If the resident is in a chair and wishes to return to bed, assist him or her to bed. However, if permitted, encourage the resident to stay up as long as possible.
20. Place the call light within easy reach of the resident.
21. Remove all equipment and supplies from the eating area.
22. Clean the overbed table and return it to its proper position.
23. Make the resident comfortable.
24. If the resident desires, return the door and curtains to an open position and if visitors are waiting, tell them they may now enter the room.
25. Place the wash cloth and towel in the soiled laundry container.
26. Wash your hands.

Documentation

The person performing this procedure should record the following information in the resident's medical record:

1. The date and time the procedure was performed.
2. The name and title of the individual(s) who performed the procedure.
3. How much of the meal the resident consumed (i.e., 25%, 50%, 75%, etc.).
4. If and how the resident participated, or any changes in the resident's ability to participate with the meal.
5. Any special request(s) made by the resident concerning his or her eating time or food likes and dislikes.
6. Any difficulty the resident had in feeding himself or herself, chewing, or swallowing.
7. If the resident refused the meal or to eat, the reason(s) why and the intervention taken.
8. The signature and title of the person recording the data.

continues on next page

Reporting

1. Notify the supervisor if the resident refuses the meal or to eat.
2. Report other information in accordance with facility policy and professional standards of practice.

Assisting the Resident with In-Room Meals

Level I

Purpose

The purpose of this procedure is to provide appropriate assistance for residents who choose to receive meals in their rooms.

Preparation

1. Review the resident's care plan and provide for any special needs of the resident.
2. Assemble equipment and supplies needed.
3. Check the tray before serving it to the resident to be sure that it is the correct diet ordered and that the food consistency is appropriate to the resident's ability to chew and swallow.
4. Ensure that the necessary non-food items (i.e., silverware, napkin, special devices, straw, etc.) are on the tray. Report or replace missing items.
5. If food has been spilled on the tray, clean the tray before serving to the resident. If necessary, return the tray to the kitchen for a replacement tray.
6. Check that hot foods are hot (but not scalding temperature) and cold foods are cold.
7. To minimize the risk of foodborne illness, the time that potentially hazardous foods remain in the "danger zone" (41°F to 135°F) will be kept to a minimum. Foods that are left on trays without a source of heat (for hot foods) or refrigeration (for cold foods) longer than 2 hours will be discarded.
8. Be sure the resident is prepared to receive the meal (i.e., offered bedpan or urinal, face and hands washed, hair combed, etc.).
9. The resident should be positioned so his or her head and upper body are as upright as possible and with the head tipped slightly forward. If the resident is served his or her meal in bed, use wedges and pillows to achieve a nearly upright position.
10. Be sure that everyone is served.
11. Employees must wash their hands before serving food to residents. It is not necessary to wash hands between each resident tray; however, if there is contact with soiled dishes, clothing or the resident's personal effects, the employee must wash his/her hands before serving food to the next resident.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Food service tray;
2. Silverware, napkin and flexible straw;
3. Special feeding devices (as indicated);
4. Condiments (i.e., ketchup, mustard, salt, pepper, etc.) as permitted by the diet;
5. Wash cloth and towel; and
6. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Place the tray on the overbed table or serving area. Be sure it is adjusted to a comfortable position and height for the resident.
2. Arrange the dishes and silverware so that they can be easily reached by the resident.

continues on next page

3. Place the drink within easy reach. Open beverage cartons as necessary.
4. Assist resident as necessary. However, encourage the resident to feed himself or herself as much as possible.
5. Place the call light within easy reach of the resident.
6. Once you are certain that you have given the resident adequate assistance, exit the room and allow the resident to eat his or her meal.
7. Remove the tray when the resident has finished his or her meal. (Note: Allow the resident plenty of time to eat his or her meal.)
8. Wash the resident’s face and hands after removing the meal tray.
9. Clean the overbed table and return it to its proper position.
10. Reposition the bed covers. Make the resident comfortable.
11. Place the call light within easy reach of the resident.
12. If the resident desires, return the door and curtains to the open position and if visitors are waiting, tell them they may now enter the room.
13. Place the wash cloth and towel in the soiled laundry container.
14. Wash your hands.

Documentation

The person performing this procedure should record the following information in the resident’s medical record:

1. The date and time the procedure was performed.
2. The name and title of the individual(s) who performed the procedure.
3. How much of the meal the resident consumed (i.e., 25%, 50%, 75%, etc.).
4. If and how the resident participated, or any changes in the resident’s ability to participate with the meal.
5. Any special request(s) made by the resident concerning his or her eating time or food likes and dislikes.
6. Any difficulty the resident had in feeding himself or herself, chewing or swallowing.
7. If the resident refused the meal or to eat, the reason(s) why and the intervention taken.
8. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the meal or to eat.
2. Report other information in accordance with facility policy and professional standards of practice.

Preparing the Resident for a Meal

Level I

Purpose

The purpose of this procedure is to prepare the resident and the environment in order to help make meal time pleasant for the resident.

Preparation

1. Review the resident's care plan and provide for any special needs of the resident.
2. Remind residents that mealtime is approaching. Assist them as necessary to the dining room or to the eating area.
3. Residents should be encouraged, but not forced, to eat in the dining room. This provides each resident with an opportunity to socialize and make new friends.
4. If the resident is to be served in his or her room, remove unpleasant items (i.e., bedpans, urinals, emesis basins, etc.) from the eating area.
5. Be sure that the room is comfortable (i.e., not too cold or warm) and has a relaxing environment (i.e., free of unpleasant odors, loud noises, bright lights, etc.).
6. If the resident is ambulatory, be sure that the resident is dressed and that his or her hair is combed. (Note: The resident may wear his or her pajamas and robe when in-room meals are served if he or she so desires.)
7. Unless otherwise indicated, residents whose meals are served in bed should be properly positioned by using wedges and pillows to achieve a nearly upright position. (Note: Having the resident in the sitting position, with the head slightly forward, will lessen the possibility of choking.)
8. Assemble all necessary equipment and supplies to perform the procedure and take them to the resident's room.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Warm water (115° F [46.1° C]);
2. Soap;
3. Individual wash basin;
4. Wash cloth;
5. Towel;
6. Bedpan or urinal; and
7. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Place the equipment on the bedside stand or overbed table. Arrange the supplies so that they can be easily reached.
2. Fill the basin with warm water and take it to the resident's bedside.
3. Put on clean gloves.
4. Provide mouth care as necessary. If dentures are worn, assist the resident in inserting them.
5. Offer the resident the bedpan or urinal before the meal is served.
6. Encourage the resident to wash his or her face and hands. Assist as needed.

continues on next page

7. Dry the face and hands with a towel.
8. If the resident is permitted to be out of bed, assist him or her into a chair. Dress the resident in his or her robe and slippers.
9. If the resident is to eat in bed, raise the bed to a nearly upright position, if permitted. Support the resident with pillows and/or wedges.
10. Place the call light within easy reach of the resident.
11. Remove all equipment and supplies from the eating area.
12. Clean the overbed table and bedside stand.
13. Place the overbed table or eating tray in a convenient place for the resident.
14. Pour the contents of the bedpan or urinal, and the washbasin down the commode. Flush the commode.
15. Clean and return the bedpan or urinal and wash basin to their designated storage areas.
16. Place the washcloth and towel in the soiled laundry container.
17. Remove gloves and discard into designated container.
18. Wash your hands.
19. Unless the resident desires privacy during his or her meal, return the door and curtains to an open position and tell visitors who are waiting that they may now enter the room.

Documentation

The person performing this procedure should record the following information in the resident’s medical record:

1. The date and time the procedure was performed.
2. The name and title of the individual(s) who performed the procedure.
3. All assessment data obtained during the procedure.
4. How the resident tolerated the procedure.
5. If the resident refused the procedure, the reason(s) why and the intervention taken.
6. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the procedure.
2. Report other information in accordance with facility policy and professional standards of practice.

Snacks (Between Meal and Bedtime), Serving

Level I

Purpose

The purpose of this procedure is to provide the resident with adequate nutrition.

Preparation

1. Review the resident's care plan and provide for any special needs of the resident.
2. Assemble equipment and supplies needed.
3. Check the tray before serving the snack to be sure that it is the correct diet ordered and that the food consistency is appropriate to the resident's ability to chew and swallow.
4. Ensure that the necessary non-food items (i.e., flexible straw, special devices, etc.) are on the tray. Report or replace missing items.

Equipment and Supplies

The following equipment and supplies will be necessary when performing this procedure:

1. Snack tray;
2. Silverware;
3. Napkin;
4. Special feeding devices (as indicated);
5. Condiments (as permitted by the diet);
6. Flexible straw;
7. Wash cloth and towel; and
8. Personal protective equipment (e.g., gowns, gloves, mask, etc., as needed).

Steps in the Procedure

1. Place the snack on the overbed table or serving area. Be sure the overbed table is adjusted to a comfortable position and height for the resident. Arrange the supplies so that they can be easily reached by the resident.
2. Assist the resident to a nearly upright position.
3. Arrange the snack so that it can be easily reached by the resident.
4. Place beverages within easy reach. Open beverage cartons as necessary.
5. Assist the resident as necessary. However, encourage the resident to feed himself or herself as much as possible.
6. Place the call light within easy reach of the resident.
7. Once the resident has received adequate assistance, exit the room and allow the resident to eat his or her snack.
8. Remove the snack tray when the resident has finished his or her snack. (**Note:** Allow the resident plenty of time to eat his or her snack.)
9. Wash the resident's face and hands after removing the snack tray.
10. Clean the overbed table and return it to its proper position.
11. If the resident is in a chair and wishes to return to bed, assist him or her to bed. However, if permitted, encourage the resident to stay up as long as possible.
12. Discard all disposable items into the trash receptacle.

continues on next page

13. Reposition the covers and make the resident comfortable.
14. Place the call light within easy reach of the resident.
15. If the resident desires, return the door and curtains to an open position and if visitors are waiting, tell them they may now enter the room.
16. Wash your hands.

Documentation

The person performing this procedure should record the following information in the resident’s medical record:

1. The date and time the snack was served.
2. The name and title of the individual(s) who served the snack.
3. The amount of snack eaten by the resident (i.e., 50%, 75%, etc.).
4. If and how the resident participated in the procedure or any changes in the resident’s ability to participate in the procedure.
5. Any special request(s) made by the resident concerning his or her eating time or food likes and dislikes.
6. Any difficulty the resident had in feeding himself or herself, chewing or swallowing.
7. If the resident refused the snack, the reason(s) why and the intervention taken.
8. The signature and title of the person recording the data.

Reporting

1. Notify the supervisor if the resident refuses the snack and why.
2. Report any problems or complaints made by the resident related to the snack.
3. Report any difficulties the resident had with chewing or swallowing his or her food.
4. Report other information in accordance with facility policy and professional standards of practice.

Blood or Body Fluids Exposure

Policy Statement

Any employee exposure to blood or body fluids occurring on our premises must be reported to the infection preventionist (or designee).

Policy Interpretation and Implementation

1. Each employee must report any significant cuts or skin wounds that he/she may have to his/her supervisor or to the infection preventionist (or designee) prior to performing any task(s) that may involve potential exposure to blood or body fluids.
2. An employee with impairment of normal skin condition (e.g., wounds, cuts, scrapes, dermatitis, chapped skin, rash, etc.) must wear appropriate protective equipment (i.e., occlusive bandages, gloves, gown, masks, etc.) when performing tasks that may involve exposure to blood or body fluids.
3. All blood or body fluids should be considered potentially infectious at all times.
4. Staff must wear protective clothing when providing treatment to a resident with a potentially contagious bloodborne illness.
5. Should skin exposure to blood or body fluids occur, the employee should:
 - a. stop the procedure as soon as it is safe and/or practical to do so;
 - b. wash the exposed area thoroughly with soap and running water;
 - c. report the incident to his/her supervisor, who will report to the infection preventionist (or designee);
 - d. fill out and complete an exposure report form; and
 - e. obtain further counseling from the infection preventionist regarding the exposure.
6. If the skin exposure involves large amounts of blood or prolonged contact with blood, especially if the exposed skin is chapped or otherwise broken, use alcohol or peroxide as an antiseptic after thorough handwashing.
7. Should exposure to blood or body fluids occur to the eyes or mouth, the employee should:
 - a. flush the exposed area immediately with water;
 - b. if desired, rinse the mouth with peroxide;
 - c. report the incident to the individual's supervisor, who will report it to the infection preventionist (or designee);
 - d. complete an exposure report form; and
 - e. obtain further counseling from the infection preventionist regarding the exposure.
8. Should an exposure to blood/body fluids occur from a needlestick, cut from a sharp instrument, or contamination of an open wound or broken skin, the employee should:
 - a. allow the wound to bleed freely;
 - b. wash the exposed area with soap and water;
 - c. apply antiseptic as desired:
 - (1) isopropyl alcohol 70%; or
 - (2) hydrogen peroxide 3%.
 - d. report the incident to the infection preventionist (or designee);

continues on next page

- e. complete an exposure report form; and
 - f. obtain further counseling from the infection preventionist regarding the exposure.
9. Our facility follows current CDC guidelines and recommendations governing occupational exposure to blood and/or body fluids.

Cleaning and Disinfection of Environmental Surfaces

Policy Statement

Environmental surfaces will be cleaned and disinfected according to current CDC recommendations for disinfection of healthcare facilities and the OSHA bloodborne pathogens standard.

Policy Interpretation and Implementation

1. The following categories are used to distinguish the levels of sterilization/disinfection necessary for items used in resident care and those in the resident's environment:
 - a. **Critical items** consist of items that carry a high risk of infection if contaminated with any microorganism. Objects that enter sterile tissue (e.g., urinary catheters) or the vascular system (e.g., intravenous catheters) are considered critical items and must be sterile.
 - b. **Semi-critical items** consist of items that may come in contact with mucous membranes or non-intact skin (e.g., respiratory therapy equipment). Such devices should be free from all microorganisms, although small numbers of bacterial spores are permissible. (Note: Some items that may come in contact with non-intact skin for a brief period of time (e.g., hydrotherapy tanks, bed side rails) are usually considered non-critical surfaces and are disinfected with intermediate-level disinfectants.)
 - c. **Non-critical items** are those that come in contact with intact skin but not mucous membranes.
 - (1) Non-critical environmental surfaces include bed rails, some food utensils, bedside tables, furniture and floors.
 - (2) Most non-critical items can be decontaminated where they are used (as opposed to being transported to a central processing location).
2. Non-critical surfaces will be disinfected with an EPA-registered intermediate or low-level hospital disinfectant according to the label's safety precautions and use directions.
 - a. Most EPA-registered hospital disinfectants have a label contact time of 10 minutes.
 - b. By law, all applicable label instructions on EPA-registered products must be followed.
3. Devices that are used by staff but not in direct contact with residents (e.g., computer keyboards, PDAs, etc.) shall be cleaned and disinfected regularly (according to facility schedule) by the environmental services staff and as needed by the nursing staff.
4. Intermediate and low-level disinfectants for non-critical items include:
 - a. ethyl or isopropyl alcohol;
 - b. sodium hypochlorite (5.25-6.15% diluted 1:500 or per manufacturer's instructions);
 - c. phenolic germicidal detergents;
 - d. iodophor germicidal detergents; and
 - e. quaternary ammonium germicidal detergents (low-level disinfection only).
5. Manufacturers' instructions will be followed for proper use of disinfecting (or detergent) products including:
 - a. recommended use-dilution;
 - b. material compatibility;
 - c. storage;
 - d. shelf-life; and
 - e. safe use and disposal.

continues on next page

6. A one-step process and an EPA-registered hospital disinfectant designed for housekeeping purposes will be used in resident care areas where:
 - a. uncertainty exists about the nature of the soil on the surfaces (e.g., blood or body fluid contamination versus routine dust or dirt); or
 - b. uncertainty exists about the presence of multidrug-resistant organisms on such surfaces.
7. Detergent and water will be used for cleaning surfaces in non resident care areas (e.g., administrative offices).
8. High-level disinfectants/liquid chemical sterilants will not be used for disinfection of non-critical surfaces.
