- 2) **New hire**, which can include W-4s, I-9s, new hire profiles, and team member applications (Viewable by HR and team member).
- 3) **Performance**, which can include performance review, 90-day review, self-assessments, corrective action plans, performance warnings, probation documents and career development plans (Viewable by manager, HR and team member).
- 4) **Confidential** Benefits, Medical Files, Leave of Absence Information, Workers' Compensation and other Confidential Information (Viewable by HR Only).
- 5) **Other**, which can include any other document types that are not available in the other document categories (ex: HRMS User Agreements) (Viewable by manager, HR and team member).

Organization of the Form I-9 Employment Eligibility Verification

In compliance with the laws governed by the Department of Homeland Security it is critical that every team member have a completed Form I-9 attesting to their employment eligibility. Employers must complete and sign section 2 within 3 days of Team Member's first day of employment.

The form consists of three sections and should be completed as follows:

- 1) The penalties for improperly completing or for failing to complete the Form I-9 can be severe ranging from \$110 per document for failing to comply with I-9 requirements to \$6,500 for committing or participating in document fraud. Penalties are even higher for multiple offenses.
- 2) The I-9 forms for active team members should be kept alphabetically in a three-ring binder, Individuals with expiring work authorizations should be flagged so that timely review and receipt of updated work authorizations may be obtained.
- 3) The binder should be secured in a locked cabinet or drawer. Supervisors or managers should not have access to form I-9 and documents because national origin, immigration status, marital status and other protected information may be disclosed on these forms or in the documents provided for their completion. If electronic I-9s are used, access must be secured and limited to required HR personnel only.

- 4) The I-9's for terminated team members should be kept in a separate three-ring binder organized by year in compliance with retention requirements. When a team member is terminated, his or her I-9 form should be removed from the active I-9 binder to the terminated I-9 binder. There are two retention requirement dates under the I-9 retention rule. HumanGood must retain the I-9 until the later of the two dates.
- 5) To determine the retention date look to the team member's date of hire. Since all current team members must have an I-9 on file, the 3 years after hire retention requirement is already met for any team member who has been employed with the organization for 3 years. Therefore, I-9s for all team members who terminate after 3 years of employment are simply retained for one year after termination.
- 6) For those team members employed for less than 3 years, the following chart will assist to ensure the employer has the I-9 in their possession for a minimum of three years from the date of hire.
- 7) To calculate how long to keep a team member's Form I-9, enter the following:
 - 1. Date team member began work for pay 1. _____
 - A. Add three years to the date on line 1. A. _____
 - 2. The date employment was terminated 2. _____
 - B. Add one year to the date on line 2. B. _____
 - 3. Which date is later; A or B? 3. _____
 - C. Enter the later date. C. _____

The employer must retain Form I-9 until the date on Line C.

Correcting the Form I-9

- 1) If you find it necessary to correct errors on a Form I-9 it must be corrected as follows. Employers are only allowed to correct errors made in Section 2 or Section 3 of Form I-9. If while reviewing/auditing a form you discover an error in Section 1 you should ask your team member to correct the error.
 - i) Draw a line through the incorrect information.
 - ii) Enter the correct information.

- iii) Initial and date the correction.
- 2) To correct multiple recording errors on the form, you may redo the section on a new Form I-9 and attach it to the old form. A new Form I-9 can be completed if major errors (such as entire sections being left blank or Section 2 being completed based on unacceptable documents) need to be corrected. A note should be included in the file regarding the reason you made changes to an existing Form I-9 or completed a new Form I-9.
- 3) It is important NOT to conceal any changes made on the form (other than simple notation errors when copying document information). Doing so may lead to increased liability under federal immigration law.
- 4) If changes on a Form I-9 have been made using correction fluid/tape, it is recommended that a signed and dated note be attached to the corrected Forms I-9 explaining what happened.

I-9 Re-verification and Rehire

- 1) Employers may complete Section 3 when:
 - a) A team member's employment authorization or documentation of employment authorization has expired ("re-verification").
 - b) A team member is rehired within three years of the date that Form I-9 was originally completed.
 - c) A team member changes his or her name.
- 2) Local HR should remind team members, at least 90 days before re-verification is required, that her or she will be required to present a List A or List C document (or acceptable receipt) showing continued employment authorization on the date that their employment authorization or documentation expires. If the team member has a Form I-765, Application for Employment Authorization, pending with USCIS, and the application has been pending for 75 days, the team member may call the National Customer Service Center or schedule an INFOPASS appointment at a local office to request expedited processing. It is best to refer the team member to the Department of Homeland Security website for contact phone numbers. <http://www.uscis.gov/i-9-central>.
- 3) If Section 3 was previously completed, or if the version of the form used for a previous verification is no longer valid, then Section 3 of a new Form I-9 must be completed using the most current version of the form and attaching it to the previously completed Form I-9.

Personnel File Maintenance

A team member's personnel file contains necessary job-related and personal information and is maintained by the local or onsite HR representative. Each team member should have only one personnel file; that file may be a combination of electronic information stored in the applicable HRIS system and a single paper folder maintained at the work site. Documents pertaining to a team member's personnel record should be filed in a timely manner to keep the personnel file current.

Access to Personnel Files

Internal access to personnel files is limited to HR and supervisory personnel who are considering the team member for promotion, transfer, accommodations, or other personnel action and to other officials who have a legitimate need to know. Supervisors should not remove the file from the HR secured location unless signing an issue receipt with HR.

Record Retention

Personnel files must be retained for a minimum of five years from separation date. If however a legal case is pending for the individual the file must be retained until final determination of legal action.

Supervisory Notes

Files kept by supervisors containing employment related information may be subject to disclosure. This file should be maintained in a secure location such as a locked drawer or file in or near the supervisor's workstation. All documents in this file are to be dated and contain factual, not subjective information. While not part of the personnel file, this file may be used to document observed work performance and behavior and may include informal notes to be used in future discussion regarding a team member's job performance. Supervisors must be consistent and equitable in record keeping.

State Laws Regarding Personnel Files

Arizona

Team Member's Right to Inspect or Copy Personnel Files

Arizona currently has no law regarding access to personnel files that applies to private sector employers. Rights regarding personnel files are subject to the discretion of the employer.

California

Team Member's Right to Inspect or Copy Personnel Files

Under California Labor Code section 1198.5 every current and former employee or his or her representative has the right to inspect or receive copies of personnel files and records relating to the employee's performance or grievance concerning the employee. Employers are legally required to maintain personnel files for a minimum of three years after the employee stops working for the employer, however since the statute of limitations for wage and hour claims can extend back four years, HumanGood's policy requires files be maintained for a minimum of five years.

Written Request to View Personnel File

The request to view a personnel file must be made in writing, if a team member requests the file orally, HumanGood must supply a request form so the request may be made in writing. Personnel records must be made available for inspection to the current, former, or identified employee representatives at reasonable intervals and reasonable times, but not later than 30 days from the date the employer receives a written request to view the file. This 30 day window may be extended by mutual written agreement of all parties but cannot exceed 35 calendar days from the employer's receipt of the written request. An employer may charge the employee for costs of copying the file, but charges may not exceed actual cost of reproduction. The employer is not required to make those personnel records or a copy thereof available at a time when the employee is actually required to render service to the employer, if the requester is the employee.

If a former team member is seeking to inspect his or her personnel records was terminated for violation of law, or an employment-related policy, involving harassment or workplace violence, the employer may comply with the request by doing one of the following:

- (i) Making the personnel records available to the former Team Member for inspection at a location other than the workplace that is within a reasonable driving distance of the former employee's residence, or
- (ii) Providing a copy of the personnel records by mail
- (iii) Contact HO HR or legal for release instructions for all Team Members represented.

HumanGood is only required to comply with one request per year by a former employee to inspect or receive a copy of his or her personnel records. An employer is permitted to take reasonable steps to verify the identity of a current or former employee or his or her authorized representative.

Redaction of Names or any other Non-Supervisory Employee

Employers have the right to redact the names of any other nonsupervisory employee that is listed in the employee's personnel file before making it available to the employee.

Excluded records

The right to inspect personnel files and records does not apply to records relating to the investigation of a possible criminal offense, letters of reference, or ratings, reports, or records that were (a) obtained prior to the employee's employment, (b) were prepared by identifiable examination committee members, or (c) were obtained in connection with a promotion exam.

Team Members covered by a collective bargaining agreement

The right to inspect personnel files does not apply to an employee covered by a valid collective bargaining agreement if the agreement expressly provides for all of the following: (1) the wages, hours of work, and working conditions of employees, (2) a procedure for the inspection and copying of personnel records, (3) premium wage rates for all overtime hours worked, (4) a regular rate of pay of not less than 30 percent more than state minimum wage rate.

Penalty for not making requested records available

Penalties may vary by state, for example the California Labor Commissioner can assess a penalty of \$750 for not making the requested records available. The current or former team employee may also bring an action to compel production of his or her file and recover attorney's fees.

Information Required by a Lawfully Issued Administrative Summons or Judicial Order, Including a Search Warrant or Subpoena

The locations most senior executive must review any of the above before disclosure. If employment records are subpoenaed, the current or former team member must be notified and has a right to object to production of records. The requesting party may be assessed a reasonable charge for this service.

Idaho

Team Member's Right to Inspect or Copy Personnel Files

Iowa currently has no law regarding access to personnel files that applies to private sector employers. Rights regarding personnel files are subject to the discretion of the employer.

Nevada

Team Member's Right to Inspect or Copy Personnel Files

Under Nevada Revised Statute Annotated an employee/team member who has worked at least 60 days or former team members within 60 days of termination, must be given a reasonable opportunity to inspect personnel records. The team member may view records only during HumanGood's normal business hours. HumanGood may charge only the actual cost of providing access and copies.

Team members also are entitled to access any records in their employer's possession that indicate their exposure to toxic materials or harmful physical agents. If a team member or former team member requests such records, HumanGood must provide them within 72 hours of the request.

Excluded records

The right to inspect personnel files and records does not apply to confidential reports from previous employers or investigative agencies, other confidential investigative files and information about criminal investigations.

Team Member's right to insert rebuttal

A team member may submit a reasonable written explanation in direct response to any entry in their personnel record. The statement must be of reasonable length; HumanGood may specify the format; HumanGood is required to maintain the statement in the personnel records. If the team member contends that any information contained in the records is inaccurate or incomplete, the team member must notify HumanGood in writing of this contention. If HumanGood finds that the contention of the team member is correct, HumanGood shall change the information accordingly.

Liability for Disclosure of Employee Information

Employers who provide accurate information about a former employee's job performance to a prospective employer are immune from civil liability and other consequences of the disclosure so long as the employer did not act with malice or ill will. An employer acts

with ill will or malice when it knowingly, recklessly, or intentionally discloses false or misleading information to a prospective employer and it can be liable to a former employee for damages. Employers may not disclose information that federal law requires be kept confidential, or information that you have agreed with an employee to be kept confidential.

Pennsylvania Act of Nov. 26, 1978, P.L. 1212, No. 286, Cl. 43

An employer shall, at reasonable times, upon request of an employee, permit that employee or an agent designated by the employee to inspect his or her own personnel files used to determine his or her own qualifications for employment, promotion, additional compensation, termination or disciplinary action. The employer shall make these records available during the regular business hours of the office where these records are usually and ordinarily maintained, when sufficient time is available during the course of a regular business day, to inspect the personnel files in question. The employer may require the requesting employee or the agent designated by the employee to inspect such records on the free time of the employee or agent. At the employer's discretion, the employee may be required to file a written form to request access to the personnel file or files or to indicate a designation of agency for the purpose of file access and inspection. This form is solely for the purpose of identifying the requesting individual or the designated agent of the requesting individual to avoid disclosure to ineligible individuals. To assist the employer in providing the correct records to meet the employee's need, the employee shall indicate in his written request, either the purpose for which the inspection is requested, or the particular parts of his personnel record which he wishes to inspect or have inspected by the employee's agent. (2 amended Nov. 29, 1990, P.L.596, No.149)

Designated agent.

An employee shall provide to the employer a signed authorization designating a specific individual or individual who shall be authorized to inspect the employee's personnel file. The signed authorization shall be for a specific date or dates and shall indicate either the purpose for which the inspection is authorized or the particular parts of the employee's personnel file which the designated agent is authorized to inspect. The provisions of section 2 shall apply to the designated agent. (2.1 added Nov. 29, 1990, P.L.596, No.149)

Applicability.

Nothing in this act shall be construed as a requirement that an employee or the designated agent of the employee be permitted to remove his personnel file, any part thereof, or copy of the contents of such file from the place of the employer's premises where it is made available for inspection. The taking of notes by an employee or the designated agent of the employee is permitted. The employer shall retain the right to protect his files from loss, damage or alteration to insure the integrity of the files. The employer may require inspection of the personnel file in the presence of an official designated by the employer. The employer must allow sufficient inspection time, commensurate with the volume content of the file. Except for reasonable cause the

employer may limit inspection to once every calendar year by an employee and once every calendar year by the employee's designated agent, if any.

Washington

Employment Records

Under Washington law every employer is required to maintain true and accurate employment records for an employee for four calendar years following the calendar year in which employment occurred.

Team Member's Right to Inspect or Copy Personnel Files

Under Washington Administrative Code chapter 357-22 an employee/team member and/or any person authorized in writing by the team member may review the team member's personnel file at least once annually within a reasonable time after making a request.

Team Member's right to insert rebuttal

A team member may petition annually that HumanGood review all information in the personnel file. If there is any irrelevant or incorrect information in the file, the employer must remove it. If the team member does not agree with HumanGood's review, the team member may have a statement of rebuttal or correction placed in the file.

Former team members have a right of rebuttal or correction for a period not to exceed two years after termination.

Team Members Appreciation Fund	Effective Date	08-18-2017
	Revision Dates	04-01-2018
		04-01-2019
		06-20-2019 05-21-2020
	Departments Approving	Foundation & HR
Departments Affected	All	

Introduction and Background

The purpose of this document is to outline the policy and procedure for distribution of the Team Member Appreciation Funds. HumanGood realizes that residents may want to recognize team members for their service. Through the generous donations of our residents, participating communities have Team Members Appreciation Funds available to make these gifts possible.

Policy

Residents may provide monetary gifts to offset the company’s no tipping policy as approved by each community’s Resident Council, with a preferable distribution of once per year and a maximum of twice a year. Distributions will be determined by the Community Residents Council at each location. Distribution dates and team members to be included in the distribution are identified in the community attachments. In order to maintain appropriate tax withholding, team members must remain on the community’s active payroll at the time checks are distributed. HumanGood has implemented an annual performance bonus program for Directors, therefore HumanGood requests that resident councils do not include directors in their requested distributions.

It is the goal of the Team Member Appreciation Fund program to ensure the resident funds (tips) are distributed as they wish while in compliance with IRS regulations. Other vendor team members (such as dining management or therapy providers) may be included in the Team members Appreciation Fund at the discretion of the community’s Resident Council. Taxation and tipping protocol by non-HumanGood team members are left up to the individual and/or their company to address.

Procedures

Responsibilities

The HumanGood Foundation, in coordination with the community’s **Resident Council and Team Member (Employee Appreciation) Committee**, is responsible for collecting

and depositing all Team Members Appreciation Fund money to the appropriate Community. The amount available for distribution will be calculated at the close of the fund drive by the HumanGood Foundation and Community Support Center Accounting and reported to the community Resident Council, the HumanGood Foundation Representative and the Human Resources Director.

Human Resources is responsible for execution procedures identified below.

Procedures

The calculation of hours to be included in the Team Member Appreciation Fund distribution will be based on all hours worked in the preceding 6 (for twice per year distributions) or 12 month period, paid time off will be excluded.

The formula to be used in calculating team member gift checks will be:

Rate = Dollar amount to distribute / Total community hours worked
Individual Payment = Rate x Individual team member's hours worked

Team members who transfer from one community to another community will utilize their original hire date for eligibility for the gift checks, but will have their hours pro-rated to reflect only the time served in their current community. Transfer team members will only be eligible to receive the Appreciation Fund from the current community in which they are working. Newly hired team members who have yet to work a pay period enough qualifying hours may be included at a minimum disbursement of \$25 at the discretion of the community's Resident Council policy. Newly hired salary team members that are eligible may also be included at a minimum disbursement of \$25 at the discretion of the community's Resident Council policy.

Team members who work in multiple communities will be included in the calculations for each community they are assigned. Payroll and/or the community support center will provide hours worked to each community if they are not assigned to the community for payroll.

Specific community's policy and procedures as defined by the Resident Council will be kept on file with the Community's Human Resources department.

Collection Procedures:

HumanGood Foundation South (legacy be.group communities)

1. The Foundation Executive Director shall pick up the checks directly from the administrative office or the designated staff person shall mail the checks and any

supporting material to the Foundation Executive Director via FedEx or UPS every Friday with a designated delivery date of Monday.

HumanGood Foundation West (legacy ABHOW communities)

1. Each community shall send the checks to the HumanGood Foundation ~~at~~ to the attention of the President of Philanthropy for HumanGood West ~~and~~.
2. Every community should only send checks via FedEx or UPS so that a tracking system is available for the package.
3. Each community should not send any other **unrelated** correspondence with the team member appreciation fund checks.
4. A batch of checks should be sent **every** Friday with a Monday delivery date.
5. Each community should designate two individuals and at least one of them should be a team member to verify all checks as they are placed in the envelope and **listed** on the cover sheet for HumanGood West. For Human Good South the designated team member should verify all checks are included.
6. Both individuals will also verify that every check includes the **name and current address** of the residents gifting the funds.
7. If possible **donors should** include **their HumanGood** Foundation donor numbers next to their name handwritten on the check. The Foundation will send a master list of donor account numbers to each community prior to collection each year.
8. All communities shall include a cover sheet with each batch of checks to be sent to the Community Support Center each Friday for a Monday delivery. The cover sheet should include the following:
 - Community name
 - Date sent
 - Individual check numbers and the amounts
 - Total number of checks sent and total monies given in the batch sent

- Both individuals verifying the batch of checks will sign on the cover sheet that the above has been reviewed and verified
- 9. Each community should keep a copy of the cover sheet for their records.
- 10. Each batch of checks received will have a deposit date of one week after the date the checks are sent to the HumanGood Foundation for reconciliation purposes on the HumanGood Foundation spreadsheet.
- 11. Community should verify receipt of funds by comparing the cover sheets to the spreadsheet sent out by HumanGood Foundation.
- 12. If the community keeps copies of checks sent, they should be shredded after reconciliation has transpired.

Execution Procedures:

- 13. Community HR will calculate total hours worked for all eligible team members and gross amount to be distributed to all team members. Amounts to be distributed must be covered by funds in the community's Team Members Appreciation Fund account.
- 14. Calculation reports must reflect the team member's ID number, first and last name, gross amount to be paid, total hours being rewarded and titled with gift check distribution month and year.
- 15. Community HR will report the information to Community Support Center payroll for distribution. Distribution dates must be coordinated and reflect a standard pay cycle date.
- 16. Payroll will enter the amounts into the payroll system, and for all team members that prefer direct deposits, the appreciation amount will be directly deposited into their account, only those team members that are receiving paper pay checks will receive checks.
- 17. Team Members Appreciation Fund distribution will be coordinated through the individual community's Resident Council.
- 18. Human Resource Directors will provide thank you cards with the amounts being given to each team member for the resident councils to pass out at local celebrations. HR should work with the residents' council regarding the design of the card.

The Terraces of Mars Attachment (Sample)

The Terraces of Mars in coordination with the HumanGood Foundation wish for our Team Members Appreciation Funds to be distributed as follows:

- We agree / disagree that team members that have direct deposit or pay card will be able to receive their gift via direct deposit or pay card.
- All Team Members at the location should be included in the fund except for Directors on the community bonus plan.
- We also wish to exclude _____ (may be based on Managerial Status, Supervisor Status, or pay level, cannot be based on individual names or jobs)
- Payout for the plan will happen once/twice a year on the pay period _____ prior to _____.

Introduction and Background

At HumanGood, we welcome volunteering at our Communities. Our volunteers:

- Are integral contributors to the communities
- Help us to meet our organizational mission

The mission of the Volunteer Program is to enhance the quality of life of residents by connecting volunteers with residents to provide services that cannot be provided by team members, at no cost to the residents. These humanitarian activities promote personal growth for both the residents and volunteers, thereby benefiting our community and the community at large.

The purpose of this policy is to define the volunteer program at HumanGood. This program will be evaluated periodically to assess the impact, as well as the cost and benefits involved in recruiting, engaging and overseeing volunteers.

Requirements may vary by state or community. The position designated as the volunteer coordinator should work with the local HR Director to ensure requirements are being met.

Unpaid internships are addressed in the HumanGood Intern Policy.

Roles & Responsibilities

- Volunteer Coordinator – Works with department managers to design assignments, recruits, on-boards, and manages volunteers, manages volunteer files, partners with HR Director or Executive Director when issues arise.
- Human Resources Director – Assists in defining assignments, assists with background checks, partners with Volunteer Coordinator to address issues.
- Volunteer – Follow policy, report issues to Volunteer Coordinator

Policy

Overview

It is the policy of HumanGood that all volunteer assignments are handled in a matter consistent with all applicable laws and regulations. Volunteers are not employees of HumanGood and are not eligible for compensation or any benefit granted to HumanGood employees.

Volunteers are a valuable resource to HumanGood, its team members, and its residents. Volunteers will be provided with meaningful assignments, effective supervision, the opportunity for full involvement and participation, and recognition for their contributions. Volunteers will be given orientation and training at the HumanGood community at which they are volunteering. In return, Volunteers agree to actively perform their duties to the best of their abilities and to remain loyal to the goals and procedures of HumanGood.

Volunteers are expected to adhere to all HumanGood policies, procedures, and standards of conduct applicable to the assignment and community location in which they are assigned. It is the policy of HumanGood that the confidentiality of individually-identifiable Resident health information will be protected at all times; whether it is in written or electronic form or communicated orally. It is also the policy of HumanGood that all information related to HumanGood business activities is to be maintained in the strictest confidence and not be divulged outside the company during or after a volunteer assignment. Volunteers are protected against discrimination and harassment according to HumanGood Anti-Harassment & Anti-Discrimination Policy.

Definition of a Volunteer

- A Volunteer is anyone who, without compensation or expectation of compensation, performs services solely for humanitarian purposes at the direction of and on behalf of HumanGood. Individuals wishing to volunteer must be officially accepted and enrolled by HumanGood prior to commencing volunteer services. Volunteers are not employees of HumanGood.
- HumanGood employees should not normally perform volunteer duties for HumanGood communities. Exceptions must be approved by the Regional HR Director.

Volunteer Assignment

Volunteer service is at the sole discretion of HumanGood. Volunteer positions shall have a set term or duration. Volunteers understand and agree that HumanGood may at any time, for whatever reason, decide to end a Volunteer's relationship with HumanGood. Where applicable, verification of licenses, certification, and other qualification requirements must be completed before an individual can commence volunteering at HumanGood. The Volunteer may at any time, for whatever reason, decide to cease volunteering for HumanGood. Notice

of such a decision should be communicated as soon as possible to the appropriate volunteer coordinator.

Procedures

A) Volunteer Role Description

- 1) Each Volunteer role will be clearly defined as to qualifications, responsibilities, and limitations of the position. The role descriptions will provide the basis for recruitment, screening, training, supervision, identification of positions requiring criminal background screening and evaluation.
- 2) A volunteer role description must be complete prior to recruitment into the position.
- 3) Information necessary to the completion of a volunteer role description includes but is not limited to:
 - a. How the project, and the activities performed by the volunteer in the project, support the goals of HumanGood.
 - b. Specific role, duties and expectations of the volunteer.
 - c. Qualifications necessary to perform the role described.
 - d. The time and location of the volunteer activity
 - e. Who will train, orient, supervise, and assess the performance of the volunteer position.
 - f. What materials and/or other resources will be necessary for the volunteer to perform assigned task(s) of the project.
- 4) All volunteer role descriptions must be reviewed and approved by the local Human Resources Director.

B) Volunteer Recruitment

Below is a summary of steps in the recruitment process for Volunteers.

- 1) Posting – If required, volunteer postings should include the title of the position and the project(s) it involves, review the basic requirements of the position including estimated time commitments.
- 2) Application – Candidates complete an application process to confirm their interest and qualifications.
- 3) Interviews – The interview process will be consistent with all applicants and will determine the knowledge, skills, and abilities to perform the essential functions as well as the commitment for the volunteer opportunity.
- 4) Reference Checks – Three reference checks should be completed to confirm candidate qualifications.
- 5) Offer – Selected candidates will receive an offer in writing.
- 6) Post-offer/Pre-assignment Process – Refer to New Hire Background and Health Screening Policy for requirements. Volunteers that do not clear the appropriate state agency background check will never be left alone with residents.

C) Volunteer Onboarding

1) Volunteer Agreement

All volunteers are required to complete a Volunteer Agreement, Emergency Information Form, and a Parental/Guardian Consent Form (if the volunteer is under the age of 18).

2) Training/Orientation

- New volunteers will attend an orientation/training session meeting where they will review the volunteer packet and become familiar with the community.
- Volunteers will also receive training on HIPAA and Elder Abuse. They will be required to sign a log verifying this training.

D) Volunteer Supervision

Each volunteer providing services at HumanGood will have a clearly identified immediate supervisor who is responsible for direct management of that volunteer. This supervisor shall be responsible for day-to-day management and guidance of the work of the volunteer. The Volunteer Coordinator will also be available to assist with volunteer assignments. Volunteers will be provided with periodic evaluations of their performance and volunteers are able to submit their feedback of the program.

Volunteers that do not clear the appropriate state agency background check will never be left alone with residents.

E) Reporting

Volunteer hours should be logged and maintained by each community. The volunteer coordinator will periodically provide a listing of current volunteers whose duties interact with residents. This report will be sent to the local HR Director to ensure compliance with the volunteer policy program.

F) End of Volunteer Assignment

Volunteer service with HumanGood is voluntarily entered into, and the volunteer is free to resign at any time, with or without cause. Similarly, HumanGood may terminate the relationship at any time, with or without notice or cause, so long as there is no violation of applicable federal or state law.

At the time of conclusion of a volunteer's service, the following procedures will be completed by the Volunteer Coordinator:

1. Acknowledge a volunteer's resignation or notify the volunteer (if dismissal) that their service is concluded.
2. Notify applicable team members that the volunteer is no longer providing service.
3. Collect from the volunteer any Community property, including the name badge, at the conclusion of service.

A. Policy

Team members are required to report to management personal health information related to diseases that are transmissible through direct or indirect contact with people, food and other objects. This policy applies to all employees of HumanGood and its business affiliates.

Team members experiencing any Reportable Symptoms or having a Reportable Diagnosis or Reportable History of Exposure, in each case as defined below, must report their symptoms, diagnosis and/or exposure to their supervisor **before** the start of their shift.

B. Reportable Symptoms, Reportable Diagnosis and Reportable History of Exposure Defined

Reportable symptoms:

- COVID Symptoms or exposure to COVID Positive person
- Vomiting
- Diarrhea
- Jaundice
- Fever, Cough, Shortness of breath
- An open or draining wound on the hands, wrists or exposed portions of the arms (Areas on the hands or wrists must be covered with an impermeable cover, such as a finger cot or stall and a single use glove)

Reportable Diagnosis:

- Norovirus
- Coronavirus
- Influenza
- Hepatitis A virus
- Shigella spp.
- Shiga toxin-producing Escherichia coli
- Typhoid fever (caused by Salmonella Typhi)

- Salmonella (non-typhoidal)
- Other diseases as required by state or local regulations

Reportable History of Exposure:

- Team member has been exposed to, or is the suspected source of, a confirmed disease outbreak, because the food-employee consumed or prepared food implicated in the outbreak, or consumed food at an event prepared by a person who was infected or ill with: **OR**
- Team member has been exposed by attending or working in a setting where there is a confirmed disease outbreak, or living in the same household as, and has knowledge about an individual who works or attends a setting where there is a confirmed disease outbreak, or living in the same household as, and has knowledge about an individual diagnosed with an illness caused by:
 - Coronavirus
 - Norovirus within the past 48 hours of the last exposure
 - Shiga toxin-producing Escherichia coli or Shigella spp. within the past 3 days of the last exposure
 - Typhoid fever within the past 14 days of the last exposure
 - Hepatitis A virus within the past 30 days of the last exposure
 - Typhoid fever, diagnosed by a health practitioner, within the past 3 months without having received antibiotic therapy, as determined by a health practitioner

C. Procedures

Management/Supervisory Personnel:

- Ensure that pre-employment and annual physicals are administered according to guidelines established by HumanGood
- New team members must be provided with proper training regarding the reporting of infection or wounds
- Team members are required to complete a new Health Reporting Agreement form every 12 months

Team Members:

As required by local health regulations and per the Centers of Disease Control and Prevention guideline, team members should not return to work until a minimum of 48 hours after the resolution of symptoms. Team members who report a Reportable Diagnosis or Reportable History of Exposure must meet the applicable conditions listed in Section D below before returning to work.

Food Handlers:

State and local regulations must be followed when a food handler is reported to have an infection that has the potential to be spread through food. For example, an open sore/cut on the hands, wrist or lower arm must be covered with a double-barrier, such as a waterproof (blue) bandage and a single-service glove.

D. Infection Monitoring of Team Members

The following chart provides guidelines for determining when a team member **diagnosed** with a foodborne illness may return to work:

Diagnosed Illness or Symptom	Can Return to Work When the Following Conditions are Met:
Norovirus	<ol style="list-style-type: none"> 1. Approval from regulatory authority 2. Provides written medical documentation from health practitioner stating that team member is free from Norovirus. 3. Symptom free for 48 hours.
Coronavirus*	<ol style="list-style-type: none"> 1. Approval from regulatory authority 2. Provides written medical documentation from health practitioner stating that team member is free from Coronavirus. 3. Symptom free for 14 days. <p>*COVID return to work criteria can vary based on position, business need, PPE, carrying for COVID patients, symptomatic verse asymptomatic; refer to current state and local guidance.</p>
Influenza	<ol style="list-style-type: none"> 1. Approval from regulatory authority 2. Provides written medical documentation from health practitioner stating that team member is free from Influenza. 3. Symptom free for 48 hours.
<i>Shigella</i> spp.	<ol style="list-style-type: none"> 1. Approval from regulatory authority. 2. Provides written medical documentation from health practitioner stating that team member is free from <i>Shigella</i> spp. based on 2 consecutive negative stool cultures taken at least 24 hours apart and 48 hours after discontinuing antibiotic therapy.

Shiga-toxin producing <i>E. coli</i>	<ol style="list-style-type: none"> 1. Approval from regulatory authority. 2. Provides written medical documentation from health practitioner stating that team member is free from Shiga-toxin producing <i>E. coli</i> based on 2 consecutive negative stool cultures taken at least 24 hours apart and 48 hours after discontinuing antibiotic therapy.
Hepatitis A	<ol style="list-style-type: none"> 1. Approval from regulatory authority 2. Provides written medical documentation from health practitioner stating that team member is free from Hepatitis A
Typhoid fever (caused by <i>Salmonella Typhi</i>)	<ol style="list-style-type: none"> 1. Approval from regulatory authority 2. Provides written medical documentation from health practitioner stating that team member is free from Typhoid fever
Sore Throat with Fever	<ol style="list-style-type: none"> 1. Provides written medical documentation from health practitioner stating that team member received antibiotic treatment for <i>Streptococcus pyogenes</i> for more than 24 hours OR team member has a negative throat culture for <i>Streptococcus pyogenes</i>, or cleared by medical provider.
Vomiting or Diarrhea	<ol style="list-style-type: none"> 1. Provides written medical documentation from health practitioner stating that symptoms are from noninfectious condition 2. Is asymptomatic for at least 24 hours.
Non-typhoidal <i>Salmonella</i>	<ol style="list-style-type: none"> 1. Approval from regulatory authority AND 2. Provides written medical documentation from health practitioner stating that team member is free of a nontyphoidal <i>Salmonella</i> infection based on test results showing 2 consecutive negative stool specimen cultures that are taken: <ol style="list-style-type: none"> a. Not earlier than 48 hours after discontinuance of antibiotics AND b. At least 24 hours apart OR 3. The team member was restricted after symptoms of vomiting and diarrhea resolved and more than 30 days have passed since the team member became asymptomatic, OR The team member was excluded or restricted and did not develop symptoms and more than 30 days have passed since the team member was diagnosed.

The following chart provides guidelines for determining when a team member **exposed to, but with no symptoms (asymptomatic) and was never diagnosed** with the following illnesses may return to work:

Diagnosed Illness	Can Return to Work When the Following Conditions are Met:
Norovirus Influenza	<ul style="list-style-type: none"> • 48 hours after last potential exposure, OR • 48 hours since household member became asymptomatic
Shiga-toxin producing E. coli or <i>Shigella</i> spp.	<ul style="list-style-type: none"> • 3 calendar days after last potential exposure, OR • 3 calendar days since household member became asymptomatic
Typhoid fever (caused by <i>Salmonella</i> Typhi)	<ul style="list-style-type: none"> • 14 calendar days after last potential exposure OR • 14 calendar days since household member asymptomatic
Hepatitis A	<ul style="list-style-type: none"> • Immune to Hepatitis A because of previous illness, OR • Vaccinated for Hepatitis A, OR • Received IgG (immunoglobulin), OR • 30 days after last potential exposure, OR • 30 calendar days since household member experienced jaundice. • Team member receives additional training about Hepatitis A and preventing the transmission of infection, handwashing and protecting food from contamination.

E. Acknowledgement – Team Member’s signature indicates that the Team Member has read the above regarding HumanGood’s Health Reporting Agreement policy.

On-Duty Meal Period Agreement Policy	Effective Date	07/18/2021
	Revision Dates	10/11/2019
		08/12/2020
		02/06/2021
	Departments Approving	HR
Departments Affected	All	

A. Purpose

The purpose of this policy is to establish a standardized procedure regarding On-Duty Meal Period Agreements and the establishment of “on duty” meal period at HumanGood. An on-duty meal period is permitted only when the objective nature of the work prevents a team member from being relieved of all duties. Additionally, a written agreement between an employer and team member is required for on-duty meal periods, and the agreement must state that the team member can revoke the agreement at any time. The revocation must be in writing.

B. Persons Affected

All HumanGood team members in CA,, WA, and NV,, PA, ID and DE where and if meal waiver policy applies to that state.

C. Policy

In order to comply with regulatory standards HumanGood does not encourage, discourage or solicit the waiver of meal periods. In the event that the work schedule and staffing do not allow relief for a meal period HumanGood will review the exception to determine if the situation can be mitigated without necessitating an on-duty meal period. Details regarding required meals and rest breaks can be found in the HumanGood Handbook, Section 4.3 MEAL AND REST PERIODS.

All Nonexempt team members who work at least five (5) consecutive hours are permitted a 30 minute unpaid and uninterrupted meal period. "Uninterrupted" means team members must not have their meal period interrupted for any work-related reason or purpose. Unpaid meal periods are not counted toward worked hours for nonexempt team members. Team members must be completely relieved from duty during their meal period and perform no work whatsoever. If a nonexempt team member is required to perform any work duties during his or her meal period, the team member must be compensated for the entire meal period, and the time spent working during the meal period will be counted toward the total hours worked. Carrying a cell phone or radio is not considered work for there are no restrictions placed on the employee, if the employee

is contacted and their meal period is interrupted then they must be given another 30 minutes or appropriate penalties are applied.

HumanGood supervisors and managers are expected to oversee compliance with federal and state legal requirements concerning meal breaks. Team Members may voluntarily agree to an on-duty meal periods in accordance with this policy by signing a written agreement with HumanGood. Team Members that agree to an on-duty meal period may revoke the waiver at any time.

HumanGood does not encourage, discourage or solicit employees to enter into an On-Duty Meal Period Agreement, and any On-Duty Meal Period Agreements must be entered into freely and voluntarily. The On-Duty Meal Period Agreement is not for the convenience of the Team Member or the Company, nor is it intended to be a convenience. The agreement must be entered into voluntarily and is revocable by either the team member or company at any time.

Team Members that work less than 6 hours may also waive meal breaks by completing the meal break waiver agreement. In this case duties and schedules need not be considered, the 6-hour meal break waiver may simply be for the convenience of both the team member and the employer.

(California Only) Leaders will not remove missed meal penalties unless a Team Member meets the objective criteria for an on-duty meal break and has a signed On Duty Meal Period Agreement approved and on file. Any Manager that removes the missed meal penalty inappropriately may be disciplined.

D. Definitions

- **On-Duty meal** – When a team member is not relieved of all duty during his or her thirty-minute meal period. The meal period shall be considered an "on duty" meal period that is counted as hours worked and must be compensated at the team member's regular rate of pay
- **Leadership:** A manager or supervisor that has direct supervision over other team members. In their absence the 2nd level supervisor is responsible.
- **Team Member** – An employee of HumanGood, including all employment types (FT, Casual, On-Call, temp), except contractors.
- **Meal Break Waiver Form** – A written agreement between the Team Member and HumanGood allowing the Company to remove the penalty for an on-duty meal. There are forms for the 1st and 2nd Meal Break as well as a short shift form (<6 hours of work)

E. Responsibilities

Leadership team members are responsible for scheduling team member's work shifts and duties in compliance with federal and state legal requirements concerning meal periods.

When applicable, leadership is responsible for reviewing, approving and forwarding meal break waivers to Human Resources for approval, processing and filing.

Team Member work duties that do not allow relief for a meal period may volunteer to take an on-duty meal break, and thus receive pay for the entire shift. For example, a team member waiving their meal could work from 12:00 to 8:00 and receive pay for all 8 hours, as opposed to taking a 30 minute uninterrupted break and clocking out for lunch, resulting in being paid 7.5 hours of pay for the same time period. Team Members may only take on on-duty meal break under this policy if the Team Member meets the objective criteria for an on-duty meal break and has a signed On Duty Meal Period Agreement approved and on file.

F. Procedures

In order to comply with HumanGood policies all exceptions that may lead to on-duty meal periods must be review with the Human Resources Department prior to the implementation of a On-Duty Meal Period Agreement.

The supervisor or manager will acquire the appropriate documentation with the affected team member. The team member must desire and agree to the waiver prior to the initial occurrence. The waiver will be sent to the Human Resources Department for review, approval and inclusion in the team member's file.

All hours for time spent during an on-duty meal period must be paid.

(California Only)

Team members that have not signed a Short-Shift Meal Period Waiver or an On-Duty Meal Period Agreement and are not afforded an uninterrupted meal break where they are fully relieved of their duties will receive a meal penalty pay of an additional hour of pay at the team member's regular rate of pay. This additional penalty hour of pay does not count towards overtime calculations.

Leaders of team members on waivers must remove the missed meal penalty through the time collection system prior to the end of each pay period. Leaders may not remove a missed meal penalty unless a Team Member meets the criteria for the missed meal waiver and a signed meal waiver is in place. Any leader that removes the missed meal penalty inappropriately must be reported through the appropriate chain of command and may be disciplined.

Short-Shift Meal Period Waivers and On-Duty Meal Period Agreements must be completed and the form must be countersigned by the Regional Human Resources Director, before it becomes valid under our Policy. Without these signed documents, any meal penalty automatically created by the system should not be removed from payroll.

All questions related to this policy should be directed to the Vice President of Human Resources.

I. POLICY

It is HumanGood’s policy to comply with the HIPAA and HITECH Act (as defined below) regulations and to establish written policies and procedures to assist its team members in doing so. All team members will take reasonable steps to safeguard Protected Health Information (as defined below) and to limit any use, disclosure, or request for PHI to the Minimum Necessary (as defined below) to accomplish the intended purpose.

II. SUMMARY DEFINITIONS

- A. Covered Entity: Individuals or entities that are required to comply with the HIPAA regulations, including: health plans, healthcare clearinghouses, and healthcare providers who transmit any health information in electronic form. HumanGood is a Covered Entity and as such, must comply with all applicable HIPAA and HITECH Act requirements.

- B. Business Associate: An individual who, or an entity that, on behalf of a Covered Entity: (i) performs or assists in the performance of a function or activity involving the use or disclosure of Protected Health Information; or, (ii) provides management, administrative, accreditation, billing or financial services to or for a Covered Entity where the provision of the service involves the disclosure of Protected Health Information from the Covered Entity, or from another Business Associate of such Covered Entity.

- C. HIPAA and HITECH Act: The Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) created national standards to protect an individual’s medical records and other personal health information. The Health Information Technology for Economic and Clinical Health Act (“HITECH Act”) amended the Privacy and Security Rules (as defined below), which requires Covered Entities to (1) implement appropriate administrative, technical, and physical safeguards to reasonably safeguard Protected Health Information (“PHI”) (as defined below) from any intentional or unintentional use or disclosure that violates the Rules (defined below); and (2) ensure the confidentiality, integrity and availability of PHI in electronic form.

- D. Minimum Necessary: The amount of information reasonably required for the performance of a given task or service, and no more. The Minimum Necessary standard is not intended to impede essential treatment, payment, or healthcare operations activities of Covered Entities. The standard is intended to be consistent with, and not override, professional judgment and standards.

- E. Privacy and Security Rules (the “Rules”): The regulations that set forth the federal standards for privacy and security of individually identifiable information and provide a “floor” of privacy

protection.

- F. Protected Health Information (“PHI”): Any information created or received by a Covered Entity (e.g., HumanGood) that relates to the past, present, or future physical or mental health or condition of an individual; the provision of healthcare to an individual; or, the past, present, or future payment for the provision of healthcare to an individual, which identifies the individual or, with respect to which, there is a reasonable basis to believe the information can be used to identify the individual. See Exhibit A for Examples of PHI and Practical Guidance for Protecting PHI.

III. PROCEDURE

A. Uses and Disclosures of PHI

1. General Uses and Disclosures of PHI

HumanGood may use or disclose a resident’s PHI to (a) treat the resident; (b) run the company; (c) bill for its services; (d) help with public health and safety issues; (e) do research; (f) comply with the law; (g) respond to organ and tissue donation requests; (h) work with a medical examiner or funeral director; (i) address workers’ compensation, law enforcement, and other government requests; and (j) respond to lawsuits and legal actions. For further details, see the *Permitted and Required Uses and Disclosures of PHI Policy and Disclosures of PHI - Authorization, Fee and Accounting Table*.

2. Minimum Necessary

- a. When using or disclosing PHI or when requesting PHI from another Covered Entity, HumanGood team members must make reasonable efforts to limit PHI to the Minimum Necessary to accomplish the intended use, disclosure, or request.
- b. The Privacy Rule permits a Covered Entity to make its own assessment of what the Minimum Necessary PHI is for a particular purpose, given the characteristics of its business and workforce. All HumanGood disclosures of or requests for PHI for payment or operations will be limited to the Minimum Necessary amount of PHI needed to accomplish the purpose of the disclosure or request. In addition, disclosure by HumanGood team members will be limited to those with “a need to know” to carry out their duties.
- c. A Covered Entity is permitted to reasonably rely on the request of another Covered Entity for PHI because the requesting Covered Entity is itself subject to the Minimum Necessary standard, and, therefore, required to limit the request to only that information that is reasonably necessary for the intended purpose. In addition, HumanGood team members may reasonably rely on a requested use or disclosure as the Minimum Necessary when the information is requested by a HumanGood Business Associate.
- d. The Minimum Necessary rule does not apply when disclosures are made to or requested by a healthcare provider for treatment.

e. For further details, see the *Minimum Necessary Rule Policy*.

3. Disclosure Accounting

HumanGood will track all PHI disclosures that must be accounted for under the Rules and provide an accounting to the appropriate individual upon their request. For further details, see the *Accounting of PHI Disclosures Policy*.

4. Authorization and Verification

It is HumanGood's policy that a valid authorization will be obtained for PHI disclosures by HumanGood, as required by law. Exceptions to the need for an authorization include disclosures made: (a) for treatment, payment, or healthcare operations; or (b) to Business Associates in performance of their legitimate duties. Any authorization requests that are generated outside of HumanGood must be reviewed by the Legal Department to ensure they contain the core elements and statements required under HIPAA and other applicable law. The individual providing an authorization may revoke the authorization, in writing, except to the extent that HumanGood has taken action in reliance on the authorization. For further details, see the *Medical Records Requests Policy*, the *Authorization for Release Protected Health Information Form*, and the *Verification of Identity Before Release of PHI Policy*.

5. Marketing Activities

Where applicable and required, HumanGood obtains authorization from the resident or individual before using or disclosing PHI in its marketing activities. HumanGood does not consider the communication of alternate forms of treatment or the use of products and services in treatment to be marketing. For further details, see the *Use and Disclosure of PHI in Marketing Activities Policy*.

6. Sale of PHI

HumanGood does not disclose PHI in exchange for financial remuneration, except as specifically allowed by law (e.g., when collecting a fee for providing copies of medical records). For further details, see the *Sale of PHI Policy*.

7. Fundraising Activities

HumanGood may contact residents in connection with its fundraising efforts, but the resident has the right to opt-out of receiving further fundraising communications. Once the resident has opted out, HumanGood will not make fundraising communications to that resident, unless the resident opts back in to receiving fundraising communications. For further details, see the *Use and Disclosure of PHI for Fundraising Activities Policy*.

8. Judicial and Administrative Proceedings

HumanGood discloses PHI for the purposes of a judicial or governmental administrative proceeding only when: (a) requested pursuant to a court or administrative order or grand jury subpoena; (b) requested pursuant to a subpoena or discovery request; or, (c) pursuant to a qualified protective order issued by a court. Further, it is HumanGood's policy that PHI be disclosed only when requested by any of the above-listed means, if such request includes either: (i) the authorization of the individual to whom the information applies; (ii) documented assurances that good faith effort has been made to adequately notify the individual of the request for their information; (iii) the applicable time for objection to such request for PHI has reasonably expired; or, (iv) as otherwise required or permitted under applicable law. For further details, see the *Medical Records Request Policy*.

B. Notice of Privacy Practices

HumanGood maintains a Notice of Privacy Practices ("NPP") that describes the way in which it uses and discloses PHI. The NPP is provided to residents upon request (except as otherwise required by law) and may be changed in accordance with the *Notice of Privacy Practices Policy*. A copy of the NPP is posted on the HumanGood website. A copy of the NPP is enclosed with this Policy, but team members should always check the HumanGood website or intranet for the latest version of the HumanGood NPP.

C. Individual Access to PHI, Restrictions on Disclosure, Communication by Alternate Means and Request for Amendment

1. Access by Individual / Authorized Representative

It is HumanGood's policy to timely review and respond to requests for access or electronic or paper copies of a resident's medical records, whether from the resident, authorized representative or third party. Residents may give someone medical power of attorney or someone may be their legal guardian and that person can exercise the resident's privacy rights and make choices about the resident's PHI. Those individuals are considered the resident's authorized representative. For further details, see the *Access to PHI – Resident or Authorized Representative Policy*, the *Medical Records Requests Policy*, and the *Access to Electronic Health Records – Regulatory Agencies Policy*.

2. Restrictions on Disclosure

- a. Restriction on Uses and Disclosures of PHI. The Privacy Rule grants each individual the right to request restriction of the uses and disclosures of his or her PHI to carry out treatment, payment, or healthcare operations, but HumanGood is not required to grant this request. If HumanGood agrees to a restriction, the restriction must be appropriately documented and communicated to those whose functions may be impacted by the restriction. For further details, see the *Requests for Restriction of PHI Disclosure Policy*.)

- b. Restriction on Uses and Disclosures of PHI (Out-of-Pocket Paid Items and Services). The Privacy Rule requires that a Covered Entity restrict disclosures of PHI to an individual's health plan if: (i) the disclosure is for the purpose of carrying out payment or healthcare operations (and is not otherwise required by law); and, (b) the information pertains only to a healthcare item or service for which the individual (or a person other than the health plan) paid the Covered Entity in full. HumanGood team members will document such requests and communicate them to those whose functions may be impacted by the restriction. For further details, see the *Requests for Restriction of PHI Disclosure Policy*.)
- c. Communications of PHI by Alternate Means. The Privacy Rule grants individuals the right to request communication of PHI by alternative means or to an alternative location. HumanGood will accommodate reasonable requests for alternative communications and will make good faith efforts to abide by the request, unless unable to do so in case of emergency. HumanGood team members should document any requests agreed to and communicate the same to those whose functions may be impacted by the restriction. For further details, see the *Request for Communication of PHI by Alternate Means Policy*.

3. Requests for Amendment of PHI

The Privacy Rule permits individuals to request the amendment of incorrect PHI. If the patient's request pertains to the amendment of a record or document owned and under the control of HumanGood, then HumanGood will review and respond to the request within sixty (60) days and make revisions to the applicable record or document, as and if appropriate. For further details, see the *Request for Amendment of PHI Policy*.

4. PHI of Deceased Individuals

HumanGood team members are permitted to disclose a decedent's PHI under the following circumstances: (a) to alert law enforcement to the death of the individual, when there is a suspicion that death resulted from criminal conduct; (b) to coroners or medical examiners and funeral directors; (c) for research that is solely on the protected health information of decedents; and, (d) to organ procurement organizations or other entities engaged in the procurement, banking or transplantation of cadaveric organs, eyes, or tissue, for the purpose of facilitating organ, eye, or tissue donation and transplantation. For further details, see the *Release of PHI of Deceased Resident/Client Policy*.

5. Breach Notification

If a HumanGood team member knows of any intentional or unintentional use or disclosure of PHI or electronic PHI ("e-PHI") that is in violation of this Policy, any other HumanGood policy, or the Rules, s/he must immediately take appropriate steps to mitigate the situation, including contact the appropriate manager, supervisor, and/or Privacy Officer or Security Officer. For further details, see the *Breach Notification Policy*.

D. HumanGood Operations

1. Administrative, Technical and Physical Safeguards

HumanGood ensures that appropriate administrative, technical and physical safeguards are in place to (a) reasonably safeguard PHI from any intentional or unintentional use or disclosure that is in violation of the Privacy Rule; (b) ensure the confidentiality, integrity and availability of e-PHI it creates, receives, maintains or transmits; (c) protect against reasonably anticipated uses or disclosures that violate the Rules; and (d) limit incidental uses and disclosures resulting from otherwise permitted or required uses or disclosures.

2. Team Member Use and Disclosure of PHI

HumanGood team members' authority to use and disclosure PHI, for operations, treatment or payment purposes, is granted to each team member based on the assigned job functions of the individual. These use and disclosure privileges will not exceed those necessary for the job function or task. For further details, see the *Use and Disclosure of PHI by Workforce Members Policy*.

3. Training and Awareness

HumanGood requires all its team members to complete annual HIPAA compliance training. Team members who fail to fulfill this training requirement may be subject to discipline, up to and including termination of employment. New HumanGood team members receive HIPAA training as a component of their initial onboarding. Additional training may be required in response to changes in law or operations or as otherwise needed. For further details, see the *Workforce Privacy Education Policy*.

4. De-Identification (and Re-Identification)

PHI may be considered de-identified if it does not identify an individual, and there is no reasonable basis to believe that the information can be used to identify an individual. HumanGood's policy is that any de-identification of PHI must be performed only by qualified individuals. HumanGood team members should contact the Legal Department regarding de-identification of PHI. The Legal Department will work with the Information Technology Department (and other qualified individuals) regarding de-identification of PHI. De-identified PHI may not be re-identified, unless the Legal and IT Departments have been consulted. For further details, see the *De-Identification of Protected Health Information (PHI) Policy*.

5. Complaint and Non-Retaliation Policy

Residents have the right to file a privacy complaint if they believe their HIPAA privacy rights have been violated. HumanGood does not require residents to waive their right to file a HIPAA privacy complaint as a condition of receiving treatment or otherwise. HIPAA privacy complaints may also be filed by a resident's authorized representative or HumanGood team members or business associates. For further details, see the *Process for Handling HIPAA Privacy Violation*

Complaints Policy.

HumanGood team members are prohibited from engaging in any intimidating or retaliatory acts against persons who file complaints or otherwise exercise their rights under HIPAA regulations or participate in any HIPAA complaint or investigative process. For further details, see the *Violations of HIPAA Privacy Practices Enforcement Policy*.

6. Document Retention and Destruction

HumanGood documents its policies and procedures adopted to protect the privacy and security of PHI. HumanGood has established a record retention policy that addresses the retention period(s) for these policies and procedures. HumanGood destroys documents and electronic media containing PHI through shredding or other secure means. For further details, see the Record Retention, Storage and Destruction Policy.

7. Business Associates

HumanGood requires its Business Associates to be contractually bound to safeguard PHI. HumanGood's Business Associates are permitted to use and disclose PHI only as provided in their service agreement with HumanGood. Where HumanGood knows of a pattern of activity or practice that constitutes a material breach or violation of a Business Associate's obligations under its business associate agreement with HumanGood, it will require the Business Associate to take steps to cure the breach or end the violation. If the Business Associate is unable to cure the breach or end the violation, HumanGood will terminate the agreement (if feasible) and report the breach to the Office for Civil Rights. For further details, see the *Business Associate Agreements Policy*.

8. Cooperation with Privacy Oversight Authorities

It is HumanGood's policy to cooperate with oversight authorities, such as the Office for Civil Rights. HumanGood team members will cooperate with all privacy compliance reviews and investigations, which should be directed to HumanGood's Privacy Officer.

9. Sanctions

HumanGood may impose disciplinary action, up to and including termination, upon any team member who intentionally or unintentionally violates the requirements outlined in this or any of HumanGood's related policies. For further details, see the *Violations of HIPAA Privacy Practices Enforcement Policy*.

10. Privacy Officer

HumanGood has designated one of its team members as its Privacy Officer. The Privacy Officer is responsible for the development and implementation of HumanGood's HIPAA privacy policies and procedures as well as receiving HIPAA privacy complaints.

11. Audits

As a Covered Entity, HumanGood may be subject to a HIPAA audit by the Secretary of the Department of Health and Human Services (or his/her designee). It is HumanGood's policy to cooperate with such HIPAA audits. HumanGood team members should immediately report receipt of any documents related to a HIPAA audit of HumanGood to the Privacy Officer.

IV. EXCEPTIONS / SPECIAL CIRCUMSTANCES

- A. A Covered Entity may disclose PHI to a family member or other person involved in the individual's care. Where the individual is present during a disclosure, the Covered Entity may disclose PHI if it is reasonable to infer from the circumstances that the individual does not object to the disclosure.
- B. The Privacy Rule permits certain incidental uses and disclosures that occur as a result of a use or disclosure otherwise permitted by the Rules. The incidental use or disclosure is permissible only to the extent that the Covered Entity has applied reasonable safeguards to PHI, and implemented Minimum Necessary standards. For example, two nurses who are conferring about a resident at a nurses' station do not have to fear violating the Privacy Rule if they are overheard by a passerby, as long as the nurses make reasonable efforts to avoid being overheard and reasonably limit the information shared.
- C. State laws that are more stringent than the Privacy Rule take precedence over the federal regulations. Team members should contact the Legal Department with questions regarding the interpretation of state and federal privacy laws.
- D. The Privacy Rule does not apply to the employment functions of Covered Entities, namely, when they are acting in their role as employers. Employment records are exempt from the definition of PHI. For example, information in a HumanGood team member's personnel file about a leave of absence due to illness is not PHI under the Rules. Similarly, drug-screening test results sent to HumanGood and placed in the team member's personnel file are not considered PHI.

V. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on changes in law, risk, industry threats and identified vulnerabilities.

Exhibit A

Examples of Protected Health Information (PHI)

1. Conversations about a resident's health
2. Patient dictation on tape
3. Healthcare claim/bill
4. Medical record
5. Emails with resident name (or other identifiers, such as date of birth, address, phone number or email) and health information
6. Electronic equipment or digital media (if resident health data is stored). Some examples include, cell phones, laptops, tablets, thumb drives and recordable discs.

Practical Guidance for Protecting PHI

1. Disclose only the minimum necessary information for people to do their jobs.
2. Avoid discussions about resident's health in public places.
3. Avoid placing PHI in view of other residents or family members.
4. Password protect your mobile electronic devices, laptops, and home computers if PHI is stored there.
5. Don't leave PHI visible on your computer screen.
6. Be certain that your papers and computer equipment are physically secure in your home, car, or other "off-site" locations. Do not leave your briefcase in plain sight within your car; secure it in the trunk of the car and remove it from the car (to a more secure location) as soon as possible.
7. Don't send emails with PHI, unless they are encrypted.
8. Don't put PHI in trash or recycle bins; use only shredding or other document destruction receptacles.
9. Verify fax numbers and email address before you send faxes or emails with PHI. Verify mailing address before mailing or shipping documents or devices with PHI.
10. Report any potential privacy or security breaches by team members or business associates to HumanGood's Compliance Officer, Security Officer and/or Privacy Officer.

ACCESS TO ELECTRONIC HEALTH RECORD- REGULATORY AGENCIES	Effective Date	April 20, 2020
	Revision Dates	9/18/20
	Departments Approving	Legal
	Departments Affected	All

Introduction and Background

HumanGood is committed to cooperating and providing regulators with requested information necessary to perform their role.

Policy

HumanGood will provide access to resident records to regulators as required by statute, regulation, or other applicable law.

The form of access will vary depending upon regulator need or request. This form may consist of:

- Printed copies of records
- Faxed copies of records
- On site access to paper documents
- On site access to HumanGood Electronic Health Record System hardware with appropriate login information
- Encrypted email
- Encrypted devices such as thumb drives or other hardware sent to regulator

HumanGood strives to maintain the safety of highly sensitive information under HIPAA guidelines, therefore, access by regulators to the medical record via the internet or on an unencrypted device will only be allowed if other forms of access are unsuitable. This access will only exist temporarily during the pandemic emergency.

If such access is required by regulation or statute, HumanGood IT department will assist in setting up a secure temporary connection protecting the data transmission.

Definitions

Regulator: individuals properly identified as working for a local, state or federal regulatory agency (such as CMS, Public Health, State Department of Health, State Department of Social Services) or other regulating bodies who by regulation, statute, or other applicable law are required to be given access to medical records in the course of their work conducting a survey or investigation.

ACCESS TO PHI - RESIDENT OR AUTHORIZED REPRESENTATIVE	Effective Date	05/2003
	Revision Dates	07/2013
		01/01/21
	Departments Approving	Legal
Departments Affected	CCRC Operations – Medical Records	

I. POLICY

Individuals have a right to access their protected health information (PHI) in a designated record set (as defined below). HumanGood team members grant individuals access to PHI in a designated record set when required or permitted by law or with the written authorization of the individual who is the subject of the records, as outlined in this policy, which must be read in conjunction with the Medical Records Requests Policy.

II. SUMMARY DEFINITIONS

- A. “Authorized representative” means a personal representative and includes a person that has the authority to act on behalf of a resident on matters related to healthcare and could be a court-assigned conservator, the person holding a durable power of attorney for healthcare or attorney-in-fact; or, if the resident is in skilled nursing, the person who is a next-of-kin that has been previously authorized by the resident to access or receive a copy of the resident’s records. An authorized representative is treated as the individual for purposes of this and HumanGood’s other applicable HIPAA policies.
- B. “Covered entity” means a healthcare provider, healthcare clearinghouse, or health plan.
- C. “Designated record set” means a group of records maintained by or for a covered entity that comprises the (a) medical and billing records about individuals maintained by or for a covered healthcare provider; (b) enrollment, payment, claims adjudication, and case or medical management record systems maintained by or for a health plan; or (c) other records that are used, in whole or in part, by or for the covered entity to make decisions about individuals. This last category includes records that are used to make decisions about any individuals, whether or not the records have been used to make a decision about the particular individual requesting access.
- D. “Psychotherapy notes” means notes recorded (in any medium) by a health care provider who is a mental health professional documenting or analyzing the contents of conversation during a private counseling session or a group, joint, or family counseling session and that are separated from the rest of the individual’s medical record. Psychotherapy notes do not include medication prescription and monitoring, counseling session start and stop times, the modalities and frequencies of treatment furnished, results of clinical tests, and any summary of the following items: Diagnosis, functional status, the treatment plan, symptoms, prognosis, and progress to date.
- E. “Record” means any item, collection, or grouping of information that includes PHI and is maintained, collected, used, or disseminated by or for a covered entity.

III. PROCEDURE

- A. Request for Access. If a resident or authorized representative makes a verbal request for access to PHI in a designated record set, the requestor should be instructed to complete, sign and return the Authorization for Release of Protected Health Information form. Once the completed and signed form has been received, the Executive Director and/or Health Services Administrator or his/her designee must verify the identity of the party requesting the medical records. See Verification of Identity Before Release of PHI Policy.
- B. Request for Copy. If the individual is requesting access by receiving a copy of PHI (whether paper or electronic) in a designated record set or having a copy sent to a third party, process the request under the Medical Records Requests Policy and include documents within the definition of a designated record set in the production. The resident/client may designate another person or entity to be the recipient of the copy of his/her PHI (whether paper or electronic). If an individual's request is for an electronic form or format that is not readily producible, HumanGood shall offer other electronic formats that are available on its system or provide a summary of documents on file. In the event the individual declines to accept any of the electronic formats that are readily producible, they shall be provided with a hard copy.
- C. Summary of PHI: If the resident/client or their authorized representative agrees, we may provide a summary of the health information requested in lieu of providing a copy of the designated record set. If the resident/client or authorized representative agrees to receive a summary, a reasonable cost-based fee for preparing the summary may be charged and collected before the summary is released.
- D. Response Timing.
 - 1. Skilled Nursing Timing. Access must be provided within two (2) working days of the request.
 - 2. General Timing. Access must be provided within thirty (30) days of receipt of the request.
- E. Providing Access to Inspect. Any on-site inspection must be coordinated with the Executive Director and/or Health Services Administrator or his/her designee and supervised by a designated staff member. Verification of the individual's identity (and authority, where applicable) must be done prior to allowing access to inspect the resident/client's health record.
- F. Basis for Denial of Access.
 - 1. HumanGood is permitted to refuse access to PHI in the following circumstances: (1) the designated record set requested was given to us in confidence by someone other than a healthcare provider, biller, or payer of services; (2) to the extent that the requested designated record set contains within it PHI that belongs to another individual such as a family member, a licensed healthcare professional has to determine whether, in the exercise of his/her professional judgment, access to that specific PHI by the resident or authorized representative is reasonably likely to cause substantial harm to that other person or to the resident/client. In these instances, access to or a copy of the specific PHI involved may be denied; (3) to the extent that the requested designated record set contains "sensitive information" (as defined below), this information must be specifically requested and signed for by the resident, or it cannot be accessed. **All denials of a resident's or authorized representative's**

request access to PHI must be coordinated with the Privacy Officer or other Legal Department.

2. HumanGood may deny access to the resident's authorized representative if a designated licensed professional, in their exercise of professional judgment, believes that such access is reasonably likely to cause substantial harm to the resident/client or to another person. This decision may not be appealed.

IV. EXCEPTIONS / SPECIAL CIRCUMSTANCE

- A. Exceptions from Production and Access. Do not produce or permit access to quality assurance/improvement documents, risk management reports, notes from any internal investigation into an incident, lawsuit information (including, documents prepared in anticipation of litigation), or documents regarding research activities and results.
- B. Sensitive Records: Access to PHI concerning psychiatric evaluation and treatment or psychotherapeutic counseling, alcohol or drug abuse evaluation and treatment, and evaluation/treatment of sexual abuse or venereal disease, including HIV/AIDS will be denied, unless specifically identified in an Authorization to Release Protected Health Information form signed and initialed in each category by the resident. For access to psychotherapy notes, contact the Legal Department and see the Permitted and Required Uses and Disclosures of PHI Policy. When such access is denied, we will provide the individual with a written denial and the reason(s) for it, and will inform them of their right to have their physician, psychiatrist, clinical psychologist, licensed clinical social worker, or family therapist of their choice review the record on the resident's/client's behalf. Although any professional so chosen, is not permitted by law to enable the resident/client to inspect or receive a copy of the information, that professional is permitted to provide HumanGood with their determination so that we can make the decision related to access.
- C. Deceased Individuals. If the resident is deceased, access may only be granted to the executor or administrator of the resident's estate or a beneficiary named in the resident's Last Will and Testament. See also Release of PHI of Deceased Resident/Client Policy.
- D. Hyperlinks in Designated Record Set. If the designated record set contains electronic links to images or other data, the images or other data that are linked to the designated record set must be included in the electronic copy provided to the individual *only if*, HumanGood created the documents in the record set. If HumanGood did not create the documents, those documents are not included in the designated record set, and the links must be deactivated by the Information Technology Department before release.
- E. Accounting of Disclosures. Communities must maintain a system(s) for logging and tracking requests for inspection, access and copies of medical records that have been disclosed without the resident's written authorization or for other than for treatment, payment or healthcare operations, as outlined in the Accounting for Disclosures of PHI Policy.

V. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

ACCOUNTING OF PHI DISCLOSURES	Effective Date	01/01/21
	Revision Dates	
	Departments Approving	Legal
Departments Affected	LPC; Health Plan functions	

I. POLICY

It is HumanGood’s policy to appropriately account to residents/clients for disclosures of protected health information (PHI) made without their written authorization, except disclosures made to resident/clients themselves. HumanGood documents and tracks the applicable PHI disclosures in order to account for them when requested.

II. DEFINITIONS

- A. **Accounting of Disclosures** means a listing of disclosures of PHI made to any person or entity other than the resident/client without their written authorization, unless excluded as described in this policy.
- B. **Disclosure** means release, transfer, provision of access to, or divulging in any manner of PHI outside of HumanGood or the business associate that maintains the PHI on HumanGood’s behalf.
- C. **Electronic PHI** means individually-identifiable health information that is transmitted by or maintained in electronic form.
- D. **PHI** means **protected health information**, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident.

III. PROCEDURE

- 1. Lookback Period. The timeframe requirement for an accounting of disclosures by hard copy is limited to six (6) years prior to the date of the written request for an accounting or the timeframe the resident/client identifies in the request, whichever is shorter.
- 2. Receipt and Acknowledgement of Request. Each written request for an accounting of disclosures is date and time stamped by the medical records team member upon receipt. The medical records team member then sends the resident/client an Acknowledgement of Receipt of Request for Accounting of Disclosures of PHI Form, which includes the fee that is to be assessed to the requestor for the accounting, if any. The accounting must be provided within sixty (60) days of receipt of the request. The medical records team member should work with the Information Technology Department if an accounting of disclosures of e-PHI must be produced. If the 60-day timeframe cannot be met for any reason, the community will provide the resident/client with an interim letter explaining the need for an extension. Only one such extension is permitted under the Privacy Rule.

3. **Content of the Accounting:** At a minimum, the accounting of disclosures must include, **for each disclosure**, the following information:
 - Date of the disclosure made during the timeframe on the written request.
 - Name, address and telephone number of the entity or individual who received the PHI.
 - A brief description of the PHI disclosed.
 - A brief statement of the purpose of the disclosure that reasonably informs the resident of the basis for it or, in lieu thereof, a copy of the entity or individual request for a disclosure, if available.
4. **Accounting Exceptions:** An accounting is not required for the following disclosures:
 - Disclosure for the purpose of treatment, payment for services and health care operations.
 - Disclosures made between members of the HumanGood workforce as part of their function in delivering health care services.
 - Any disclosure made pursuant to a written authorization from the resident/client or their authorized representative.
 - Disclosure of a limited data set to a person involved in the resident/client's care, payment for services, or other notification purposes.
 - Discussion with family regarding resident changes in condition.
 - Disclosures to law enforcement for the purpose of locating the resident when s/he is missing, reporting an incident of suspected or actual elder abuse, or reporting a crime involving a resident.
 - Reports of elder abuse to the local LTC Ombudsman.
 - Disclosures to organ and tissue organizations relative to a resident's wish to donate.
 - Disclosures made as part of a limited data set.
 - Disclosures to the Department of Defense or the FBI for the purposes of conducting lawful intelligence, counter-intelligence and other national security activities.
 - Disclosure necessary in litigation in which HumanGood is a defendant.
 - Disclosures of de-identified PHI.
 - Posting of a resident's name on the wall outside their residence in the community, for which only verbal agreement is required.
 - Disclosure of a resident information in the community's directory, for which only verbal agreement is required.
5. **Multiple Disclosures to the Same Entity or Person:** Where multiple disclosures were made to the same entity or individual for a single purpose or pursuant to a single authorization during the time period in the accounting request, the accounting shall include the information as set forth above for the first disclosure, followed by a description of the frequency of times the same or different disclosure was made during the accounting period, and the date of the last disclosure during the accounting period.
6. **Disclosures to Public Health Authorities:** HumanGood may disclose or allow access to resident/client's PHI to a public health authority that is legally permitted to collect or receive it for public health surveillance or related activities. Such disclosure and/or access must be included in the accounting, if it occurs during a time period within a resident/client's request for an accounting. Such access should be documented on the Log (described below) and include the date of access, the identity and address of the public

health authority to which access was provided, the medical record numbers accessed, the PHI within each one that was accessed, and the purpose for the access.

7. Disclosures for Research Purposes: Disclosures made for research purposes, unless authorization was either waived by an Institutional Review Board or is not otherwise required by law, must be included in the accounting of disclosure, unless the resident/client has specifically authorized use and disclosure of their PHI for the research project. This is not the same as written consent to participate in the research project. For additional information regarding the accounting for research-related disclosures, please contact the Privacy Officer.
8. Business Associate Accounting of Disclosures: HumanGood business associates that use, transmit, maintain and disclose PHI on our behalf must also provide an accounting of disclosures to a resident/client who requests one. The resident/client can make that request directly of the business associate, and should be provided the contact information for the applicable business associate(s), including, but not limited, mailing address, phone number, and email address.
9. Accounting of Disclosures Log. As disclosures of PHI are made, each disclosure that is subject to an accounting, should be recorded on the Accounting of Disclosures of PHI Log.
10. Fee. There is no charge for the first accounting to an individual in any 12-month period. A reasonable, cost-based fee may be charged for each subsequent request for an accounting by the same individual within the 12-month period; provided that, the individual is given advance written notice of the fee and an opportunity to withdraw or modify the request in order to avoid or reduce the fee.

IV. EXCEPTIONS

1. Withdrawal/Modification of Request. Each person requesting an accounting shall be provided with the opportunity to withdraw or modify their request for an accounting for any reason.
2. Suspension of Right to Accounting. The community must temporarily suspend an individual's accounting of disclosures that are made to a health oversight agency or law enforcement official, where the agency or official submits a written statement that inclusion of this disclosure in the accounting is reasonably likely to impede the activity for which the PHI is need. In that case, the suspension is to last only as long as the time specified in the written statement. If the agency or official statement is made verbally to the community, a medical records team member must: document the statement, including the identity of the agency or official making the statement; and, limit the temporary suspension to no longer than 30 days from the date of the verbal statement.

V. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on changes in law, risk, industry threats and identified vulnerabilities.

**ACKNOWLEDGEMENT OF RECEIPT OF REQUEST
FOR ACCOUNTING OF DISCLOSURES OF PHI**

Resident/Client Name _____

Date of Request: _____

We have received your request for an accounting of disclosures of your protected health information (PHI) from the dates of _____ to _____.

Please allow up to sixty (60) days to prepare the accounting for you. If we need more time, we will notify you.

- You have no requests for an accounting on file for 12 months prior to this request; and, therefore, there will be no fee charged for the preparation of the accounting.
- You have ____ prior request(s) for an accounting in the 12 months prior to your current request. Therefore, we are permitted to charge a cost-based fee for the accounting. Please pay the fee of _____ by _____, and we will begin the preparation. Alternatively, you may withdraw or modify your request to eliminate or reduce the cost. Please send us your withdrawal or modification in writing.

If you have any questions after receiving this information, please call _____.

Thank you,

Medical Records Department

(All references on this form to "us", "we" and "our" means HumanGood and _____.

[Insert Community Name]

CHARGES: The requestor may be responsible for payment of a reasonable, cost-based processing fee. The fee covers clerical costs as well as any/all costs associated with copying of the information. Unless stated otherwise, only amounts above \$25 or higher will require fee-approval before copying.

THIRD-PARTY RECORDS: We can only release records that we created. Please contact your third-party provider for copies of third-party records.

1. **Authorization:** I authorize disclosure of medical information and health records as described below:

Patient Name: _____

Date of Birth: ____/____/____ Telephone: (____) _____ Last 4 of SSN: ____

Email Address: _____

Record Holder's (Community's) Name: _____

Address: _____ City: _____ State: _____ Zip: _____

Records Released To: _____ Address: _____

_____ City: _____ State: _____ Zip: _____

2. **Information to be Released for these Dates of Service:** From _____ To _____

3. **Information to Release:** Place your initials next to each category of information to be released.

BREACH NOTIFICATION	Effective Date	06/03
	Revision Dates	07/13
		01/01/21
	Departments Approving	Legal
	Departments Affected	LPC; Health Plan functions

I. POLICY

It is HumanGood’s policy that its team members report any suspected or known breach of protected health information (“PHI”), whether in paper or electronic form, to the Privacy Officer and/or Security Officer.

II. SUMMARY DEFINITIONS

- A. “PHI” means “protected health information”, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident.
- B. “Breach” means the impermissible acquisition, access, use or disclosure of PHI that compromises the security or privacy of the PHI, which may include, by way of example, unexpected loss or damage to PHI (e.g., a lost laptop, thumb drive, or paper copy), theft or improper disposal of PHI (e.g., placing PHI in a trash can, instead of shredding it), accidental release to unauthorized people (e.g., misdirected email or fax) and unauthorized acquisition, access, use, or disclosure (e.g., hacking or giving your EHR password to an unauthorized person).
- C. “Unauthorized access” means a person who is not authorized to have access to PHI or to use or disclose it, has accessed, used or disclosed that PHI.
- D. “Unsecured PHI” means: (1) paper PHI that is left unattended, in a place that it might be seen, read, or taken by an unauthorized person; (2) electronic PHI that has been sent via unencrypted email and/or to the wrong person; or, (3) paper or electronic PHI that is not rendered unreadable, unusable, or indecipherable to unauthorized individuals or entities.

III. PROCEDURE

- A. Any team member who discovers that PHI has been left in an area that is exposed to unauthorized viewing, such as on a fax machine, or PHI has been lost or stolen, or that PHI has been accessed by unauthorized individuals, immediately notifies his or her shift supervisor and describes the situation to him/her.
 - 1. If the situation involves lost PHI, the supervisor and team member begin an immediate search for it, including searching waste receptacles. If the PHI cannot

BUSINESS ASSOCIATE AGREEMENTS	Effective Date	01/01/21
	Revision Dates	
	Departments Approving	Legal
	Departments Affected	All

I. POLICY

It is HumanGood’s policy to obtain satisfactory assurances in the form of a written contract from each business associate that will create, receive, maintain, or transmit protected health information (PHI) from or on behalf of HumanGood. Each business associate must in turn do the same with regard to each subcontractor that handles PHI on its behalf.

II. SUMMARY DEFINITIONS

- A. “Business associate” means an entity or person that creates, receives, maintains, or transmits PHI in performing a function, activity, or service for or on HumanGood’s behalf under a signed service contract and also includes Health Information Organizations, vendors of personal health records, and other businesses that facilitate data transmission.
- B. “PHI” means “protected health information”, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident. PHI may be in any form or medium; for example, oral, electronic, on paper, or in photographs or videos.
- C. “Subcontractor” means an entity or person (other than a workforce member of a business associate) to whom a business associate delegates a function, activity, or service of such business associate.

III. PROCEDURE

- A. Any service contract that involves the creation, receipt, maintenance, or transmission of PHI in performing the service for or on behalf of HumanGood must either have an accompanying business associate agreement (BAA) (if the other party is a business associate) or PHI protection terms incorporated into the service contract (if the other party is not a business associate).
- B. Business associate agreements and PHI protection terms should be reviewed by the Legal Department by sending the contract to contracts@humangood.org (or other specified email address or team member).
- C. Whether the BAA is HumanGood’s form or the other party’s form, it must include, at a minimum, the following elements:
 - 1. Specify permitted and required uses and disclosures of PHI;

2. Prohibit other uses and disclosures, unless each use and disclosure is required by law;
3. Require appropriate safeguards to prevent unauthorized use and disclosure, loss, damage, or elimination of PHI
4. Require notification(s) of use or disclosure not permitted under the BAA and any breaches of PHI
5. Require compliance with PHI access requirements
6. Require maintenance of a log accounting for PHI uses and disclosures without the written authorization of the person who is the subject of the PHI
7. Make and incorporate amendments to the PHI, as appropriate
8. Make internal practices, books and records available to the Secretary of DHS
9. Provide for HumanGood's right to terminate contract for material breach if not cured
10. Require post-contract termination return or destruction of PHI; and
11. Require subcontractors and agents to agree to the same restrictions and conditions as business associate with regard to PHI

If using the other party's BAA, the following provisions should be proposed:

1. Exclude damages related to a breach of PHI from any limitation of liability in the services contract;
2. Indemnification against losses attributable to business associate's breach of PHI; and
3. Require business associate's applicable employees to complete HIPAA privacy, security and breach notification training and training on HumanGood's business associate requirements .

IV. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

DE-IDENTIFICATION OF PROTECTED HEALTH INFORMATION (PHI)	Effective Date	02/02/18
	Revision Dates	01/01/21
	Departments Approving	Legal
	Departments Affected	LPC; Health Plan

I. POLICY

It is HumanGood’s policy that where practicable and appropriate, HumanGood and its business associates shall de-identify protected health information (PHI) and electronic protected health information (ePHI) prior to use and disclosure. Where necessary and appropriate to de-identify PHI, HumanGood will use the “safe harbor” method of de-identifying PHI prior to use and disclosure where practicable and necessary.

II. DEFINITIONS

- A. “PHI” means “protected health information”, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident/client; the provision of healthcare to a resident/client; or, the past, present, or future payment for the provision of healthcare to a resident/client, which identifies the resident/client or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident/client.
- B. “Individual Identifiers” is PHI that includes many common identifiers, such as name, address, birth date, age, health plan number, medical record number, and social security number. These identifiers both in and of themselves or in combination with other identifiers can produce a risk to the privacy of the individual who is the subject of the data. The process of de-identification, by which identifiers are removed from the health information, reasonably removes the risk of violating the individual’s privacy and confidentiality and thereby, supports the secondary use of this data for comparative effectiveness studies, policy assessment, research, and other endeavors.
- C. “De-Identified PHI” means PHI from which all elements that would or could associate a specific individual with the information has been removed. For example, a health plan report that only presented that the average age of health plan members was 45 years would not be PHI because that information, although developed by aggregating information from individual plan member records, does not identify any individual, and there is no reasonable basis to believe that it could be used to identify an individual.

III. PROCEDURE

- A. **The “Safe Harbor” method:** Removal of specified identifiers, such as name of the individual who is the subject of the information and his/her social security number, medical record number, health plan beneficiary number, street address, state, and zip code, and removal of the names and location of all of his/her relatives that are documented in the information, and other identifiers as follows:

1. All geographic subdivisions smaller than a state, including street address, city, county, precinct, zip code, and their equivalent geocodes, except for the initial three digits of the zip code if, according to the current publicly available data from the Bureau of the Census: (i) the geographic unit formed by combining all ZIP codes with the same three initial digits contains more than 20,000 people; and (ii) the initial three digits of a ZIP code for all such geographic units containing 20,000 or fewer people is changed to 000.
 2. All elements of dates (except year) for dates that are directly related to an individual, including birth date, admission date, discharge date, death date; and all ages over 89 and all elements of dates (including year) indicative of such age, except that such ages and elements may be aggregated into a single category of age 90 or older.
 3. Telephone and facsimile numbers and email addresses.
 4. Account numbers.
 5. Certificate/license numbers.
 6. Vehicle identifiers and serial numbers, including license plate numbers.
 7. Device identifiers and serial numbers, such as hip replacement device.
 8. Web Universal Resource Locators (URLs) and Internet Protocol (IP) addresses.
 9. Biometric identifiers, including finger and voice prints.
 10. Full-face photographs and any comparable images.
- B. A designated manager, medical records team member and/or IT team member pulls necessary and appropriate identifiers out of the PHI and assigns the applicable code. The method used and the type and amount of identifiers to be removed depends on the nature of the request for information. To remove all identifiers might render the information useless for the purpose intended; however, leaving too many identifiers increases the risk that the privacy and protection of the information might be breached. Codes may be applied to the de-identified PHI for reporting quality improvement projects or reporting quality deficiencies in Quality Improvement Committee for example, but the code cannot be the medical record number nor shall it be selected from any of the 18 identifiers recognized in the Privacy Rule (see sections A and A(1)-(10) above).
- C. The de-identified information is reviewed by an administrator prior to release to assure that the information cannot reasonably be used by anyone to identify the resident/client, but that it still meets the requester's need for data reliability.

IV. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

DISCLOSURES OF PHI AUTHORIZATION, FEE AND ACCOUNTING TABLE

<i>Who is the Requestor?</i>	<i>Is Resident / Client Authorization Required?</i>	<i>Are Copy Fees Allowed?</i>	<i>Should Request be Documented on Log of Accounting for PHI Disclosures?</i>

MEDICAL RECORDS REQUESTS	Effective Date	06/01/17
	Revision Dates	09/16/20
		01/01/21
	Departments Approving	Legal; IT Security
Departments Affected	CCRC Operations – Medical Records	

I. POLICY

HumanGood team members only release medical records when required or permitted by law or with the written authorization of the individual who is the subject of the records, as outlined in this policy.

II. SUMMARY DEFINITIONS

- A. **Medical Records** means the records, whether paper or electronic, of a resident’s medical information, such as history, care, treatments, test results, diagnoses, medications, and “notes” entered over time by health care professionals.
- B. **Resident** means an individual who resides or resided in a HumanGood Life Plan Community regardless of the level of care.
- C. **Psychotherapy notes** means notes recorded (in any medium) by a health care provider who is a mental health professional documenting or analyzing the contents of conversation during a private counseling session or a group, joint, or family counseling session and that are separated from the rest of the individual’s medical record. Psychotherapy notes do not include medication prescription and monitoring, counseling session start and stop times, the modalities and frequencies of treatment furnished, results of clinical tests, and any summary of the following items: diagnosis, functional status, the treatment plan, symptoms, prognosis, and progress to date.

III. PROCEDURE

A. Request Type

- 1. **Third Party Request.** When a subpoena, attorney letter or other written third party request for medical records is received, (a) the request should be date/time stamped and initialed by the receiving team member; and, (b) immediately scanned and emailed to the Executive Director and/or Health Services Administrator for the community.
- 2. **Resident or Verbal Request.** If a resident requests a copy of their medical records or a verbal request for medical records is received, the requestor should be instructed to complete, sign and return the Authorization to Release Protected Health Information form. Once the completed and signed form has been received, (i) the request should be date/time stamped and initialed by the receiving team member; and, (b) immediately scanned and emailed to the Executive Director and/or Health Services Administrator for the community.
- 3. **Send Request to Medical Records Team.** The Executive Director and/or Health Services Administrator (or his/her designee) sends the request to the email group “Medical Records Team.”

B. Verification of Identity and Authority

The Executive Director and/or Health Services Administrator or his/her designee must verify the identity of the party requesting the medical records. For resident or legal representative requests, verification may be a state-issued identification card. For attorney requests, verification may be the attorney’s signed

letterhead. For public official requests, verification may be an agency identification badge or written request on appropriate government letterhead. For verification of authority (i.e. the requesting party's right to obtain the records), contact the Legal Department.

C. Claims Reporting / Clinical Review

Some medical record requests are also reportable events. HumanGood's insurer considers a request from family or an attorney for medical records "addressing the care or treatment of a resident" to be a reportable claim. The Executive Director and/or Health Services Administrator (or his/her designee) should report the request to the insurer, if it should be reported. The report should include the caption, "For Quality Improvement Discussion Only, Protected by CA H & S Code §1370 and CA Evidence Code §1167 and other state's laws."

If the medical records request is reportable, the Executive Director and/or Health Services Administrator (or his/her designee) should scan and email the request to the email group "Medical Records Team" with confirmation that the request has been reported to the insurer as well as an indication of whether a clinical review should be performed. The Legal Department will request that one of the corporate clinical services directors review the resident's chart.

D. Medical Records Production

1. Produce only those requested documents within our care, custody and control and that we have created. Do not produce hospital records or documentation by private physicians in the form of "office notes." Do not produce quality assurance/improvement documents, risk management reports, notes from any internal investigation into an incident, lawsuit information, or research activities and results. If the requestor asks about records created or maintained by others, the requestor should be advised to go to the source of those documents to obtain a copy.
2. If the same records are maintained in more than one location, HumanGood is only required by law to produce the information once in order to fulfill the particular request.
3. If the amount of records requested is very large, a summary of the records may be provided as long as the requestor agrees to receive a summary.
4. The production of the records should include a copy of the request. If the requestor also requests a signed declaration of the custodian of records (or other written verification regarding the records), please forward the proposed declaration or other written verification to the Legal Department for review before signing. The authorization and response letter are placed into and become part of the resident's record.

E. Response Timing

1. Skilled Nursing Timing. The copy of records must be made available within two (2) working days of the request.
2. General Timing. The copy of records must be provided within thirty (30) days of receipt of the request. If additional time is needed, a one-time thirty (30) day extension is permissible, and the requestor must be given notice of the delay, including the reason(s) for the delay. (Use the Release of Medical Records 30-Day Extension Notice form.)
3. Subpoena Timing. Note the due date on the face of the subpoena, and produce (mail) the records on that date, unless the Legal Department provides another production date. If additional time is needed, the community or Legal can call the attorney (or other party) that issued the subpoena to secure an extension of time.
4. Attorney Request (or Other) Timing. Where the requestor has requested the records by a specific date, a good faith effort should be made to produce the records by the requested date.

F. Fees. See Charges for Medical Records Policy.

IV. EXCEPTIONS/SPECIAL CIRCUMSTANCES

- A. Insurance Requests. If the medical record request is an insurance request for a current resident that needs immediate attention from a care manager, the request is forwarded to that team member for fulfillment; no need to email the “Medical Records Team.”
- B. Sensitive Information. If the resident’s medical records include documents related to chemical dependency diagnosis, treatment or counseling; alcoholism diagnosis, treatment or counseling; mental health diagnosis, treatment or counseling; sexually transmitted disease diagnosis, treatment or counseling; or, HIV/AIDS diagnosis, treatment or counseling, re-confirm that the resident’s authorization has been checked, initialed and signed specifically authorizing the release of that portion of the record.
- C. Psychotherapy Notes. If a resident requests copies of or access to their psychotherapy notes, contact the Legal Department. Also, see the Permitted and Required Uses and Disclosures of PHI Policy and Access to PHI – Resident and Authorized Representative Policy.
- D. Accounting of Disclosures. Communities must maintain a system(s) for logging and tracking requests for inspection, access and copies of medical records that have been disclosed without the resident’s written authorization or for other than for treatment, payment or healthcare operations. (See Accounting for Disclosures of PHI Policy.)
- E. Electronic Health Record. If the community uses or maintains an electronic health record, the resident may request a copy in an electronic format and direct the community to send the e-copy to a third party.

V. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

AUTHORIZATION TO RELEASE PROTECTED HEALTH INFORMATION

Please read carefully and complete the reverse side of this form. All sections on the reverse side of this authorization must be completely filled out before we are permitted to disclose your protected health information (PHI).

EXPLANATION: This form authorizes the release of PHI in the manner described below and is voluntary. We cannot condition treatment, payment, enrollment or eligibility for benefits on your execution of this form, except in the limited circumstances described in our Notice of Privacy Practices (if any). Please be aware that once your information leaves us, we will no longer be able to protect that information, and the recipients of your information may not be legally required to protect your information.

AUTHORIZATION TO DISCLOSE SPECIFIC PROTECTED HEALTH INFORMATION (PHI): Federal and State laws require us to obtain specific authorization from patients to release especially sensitive information. Sensitive information is defined as treatment or documentation related to HIV/AIDS or sexually transmitted disease (STD) test results; psychiatric care, and treatment for alcohol or drug abuse. Be aware that we will automatically exclude these types of information unless you specifically identify them for release.

RECEIVING RECORDS ELECTRONICALLY: This option is available for resident/patient or resident/patient representative requests; not businesses, medical providers or third-parties. If you prefer this option, initial the appropriate line in number 3.

RESTRICTIONS: You understand that we may not further use or disclose the information described on the reverse side of this form unless another authorization is obtained from you or unless such use or disclosure is specifically required or permitted by law. You hereby release us from any/all liability that may arise from the release of this information to the party named on this form.

ADDITIONAL COPY: I further understand that I have a right to receive a copy of this authorization upon my request.

REVOCATION: I understand that I may revoke this authorization in writing at any time (effective upon receipt), except for actions already taken in reliance upon this authorization.

DURATION: I understand that I may revoke this authorization in writing at any time, except to the extent that action has already been taken in reliance upon it. Unless otherwise noted, this authorization will expire one year from the date of my signature.

CHARGES: The requestor may be responsible for payment of a reasonable, cost-based processing fee. The fee covers clerical costs as well as any/all costs associated with copying of the information. Unless stated otherwise, only amounts above \$25 or higher will require fee-approval before copying.

THIRD-PARTY RECORDS: We can only release records that we created. Please contact your third-party provider for copies of third-party records.

1. **Authorization:** I authorize disclosure of medical information and health records as described below:

Patient Name: _____

Date of Birth: ____/____/____ Telephone: (____) _____ Last 4 of SSN: _____

Email Address: _____

Record Holder's (Community's) Name: _____

Address: _____ City: _____ State: _____ Zip: _____

Records Released To: _____ Address: _____

_____ City: _____ State: _____ Zip: _____

2. **Information to be Released for these Dates of Service:** From _____ To _____

3. **Information to Release:** Place your initials next to each category of information to be released.

RELEASE OF MEDICAL RECORDS
NOTICE OF 30-DAY EXTENSION

Date of Notice: _____

Name of Resident

We are unable to process your request for medical records within the thirty (30) day timeframe, due to the following reason(s):

The anticipated date of completion is: _____.

Please feel free to contact us at _____ if you have any questions about this Notice.

Sincerely,

Medical Records Department

MINIMUM NECESSARY RULE	Effective Date	02/22/19
	Revision Date:	01/01/21
	Departments Approving	Legal
	Departments Affected	LPC; Health Plan functions

I. POLICY

It is HumanGood’s policy to take reasonable steps to limit use and disclosure of protected health information (PHI) to only that amount which is **minimally necessary** to achieve the purpose of the request for use or disclosure, regardless if the use or disclosure is to be made by hard copy or by electronic means. This is referred to as the “Minimum Necessary Rule”.

II. GUIDELINES, DEFINITION AND PROCEDURE

- A. The minimum necessary requirement does not apply to the following requests:
 1. Disclosure of a resident’s PHI to their health care provider for treatment purposes.
 2. Disclosure of a resident’s own PHI to a resident/client upon written request.
 3. Disclosures made to the Secretary of Health and Human Services, where such disclosure of PHI is requested for enforcement purposes.
 4. Disclosure required for compliance with the administrative simplification rules under the Health Insurance Portability and Accountability Act (HIPAA).
 5. Disclosures required by an administrative law judge in a Medicare appeal.
 6. Disclosure to a court of law pursuant to a subpoena.
 7. Use or disclosure that is required by state or federal law.
- B. “PHI” means “protected health information”, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident.
- C. Team members should only access or use the amount of PHI that is needed to do their job and no more. Team member access or use of PHI may also be controlled by the degree of access a team member has been given by HumanGood. For example, a team member who does not need access to PHI may not be given access codes or login information for physical locations or electronic systems containing PHI.
- D. For disclosure of PHI to others, the determination of “minimum necessary” may be made by a medical records team member who reviews the statement of purpose that has been checked on the authorization form. If there is any question about what information is required to fulfill a specific purpose, the medical records team member should contact the requesting party by phone or contact the Legal Department. See the Permitted and Required Uses and Disclosures of PHI Policy.

III. REVIEW AND REVISION HISTORY

Human Good reserves the right to revise this policy from time to time, including, without limitation, revisions based on changes in law, risk, industry threats and identified vulnerabilities.

NOTICE OF PRIVACY PRACTICES	Effective Date	02/20 04/28/20
	Revision Dates	01/01/21
	Departments Approving	Legal
	Departments Affected	LPC; Health Plan

I. POLICY

HumanGood has developed its Notice of Privacy Practices to distribute to our residents/clients. Whenever a substantive change is made to our Privacy Practices, our Notice is revised and redistributed to residents/clients.

II. GUIDELINES

- A. The Privacy Rule requires that the content of the Notice is written in plain language, and describes how we may use and disclosure protected health information (PHI) about an individual, their rights with respect to this information and how to exercise those rights, how they may complain about our privacy practices, and our legal duties with respect to their PHI. The Notice shall include an effective date.
- B. All team members receive education, both on hire and annually thereafter, regarding the purpose for and content of our Notice, their individual role in addressing resident requests to exercise their privacy rights, and their role in distribution of our Notice to residents.
- C. The HumanGood Privacy Officer is responsible for oversight and management of content of the Notice, publishing the Notice, and archiving old Notices. The Privacy Officer also directs or conducts periodic audits to assess adherence with this policy.
- D. Directors, managers, and supervisors are responsible for communicating to team members the method of distribution within their units and how to answer resident questions about their privacy rights.

III. PROCEDURE

- A. Changes to our Notice of Privacy Practices
 - 1. The Privacy Officer reviews the Notice at least annually in concert with any amendments that have been made to the federal Privacy Rule in that year.
 - 2. The Privacy Officer makes or requests changes to the Notice when required by Privacy Rule revisions or additions or whenever HumanGood makes material changes to any of our privacy practices.
 - 3. Changes to the Notice are made by the Privacy Officer or designee, and become effective on the date published by HumanGood, and the Notice is distributed to residents by team members and given to newly admitted residents within sixty (60) days of the effective date on the Notice.
 - 4. The revised Notice is posted on the HumanGood website by Information Technology within sixty (60) days of the effective date.
 - 5. Team members are educated about the changes and how to answer questions from residents should questions arise.

B. Distribution of the Notice

1. As a covered entity, HumanGood is required by the Privacy Rule to provide a copy of our Notice to anyone who asks for a copy.
2. The Notice is required by law to be provided to residents prior to the first date of health care service delivery, and appropriate team members are advised of this requirement when the revised Notice is initially published.
3. A signature and acknowledgement of receipt of the Notice is obtained by a team member from each resident who is given the Notice; that signature and acknowledgement is maintained in the resident's health record.
4. Where the signature and acknowledgement cannot be obtained from the resident, team members document all reasonable efforts to follow up and obtain it and place it in the resident's health record.
5. For newly admitted RCFE residents, a Sales & Marketing team member reviews the Notice with new residents, gives a copy to them, and has the resident sign and date the acknowledgement and places it in the resident's new HumanGood health record.
6. For newly admitted Village residents and patients, an Admission team member follows the same process as in B.5. above.
7. Residents are also given a copy of our Notice at the following junctures:
 - a. Within sixty (60) days of material changes.
 - b. Upon verbal or written request from a resident.

C. Methods of distribution

1. The Notice is delivered in paper form and reviewed with each resident by a team member in person, and the team member obtains the acknowledgement signature and date and inserts it into the resident health record.
2. The document is placed on the HumanGood website and can be downloaded by residents, signed and dated, and the signature portion signed and given by the resident to their unit manager for placement in their health record.
3. The Notice is placed on bulletin boards in common areas of each Community and in the Community's library.
4. The Notice may be sent to a resident via e-mail if he or she verbally agrees to receive it electronically and in this situation, the resident is advised to provide his or her acknowledgement signature and date to their unit manager for placement in their health record. In the event this does not occur, team members will make good faith efforts to obtain it and place it in the resident's health record.
5. The Notice may be provided to a resident with other HumanGood or Plan documents as long as the Notice is reviewed with the resident and the signed and dated acknowledgement is retained by management and placed in the resident's health record.

D. Monitoring and Auditing Process, Distribution of Notice

1. The Privacy Officer or designee monitors the distribution process for newly admitted residents at least once every quarter.
2. The Privacy Officer or designee formally audits the process on a bi-annual basis and takes corrective action when any failure is identified.
3. Results of the distribution monitoring activities are reported to unit managers and the Chief Operating Officer upon completion of monitoring.
4. Results of formal audits of the distribution process and the corrective action plan are reported to unit managers and the Chief Operating Officer upon completion of the formal auditing.

III. EXCEPTION

During the COVID-19 public health emergency, monitoring, auditing and reporting timeframes may be altered.

V. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on changes in law, risk, industry threats and identified vulnerabilities.

**Your Information.
Your Rights.
Our Responsibilities.**

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. **Please review it carefully.**

Your Rights

You have the right to:

- Get a copy of your paper or electronic medical record
- Request amendment of your medical record
- Request confidential communication
- Ask us to limit the information we share
- Get a list of those with whom we've shared your information
- Get a copy of this privacy notice
- Choose someone to act for you
- File a complaint if you believe your privacy rights have been violated

➤ *See page 2 for more information on these rights and how to exercise them*

Your Choices

You have some choices in the way that we use and share information as we:

- Tell family and friends about your condition
- Provide disaster relief
- Include you in a community directory
- Provide mental health care
- Market our services and sell your information
- Raise funds

➤ *See page 3 for more information on these choices and how to exercise them*

Our Uses and Disclosures

We may use and share your information as we:

- Treat you
- Run our organization
- Bill for your services
- Help with public health and safety issues
- Do research
- Comply with the law
- Respond to organ and tissue donation requests
- Work with a medical examiner or funeral director
- Address workers' compensation, law enforcement, and other government requests
- Respond to lawsuits and legal actions

➤ *See pages 3 and 4 for more information on these uses and disclosures*

Your Rights

When it comes to your health information, you have certain rights.

This section explains your rights and some of our responsibilities to help you.

Get an electronic or paper copy of your medical record

- You can ask to see or get an electronic or paper copy of your medical record and other health information we have about you. Ask us how to do this.
- We will provide a copy or a summary of your health information, usually within 30 days of your request. We may charge a reasonable, cost-based fee.

Ask us to amend your medical record

- You can ask us to amend health information about you that you think is incorrect or incomplete. Ask us how to do this.
- We may say “no” to your request, but we’ll tell you why in writing within 60 days.

Request confidential communications

- You can ask us to contact you in a specific way (for example, home or office phone) or to send mail to a different address.
- We will say “yes” to all reasonable requests.

Ask us to limit what we use or share

- You can ask us **not** to use or share certain health information for treatment, payment, or our operations. We are not required to agree to your request, and we may say “no” if it would affect your care.
- If you pay for a service or health care item out-of-pocket in full, you can ask us not to share that information for the purpose of payment or our operations with your health insurer. We will say “yes” unless a law requires us to share that information.

Get a list of those with whom we’ve shared information

- You can ask for a list (accounting) of the times we’ve shared your health information for six years prior to the date you ask, who we shared it with, and why.
- We will include all the disclosures except for those about treatment, payment, and health care operations, and certain other disclosures (such as any you asked us to make). We’ll provide one accounting a year for free but will charge a reasonable, cost-based fee if you ask for another one within 12 months.

Get a copy of this privacy notice

- You can ask for a paper copy of this notice at any time, even if you have agreed to receive the notice electronically. We will provide you with a paper copy promptly.

Choose someone to act for you

- If you have given someone medical power of attorney or if someone is your legal guardian, that person can exercise your rights and make choices about your health information.
- We will make sure the person has this authority and can act for you before we take any action.

File a complaint if you feel your rights are violated

- You can complain if you feel we have violated your rights by contacting us using the information on page 1.
- You can file a complaint with the U.S. Department of Health and Human Services Office for Civil Rights by sending a letter to 200 Independence Avenue, S.W., Washington, D.C. 20201, calling 1-877-696-6775, or visiting www.hhs.gov/ocr/privacy/hipaa/complaints/.
- We will not retaliate against you for filing a complaint.

Your Choices

For certain health information, you can tell us your choices about what we share. If you have a clear preference for how we share your information in the situations described below, talk to us. Tell us what you want us to do, and we will follow your instructions.

In these cases, you have both the right and choice to tell us to:

- Share information with your family, close friends, or others involved in your care
- Share information in a disaster relief situation
- Include your information in a community directory

If you are not able to tell us your preference, for example if you are unconscious, we may go ahead and share your information if we believe it is in your best interest. We may also share your information when needed to lessen a serious and imminent threat to health or safety.

In these cases, we never share your information unless you give us written permission:

- Marketing purposes
- Sale of your information
- Most sharing of psychotherapy notes

In the case of fundraising:

- We may contact you for fundraising efforts, but you can tell us not to contact you again.

Our Uses and Disclosures

How do we typically use or share your health information?

We typically use or share your health information in the following ways.

Treat you

- We can use your health information and share it with other professionals who are treating you.

Example: A doctor treating you for an injury asks another doctor about your overall health condition.

Run our organization

- We can use and share your health information to run our practice, improve your care, and contact you when necessary.

Example: We use health information about you to manage your treatment and services.

Bill for your services

- We can use and share your health information to bill and get payment from health plans or other entities.

Example: We give information about you to your health insurance plan so it will pay for your services.

continued on next page

How else can we use or share your health information? We are allowed or required to share your information in other ways – usually in ways that contribute to the public good, such as public health and research. We have to meet many conditions in the law before we can share your information for these purposes. For more information see: www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/index.html.

Help with public health and safety issues

- We can share health information about you for certain situations such as:
 - Preventing disease
 - Helping with product recalls
 - Reporting adverse reactions to medications
 - Reporting suspected abuse, neglect, or domestic violence
 - Preventing or reducing a serious threat to anyone’s health or safety

Do research

- We can use or share your information for health research.

Comply with the law

- We will share information about you if state or federal laws require it, including with the Department of Health and Human Services if it wants to see that we’re complying with federal privacy law.

Respond to organ and tissue donation requests

- We can share health information about you with organ procurement organizations.

Work with a medical examiner or funeral director

- We can share health information with a coroner, medical examiner, or funeral director when an individual dies.

Address workers’ compensation, law enforcement, and other government requests

- We can use or share health information about you:
 - For workers’ compensation claims
 - For law enforcement purposes or with a law enforcement official
 - With health oversight agencies for activities authorized by law
 - For special government functions such as military, national security, and presidential protective services

Respond to lawsuits and legal actions

- We can share health information about you in response to a court or administrative order, or in response to a subpoena.

Our Responsibilities

- We are required by law to maintain the privacy and security of your protected health information.
- We are required by law to provide you with notice of our legal duties and privacy practices with respect to protected health information.
- We will let you know promptly if a breach occurs that may have compromised the privacy or security of your information.
- We must follow the duties and privacy practices described in this notice and give you a copy of it.
- We will not use or share your information other than as described here unless you tell us we can in writing. If you tell us we can, you may change your mind at any time. Let us know in writing if you change your mind.

For more information see: www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/noticepp.html.

Changes to the Terms of this Notice

We can change the terms of this notice, and the changes will apply to all information we have about you. The new notice will be available upon request, in our office, and on our web site.

Effective Date of Notice: July 15, 2022

This Notice of Privacy Practices applies to the following organizations.

All life plan communities under HumanGood, including:

HumanGood Arizona, Inc., d/b/a The Terraces of Phoenix
HumanGood Washington, d/b/a Judson Park
HumanGood NorCal, d/b/a Grand Lake Gardens

PERMITTED AND REQUIRED USES AND DISCLOSURES OF PHI	Effective Date	02/20
	Revision Dates	01/01/21
	Departments Approving	Legal
	Departments Affected	LPC; Health Plan

I. POLICY

It is HumanGood’s policy that its team members protect and secure the protected health information (PHI) of all residents/clients by complying with its established access, use and disclosure controls. Except as provided in this policy, HumanGood team members cannot disclose paper or electronic PHI (ePHI) outside of HumanGood without written authorization from the resident/client who is the subject of that information.

II. SUMMARY DEFINITIONS

- A. **“Disclose”** and **“disclosure”** mean the release, transfer, provision of access to, or divulging in any manner of PHI outside HumanGood.
- B. **“PHI”** means **“protected health information”**, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident. PHI may be in any form or medium; for example, oral, electronic, on paper, or in photographs or videos. Identifying information alone such as personal name, residential address or phone number, is not considered to be PHI if it is used in financial records, for example or if it is used in publicly accessible locations such as a phone book, it is not PHI because it is not related to health information as described.
- C. **“Use”** means the sharing, employment, application, utilization, examination, or analysis of PHI within HumanGood.

III. PROCEDURE

- A. ACCOUNTING OF DISCLOSURES OF PHI: Under the Privacy Rule and with certain exceptions, residents/clients have a right upon request to receive an accounting of disclosures of PHI we make. The instances where a covered entity is not required to account for disclosures, include disclosures for treatment, payment and health care operations, and disclosures authorized by the individual. See the Accounting of Disclosures of PHI Policy.
- B. DISCLOSURES REQUIRED BY LAW THAT DO NOT REQUIRE WRITTEN AUTHORIZATION:
 - 1. **State law or regulations that specifically authorize disclosure.**
 - 2. **To comply with a court order, court-ordered warrant, subpoena duces tecum or summons issued by a judicial officer.**
 - 3. **To comply with an administrative request**, such an Administrative Law Judge hearing in a Medicare appeal.

PERMITTED AND REQUIRED USES AND DISCLOSURES OF PHI	Effective Date	02/20
	Revision Dates	01/01/21
	Departments Approving	Legal
Departments Affected	LPC; Health Plan	

I. POLICY

It is HumanGood’s policy that its team members protect and secure the protected health information (PHI) of all residents/clients by complying with its established access, use and disclosure controls. Except as provided in this policy, HumanGood team members cannot disclose paper or electronic PHI (ePHI) outside of HumanGood without written authorization from the resident/client who is the subject of that information.

II. SUMMARY DEFINITIONS

- A. **“Disclose”** and **“disclosure”** mean the release, transfer, provision of access to, or divulging in any manner of PHI outside HumanGood.
- B. **“PHI”** means **“protected health information”**, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident. PHI may be in any form or medium; for example, oral, electronic, on paper, or in photographs or videos. Identifying information alone such as personal name, residential address or phone number, is not considered to be PHI if it is used in financial records, for example or if it is used in publicly accessible locations such as a phone book, it is not PHI because it is not related to health information as described.
- C. **“Psychotherapy notes”** means notes recorded (in any medium) by a health care provider who is a mental health professional documenting or analyzing the contents of conversation during a private counseling session or a group, joint, or family counseling session and that are separated from the rest of the individual’s medical record. Psychotherapy notes excludes medication prescription and monitoring, counseling session start and stop times, the modalities and frequencies of treatment furnished, results of clinical tests, and any summary of the following items: diagnosis, functional status, the treatment plan, symptoms, prognosis, and progress to date.
- D. **“Use”** means the sharing, employment, application, utilization, examination, or analysis of PHI within HumanGood.

III. PROCEDURE

- A. ACCOUNTING OF DISCLOSURES OF PHI: Under the Privacy Rule and with certain exceptions, residents/clients have a right upon request to receive an accounting of disclosures of PHI we make. The instances where a covered entity is not required to account for disclosures, include disclosures for treatment, payment and health care operations, and disclosures authorized by the individual. See the Accounting of Disclosures of PHI Policy.

B. DISCLOSURES REQUIRED BY LAW THAT DO NOT REQUIRE WRITTEN AUTHORIZATION:

1. **State law or regulations that specifically authorize disclosure.**
2. **To comply with a court order, court-ordered warrant, subpoena duces tecum or summons issued by a judicial officer.**
3. **To comply with an administrative request**, such as an Administrative Law Judge hearing in a Medicare appeal.

C. PERMITTED USE & DISCLOSURE WITHOUT RESIDENT/CLIENT WRITTEN AUTHORIZATION: Our residents/clients receive information about the following permitted disclosures in our Notice of Privacy Practices. Each disclosure for these purposes is documented and that documentation is retained, tracked, reportable and auditable.

1. **To the resident/client** who is the subject of the PHI. **The minimum necessary requirement does not apply here**, and a HumanGood “Authorization to Release Protected Health Information” form is to be completed and signed by the resident/client and maintained in the resident/client’s health record or service record.
2. **To a medical health care provider**, hard copy information for the purpose of treatment for the resident/client. Treatment means the provision, coordination or management of health care and related services for an individual by one or more health care providers, including consultation between providers regarding a patient and referral of a patient by one provider to another. For release of electronic health information for this purpose, the disclosure must be documented on the Log of PHI Disclosures. **The minimum amount necessary requirement does not apply here.**
3. **To obtain or provide payment for health care services: in the minimum necessary amount**, in order to obtain reimbursement or payment for health care services provided to a resident/client in claims submissions to third party payers, including health plans, or to a resident’s authorized representative for payment of health care services.
4. **For Healthcare Operations: in the minimum necessary amount** for such activities as quality improvement activities, health plan credentialing activities, HumanGood legal services, general administrative activities, including the sharing of PHI with business associates to fulfill the purposes of their service contract with HumanGood. Disclosure to health department for health oversight and licensing activities (including audits and investigations), reporting of communicable disease, and emergency response in a disaster are to be tracked on the Accounting of Disclosures of PHI Log. Disclosures for quality improvement, HumanGood legal services, credentialing, and general administrative activities are not tracked on the Accounting of Disclosures of PHI Log.
5. **Workers compensation claims and case management** activities related to a HumanGood team member, **in the minimum amount necessary**, with disclosures tracked on the Accounting of Disclosures of PHI Log.
6. **For cadaveric Organ, Eye, or Tissue Donation in the minimum amount necessary.**
7. **To a coroner, medical examiner, or funeral director** after a resident/client expires. In relation to release to a coroner. The minimum amount necessary requirement does not apply.
8. **Release of a limited data set that has been de-identified**, which means that all individually-identifiable information has been removed. See also De-Identification of Protected Health Information Policy.

D. SPECIFIC WRITTEN AUTHORIZATION REQUIRED FOR PSYCHOTHERAPY NOTES: Disclosure of psychotherapy notes may not be performed without both the written authorization of the resident/client and the originator of the psychotherapy notes.

E. DISCLOSURE OF PHI FOR LAW ENFORCEMENT PURPOSES WITHOUT WRITTEN AUTHORIZATION: Under most circumstances, the Privacy Rule requires HumanGood to obtain verbal permission from persons who have been the victim of domestic violence or abuse before disclosing PHI to law enforcement. Where State law imposes additional restrictions on disclosure of PHI to law enforcement, those State laws apply. If the law enforcement official making the request for information is not known to the team member making the disclosure, that team member must verify the identity and authority of the officer by taking a business card from him/her prior to disclosing the information.

Otherwise, HumanGood may provide **the minimum necessary** PHI with no requirement to track such disclosures on the Accounting of Disclosures of PHI Log:

1. To enable law enforcement **to identify or locate a suspect, fugitive, or material witness.**
2. **To notify law enforcement of a missing resident/client** if the information is limited to the minimum necessary to search for the person.
3. **To comply with a Police Officer request for information about a victim or suspected victim of a crime.**
4. **To notify law enforcement of a resident/client's death** if it is suspected or known that criminal activity caused the death.
5. **To a coroner** when a resident/client is under a coroner's jurisdiction, or to a funeral director when a resident/client dies and the funeral home is to come retrieve the body.
6. **When we believe that PHI provides evidence of a crime**, including elder abuse and domestic violence where release of PHI is expressly authorized by law and where we, in good faith, believe that the event occurred on our premises.
7. **To federal officials authorized to conduct** intelligence, counter-intelligence and other national security activities under the National Security Act or to provide protective services to the President and others and conduct related investigations.

F. USE OR DISCLOSURE OF PHI REQUIRING WRITTEN AUTHORIZATION: Written authorization of the resident/client or if cognitively impaired, of the resident/client's authorized representative, **is required** for the following:

1. Disclosure of any PHI or other health information to a family member or friend of a resident/client who is not the resident/client's authorized representative. (But see Exhibit A to HIPAA Privacy Policy and Release of PHI of Deceased Resident/Client Policy.)
2. Disclosure of PHI to the media.
3. Taking photographs or videos of a resident/client and using it for internal or external publication and/or posting in the Community.
4. Publishing a resident/client's "story" (that contains PHI) in a HumanGood publication, which will be sent to potential candidates for residency or which will be used for

- fundraising or marketing purposes, both of which the resident/client can elect to “opt-out” of use of their information for such purposes.
5. Use for HumanGood marketing activities except where the purpose of the activity is only to provide a resident/client with information about products or services that we believe he or she might benefit from knowing about and purchasing on their own.
 6. Disclosure of psychotherapy notes, for which both the originator of the notes and the resident/client must specifically consent to release of this documentation.
 7. Disclosure of documentation regarding substance and/or alcohol abuse diagnosis, treatment, and counseling.
 8. Disclosure of documentation regarding venereal disease or sexual abuse diagnosis, treatment, and counseling, including HIV/AIDs.
 9. Disclosure of PHI to a researcher conducting an approved human research project.

G. DISCLOSURES THAT MAY BE MADE WITH VERBAL CONSENT

1. **Family or other persons designated by the resident/client:** To make verbal disclosures to family involved in a resident/client’s care or for notification purposes, or to other persons who the resident/client wants to be notified, verbal permission from the resident/client must be obtained and documented. If the resident/client did not object when given the opportunity to agree, acquiesce or object, it is then understood that he or she agrees. In an emergency situation or to notify the family that the resident/client had an unexpected change in condition, the minimum necessary information may be provided without obtaining verbal consent.
2. **Facility Directory:** Resident/client name, room number, and contact phone number, and e-mail address may be disclosed in the directory if the resident/client gives verbal permission.
3. **Signage at the resident/client’s front door:** Resident/client first and last name may be displayed on this sign with verbal consent.
4. **To a clergy person** for visitation with the resident/client. The information given may include resident location and condition in terms of good, fair, or serious.

III. INCIDENTAL DISCLOSURES

- A. An incidental disclosure is one that cannot reasonably be prevented, is limited in nature, and that occurs as the result of another, primary use or disclosure that is permitted by the Privacy Rule. The Privacy Rule as amended allows for certain incidental disclosures of PHI when the covered entity, in this case HumanGood, is maintaining all other elements of compliance with the Rule, including the use of necessary safeguards to protect against this type of disclosure.
- B. It is HumanGood’s practice to make good faith efforts to avoid incidental disclosures by, for example: speaking quietly when discussing a resident/client’s condition or needs with family members in a public area or in a two-person room; isolating or locking file cabinets and records rooms; and, turning computer screens away from public view, and logging out or turning them off when not using them or using a time-out screen.

V. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats and identified vulnerabilities.

PROCESS FOR HANDLING HIPAA PRIVACY VIOLATION COMPLAINTS	Effective Date	02/02/18
	Revision Dates	01/01/21
	Departments Approving	Legal
Departments Affected	LPC; Health Plan functions	

I. POLICY

HumanGood takes all alleged HIPAA privacy violation complaints seriously and attempts to address them in a fair and expeditious fashion. Complaints determined to be of merit are appropriately handled.

II. DEFINITION AND GUIDELINE

- A. “PHI” means “protected health information”, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident.
- B. Complaints may be filed by the resident (i.e., the person who is the subject of the PHI), the resident’s authorized representative, a HumanGood team member, a HumanGood business associate, and accrediting, health oversight or advocacy agencies or organizations (“Complainant”). This list is not exhaustive and HumanGood will accept all complaints that are filed in accordance with Section III.A. below.

III. PROCEDURE

- A. Process for filing a complaint. The process for filing a complaint is as follows:
 - 1. Except for complaints received via the compliance hotline, anyone lodging a verbal complaint should be instructed to file the complaint in writing, either electronically or on paper. The Complainant may file the complaint on the Privacy Practices Complaint form.
 - 2. The complaint should describe the acts or omissions believed to be in violation of the HIPAA privacy regulations.
 - 3. The complaint should be filed within 180 days of when the Complainant knew or should have known that the act or omission complained of occurred, although this timeframe may be waived if good cause is shown.
 - 4. The complaint should be sent to the Privacy Officer.
- B. Process for Handling a Complaint
 - 1. Within five (5) business days of receipt of the written complaint, the Privacy Officer or his/her designee (“Designee”) will attempt to contact the Complainant by telephone to

- acknowledge receipt of the complaint and to obtain any additional information that may be needed in order to investigate the complaint.
2. The Privacy Officer or Designee will review and conduct a preliminary investigation of the complaint.
 3. Complaints deemed to have merit will be discussed with the Privacy Officer (if the Designee conducted the preliminary investigation).
 - a. If indicated, the Designee, in conjunction with the Privacy Officer, will investigate the complaint further to determine if the Complainant's privacy was violated under the HIPAA regulations.
 - b. Based on the investigation findings, the Privacy Officer will take (or recommend to the appropriate department, team member or governing body) the indicated corrective actions necessary to mitigate the violation and prevent a future reoccurrence. Corrective action to prevent future privacy violations may include, for example, changes to policies and/or team member discipline.
 4. A response to the Complainant will be made as soon as possible, but no later than sixty (60) days from receipt of the written complaint.
 5. The complaint resolution can be documented on the HIPAA Privacy Concern Resolution form.

IV. DOCUMENTATION

Investigations are conducted under the Quality Improvement protection state statutes and are confidential. No copies of the Privacy Practices Complaint Form are kept in any operational department or otherwise outside the Legal Department.

V. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

RECORD RETENTION, STORAGE AND DESTRUCTION	Effective Date	September 2018
	Revision Dates	October 2019
		January 2021
	Departments Approving	Legal Information Security Risk Management Office of CIO
	Departments Affected	All

Policy:

All physical and electronic documents and records must be retained, stored and destroyed based on applicable legal, regulatory and business requirements. As a general rule, important records other than medical records should be retained and stored safely for **seven years** after they are no longer active or needed. Medical records should be retained for **ten years**, and personnel records may be destroyed after **five years**. There are exceptions to these rules, noted below. When the appropriate period has passed, records should be disposed of by shredding or other secure method.

For example:

- Accounting records should generally be retained for seven years after the ending date of the period they record.
- Contracts, including contracts with residents and vendors, should generally be retained for seven years after the later of their termination date or the end of the relationship (resident death or move-out, or vendor replacement contract).
- Personnel records should be retained for five years after a team member is no longer employed by HumanGood, with some exceptions (described in HR Personnel Records Policy and Procedure).
- Most medical records should be retained for ten years from the date of a patient’s last visit, prescription refill, telephone contact, test, other patient contact, or death, or for such longer time if required by law or contract.

HumanGood produces many kinds of records that do not need to be retained for seven years, for example, dining menus, petty cash vouchers, scheduling charts, news stories, and most emails.

Procedure:

1. Each department manager shall ensure that:
 - A. Each document, record, policy, generated information, reviewed agreement or contract

or any other work product generated by the department reflects the date initiated, revised, and is stored as an archive when it is retired or revised.

B. Archived documents are stored in secure onsite, offsite or electronic storage during the period between when they are no longer effective and the date they may be destroyed. If records are to be maintained permanently in accordance with the table below, they must be indexed in such a way that they can be found if or when needed.

C. Documents are properly shredded at the end of the retention period.

Medical Record Retention:

HumanGood will retain medical records for 10 years from the date of a patient’s last visit, prescription refill, telephone contact, test, other patient contact, or death.

This 10-year period is required by federal Medicaid rules governing managed care organizations, and federal laws for providers who contract with a Medicare Advantage or Medicare Part D plan. For other organizations and records, CMS defers to each state’s laws, which vary. However, for consistency and ease of recordkeeping, HumanGood will use 10 years as its standard for medical records.

If there are any problems with a patient’s care which we are aware may give rise to the patient or their family bringing a claim or litigation against HumanGood, we should retain those records until resolution of the claim or seven years after the statute of limitations has run.

Other Record Retention Exceptions:

As stated above, the standard period of time for retention of records other than medical records and personnel records is seven years. Below is a listing of certain types of records that must be held for a longer period than seven years, or may be destroyed prior to seven years. *If a record is not on the list below, the department manager shall retain the records for seven years or consult with the Legal Department if a shorter retention period is desired.*

ACCOUNTING	
Auditors’ reports and schedules	Permanently
Bank deposit slips	3 years
Cash disbursements journal	Permanently
Cash receipts journal	Permanently
Depreciation records	Permanently
Financial Statements, Annual	Permanently
Financial Statements, Interim/Internal	3 years
General journal/ledger and end-of-year trial balances	Permanently
Income tax returns	Permanently
Internal audit reports	Permanently

Medicare cost reports	5 years after the month that the Medicare cost report is filled with the intermediary
Property tax returns	Permanently

HR PERSONNEL RECORDS	
Personnel files. (For more information see HR-12 Personnel Records Policy and Procedure.)	Five years from the separation date for most records. Retention is shorter for a few documents, longer if there is a pending dispute. See the detailed HR policy.
CORPORATE RECORDS	
Affiliation agreements / contracts	Permanently
Annual reports	Permanently
Construction documents (contracts, change orders, completion certificates, etc.) for <u>major</u> projects	Permanently
Contracts relevant to bond-financed property (major capital expenditures contracts and contracts with for-profit vendors using bond-financed space)	Permanently
Deeds, mortgages and bills of sale	Permanently
Real estate property records and surveys	Permanently
Tax-exemption documents (determination of tax-exempt status)	Permanently

Disposal:

Dispose of hard copy paper records as follows:

- a. Documents containing non-sensitive, non-confidential records can generally be disposed of into company trash bins.
- b. Documents containing sensitive or confidential records should be shredded (at the end of the retention period) and disposed of securely.

The Information Technology Department will handle (or coordinate and oversee) the secure disposal of aged email and redundant, aged and unneeded unstructured content from the network. The Information Technology Department manages (or assists other departments in managing) all media and technology hardware/devices in an inventory and securely erasing/sanitizing prior to disposal.

Enforcement:

All records created and received by HumanGood and its agents are the property of HumanGood. No HumanGood team member, by virtue of his/her position, has any personal or property right to such records even though s/he may have developed or compiled them. The unauthorized destruction, removal or use of such records is prohibited. No one may falsify or

inappropriately alter information in any record or document. Information pertaining to unauthorized destruction, removal or use of HumanGood records, or falsifying or inappropriately altering information in a record or document, should be reported to the Compliance Officer.

Resources:

Federal law is found in the record-keeping rule applicable to Medicaid and Children’s Health Insurance Program (CHIP) Programs at 42 CFR 421, 433, 438, 440, and 457.

State laws around medical record retention.

a. In Washington, the Washington State Medical Association recommends that providers retain medical records for at least ten years.

b. Nevada law (NRS 629.051) permits a provider to destroy records five years after production.

c. Arizona law (12-2291) permits a provider to destroy records six years after the last contact.

d. Idaho law (IDAPA 16.0302.203.04) requires that a provider retain records for seven years.

e. California law, modified effective January 1, 2018, requires providers of health care services rendered under Medi-Cal or any other California Department of Health Care Services health care program to keep records for at least 10 years. Specifically, Assembly Bill 1688 (Chapter 511, Statutes of 2017) requires providers to keep a record of each service rendered, the beneficiary or person to whom rendered, the date of service and any additional information that the Department of Health Care Services may require. These records must be maintained for 10 years from the final date of the contract period between the plan and the provider (for Medi-Cal managed care enrollees), from the completion date of any audit or from the date the service was rendered, whichever is later.

Review and Revision History:

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

RELEASE OF PHI OF DECEASED RESIDENT/CLIENT	Effective Date	01/01/21
	Revision Dates	
	Departments Approving	Legal
	Departments Affected	LPC; Health Plan functions

I. POLICY

It is HumanGood’s policy to safeguard the protected health information (PHI) of deceased residents for a period of fifty (50) years following the resident’s date of death. After this 50-year period, the HIPAA Privacy Rule (the “Privacy Rule”) explicitly excludes from the definition of “protected health information” all individually identifiable health information of a decedent.

II. DEFINITION AND GUIDELINES

- A. “PHI” means “protected health information”, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident.
- B. Although permitted by the Privacy Rule, disclosures of a deceased person’s PHI to family members is not required by the Rule. We are not required to make this disclosure if (1) we cannot verify the relationship of the person to the decedent; (2) doing so is inconsistent with any prior expressed preference of the decedent; or (3) we determine that disclosure would be inappropriate.
- C. Any disclosure of a deceased resident’s PHI is to be limited to the minimum amount necessary. The Privacy Rule recognizes that the deceased resident’s PHI may be relevant to a surviving family member’s healthcare, and it therefore, permits disclosures of PHI for treatment purposes, even if that treatment is for a person other than the decedent. Otherwise, disclosures of a deceased resident’s PHI should only include that PHI which is related to the requestor’s involvement in the decedent’s care or in the payment for the decedent’s health care.
- D. During the 50-year period of protection, the personal representative of the decedent, who is the person under applicable law with authority to act on behalf of the decedent or the decedent’s estate, may exercise the decedent’s rights under the Privacy Rule with regard to the decedent’s PHI, such as authorizing certain uses and disclosures of and gaining access to, the information.

III. PROCEDURE

- A. Any person requesting access to or inspection or a copy of a deceased resident’s PHI must complete the Authorization to Release Protected Health Information form, and his/her identity and relationship to the decedent must be verified.
- B. Once the completed and signed form has been received, (i) the request should be date/time stamped and initialed by the receiving team member; and, (b) immediately

scanned and emailed to the Executive Director and/or Health Services Administrator (or his/her designee) for the community.

- C. The Executive Director and/or Health Services Administrator or his/her designee reviews and assesses sufficient details provided by the requestor to indicate (1) whether s/he was involved in the resident's healthcare or payment for the resident's healthcare before the resident's death; (2) whether s/he is requesting the decedent's PHI for the requestor's own treatment; (3) identifying any other purpose for the requested disclosure; and (4) verifying the requestor's identity. See the "Verification of Identity Before Release of PHI Policy."
- D. Contact the Privacy Officer, and send a copy of the requesting party's DPOA document signed by the resident before death or other documentation provided by the requestor to show their authority to request the decedent's PHI.
- E. Once the requesting person's identity is verified and their involvement with the resident's healthcare or payment for healthcare has reviewed and assessed (or the purpose for their request has been reviewed as outlined in section III.C. above), the Executive Director/Health Services Administrator or his/her designee sends the request and supporting documentation (including any DPOA document) to the email group "Medical Records Team."
- F. Where a person does not rise to the level of authorized representative, executor of the estate, or heir of the estate; was not involved in the resident's healthcare or payment for the resident's healthcare before the resident's death; is not requesting the decedent's PHI for the requestor's own treatment; has not identified any other purpose for the requested disclosure; or, we determine the disclosure would be inappropriate, written denial of access to, inspection of, or a copy of the decedent's PHI will be provided to the requestor, and the denial may not be appealed. Contact the Privacy Officer for assistance with processing such denial.

IV. EXCEPTIONS

- A. HumanGood may disclose a decedent's PHI under the following circumstances: (A) to alert law enforcement of the death of the resident, when there is a suspicion that the death resulted from criminal conduct; (B) to coroners or medical examiners, for purposes of identifying a deceased person, determining cause of death, or other duties authorized by law; (C) to funeral directors, as necessary to carry out their duties with respect to the decedent (including disclosing information prior to and in reasonable anticipation of the resident's death); and (D) to organ procurement organizations or other entities engaged in the procurement, banking or transplantation of cadaveric organs, eyes, or tissue, for the purpose of facilitating organ, eye, or tissue donation and transplantation.
- B. HumanGood may disclose a decedent's PHI for research that is solely on the PHI of the decedent; however, any requests for decedent PHI for research purposes should be forward to the Privacy Officer for review, before disclosure.
- C. A decedent's PHI may be disclosed to a public health department and to defend a lawsuit involving HumanGood.
- D. In most states, unless the information is relevant to payment for services or healthcare operations, a resident's communications with physicians, psychologists, psychiatrists and certain other health care providers are considered "sensitive" information that cannot be disclosed after death without either previous authorization from the decedent before death or the written authorization of their authorized representative. Contact the Privacy Officer for guidance, if such a request is received.

V. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without

limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

REQUEST FOR AMENDMENT OF PHI	Effective Date:	01/01/21
	Revision Dates:	
	Departments Approving:	Legal
	Departments Affected:	LPC; Health Plan functions

I. POLICY

It is HumanGood’s policy to review and respond to resident/client requests for amendment of protected health information (“PHI”) in a timely manner.

II. DEFINITIONS AND GUIDELINES

- A. “Designated record set” means a group of records maintained by or for a covered entity that comprises the (a) medical and billing records about individuals maintained by or for a covered healthcare provider; (b) enrollment, payment, claims adjudication, and case or medical management record systems maintained by or for a health plan; or (c) other records that are used, in whole or in part, by or for the covered entity to make decisions about individuals. This last category includes records that are used to make decisions about any individuals, whether or not the records have been used to make a decision about the particular individual requesting access.
- B. “PHI” means “protected health information”, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident.
- C. HumanGood must permit a resident/client to request to amend part or all of their PHI that HumanGood created and maintains in a designated record set.
- D. If the PHI was not created by HumanGood, the resident/client should be referred to the healthcare provider(s) that created the documentation.
- E. The resident/client is to be advised of HumanGood’s acceptance or denial of the request for amendment in writing within sixty (60) days of receipt of the written request.
- F. The request may be denied, in whole or in part, if it is determined that the PHI subject to the request: (1) was not created by HumanGood; (2) is not part of the designated record set; (3) is accurate and complete; or (4) would not be available for inspection. See Access to PHI - Resident or Authorized Representative Policy.

III. PROCEDURE

- A. If a resident/client makes a verbal request to amend their PHI, s/he should be instructed to complete and sign the Request for Amendment of Protected Health Information form.
- B. The resident/client gives the completed and signed form to the Executive Director/Health Services Administrator (the “ED/HSA”) (or his/her designee) and is given a copy.

- C. The ED/HSA (or his/her designee) completes the date and time receipt and name and title portions of the form and forwards the request to the Privacy Officer for review and guidance.
- D. The Privacy Officer will work with the ED/HSA or his/her designee, the Security Officer and any other appropriate team member(s) to determine whether the request should be accepted or denied.
- E. Acceptance: If the request to amend the resident/client's PHI is granted, the following actions are to be taken:
 - 1. The ED/HSA or his/her designee will notify the resident/client of the acceptance of the request by sending him/her the Determination of Request for Amendment of Protected Health Information along with an Authorization to Release Protected Health Information form. A copy of the Determination form should be placed in the resident/client's health record. The Authorization form is provided so the ED/HSA or his/her designee can (a) obtain the identification of relevant persons, such as a health care provider, with whom to share the amendment; and (b) obtain the resident/client's written authorization to share the amendment with that person(s).
 - 2. The ED/HSA or his/her designee (or the Information Technology Department) makes the amendment to the PHI or record that is the subject of the request for amendment by, at a minimum, identifying the records in the designated record set that are affected by the amendment and appending or otherwise providing a link to the location of the amendment. The existing PHI itself is not changed.
 - 3. Within a reasonable time, the ED/HSA or his/her designee must make reasonable efforts to inform, and provide the amendment to, the person(s) identified by the resident/client on the Authorization form.
 - 4. The ED/HSA or his/her designee must inform others of the amendment where the community knows that other persons, including business associates, have the PHI that is being amended by the resident/client and that they have relied or could foreseeably rely, on such information to the detriment of the resident/client.
- F. Denial: If the request to amend the resident/client's PHI is denied, the following actions are to be taken:
 - 1. The ED/HSA or his/her designee will notify the resident/client of the denial of the request by sending him/her the Determination of Request for Amendment of Protected Health Information. A copy of the form should be placed in the resident/client's health record.
 - 2. If resident/client submits a statement of disagreement, any subsequent disclosure of the PHI to which the disagreement relates must include (a) the resident's request for an amendment, our denial of the request, the resident's statement of disagreement (if any), and our rebuttal (if any); or, (b) at our election, an accurate summary of any such information. Where the resident/client has not submitted a written statement of disagreement, and only if the resident/client requests that we do so, we are to include the resident/client's request for amendment and our denial, or an accurate summary of such information, with any subsequent disclosure of the related PHI.
- G. Recordkeeping. As appropriate, we must identify the PHI in the designated record set that is the subject of the disputed amendment and append or otherwise link the resident's

request for an amendment, our denial of the request, the resident's statement of disagreement (if any), and our rebuttal (if any) to the designated record set.

IV. EXCEPTIONS/OTHER INFORMATION

- A. Notice of Extension. If we are unable to act on the request for amendment within the required sixty (60) day timeframe, we must notify the resident/client that additional time, up to thirty (30) days, is needed. For that notification, the "Notice of 30-Day Extension" is provided to the resident/client. This Notice is to include the reason(s) for the delay and the date by which we will complete our action on the request, even if that action is to deny the amendment. Only one such extension is permitted by the Privacy Rule.
- B. Amended PHI when using a standard transaction. When a subsequent disclosure of the PHI document that we agreed to amend is to be disclosed by using a standard transaction under the HIPAA Administration Simplification Standard, and that transaction does not permit the additional material about the amendment to be included with the disclosure, we may separately transmit the material to the recipient of the standard transaction.
- C. Actions on notices of amendment. If another covered entity notifies HumanGood of an amendment to an individual's PHI, we must amend the PHI in a designated record set as indicated in the covered entity's notice.

V. REVIEW AND REVISION HISTORY

Human Good reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

REQUEST FOR AMENDMENT OF PROTECTED HEALTH INFORMATION

Name of Resident/Client (Please Print) Date of Birth: _____

Relationship to Resident/Client: Self Authorized Representative

(If completed by Authorized Representative, request must include proof of authority to make request (e.g. power of attorney).

I hereby request that HumanGood consider the attached amendment that I want to make to the following document in my health record:

Other: _____,
Date of service: _____.

NOTE: YOUR REQUEST MUST INCLUDE A REASON OR REASONS TO SUPPORT THE REQUESTED AMENDMENT.

I understand that HumanGood is not required by law to add this addendum into my health record.

I understand that HumanGood will notify me of their decision to accept or deny my request within sixty (60) days of receipt of this completed and signed form. I also understand that, in the event there are circumstances delaying response to my request, HumanGood will provide me with notice of the delay and an updated timeframe for response.

**DETERMINATION REGARDING
REQUEST FOR AMENDMENT OF PROTECTED HEALTH INFORMATION**

_____ Date: _____
Resident/Client Name

Dear _____:

This is to notify you that we received your Request for Amendment of Protected Health Information (PHI) dated _____.

Our decision is as follows:

- Agree.** We will make an amendment to the PHI.
- Deny.** Your request to amend the PHI is denied for the following reason(s):

If you disagree with our determination, you may submit a statement of disagreement to us for our further consideration. If you do not submit a statement of disagreement, you may request that we provide a copy of your request for amendment and our denial with any future disclosures of the PHI that is the subject to the requested amendment. Please send the statement of disagreement or your request to your Community’s Executive Director or Health Services Administrator.

If you disagree with our denial of your request for amendment, you may file a written complaint by writing to Privacy Officer, 1900 Huntington Drive, Duarte, California 91010 or calling (925) 924-7239. You may also file a complaint with the Office for Civil Rights at Centralized Case Management Operations, U.S. Department of Health and Human Services, 200 Independence Avenue, S.W., Room 509F HHH Bldg., Washington, D.C. 20201.

If we have agreed to make an amendment to your PHI, you must provide us with the identity of person(s) that you want to receive the amended PHI; and, your authorization to provide the amended PHI to him/her/them. Please complete and sign the attached Authorization to Release Protected Health Information form. Please return the completed and signed form to your Community’s Executive Director or Health Services Administrator.

NOTICE OF 30-DAY EXTENSION

Date of Notice: _____

Name of Resident/Client

We are unable to process your request for an amendment to protected health information (PHI) within the sixty (60) day timeframe, due to the following reason(s):

The anticipated date of completion is: _____.

Please feel free to contact us at _____ if you have any questions about this Notice.

Sincerely,

Medical Records Department

REQUESTS FOR COMMUNICATION OF PHI BY ALTERNATE MEANS	Effective Date:	01/01/21
	Revision Dates:	
	Departments Approving:	Legal
Departments Affected:	LPC; Health Plan	

I. POLICY

It is HumanGood’s policy to accommodate resident/client requests for communications of protected health information (PHI) by alternate means or at alternate locations, without determining the merits of the request. HumanGood may condition the provision of this accommodation on how payment, if any, will be handled and the provision of an alternative address or other method of contact.

II. DEFINITION

“PHI” means “protected health information”, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident.

III. PROCEDURE

1. If a resident/client makes a verbal request for communications of PHI by alternate means or at alternate locations, s/he should be instructed to complete and submit the Request for Communication of PHI by Alternate Means and/or at Alternate Locations form.
2. The completed Form should be date and time stamped and given to the Executive Director/Health Services Administrator (ED/HSA) or his/her designee.
3. The Form must be reviewed to determine if it is reasonable in context with the resident’s/client’s own unique circumstance and, if there is concern that it is not, the ED/HSA or his/her designee will speak directly with the resident/client to determine how best to move forward with the request. Note, we may not require an explanation from the resident/client as to the basis for the request as a condition of providing communications on a confidential basis.
4. With regard to HumanGood health plan operations, the plan must permit and accommodate requests for communications of PHI by alternate means and at alternate locations, if the resident/client clearly states that disclosure of all or part of the information could endanger him/her.
5. When this process is completed, the ED/HSA or his/her designee completes the “Action” section in the “For Office Use Only” space at the bottom of the Form and gives a copy of the completed Form back to the resident/client for their records.
6. The ED/HSA or his/her designee will oversee the correct placement of the completed Form in the resident’s/client’s health or service record to ensure that the request is

followed by all pertinent departments and send a copy of the completed Form to the affected departments and the Privacy Officer.

IV. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

REQUESTS FOR RESTRICTION OF PHI DISCLOSURE	Effective Date	01/01/21
	Revision Dates	
	Departments Approving	Legal
	Departments Affected	LPC; Health Plan

I. POLICY

It is HumanGood’s policy to review and respond to requests for restriction of disclosure of protected health information (“PHI”) in a timely manner.

II. DEFINITION AND GUIDELINES

- A. “PHI” means “protected health information”, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident.
- B. HumanGood must permit a resident/patient to request that it restrict (1) uses or disclosures of their PHI to carry out treatment, payment, or health care operations; and (2) disclosures of their PHI to their family members, other relatives, close personal friends, or any other person they have identified, when the PHI is directly relevant to such person’s involvement with the resident/patient’s healthcare or payment related to their healthcare.
- C. HumanGood is not required to agree to a restriction (except as noted in section II.D below); however, if restricted PHI is disclosed to a healthcare provider for emergency treatment, we must request that such healthcare provider does not further use or disclose that PHI.
- D. HumanGood must agree to a resident’s/patient’s request to restrict disclosure of PHI about the resident/patient to a health plan if: (a) the disclosure is for the purpose of carrying out payment or health care operations and is not otherwise required by law; and, (b) the PHI pertains solely to a health care item or service for which the resident/patient or a person other than the health plan on behalf of the resident/patient, has paid in full (out of pocket).
- E. The resident/patient is to be advised of HumanGood’s acceptance or denial of the request for restriction in writing within thirty (60) days of receipt of the written request. Additionally, once a restriction is agreed to, we are required to notify other providers of services to the resident/patient of the restriction, so they can prevent disclosure of that PHI.
- F. Necessary steps to ensure that agreed-upon restrictions are honored are to be carefully followed, in particular those necessary to (1) identify where in the health record the specific restricted PHI exists and labeling it to avoid inadvertent disclosure to the restricted party; and, (2) ensure that team members who receive a written request for restriction of PHI disclosure know what to do with it and understand the limited timeframe for response.

III. PROCEDURE

- A. If a resident/patient makes a verbal request to restrict disclosure of their PHI to a health plan, physician, family member, or friend, they should be instructed to complete and sign the Request for Restriction of PHI Disclosure form. If the PHI at issue pertains solely to a healthcare item or service for which the resident/patient or a person on their behalf, paid out of pocket in full, a copy of the receipt for payment is to be included with the written request for restriction.
- B. The resident/patient gives the completed and signed form to the Executive Director/Health Services Administrator (the "ED/HSA") (or his/her designee) and is given a copy.
- C. The ED/HSA (or his/her designee) completes the date and time receipt and name and title portions of the form and forwards the request to the Privacy Officer for review and guidance.
- D. The Privacy Officer will work with the ED/HSA or his/her designee, the Security Officer and any other appropriate team member(s) to determine whether the request should be accepted or denied.
- E. The ED/HSA or his/her designee will notify the resident/patient of the acceptance or denial of the request by completing and sending him/her the Determination Regarding Request for Restriction of PHI Disclosure form. A copy of the form should be placed in the resident/patient's health or service record. If the restriction is agreed to, the appropriate departments are notified by ED/HSA or his/her designee.
- F. In the event it is necessary and appropriate to terminate the agreed-upon restriction, either at the resident/patient's written request or upon our determination to terminate the agreement, the resident is notified by completing and sending a Notice of Termination of Restriction of PHI Disclosure form. A copy of the notice should be placed in the resident/patient's health or service record, and appropriate departments are notified by ED/HSA or his/her designee.

IV. EXCEPTIONS

- A. If HumanGood agrees to the requested restriction, we must adhere to the restriction for all future disclosures, except where the specific PHI is needed to provide emergency treatment to the resident/patient by another healthcare provider. If the restricted PHI is disclosed for this purpose, HumanGood must notify the provider receiving the information that further use or disclosure of this PHI is prohibited.
- B. HumanGood is required to disclose PHI when required by the Secretary of the Department of Health and Human Services (or his/her designee) to investigate or determine HumanGood's compliance with the Privacy Rule.
- C. Any restriction HumanGood agrees to does not prevent our use or disclosure of the restricted PHI where disclosure is permitted or required by the Privacy Rule. See also Permitted and Required Uses and Disclosures of PHI Policy.

V. REVIEW AND REVISION HISTORY

Human Good reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

**REQUEST FOR RESTRICTION OF

The reason(s) for this termination:

- You requested or agreed in writing to terminate the restriction on _____.
- You verbally requested that we terminate the restriction on _____.
- We have determined that continuing this restriction is no longer necessary or appropriate.

If you have any questions about this Notice, please feel free to contact me at _____.

Sincerely,

[insert printed name and title]

SALE OF PHI	Effective Date	01/01/21
	Revision Dates	
	Departments Approving	Legal
Departments Affected	All	

I. POLICY

It is HumanGood’s policy that it does not sell resident/patient protected health information (PHI) at any time in return for payment that is either direct or indirect or as a benefit-in-kind exchange, unless the resident/patient who is the subject of the PHI has signed a written authorization for release of the PHI that includes a clause advising the resident/patient that HumanGood may receive payment or benefit-in-kind for the disclosure. The disclosure must comply with the minimum necessary rule, limiting the PHI to only that which is necessary to accomplish the intended purpose of the use or disclosure.

II. DEFINITIONS

- A. **PHI** means **protected health information**, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident.
- B. **Sale of PHI** means disclosure of protected health information by a covered entity, such as HumanGood, where it either directly or indirectly receives money from the recipient of the PHI in exchange for that information.

III. PROCEDURE

Any sale of PHI must be coordinated amongst several HumanGood departments; therefore, any third-party request to purchase PHI (other than a medical records request) must be forwarded to the Legal Department.

IV. EXCEPTIONS

HumanGood may receive payment in exchange for PHI without the resident/patient’s written authorization in the following circumstances: (A) in a merger, acquisition, or consolidation (and related due diligence) of all or part of HumanGood with a covered entity or where the resulting entity will become a covered entity following the transaction; (B) payment in the form of grants, contracts or other arrangements to perform programs or activities that require the use of PHI (e.g., a research study), and/or where necessary for processing and transmission of PHI for research purposes; and (C) payment receive from a resident/patient, authorized representative, attorney or other third-party when a request for medical records (including requests by subpoena) is received. Medical Records Requests Policy, and see Charges for Medical Records Policy.

IV. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

USE AND DISCLOSURE OF PHI BY WORKFORCE MEMBERS	Effective Date	01/01/21
	Revision Dates	
	Departments Approving	Legal
	Departments Affected	LPC; Health Plan functions

I. POLICY

It is HumanGood’s policy to permit its workforce members (as defined below) to use and disclose the minimum necessary protected health information (“PHI”), within the course and scope of their job function.

II. SUMMARY DEFINITIONS

- A. “Workforce member” means HumanGood employees and excludes contractors and vendors/suppliers. Although not considered HumanGood workforce members, there are occasions that contractors, vendors, suppliers, volunteers, trainees, rehabilitation therapists, laboratory technicians, pharmacists and students providing services within a community will be provided with the minimum necessary PHI to perform their functions. Where appropriate, HumanGood enters into business associate agreements with contractors, vendors, or suppliers who will create, receive, maintain, use or disclose PHI on HumanGood’s behalf. See Business Associate Agreements Policy.
- B. “Minimum necessary” means to limit use and disclosure of protected health information (PHI) to only that amount which is minimally necessary to achieve the purpose of the request for use or disclosure, regardless if the use or disclosure is to be made by hard copy or by electronic means. The minimum necessary rule does not apply when disclosures are made to or requested by a healthcare provider for treatment.
- C. “PHI” means “protected health information”, and is any information created or received by HumanGood that relates to the past, present, or future physical or mental health or condition of a resident/client; the provision of healthcare to a resident/client; or, the past, present, or future payment for the provision of healthcare to a resident/client, which identifies the resident/client or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident/client.
- D. “Use” means sharing, employment, application, utilization, examination, or analysis of PHI within HumanGood.
- E. “Disclose” and “disclosure” mean the release, transfer, provision of access to, or divulging in any manner of PHI outside HumanGood.

III. PROCEDURE

- A. Internal communications. Workforce members may communicate PHI to one another as necessary to perform their duties. Verbal communications containing PHI should be undertaken in a manner and place that reasonably safeguards confidentiality, including speaking quietly and, where possible, doing so in resident rooms or in the nursing station.
- B. External communications. Verbal disclosures of PHI to are allowed for payment, treatment or healthcare operations; otherwise, verbal disclosures are only allowed if the resident/client has provided written authorization for the disclosure. (See Permitted and Required Uses and

Disclosures of PHI Policy for additional guidance.) Before faxing, mailing or emailing PHI outside HumanGood, the recipient's fax number, mailing address or email address must be confirmed. Additionally, emailed PHI must be encrypted (i.e. sent in an encrypted or password-protected attachment and/or encrypted email).

C. Examples of appropriate PHI use by job category are as follows:

1. Licensed nurses, including agency nurses, and attending physicians may have access to the entire contents of a medical record of the resident/clients for whom they are providing care or services;
2. Certified nurse assistants may have access to that PHI which they need to assist the resident/client with activities of daily living and functional limitations;
3. Volunteers may not have access to resident/client PHI either manually or electronically, but may be given selected information by licensed nurses and certified nurse assistants to the extent necessary to perform their volunteer assignment, such as resident name and location;
4. Housekeeping/laundry/maintenance staff may have PHI communicated to them only to the extent that they must be aware of an infectious disease, fall risk, and wandering behavior;
5. Medical records team members may have access to residents/clients PHI for fulfilling record requests, requests for PHI amendments, and as otherwise required to fulfill their job duties.
6. Business office and accounting team members may have access to PHI that relates to billing and payment for healthcare and other services;
7. Dietary staff may have access to PHI as it relates to food intake, weight, diet, and hydration, and dietitians may have access to nursing notes, physician orders, and hydration/nutrition documentation;
8. Receptionists and telephone operators may have access to resident names and location within the community;
9. Information Technology staff may have access to electronic PHI to enable them to maintain the electronic health records and other electronic systems;
10. Management staff may have access to PHI as necessary to supervise service and care staff, properly place residents, and communicate with family; and
11. The HumanGood Board of Directors may have PHI provided to them by management or executive leadership as necessary for making policy or exceptions to policy.

IV. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

USE AND DISCLOSURE OF PHI FOR FUNDRAISING ACTIVITIES	Effective Date	08/2013
	Revision Dates	01/01/21
	Departments Approving	Legal
	Departments Affected	LPC

I. POLICY

It is HumanGood’s policy to obtain a resident/patient’s written authorization before using his/her diagnosis, nature of services, or treatment information to filter, target, use or disclose as part of it fundraising efforts. Additionally, HumanGood’s policy is to use the minimum necessary amount of protected health information (PHI) when using or disclosing PHI for its fundraising activities. See Minimum Necessary Rule Policy.

II. PROCEDURE

- A. Types of PHI That May be Used or Disclosed. The categories of PHI that can be used or disclosed in fundraising activities include: the resident’s/patient’s demographic information (including name, address, other contact information, age, gender, and date of birth); date(s) of healthcare provided; department of service information (e.g., skilled nursing, assisted living); treating physician; outcome information; and, health insurance status.
- B. Right to Opt-Out. With each fundraising communication made to our residents/patients, whether made in writing or over the phone, we must provide a clear and conspicuous opportunity to opt-out of receiving any further fundraising communications. The opt-out is applicable to HumanGood Life Plan Communities and our business associates who assist us with fundraising.
 - 1. Residents/patients may opt-out of future fundraising communications by completing our Opt-Out Form. A copy of the Opt-Out Form is attached to this policy.
 - 2. When a resident/patient completes an Opt-Out Form, they should be given the original and copies should be (a) placed in the resident/patient’s health or service record; and (b) given to the Privacy Officer (who will inform HumanGood fundraising managers and any applicable business associates of the resident’s/patient’s opt out.
 - 3. Residents/patients will not be subject to a penalty or retribution of any kind if they desire to opt-out of receiving fundraising communications and/or other fundraising activities.
- C. HumanGood may not make fundraising communications to a resident/patient that has opted out, but we can provide them with a method to opt back in, if they wish.

III. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

OPT-OUT FORM

(FUNDRAISING COMMUNICATIONS)

HumanGood Life Plan Communities may conduct fundraising activities. On occasion, HumanGood uses outside services to help with these activities. For our fundraising efforts, we communicate to our residents about our fundraising activities. We also send information to our residents and outside people about how to donate to a Human Good foundation, if they wish to do so. In addition, we may contact you if we believe a specific fundraising activity may be of interest to you. We would use your personal information to contact you, such as your e-mail address, your telephone number, or your apartment number.

If you wish to opt out of these communications so that we do NOT contact you about our fundraising activities, please sign, date, and return this form to the **Community Executive Director.**

After the date that we receive this form, we will not to use your personal information in any fundraising communications, unless we request and receive your specific written permission to do so. You may revoke this Opt-Out at any time, by submitting a written request to receive fundraising communications and information about out fundraising activities.

I do not want to receive fundraising communications from HumanGood, HumanGood life plan communities, affiliated foundation(s), or any outside business that is assisting any of these entities with fundraising activities.

USE AND DISCLOSURE OF PHI IN MARKETING ACTIVITIES	Effective Date	01/01/21
	Revision Dates	
	Departments Approving	Legal
Departments Affected	Marketing; LPC	

I. POLICY

HumanGood team members do not use or disclose protected health information (PHI) for marketing purposes that will result in financial remuneration to HumanGood, unless the resident’s/patient’s written and signed authorization has been obtained.

II. SUMMARY DEFINITIONS

- A. **PHI** means **protected health information**, and is any information created or received by HumanGood (or its business associates) that relates to the past, present, or future physical or mental health or condition of a resident; the provision of healthcare to a resident; or, the past, present, or future payment for the provision of healthcare to a resident, which identifies the resident or, with respect to which, there is a reasonable basis to believe the information can be used to identify the resident.
- B. **Financial remuneration** means a direct or indirect payment from or on behalf of a third party whose product or service is being described. Direct or indirect payment does not include a payment for the treatment of an individual.
- C. **Marketing** means making a communication about a product or service that encourages recipients of the communication to purchase or use the product or service. The term also refers to an arrangement between a covered entity such as HumanGood and any other entity whereby we disclose PHI to the other entity in exchange for direct or indirect remuneration, or payment, so that the other entity can make communication between them and our residents/patients about its own product or services that is designed to encourage our residents/patients to buy or use that product or services. For this to be permitted under the HIPAA Privacy Rule, HumanGood must have a signed authorization from the resident/patient for that marketing.
- D. **Non-Marketing** means a communication made by HumanGood to describe to residents/patients a health-related product or service that is provided by or included in their Care and Residence Agreement or other contract under which such health-related products and services are provided.

III. PROCEDURE

- A. Authorization Requirement. An authorization to use or disclose PHI for marketing purposes must include (1) a statement about any direct or indirect remuneration HumanGood has received or will receive from a third party for making a marketing communication; and (2) the right to revoke the authorization in writing. Contact the Legal

Department for a marketing authorization. A copy of the signed authorization must be provided to the resident/patient.

- B. Authorization Conditions. HumanGood does not condition treatment or payment for services on whether or not a resident/patient signs a written authorization for marketing purposes or opts-out of marketing activities. However, in its capacity as a health plan, the HumanGood Benefits Plan may condition enrollment or benefit eligibility on a resident/patient signing an authorization.
- C. Marketing Communications. Marketing communications must identify HumanGood as the company that is making and distributing communications about products and services. Face-to-face marketing encounters must be limited, as must provision to residents/patients anything of nominal value, such as HumanGood pens and brochures about products and services.
- D. Opt-Out. Residents/patients must be given the opportunity to opt-out of receiving marketing information or communications from us and from any of our business associates.

IV. EXCEPTIONS

- A. An authorization is not required for any use or disclosure of PHI for marketing purposes, if the communication is in the form of: (a) a face-to-face communication made by a team member to a resident or patient; or (b) a promotional gift of nominal value provided by HumanGood to the resident or patient (for example, pens, brochures about HumanGood products or services, or coffee cups).
- B. The definition of “financial remuneration” in the context of marketing does not include non-financial benefits, such as in-kind benefits, which may be provided to a Covered Entity in exchange for making a communication about a product or service. Only payments made in exchange for making such communications are included within the definition.

V. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

VERIFICATION OF IDENTITY BEFORE RELEASE OF PHI	Effective Date	01/01/21
	Revision Dates	
	Departments Approving	Legal
	Departments Affected	CCRC Operations – Medical Records

I. POLICY

It is Human Good’s policy to take reasonable steps to verify the identity of anyone who requests release of a resident/client’s PHI before release.

II. PROCEDURE

- A. Request. In each case, the requesting party must submit either (1) a written and signed HumanGood Authorization to Release Protected Health Information Form; or, (2) another written and signed request that complies with federal and applicable state law.
- B. Verification Documentation. The requestor should also submit documents that will be used to verify their identity and relationship to the resident/client (if applicable). The Executive Director and/or Health Services Administrator or his/her designee (for example, the medical records team member) must verify the identity of the party requesting medical records.
 - 1. For resident or legal representative requests, verification may be a state-issued identification card, comparison of signatures on the request with signatures on a power of attorney or residency contract, or other documentation in the resident’s medical or service record. If the resident/client is deceased, the requestor should also provide evidence that they are the beneficiary to the will or the heir of the estate. See also Release of PH of Deceased Resident/Client Policy.
 - 2. For attorney requests, verification may be the attorney’s signed letterhead. For public official requests, verification may be an agency identification badge or written request on appropriate government letterhead.
 - 3. Regardless what identity verification documents are provided, each medical records team member uses their judgment to determine the requestor’s identity to make the request. (For verification of authority (i.e. the requesting party’s right to obtain the records), contact the Privacy Officer.)
- C. Verbal Requests. If a verbal or e-mail medical record release request is received, the team member taking the call or receiving the e-mail will explain the need for a written and signed medical record release request and identity verification documentation and provide copy of the Authorization to Release Protected Health Information form.

III. REVIEW AND REVISION HISTORY

Human Good reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

VIOLATIONS OF HIPAA PRIVACY PRACTICES ENFORCEMENT	Effective Date	02/20
	Revision Dates	01/01/21
	Departments Approving	Legal
	Departments Affected	All Departments

I. POLICY

This Policy applies to all team members in HumanGood organizations and Communities where protected health information (PHI) is created, collected, accessed, maintained, used and/or disclosed, regardless of form. It is HumanGood’s policy to promptly investigate reported or suspected HIPAA privacy violations and take indicated corrective action. Team members may face discipline, up to and including, termination of employment for HIPAA privacy violations.

HumanGood enforces a non-retaliation policy, which prohibits any team member (regardless of job title) from intimidating, threatening, coercing, discriminating against, or taking any other type of retaliatory action against any individual who:

- A. Exercises his/her rights under our Notice of Privacy Practices or related policies.
- B. Participates in the HumanGood HIPAA privacy complaint process.
- C. Files a complaint with the Secretary of the Department of Health and Human Services, the Office for Civil Rights, or a HumanGood licensing agency.
- D. Testifies, assists or participates in an investigation, compliance review, proceeding or hearing regarding our HIPAA privacy practices.
- E. Opposes any act or practice unlawful under the HIPAA Privacy Rule; provided, the individual acted in good faith in the belief that the practice was unlawful, the manner of opposition is reasonable, and the opposition does not involve disclosure of PHI in violation of Privacy Rule regulations.

II. DISCIPLINARY ACTION/VIOLATION EXAMPLES

Disciplinary action will depend on the intent and severity of the violation. The following are examples of violations of HumanGood’s privacy policies:

- A. Improper and/or intentional disclosure of PHI in any form (e.g., releasing a resident’s PHI without authorization to do so);
- B. Access and/or use or disclosure of PHI by an unauthorized team member or any other individual;
- C. Access, use or disclosure of PHI for personal gain; and
- D. Destruction of PHI for the purpose of preventing discovery of an error or other untoward event.

III. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

WORKFORCE PRIVACY EDUCATION	Effective Date	01/01/21
	Revision Dates	
	Departments Approving	Legal
	Departments Affected	LPC; Health Plan functions

I. POLICY

It is HumanGood’s policy to provide its workforce members (as defined below) HIPAA privacy, security and breach notification training (“training”) that is appropriate for their job duties and functions.

II. DEFINITION AND PROCEDURE

- A. “Workforce member” means HumanGood employees (hereinafter, “team members’) and excludes contractors and vendors/suppliers. Although not considered HumanGood workforce members, there are occasions that contractors, vendors, suppliers, volunteers, trainees, or other non-employees may use or disclose PHI to perform their functions. Where appropriate, HumanGood will provide such non-employees with a copy of its Notice of Privacy Practices and/or appropriate training or contractually require them to conduct their own training and comply with applicable laws.
- B. Team Member Training. Newly hired team members receive training within thirty (30) days of hire. Current team members receive training on, at least, an annual basis. Team members will also receive periodic training, as needed and appropriate to job function, based on changes in our privacy practices, operational processes related to privacy, and/or changes in law. Team members who experience a material change in their employment status, such as promotion, may receive supplemental training appropriate to their new job functions. Any team member who desires additional training may contact his/her direct supervisor, the Privacy Officer, or Human Resources.
- C. Recordkeeping. Records of the training materials, course dates, and team member completion will be kept for not less than six (6) years from the later of the date of creation, completion or last use and will be maintained by Human Resources.

III. REVIEW AND REVISION HISTORY

HumanGood reserves the right to revise this policy from time to time, including, without limitation, revisions based on risk, industry threats, identified vulnerabilities, and changes in law.

ADDENDUM

In addition to the essential duties and job/work style characteristics listed on the above job descriptions, the following additional functions may be required based on the specific needs of assigned location. If any of these duties cannot be accomplished with the physical standards listed above contact your HR Representative.

HumanGood is an Equal Opportunity Employer. Complying with the Americans With Disabilities Act, HumanGood will provide reasonable accommodations to qualified individuals with disabilities and encourages both prospective team members and incumbents to discuss potential accommodations with HumanGood.

I reviewed the job description and believe it adequately describes the position and its requirements. I am able to perform the requirements of the job as outlined or with modifications as I have documented and signed below.

I understand that my employment with HumanGood is by mutual consent and an at-will relationship. Nothing in this job description is intended to create an express or implied employment contract. I understand my employment can be ended, with or without cause and with or without notice, at any time at the choice of HumanGood or myself. Further, I understand there is no guarantee of employment for any length of time and that any modification of these representations must be in writing and signed by the CEO/President of HumanGood.

Job Description

Assistant Administrator (Administrator-in-Training)

GENERAL STATEMENT OF POSITION

Under the supervision of the licensed Preceptor and upon selection by the AIT program committee, the Assistant Administrator (Administrator-in-Training) conducts the affairs of the Health Center (The Village), The Lodge and Grove (Assisted Living) in accordance with federal, state, and local standards, laws and ordinances; assists in managing and controlling the functions of the health services programs to provide quality services within budgetary boundaries. Provides care in accordance with our “Philosophy for Person-Directed Care.” Provides care in accordance with our “Philosophy for Person-Directed Care.” As a representative and team member of the company, this position is expected to present oneself in a manner that reflects professionalism and ensures resident satisfaction.

SCOPE

Supervisory Responsibility – None unless directed under the supervision of the licensed preceptor. Primarily interacts with the following positions: Director of Nursing, Nurse Educator, Social Services, Village Admissions and Marketing, Billing Coordinator, Concierge and others designated by the preceptor for training purposes.

Contractual Relations Interactions - Medical Director, Physicians, Therapy Team, Psych Services, Pharmacy and other ancillary service providers.

Matrix Reporting – Organizational Dotted Line Interactions for training purposes - Human Resources, Facilities, Dining Services, Community Marketing, Residences, Lodge, Wellness, Grove, and Board of Directors.

Budget Responsibility – Operates within established budget guidelines

REPORTS TO – Assigned licensed preceptor; also expected to report periodically to the Executive Director of the assigned community as well as the AIT program committee as needed.

POSITION CLASSIFICATION

FLSA Classification – Exempt

Job Category – Regular Full-Time

ESSENTIAL FUNCTIONS

The following duties are normal for this position. These are not exclusive or all-inclusive. Other duties may be required and assigned. All of the following duties are to be performed under the supervision of the licensed Preceptor of the assigned community. This position must follow the

AIT program that is formulated and approved under the direction and supervision of the Preceptor as well as the AIT program committee and State licensing entity, which will incorporate and include the following duties and special projects as deemed necessary for training purposes.

Work Duties

RESIDENT CARE AND QUALITY OF LIFE

- Ensure that nursing services, social services, food program, medical needs, therapeutic recreation/activity, spiritual life, health information, and pharmaceutical programs are planned, implemented, and evaluated to maximize resident quality of life and quality of care.
- Ensure that a rehabilitation program is planned, implemented, and evaluated to maximize residents' optimal level of functioning.
- Identify, monitor, and ensure that quality indicators and quality assurance programs are utilized to maximize effectiveness in resident care and services.
- Ensure the integration of Resident Rights with all aspects of resident care.
- Ensure development, implementation, and review of resident care policies and procedures.
- Ensure that the facility complies with applicable federal, state, and local standards and regulations.

HUMAN RESOURCES

- Facilitate the process of communication between management and staff (for example, coaching, counseling).
- Supervise Health Services team members, including instructing, assigning and reviewing work, planning, maintaining standards, coordinating activities, allocating personnel, acting on team member problems, selecting new team members, and recommending/approving transfers/promotions, discipline, termination, and salary increases; promotes staff development and motivation; oversees a program for orientation and training for Health Services team members; writes performance appraisals; interprets personnel policies and practices
- Develop, implement, and monitor recruitment, development, evaluation, and retention programs to provide quality resident care and services (for example recognition programs, job satisfaction surveys).
- Ensure that human resources programs are planned, implemented, and evaluated to meet resident and staff cultural diversity needs.
- Assist with development, implementation, and monitoring of compensation and benefit program for staff.
- Ensure that human resource management policies and programs are planned, implemented, and evaluated in compliance with governmental entities, laws, and regulations (for example, job descriptions, education programs).
- Ensure the development and implementation of employee health and safety programs to provide a safe work place environment (for example, risk management, OSHA, wellness programs).
- Obtain and demonstrate knowledge of the NEW_CO Advantage and Masterpiece Living philosophies and inherent core values of Commitment, Respect, Compassion, Dedication, Teamwork and Quality. Ensure associates support and participate in NEW_CO Advantage activities and Masterpiece Living® (i.e., annual training, daily huddle, assist with feedback

groups, assist in new initiatives, encourage residents and act as their “cheerleader”.) Be familiar with and fluent in the language and details of NEW_CO Advantage and Masterpiece Living.

FINANCE

- Assist with the development and management of annual operating and capital budgets to effectively utilize fiscal resources.
- Authorizes purchases of supplies and equipment; reviews and approves invoices.
- Reviews monthly resident statements for accuracy.
- Engages in aging accounts tracking, bad debt management strategies and collection efforts.
- Participate in the development and implementation of financial policies, procedures, and systems to monitor financial performance (for example, accounts payable/ receivable, resident trust).
- Track census of various units.
- Assist with payer mix and admission decisions, to ensure adequate revenue.
- Negotiate, interpret, and implement financial aspects of contractual agreements (for example, managed care, vendor, and consultative services).
- Ensure protection of facility assets (for example risk management).
- Ensure training and education of staff regarding financial management.

PHYSICAL ENVIRONMENT AND ATMOSPHERE

- Ensure that a system for maintaining and improving building, grounds, and equipment is planned, implemented, and evaluated.
- Ensure that the facility provides a clean, attractive, and home-like environment for residents, staff, and visitors.
- Ensure the planning, implementation, and evaluation of an environmental safety program that will maintain the health, welfare, and safety of residents, staff, and visitors.
- Ensure the planning, implementation, and evaluation of an emergency program that protects the safety and welfare of residents, visitors, staff, and property.
- Identify, monitor, and ensure that quality assurance programs are utilized to maximize effectiveness in environmental services.
- Ensure the integration of resident rights with all aspects of the facility environment.
- Ensure development, implementation, and review of environmental policies and procedures.
- Ensure that facility complies with applicable federal, state, and local standards and regulations (for example, ADA, OSHA, CMS, Life Safety Code).
- Ensure a comprehensive preventative maintenance program for Health Services equipment is developed and implemented.

Mission Essential

- Display behavior that supports the mission, vision and values.
- Displays the HumanGood Experience Behaviors
 - Perform as One Team
 - Deliver a Personalized Experience
 - Be Responsible for Results
 - Be Curious and Adaptable

- Understand and adhere to company, community and department programs, policies and procedures.
- Understands and actively contributes to the Philosophy of Person Directed Care while promoting individual growth and potential within a culture of Successful Aging.
- Demonstrate behavior that supports the company's service excellence culture program.
- Keep current knowledge and required certifications for quality care and services mandated by federal and state law, and other regulating agencies.
- Understand and adhere to federal and state laws governing employee and resident rights.
- Communicate effectively to perform the essential functions of the job.

Supervision/Leadership

- Lead staff to achieve community, function and company performance goals.
- Ensure quality recruiting, hiring, development and retention practices consistent with company procedures and standards.
- Assign, review, plan and coordinate the work of other team members.
- Delegate and oversee results of delegated work to staff.
- Recommend and approve the discipline, dismissal, transfer or promotion of team members.
- Assess the work of team members and write performance appraisals.
- Administer pay, rewards and recognition within company guidelines that support individual and team performance toward achieving goals.
- Analyze problems that arise in the areas under supervision and implement solutions.
- Effectively communicate in all written and verbal forms of communication.
- Create an environment for staff that honors, respects and values their opinions and suggestions; demonstrate fair treatment and ethical business practices; support staff development and reward achievement.

KNOWLEDGE, SKILLS, AND ABILITIES REQUIRED TO PERFORM THE ESSENTIAL FUNCTIONS OF THE JOB

Knowledge

- Basic understanding of how policies, procedures, methods, and practices of a senior living community work
- Basic knowledge of how federal, state and local standards and regulations affect a community
- Aging process (psychological and physiological)
- Basic understanding of physiological, social, emotional, psychological, spiritual, financial, and legal service needs of residents and their families
- Basic knowledge of confidentiality and safeguarding clinical record information

Skills

- Recognizing whether or not resident needs are met
- Relationship building
- Basic understanding of how to analyze and interpret customer satisfaction data.
- Superior verbal and written communication skills including interpersonal communication (for example, individuals from diverse backgrounds, cognitively impaired residents)

Abilities

- Ability and willingness to contribute to team by communicating effectively and consistently; follows team rules and procedures; participates in team decision making and problem solving; and offers new ideas and suggestions to maximize team performance; take part in team and company meetings
- Ability to learn and display communication techniques, dynamics of interpersonal relationships, group dynamics and cultural diversity
- Ability to communicate verbally and in writing and to demonstrate leadership, interpersonal, motivational, time – management and organizational skills
- Ability to interact with residents utilizing humor, friendship, kind words, compliments, and understanding to help residents feel safe, secure, and valued.
- Ability to make appropriate judgments, decisions and problems solving in a timely manner and within the context of the situation at hand
- Ability to demonstrate leadership, interpersonal skills and successfully motivate a team in a positive manner
- Ability to direct and oversee the work of others
- Ability to interact and collaborate professionally with a diverse range of customers, including older adults and co-workers, individually and as a part of a team
- Ability to utilize a positive, can-do attitude.
- Ability to learn and apply resident preferences into daily life rhythm.
- Exhibited ability to make strong appropriate judgments and decisions with professional etiquette
- Ability to effectively respond to emergency and/or crisis situations

Workstyle Characteristics

- Integrity – honest and ethical.
- Cooperative – pleasant with others, good-natured, and cooperative.
- Dependable – reliable and responsible, fulfilling duties.
- Attention to Detail – careful about detail and thorough in completing work tasks.
- Concern for Others – sensitive to other’s needs and feelings; helpful and understanding.
- Adaptable/Flexible – open to change (positive or negative) and to variety in the workplace.
- Stress Tolerance – accepts criticism and deals calmly and effectively with stress situations.
- Independent – develops own way of doing; guides self with little or no supervision; depends on self to complete tasks.
- Initiative – willingness to take on challenges and responsibility.
- Leadership – willingness to lead, take charge, and offer opinions and direction.
- Achievement/Effort – establishing and maintaining personally challenging achievement goals and exerting effort toward mastering tasks.
- Analytical thinking – analyzing information and using logic to address work-related issues and problems.

Judgment and Reasoning Ability

- Ability to apply principles of rational systems.
- Ability to use judgment and respond calmly in stressful situations.

Language Ability and Interpersonal Communication

- Ability to understand and correctly use various information resources and documents including daily logs.
- Ability to prepare reports, correspondence, using prescribed format and conforming to all rules of punctuation, grammar, diction and style.
- Ability to explain ideas, in writing and orally, so others easily understand.
- Ability to communicate effectively and hospitably, both orally and in writing.
- Ability to listen to and understand information and ideas presented through spoken words and sentences.
- Ability to recognize when something is wrong or is likely to go wrong.

Job Description

Director of Hospitality

GENERAL STATEMENT OF POSITION

Under limited supervision, the Director of Hospitality is responsible for the overall management of the department, providing quality care and services to all residents. Directs, supervises, coordinates, and evaluates team members and services. Ensures resident care interventions meet the personal, physical, and cognitive needs of each resident as well as maximizing his/her care capacities, identity, independence, choice and opportunity for social interaction. These may include any or all of the following: transportation, beauty shop, pastoral services, activities, census taking, move-in arrangements, and/or health and wellness. Monitors the outcomes of resident services activities by evaluating staff performance, ensuring compliance with community and State Regulations, and monitoring the effective and efficient use of budgeted resources. As a representative and team member of the company, this position is expected to present oneself in a manner that reflects professionalism and ensures resident satisfaction.

SCOPE

Supervisory Responsibility – Direct supervision of social services, concierge, lifestyle, fitness activities, transportation, beauty salon and driver

Budget Responsibility – Operates within established budget parameters

REPORTS TO – Executive Director

POSITION CLASSIFICATION

FLSA Classification – Exempt

Job Category – Regular Full-Time

ESSENTIAL FUNCTIONS

The following duties are normal for this position. These are not exclusive or all-inclusive. Other duties may be required and assigned.

Work Duties

- Recruits, hires, orients, trains, supervises, and evaluates staff;
- Directs the operations of the Beauty Shop and Transportation;
- Oversees and supervises resident's moves and transfers within the retirement community; monitors resident status changes; conducts weekly evaluation meetings;
- May serve as editor of the retirement community newsletter;
- Compiles, prepares and is responsible for monthly statistics;

- Oversees and coordinates residents' moves and transfers within the retirement community; provides orientation for new residents; may chair and/or facilitate resident evaluation committee meetings;
- May reserve and bill guest room accommodations;
- Maintains department compliance with OSHA;
- Develops and monitors the Department expense budget; monitors inventory of supplies and purchases or approves purchasing of supplies as necessary;
- May chair the resident review committee and support resident committees;
- May coordinate a disaster preparedness program; may coordinate resident programs;
- May schedule public rooms and master calendar;
- Attends in-service training workshops and meetings as required;
- Provides effective and courteous service to all residents, guests and co-workers;
- Promotes and protects the rights of each resident;
- Performs other related essential duties as required.

MARGINAL FUNCTIONS

- Performs clerical duties as required;
- Monitors and maintains safety in-service for staff.

Mission Essential

- Display behavior that supports the mission, vision and values.
- Displays the HumanGood Experience Behaviors
- Understand and adhere to company, community and department programs, policies and procedures.
- Understands and actively contributes to the Philosophy of Person Directed Care while promoting individual growth and potential within a culture of Successful Aging.
- Demonstrate behavior that supports the company's service excellence culture program.
- Keep current knowledge and required certifications for quality care and services mandated by federal and state law, and other regulating agencies.
- Understand and adhere to federal and state laws governing employee and resident rights.
- Communicate effectively to perform the essential functions of the job.

Supervision/Leadership

- Lead staff to achieve community, function and company performance goals.
- Ensure quality recruiting, hiring, development and retention practices consistent with company procedures and standards.
- Assign, review, plan and coordinate the work of other team members.
- Delegate and oversee results of delegated work to staff.
- Recommend and approve the discipline, dismissal, transfer or promotion of team members.
- Assess the work of team members and write performance appraisals.
- Administer pay, rewards and recognition within company guidelines that support individual and team performance toward achieving goals.
- Analyze problems that arise in the areas under supervision and implement solutions.
- Effectively communicate in all written and verbal forms of communication.

- Create an environment for staff that honors, respects and values their opinions and suggestions; demonstrate fair treatment and ethical business practices; support staff development and reward achievement.

KNOWLEDGE, SKILLS, AND ABILITIES REQUIRED TO PERFORM THE ESSENTIAL FUNCTIONS OF THE JOB

Knowledge

- Policies, procedures, methods, and practices of the facility;
- Guidelines and rules for OSHA compliance;
- Procedures and techniques of the budgetary process;
- Practices involved in journalism and preparation of news information.

Skills

- Must be able to communicate effectively with residents, families, physicians, and team members
- Effective and efficient organization and staffing.
- Strong oral and written communication
- Strong computer skills

Abilities

- Ability to assign, review, plan, and coordinate the work of team members;
- Ability to provide instruction to other team members;
- Ability to recommend the discipline or discharge of team members;
- Ability to recommend the transfer, promotion, or salary increase of team members.

Workstyle Characteristics

- Integrity – honest and ethical.
- Cooperative – pleasant with others, good-natured, and cooperative.
- Dependable – reliable and responsible, fulfilling duties.
- Attention to Detail – careful about detail and thorough in completing work tasks.
- Concern for Others – sensitive to other’s needs and feelings; helpful and understanding.
- Adaptable/Flexible – open to change (positive or negative) and to variety in the workplace.
- Stress Tolerance – accepts criticism and deals calmly and effectively with stress situations.
- Independent – develops own way of doing; guides self with little or no supervision; depends on self to complete tasks.
- Initiative – willingness to take on challenges and responsibility.
- Leadership – willingness to lead, take charge, and offer opinions and direction.
- Achievement/Effort – establishing and maintaining personally challenging achievement goals and exerting effort toward mastering tasks.
- Analytical thinking – analyzing information and using logic to address work-related issues and problems.

Judgment and Reasoning Ability

- Ability to apply principles of rational systems.

- Ability to use judgment and respond calmly in stressful situations.

Language Ability and Interpersonal Communication

- Ability to understand and correctly use various information resources and documents including daily logs.
- Ability to prepare reports, correspondence, using prescribed format and conforming to all rules of punctuation, grammar, diction and style.
- Ability to explain ideas, in writing and orally, so others easily understand.
- Ability to communicate effectively and hospitably, both orally and in writing.
- Ability to listen to and understand information and ideas presented through spoken words and sentences.
- Ability to recognize when something is wrong or is likely to go wrong.

Mathematical Ability

- Ability to add, subtract, multiply and divide and calculate decimals, ratio and proportion, discount, interest, profit and loss, percentage, commission, markup and fractions; and determine time, weight, and measures.

Environmental Adaptability

- Ability to work effectively in an office environment.
- Ability to work effectively in a health care facility environment.
- Ability to work effectively in hot, cold, and wet conditions.

MINIMUM REQUIREMENTS

Education –

- Bachelor's degree in social work, business, or related field.

Experience/Training –

- Three to five years of prior related experience or any equivalent combination of training and experience which provides the required skills, knowledge and abilities.

Certificates, Licenses, Registrations –

- None

PHYSICAL REQUIREMENTS

The physical activities required to perform the essential functions of the position. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- Ability to operate a variety of automated office machines including typewriter, calculator, copier, etc.;
- Must be physically able to exert up to ten pounds of force occasionally and/or a negligible amount of force frequently or constantly to lift, carry, push, pull, or otherwise move objects;
- Must be able to lift and/or carry weights of residents in positioning and transporting

them;

- Sedentary work involves sitting, but may involve walking or standing for brief periods of time;
- Must be able to lift and/or carry weights of ten to thirty pounds.

Job Description

Housekeeper

GENERAL STATEMENT OF POSITION

Under general supervision, the Housekeeper is responsible for maintaining clean and sanitary conditions in assigned areas, such as resident homes, common areas, dining room and other locations in the community. The Housekeeper performs cleaning duties adhering to approved department cleaning procedures. As a representative and team member of environmental services department, this position is expected to present oneself in a manner that reflects professionalism and ensures resident satisfaction.

SCOPE

Budget Responsibility – None

REPORTS TO – Housekeeping Supervisor

POSITION CLASSIFICATION

FLSA Classification – Non Exempt

Job Category – Regular Full-Time

ESSENTIAL FUNCTIONS

The following duties are normal for this position. These are not exclusive or all-inclusive. Other duties may be required and assigned.

Work Duties

- Follows work schedules;
- Cleans bathrooms, including toilets, sinks, tubs, showers and floors; replenishes paper supplies and soap as necessary;
- Cleans kitchen areas, including counter tops, floors, appliances and sinks;
- Dusts and cleans desks and other furniture, doors, baseboards and window sills;
- Sweeps, mops and vacuums floor surfaces and furniture; may spot clean carpets;
- Washes windows;
- Maintains an organized and stocked work cart at all times while ensuring that chemicals are properly labeled and stored and the work cart is locked when in common areas or while unattended.
- Empties trash receptacles; may deposit recyclable material in proper receptacles;
- May drive an electric cart or push a utility cart within the retirement community;
- Takes note of safety concerns and needed repairs and reports to supervisor;
- May change bed linens once weekly (or as necessary) in Assisted Living Lodge and Health Center;

- May sweep around dining room tables in dining room after breakfast and noon meal;
- Responsible for adhering to HIPPA privacy rules and company policies, procedures and practices which require that resident-identifiable health information will only be used to perform the essential functions of this job.
- Maintains resident and family confidentiality and privacy in accordance with HIPAA regulations, and company Commitment to Quality and Employee Standards of Conduct.
- Maintains familiarity with S.D.S. sheets for all products in use.
- Uses Personal Protective Equipment (P.P.E.) as required
- Attends all appropriate training, seminars and workshops.
- Completes all required computer-based training by the due date.
- Upon patient discharge, clean and disinfect room, bed, furniture, bathroom, cabinets and clothes closet in a timely fashion;
- Ensures that clinical areas are sanitized in accordance with established Infectious Disease Control Policies and Procedures.
- Attends in-service training workshops and meetings as required;
- Conducts work tasks safely and in compliance with the facility safety program;
- Provides effective and courteous service to all residents, guests and co-workers;
- Promotes and protects the rights of each resident;
- Performs other related essential work as required.

Mission Essential

- Display behavior that supports the mission, vision and values.
- Displays the HumanGood Experience Behaviors
 - Perform as One Team
 - Deliver a Personalized Experience
 - Be Responsible for Results
 - Be Curious and Adaptable
- Understand and adhere to company, community and department programs, policies and procedures.
- Understands and actively contributes to the Philosophy of Person Directed Care while promoting individual growth and potential within a culture of Successful Aging.
- Demonstrate behavior that supports the company's service excellence culture program.
- Keep current knowledge and required certifications for quality care and services mandated by federal and state law, and other regulating agencies.
- Understand and adhere to federal and state laws governing employee and resident rights.
- Communicate effectively to perform the essential functions of the job.

KNOWLEDGE, SKILLS, AND ABILITIES REQUIRED TO PERFORM THE ESSENTIAL FUNCTIONS OF THE JOB

Knowledge

- The standard methods, materials, and equipment employed in housekeeping work;
- Use of various cleaning products and equipment used in performing housekeeping duties.

Skills

- Basic skills necessary to operate various cleaning equipment
- Basic computer skills

Abilities

- Ability to read, write and speak English sufficient to perform job duties and to interact and communicate with residents, vendors and team members.
- Follow written and oral instructions
- Ability to clean entire resident's room, including bathrooms.
- Operate hand cleaning equipment including, but not limited to, brooms, dust and wet mops, dust pans, and dusters
- Ability to read and interpret directions on cleaning products and equipment.

Workstyle Characteristics

- Integrity – honest and ethical.
- Cooperative – pleasant with others, good-natured, and cooperative.
- Dependable – reliable and responsible, fulfilling duties.
- Attention to Detail – careful about detail and thorough in completing work tasks.
- Concern for Others – sensitive to other's needs and feelings; helpful and understanding.
- Adaptable/Flexible – open to change (positive or negative) and to variety in the workplace.
- Stress Tolerance – accepts criticism and deals calmly and effectively with stress situations.
- Independent – develops own way of doing; guides self with little or no supervision; depends on self to complete tasks.
- Initiative – willingness to take on challenges and responsibility.
- Leadership – willingness to lead, take charge, and offer opinions and direction.
- Achievement/Effort – establishing and maintaining personally challenging achievement goals and exerting effort toward mastering tasks.
- Analytical thinking – analyzing information and using logic to address work-related issues and problems.

Judgment and Reasoning Ability

- Ability to apply principles of rational systems.
- Ability to use judgment and respond calmly in stressful situations.

Language Ability and Interpersonal Communication

- Ability to understand and correctly use various information resources and documents including daily logs.
- Ability to prepare reports, correspondence, using prescribed format and conforming to all rules of punctuation, grammar, diction and style.
- Ability to explain ideas, in writing and orally, so others easily understand.
- Ability to communicate effectively and hospitably, both orally and in writing.
- Ability to listen to and understand information and ideas presented through spoken words and sentences.
- Ability to recognize when something is wrong or is likely to go wrong.

Mathematical Ability

- Ability to add, subtract, multiply and divide and calculate decimals, ratio and proportion, discount, interest, profit and loss, percentage, commission, markup and fractions; and determine time, weight, and measures.

Environmental Adaptability

- Ability to work effectively in an office environment.
- Ability to work effectively in a health care facility environment.
- Ability to work effectively in hot, cold, and wet conditions.

MINIMUM REQUIREMENTS

Education –

- High school diploma or equivalent. Ability to read, speak and understand English.

Experience/Training –

- Previous housekeeping experience preferred.

Certificates, Licenses, Registrations –

- None

ADDENDUM

In addition to the essential duties and job/work style characteristics listed on the above job descriptions, the following additional functions may be required based on the specific needs of assigned location. If any of these duties cannot be accomplished with the physical standards listed above contact you HR Representative.

Bullet point additional job functions unique to Community

HumanGood is an Equal Opportunity Employer. Complying with the Americans With Disabilities Act, HumanGood will provide reasonable accommodations to qualified individuals with disabilities and encourages both prospective team members and incumbents to discuss potential accommodations with HumanGood.

I reviewed the job description and believe it adequately describes the position and its requirements. I am able to perform the requirements of the job as outlined or with modifications as I have documented and signed below.

I understand that my employment with HumanGood is by mutual consent and an at-will relationship. Nothing in this job description is intended to create an express or implied employment contract. I understand my employment can be ended, with or without cause and with or without notice, at any time at the choice of HumanGood or myself. Further, I understand there is no guarantee of employment for any length of time and that any modification of these representations must be in writing and signed by the CEO/President of HumanGood.

SECTION 999.5(d)(5)(F)

- (F) For each health facility or facility that provides similar health care services that is the subject of the agreement or transaction, all existing documents setting forth any guarantees made by any entity that would be taking over operation or control of the health facility or facility that provides similar health care services relating to employee job security and retraining, or the continuation of current staffing levels and policies, employee wages, salaries, benefits, working conditions and employment protections.**

Ararat Home of Los Angeles, Inc. has committed to continuing the current staffing levels and policies, employee wages, salaries, benefits, working conditions and employment protections post-closing for at least 60 days, as outlined in the Purchase and Sale Agreement at Section 10.5.1. Ararat Home of Los Angeles has no intention to reduce the capacity of nursing home beds at Windsor. It will continue to provide services to Medicare and Medicaid Beneficiaries, as noted in the Amendment to the Purchase and Sale Agreement dated July 29, 2022.

SECTION 999.5(d)(5)(G)

- (G) If the agreement or transaction will have any impact on reproductive health care services provided by any facility that is the subject of the agreement or transaction, or any impact on the availability or accessibility of reproductive health care services, a description of all reproductive health care services provided in the last five years by each health facility or facility that provides similar health care services that is the subject of the agreement or transaction. This description shall include the types and levels of reproductive services including, but not limited to, information about the number of pregnancy terminations and tubal ligations and a description of how this information was compiled.**

(Not Applicable)

SECTION 999.5(d)(5)(H)

- (H) A statement describing all effects that the proposed agreement or transaction may have on health care services provided by each facility proposed to be transferred including, but not limited to, any changes in the types or levels of medical services that may be provided at the health facility or facility that provides similar health care services and a statement of how the proposed transaction may affect the availability and accessibility of health care in the affected communities.**

HumanGood SoCal anticipates that the proposed transaction will not adversely affect the delivery, availability, or accessibility of health care services to the community served by Windsor's skilled nursing facility. SNF programs and services will not be reduced as a result of the proposed transaction. To the contrary, the sale to Ararat will benefit the SNF and the residents it serves to the extent that Ararat will be better able to serve the Glendale community for the reasons stated in Section (1)(C).

SECTION 999.5(d)(5)(I)

- (I) A description and copy of all current contracts between the applicant and the city in which the applicant is located and current contracts between the applicant and the county in which the applicant is located for each health facility or facility that provides similar health care services that are the subject of the agreement or transaction.**

HumanGood SoCal does not maintain any contracts with the City of Glendale or the County of Los Angeles in connection with the operation of Windsor.

SECTION 999.5(d)(5)(J)

(J) A description of compliance with the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983, as amended by the California Hospital Facilities Seismic Safety Act (Health & Safety Code §129675-130070), for each health facility or facility that provides similar health care that is the subject of the agreement or transaction, including the certified Structural Performance Category of every building affected by the agreement or transaction and a copy of every final determination letter received from the Office of Statewide Health Planning and Development for every building affected by the agreement or transaction.

Not applicable. The health facilities in question are skilled nursing facilities, not general acute care hospitals, and are not the subject of the above-referenced laws.

SECTION 999.5(d)(5)(K)

- (K) A description of each measure proposed by the applicant to mitigate or eliminate any potential adverse effect on the availability or accessibility of health care services to the affected community that may result from the agreement or transaction.**

Please see Section (5)(H) above. The parties do not anticipate any adverse effect on the availability or accessibility of health care services resulting from the proposed sale. To the contrary, the proposed affiliation should yield net benefits to the community as described in Section (5)(H).

SECTION 999.5(d)(6)

POSSIBLE EFFECT ON COMPETITION

(d)(6)(A)

- (A) For any agreement or transaction for which a Premerger Notification and Report Form is required to be submitted to the Federal Trade Commission under the Hart-Scott-Rodino Antitrust Improvement Act of 1976, a brief analysis of the possible effect of any proposed merger or acquisition of each health care facility or facility that provides similar health care services that is the subject of the agreement or transaction on competition and market share in any relevant product or geographic market. This transaction is exempt from filing the premerger notification report form (the "Form")**

This transaction is exempt from filing the premerger notification report form (the "Form") under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, 15 U.S.C. § 18a (§ 7A of the Clayton Act or "the Act").

For the Form filing requirement to apply to a proposed merger or acquisition, the transaction must satisfy three tests: (1) the commerce test under Section 7A(a)(1) of the Act; (2) the size of transaction test under Section 7A(a)(2) of the Act; and (3) the size of person test under Section 7A(a)(2) of the Act. An acquisition will satisfy the commerce test if either of the parties to a transaction is engaged in commerce or in any activity affecting commerce. The size of transaction test will be met if, as a result of the transaction, the acquiring person will hold an aggregate amount of voting securities, non-corporate interests ("NCI") and assets of the acquired person valued at more than \$50 million (as adjusted). The size of person test will be met if one of the parties has sales or assets of at least \$100 million (as adjusted) and the other party has sales or assets of at least \$10 million (as adjusted).

Here, the buyer and seller arguably fail the commerce test. As the court observed in *Mitchell v. Frank R. Howard Memorial Hospital*, 853 F.2d 762 (9th Cir. 1988), the commerce determination in health care is based "on a broad aggregate of factors including proximity of the facility to regional centers of commerce or to other states, treatment of significant numbers of out-of-state patients, purchase of equipment and supplies from interstate sources and interstate transfer of payment for patient care." HumanGood SoCal's Windsor community serves a largely local market, purchases most of its equipment and supplies from California vendors, and does not transfer residents out of state for care. Likewise, the buyer intends to serve a largely local market, purchase most or all of its equipment and supplies from California vendors, and not to transfer residents out of state for care. Furthermore, the buyer primarily serves the community of Glendale, CA.

Irrespective of whether the sellers or buyers meet the commerce test, it is clear that they do not meet the other two tests. Under the size of transaction test, the buyer is not acquiring an aggregate amount of voting securities, non-corporate interests ("NCI") and assets of HumanGood SoCal valued at more than \$101 million (as adjusted). The purchase price of HumanGood SoCal's Windsor community, its related assets and the fair market value determined by two valuations and a formal appraisal, is \$17 million at most. Although the third (size of person) test does not apply because the size of the transaction does not exceed \$101 million, the size of person test is likewise not met because the buyer does not have assets

valued at \$202 million as adjusted. Because the transaction fails two or three of the tests, and all three tests must be satisfied to trigger the filing of the Form, the parties are exempt from filing the Form.

SECTION 999.5(d)(6)(B)

- (B) The applicant shall provide the Premerger Notification and Report Form and any attachments thereto as filed with the Federal Trade Commission pursuant to the Hart-Scott-Rodino Antitrust Improvement Act of 1976 and 16 C.F.R. Parts 801-803. The procedure for designating information as confidential set forth in section 999.5(c)(3) of these regulations shall apply to any information submitted under this subsection.**

(Not Applicable)

SECTION 999.5(d)(7)

OTHER PUBLIC INTEREST FACTORS

The written notice of any proposed agreement or transaction set forth in section 999.5(a)(1) of these regulations shall include a section entitled “Other Public Interest Factors” that contains any other information the applicant believes the Attorney General should consider in deciding whether the proposed agreement or transaction is in the public interest.

HumanGood SoCal's continued operation of Windsor at a loss will unnecessarily diminish its ability to achieve its charitable purposes and has the potential to reduce the quality of services to Windsor residents and residents of HumanGood SoCal continuing care retirement communities. Ararat is better positioned to serve Windsor residents and the Glendale community, while continuing the charitable values and operational excellence currently in place at the CCRC.

SECTION 999.5(d)(8)

- (8) The written notice of any proposed agreement or transaction set forth in section 999.5(a)(1) shall include a resolution of the board of directors of the applicant authorizing the filing of the written notice and a statement by the chair of the board that the contents of the written notice are true, accurate and complete.**

Copies of a board resolution authorizing the filing, and certification statement signed by the Board Chair of HumanGood SoCal are attached to this Section.

1. HumanGood SoCal Board Resolution authorizing the filing of the notice dated March 24, 2022.
2. Certification Statement signed by Randall Stamper, the Board Chair of HumanGood SoCal dated September 12, 2022.

SECTION 999.5(d)(8)

1) HumanGood SoCal Board Resolution authorizing the filing of the notice dated March 24, 2022

HUMANGOOD SOCAL

APPROVAL OF SALE DISCUSSIONS AND AUTHORIZING THE EXECUTION OF A PURCHASE AND SALE AGREEMENT WITH ARARAT HOME OF LOS ANGELES, INC.

DULY ADOPTED ON MARCH 24, 2022

WHEREAS, HumanGood SoCal is a California nonprofit public benefit corporation (the “Corporation”) that owns and operates, a continuing care retirement community (“CCRC”) located at 1230 E Windsor Rd, Glendale, CA 91205 known as “Windsor” and previously, “Windsor Manor” (the “Community”);

WHEREAS, each of the Corporation and its sole member, HumanGood, holds, in its capacity as a co-provider, a continuing care certificate of authority (the “COA”) and a residential care facility for the elderly (“RCFE”) license, and the Corporation holds a skilled nursing facility license (“SNF License”), for the Community;

WHEREAS, over several years, the Corporation has experienced both operational and financial challenges operating the Community as a senior care community, including declining sales, low SNF census, and difficulties recruiting sufficient staff;

WHEREAS, the Corporation has sought to improve the operational and financial stability and raise the profile of the Community in the local community by expanding and enhancing the scope and extent of services provided to the Community's senior residents;

WHEREAS, despite the Corporation's efforts, the Community has continued to struggle both financially and operationally;

WHEREAS, in an effort to address these challenges, the Corporation began exploring a potential sale of the Community and in doing so obtained an Appraisal Report from CBRE, Inc. (“CBRE”), an experienced appraiser of senior care communities, and valuations from two investment banking firms with deep experience and connections in the senior living space, Ziegler Investment Banking (“Ziegler”) and Herbert J. Sims & Co., Inc. (“HJ Sims”);

WHEREAS, the CBRE appraisal appraised the Community at a value of \$16,800,000, Ziegler issued a preliminary valuation of \$10,000,000 to \$14,000,000, and HJ Sims issued a preliminary valuation of \$12,902,184;

WHEREAS, as previously authorized by the Board, the Corporation initially engaged in discussions with a prospective nonprofit buyer for the purchase of the Community, but after evaluating an informal offer from such prospective buyer that was lower than CBRE’s appraised value of the Community and upon learning from such prospective buyer that it might desire to delicense and close the skilled nursing facility at the Community in the future, the Corporation decided to stay in the market with the hope of identifying a better matched buyer;

WHEREAS, the Corporation identified and subsequently engaged in discussions with Ararat Home of Los Angeles, Inc., a California nonprofit public benefit corporation (“Ararat”) for the purchase of the Community;

WHEREAS, the Corporation thoroughly evaluated an offer from Ararat to purchase the Community for \$14,800,000 in cash, which offer includes the commitment to assume all active resident contracts (the “Sale Price”);

WHEREAS, the Corporation believes that Ararat is a strong candidate as a potential owner/operator of the Community because it is a nonprofit with strong ties to the local community, it is an experienced operator of a continuing care retirement community that serves a senior population similar to those residing at the Community, it has a strong licensing compliance record, and it plans to maintain and potentially increase the number of licensed beds at the Community's skilled nursing facility;

WHEREAS, the Corporation also believes that Ararat's proposed purchase offer is fair and consistent with the appraised value assigned by CBRE, given that the CBRE Appraisal Report does not reflect the cash resources needed to rehabilitate the Community in light of the current and long lasting operational and financial challenges it has been experiencing;

WHEREAS, the Corporation is in the process of conducting due diligence, determining any necessary review and approval by state regulatory and licensing agencies, and preparing documents, including a purchase and sale agreement, in order to further evaluate and proceed with effectuating Ararat's purchase offer; and

WHEREAS, having considered the foregoing, the Board of Directors of the Corporation desires to authorize the sale of the Community to Ararat for the Sale Price (the “Transaction”), which authorization shall include the authorization of (1) such actions as are necessary or desirable to obtain regulatory approval of the Transaction, (2) the execution of a purchase and sale agreement in the form reviewed and approved by management of the Corporation and legal counsel to the Corporation (the “Purchase and Sale Agreement”), (3) the execution of other documents and the taking of such actions as are necessary or desirable to further the Transaction, and (4) the ratification of such actions or activities pertaining to the Transactions taken prior to the date of this resolution.

NOW THEREFORE, IT IS:

RESOLVED, that the Corporation approves the Transaction and the execution of the Purchase and Sale Agreement by the President and Chief Executive Officer of the Corporation in the form approved by management of the Corporation and legal counsel to the Corporation;

RESOLVED FURTHER, the President and Chief Executive Officer, Chief Operating Officer, Chief Financial Officer and General Counsel of the Corporation (“Authorized Officers”), each acting alone, are hereby authorized and directed to prepare and execute any other documents to which the Corporation is a party in connection with the Purchase and Sale Agreement and/or sale of the Community;

RESOLVED FURTHER, that the Corporation is authorized to provide all necessary notices to residents and regulatory and licensing agencies and receive approvals from all regulatory and licensing agencies as needed for the proposed sale of the Community;

RESOLVED FURTHER, that the Corporation is authorized, but not required, to file a change of manager application for the RCFE License, COA, and SNF License in order to have Ararat begin managing the Community on the Corporation's behalf in anticipation of Ararat receiving the necessary regulatory and licensing approvals regarding its purchase of the Community;

RESOLVED FURTHER, that the Corporation will cooperate with Ararat to obtain all necessary regulatory, licensing, and certification change of ownership approvals of the Community and meet any other conditions of closing as described in the Purchase and Sale Agreement; and

RESOLVED FURTHER, the acts of the Authorized Officers of the Corporation and of any person or persons and authorized to act by any such officer of the Corporation, which acts would have been authorized by the foregoing resolutions except that such acts were taken prior to the adoption of such resolution, are hereby separately ratified, confirmed, approved and adopted as acts in the name of and on behalf of the Corporation.

CERTIFICATION

I, H. Declan Brown, Secretary of HumanGood SoCal, a California nonprofit public benefit corporation (the "Corporation"), do hereby certify and declare that the foregoing is a full, true and correct copy of the resolution duly passed and adopted the Board of Directors of the Corporation at a meeting of the Board of Directors of the Corporation duly called special meeting, noticed and held on March 24, 2022; that said resolutions are now in full force and effect; that there is no provision in the Articles of Incorporation or Bylaws of the Corporation limiting the powers of the Board of Directors of the Corporation to pass the foregoing resolutions and that such resolutions are in conformity with the provisions of such Articles of Incorporation and Bylaws of the Corporation.

IN TESTIMONY WHEREOF, I have hereunto set my hand as of March 24, 2022.

H. Declan Brown,
Secretary of HumanGood SoCal,
a California nonprofit public benefit corporation

SECTION 999.5(d)(8)

2) Certification Statement signed by Randall Stamper, the Board Chair of HumanGood SoCal dated _____

HUMANGOOD SOCAL

CERTIFICATION

The undersigned Chair of the Board of Directors of HumanGood SoCal certifies that the content of the written notice to the California Attorney General regarding the proposed sale of the Windsor Manor facility and the real property, fixtures, and assets associated with the facility to Ararat Home of Los Angeles, Inc. (the "Buyer") is true, accurate, and complete. Buyer has advised HumanGood SoCal that the information provided by Buyer and its affiliates is true, accurate, and complete.

Randall Stamper, Chair of the Board

Welcoming Statement

Welcome to Ararat Home of Los Angeles, Inc. We are thrilled that you have chosen us to be your employer. We take great pride in our employees.

As long term care leaders, we are change agents and practice fundamental values of employee empowerment, open communication, innovative interventions, compassion, and collaboration among all disciplines.

We are in an environment whose foundation is based on caring for our elderly residents. Our goal is to provide the best possible quality of care for our residents in a compassionate and caring atmosphere.

We work hard as a team continuously striving for excellence to reach higher horizons and to make a significant difference in the lives of our residents.

No policy in this Human Resource Manual or any other policy which may later be added to this manual creates a contract, either expressed or implied.

Ararat Home reserves the right to alter, amend, modify, delete, add to, and /or eliminate, in whole or in part, any policy of this Human Resource Manual. The organization also reserves the right to create new policies to be added to this manual.

This manual states the policies and practices in effect at the time of publication. This manual supersedes all previously issued manuals and any policy or benefit statements or memoranda that are inconsistent with the policies described here. Your supervisor will be happy to answer any questions you may have.

Mission of Ararat Home of Los Angeles, Inc.

Ararat Home serves the community without regard to race, ethnic origin, religious persuasion or financial ability. Each encounter with residents and families portrays our utmost compassion and respect. Monitoring, evaluating and constantly improving individualized resident care is the daily responsibility of the entire staff.

Excellence in service, practice and leadership is provided in a progressive, positive and flexible environment, instituting meaningful programs of education, utilization of cost effective delivery of care to ensure financial viability. Staff is empowered to assure fair employment and personnel policies are practiced to actively respond to the needs of the community.

Performance Improvement/Quality Improvement Philosophy

We will strive to improve the quality of care and quality of life of our residents. Quality of care can be improved when we continuously measure and improve our performance. This primarily involves the performance of the organization's systems and processes. In addition, we will continue to monitor the competence of all the staff.

Our Plan is called Performance Improvement/Quality Improvement (PI/QI) and it involves the entire organization. Employees are empowered to be proactive in a caring environment. PI/QI bears no negative connotation in our organization. It is not a mandate. It is a life style.

Ararat Home of Los Angeles, Inc.

Equal Employment Opportunity

Policy Statement

It is the policy of Ararat Home of Los Angeles, Inc. to recruit, hire, train, and promote persons in all job titles without regard race, color, creed, gender, religion, marital status, registered domestic partner status, age, national origin or ancestry, physical or mental disability, medical condition including genetic characteristics, sexual orientation, or any other consideration made unlawful by federal, state, or local laws.

Procedure

Ararat Home of Los Angeles (Ararat Home) is an equal opportunity employer and makes employment decisions on the basis of merit. Organization policy prohibits unlawful discrimination based on race, color, creed, gender, religion, marital status, registered domestic partner status, age, national origin or ancestry, physical or mental disability, medical condition including genetic characteristics, sexual orientation, or any other consideration made unlawful by federal, state, or local laws. It also prohibits unlawful discrimination based on the perception that anyone has any of those characteristics, or is associated with a person who has or is perceived as having any of those characteristics. All such discrimination is **unlawful**.

Ararat Home is committed to compliance with all applicable laws providing equal employment opportunities. This commitment applies to **all** persons involved in organization operations and prohibits unlawful discrimination by any employee of the organization.

To comply with applicable laws ensuring equal employment opportunities to qualified individuals with a disability, Ararat Home will make reasonable accommodations for the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or an employee unless undue hardship would result to the organization.

Any applicant or employee who requires an accommodation in order to perform the essential functions of the job should contact the administrator or his/her designee and request such an accommodation. The individual with the disability should specify what accommodation he or she needs to perform the job. Ararat Home will then conduct an investigation to identify the barriers that interfere with the equal opportunity of the applicant or employee to perform his or her job. Ararat Home will identify possible

accommodations, if any, that will help eliminate the limitation. If the accommodation is reasonable and will not impose an undue hardship, the accommodation will be made.

If you believe you have been subjected to any form of unlawful discrimination, submit a written complaint to your administrator or his/her designee. Your complaint should be specific and should include the names of the individuals involved and the names of any witnesses.

Ararat Home will immediately undertake an effective, thorough, and objective investigation and attempt to resolve the situation.

If Ararat Home determines that unlawful discrimination has occurred, effective remedial action will be taken to commensurate with the severity of the offense. Appropriate action will also be taken to deter any future discrimination. Ararat Home will not retaliate against you for filing a complaint and will not knowingly permit retaliation by management employees or your coworkers.

At-Will Employment

Policy Statement

It is the policy of Ararat Home that all employees who do not have individual employment contracts for a specified period of time are employed at the will of the organization for an indefinite period of time.

Procedure

Ararat Home personnel are employed on an at-will basis. Employment at-will means that the employment relationship may be terminated with or without cause and with or without advance notice at any time by the employee or the organization. Nothing in this manual shall limit the right to terminate at-will employment.

No manager, supervisor, or employee of the organization has any authority to enter into an agreement for employment for any specified period of time or to make an agreement for employment on other than at-will terms.

Only the Administrator/Executive Director of Ararat Home has the authority to make any such agreement, which is binding only if it is in writing.

An employee hired at-will may resign at anytime, without cause, and with or without notice, and/or the organization may terminate the employee at any time without cause, and with or without notice.

The completion of an employee’s appraisal period or conferral of regular status does not change an employee’s at-will status nor in any way alter or change the organization’s right to terminate such employee at any time, with or without notice, and/or with or without cause.

Disciplinary action noted throughout the manual is not all-inclusive and does not restrict the organization’s right to terminate any at-will employee. Although the organization has set forth policies about disciplinary actions and termination of employment, these policies are not binding on the organization. The organization reserves the right to discipline any and all employees or terminate any or all employees with or without notice and/or with or without cause. Such disciplinary action and/or termination may be done at the organization’s discretion.

This policy may not be modified by any statements contained in this or any other organization policy or procedure manual, employment application, memorandum, etc. None of the aforementioned documents, whether singly or collectively, nor any practice there under shall create a contract, either expressed or implied.

Inquiries concerning at-will employment should be directed to the Executive Director, Administrator and/or his/her designee.

The organization reserves the right to demote, transfer, change job duties, and change compensation at any time with or without cause in its sole discretion.

In deciding to work for the organization or continuing to work for the organization or continuing to work for the organization you must understand and accept these terms of employment.

Recruiting and Hiring New Employees

Policy Statement

It is the policy of Ararat Home to recruit and hire persons in all job titles conforming to Equal Employment Opportunity as mandated by State and Federal regulations. It is the policy to hire the most qualified applicant for all vacancies.

Procedure

The Executive Director, Administrator and/or their designee shall recruit, interview, and hire supervisors.

Each supervisor shall recruit, interview, and hire persons for vacant positions in his/her department.

When a position is vacated, the Department Supervisor shall notify current employees of the vacancy by posting a notice on the employee bulletin board for 72 hours prior to advertising externally.

Notices advertising vacant positions shall include a brief description of job title, qualifications, job description, and also clearly note application information.

All applications received are referred to the appropriate Department Supervisor. Each application is evaluated based upon the experience, training, and competence of the applicant for a position. The evaluation methods should include interviews, reference checks, and applicable testing.

All applicants shall be given a time frame to the status of their application. All employment applications shall be kept on file for one year.

Background Investigations

Policy Statement

It is the policy of Ararat Home to conduct reference checks, driving record investigations, background investigations, and criminal conviction investigations on personnel making application for employment with this organization.

Procedure

The Executive Director, Administrator and/or their designee will conduct any applicable background investigation on each individual making application for employment with this organization and on any current employee if such background investigation is/are appropriate in light of the position for which the individual has applied (i.e., A driving record investigation will be conducted if the job position requires driving for the organization).

For any individual applying for a position as a Certified Nursing Assistant, Licensed Vocational Nurse, and Registered Nurse, the Executive Director/Administrator or his/her designee will consult appropriate licensing agency of the state in which the individual was certified and/or previously employed to determine the applicant's employment eligibility.

When conducting background investigations, the organization **may** contact any or all of the following agencies, depending upon the position for which the applicant/employee applied/was hired.

- (a) Local, state, and/or federal law enforcement agencies
- (b) Departments of public safety
- (c) Professional licensing boards
- (d) State registries of nurse aides
- (e) Consumer reporting agencies
- (f) Other agencies as deemed appropriate in determining employment eligibility

Persons making application for employment and current employees will be informed of this policy and will be required to sign a release giving the organization the right to conduct any appropriate investigation.

A criminal background check will be conducted on all persons applying for any position that has potential for direct contact with residents.

Should the background investigation disclose any material misrepresentation or omission on the employment application forms or disclose information indicating that the individual is not suited for hire; the applicant will not be employed, or if already employed, will be terminated.

Applicants refused employment and employees terminated pursuant to this policy will be provided with the name and address of the agency providing the information resulting in the organization's decision not to hire or to terminate the applicant/employee as well as a copy of the report so that the applicant/employee may challenge the accuracy or completeness of the report.

Prior convictions will not necessarily disqualify an applicant or lead to termination of an employee from employment unless such disqualification is required by law. Serious consideration will be given to the position for which the person applied the seriousness of the offense, and how recently the offense was committed.

All costs relative to background investigations shall be borne by the organization.

Inquiries concerning background investigations should be kept confidential and referred to the Executive Director, Administrator and/or their designee.

Definitions of Employees

Policy Statement

It is the policy of Ararat Home to maintain employee definitions, to distinguish groups of employees.

Procedure

Regular full-time employees are those who are scheduled for and do work 30 hours per week. Following the completion of the appraisal period, regular full-time employees are eligible for most employee benefits described in this manual.

Part-time employees are those who are regularly scheduled for 16 hours or more per week. Part-time employees are not eligible for any benefits.

Per-diem employees are those who are requested to work. Per-diem employees are not eligible for any benefits.

Appraisal Period/New Hires/Introductory Period

Policy Statement

It is the policy of Ararat Home to enforce an appraisal period for all new employees.

Procedure

The Appraisal period for all new employees is 90 days from the date of hire.

A new employee under appraisal period at the Ararat Home will receive a performance appraisal by their supervisor after 90 days of work, signaling the end of the appraisal period.

During an employee's appraisal period, that employee is not eligible for any fringe benefits received by a full time employee with the same employee definition.

If an employee misses part of his/her appraisal period because of an excused leave of absence, his/her appraisal period will be extended a proportionate number of days.

All employees shall be informed at the time of hiring of the appraisal period policy.

The first 90 days of continuous employment at Ararat Home is considered an appraisal period. During this time you will learn your responsibilities, get acquainted with fellow employees, and determine whether or not you are happy with your job. Your supervisor will closely monitor your performance.

Upon completion of the appraisal period, Ararat Home will review your performance. If the organization finds your performance satisfactory and decides to continue your employment, it will advise you of any improvements expected from you. Completion of the appraisal period does not entitle you to remain employed by Ararat Home for any definite period of time, but rather allows both you and the organization to evaluate whether or not you are right for the position. After completion of the trial period, eligible employees will receive the benefits described in this manual.

During the appraisal period, your supervisor will explain your job responsibilities may change at any time during your employment. From time to time, you may be asked to

Orientation

Policy Statement

It is the policy of Ararat Home to comply with all State guidelines, with regard to the material covered during orientation. The Ararat Home orientation program is updated and maintained under separate cover by the Administrator/ Executive Director.

Procedure

The basic orientation and department specific orientation is performed by assigned personnel at each organization.

Orientation programs and in-service training classes are conducted to assist employees in understanding the organizations personnel policies and procedures.

Employee Bulletin Boards

Policy Statement

It is the policy of Ararat Home to maintain bulletin boards for posting notices that affect or concern the employees: There are two types of bulletin boards, an “organization bulletin board” used for the posting of official government notices and changes in organization policy and an “employee bulletin board” used to post general information.

Procedure

The bulletin board designated as the organization bulletin board will be used solely for the posting of official government notices and changes in organization policies that affect our employees.

Only the Executive Director/Administrator, or his/her designee, may post or remove notices from the organization bulletin board.

The bulletin board designated as the employee bulletin board will be used to post general information such as: organization social/activity events, carpooling information open positions, policy changes.

Notices on the employee bulletin board must be approved in writing by the Executive Director/Administrator or his/her designee prior to posting.

Notices concerning outside organizations and events that are not related to Ararat Home may not be posted on either the organization or employee bulletin boards.

Posting, altering, or removing notices or information from bulletin boards without proper authorization may be grounds for disciplinary action.

Release of Employee Information

Policy Statement

It is the policy of Ararat Home to only release information through the Executive Director, Administrator and/or their designee.

Procedure

Only the Executive Director, Administrator or their designee is authorized to release information concerning the organization’s employees. The following information may be released without the employee’s written consent:

- Date employment;
- Position(s) held; and
- Job location

The organization will protect the confidentiality of all personal information about employees and only authorized personnel with a “need-to-know” basis will have access to such information.

All requests for information about employees must be directed to the Executive Director, Administrator and/or their designee. Failure to do so may result in disciplinary action.

Title

Punctuality and Attendance

Policy Statement

In order to provide the best and most consistent resident care, Ararat Home shall enforce attendance per scheduled hours for all employees.

Procedure

All employees shall be informed, at the time of hire, of the anticipated hours and days of duty.

Each immediate supervisor shall maintain a duty schedule for his/her services, indicating hours and days of duty. This duty schedule shall be posted in an easily accessible location.

As an employee of Ararat Home you are expected to be punctual and regular in attendance. Any tardiness or absence causes problems for your fellow employees and your supervisor. When you are absent, your assigned work must be performed by others.

Employees are expected to report to work as scheduled, on time, and prepared to start work. Employees are also expected to remain at work for their entire work schedule, except for meal periods or when required to leave on authorized organization business. Late arrival, early departure, or other unanticipated and unapproved absences from scheduled hours are disruptive and must be avoided.

If you are unable to report for work on any particular day, you must under all but the most extenuating circumstances call your supervisor at least **two hours** before the time you are scheduled to begin working for that day. If you call less than two hours before your scheduled time to begin work and do not arrive in time for your assigned shift, you will be considered tardy for that day. In all cases of absence or tardiness, employees must provide their supervisor with an honest reason or explanation. Employees must also inform their supervisor of the expected duration of any absence.

If you fail to report for work without any notification to your supervisor and your absence continues for a period of **three days** Ararat Home will consider that you have abandoned your employment.

Be aware that your job responsibilities may change at any time during your employment. From time to time, you may be asked to work on special projects, or to assist with other work necessary or important to the operation of your department or Ararat Home. Your cooperation and assistance in performing such additional work is expected.

Ararat Home reserves the right, at any time, with or without notice, to alter or change job responsibilities, reassign or transfer job positions, or assign additional job responsibilities.

Employees absent for more than three (3) consecutive days without reporting in may be considered as having “voluntarily quit” and their position will be filled. If the employee can provide an acceptable explanation, this rule may not apply. Such explanation may require substantiation and/or verification.

Employees absent without notice or authorization for less than three (3) days must provide a detailed written reason for the absence. (Note: Regardless of the stated reasons, the employee may be subject to disciplinary action.)

Ararat Home understands that last-minute personal emergencies can occur that require the employee to leave. The immediate supervisor reserves the right to determine if the absence is an excused or unexcused absence.

All unexcused absences, or tardiness, or excessive personal absences may be noted in the employee’s personnel file. Poor attendance records may be reviewed by the immediate supervisor, and may lead to disciplinary action or termination.

In any circumstance where no prior leave has been approved, any absence beyond three (3) days shall require a “Release to Work” from the employee’s physician, before the employee can return to work for physical illness.

Changes in the duty schedule requested by the employee for personal or other reasons may be accommodated.

Title

Meal Periods/ Rest Periods

Policy Statement

It is the policy of Ararat Home to provide meal periods and rest periods in accordance with Labor Laws of the State of California.

Procedure

Employees are provided with a 30 minute meal period, to be taken approximately in the middle of the workday. Employees are allowed a 10-minute rest period for every four hours of work or major portion thereof. Your supervisor will schedule your meal and rest periods (i.e. If the work day for each full-time employee includes a 30 minute unpaid meal period, and two 10- minute rest period in each 7.5 or 8.0 hour shift).

You are expected to observe your assigned working hours and the time allowed for meal and rest periods. Do not leave the premises during your rest period and do not take more than 10 minutes for each rest period. You may leave the premises during your meal period upon notification of the immediate supervisor.

Every employee shall receive a 30-minute unpaid meal period if the shift consists of at least 5.0 hours.

Any employee may waive their 30minute unpaid meal break only when their work schedule or shift will be completed in 6 hours or less in one workday. (Employee must sign a meal break waiver and the Administrator/Executive Director or his/her designee must authorize the request) See Appendix A.

Meal periods will be taken in staggered periods, in order to provide adequate resident care at all times. A one-hour unpaid lunch period may be arranged upon approval of the Department Supervisor and/or Administrator/Executive Director or his /her designee.

In accordance with Labor Laws rest periods and meal periods may not be combined.

Food and Nutrition/Dietary personnel are eligible to receive one free meal during their shift period. The only meal available will be the meal offered to residents for that particular meal period. All other employees may eat at the cost of \$2.00 per meal with the exception of Ararat Convalescent.

Title

Overtime

Policy Statement

It is the policy of Ararat Home to request an employee to work overtime when required, due to extenuating circumstances. Overtime will be paid in accordance with applicable state and federal laws.

Procedure

The pay period is for a period of fourteen (14) days from a Monday to a Sunday. Paydays are on Thursdays following the end of the pay period. This fourteen day period is used to compute any overtime that is due.

Time worked in excess of eight (8) hours in a workday, or eighty (80) hours in a work period of fourteen (14) consecutive workdays, will be paid at the rate of one and one-half (1 ½) times the regular rate of pay. Time worked in excess of twelve hours in a workday will be paid double the regular pay rate. PTO will not be considered "hours worked" for purposes of overtime pay.

All overtime hours are noted on the employee's time card, and must be approved by the immediate supervisor in writing.

Unauthorized overtime will be compensated, but will result in a written warning notice to the employee and a copy placed in his/her Personnel File.

Title

Paid Time Off

Policy Statement

Paid Time Off (PTO) is a system that Ararat Home uses that allows all full time employees access to time off from work in a flexible manner for any personal reasons, such as vacation, holidays or short term illness.

Procedure

Employees are entitled to paid time off based upon their years of active service. To accrue PTO 59 ½ hours must be worked during each pay period.

Active service commences with an employee’s first day of work and continues thereafter unless broken by an absence without pay, a leave of absence, or termination of employment. Per diem and part time employees do not accrue paid time off.

Time off must be approved in advance by the Administrator/Executive Director/or the immediate supervisor.

Employees may not “bank” more than 30 working days (240 maximum hours for 8 hours/shift staff. 225 hours for 7.5 hours/shift staff).

Once this cap has been reached, the employee will have to cash out or take accrued paid time off. No further paid time off will accrue until some paid time off is cashed or used.

Employees are encouraged to take a minimum of 5 days of vacation annually. Up to 100% of the total accrued time may be cashed out with the approval of the Executive Director, Administrator and/or their designee.

PTO cash out is normally done with payroll unless prior written approval is given by Executive Director, Administrator or their designee.

Any employee whose employment terminates will be paid for accrued and unused paid time off. Employees on unpaid leave do not accrue paid time off.

		Reviewed/Revised	04/07/09

Title

Leaves of Absence

Policy Statement

Ararat Home may grant leaves of absence (LOA) to employees in certain circumstances.

Procedure

Request any leave in writing as far in advance as possible, keep in touch with your immediate supervisor and payroll personnel during your leave, and give prompt notice of any change in your anticipated return date.

Should an employee request a leave of absence, they must submit a completed LOA form to their immediate supervisor specifying the **reason** for and exact **length** of the leave desired. See Appendix D. The supervisor will communicate the approval/disapproval of the request to the employee in writing.

Leave of absence may be granted to employees for legitimate reasons in certain circumstances. However, such leaves will not be granted in order for employees to engage in other gainful employment with the exception of military or public service.

If your leave expires and you fail to return to work without contacting your supervisor or the payroll person, and no progress report is submitted by the employee by the end of the 90th day of medical LOA Ararat Home will assume that you do not plan to return shall be considered as “voluntary quitting,” and you will be automatically terminated.

LOA/FMLA (Family Medical Leave Act) is considered leave without pay. Employees on leave **will not** continue to accrue **Paid Time Off** during unpaid leave.

A leave of absence may be granted for up to 90 days, with the extension of another 90 days, and must be approved by the supervisor and the Administrator/Executive Director.

		Reviewed/Revised	04/07/09

In the event of medical leave, approval will be granted up to ninety (90) days. Medical leave is considered leave without pay after exhaustion of benefits. A position will be maintained for the employee only if done so will not jeopardize residents' quality of care. If the employee's position can not be held, all attempts shall be made to provide an alternative position. Alternative positions may require an adjustment to the pay rate.

An employee granted a leave of absence in excess of six (6) months must be physically able to return to work and must furnish the department supervisor with a signed and dated physician's statement certifying that the employee is medically and physically able to resume his/her duties.

We encourage the professional growth of our employees related to their existing positions. Educational leave will be granted, not to exceed 2 years, pending approval of the immediate supervisor. Benefits do not accrue during leave.

Jobs vacated by personal leaves will be filled temporarily where possible. However, the organization retains the right to permanently fill these vacancies when it is deemed necessary and in the best interest of the organization.

An employee returning from an approved leave of absence shall be placed in an available position in the following priority:

- (a) On his/her old job;
- (b) On a substantially equivalent job which he/she is capable of performing;
- (c) On a lower job which he/she can satisfactorily perform; or
- (d) On a recall list for one (1) year.

During the period an employee is not actually at work because of having been granted a leave of absence, or because of having been laid-off, employee benefits shall not accumulate. However, seniority of an employee will not be affected.

Health Insurance Premium

Ararat Home will continue to pay for health insurance for employees on leaves of absence up to a maximum of 12 weeks. Employees may continue health insurance plan under the same conditions of coverage as if the employee had continued in employment for the duration of 12 weeks. After that, you may self-pay and pre-pay premiums under the provisions of COBRA. Payroll person can give you additional information.

Title

FMLA (Family Medical Leave Act)

Policy Statement

Ararat Home in accordance with state and federal family and medical Leave laws provides up to 12 workweeks of unpaid family/medical leave within a 12-month period. Any leave taken under this provision that qualifies as leave under the state and/or federal Family and Medical Leave Acts will be counted as family/medical leave and charged to your entitlement of 12 workweeks of family/medical leave in a 12-month period, under the following conditions:

The employee has more than 12 months of service;

The employee has worked at least 1,250 hours during the previous 12-month period before the need for leave; and

The employee is employed at a work site where there are 50 or more employees within a 75-mile radius.

Procedure

Leave may be taken for one or more of the following reasons:

- The birth of the employee’s child, or placement of a child with the employee for adoption or foster care;
- To care for the employee’s spouse, registered domestic partner, child, or parent who has a serious health condition; or
- For a serious health condition that makes the employee unable to perform his or her job.
- For any “qualifying exigency” (to be defined by federal regulation) because the employee is the spouse, son, daughter, or parent of an individual on active military duty (or has been notified of an impending call or order to active duty) in the Armed Forces in support of a contingency operation; or

			Reviewed/Revised
			04/07/09

- An employee who is the spouse, son, daughter, parent, or next of kin of a covered service member shall be entitled to a total of 26 workweeks of leave during a 12-month period to care for the service member.

Calculating the 12-month Period

For purposes of calculating the 12-month period during which 12 weeks of leave may be taken, Ararat Home uses **rolling year**. Under most circumstances, leave under federal and state law will run at the same time and the eligible employee will be entitled to a total of 12 weeks of family and medical leave in the designated 12-month period.

Pregnancy, Childbirth or Related Conditions

However, leave because of the employee’s disability for pregnancy, childbirth or related medical condition is not counted as time used under California law (the California Family Rights Act). Time off because of pregnancy disability, childbirth or related medical condition does count as family and medical leave under federal law (the Family and Medical Leave Act). Employees who take time off for pregnancy disability and who are eligible for family and medical leave will also be placed on family and medical leave that runs at the same time as their pregnancy disability leave. Once the pregnant employee is no longer disabled, she may apply for leave under the California Family Rights Act, for purposes of baby bonding.

Any leave taken for the birth, adoption, or foster care placement of a child does not have to be taken in one continuous period of time. California Family Rights Act leave taken for the birth or placement of a child will be granted in minimum amounts of two weeks. However, Ararat Home will grant a request for a California Family Rights Act leave (for birth/placement of a child) of less than two weeks’ duration on any two occasions. Any leave taken must be concluded within one year of the birth or placement of the child with the employee.

Leave for Employee’s Own Health Condition

The following procedures shall apply when an employee requests family leave:

Please contact your immediate supervisor as soon as you realize the need for family/medical leave.

If the leave is based on the expected birth, placement for adoption or foster care, or planned medical treatment for a serious health condition of the employee or a family member, the employee must notify the organization at least 30 days before the leave is to begin. The employee must consult with his or her supervisor regarding scheduling of any planned medical treatment in order to minimize disruption to the organization’s operations. Any such scheduling is subject to the approval of the health care provider of the employee or the health care provider of the employee’s child, parent, or spouse.

			04/07/09

If the employee cannot provide 30 days' notice, the organization must be informed as soon as practical.

If the Family and Medical Leave Act/California Family Rights Act request is made because of the employee's own serious health condition, Ararat Home may require, at its expense, a second opinion from a health care provider that the organization chooses. The health care provider designated to give a second opinion will not be one who is employed on a regular basis by the organization.

If the second opinion differs from the first opinion, Ararat Home may require, at its expense, the employee to obtain the opinion of a third health care provider designated or approved jointly by the employer and the employee. The opinion of the third health care provider shall be considered final and binding on Ararat Home and the employee.

Ararat Home requires the employee to provide certification within 15 days of any request for family and medical leave under state and federal law, unless it is not practicable to do so. Ararat Home may require recertification from the health care provider if additional leave is required. (For example, if the employee needs two weeks of family and medical leave, but following the two weeks needs intermittent leave, a new medical certification will be requested and required.) If the employee does not provide medical certification in a timely manner to substantiate the need for family and medical leave, the organization may delay approval of the leave, or continuation thereof, until certification is received. If certification is never received the leave may not be considered family and medical leave.

Leave to Care for a Family Member

If the leave is needed for the care of a sick child, spouse, or parent, the employee must provide a certification from the health care provider stating:

- Date of commencement of the serious health condition;
- Probable duration of the condition;
- Estimated amount of time for care by the health care provider; and
- Confirmation that the serious health condition warrants the participation of the employee.

When both parents are employed by Ararat Home, and request simultaneous leave for the birth or placement for adoption or foster care of a child, the organization will not grant more than a combined 12 workweeks of family/medical leave for this reason.

If an employee cites his/her own serious health condition as a reason for leave, the employee must provide a certification from the health care provider stating:

- Date of commencement of the serious health condition;

Subject	Wages and Benefits	Original #	4.08	Page 4 of 6

				Reviewed/Revised
				04/07/09

- Probable duration of the condition; and
- Inability of the employee to work at all or perform any one or more of the essential functions of his/her position because of the serious health condition.

Ararat Home will require certification by the employee’s health care provider that the employee is fit to return to his or her job.

Failure to provide certification by the health care provider of the employee’s fitness to return to work will result in denial of reinstatement for the employee until the certificate is obtained.

Leave Related to Military Service

A leave taken due to a “qualifying exigency” related to military service must be supported by a certification of its necessity. A leave taken due to the need to care for a service member shall be supported by a certification by the service member’s health care provider.

Health and Benefit Plans

An employee taking family medical leave will be allowed to continue participating in any health and welfare benefit plans in which he/she was enrolled before the first day of the leave (for a maximum of 12 workweeks) at the level and under the conditions of coverage as if the employee had continued in employment for the duration of such leave. Ararat Home will continue to make the same premium contribution as if the employee had continued working. The continued participation in health benefits begins on the date leave first begins under Family and Medical Leave Act (i.e. for pregnancy disability leaves) or under the Family and Medical Leave Act/California Family Rights Act (i.e. for all other family care and medical leaves). In some instances, the organization may recover from an employee premiums paid to maintain health coverage if the employee fails to return to work following family/medical leave.

Employees on family/medical leave who are not eligible for continued paid coverage may continue their group health insurance coverage through Ararat Home in conjunction with the federal COBRA guidelines by making monthly payments to the health insurance provider for the amount of the applicable premium. Employees should contact their supervisor for further information.

Payment is due when it would be made by payroll deduction.

Reinstatement

Under most circumstances, upon return from family/medical leave, an employee will be reinstated to his or her original job or to an equivalent job with equivalent pay, benefits, and other employment terms and conditions. However, an employee has no greater right to reinstatement than if he or she had been continuously employed rather than on leave. For example, if an employee on family/medical leave would have been laid off had he or she not gone on leave, or if the employee’s job is eliminated during the leave and no

			04/07/09

equivalent or comparable job is available, then the employee would not be entitled to reinstatement. In addition, an employee’s use of family/medical leave will not result in the loss of any employment benefit that the employee earned before using family/medical leave.

Reinstatement after family/medical leave may be denied to certain salaried “key” employees under the following conditions:

- An employee requesting reinstatement was among the highest-paid 10 percent of salaried employees employed within 75 miles of the work site at which the employee worked at the time of the leave request;
- The refusal to reinstate is necessary because reinstatement would cause
- substantial and grievous economic injury to the organization's operations;
- The employee is notified of the organization’s intent to refuse reinstatement at the
- time the organization determines the refusal is necessary; and
- If leave has already begun, the organization gives the employee a reasonable opportunity to return to work following the notice described previously.

For additional information about eligibility for family/medical leave, contact the Executive Director, Administrator or his/her designee.

Time Accrual

Employees on Family and Medical Leave Act/California Family Rights Act leave **will not** continue to accrue **paid time off** during unpaid Family and Medical Leave Act/California Family Rights Act leave.

Carryover

Leave granted under any of the reasons provided by state and federal law will be counted as family/medical leave and will be considered as part of the 12-workweek entitlement in a 12-month period. The 12-month period is measured forward from the date any employee’s first Family and Medical Leave Act leave begins. Successive 12-month periods commence on the date of an employee’s first use of such leave after the preceding 12-month period has ended. No carryover of unused leave from one 12-month period to the next 12-month period is permitted.

Intermittent Leave

Employees may take Family and Medical Leave Act/California Family Rights Act leave intermittently (in blocks of time, or by reducing their normal weekly or daily work

Policy #	4.07	Original #	Page 1 of 2
Title	Pregnancy Disability Leave	Original Date 09/30/08	Revision Date 09/30/08

Title

Pregnancy Disability Leave

Policy Statement

Pregnancy, childbirth, or related medical conditions will be treated like any other disability, and an employee on leave will be eligible for temporary disability benefits in the same amount and degree as any other employee on leave.

Procedure

Any female employee planning to take pregnancy disability leave should advise the immediate supervisor as early as possible. The individual should make an appointment with the payroll person and their immediate supervisor to discuss the following conditions:

- Employees who need to take pregnancy disability must inform Ararat Home when a leave is expected to begin and how long it will likely last. If the need for a leave or transfer is foreseeable, employees must provide notification at least 30 days before the pregnancy disability leave or transfer is to begin. Employees must consult with the payroll person and immediate supervisor regarding the scheduling of any planned medical treatment or supervision in order to minimize disruption to the operations of the organization. Any such scheduling is subject to the approval of the employee’s health care provider;
- If 30 days’ advance notice is not possible, notice must be given as soon as practical;
- Upon the request of an employee and recommendation of the employee’s physician, the employee’s work assignment may be changed if necessary to protect the health and safety of the employee and her child;
- Requests for transfers of job duties will be reasonably accommodated if the job and security rights of others are not breached;
- Temporary transfers due to health considerations will be granted when possible. However, the transferred employee will receive the pay that accompanies the job, as is the case with any other temporary transfer due to temporary health reasons;
- Pregnancy leave usually begins when ordered by the employee’s physician. The employee must provide the immediate supervisor with a certification from a

- health care provider. The certification indicating disability should contain:
 - The date on which the employee became disabled due to pregnancy;
 - The probable duration of the period or periods of disability; and
 - A statement that, due to the disability, the employee is unable to perform one or more of the essential functions of her position without undue risk to herself, the successful completion of her pregnancy, or to other persons.
- Leave returns will be allowed only when the employee’s physician sends a release;
- An employee will be allowed to use accrued PTO during a pregnancy disability leave; and
- Duration of the leave will be determined by the advice of the employee’s physician, but employees disabled by pregnancy may take up to four months. Part-time employees are entitled to leave on a pro rata basis. The four months of leave includes any period of time for actual disability caused by the employee’s pregnancy, childbirth, or related medical condition. This includes leave for severe morning sickness and for prenatal care.

Leave does not need to be taken in one continuous period of time and may be taken intermittently, as needed. Leave may be taken in increments of a day.

Under most circumstances, upon submission of a medical certification that an employee is able to return to work from a pregnancy disability leave, an employee will be reinstated to her same position held at the time the leave began or to an equivalent position, if available. An employee returning from a pregnancy disability leave has no greater right to reinstatement than if the employee had been continuously employed.

Title	Coordination of PDL with FMLA	Original Date 04/14/09	Revision Date 04/14/09

Title

Coordination of Pregnancy Disability Leave (PDL) with Family/Medical Leave

Policy Statement

If you take pregnancy disability leave (PDL) and are eligible under the federal or state family and medical leave laws, Ararat Home will maintain group health insurance coverage for up to a maximum of 12 workweeks (of such insurance was provided before the leave was taken) on the same terms as if you had continued to work.

Procedure

Leave taken under the pregnancy disability policy runs concurrently with family and medical leave under federal law, but not family and medical leave under California Law.

If you are ineligible under the federal and state family and medical leave laws, while on pregnancy disability you will receive continued paid coverage on the same basis as other medical leave that the organization may provide and for which you are eligible. In some instances, the organization may recover premiums it paid to maintain health coverage for you if you fail to return to work following pregnancy disability leave.

If you are on pregnancy disability leave and are not eligible for continued paid coverage, or if paid coverage ceases after 12 workweeks, you may continue your group health insurance coverage through Ararat Home in conjunction with federal COBRA guidelines by making monthly payments to the Health Insurance Provider for the amount of the relevant premium. Contact the personnel manager for further information.

Bereavement Leave

Policy Statement

Ararat Home grants employees funeral/bereavement leave as set forth below.

Procedure

Full status employees, may be granted up to three (3) days of leave time, with pay, in the event of a death in the employee’s immediate family. Note: for purpose of this policy, “immediate family” is defined as a current spouse, registered domestic partner, child, parent, legal guardian, brother, sister, grandparent or grandchild, mother-in-law and father-in-law. An employee with such a death in the family may take up to 3 days consecutive scheduled workdays off with pay with the approval of the organization. The employee’s supervisor may approve additional unpaid time off.

Requests for funeral/bereavement leave must be made to the employee’s supervisor.

Should an employee need more time to make funeral arrangement or to travel to and from the funeral because of distance, the employee by be provided with the three (3) days funeral/bereavement leave and permitted to utilize PTO days or placed on unpaid LOA for the remaining time needed.

Payroll Deductions/Payday/Garnishments

Policy Statement

Ararat Home has established regular pay periods, to comply with all Federal and State tax and withholding tax laws, and also to authorize additional payroll deductions when warranted.

Procedure

Ararat Home shall withhold from each employee’s salary/wages, all state and federally mandated tax withholdings. All employees shall complete the necessary forms for payroll deductions at the time of hiring. It is the responsibility of the employee to notify the Business Office of any change in withholding deductions.

Additional payroll deductions may be made for: Health insurance coverage for dependents, tax sheltered annuity plans. Arrangements shall be made through the Department Supervisor and Payroll Personnel for processing these deductions.

All withholdings and deductions shall be noted on the employee’s paycheck stub as record.

Ararat Home will deduct from the employee’s paycheck, any court or state ordered garnishment for an employee’s debt, as required by law.

The employee shall be notified **in writing** that the facility has received a court ordered claim against his/her wages.

Salary/wages withheld to cover garnishment shall be noted on the employee’s paycheck stub.

Ararat Home pay period begins on Monday and ends at midnight on Sunday, two weeks later.

Group Health Care Benefit Plan

Policy Statement

It is the policy of Ararat Home to participate in a group health care benefit plan, which includes medical, vision, dental, and retirement plans to offer coverage to full status employees and their qualified dependents.

Procedure

Ararat Home shall offer the health care benefit plan to full status licensed and supervisory employees who have reached their benefit date. The health care benefit coverage will be effective the 1st day of the next month following their benefit date. If the employee chooses not to participate he/she will not be eligible to participate until the next scheduled open enrollment date for the facility.

Employees shall be required to provide documentation and complete paperwork as required by the health care benefit provider, in order to receive benefits.

Ararat Home reserves the right to change insurance carriers as deemed necessary by the Board of Trustees or their Designee.

If Ararat Home offers multiple health care plans as part of its benefit package, employees may switch plans only on the open enrollment date. Open enrollment will be held annually, and scheduled by the Administrator/ Executive Director.

After 3 months of appraisal period, Ararat Home will pay 100% of the premium for Registered Nurses and Licensed Vocational Nurses. Non-licensed full time employees may participate in the health care plan as desired; Ararat Home will pay 50% of the premium cost. If the employee wishes to have dependent coverage as well, the employee is responsible for the entire cost of dependent coverage. Employee premium payments for any insurance costs will be withheld from the employee's paycheck. Upon completion of ten years of service Ararat Home will pay 100% of the premium of the health care plan for all full time employees.

Title

Voting Time Off

Policy Statement

It is the policy of Ararat Home to allow personnel time off to vote.

Procedure

It is the right of every person to vote. Our organization encourages all personnel to exercise this right.

Voting stations open early and close late. Therefore, we request that employees schedule their voting time so as not to interfere with their work time.

Personnel required to work during voting hours will be given time off, with pay, to vote. Such requests must be approved by the department director and noted on the employee's time card.

Personnel authorized to take time off to vote will be permitted to arrive at work one (1) hour late or to leave work one (1) hour early. The department director must initial the employee's time card to indicate that such leave time was for voting time. The employee will be paid for the full shift. (NOTE: The organization reserves the right to verify whether or not the employee voted.)

Title

Workers Compensation and Industrial Injury

Policy Statement

Ararat Home in accordance with state law provides insurance coverage for employees in case of work-related injury. This may include: Medical care, indemnities payments, to replace lost wages, and assistance to help qualified injured employees return to suitable employment.

Procedure

To ensure that you receive any workers' compensation benefits to which you may be entitled, you will need to:

- Immediately report any work-related injury to your supervisor;
- Seek medical treatment and follow-up care if required;
- Complete a written Employee's Claim Form (DWC Form 1) and return it to the Administrator/Executive Director or his/her designee and provide the supervisor or his/her designee with a certification from your health care provider regarding the need for workers' compensation disability leave, and as well as your eventual ability to return to work from the leave.

Upon submission of a medical certification that an employee is able to return to work after a workers' compensation leave, the employee under most circumstances will be reinstated to his or her same position held at the time the leave began, or to an equivalent position, if available. An employee returning from a workers' compensation leave has no greater right to reinstatement than if the employee had been continuously employed rather than on leave. For example, if the employee on workers' compensation leave would have been laid off had he or she not gone on leave, or if the employee's position has been eliminated or filled in order to avoid undermining the organization's ability to operate safely and efficiently during the leave, and no equivalent or comparable positions are available, then the employee would not be entitled to reinstatement.

Policy # 5.00	Original # 5.03/5.02	Page 2 of 3	
Title: Workers Compensation and Industrial Injury	Original Date 06/17/88	Revision Date	12/31/04
		Reviewed/Revised	09/30/08
		Reviewed/Revised	09/01/09
		Reviewed/Revised	07/01/11

An employee's return depends on his or her qualifications for any existing openings. If, after returning from a workers' compensation disability leave, an employee is unable to perform the essential functions of his or her job because of a physical or mental disability, the organization's obligations to the employee may include reasonable accommodation, as governed by the Americans with Disabilities Act.

Organization-Provided Physician

Ararat Home provides medical treatment for work-related injuries through a medical provider network, which the organization has chosen to provide medical care to injured employees because of their experience in treating work-related injuries.

The law requires Ararat Home to notify the workers' compensation insurance company of any concerns of false or fraudulent claims.

Workers' Compensation and FMLA/CFRA

Employees who are ill or injured as a result of a work-related incident, and who are eligible for family and medical leave under state and federal law (Family Medical Leave Act (FMLA) and the California Family Rights Act (CFRA)), will be placed on FMLA/CFRA during the time they are disabled and not released to return to work. The leave under these laws runs concurrently, and eligible employees will be on FMLA/CFRA for a maximum of 12 weeks in a 12-month period

All employees must report all work related injuries within 24 hours of occurrence of the injury. Failure to do so will automatically result in a written warning to be placed in the employee's file.

Paid Time Off and Worker's Compensation Benefits

Paid time off is a benefit that also covers absences for work-related illness or injury. Employees who have a work-related illness or injury are covered by workers' compensation insurance. However, workers' compensation benefits usually do not cover absences for medical treatment. When you report a work-related illness or injury, you will be sent for medical treatment, if treatment is necessary. You will be paid your regular wages for the time you spend seeking initial medical treatment.

Any further medical treatment will be under the direction of the health care provider. Any absences from work for follow-up treatment, physical therapy or other prescribed appointments will not be paid as time worked. If you have accrued PTO, the additional absences from work will be paid with the use of PTO.

An employee injured while on duty at the facility shall be compensated according to the schedule of payments defined in the Worker's Compensation Act, for time lost provisions of the Act.

The facility Executive Director or Administrator shall be responsible for compliance with the Workman's Compensation Law.

Policy #	7.11	Original #	7.12
Title	Preventing Health Care Fraud	Original Date	11/21/06
		Revision Date	07/27/09

Title

Preventing Health Care Fraud

Policy Statement

Ararat Home will ensure that all employees understand the process of reporting possible Medicaid/Medi-Cal or Medicare fraud. Under the Deficit Reduction Act 2005, all employees must understand the laws regarding false claims, as well as their rights to report any attempts to defraud the government.

Procedure

Federal False Claims Act

The False Claims Act allows any person, who discovers that a government contractor or organization is fraudulently receiving funds from the government, to report the fraud and possibly file a complaint on behalf of the government.

Any health care agency that seeks and received reimbursement from the government for Medi-Cal or Medicare funds are considered government contractors, and are therefore subject to the False Claims Act. There are a number of ways that a health care provider can violate the False Claims Act, including, but not limited to:

- a. Knowingly billing for a service that was not rendered;
- b. Knowingly including an item of cost in a "cost report" that was not incurred or cannot be justified;
- c. Misrepresenting the types of goods and services that were rendered;
- d. Misrepresenting the nature of the recipient's illness or condition; or,
- e. Providing care of such a substandard nature that it is the equivalent of a "worthless service."

Filing A Complaint

When a private citizen brings a claim on behalf of the government, it is known as a qui tam lawsuit. The False Claims Act does not require a person to report the fraud to the government before filing a lawsuit. If the government or another private citizen already filed a qui tam lawsuit, then you are barred from filing a lawsuit.

Subject	General Policies		
Policy #	7.11	Original #	7.12
Title	Preventing Health Care Fraud	Original Date	11/21/06
		Revision Date	07/27/09

If a private citizen chooses to file a qui tam complaint, it must be done in a federal district court, and a copy of the complaint must be sent to the Attorney General of the United States. The most important part of filing a qui tam complaint is that it must be done under seal.

Confidentiality with false claims is extremely important. The complaint cannot be served on the defendant until the court grants permission to do so. Although the complaint remains under seal, the identity of the complainant is revealed to the government at the time that the complaint is filed. The identity of the complainant is not revealed to the defendant until the complaint is unsealed.

Once a qui tam lawsuit is filed, the government can choose not to proceed with the action, but even if this occurs, the private citizen can continue with this offer suit against the defendant.

Penalties

If a provider violated the federal False Claims Act, it is required to pay three times the amount of damages that the government incurred an not less than \$5,500 and not more than \$11,000 in civil penalties. This amount is for each claim.

A whistleblower that brings a qui tam lawsuit for a False Claims Act violation may also collect a monetary award. He or she will only collect a monetary award if the government recovers money from the defendant.

California State False Claims Law

California has its own version of the False Claims Act that is specifically modeled after federal law. As with the federal False Claims Act, California's False Claims law permits any person who discovers that a government contractor or operator is fraudulently receiving funds from the state government to report the fraud and file a complaint on behalf of the government.

Any health care company that seeks and receives reimbursement from the state government for Medi-Cal funds is considered government contractor, and is therefore subject to the state false claims laws. There are a different of ways that an organization can violate state law, including; each of the examples referred to above on the federal False Claims Act.

Subject	General Policies		
Policy #	7.11	Original #	7.12
Title	Preventing Health Care Fraud	Original Date	11/21/06
		Revision Date	07/27/09

Filing a Complaint

As with the federal False Claims Act, if a private citizen brings a claim on behalf of the state government, it is also known as a qui tam lawsuit. When a private citizen chooses to file such a lawsuit for health care fraud on behalf of the state government under state law, it must be done in a state Superior Court, and a copy of the complaint must be sent to the Attorney General of the State of California. As with the federal False Claims Act, the identity of the complainant is not revealed to the defendant. The government can choose not to proceed with the action, but even if this occurs, the private citizen can continue with his or her suit against the defendant.

Penalties

California law provides that a violator of its false claims act if is required to pay three times the amount in damages that the state government incurred. It also provides for civil money penalties up to \$10,000 for each false claim submitted as well as the costs of the suit. As with federal law, a whistleblower bringing a qui tam may also collect a monetary award but only if the government recovers money.

Subject	General Policies		
Policy #	7.12	Original #	7.13
Title:	Detecting Fraud, Waste, and Abuse	Original Date	11/21/06
		Revision Date	

Title

Detecting Fraud, Waste, and Abuse

Policy Statement

Ararat Home has a zero tolerance policy for fraud, waste and abuse. Due to the severe legal and monetary consequences that can result from a violation of any false claims laws, Ararat Home will implement a strict policy that applies to all employees. Ararat Home will provide the government with truthful information regarding the services that are rendered. Ararat Home will not allow its employees or agents to fraudulently misrepresent to the government about the services that it provides.

Procedure

All employees are required to report to the Executive Director, Administrator or his/her designee about any possible fraud, waste or abuse as soon as he or she becomes aware of them.

All reports of fraud, waste or abuse will be handled as confidentially as possible.

Reporting possible fraud, waste or abuse to Ararat Home will not preclude the employee from directly reporting it to the government. However, Ararat Home would prefer to handle the matter internally before getting outside entities involved.

An employee who reports possible fraud will be contacted during the investigation and corrective action will be taken where appropriate.

Every report of perceived fraud, waste or abuse will be fully investigated and corrective action will be taken where appropriate.

Violation of this policy will result in disciplinary action.

Ararat Home will not allow any form of retaliation against employees who report possible fraud or false claims to the Executive Director, Administrator or his/her designee or who cooperation the investigation of such reports.

If an employee chooses to report the abuse directly to the government, she/he will not be retaliated or discriminated against any way by Ararat Home.

Subject	General Policies		
Policy #	7.12	Original #	7.13

Employee Personnel Files

Policy Statement

Ararat Home maintains a personnel record for each employee containing all information required by law.

Procedure

When a new employee is hired, the Executive Director, Administrator, and/or the In-Service Educator, Dietary Supervisor, and Plant Manager shall prepare a Personnel file for the employee. This will include three (3) separate files, personnel, educational, health files.

Personnel file will include:

- The employee's full name
- Social security number
- Documentation for citizenship or immigration status
- Copy of completed INS employment eligibility form
- Copy of professional license
- Completed application form
- Copies of any resumes and letters of recommendation
- Emergency contact information

Educational File will include:

- Documentation of evidence of orientation
- Letter of appointment with job description
- Employee orientation signoff sheet

Health File will include:

- Health record
- Report of pre-employment interview/testing results

The following information will be added to the personnel, educational and health files during the course of employment:

- Evidence of annual health examination
- Any completed performance evaluation
- Documentation for any salary step increases, status changes, or promotions.

- Copies of any new job description of promotions
- Copies of any written warning forms
- Notes from any verbal warning
- Employee accident/incident reports
- Documentation of all benefits received
- Documentation of sick leave time
- Documentation of continuing education courses
- Documentation of grievances
- Exceptional performance, including Citations for outstanding effort

The immediate supervisor will maintain and update the personnel files, educational, and health files. All files will be kept in the supervisor's office in designated file cabinets and shall be accessible only to authorized persons. Personnel files for terminated employees are kept separately from current employment records.

If an employee has questions regarding his/her files, a request may be made to his/her immediate supervisor to inspect it. The employee may not remove any information from the file, but may inform the supervisor of any information he/she believes inaccurate, or contest any information kept within through normal grievance procedure.

All other authorized persons wishing to see personnel files, shall request permission from the Executive Director/ Administrator. The Business Office staff does not have authority to grant such requests. In general, authorized persons shall include: The Executive Director/Administrator, the Board of Trustees and their representatives, and representatives of the Department of Health or other government agencies required by law to have access to such files.

All employee personnel files shall be retained in the facility for a minimum of seven (7) years following the last dated entry.

Title

E-Mail

Policy Statement

Ararat Home allows employees to use electronic mail (E-Mail), both internally and externally, to more efficiently communicate the facility's business needs.

Procedure

Immediate supervisors delegate the education of employees about the proper use of the E-Mail system.

The company's E-Mail system is to be used for business purposes. Therefore, under normal circumstances, an employee should not use the company's E-Mail system for personal purposes.

E-Mail messages received and transmitted by company employees on company equipment are the property of the company. Therefore, the company has the right to access and monitor any such messages. Each employee whose E-Mail messages may be accessed or monitored by the company will be requested to sign a consent form which authorizes the company to access and monitor that employee's messages.

An employee may be disciplined for using the company's E-Mail system in an improper way. Improper use of the E-Mail system includes, but is not limited to, using the system for personal purposes; using the system for harassing, insulting, offending, or threatening purposes; and using the system for any unlawful purpose.

Title

Grievances/Terminations

Policy Statement

Ararat Home provides a grievance procedure to allow employees adequate and just recourse in airing grievances, and achieve prompt resolution.

Procedure

Employees must comply with each step of this procedure in order to have their grievance reviewed.

Employees shall initially discuss grievances with their immediate supervisor.

If there is still no resolution, the employee may bring their grievance through the levels of management at Ararat Home up to the level of Executive Director/Administrator. All relevant notes and materials shall be maintained in the employee's personnel file.

If there is still no resolution, the employee's final recourse is with the Human Resources Committee of the Board of Trustees. The Committee will hear all relevant testimony and evidence, from the employee and staff. The decision of the Committee will be final.

Title

Disciplinary Action

Policy Statement

It is the policy of Ararat Home is to enforce disciplinary action if the policy, procedures, or standards of conduct are violated by an employee.

Procedure

Disciplinary action can take several forms, depending upon the severity of the infraction or multiple occurrences of the offense.

Verbal Notification: An employee may be called into conference with his/her supervisor, and the matter discussed and policy or conduct reviewed. Three verbal reprimands will constitute a written reprimand.

Notice of Disciplinary Action: Formal written notice given to an employee including a description of the misconduct and corrective action plan shall constitute a Notice of Disciplinary Action. One copy shall be delivered to the employee, and a second copy shall be retained in the employee’s file. The employee shall sign copies to formally acknowledge receipt of the written Notice of Disciplinary Action. Three written Notice of Disciplinary Actions may warrant a suspension or termination based upon the outcome of the 3rd written Notice of Disciplinary Action.

Suspension: An employee, who has not complied with a policy or procedural requirement of the Ararat Home, may be suspended, or placed on mandatory leave of absence without pay, until the policy or procedural requirement is fulfilled.

Termination: Employment may be terminated as a final disciplinary action, if warnings have not resulted in improved performance and corrective action by the employee, or if the nature of an employee’s infraction of a policy, procedure, or code of conduct is severe enough to warrant such action.

In addition, any employee who does not report to duty as scheduled, without former knowledge of the assigned unit (No Show), may be terminated automatically.

Title	Terminations & Resignations	Original Date	06/17/88	Revision Date	12/31/04
				Revision Date	11/04/08

Title

Terminations Voluntary/ Involuntary & Resignations

Policy Statement

Ararat Home has defined procedures to be followed in the event of an employee termination, to protect the rights of both the employee and organization. Ararat Home shall comply with all fair employment practices with regard to the termination of employees.

Procedure

Termination shall comply with the following procedure:

Resignation: Occurs when an employee resigns his/her position with the Ararat Home.

The employee shall submit a formal letter of resignation and shall indicate his/her last day of work. Ararat Home requires at least 2 weeks notice of intent to resign. If 2 weeks notice is not given the employee is not eligible for rehire.

Employees resigning shall be paid the balance of salary due within 48 hours of the last day worked. The employee shall receive an accounting of any accrued PTO benefits, and shall receive payment for benefit time included in the last pay check.

It is not the policy of Ararat Home to pay severance pay to resigned employees. Special exception may be made with the approval of the Executive Director and/or the Administrator.

Involuntary termination: Occurs when an employee's conduct or performance has warranted three disciplinary actions. Involuntary termination shall occur when repeated verbal and written warnings have failed to show marked improvement in the areas of deficiency.

A supervisor shall recommend termination to the Executive Director/Administrator, who shall review the case and take the disciplinary action.

Subject	Employee Grievances		
Policy #	10.2	Original #	10.3
Title	Terminations & Resignations	Original Date	06/17/88
		Revision Date	12/31/04

Terminated employees shall receive a written notice of termination, and shall receive the balance of salary due at the time of termination. The employee shall also receive their accrued PTO at the time of termination.

Any employee who feels they have been wrongfully terminated has recourse through the grievance procedure of Ararat Home.

All terminated employees shall return all Ararat Home material, including Id badge, keys, etc. Materials not returned shall result in salary withholdings to cover the cost incurred by the Ararat Home as a result of the employee's failure to do so. In the case of keys and security clearance materials, the employee's final paycheck shall be held until the return of materials.

Immediate termination may occur following proof of sexual harassment, abuse or fraud.

Terminated employee, previously receiving medical insurance coverage through the Ararat Home may elect to continue coverage by following the procedures policies under COBRA.

Ararat Nursing Facility

Job Description #2.03	Title: Administrator
Immediate Supervisor: Executive Director	Original Date: 06/18/88 Revision Date: 03/01/07 Revision Date: 05/27/08 Revision Date:07/19/09

Purpose of Position:

To supervise the day-to-day operations of the facility in accordance with current federal, state, and local standards, guidelines, and regulations that govern long-term care facilities and as directed by the Executive Director to assure that the highest degree of quality care is maintained at all times.

Duties and Responsibilities; Administrator:

- Assist in planning, developing, organizing, implementing, directing and monitoring the day-to-day functions of the facility, its programs and activities.
- Assist in developing and implementing written policies and procedures that govern the operation of the facility.
- Assist in developing and maintaining written job descriptions for each staff position in accordance with the Americans with Disabilities Act, OSHA, and other pertinent laws governing job positions.
- Assist department directors in the development and use of departmental policies and procedures, and establish a rapport in and among departments so that each can realize the importance of team work.
- Review the facility's policies and procedures periodically, at least annually, and make recommendations to assure continued compliance with current regulations.
- Interpret the facility's policies and procedures to employees, residents, family members, visitors, government agencies, etc., as necessary.
- Ensure that public information (policy manuals, etc.) describing the services provided in the facility is accurate and fully descriptive.
- Ensure that all employees, residents, visitors, and the general public follow established policies and procedures.
- Represent the facility in dealings with outside agencies, including governmental agencies and third party payers, or delegate a representative of the facility when unable to attend such meetings.
- Make written and oral reports/recommendations to the Executive Director concerning the operation of the facility.
- Recommend to the Executive Director changes in the overall organizational structure.
- Assist in reviewing and approving the implementing of new procedures and organizational plans within each department.
- Actively participate in facility surveys (inspections) made by authorized regulatory government agencies.

- Review and develop a plan of correction for deficiencies noted during survey inspections and provide a written copy of such plan to the appropriate governmental agency and the Executive Director.
- Maintain liaison with families and residents.
- Maintain a good public relations program that serves the best interest of the facility and community alike.
- Serve on various committees of the facility (i.e., Infection Control, PIQI, Safety, etc., and provide written/oral reports).
- Recruit and select competent staff.
- Delegate responsibility, and accountability to staff as deemed necessary to perform their assigned duties.
- Work with the facility's consultants as necessary and implement recommended changes as approved by the Executive Director.
- Attend and participate in workshops, seminars, etc., to keep abreast of current changes in the long-term care field, as well as to maintain a professional status.
- Report to the Executive Director information/knowledge obtained in seminars/meetings.
- Create and maintain an atmosphere of warmth, personal interest, and positive relationship, as well as a calm environment throughout the facility.
- Assist in preparing an annual operating budget.
- Review and interpret monthly financial statements and provide feedback to the Executive Director.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- Must possess as a minimum of Bachelor of Arts/Science degree in Business, Health Care Management, or Nursing.
- Must possess a minimum two years of experience in long term care setting.
- Must have a current license as a Nursing Home Administrator with the California State Board.

Ararat Nursing Facility

Job Description #2.13	Title: Director of Clinical Services
Immediate Supervisor: Executive Director	Original Date: 06/18/88 Revision Date: 10/03/05 - May 2011

Purpose of Position:

To plan, organize, develop and direct Nursing Services in accordance with current federal state, and local standards, guidelines, and regulations that govern our facility, and as may be directed by the Executive Director, to ensure that the highest degree of quality care is maintained at all times.

Typical Duties and Responsibilities; Director of Clinical Services:

- Develop, maintain, and periodically update the Nursing Services Manual and nursing service objectives and philosophy.
- Determine staffing needs and assure scheduling is done accordingly.
- Employ nursing personnel and conduct performance appraisals.
- Ensure that departmental disciplinary action is administered without regard to race, color, creed, national origin, age, sex, religion, handicap, or marital status.
- Provide leadership for Nursing Services.
- Provide the Executive Director with information relative to the needs of residents.
- Review complaints and grievances made by the resident/family and make a written/oral report of the investigation results to the Executive Director.
- Attend IDT care conferences.
- Participate in PIQI activities.
- Coordinate medical staff grand rounds and assure that they are conducted in a timely and professional manner.
- Make recommendations for terminations.
- Attend and participate in professional associations and programs to keep abreast of current regulations and guidelines as well as learn new skills.
- Maintain the confidentiality of personnel as well as all resident care information. Comply with Resident Rights and HIPAA requirements.
- Build and maintain positive relationships with residents, family, and staff.
- Conduct performance appraisals of nursing personnel.
- Communicate with families and follow up with resident care related issues.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency condition (i.e. severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by Supervisor.

Qualifications:

- Must have, as a minimum, 2 year(s) experience in a supervisory capacity, in all aspects of facility maintenance i.e. electrical, plumbing, HVAC, landscaping etc.
- Must be knowledgeable about boilers, compressors, generators, etc., as well as various mechanical, electrical and plumbing systems.
- Must have the ability to read and interpret blueprints.
- Must be knowledgeable in building codes and safety regulations.
- Must possess the ability to make independent decisions when circumstances warrant such action.

Ararat Nursing Facility

Job Description #2.09	Title: RCC Coordinator
Immediate Supervisor: Director of Clinical Services	Original Date: 06/18/88 Revision Date: 12/31/04 – May – 2007 May 2011

Purpose of Position:

To provide direct nursing care to the residents, and to supervise the day-to-day care giver activities performed by nursing assistants. Such supervision must be in accordance with current federal, state, and local standards, guidelines, and regulations that govern our facility, and as may be required by the Director of Clinical Services or Nurse Supervisor to ensure that the highest degree of quality care is maintained at all times.

Duties and Responsibilities; RCC Coordinator:

- Meet with assigned nursing staff, support personnel, in planning the shifts' services, programs, and activities.
- Ensure that the Nursing Service Procedures Manual is current and reflects the day-to-day nursing procedures performed by personnel in this facility.
- Cooperate with other resident services when coordinating nursing services to ensure that the resident's total regimen of care is maintained.
- Participate in the facility's quality assurance program for the nursing service department.
- Participate in facility surveys (inspections) made by authorized government agencies as may be requested.
- Admit, transfer, and discharge residents as required. Complete all necessary forms.
- Perform administrative duties such as completing medical forms, reports, evaluations, studies, charting, etc., as necessary.
- Administer medications to residents safely and responsibly.
- Chart nurses' notes in an informative and descriptive manner that reflects the care provided to the resident, as well as the resident's response to the care.
- Fill out and complete accident/incident reports. Submit to Director as required.
- Ensure that an adequate supply of floor stock medications, supplies, and equipment are on hand. Report needs.
- Ensure that narcotic records are accurate for the areas of responsibility at the beginning and end of shift. Any discrepancy is to be reported immediately to supervisor.
- Participate in employee performance evaluations.
- Report absentee to appropriate personnel.
- Make daily rounds of station, provide leadership to nursing personnel.
- Receive/give the nursing report upon reporting in and ending shift duty hours.
- Make rounds and follow-up with physicians as necessary.
- Notify the resident's attending physician and next-of-kin when there is a change in the resident's condition.

- Provide basic nursing care.
- Inform family members of the death of the resident.
- Ensure that all personnel wear and/or use safety equipment and supplies (e.g., back brace, mechanical lifts, etc.) when lifting or moving residents.
- Monitor nursing procedures to ensure that nursing service supplies are used in an efficient manner to avoid waste.
- Review care plans daily to ensure that appropriate care is being rendered. Inform the Resident Care Planner of any changes that need to be made on the care plan.
- Ensure that nurses' notes reflect that the care plan is being followed when administering nursing care or treatment.
- Review resident care plans for appropriate resident goals, problems, approaches, and revisions based on nursing needs.
- Schedule and monitor performance of CNAs assigned.
- Monitor nursing care to ensure that all residents are treated fairly, and with kindness, dignity, and respect.
- Report and investigate all allegations of resident abuse and/or misappropriation of resident property.
- Ensure that nursing staff personnel honor the resident's refusal of treatment request.
- Attend and participate in continuing education programs designed to keep you abreast of changes in profession, as well as to maintain your license on a current status.
- May work other than normal working hours and on weekends and holidays when necessary, as well as in other positions as needed.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Maintains confidentiality of personnel as well as resident care information.
- Any other duties assigned by supervisor

Qualifications:

- Must possess a current, active license to practice as an RN or /LVN in the state of California.
- Must be able to read, write, speak, and understand the English language.

Ararat Nursing Facility

- Serve on, participate in, and attend various other committees of the facility as assigned. Provide written and/or oral reports of the resident assessment/care plan functions as requested or directed by committees or supervisor.
- Work with the Interdisciplinary Care Plan Team in developing a comprehensive care plan for each resident.
- Develop in a timely manner a written plan of care (preliminary and comprehensive) for each resident that identifies the problems/needs of the resident, indicates the care to be given, goals to be accomplished, and which professional service is responsible for each element of care.
- Meet with families to identify resident's life style issues/needs for the initiation of an individualized care plan.
- Inform all assessment team members of the requirements for accuracy and completion of the resident care plan.
- Assist the nursing staff in encouraging the resident and his/her family to participate in the development and review of the resident's plan of care.
- Conduct weekly clinical rounds with the psychiatrist and communicate the effectiveness of Behavioral Management Interventions as identified at IDT meetings.
- Attend and participate in workshops and seminars to keep abreast of current changes in the health care field.
- Assist Resident Assessment Coordinator with CATs (Care Area Triggers) completion.

- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- Must possess a current, active license to practice as a LVN in the state of California.
- Must have, as a minimum, 2 year(s) of experience as a charge nurse in a hospital, long-term care facility, or other related health care facility.

Ararat Nursing Facility

Ararat Nursing Facility

Job Description #2.30	Title: Resident Assessment Coordinator
Immediate Supervisor: Executive Director	Original Date: 06/18/88 Revision Date: 12/31/04 August 2009 May 2011/ October 2011

Purpose of Position:

To conduct and coordinate the development and completion of the resident assessment (MDS) in accordance with current rules, regulations, and guidelines that governs the resident assessment, including the implementation of Care Area Triggers (CATs).

Duties and Responsibilities; Resident Assessment Coordinator:

- Coordinate the entire MDS assessment process.
- Maintain and periodically update written policies and procedures that govern the development, use, and implementation of the resident assessment (MDS) and care plan.
- Perform MDS duties such as completing medical forms, reports, evaluations, studies, etc, as necessary.
- Participate in facility surveys (inspections) made by authorized government agencies.
- Serve on, participate in, and attend various other committees of the facility as assigned. Provide written and/or oral reports of the resident assessment/care plan functions as requested or directed by committees.
- Work with the Interdisciplinary Care Plan Team in developing a comprehensive resident assessment and care plan for each resident. Conduct and schedule the Interdisciplinary Team Care Conferences.
- Assist in the timely development of a written plan of care (preliminary and comprehensive) for each resident that identifies the problems/needs of the resident, indicates the care to be given, goals to be accomplished, and which professional service is responsible for each element of care.
- Inform all assessment team members of the requirements for accuracy and completion of the resident assessment.
- Assist the nursing staff in encouraging the resident and his/her family to participate in the development and review of the resident's plan of care.
- Attend and participate in workshops and seminars to keep abreast of current changes in the health care field.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- Must possess a current, active license to practice as a LVN/RN in the state of California. MDS certification is preferable.
- Must have, as a minimum, 2 year(s) of experience as a supervisor in a hospital, long-term care facility, or other related health care facility.
- Must have, as a minimum, 3 months training experience in rehabilitative and restorative nursing practices.

Ararat Nursing Facility

Job Description #2.31	Title: Restorative Nursing Assistant
Immediate Supervisor: Director of Clinical Services	Original Date: 06/18/88 Revision Date: 12/31/04/August 2009/ October 2011

Purpose of Position:

To perform restorative nursing procedures that maximize the resident's existing abilities, emphasize independence, and minimize the negative effects of disability with an attitude of realistic optimism under the supervision of the Director of Clinical Services and in accordance with federal state and local standards, guidelines and regulations.

Duties and Responsibilities; Restorative Nursing Assistant:

- Provide restorative nursing care as directed and ordered (i.e. feeding, active and passive range of motion, ambulation, and transfers).
- Provide activities of daily living (bathing, showering, grooming, toileting, etc.)
- Provide a safe environment for residents during exercises and assist in designing living environment to provide optimum comfort and safety.
- Prepare resident for treatment by dress/position and provide exercises as ordered.
- Assist in transporting resident to and from therapy room/area. Perform exercises in the resident's room if necessary.
- Reassure resident before and during exercise session and provide instruction and supervision during exercise.
- Report and document any changes in resident's condition and/or severity of limitations to senior team leader immediately.
- Complete weekly restorative summaries. Ensure that all RNA notes are informative and descriptive of the care provided and of the resident's response to the care.
- Identify faulty restorative devices and report to the RNA Team Leader immediately.
- Report residents' condition at interdisciplinary care conferences.
- Function as CNA when requested by immediate supervisor.
- Administer first aid measures as initiated by the Resident Care Coordinator.
- Participate in departmental studies and projects as assigned or that may become necessary.
- Wear and/or use safety equipment and supplies (e.g., back brace, mechanical lifts, etc.) when lifting or moving residents.
- Follow established infection control procedures and universal precautions when performing duties.
- Ensure that the therapy area is maintained in a clean and safe manner for resident comfort and convenience by assuring that necessary equipment and supplies are maintained to perform such duties/services.
- Utilize all department equipment and supplies in an efficient manner that promotes desired outcomes and minimizes waste.

- Attend and participate in in-service training programs.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- Must be able to read, write, speak, and understand the English language.
- Must possess the ability to deal tactfully with personnel, residents, family members, visitors, government agencies/personnel, and the general public.
- Must possess a current Certified Nursing Assistant license.

Ararat Nursing Facility

Ararat Nursing Facility

Job Description #2.34	Title: Social Service Designee
Immediate Supervisor: Director of Clinical Services	Original Date: 06/18/88 Revision Date: 12/31/04/August 2009/ October 2011

Purpose of Position:

To assure that the medically related emotional and social needs of the resident are met/maintained on an individual basis in accordance with current existing federal, state, and local standards, as well as the facility established policies and procedures.

Duties and Responsibilities; Social Service Designee:

- Conduct admission interviews to gather pertinent social and emotional information about resident applicants.
- Record pertinent social history on residents' charts in a timely manner, including plans for meeting any needs that have been assessed.
- Document appropriate problems, goals and plans on resident care plans.
- When necessary, implement plans to meet medically related social needs.
- Reassess all residents quarterly after admission, carrying out documented programs.
- Seek assistance from the social work consultant as necessary, as well as staff members and community resources.
- Develop and carry out a discharge plan for each resident, assessing home situation, financial resources, medical needs and community resources. Make appropriate referrals to community resources to ensure continuity of care.
- Participate in regularly scheduled resident care conferences. Serve as an advocate in the protection of resident's rights.
- Coordinate social services on behalf of the resident with nursing, restorative care, and activities via informal communications as well as resident care conferences.
- Provide assistance to families regarding the medically related social needs of residents.
- Perform other functions as identified and delegated by the social work consultant and/or Executive Director within facility policies.
- Label all television, or radios and other electrical devices according to the facility policies.
- Follow-up with lost and found/misplaced personal belongings of residents.
- Schedule and follow-up with optometry, dental, and audio logy consultations.
- Attend and participate in workshops and seminars to keep abreast of current changes in the health care field.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).

- Any other duties assigned by supervisor.

Qualifications:

- High School graduate. College courses or degree in social work preferred.
- Ability to handle confidential data appropriately.
- Ability to accept and utilize professional supervision, consultation and in-service training. Ability to relate appropriately and effectively with patients and their families, with other staff members, and personnel of community agencies.
- Ability to effectively assess medically related social and emotional problems of patients and to utilize facility and community resources.

Ararat Nursing Facility

Ararat Nursing Facility

Job Description #2.36	Title: Treatment Nurse
Immediate Supervisor: Director of Clinical Services	Original Date: 06/18/88 Revision Date: 12/31/04 May 2011

Purpose of Position:

To provide primary skin care to residents under the medical direction and supervision of the residents' attending physicians, the Director of Clinical Services, or the Medical Director of the facility, with an emphasis on treatment and therapy of skin disorders. This position will also assist in modifying the treatment regimen to meet the physical and psychosocial needs of the resident, in accordance with established medical practices, the requirements of the state and the policies and goals of the facility.

Duties and Responsibilities; Treatment Nurse:

- Report to the Director of Clinical Services or designee regarding dermatologic disorders of residents in the facility.
- Consult with the Care Planning Team concerning assessment evaluations and assist in planning and developing the skin care treatment to be performed for the resident.
- Initiate requests for consultation or referral. Respond to requests from the resident, physician, or nursing staff.
- Examine the resident and his/her records and charts, and discriminate between normal and abnormal findings, in order to recognize when to refer the resident to a physician for evaluation, supervision, or directions.
- Complete medical forms, reports, evaluations, studies, charting, etc.
- Implement and maintain established policies and procedures relative to skin care treatments.
- Make written and oral reports/recommendations to the attending physician, Medical Director, or the Director of Clinical Services concerning the status and care of the residents.
- Work with the Interdisciplinary Care Plan Team in developing a comprehensive assessment and care plan for assigned residents.
- Provide written and/or oral status reports of residents that you are treating.
- Identify, manage, and treat specific skin disorders and primary and secondary lesions, such as skin abrasions, foot problems such as corns and callouses, decubitus ulcers, bacterial, parasitic and viral skin infections, scaling papular diseases, and benign tumors.
- Perform an assessment evaluation using techniques including observation, inspection, and palpation.
- Ensure that residents with decubitus ulcers receive appropriate prophylaxis and treatment, such as daily inspection, turning and activity, a well-planned diet, and maintaining a clean, dry bed.
- Provide techniques to prevent skin impairments.

- Assist in monitoring the inventory of medications, medical supplies, and equipment to ensure that adequate supplies of skin care products are on hand to meet the needs of residents.
- Be familiar with and use as appropriate all items of personal protective equipment and universal precautions at all times.
- Wear and/or use safety equipment and supplies (e.g., back brace, mechanical lifts, etc.) when moving or lifting residents.
- Follow all universal infection control procedures.
- Attend and participate in workshops and seminars to keep abreast of current changes in the health care field.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- Must possess a current, active license to practice as an LVN/RN in this state.
- Must have, as a minimum, 2 year(s) of experience as an LVN/RN.

Welcoming Statement

Welcome to Ararat Home of Los Angeles, Inc. We are thrilled that you have chosen us to be your employer. We take great pride in our employees.

As long term care leaders, we are change agents and practice fundamental values of employee empowerment, open communication, innovative interventions, compassion, and collaboration among all disciplines.

We are in an environment whose foundation is based on caring for our elderly residents. Our goal is to provide the best possible quality of care for our residents in a compassionate and caring atmosphere.

We work hard as a team continuously striving for excellence to reach higher horizons and to make a significant difference in the lives of our residents.

No policy in this Human Resource Manual or any other policy which may later be added to this manual creates a contract, either expressed or implied.

Ararat Home reserves the right to alter, amend, modify, delete, add to, and /or eliminate, in whole or in part, any policy of this Human Resource Manual. The organization also reserves the right to create new policies to be added to this manual.

This manual states the policies and practices in effect at the time of publication. This manual supersedes all previously issued manuals and any policy or benefit statements or memoranda that are inconsistent with the policies described here. Your supervisor will be happy to answer any questions you may have.

Mission of Ararat Home of Los Angeles, Inc.

Ararat Home serves the community without regard to race, ethnic origin, religious persuasion or financial ability. Each encounter with residents and families portrays our utmost compassion and respect. Monitoring, evaluating and constantly improving individualized resident care is the daily responsibility of the entire staff.

Excellence in service, practice and leadership is provided in a progressive, positive and flexible environment, instituting meaningful programs of education, utilization of cost effective delivery of care to ensure financial viability. Staff is empowered to assure fair employment and personnel policies are practiced to actively respond to the needs of the community.

Performance Improvement/Quality Improvement Philosophy

We will strive to improve the quality of care and quality of life of our residents. Quality of care can be improved when we continuously measure and improve our performance. This primarily involves the performance of the organization's systems and processes. In addition, we will continue to monitor the competence of all the staff.

Our Plan is called Performance Improvement/Quality Improvement (PI/QI) and it involves the entire organization. Employees are empowered to be proactive in a caring environment. PI/QI bears no negative connotation in our organization. It is not a mandate. It is a life style.

Policy #	1.00	Original #	1.00	Page 1 of 2	
Title	Equal Employment Opportunity	Original Date	06/17/88	Revision Date	12/31/04
				Reviewed/Revised	02/05/08

Equal Employment Opportunity

Policy Statement

It is the policy of Ararat Home of Los Angeles, Inc. to recruit, hire, train, and promote persons in all job titles without regard race, color, creed, gender, religion, marital status, registered domestic partner status, age, national origin or ancestry, physical or mental disability, medical condition including genetic characteristics, sexual orientation, or any other consideration made unlawful by federal, state, or local laws.

Procedure

Ararat Home of Los Angeles (Ararat Home) is an equal opportunity employer and makes employment decisions on the basis of merit. Organization policy prohibits unlawful discrimination based on race, color, creed, gender, religion, marital status, registered domestic partner status, age, national origin or ancestry, physical or mental disability, medical condition including genetic characteristics, sexual orientation, or any other consideration made unlawful by federal, state, or local laws. It also prohibits unlawful discrimination based on the perception that anyone has any of those characteristics, or is associated with a person who has or is perceived as having any of those characteristics. All such discrimination is **unlawful**.

Ararat Home is committed to compliance with all applicable laws providing equal employment opportunities. This commitment applies to **all** persons involved in organization operations and prohibits unlawful discrimination by any employee of the organization.

To comply with applicable laws ensuring equal employment opportunities to qualified individuals with a disability, Ararat Home will make reasonable accommodations for the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or an employee unless undue hardship would result to the organization.

Any applicant or employee who requires an accommodation in order to perform the essential functions of the job should contact the administrator or his/her designee and request such an accommodation. The individual with the disability should specify what accommodation he or she needs to perform the job. Ararat Home will then conduct an investigation to identify the barriers that interfere with the equal opportunity of the applicant or employee to perform his or her job. Ararat Home will identify possible

accommodations, if any, that will help eliminate the limitation. If the accommodation is reasonable and will not impose an undue hardship, the accommodation will be made.

If you believe you have been subjected to any form of unlawful discrimination, submit a written complaint to your administrator or his/her designee. Your complaint should be specific and should include the names of the individuals involved and the names of any witnesses.

Ararat Home will immediately undertake an effective, thorough, and objective investigation and attempt to resolve the situation.

If Ararat Home determines that unlawful discrimination has occurred, effective remedial action will be taken to commensurate with the severity of the offense. Appropriate action will also be taken to deter any future discrimination. Ararat Home will not retaliate against you for filing a complaint and will not knowingly permit retaliation by management employees or your coworkers.

At-Will Employment

Policy Statement

It is the policy of Ararat Home that all employees who do not have individual employment contracts for a specified period of time are employed at the will of the organization for an indefinite period of time.

Procedure

Ararat Home personnel are employed on an at-will basis. Employment at-will means that the employment relationship may be terminated with or without cause and with or without advance notice at any time by the employee or the organization. Nothing in this manual shall limit the right to terminate at-will employment.

No manager, supervisor, or employee of the organization has any authority to enter into an agreement for employment for any specified period of time or to make an agreement for employment on other than at-will terms.

Only the Administrator/Executive Director of Ararat Home has the authority to make any such agreement, which is binding only if it is in writing.

An employee hired at-will may resign at anytime, without cause, and with or without notice, and/or the organization may terminate the employee at any time without cause, and with or without notice.

The completion of an employee's appraisal period or conferral of regular status does not change an employee's at-will status nor in any way alter or change the organization's right to terminate such employee at any time, with or without notice, and/or with or without cause.

Disciplinary action noted throughout the manual is not all-inclusive and does not restrict the organization's right to terminate any at-will employee. Although the organization has set forth policies about disciplinary actions and termination of employment, these policies are not binding on the organization. The organization reserves the right to discipline any and all employees or terminate any or all employees with or without notice and/or with or without cause. Such disciplinary action and/or termination may be done at the organization's discretion.

This policy may not be modified by any statements contained in this or any other organization policy or procedure manual, employment application, memorandum, etc. None of the aforementioned documents, whether singly or collectively, nor any practice there under shall create a contract, either expressed or implied.

Inquiries concerning at-will employment should be directed to the Executive Director, Administrator and/or his/her designee.

The organization reserves the right to demote, transfer, change job duties, and change compensation at any time with or without cause in its sole discretion.

In deciding to work for the organization or continuing to work for the organization or continuing to work for the organization you must understand and accept these terms of employment.

Recruiting and Hiring New Employees

Policy Statement

It is the policy of Ararat Home to recruit and hire persons in all job titles conforming to Equal Employment Opportunity as mandated by State and Federal regulations. It is the policy to hire the most qualified applicant for all vacancies.

Procedure

The Executive Director, Administrator and/or their designee shall recruit, interview, and hire supervisors.

Each supervisor shall recruit, interview, and hire persons for vacant positions in his/her department.

When a position is vacated, the Department Supervisor shall notify current employees of the vacancy by posting a notice on the employee bulletin board for 72 hours prior to advertising externally.

Notices advertising vacant positions shall include a brief description of job title, qualifications, job description, and also clearly note application information.

All applications received are referred to the appropriate Department Supervisor. Each application is evaluated based upon the experience, training, and competence of the applicant for a position. The evaluation methods should include interviews, reference checks, and applicable testing.

All applicants shall be given a time frame to the status of their application. All employment applications shall be kept on file for one year.

Background Investigations

Policy Statement

It is the policy of Ararat Home to conduct reference checks, driving record investigations, background investigations, and criminal conviction investigations on personnel making application for employment with this organization.

Procedure

The Executive Director, Administrator and/or their designee will conduct any applicable background investigation on each individual making application for employment with this organization and on any current employee if such background investigation is/are appropriate in light of the position for which the individual has applied (i.e., A driving record investigation will be conducted if the job position requires driving for the organization).

For any individual applying for a position as a Certified Nursing Assistant, Licensed Vocational Nurse, and Registered Nurse, the Executive Director/Administrator or his/her designee will consult appropriate licensing agency of the state in which the individual was certified and/or previously employed to determine the applicant's employment eligibility.

When conducting background investigations, the organization **may** contact any or all of the following agencies, depending upon the position for which the applicant/employee applied/was hired.

- (a) Local, state, and/or federal law enforcement agencies
- (b) Departments of public safety
- (c) Professional licensing boards
- (d) State registries of nurse aides
- (e) Consumer reporting agencies
- (f) Other agencies as deemed appropriate in determining employment eligibility

Persons making application for employment and current employees will be informed of this policy and will be required to sign a release giving the organization the right to conduct any appropriate investigation.

A criminal background check will be conducted on all persons applying for any position that has potential for direct contact with residents.

Should the background investigation disclose any material misrepresentation or omission on the employment application forms or disclose information indicating that the individual is not suited for hire; the applicant will not be employed, or if already employed, will be terminated.

Applicants refused employment and employees terminated pursuant to this policy will be provided with the name and address of the agency providing the information resulting in the organization's decision not to hire or to terminate the applicant/employee as well as a copy of the report so that the applicant/employee may challenge the accuracy or completeness of the report.

Prior convictions will not necessarily disqualify an applicant or lead to termination of an employee from employment unless such disqualification is required by law. Serious consideration will be given to the position for which the person applied the seriousness of the offense, and how recently the offense was committed.

All costs relative to background investigations shall be borne by the organization.

Inquiries concerning background investigations should be kept confidential and referred to the Executive Director, Administrator and/or their designee.

Definitions of Employees

Policy Statement

It is the policy of Ararat Home to maintain employee definitions, to distinguish groups of employees.

Procedure

Regular full-time employees are those who are scheduled for and do work 30 hours per week. Following the completion of the appraisal period, regular full-time employees are eligible for most employee benefits described in this manual.

Part-time employees are those who are regularly scheduled for 16 hours or more per week. Part-time employees are not eligible for any benefits.

Per-diem employees are those who are requested to work. Per-diem employees are not eligible for any benefits.

Appraisal Period/New Hires/Introductory Period

Policy Statement

It is the policy of Ararat Home to enforce an appraisal period for all new employees.

Procedure

The Appraisal period for all new employees is 90 days from the date of hire.

A new employee under appraisal period at the Ararat Home will receive a performance appraisal by their supervisor after 90 days of work, signaling the end of the appraisal period.

During an employee’s appraisal period, that employee is not eligible for any fringe benefits received by a full time employee with the same employee definition.

If an employee misses part of his/her appraisal period because of an excused leave of absence, his/her appraisal period will be extended a proportionate number of days.

All employees shall be informed at the time of hiring of the appraisal period policy.

The first 90 days of continuous employment at Ararat Home is considered an appraisal period. During this time you will learn your responsibilities, get acquainted with fellow employees, and determine whether or not you are happy with your job. Your supervisor will closely monitor your performance.

Upon completion of the appraisal period, Ararat Home will review your performance. If the organization finds your performance satisfactory and decides to continue your employment, it will advise you of any improvements expected from you. Completion of the appraisal period does not entitle you to remain employed by Ararat Home for any definite period of time, but rather allows both you and the organization to evaluate whether or not you are right for the position. After completion of the trial period, eligible employees will receive the benefits described in this manual.

During the appraisal period, your supervisor will explain your job responsibilities may change at any time during your employment. From time to time, you may be asked to

Employee Bulletin Boards

Policy Statement

It is the policy of Ararat Home to maintain bulletin boards for posting notices that affect or concern the employees: There are two types of bulletin boards, an “organization bulletin board” used for the posting of official government notices and changes in organization policy and an “employee bulletin board” used to post general information.

Procedure

The bulletin board designated as the organization bulletin board will be used solely for the posting of official government notices and changes in organization policies that affect our employees.

Only the Executive Director/Administrator, or his/her designee, may post or remove notices from the organization bulletin board.

The bulletin board designated as the employee bulletin board will be used to post general information such as: organization social/activity events, carpooling information open positions, policy changes.

Notices on the employee bulletin board must be approved in writing by the Executive Director/Administrator or his/her designee prior to posting.

Notices concerning outside organizations and events that are not related to Ararat Home may not be posted on either the organization or employee bulletin boards.

Posting, altering, or removing notices or information from bulletin boards without proper authorization may be grounds for disciplinary action.

Title

Punctuality and Attendance

Policy Statement

In order to provide the best and most consistent resident care, Ararat Home shall enforce attendance per scheduled hours for all employees.

Procedure

All employees shall be informed, at the time of hire, of the anticipated hours and days of duty.

Each immediate supervisor shall maintain a duty schedule for his/her services, indicating hours and days of duty. This duty schedule shall be posted in an easily accessible location.

As an employee of Ararat Home you are expected to be punctual and regular in attendance. Any tardiness or absence causes problems for your fellow employees and your supervisor. When you are absent, your assigned work must be performed by others.

Employees are expected to report to work as scheduled, on time, and prepared to start work. Employees are also expected to remain at work for their entire work schedule, except for meal periods or when required to leave on authorized organization business. Late arrival, early departure, or other unanticipated and unapproved absences from scheduled hours are disruptive and must be avoided.

If you are unable to report for work on any particular day, you must under all but the most extenuating circumstances call your supervisor at least **two hours** before the time you are scheduled to begin working for that day. If you call less than two hours before your scheduled time to begin work and do not arrive in time for your assigned shift, you will be considered tardy for that day. In all cases of absence or tardiness, employees must provide their supervisor with an honest reason or explanation. Employees must also inform their supervisor of the expected duration of any absence.

If you fail to report for work without any notification to your supervisor and your absence continues for a period of **three days** Ararat Home will consider that you have abandoned your employment.

Be aware that your job responsibilities may change at any time during your employment. From time to time, you may be asked to work on special projects, or to assist with other work necessary or important to the operation of your department or Ararat Home. Your cooperation and assistance in performing such additional work is expected.

Ararat Home reserves the right, at any time, with or without notice, to alter or change job responsibilities, reassign or transfer job positions, or assign additional job responsibilities.

Employees absent for more than three (3) consecutive days without reporting in may be considered as having “voluntarily quit” and their position will be filled. If the employee can provide an acceptable explanation, this rule may not apply. Such explanation may require substantiation and/or verification.

Employees absent without notice or authorization for less than three (3) days must provide a detailed written reason for the absence. (Note: Regardless of the stated reasons, the employee may be subject to disciplinary action.)

Ararat Home understands that last-minute personal emergencies can occur that require the employee to leave. The immediate supervisor reserves the right to determine if the absence is an excused or unexcused absence.

All unexcused absences, or tardiness, or excessive personal absences may be noted in the employee’s personnel file. Poor attendance records may be reviewed by the immediate supervisor, and may lead to disciplinary action or termination.

In any circumstance where no prior leave has been approved, any absence beyond three (3) days shall require a “Release to Work” from the employee’s physician, before the employee can return to work for physical illness.

Changes in the duty schedule requested by the employee for personal or other reasons may be accommodated.

Title

Meal Periods/ Rest Periods

Policy Statement

It is the policy of Ararat Home to provide meal periods and rest periods in accordance with Labor Laws of the State of California.

Procedure

Employees are provided with a 30 minute meal period, to be taken approximately in the middle of the workday. Employees are allowed a 10-minute rest period for every four hours of work or major portion thereof. Your supervisor will schedule your meal and rest periods (i.e. If the work day for each full-time employee includes a 30 minute unpaid meal period, and two 10- minute rest period in each 7.5 or 8.0 hour shift).

You are expected to observe your assigned working hours and the time allowed for meal and rest periods. Do not leave the premises during your rest period and do not take more than 10 minutes for each rest period. You may leave the premises during your meal period upon notification of the immediate supervisor.

Every employee shall receive a 30-minute unpaid meal period if the shift consists of at least 5.0 hours.

Any employee may waive their 30minute unpaid meal break only when their work schedule or shift will be completed in 6 hours or less in one workday. (Employee must sign a meal break waiver and the Administrator/Executive Director or his/her designee must authorize the request) See Appendix A.

Meal periods will be taken in staggered periods, in order to provide adequate resident care at all times. A one-hour unpaid lunch period may be arranged upon approval of the Department Supervisor and/or Administrator/Executive Director or his /her designee.

In accordance with Labor Laws rest periods and meal periods may not be combined.

Food and Nutrition/Dietary personnel are eligible to receive one free meal during their shift period. The only meal available will be the meal offered to residents for that particular meal period. All other employees may eat at the cost of \$2.00 per meal with the exception of Ararat Convalescent.

Title

Overtime

Policy Statement

It is the policy of Ararat Home to request an employee to work overtime when required, due to extenuating circumstances. Overtime will be paid in accordance with applicable state and federal laws.

Procedure

The pay period is for a period of fourteen (14) days from a Monday to a Sunday. Paydays are on Thursdays following the end of the pay period. This fourteen day period is used to compute any overtime that is due.

Time worked in excess of eight (8) hours in a workday, or eighty (80) hours in a work period of fourteen (14) consecutive workdays, will be paid at the rate of one and one-half (1 ½) times the regular rate of pay. Time worked in excess of twelve hours in a workday will be paid double the regular pay rate. PTO will not be considered “hours worked” for purposes of overtime pay.

All overtime hours are noted on the employee’s time card, and must be approved by the immediate supervisor in writing.

Unauthorized overtime will be compensated, but will result in a written warning notice to the employee and a copy placed in his/her Personnel File.

Title

Paid Time Off

Policy Statement

Paid Time Off (PTO) is a system that Ararat Home uses that allows all full time employees access to time off from work in a flexible manner for any personal reasons, such as vacation, holidays or short term illness.

Procedure

Employees are entitled to paid time off based upon their years of active service. To accrue PTO 59 ½ hours must be worked during each pay period.

Active service commences with an employee’s first day of work and continues thereafter unless broken by an absence without pay, a leave of absence, or termination of employment. Per diem and part time employees do not accrue paid time off.

Time off must be approved in advance by the Administrator/Executive Director/or the immediate supervisor.

Employees may not “bank” more than 30 working days (240 maximum hours for 8 hours/shift staff. 225 hours for 7.5 hours/shift staff).

Once this cap has been reached, the employee will have to cash out or take accrued paid time off. No further paid time off will accrue until some paid time off is cashed or used.

Employees are encouraged to take a minimum of 5 days of vacation annually. Up to 100% of the total accrued time may be cashed out with the approval of the Executive Director, Administrator and/or their designee.

PTO cash out is normally done with payroll unless prior written approval is given by Executive Director, Administrator or their designee.

Any employee whose employment terminates will be paid for accrued and unused paid time off. Employees on unpaid leave do not accrue paid time off.

Subject	Wages and Benefits

		Reviewed/Revised	12/16/08
		Reviewed/Revised	04/07/09

Title

Leaves of Absence

Policy Statement

Ararat Home may grant leaves of absence (LOA) to employees in certain circumstances.

Procedure

Request any leave in writing as far in advance as possible, keep in touch with your immediate supervisor and payroll personnel during your leave, and give prompt notice of any change in your anticipated return date.

Should an employee request a leave of absence, they must submit a completed LOA form to their immediate supervisor specifying the **reason** for and exact **length** of the leave desired. See Appendix D. The supervisor will communicate the approval/disapproval of the request to the employee in writing.

Leave of absence may be granted to employees for legitimate reasons in certain circumstances. However, such leaves will not be granted in order for employees to engage in other gainful employment with the exception of military or public service.

If your leave expires and you fail to return to work without contacting your supervisor or the payroll person, and no progress report is submitted by the employee by the end of the 90th day of medical LOA Ararat Home will assume that you do not plan to return shall be considered as “voluntary quitting,” and you will be automatically terminated.

LOA/FMLA (Family Medical Leave Act) is considered leave without pay. Employees on leave **will not** continue to accrue **Paid Time Off** during unpaid leave.

A leave of absence may be granted for up to 90 days, with the extension of another 90 days, and must be approved by the supervisor and the Administrator/Executive Director.

		Reviewed/Revised	04/07/09

In the event of medical leave, approval will be granted up to ninety (90) days. Medical leave is considered leave without pay after exhaustion of benefits. A position will be maintained for the employee only if done so will not jeopardize residents' quality of care. If the employee's position can not be held, all attempts shall be made to provide an alternative position. Alternative positions may require an adjustment to the pay rate.

An employee granted a leave of absence in excess of six (6) months must be physically able to return to work and must furnish the department supervisor with a signed and dated physician's statement certifying that the employee is medically and physically able to resume his/her duties.

We encourage the professional growth of our employees related to their existing positions. Educational leave will be granted, not to exceed 2 years, pending approval of the immediate supervisor. Benefits do not accrue during leave.

Jobs vacated by personal leaves will be filled temporarily where possible. However, the organization retains the right to permanently fill these vacancies when it is deemed necessary and in the best interest of the organization.

An employee returning from an approved leave of absence shall be placed in an available position in the following priority:

- (a) On his/her old job;
- (b) On a substantially equivalent job which he/she is capable of performing;
- (c) On a lower job which he/she can satisfactorily perform; or
- (d) On a recall list for one (1) year.

During the period an employee is not actually at work because of having been granted a leave of absence, or because of having been laid-off, employee benefits shall not accumulate. However, seniority of an employee will not be affected.

Health Insurance Premium

Ararat Home will continue to pay for health insurance for employees on leaves of absence up to a maximum of 12 weeks. Employees may continue health insurance plan under the same conditions of coverage as if the employee had continued in employment for the duration of 12 weeks. After that, you may self-pay and pre-pay premiums under the provisions of COBRA. Payroll person can give you additional information.

Title

FMLA (Family Medical Leave Act)

Policy Statement

Ararat Home in accordance with state and federal family and medical Leave laws provides up to 12 workweeks of unpaid family/medical leave within a 12-month period. Any leave taken under this provision that qualifies as leave under the state and/or federal Family and Medical Leave Acts will be counted as family/medical leave and charged to your entitlement of 12 workweeks of family/medical leave in a 12-month period, under the following conditions:

The employee has more than 12 months of service;

The employee has worked at least 1,250 hours during the previous 12-month period before the need for leave; and

The employee is employed at a work site where there are 50 or more employees within a 75-mile radius.

Procedure

Leave may be taken for one or more of the following reasons:

- The birth of the employee’s child, or placement of a child with the employee for adoption or foster care;
- To care for the employee’s spouse, registered domestic partner, child, or parent who has a serious health condition; or
- For a serious health condition that makes the employee unable to perform his or her job.
- For any “qualifying exigency” (to be defined by federal regulation) because the employee is the spouse, son, daughter, or parent of an individual on active military duty (or has been notified of an impending call or order to active duty) in the Armed Forces in support of a contingency operation; or

- An employee who is the spouse, son, daughter, parent, or next of kin of a covered service member shall be entitled to a total of 26 workweeks of leave during a 12-month period to care for the service member.

Calculating the 12-month Period

For purposes of calculating the 12-month period during which 12 weeks of leave may be taken, Ararat Home uses **rolling year**. Under most circumstances, leave under federal and state law will run at the same time and the eligible employee will be entitled to a total of 12 weeks of family and medical leave in the designated 12-month period.

Pregnancy, Childbirth or Related Conditions

However, leave because of the employee’s disability for pregnancy, childbirth or related medical condition is not counted as time used under California law (the California Family Rights Act). Time off because of pregnancy disability, childbirth or related medical condition does count as family and medical leave under federal law (the Family and Medical Leave Act). Employees who take time off for pregnancy disability and who are eligible for family and medical leave will also be placed on family and medical leave that runs at the same time as their pregnancy disability leave. Once the pregnant employee is no longer disabled, she may apply for leave under the California Family Rights Act, for purposes of baby bonding.

Any leave taken for the birth, adoption, or foster care placement of a child does not have to be taken in one continuous period of time. California Family Rights Act leave taken for the birth or placement of a child will be granted in minimum amounts of two weeks. However, Ararat Home will grant a request for a California Family Rights Act leave (for birth/placement of a child) of less than two weeks’ duration on any two occasions. Any leave taken must be concluded within one year of the birth or placement of the child with the employee.

Leave for Employee’s Own Health Condition

The following procedures shall apply when an employee requests family leave:

Please contact your immediate supervisor as soon as you realize the need for family/medical leave.

If the leave is based on the expected birth, placement for adoption or foster care, or planned medical treatment for a serious health condition of the employee or a family member, the employee must notify the organization at least 30 days before the leave is to begin. The employee must consult with his or her supervisor regarding scheduling of any planned medical treatment in order to minimize disruption to the organization’s operations. Any such scheduling is subject to the approval of the health care provider of the employee or the health care provider of the employee’s child, parent, or spouse.

			Reviewed/Revised
			11/25/08
			Reviewed/Revised
			04/07/09

If the employee cannot provide 30 days' notice, the organization must be informed as soon as practical.

If the Family and Medical Leave Act/California Family Rights Act request is made because of the employee's own serious health condition, Ararat Home may require, at its expense, a second opinion from a health care provider that the organization chooses. The health care provider designated to give a second opinion will not be one who is employed on a regular basis by the organization.

If the second opinion differs from the first opinion, Ararat Home may require, at its expense, the employee to obtain the opinion of a third health care provider designated or approved jointly by the employer and the employee. The opinion of the third health care provider shall be considered final and binding on Ararat Home and the employee.

Ararat Home requires the employee to provide certification within 15 days of any request for family and medical leave under state and federal law, unless it is not practicable to do so. Ararat Home may require recertification from the health care provider if additional leave is required. (For example, if the employee needs two weeks of family and medical leave, but following the two weeks needs intermittent leave, a new medical certification will be requested and required.) If the employee does not provide medical certification in a timely manner to substantiate the need for family and medical leave, the organization may delay approval of the leave, or continuation thereof, until certification is received. If certification is never received the leave may not be considered family and medical leave.

Leave to Care for a Family Member

If the leave is needed for the care of a sick child, spouse, or parent, the employee must provide a certification from the health care provider stating:

- Date of commencement of the serious health condition;
- Probable duration of the condition;
- Estimated amount of time for care by the health care provider; and
- Confirmation that the serious health condition warrants the participation of the employee.

When both parents are employed by Ararat Home, and request simultaneous leave for the birth or placement for adoption or foster care of a child, the organization will not grant more than a combined 12 workweeks of family/medical leave for this reason.

If an employee cites his/her own serious health condition as a reason for leave, the employee must provide a certification from the health care provider stating:

- Date of commencement of the serious health condition;

Subject	Wages and Benefits

			Reviewed/Revised
			04/07/09

- Probable duration of the condition; and
- Inability of the employee to work at all or perform any one or more of the essential functions of his/her position because of the serious health condition.

Ararat Home will require certification by the employee’s health care provider that the employee is fit to return to his or her job.

Failure to provide certification by the health care provider of the employee’s fitness to return to work will result in denial of reinstatement for the employee until the certificate is obtained.

Leave Related to Military Service

A leave taken due to a “qualifying exigency” related to military service must be supported by a certification of its necessity. A leave taken due to the need to care for a service member shall be supported by a certification by the service member’s health care provider.

Health and Benefit Plans

An employee taking family medical leave will be allowed to continue participating in any health and welfare benefit plans in which he/she was enrolled before the first day of the leave (for a maximum of 12 workweeks) at the level and under the conditions of coverage as if the employee had continued in employment for the duration of such leave. Ararat Home will continue to make the same premium contribution as if the employee had continued working. The continued participation in health benefits begins on the date leave first begins under Family and Medical Leave Act (i.e. for pregnancy disability leaves) or under the Family and Medical Leave Act/California Family Rights Act (i.e. for all other family care and medical leaves). In some instances, the organization may recover from an employee premiums paid to maintain health coverage if the employee fails to return to work following family/medical leave.

Employees on family/medical leave who are not eligible for continued paid coverage may continue their group health insurance coverage through Ararat Home in conjunction with the federal COBRA guidelines by making monthly payments to the health insurance provider for the amount of the applicable premium. Employees should contact their supervisor for further information.

Payment is due when it would be made by payroll deduction.

Reinstatement

Under most circumstances, upon return from family/medical leave, an employee will be reinstated to his or her original job or to an equivalent job with equivalent pay, benefits, and other employment terms and conditions. However, an employee has no greater right to reinstatement than if he or she had been continuously employed rather than on leave. For example, if an employee on family/medical leave would have been laid off had he or she not gone on leave, or if the employee’s job is eliminated during the leave and no

			04/07/09

equivalent or comparable job is available, then the employee would not be entitled to reinstatement. In addition, an employee’s use of family/medical leave will not result in the loss of any employment benefit that the employee earned before using family/medical leave.

Reinstatement after family/medical leave may be denied to certain salaried “key” employees under the following conditions:

- An employee requesting reinstatement was among the highest-paid 10 percent of salaried employees employed within 75 miles of the work site at which the employee worked at the time of the leave request;
- The refusal to reinstate is necessary because reinstatement would cause
- substantial and grievous economic injury to the organization's operations;
- The employee is notified of the organization’s intent to refuse reinstatement at the
- time the organization determines the refusal is necessary; and
- If leave has already begun, the organization gives the employee a reasonable opportunity to return to work following the notice described previously.

For additional information about eligibility for family/medical leave, contact the Executive Director, Administrator or his/her designee.

Time Accrual

Employees on Family and Medical Leave Act/California Family Rights Act leave **will not** continue to accrue **paid time off** during unpaid Family and Medical Leave Act/California Family Rights Act leave.

Carryover

Leave granted under any of the reasons provided by state and federal law will be counted as family/medical leave and will be considered as part of the 12-workweek entitlement in a 12-month period. The 12-month period is measured forward from the date any employee’s first Family and Medical Leave Act leave begins. Successive 12-month periods commence on the date of an employee’s first use of such leave after the preceding 12-month period has ended. No carryover of unused leave from one 12-month period to the next 12-month period is permitted.

Intermittent Leave

Employees may take Family and Medical Leave Act/California Family Rights Act leave intermittently (in blocks of time, or by reducing their normal weekly or daily work

Title	Pregnancy Disability Leave	Original Date 09/30/08	Revision Date 09/30/08

Title

Pregnancy Disability Leave

Policy Statement

Pregnancy, childbirth, or related medical conditions will be treated like any other disability, and an employee on leave will be eligible for temporary disability benefits in the same amount and degree as any other employee on leave.

Procedure

Any female employee planning to take pregnancy disability leave should advise the immediate supervisor as early as possible. The individual should make an appointment with the payroll person and their immediate supervisor to discuss the following conditions:

- Employees who need to take pregnancy disability must inform Ararat Home when a leave is expected to begin and how long it will likely last. If the need for a leave or transfer is foreseeable, employees must provide notification at least 30 days before the pregnancy disability leave or transfer is to begin. Employees must consult with the payroll person and immediate supervisor regarding the scheduling of any planned medical treatment or supervision in order to minimize disruption to the operations of the organization. Any such scheduling is subject to the approval of the employee’s health care provider;
- If 30 days’ advance notice is not possible, notice must be given as soon as practical;
- Upon the request of an employee and recommendation of the employee’s physician, the employee’s work assignment may be changed if necessary to protect the health and safety of the employee and her child;
- Requests for transfers of job duties will be reasonably accommodated if the job and security rights of others are not breached;
- Temporary transfers due to health considerations will be granted when possible. However, the transferred employee will receive the pay that accompanies the job, as is the case with any other temporary transfer due to temporary health reasons;
- Pregnancy leave usually begins when ordered by the employee’s physician. The employee must provide the immediate supervisor with a certification from a

- health care provider. The certification indicating disability should contain:
 - The date on which the employee became disabled due to pregnancy;
 - The probable duration of the period or periods of disability; and
 - A statement that, due to the disability, the employee is unable to perform one or more of the essential functions of her position without undue risk to herself, the successful completion of her pregnancy, or to other persons.
- Leave returns will be allowed only when the employee’s physician sends a release;
- An employee will be allowed to use accrued PTO during a pregnancy disability leave; and
- Duration of the leave will be determined by the advice of the employee’s physician, but employees disabled by pregnancy may take up to four months. Part-time employees are entitled to leave on a pro rata basis. The four months of leave includes any period of time for actual disability caused by the employee’s pregnancy, childbirth, or related medical condition. This includes leave for severe morning sickness and for prenatal care.

Leave does not need to be taken in one continuous period of time and may be taken intermittently, as needed. Leave may be taken in increments of a day.

Under most circumstances, upon submission of a medical certification that an employee is able to return to work from a pregnancy disability leave, an employee will be reinstated to her same position held at the time the leave began or to an equivalent position, if available. An employee returning from a pregnancy disability leave has no greater right to reinstatement than if the employee had been continuously employed.

Title	Coordination of PDL with FMLA	Original Date 04/14/09	Revision Date 04/14/09

Title

Coordination of Pregnancy Disability Leave (PDL) with Family/Medical Leave

Policy Statement

If you take pregnancy disability leave (PDL) and are eligible under the federal or state family and medical leave laws, Ararat Home will maintain group health insurance coverage for up to a maximum of 12 workweeks (of such insurance was provided before the leave was taken) on the same terms as if you had continued to work.

Procedure

Leave taken under the pregnancy disability policy runs concurrently with family and medical leave under federal law, but not family and medical leave under California Law.

If you are ineligible under the federal and state family and medical leave laws, while on pregnancy disability you will receive continued paid coverage on the same basis as other medical leave that the organization may provide and for which you are eligible. In some instances, the organization may recover premiums it paid to maintain health coverage for you if you fail to return to work following pregnancy disability leave.

If you are on pregnancy disability leave and are not eligible for continued paid coverage, or if paid coverage ceases after 12 workweeks, you may continue your group health insurance coverage through Ararat Home in conjunction with federal COBRA guidelines by making monthly payments to the Health Insurance Provider for the amount of the relevant premium. Contact the personnel manager for further information.

Payroll Deductions/Payday/Garnishments

Policy Statement

Ararat Home has established regular pay periods, to comply with all Federal and State tax and withholding tax laws, and also to authorize additional payroll deductions when warranted.

Procedure

Ararat Home shall withhold from each employee’s salary/wages, all state and federally mandated tax withholdings. All employees shall complete the necessary forms for payroll deductions at the time of hiring. It is the responsibility of the employee to notify the Business Office of any change in withholding deductions.

Additional payroll deductions may be made for: Health insurance coverage for dependents, tax sheltered annuity plans. Arrangements shall be made through the Department Supervisor and Payroll Personnel for processing these deductions.

All withholdings and deductions shall be noted on the employee’s paycheck stub as record.

Ararat Home will deduct from the employee’s paycheck, any court or state ordered garnishment for an employee’s debt, as required by law.

The employee shall be notified **in writing** that the facility has received a court ordered claim against his/her wages.

Salary/wages withheld to cover garnishment shall be noted on the employee’s paycheck stub.

Ararat Home pay period begins on Monday and ends at midnight on Sunday, two weeks later.

Group Health Care Benefit Plan

Policy Statement

It is the policy of Ararat Home to participate in a group health care benefit plan, which includes medical, vision, dental, and retirement plans to offer coverage to full status employees and their qualified dependents.

Procedure

Ararat Home shall offer the health care benefit plan to full status licensed and supervisory employees who have reached their benefit date. The health care benefit coverage will be effective the 1st day of the next month following their benefit date. If the employee chooses not to participate he/she will not be eligible to participate until the next scheduled open enrollment date for the facility.

Employees shall be required to provide documentation and complete paperwork as required by the health care benefit provider, in order to receive benefits.

Ararat Home reserves the right to change insurance carriers as deemed necessary by the Board of Trustees or their Designee.

If Ararat Home offers multiple health care plans as part of its benefit package, employees may switch plans only on the open enrollment date. Open enrollment will be held annually, and scheduled by the Administrator/ Executive Director.

After 3 months of appraisal period, Ararat Home will pay 100% of the premium for Registered Nurses and Licensed Vocational Nurses. Non-licensed full time employees may participate in the health care plan as desired; Ararat Home will pay 50% of the premium cost. If the employee wishes to have dependent coverage as well, the employee is responsible for the entire cost of dependent coverage. Employee premium payments for any insurance costs will be withheld from the employee’s paycheck. Upon completion of ten years of service Ararat Home will pay 100% of the premium of the health care plan for all full time employees.

Title

Voting Time Off

Policy Statement

It is the policy of Ararat Home to allow personnel time off to vote.

Procedure

It is the right of every person to vote. Our organization encourages all personnel to exercise this right.

Voting stations open early and close late. Therefore, we request that employees schedule their voting time so as not to interfere with their work time.

Personnel required to work during voting hours will be given time off, with pay, to vote. Such requests must be approved by the department director and noted on the employee's time card.

Personnel authorized to take time off to vote will be permitted to arrive at work one (1) hour late or to leave work one (1) hour early. The department director must initial the employee's time card to indicate that such leave time was for voting time. The employee will be paid for the full shift. (NOTE: The organization reserves the right to verify whether or not the employee voted.)

Title

Workers Compensation and Industrial Injury

Policy Statement

Ararat Home in accordance with state law provides insurance coverage for employees in case of work-related injury. This may include: Medical care, indemnities payments, to replace lost wages, and assistance to help qualified injured employees return to suitable employment.

Procedure

To ensure that you receive any workers' compensation benefits to which you may be entitled, you will need to:

- Immediately report any work-related injury to your supervisor;
- Seek medical treatment and follow-up care if required;
- Complete a written Employee's Claim Form (DWC Form 1) and return it to the Administrator/Executive Director or his/her designee and provide the supervisor or his/her designee with a certification from your health care provider regarding the need for workers' compensation disability leave, and as well as your eventual ability to return to work from the leave.

Upon submission of a medical certification that an employee is able to return to work after a workers' compensation leave, the employee under most circumstances will be reinstated to his or her same position held at the time the leave began, or to an equivalent position, if available. An employee returning from a workers' compensation leave has no greater right to reinstatement than if the employee had been continuously employed rather than on leave. For example, if the employee on workers' compensation leave would have been laid off had he or she not gone on leave, or if the employee's position has been eliminated or filled in order to avoid undermining the organization's ability to operate safely and efficiently during the leave, and no equivalent or comparable positions are available, then the employee would not be entitled to reinstatement.

Policy # 5.00	Original # 5.03/5.02	Page 2 of 3	
Title: Workers Compensation and Industrial Injury	Original Date 06/17/88	Revision Date	12/31/04
		Reviewed/Revised	09/30/08
		Reviewed/Revised	09/01/09
		Reviewed/Revised	07/01/11

An employee's return depends on his or her qualifications for any existing openings. If, after returning from a workers' compensation disability leave, an employee is unable to perform the essential functions of his or her job because of a physical or mental disability, the organization's obligations to the employee may include reasonable accommodation, as governed by the Americans with Disabilities Act.

Organization-Provided Physician

Ararat Home provides medical treatment for work-related injuries through a medical provider network, which the organization has chosen to provide medical care to injured employees because of their experience in treating work-related injuries.

The law requires Ararat Home to notify the workers' compensation insurance company of any concerns of false or fraudulent claims.

Workers' Compensation and FMLA/CFRA

Employees who are ill or injured as a result of a work-related incident, and who are eligible for family and medical leave under state and federal law (Family Medical Leave Act (FMLA) and the California Family Rights Act (CFRA)), will be placed on FMLA/CFRA during the time they are disabled and not released to return to work. The leave under these laws runs concurrently, and eligible employees will be on FMLA/CFRA for a maximum of 12 weeks in a 12-month period

All employees must report all work related injuries within 24 hours of occurrence of the injury. Failure to do so will automatically result in a written warning to be placed in the employee's file.

Paid Time Off and Worker's Compensation Benefits

Paid time off is a benefit that also covers absences for work-related illness or injury. Employees who have a work-related illness or injury are covered by workers' compensation insurance. However, workers' compensation benefits usually do not cover absences for medical treatment. When you report a work-related illness or injury, you will be sent for medical treatment, if treatment is necessary. You will be paid your regular wages for the time you spend seeking initial medical treatment.

Any further medical treatment will be under the direction of the health care provider. Any absences from work for follow-up treatment, physical therapy or other prescribed appointments will not be paid as time worked. If you have accrued PTO, the additional absences from work will be paid with the use of PTO.

An employee injured while on duty at the facility shall be compensated according to the schedule of payments defined in the Worker's Compensation Act, for time lost provisions of the Act.

The facility Executive Director or Administrator shall be responsible for compliance with the Workman's Compensation Law.

Title

Incident Report

Policy Statement

It is the policy of Ararat Home to complete and retain written incident reports to document all accidents, injuries, or unusual occurrences.

Procedure

In the event of any accident, injury or unusual occurrence involving any employee or resident of Ararat Home, an incident report form must be completed and turned in to the Administrator or his/her designee.

The Supervisor or individual responsible for the organization at the time of the incident or injury is responsible for completion of the written incident report form. This form shall be completed as soon as possible after the occurrence, and submitted to the Nursing Administration's office by the end of the shift.

The Executive Director/Administrator or his/her designee shall investigate each incident. Corrective actions will be communicated to the immediate supervisors for implementation.

Health Records

Policy Statement

Ararat Home will maintain a health record for each employee that shall contain all the information required by law.

Procedure

All health records required by State and Federal law shall be kept in the employee's Personnel File.

Health records for terminated employees shall be maintained in the facility for seven (7) years following the date of termination.

The health records of employees shall be checked annually by the Executive Director, or the Administrator to assure there is a complete, up-to-date health record for each employee.

Thirty (30) days prior to the anniversary date of hire, each employee shall be notified by their immediate supervisor that he/she has 30 days to obtain a health examination and shall be given the required report forms. Their supervisor is also notified that the annual health examination is due for the employee.

If an employee has not obtained the annual health examination required by law by the anniversary date, the employee's supervisor shall inform **the employee in writing that** he/she must obtain the health evaluation within 30 days, or he/she will be informed about the disciplinary process of not obtaining a health evaluation.

Title

Gifts, Gratuities, Payments

Policy Statement

Ararat Home prohibits any employee from receiving or giving any gift, gratuity, or payment for services rendered; the making of any promise(s) on behalf of the organization; or engaging in any activity, practice, or act which conflicts with the interest of the organization or its residents.

Procedure

Employees are not allowed to accept any monetary gifts from any of the residents/families.

If families approach an employee to accept monetary gifts, employees must direct them to the supervisor.

Gifts may be accepted towards special events for employees (i.e. pizza party, equipment they may be need, etc), with the approval of the DNS(Director of Nursing Services)/DCS(Director of Clinical Services) , or Executive Director, and or the Administrator. Thank you letters will be sent out on behalf of Ararat.

If any acceptance of monetary gifts are accepted this may result in disciplinary action and even termination of employment.

If requests are made to residents for monetary gain in return to provide care, this will result in automatic termination.

Subject	General Policies		
Policy #	7.11	Original #	7.12
Title	Preventing Health Care Fraud	Original Date	11/21/06
		Revision Date	07/27/09

Title

Preventing Health Care Fraud

Policy Statement

Ararat Home will ensure that all employees understand the process of reporting possible Medicaid/Medi-Cal or Medicare fraud. Under the Deficit Reduction Act 2005, all employees must understand the laws regarding false claims, as well as their rights to report any attempts to defraud the government.

Procedure

Federal False Claims Act

The False Claims Act allows any person, who discovers that a government contractor or organization is fraudulently receiving funds from the government, to report the fraud and possibly file a complaint on behalf of the government.

Any health care agency that seeks and received reimbursement from the government for Medi-Cal or Medicare funds are considered government contractors, and are therefore subject to the False Claims Act. There are a number of ways that a health care provider can violate the False Claims Act, including, but not limited to:

- a. Knowingly billing for a service that was not rendered;
- b. Knowingly including an item of cost in a "cost report" that was not incurred or cannot be justified;
- c. Misrepresenting the types of goods and services that were rendered;
- d. Misrepresenting the nature of the recipient's illness or condition; or,
- e. Providing care of such a substandard nature that it is the equivalent of a "worthless service."

Filing A Complaint

When a private citizen brings a claim on behalf of the government, it is known as a qui tam lawsuit. The False Claims Act does not require a person to report the fraud to the government before filing a lawsuit. If the government or another private citizen already filed a qui tam lawsuit, then you are barred from filing a lawsuit.

Subject	General Policies		
Policy #	7.11	Original #	7.12
Title	Preventing Health Care Fraud	Original Date	11/21/06
		Revision Date	07/27/09

If a private citizen chooses to file a qui tam complaint, it must be done in a federal district court, and a copy of the complaint must be sent to the Attorney General of the United States. The most important part of filing a qui tam complaint is that it must be done under seal.

Confidentiality with false claims is extremely important. The complaint cannot be served on the defendant until the court grants permission to do so. Although the complaint remains under seal, the identity of the complainant is revealed to the government at the time that the complaint is filed. The identity of the complainant is not revealed to the defendant until the complaint is unsealed.

Once a qui tam lawsuit is filed, the government can choose not to proceed with the action, but even if this occurs, the private citizen can continue with this offer suit against the defendant.

Penalties

If a provider violated the federal False Claims Act, it is required to pay three times the amount of damages that the government incurred an not less than \$5,500 and not more than \$11,000 in civil penalties. This amount is for each claim.

A whistleblower that brings a qui tam lawsuit for a False Claims Act violation may also collect a monetary award. He or she will only collect a monetary award if the government recovers money from the defendant.

California State False Claims Law

California has its own version of the False Claims Act that is specifically modeled after federal law. As with the federal False Claims Act, California's False Claims law permits any person who discovers that a government contractor or operator is fraudulently receiving funds from the state government to report the fraud and file a complaint on behalf of the government.

Any health care company that seeks and receives reimbursement from the state government for Medi-Cal funds is considered government contractor, and is therefore subject to the state false claims laws. There are a different of ways that an organization can violate state law, including; each of the examples referred to above on the federal False Claims Act.

Subject	General Policies		
Policy #	7.11	Original #	7.12
Title	Preventing Health Care Fraud	Original Date	11/21/06
		Revision Date	07/27/09

Filing a Complaint

As with the federal False Claims Act, if a private citizen brings a claim on behalf of the state government, it is also known as a qui tam lawsuit. When a private citizen chooses to file such a lawsuit for health care fraud on behalf of the state government under state law, it must be done in a state Superior Court, and a copy of the complaint must be sent to the Attorney General of the State of California. As with the federal False Claims Act, the identity of the complainant is not revealed to the defendant. The government can choose not to proceed with the action, but even if this occurs, the private citizen can continue with his or her suit against the defendant.

Penalties

California law provides that a violator of its false claims act if is required to pay three times the amount in damages that the state government incurred. It also provides for civil money penalties up to \$10,000 for each false claim submitted as well as the costs of the suit. As with federal law, a whistleblower bringing a qui tam may also collect a monetary award but only if the government recovers money.

Subject	General Policies		
Policy #	7.12	Original #	7.13
Title:	Detecting Fraud, Waste, and Abuse	Original Date	11/21/06
		Revision Date	

Title

Detecting Fraud, Waste, and Abuse

Policy Statement

Ararat Home has a zero tolerance policy for fraud, waste and abuse. Due to the severe legal and monetary consequences that can result from a violation of any false claims laws, Ararat Home will implement a strict policy that applies to all employees. Ararat Home will provide the government with truthful information regarding the services that are rendered. Ararat Home will not allow its employees or agents to fraudulently misrepresent to the government about the services that it provides.

Procedure

All employees are required to report to the Executive Director, Administrator or his/her designee about any possible fraud, waste or abuse as soon as he or she becomes aware of them.

All reports of fraud, waste or abuse will be handled as confidentially as possible.

Reporting possible fraud, waste or abuse to Ararat Home will not preclude the employee from directly reporting it to the government. However, Ararat Home would prefer to handle the matter internally before getting outside entities involved.

An employee who reports possible fraud will be contacted during the investigation and corrective action will be taken where appropriate.

Every report of perceived fraud, waste or abuse will be fully investigated and corrective action will be taken where appropriate.

Violation of this policy will result in disciplinary action.

Ararat Home will not allow any form of retaliation against employees who report possible fraud or false claims to the Executive Director, Administrator or his/her designee or who cooperation the investigation of such reports.

If an employee chooses to report the abuse directly to the government, she/he will not be retaliated or discriminated against any way by Ararat Home.

Subject	General Policies		
Policy #	7.12	Original #	7.13

Employee Personnel Files

Policy Statement

Ararat Home maintains a personnel record for each employee containing all information required by law.

Procedure

When a new employee is hired, the Executive Director, Administrator, and/or the In-Service Educator, Dietary Supervisor, and Plant Manager shall prepare a Personnel file for the employee. This will include three (3) separate files, personnel, educational, health files.

Personnel file will include:

- The employee's full name
- Social security number
- Documentation for citizenship or immigration status
- Copy of completed INS employment eligibility form
- Copy of professional license
- Completed application form
- Copies of any resumes and letters of recommendation
- Emergency contact information

Educational File will include:

- Documentation of evidence of orientation
- Letter of appointment with job description
- Employee orientation signoff sheet

Health File will include:

- Health record
- Report of pre-employment interview/testing results

The following information will be added to the personnel, educational and health files during the course of employment:

- Evidence of annual health examination
- Any completed performance evaluation
- Documentation for any salary step increases, status changes, or promotions.

- Copies of any new job description of promotions
- Copies of any written warning forms
- Notes from any verbal warning
- Employee accident/incident reports
- Documentation of all benefits received
- Documentation of sick leave time
- Documentation of continuing education courses
- Documentation of grievances
- Exceptional performance, including Citations for outstanding effort

The immediate supervisor will maintain and update the personnel files, educational, and health files. All files will be kept in the supervisor's office in designated file cabinets and shall be accessible only to authorized persons. Personnel files for terminated employees are kept separately from current employment records.

If an employee has questions regarding his/her files, a request may be made to his/her immediate supervisor to inspect it. The employee may not remove any information from the file, but may inform the supervisor of any information he/she believes inaccurate, or contest any information kept within through normal grievance procedure.

All other authorized persons wishing to see personnel files, shall request permission from the Executive Director/ Administrator. The Business Office staff does not have authority to grant such requests. In general, authorized persons shall include: The Executive Director/Administrator, the Board of Trustees and their representatives, and representatives of the Department of Health or other government agencies required by law to have access to such files.

All employee personnel files shall be retained in the facility for a minimum of seven (7) years following the last dated entry.

Title

E-Mail

Policy Statement

Ararat Home allows employees to use electronic mail (E-Mail), both internally and externally, to more efficiently communicate the facility's business needs.

Procedure

Immediate supervisors delegate the education of employees about the proper use of the E-Mail system.

The company's E-Mail system is to be used for business purposes. Therefore, under normal circumstances, an employee should not use the company's E-Mail system for personal purposes.

E-Mail messages received and transmitted by company employees on company equipment are the property of the company. Therefore, the company has the right to access and monitor any such messages. Each employee whose E-Mail messages may be accessed or monitored by the company will be requested to sign a consent form which authorizes the company to access and monitor that employee's messages.

An employee may be disciplined for using the company's E-Mail system in an improper way. Improper use of the E-Mail system includes, but is not limited to, using the system for personal purposes; using the system for harassing, insulting, offending, or threatening purposes; and using the system for any unlawful purpose.

Continuing Education Reimbursement

Policy Statement

Ararat Home may grant leave of absences, and to contribute to the cost of continuing education coursework when employees attend job-related educational programs. This must be approved by department heads.

Procedure

For the purpose of continuing education reimbursements, all requests shall be considered by the Administrator/Executive Director or their designee.

Employees are eligible for time off without pay, for continuing education not required by law, that's solely for employee enrichment. Prior approval procedure must be followed and the employee's time card marked appropriately.

Prior approval for reimbursement should include:

- The course title and purpose
- The name of the educational institution or agency sponsoring the course
- The date(s), time, and length of the course
- The location at which the course will be taught
- The cost of the course
- The signature and title of the person making the request

Ararat Home shall reimburse the employees mentioned above reasonable expenses for continuing education coursework upon satisfactory completion. All receipts must also be submitted within 30 days.

Title

Grievances/Terminations

Policy Statement

Ararat Home provides a grievance procedure to allow employees adequate and just recourse in airing grievances, and achieve prompt resolution.

Procedure

Employees must comply with each step of this procedure in order to have their grievance reviewed.

Employees shall initially discuss grievances with their immediate supervisor.

If there is still no resolution, the employee may bring their grievance through the levels of management at Ararat Home up to the level of Executive Director/Administrator. All relevant notes and materials shall be maintained in the employee's personnel file.

If there is still no resolution, the employee's final recourse is with the Human Resources Committee of the Board of Trustees. The Committee will hear all relevant testimony and evidence, from the employee and staff. The decision of the Committee will be final.

Title

Disciplinary Action

Policy Statement

It is the policy of Ararat Home is to enforce disciplinary action if the policy, procedures, or standards of conduct are violated by an employee.

Procedure

Disciplinary action can take several forms, depending upon the severity of the infraction or multiple occurrences of the offense.

Verbal Notification: An employee may be called into conference with his/her supervisor, and the matter discussed and policy or conduct reviewed. Three verbal reprimands will constitute a written reprimand.

Notice of Disciplinary Action: Formal written notice given to an employee including a description of the misconduct and corrective action plan shall constitute a Notice of Disciplinary Action. One copy shall be delivered to the employee, and a second copy shall be retained in the employee’s file. The employee shall sign copies to formally acknowledge receipt of the written Notice of Disciplinary Action. Three written Notice of Disciplinary Actions may warrant a suspension or termination based upon the outcome of the 3rd written Notice of Disciplinary Action.

Suspension: An employee, who has not complied with a policy or procedural requirement of the Ararat Home, may be suspended, or placed on mandatory leave of absence without pay, until the policy or procedural requirement is fulfilled.

Termination: Employment may be terminated as a final disciplinary action, if warnings have not resulted in improved performance and corrective action by the employee, or if the nature of an employee’s infraction of a policy, procedure, or code of conduct is severe enough to warrant such action.

In addition, any employee who does not report to duty as scheduled, without former knowledge of the assigned unit (No Show), may be terminated automatically.

Title

Terminations Voluntary/ Involuntary & Resignations

Policy Statement

Ararat Home has defined procedures to be followed in the event of an employee termination, to protect the rights of both the employee and organization. Ararat Home shall comply with all fair employment practices with regard to the termination of employees.

Procedure

Termination shall comply with the following procedure:

Resignation: Occurs when an employee resigns his/her position with the Ararat Home.

The employee shall submit a formal letter of resignation and shall indicate his/her last day of work. Ararat Home requires at least 2 weeks notice of intent to resign. If 2 weeks notice is not given the employee is not eligible for rehire.

Employees resigning shall be paid the balance of salary due within 48 hours of the last day worked. The employee shall receive an accounting of any accrued PTO benefits, and shall receive payment for benefit time included in the last pay check.

It is not the policy of Ararat Home to pay severance pay to resigned employees. Special exception may be made with the approval of the Executive Director and/or the Administrator.

Involuntary termination: Occurs when an employee's conduct or performance has warranted three disciplinary actions. Involuntary termination shall occur when repeated verbal and written warnings have failed to show marked improvement in the areas of deficiency.

A supervisor shall recommend termination to the Executive Director/Administrator, who shall review the case and take the disciplinary action.

Subject	Employee Grievances		
Policy #	10.2	Original #	10.3
Title	Terminations & Resignations	Original Date	06/17/88
		Revision Date	12/31/04

Terminated employees shall receive a written notice of termination, and shall receive the balance of salary due at the time of termination. The employee shall also receive their accrued PTO at the time of termination.

Any employee who feels they have been wrongfully terminated has recourse through the grievance procedure of Ararat Home.

All terminated employees shall return all Ararat Home material, including Id badge, keys, etc. Materials not returned shall result in salary withholdings to cover the cost incurred by the Ararat Home as a result of the employee's failure to do so. In the case of keys and security clearance materials, the employee's final paycheck shall be held until the return of materials.

Immediate termination may occur following proof of sexual harassment, abuse or fraud.

Terminated employee, previously receiving medical insurance coverage through the Ararat Home may elect to continue coverage by following the procedures policies under COBRA.

Ararat Nursing Facility

Job Description #2.03	Title: Administrator
Immediate Supervisor: Executive Director	Original Date: 06/18/88 Revision Date: 03/01/07 Revision Date: 05/27/08 Revision Date:07/19/09

Purpose of Position:

To supervise the day-to-day operations of the facility in accordance with current federal, state, and local standards, guidelines, and regulations that govern long-term care facilities and as directed by the Executive Director to assure that the highest degree of quality care is maintained at all times.

Duties and Responsibilities; Administrator:

- Assist in planning, developing, organizing, implementing, directing and monitoring the day-to-day functions of the facility, its programs and activities.
- Assist in developing and implementing written policies and procedures that govern the operation of the facility.
- Assist in developing and maintaining written job descriptions for each staff position in accordance with the Americans with Disabilities Act, OSHA, and other pertinent laws governing job positions.
- Assist department directors in the development and use of departmental policies and procedures, and establish a rapport in and among departments so that each can realize the importance of team work.
- Review the facility's policies and procedures periodically, at least annually, and make recommendations to assure continued compliance with current regulations.
- Interpret the facility's policies and procedures to employees, residents, family members, visitors, government agencies, etc., as necessary.
- Ensure that public information (policy manuals, etc.) describing the services provided in the facility is accurate and fully descriptive.
- Ensure that all employees, residents, visitors, and the general public follow established policies and procedures.
- Represent the facility in dealings with outside agencies, including governmental agencies and third party payers, or delegate a representative of the facility when unable to attend such meetings.
- Make written and oral reports/recommendations to the Executive Director concerning the operation of the facility.
- Recommend to the Executive Director changes in the overall organizational structure.
- Assist in reviewing and approving the implementing of new procedures and organizational plans within each department.
- Actively participate in facility surveys (inspections) made by authorized regulatory government agencies.

- Review and develop a plan of correction for deficiencies noted during survey inspections and provide a written copy of such plan to the appropriate governmental agency and the Executive Director.
- Maintain liaison with families and residents.
- Maintain a good public relations program that serves the best interest of the facility and community alike.
- Serve on various committees of the facility (i.e., Infection Control, PIQI, Safety, etc., and provide written/oral reports).
- Recruit and select competent staff.
- Delegate responsibility, and accountability to staff as deemed necessary to perform their assigned duties.
- Work with the facility's consultants as necessary and implement recommended changes as approved by the Executive Director.
- Attend and participate in workshops, seminars, etc., to keep abreast of current changes in the long-term care field, as well as to maintain a professional status.
- Report to the Executive Director information/knowledge obtained in seminars/meetings.
- Create and maintain an atmosphere of warmth, personal interest, and positive relationship, as well as a calm environment throughout the facility.
- Assist in preparing an annual operating budget.
- Review and interpret monthly financial statements and provide feedback to the Executive Director.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- Must possess as a minimum of Bachelor of Arts/Science degree in Business, Health Care Management, or Nursing.
- Must possess a minimum two years of experience in long term care setting.
- Must have a current license as a Nursing Home Administrator with the California State Board.

Ararat Nursing Facility

Job Description #2.13	Title: Director of Clinical Services
Immediate Supervisor: Executive Director	Original Date: 06/18/88 Revision Date: 10/03/05 - May 2011

Purpose of Position:

To plan, organize, develop and direct Nursing Services in accordance with current federal state, and local standards, guidelines, and regulations that govern our facility, and as may be directed by the Executive Director, to ensure that the highest degree of quality care is maintained at all times.

Typical Duties and Responsibilities; Director of Clinical Services:

- Develop, maintain, and periodically update the Nursing Services Manual and nursing service objectives and philosophy.
- Determine staffing needs and assure scheduling is done accordingly.
- Employ nursing personnel and conduct performance appraisals.
- Ensure that departmental disciplinary action is administered without regard to race, color, creed, national origin, age, sex, religion, handicap, or marital status.
- Provide leadership for Nursing Services.
- Provide the Executive Director with information relative to the needs of residents.
- Review complaints and grievances made by the resident/family and make a written/oral report of the investigation results to the Executive Director.
- Attend IDT care conferences.
- Participate in PIQI activities.
- Coordinate medical staff grand rounds and assure that they are conducted in a timely and professional manner.
- Make recommendations for terminations.
- Attend and participate in professional associations and programs to keep abreast of current regulations and guidelines as well as learn new skills.
- Maintain the confidentiality of personnel as well as all resident care information. Comply with Resident Rights and HIPAA requirements.
- Build and maintain positive relationships with residents, family, and staff.
- Conduct performance appraisals of nursing personnel.
- Communicate with families and follow up with resident care related issues.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency condition (i.e. severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by Supervisor.

Qualifications:

- Must possess an active Registered Nurse license in California.
- Must possess the ability to plan, organize, develop, implement, and monitor the programs, goals, objectives, policies and procedures, etc., that are necessary for providing quality care.
- Minimum two years of experience in nursing management in a health care facility.

Qualifications:

- Must possess a Nursing Degree from an accredited college or university. Must possess an active Registered Nurse license in California.
- Must possess the ability to plan, organize, develop, implement, and monitor the programs, goals, objectives, policies and procedures, etc., that are necessary for providing quality care.
- A minimum of one year of experience in nursing administration/supervision in a health care facility.

Ararat Nursing Facility

Job Description #2.14	Title: Environmental Service Aide (Housekeeping)
Immediate Supervisor: Administrator	Original Date: 06/18/88 Revision Date: 12/31/04 Revision Date: 03/01/07 – August 2009

Purpose of Position:

To perform the day-to-day activities of the Housekeeping Department in accordance with current federal, state, and local standards, guidelines and regulations governing the facility, and as may be directed by the Administrator, to assure that the facility is maintained in a clean, safe, and comfortable manner.

Duties and Responsibilities; Environmental Services (Housekeeping):

- Ensure that work/cleaning schedules are followed as closely as practical.

- Must be knowledgeable about boilers, compressors, generators, etc., as well as various mechanical, electrical and plumbing systems.
- Must have the ability to read and interpret blueprints.
- Must be knowledgeable in building codes and safety regulations.
- Must possess the ability to make independent decisions when circumstances warrant such action.

Ararat Nursing Facility

Job Description #2.09	Title: RCC Coordinator
Immediate Supervisor: Director of Clinical Services	Original Date: 06/18/88 Revision Date: 12/31/04 – May – 2007 May 2011

Purpose of Position:

To provide direct nursing care to the residents, and to supervise the day-to-day care giver activities performed by nursing assistants. Such supervision must be in accordance with current federal, state, and local standards, guidelines, and regulations that govern our facility, and as may be required by the Director of Clinical Services or Nurse Supervisor to ensure that the highest degree of quality care is maintained at all times.

Duties and Responsibilities; RCC Coordinator:

- Meet with assigned nursing staff, support personnel, in planning the shifts' services, programs, and activities.
- Ensure that the Nursing Service Procedures Manual is current and reflects the day-to-day nursing procedures performed by personnel in this facility.
- Cooperate with other resident services when coordinating nursing services to ensure that the resident's total regimen of care is maintained.
- Participate in the facility's quality assurance program for the nursing service department.
- Participate in facility surveys (inspections) made by authorized government agencies as may be requested.
- Admit, transfer, and discharge residents as required. Complete all necessary forms.
- Perform administrative duties such as completing medical forms, reports, evaluations, studies, charting, etc., as necessary.
- Administer medications to residents safely and responsibly.
- Chart nurses' notes in an informative and descriptive manner that reflects the care provided to the resident, as well as the resident's response to the care.
- Fill out and complete accident/incident reports. Submit to Director as required.
- Ensure that an adequate supply of floor stock medications, supplies, and equipment are on hand. Report needs.
- Ensure that narcotic records are accurate for the areas of responsibility at the beginning and end of shift. Any discrepancy is to be reported immediately to supervisor.
- Participate in employee performance evaluations.
- Report absentee to appropriate personnel.
- Make daily rounds of station, provide leadership to nursing personnel.
- Receive/give the nursing report upon reporting in and ending shift duty hours.
- Make rounds and follow-up with physicians as necessary.
- Notify the resident's attending physician and next-of-kin when there is a change in the resident's condition.

- Provide basic nursing care.
- Inform family members of the death of the resident.
- Ensure that all personnel wear and/or use safety equipment and supplies (e.g., back brace, mechanical lifts, etc.) when lifting or moving residents.
- Monitor nursing procedures to ensure that nursing service supplies are used in an efficient manner to avoid waste.
- Review care plans daily to ensure that appropriate care is being rendered. Inform the Resident Care Planner of any changes that need to be made on the care plan.
- Ensure that nurses' notes reflect that the care plan is being followed when administering nursing care or treatment.
- Review resident care plans for appropriate resident goals, problems, approaches, and revisions based on nursing needs.
- Schedule and monitor performance of CNAs assigned.
- Monitor nursing care to ensure that all residents are treated fairly, and with kindness, dignity, and respect.
- Report and investigate all allegations of resident abuse and/or misappropriation of resident property.
- Ensure that nursing staff personnel honor the resident's refusal of treatment request.
- Attend and participate in continuing education programs designed to keep you abreast of changes in profession, as well as to maintain your license on a current status.
- May work other than normal working hours and on weekends and holidays when necessary, as well as in other positions as needed.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Maintains confidentiality of personnel as well as resident care information.
- Any other duties assigned by supervisor

Qualifications:

- Must possess a current, active license to practice as an RN or /LVN in the state of California.
- Must be able to read, write, speak, and understand the English language.

Ararat Nursing Facility

Job Description #2.06	Title: RCC/Resident Care Planner
Immediate Supervisor: Administrator	Original Date: 06/18/88 Revision Date: 12/31/04 – May – 2007- Feb - 2011

Purpose of Position:

To provide direct care to residents and to conduct and coordinate the development and completion of the resident care plan in collaboration with Interdisciplinary Team in accordance with current rules/regulations/guidelines that govern MDS 3.0/CATS and collaboration with Interdisciplinary Team.

Duties and Responsibilities; RCC/Resident Care Planner

- Meet with assigned nursing team to support personnel in planning resident centered care plans.
- Maintain and periodically participate in written policies and procedures that govern the development, use, and implementation of the care plan.
- Work with the Interdisciplinary Care Plan Team in the timely development of a comprehensive resident centered assessment and care plan for each resident.
- Participate in facility surveys (inspections) made by authorized government agencies.
- Serve on, participate in, and attend various other committees of the facility as assigned. Provide written and/or oral reports of the resident assessment/care plan functions as requested or directed by committees or supervisor.
- Work with the Interdisciplinary Care Plan Team in developing a comprehensive care plan for each resident.
- Develop in a timely manner a written plan of care (preliminary and comprehensive) for each resident that identifies the problems/needs of the resident, indicates the care to be given, goals to be accomplished, and which professional service is responsible for each element of care.
- Meet with families to identify resident's life style issues/needs for the initiation of an individualized care plan.
- Inform all assessment team members of the requirements for accuracy and completion of the resident care plan.
- Assist the nursing staff in encouraging the resident and his/her family to participate in the development and review of the resident's plan of care.
- Conduct weekly clinical rounds with the psychiatrist and communicate the effectiveness of Behavioral Management Interventions as identified at IDT meetings.
- Attend and participate in workshops and seminars to keep abreast of current changes in the health care field.
- Assist Resident Assessment Coordinator with CATs (Care Area Triggers) completion.

- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- Must possess a current, active license to practice as a LVN in the state of California.
- Must have, as a minimum, 2 year(s) of experience as a charge nurse in a hospital, long-term care facility, or other related health care facility.

Ararat Nursing Facility

Job Description #2.29	Title: Receptionist
Immediate Supervisor: Executive Director	Original Date: 06/18/88 Revision Date: 12/31/04/August 2009

Purpose of Position:

To perform clerical support in an efficient manner in accordance with established procedures, and as directed by your supervisor.

Duties and Responsibilities; Receptionist:

- Operate paging/telephone system as required.
- Answer telephone; determine nature of call and direct caller to appropriate individual or department.
- Receive request from within the facility and locate personnel through paging system.
- Maintain a current file/listing of residents by name and room number, emergency phone numbers of on-call personnel, department extensions, key personnel, etc.
- Greet visitors. Direct to the appropriate office and/or resident room.
- Give directions/information to visitors, guests, residents, sales representatives, etc.
- Offer beverages to visitors waiting for administrative personnel, as appropriate.
- Report suspicious persons/information to supervisor immediately.
- Assist with administrative duties as directed. (Includes typing, filing, posting accounts, etc.)
- Receive, sort, and distribute mail as directed.
- Operate copier, office machines, etc., as directed.
- Operate computer as directed.
- Follow all established safety procedures and precautions when operating office equipment.
- Report equipment malfunctions or breakdowns to supervisor as soon as possible.
- Use office supplies in an efficient manner to avoid waste.
- Ensure that work/assignment areas are neat, clean, and office equipment is covered before leaving such areas on breaks, end of work day, etc.
- Attend and participate in appropriate in-service training programs.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- High School diploma.
- Must be able to read, write, speak, and understand the English language.
- Computer and telephone proficiency preferred.

Job Description #2.30	Title: Resident Assessment Coordinator
Immediate Supervisor: Executive Director	Original Date: 06/18/88 Revision Date: 12/31/04 August 2009 May 2011/ October 2011

Purpose of Position:

To conduct and coordinate the development and completion of the resident assessment (MDS) in accordance with current rules, regulations, and guidelines that governs the resident assessment, including the implementation of Care Area Triggers (CATs).

Duties and Responsibilities; Resident Assessment Coordinator:

- Coordinate the entire MDS assessment process.
- Maintain and periodically update written policies and procedures that govern the development, use, and implementation of the resident assessment (MDS) and care plan.
- Perform MDS duties such as completing medical forms, reports, evaluations, studies, etc, as necessary.
- Participate in facility surveys (inspections) made by authorized government agencies.
- Serve on, participate in, and attend various other committees of the facility as assigned. Provide written and/or oral reports of the resident assessment/care plan functions as requested or directed by committees.
- Work with the Interdisciplinary Care Plan Team in developing a comprehensive resident assessment and care plan for each resident. Conduct and schedule the Interdisciplinary Team Care Conferences.
- Assist in the timely development of a written plan of care (preliminary and comprehensive) for each resident that identifies the problems/needs of the resident, indicates the care to be given, goals to be accomplished, and which professional service is responsible for each element of care.
- Inform all assessment team members of the requirements for accuracy and completion of the resident assessment.
- Assist the nursing staff in encouraging the resident and his/her family to participate in the development and review of the resident's plan of care.
- Attend and participate in workshops and seminars to keep abreast of current changes in the health care field.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- Must possess a current, active license to practice as a LVN/RN in the state of California. MDS certification is preferable.
- Must have, as a minimum, 2 year(s) of experience as a supervisor in a hospital, long-term care facility, or other related health care facility.
- Must have, as a minimum, 3 months training experience in rehabilitative and restorative nursing practices.

Ararat Nursing Facility

Job Description #2.31	Title: Restorative Nursing Assistant
Immediate Supervisor: Director of Clinical Services	Original Date: 06/18/88 Revision Date: 12/31/04/August 2009/ October 2011

Purpose of Position:

To perform restorative nursing procedures that maximize the resident's existing abilities, emphasize independence, and minimize the negative effects of disability with an attitude of realistic optimism under the supervision of the Director of Clinical Services and in accordance with federal state and local standards, guidelines and regulations.

Duties and Responsibilities; Restorative Nursing Assistant:

- Provide restorative nursing care as directed and ordered (i.e. feeding, active and passive range of motion, ambulation, and transfers).
- Provide activities of daily living (bathing, showering, grooming, toileting, etc.)
- Provide a safe environment for residents during exercises and assist in designing living environment to provide optimum comfort and safety.
- Prepare resident for treatment by dress/position and provide exercises as ordered.
- Assist in transporting resident to and from therapy room/area. Perform exercises in the resident's room if necessary.
- Reassure resident before and during exercise session and provide instruction and supervision during exercise.
- Report and document any changes in resident's condition and/or severity of limitations to senior team leader immediately.
- Complete weekly restorative summaries. Ensure that all RNA notes are informative and descriptive of the care provided and of the resident's response to the care.
- Identify faulty restorative devices and report to the RNA Team Leader immediately.
- Report residents' condition at interdisciplinary care conferences.
- Function as CNA when requested by immediate supervisor.
- Administer first aid measures as initiated by the Resident Care Coordinator.
- Participate in departmental studies and projects as assigned or that may become necessary.
- Wear and/or use safety equipment and supplies (e.g., back brace, mechanical lifts, etc.) when lifting or moving residents.
- Follow established infection control procedures and universal precautions when performing duties.
- Ensure that the therapy area is maintained in a clean and safe manner for resident comfort and convenience by assuring that necessary equipment and supplies are maintained to perform such duties/services.
- Utilize all department equipment and supplies in an efficient manner that promotes desired outcomes and minimizes waste.

- Attend and participate in in-service training programs.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- Must be able to read, write, speak, and understand the English language.
- Must possess the ability to deal tactfully with personnel, residents, family members, visitors, government agencies/personnel, and the general public.
- Must possess a current Certified Nursing Assistant license.

Ararat Nursing Facility

Job Description #2.34	Title: Social Service Designee
Immediate Supervisor: Director of Clinical Services	Original Date: 06/18/88 Revision Date: 12/31/04/August 2009/ October 2011

Purpose of Position:

To assure that the medically related emotional and social needs of the resident are met/maintained on an individual basis in accordance with current existing federal, state, and local standards, as well as the facility established policies and procedures.

Duties and Responsibilities; Social Service Designee:

- Conduct admission interviews to gather pertinent social and emotional information about resident applicants.
- Record pertinent social history on residents' charts in a timely manner, including plans for meeting any needs that have been assessed.
- Document appropriate problems, goals and plans on resident care plans.
- When necessary, implement plans to meet medically related social needs.
- Reassess all residents quarterly after admission, carrying out documented programs.
- Seek assistance from the social work consultant as necessary, as well as staff members and community resources.
- Develop and carry out a discharge plan for each resident, assessing home situation, financial resources, medical needs and community resources. Make appropriate referrals to community resources to ensure continuity of care.
- Participate in regularly scheduled resident care conferences. Serve as an advocate in the protection of resident's rights.
- Coordinate social services on behalf of the resident with nursing, restorative care, and activities via informal communications as well as resident care conferences.
- Provide assistance to families regarding the medically related social needs of residents.
- Perform other functions as identified and delegated by the social work consultant and/or Executive Director within facility policies.
- Label all television, or radios and other electrical devices according to the facility policies.
- Follow-up with lost and found/misplaced personal belongings of residents.
- Schedule and follow-up with optometry, dental, and audio logy consultations.
- Attend and participate in workshops and seminars to keep abreast of current changes in the health care field.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).

- Any other duties assigned by supervisor.

Qualifications:

- High School graduate. College courses or degree in social work preferred.
- Ability to handle confidential data appropriately.
- Ability to accept and utilize professional supervision, consultation and in-service training. Ability to relate appropriately and effectively with patients and their families, with other staff members, and personnel of community agencies.
- Ability to effectively assess medically related social and emotional problems of patients and to utilize facility and community resources.

Ararat Nursing Facility

- Ability to understand and carry out instructions.
- Ability to organize tasks effectively and efficiently.
- Ability to follow up in a timely manner.
- Good verbal skills.

Ararat Nursing Facility

Job Description #2.36	Title: Treatment Nurse
Immediate Supervisor: Director of Clinical Services	Original Date: 06/18/88 Revision Date: 12/31/04 May 2011

Purpose of Position:

To provide primary skin care to residents under the medical direction and supervision of the residents' attending physicians, the Director of Clinical Services, or the Medical Director of the facility, with an emphasis on treatment and therapy of skin disorders. This position will also assist in modifying the treatment regimen to meet the physical and psychosocial needs of the resident, in accordance with established medical practices, the requirements of the state and the policies and goals of the facility.

Duties and Responsibilities; Treatment Nurse:

- Report to the Director of Clinical Services or designee regarding dermatologic disorders of residents in the facility.
- Consult with the Care Planning Team concerning assessment evaluations and assist in planning and developing the skin care treatment to be performed for the resident.
- Initiate requests for consultation or referral. Respond to requests from the resident, physician, or nursing staff.
- Examine the resident and his/her records and charts, and discriminate between normal and abnormal findings, in order to recognize when to refer the resident to a physician for evaluation, supervision, or directions.
- Complete medical forms, reports, evaluations, studies, charting, etc.
- Implement and maintain established policies and procedures relative to skin care treatments.
- Make written and oral reports/recommendations to the attending physician, Medical Director, or the Director of Clinical Services concerning the status and care of the residents.
- Work with the Interdisciplinary Care Plan Team in developing a comprehensive assessment and care plan for assigned residents.
- Provide written and/or oral status reports of residents that you are treating.
- Identify, manage, and treat specific skin disorders and primary and secondary lesions, such as skin abrasions, foot problems such as corns and callouses, decubitus ulcers, bacterial, parasitic and viral skin infections, scaling papular diseases, and benign tumors.
- Perform an assessment evaluation using techniques including observation, inspection, and palpation.
- Ensure that residents with decubitus ulcers receive appropriate prophylaxis and treatment, such as daily inspection, turning and activity, a well-planned diet, and maintaining a clean, dry bed.
- Provide techniques to prevent skin impairments.

- Assist in monitoring the inventory of medications, medical supplies, and equipment to ensure that adequate supplies of skin care products are on hand to meet the needs of residents.
- Be familiar with and use as appropriate all items of personal protective equipment and universal precautions at all times.
- Wear and/or use safety equipment and supplies (e.g., back brace, mechanical lifts, etc.) when moving or lifting residents.
- Follow all universal infection control procedures.
- Attend and participate in workshops and seminars to keep abreast of current changes in the health care field.
- Maintain the confidentiality of all resident care information.
- May work other than normal working hours and on weekends and holidays when necessary.
- Is subject to call-back during emergency conditions (e.g., severe weather, evacuation, post-disaster, etc.).
- Any other duties assigned by supervisor.

Qualifications:

- Must possess a current, active license to practice as an LVN/RN in this state.
- Must have, as a minimum, 2 year(s) of experience as an LVN/RN.

Emergency Operations Plan

Purpose

In addition to the Infection Prevention and Control Program required by 42 CFR § 483.80(a) and the Emergency Operations Plan required by 42 CFR § 483.73, Ararat Nursing Facility (the “Facility”) has developed this COVID-19 Mitigation Plan to address the unique challenges presented by the current public health emergency (PHE) declared on January 31, 2020, in relation to the COVID-19 pandemic. We will use our existing policies, the processes outlined herein, and guidance issued by state and federal agencies to mitigate the risks posed to our residents, health care personnel (HCP), and our greater community by the spread of COVID-19.

Testing and Cohorting

Point of Prevalence Survey (PPS)

The Centers for Disease Control (CDC) notes that early experience from nursing homes with COVID-19 cases suggests that when residents and/or HCP with COVID-19 are identified, there are often asymptomatic residents and/or HCP with SARS-CoV-2 present as well. Therefore, if testing capacity allows, facility-wide PPSs of all residents and HCP will be utilized. Use of PPSs of all residents and HCP in the Facility can identify infected residents who can be cohorted on a pre-specified unit or transferred to a COVID-specific facility.

- If testing capacity is not sufficient for facility-wide PPS, performing PPSs on units with symptomatic residents will be prioritized.
- If testing capacity is not sufficient for unit-wide PPS, testing will be prioritized for symptomatic residents and other high-risk residents, such as those who are admitted from a hospital or other facility, roommates of symptomatic residents, or those who leave the facility regularly for dialysis or other services.

After initial PPS has been performed for residents and HCP, the Facility will test weekly or biweekly (depending on the community outbreak numbers and the zone that the facility is in, as well as any additional state, county, or city guidance) and consider additionally retesting under the following circumstances:

- Retest any resident or HCP who develops symptoms consistent with COVID-19.
- Retest HCP prior to permitting infected individuals from returning to work.
- If testing capacity permits, retest all residents and HCP who previously tested negative at least weekly to detect those with a newly developed infection.
- If testing capacity is not sufficient for retesting all residents, retest those residents who frequently leave the facility for dialysis or other services and those with known exposure to infected residents (such as roommates).
- If testing capacity is not sufficient for retesting all HCP, the Facility will prioritize retesting HCP who are known to work at other healthcare facilities with cases of COVID-19.

Resident Screening and Testing

The Facility has an arrangement with Primex Lab & Radiology, Core Lab & Radiology, and Avellino Labs to process tests. The test used will be able to detect SARS-CoV-2 virus (e.g., polymerase chain reaction (PCR)) with greater than 95% sensitivity, greater than 90% specificity, with results obtained rapidly. Antibody test results will not be used to diagnose someone with an active SARS-CoV-2 infection.

As practicable, the Facility will request that residents admitted or readmitted from the hospital be tested prior to admission or readmission. Upon admission, the Facility will screen new admissions and readmissions for fever¹ and symptoms² of COVID-19 and will test for COVID-19 if such test was not performed prior to admission or readmission. As space restrictions permit, the Facility may place newly admitted or readmitted residents whose COVID-19 status is unknown in a single-person occupancy room for observation prior to placement in a multiple-person occupancy room. If available, residents in *observation rooms* will be quarantined for fourteen (14) days and retested for COVID-19 prior to placement in multiple-person occupancy rooms. If testing is not available, but utilizing space for observation is, residents will be transferred to multiple-person occupancy rooms if they remain afebrile and without symptoms for fourteen (14) days after admission/readmission.

During each shift residents will be screened for vitals, fever and signs and symptoms of respiratory illness and COVID-19. If positive for fever or symptoms, the Facility will implement transmission-based precautions and implement vital sign checks and symptom monitoring twice per shift.

Residents who become symptomatic or become exposed to an individual who has tested positive for COVID-19 during their stay will be tested for COVID-19 as soon as possible. If the resident is residing in a multiple-person occupancy room, either the symptomatic resident or roommate will be moved to a single-person occupancy room until test results are received, if space permits. The Facility will closely monitor roommates and other residents who may have been exposed to an individual with COVID-19 and, if possible, avoid placing unexposed residents in a shared space with potentially exposed residents until such exposed residents can be tested. Exposed

¹ Fever is either measured temperature $\geq 100.0^{\circ}\text{F}$ or subjective fever. Note: Fever may be intermittent or may not be present in some individuals, such as those who are elderly, immunosuppressed, or taking certain medications (e.g., NSAIDs). Clinical judgement should be used to guide testing of individuals in such situations.

² Symptoms consistent with COVID-19 are cough, shortness of breath or difficulty breathing, fever, chills, sore throat, muscle aches, and *new* loss of taste or smell. Note: Older adults with COVID-19 may not show typical symptoms such as fever or respiratory symptoms. Atypical symptoms may include new or worsening malaise, new dizziness, or diarrhea. Identification of these symptoms should prompt isolation and further evaluation for COVID-19.

residents who test negative for COVID-19 post-exposure but are still within 14 days of exposure will be retested if they exhibit fever or symptoms.

COVID-19 test results will be communicated to residents or their responsible parties in the same manner that the Facility communicates other test results. Such notifications will be documented in the residents' medical records.

Residents who are symptomatic but refuse or are unable to be tested will be placed in rooms with other symptomatic residents who are either awaiting test results or have declined testing. The Facility will request that the refusing resident will wear a mask for source control, if not contraindicated. Residents who refuse testing will be counseled regarding the risks posed to themselves and others by not testing.

Serial testing will be used as long as the Facility has one or more residents or HCP with confirmed COVID-19. Serial retesting of all residents who test negative upon initial testing will be performed every seven (7) days until no new cases are identified in two (2) sequential rounds of testing, as testing supplies permit. Testing more frequently than every seven (7) days may be considered for residents who frequently leave the Facility for dialysis or other services. After two (2) sequential rounds without additional cases of COVID-19 identified, we will resume our regular surveillance testing schedule. Residents who have tested positive should not participate in serial testing.

HCP Screening & Testing

HCP have been educated to regularly monitor themselves for fever and symptoms of COVID-19. HCP have been instructed to stay home when they are ill. At the beginning of their shift, all HCP are screened for fever and symptoms consistent with COVID-19 by taking their temperature and documenting the absence of symptoms consistent with COVID-19. If HCP develop fever or symptoms consistent with COVID-19 while at work, they will keep their cloth face covering or facemask on, inform their supervisor, and leave the workplace.

HCP who are symptomatic and refuse testing will be excluded from in accordance with the criteria outlined below in *Return to Work for HCP*. HCP who are asymptomatic and refuse to be tested will be required to wear a mask at all times while at the Facility for source control and may be limited to non-resident care duties.

Serial testing will be used as long as the Facility has one or more residents or HCP with confirmed COVID-19. Serial retesting of all HCP who test negative upon initial testing will be performed every seven (7) days or more frequently (if mandated by County based on community spread) as per CMS guidelines. If HCP work in more than one healthcare setting, HCP may utilize testing results from another employer within the last seven (7) days to satisfy the serial testing policy.

Cohorting of Residents

Based on the number of suspected or confirmed cases of COVID-19 positive residents, the Facility will consider designating entire units, with dedicated HCP, to care for residents with known or suspected COVID-19. Dedicated means that HCP are assigned to care only for these residents during their shift. Cohorting applies to asymptomatic and symptomatic residents with confirmed COVID-19.

Only residents with the same respiratory pathogen will be housed in the same room. For example, a resident with COVID-19 will not be housed in the same room as another resident with an undiagnosed respiratory infection. Residents who are symptomatic and *suspected* to have COVID-19 should not be cohorted in the same room with COVID-19 positive residents until after testing results are received and the COVID-19 infection is confirmed. To the extent possible, residents with known or suspected COVID-19 will be housed in the same room for the duration of their stay in the Facility.

To the extent possible, residents who have tested negative but are within fourteen (14) days of exposure to a COVID-19 positive individual, will be cohorted together. The exposed residents without COVID-19 positive tests will not be placed in rooms with COVID-19 positive residents.

The Facility will limit transport and movement of residents with suspected or confirmed COVID-19 outside of the room to medically essential purposes.

The Facility will use the following guidelines for determining when residents with COVID-19 can be moved out of COVID-19 units.

Symptomatic Residents with Confirmed COVID-19

- *Symptom-based strategy*. Remain on COVID-19 Unit Until:
 - At least 1 day (24 hours) have passed *since recovery* defined as resolution of fever without the use of fever-reducing medications and improvement in respiratory symptoms (e.g., cough, shortness of breath); and
 - At least twenty (20) days have passed *since symptoms first appeared*.

Asymptomatic Residents with Laboratory-Confirmed COVID-19

- *Time-based strategy*. Remain on COVID-19 Unit Until:
 - Fourteen (14) days have passed since the date of their first positive COVID-19 diagnostic test assuming they have not subsequently developed symptoms since their positive test.
 - If the resident develops symptoms, then the *symptom-based* or *test-based strategy* should be used. Note, because symptoms cannot be used to gauge where these residents are in the course of their illness, it is possible that the duration of viral shedding could be longer or shorter than 10 days after their first positive test.

Return to Work for HCP

HCP with suspected or confirmed COVID-19 will be excluded from work. The Facility will use the following guidelines for determining when HCP with suspected or confirmed COVID-19 may return to work.

Symptomatic HCP with Suspected or Confirmed COVID-19

- *Symptom-based strategy*. Exclude from work until:
 - At least 3 days (72 hours) have passed *since recovery* defined as resolution of fever without the use of fever-reducing medications and improvement in respiratory symptoms (e.g., cough, shortness of breath); and
 - At least ten (10) days have passed *since symptoms first appeared*.

Asymptomatic HCP with Laboratory-Confirmed COVID-19

- HCP who test positive and are asymptomatic can continue to work as long as they are **only** caring for residents with confirmed COVID-19, preferably in a cohort setting, and maintain separation from other HCP as much as possible and wear a facemask for source control at all times while in the Facility.
 - Asymptomatic positive HCP may not care for residents who have not tested COVID-19 positive until at least 10 days from the date of their positive test.
 - If the Facility cannot maintain adequate separation of asymptomatic COVID-19 positive HCP from other HCP, the Facility will exclude asymptomatic COVID-19 positive HCP from work and follow the time-based strategy.
- *Time-based strategy*. Exclude from work until:
 - Ten (10) days have passed since the date of their first positive COVID-19 diagnostic test assuming they have not subsequently developed symptoms since their positive test.
 - If the HCP develops symptoms, then the *symptom-based or test-based strategy* should be used. Note, because symptoms cannot be used to gauge where these individuals are in the course of their illness, it is possible that the duration of viral shedding could be longer or shorter than 10 days after their first positive test.

A non-punitive sick leave policy has been established to address Covid-19 related leaves of absence. All employees will be provided with a DCW-1 form to address any unpaid time through an opportunity to apply for Worker's Compensation coverage.

Infection Prevention and Control

Infection Preventionist

The Facility employs a full-time individual that serves as the Infection Preventionist (IP). The Facility's IP is Zovinar Bolkorjian who has the following experience and training to demonstrate her competency in this role:

- RN with associate degree in Nursing
- Certified Director of Staff Development
- Certified Infection Preventionist
- 9 + years of experience in a skilled nursing facility

In addition to our facility-based IP, the Facility contracts with Dolly Greene of DRG IC Consulting to provide clinical consulting support, which includes oversight of our Infection Prevention and Control Program. Dolly's qualifications for consulting services relevant to addressing the current PHE include:

- Director of Clinical Services & Education – Diagnostic Labs & Radiology
- Director of Infection Control Programs – Rockport Healthcare
- Infection Preventionist at Expert Stewardship, Inc.

HCP Education

In response to the PHE, the Facility has increased the in-services for HCP to mitigate the effects of the COVID-19 pandemic. The Facility is implementing the most current guidance from state and federal agencies related to early identification and prevention of the spread of COVID-19. The Facility is providing on-going education during the PHE on the following topics:

- Hand Hygiene
- Signs & Symptoms of COVID-19
- Reporting Changes of Condition
- Transmission-Based Precautions
- Resident Isolation
- Proper Use of Personal Protective Equipment
- Extended Use of Personal Protective Equipment
- Sick time policy – extended pay
- Change of uniforms if working in other facilities

During this PHE, training frequency has increased to weekly and more frequently as needed, and has been focused on aspects of COVID-19, with increased redundancy on topics that we feel are pertinent to our facility status. Additionally, training is now conducted in smaller groups (at stations, in departments), with ample time for demonstration and questions if needed. Trainings are provided by DSD/IP and supplemented by DON, and Department Managers.

PPE Coaches will be designate to increase the efforts and efficacy of donning/doffing training and observation on every shift. PPE Coaches will be designated as: Infection

Preventionist/DSD, Assistant DSD, Director of Clinical Services, Administrator, and RN Supervisors on every shift.

Personal Protective Equipment

The Facility is licensed for 254 beds. Based on current patient needs, the Facility averages 130 HCP across all three shifts daily. Anticipating the donning and doffing of personal protective equipment (PPE) for HCP and use of PPE by residents and visitors, we have determined that the following par levels for each category of PPE are required to maintain safe infection control practices consistent with guidance from the Centers for Disease Control (CDC) for optimal use of PPE during the PHE. The duration that the PPE will last is based on The National Institute for Occupation Safety and Health’s (NIOSH) application³ that calculates the average PPE consumption rate or “burn rate.”

Category of PPE	Par Level	Duration Par Will Last
Gowns	9,360	Approx. 14 to 21 days
Gloves	10,000	Approx. 14 to 21 days +
Surgical Masks	9,360	Approx. 14 to 21 days +
Respirator Masks	3640	Approx. 14 days +
Face Shields	130 reusable headbands with disposable shields	Approx. 14 days +
Eyewear	75	Approx. 14 + days

The Facility has a contract with TwinMed. PPE deliveries are scheduled weekly. Orders will be placed to maintain the above identified par levels, at a minimum. Additional ongoing orders are being placed with Direct Supply, Medline, and Skilled Nursing Pharmacy (Ancillary Provider Services division) for additional PPE stock.

If at any time the Facility is low on supply of PPE in any category, we will follow CDC guidance regarding prioritized use, extended use, and reuse for such PPE as indicated.

Staffing Shortages

Preparation for Staffing Shortages Needs

The Facility has a contract with CareerStaff, Go RN, and Clipboard Health to provide additional HCP in the event of an emergency situation. The staffing agency is responsible for completing verification of licenses, background checks, competencies and exclusion screening for all agency staff.

If indicated, the Facility may also collaborate with other local healthcare providers who are not impacted by current PHE (e.g., physician practices, elective surgery practices, etc.) to provide emergency support services. These individuals may provide service as a volunteer in accordance with the Facility’s emergency volunteer policy or under an

³ <https://www.cdc.gov/niosh/ppe/ppeapp.html>

independent contractor or employment agreement. Such individuals will have licenses, background checks and exclusion screening verified by the Facility prior to the staffing shortage for immediate mobilization when necessary. Periodically the Facility will update this information as indicated.

The Facility will determine adequate staffing levels based on the needs of the resident population. The process for evaluating adequacy of staffing ratios is outlined in the Facility Assessment. The Facility will utilize our staffing tools to estimate staffing needs at increased frequencies during the PHE and in response to sudden changes in the resident population.

Responding to Staffing Needs and Shortage

HCP in regular and temporary or contracted positions, appropriate with their role, must contact the Director of Staff Development or immediate supervisor if they are unable to report to duty as scheduled. HCP have been advised that approved paid time off (PTO) days during the current PHE may be cancelled at the discretion of the Administrator.

Specific staff will be designated to zones (green, yellow, red) and all efforts will be made to prevent sharing, socializing, or usage of common areas by staff of different units.

If we identify a potential staffing shortage as the result of the current PHE, the Administrator or designee is responsible for contacting off-duty HCP to report for duty and follow the Facility's surge staffing policy to track availability of off-duty HCP. The Administrator or designee will collaborate with the Director of Staff Development to ensure that HCP are scheduled accordingly to meet resident care needs. HCP that are contacted may be asked to report for duty immediately or be scheduled for future shifts as determined by the Director of Staff Development or designee.

If the Facility is unable to meet staffing needs by contacting off-duty HCP, the Administrator will initiate alternate staffing protocols, including:

- Utilizing appropriately licensed administrative staff to perform direct resident care; and/or
- Utilizing agency staffing; and/or
- Utilizing contracted local HCP who work in setting not impacted by the PHE; and/or
- Utilizing volunteers; and/or
- Identifying additional HCP to work in the Facility pursuant to state emergency waivers; and/or

All temporary HCP will receive orientation to emergency related precautions specific to the current PHE and their responsibilities.

As indicated, the Administrator may provide or arrange for transportation or housing solutions for HCP whose ability to report to work may be impacted by such factors. Such accommodations will be determined on a case-by-case basis.

If the Facility experiences a sudden spike in staff absenteeism or attrition, creating an urgent staffing shortage that jeopardizes the health and safety of residents, the Administrator will report such incident in compliance with unusual occurrence reporting requirements.

Continued Work for Asymptomatic HCP with Unprotected Exposure

Whenever possible, HCP who have had unprotected exposure to COVID-19 will be tested to rule out infection prior to continuing to be scheduled. If such testing is unavailable and the Facility is experiencing a crisis related to staffing shortages, we may permit such exposed asymptomatic HCP to continue to work to address crisis staffing shortages if such HCP wear a mask for source control for 14 days post-exposure. A facemask instead of a cloth face covering will be used by these HCP for source control during this time period while in the facility, unless an N95 or higher-level respirator (or other PPE) is indicated, including for the care of residents with suspected or confirmed COVID-19.

If exposed HCP develop even mild symptoms consistent with COVID-19, they must notify their supervisor and cease resident care activities. These individuals will be prioritized for testing and will be excluded from work until they meet the requirements for returning to work outlined above. Exposed HCP who test negative for COVID-19 post-exposure but are still within 14 days of exposure will be retested if they exhibit fever or symptoms.

Designation of Space

Based on the number of suspected or confirmed COVID-19 cases, we will evaluate the need and feasibility of designating either a unit or section of contiguous rooms for residents under observation awaiting COVID-19 test results and a unit or section of contiguous rooms residents with confirmed COVID-19 infection. Residents with the same respiratory pathogen will be housed in the same room as outlined above in the “Cohorting of Residents” section of this Mitigation Plan To minimize the movement of HCP between COVID-19 dedicated spaces and the remainder of the Facility, specific HCP will be assigned to these rooms and not be required to provide care to residents in other areas of the Facility. If possible, HCP working in a COVID-19 designated space will have a restroom, break room and nursing station separate from HCP working in other areas of the Facility. To the extent possible, non-nursing HCP will not access the COVID-19 designated area.

COVID-19 designated “red” areas will have signage at the entrance that instructs HCP to wear eye protection and an N95 or higher-level respirator, or a facemask if a respirator is not available, at all times while on the unit. Gowns and gloves should be added when entering resident rooms. To the extent possible, COVID-19 designated areas will also have dedicated resident care equipment (e.g., vitals machine). Cleaning and disinfection of shared equipment should be performed between residents and the

equipment should not leave the COVID-19 designated area. All residents in the Covid-19 designated “red” zone will be alone in a room as space permits. If not, residents who are asymptomatic may be cohorted together if needed, until further space is available. Residents who are symptomatic will remain alone in a room.

In the event that we cannot meet the above outlined plan for designating space to suspected or confirmed COVID-19 cases, the Administrator will notify CDPH and the local public health department, and assess the appropriateness of transferring residents with suspected or confirmed COVID-19 to alternate care sites. The Administrator will coordinate with the Medical Health Operational Area Coordinator (MHOAC) before initiating a transfer to an alternate care site.

Communication

The Administrator is responsible for communication with HCP, residents and their families regarding the status and impact of COVID-19. In the event that the Administrator becomes unavailable, the Director of Nursing will assume responsibility for such communication.

The Facility is reporting information to CDPH regarding staffing levels, the number suspected and confirmed COVID-19 residents, equipment availability, and other needs of the Facility by 12:00 P.M. Pacific Time daily via an online survey.

Our COVID-19 communication plan also includes electronically reporting information about COVID-19 in a standardized format specified by the Secretary of the Department of Health and Human Services (DHHS). This report must include but is not limited to:

- Suspected and confirmed COVID-19 infections among residents and staff, including residents previously treated for COVID-19;
- Total deaths and COVID-19 deaths among residents and staff;
- Personal protective equipment and hand hygiene supplies in the facility;
- Ventilator capacity and supplies in the facility;
- Resident beds and census;
- Access to COVID-19 testing while the resident is in the facility;
- Staffing shortages; and
- Other information specified by DHHS.

Such information will be reported no less than weekly to the CDC’s National Healthcare Safety Network through rights being conferred to CDPH for reporting.

Additionally, we will inform residents, their representatives, and families of those residing in facilities within 12 hours of the occurrence of either a single confirmed infection of COVID-19, or three or more residents or HCP with new-onset of respiratory symptoms occurring within 72 hours of each other. This information will include information on mitigating actions implemented to prevent or reduce the risk of transmission, including if normal operations of the facility will be altered, and availability

of PPE for staff. Unless there is a newly confirmed infection of COVID-19 or three or more residents or HCP with new onset of respiratory symptoms occur within 72 hours of each other, this information must be reported to residents, their representatives, and families no less than weekly. Information disclosed to residents, their representatives and families will not include individually identifiable information.

When a COVID-19 positive resident is transferred to another congregate setting, the receiving entity will be informed of the resident's COVID-19 positive status prior to the transfer to confirm that the receiving provider has the capability to care for the resident.

Attestation

By signing below, I attest that I have reviewed the above detailed COVID-19 Mitigation Plan. This Mitigation Plan will be reviewed not less than monthly as part of the Facility's Quality Assessment and Performance Improvement Program. I understand that as additional guidance becomes available that this Mitigation Plan may need to be updated.

SECTION 1 – INTRODUCTION

A. Definitions

“Facility” means Ararat Nursing Facility.

“PIQI” means Performance Improvement, Quality Improvement. PIQI is synonymous with “QAPI” – Quality Assurance, Performance Improvement.

“PIQI Plan” means this document in its entirety.

"Staff Members" means all employees and volunteers. This also includes owners of the Facility and the Governing Board.

B. Background

In March 2010, Congress passed the Affordable Care Act (ACA). A provision of the ACA required that the Centers for Medicare and Medicaid Services (CMS) establish and implement a Quality Assurance Performance Improvement program. In October 2016, CMS issued new Requirements of Participation for Long-term Care Facilities, which included the QAPI provisions mandated by the ACA. The QAPI regulations (42 C.F.R. §483.75) outline the requirement for facilities to develop, implement and maintain an effective, comprehensive, data driven QAPI program that focuses on the outcomes of resident care and quality of life. In Ararat Nursing Facility, QAPI is known as “PIQI” – Performance Improvement, Quality Improvement, and this program has been in place since 1997, though throughout time, it has been modified and changed to meet the changing regulatory environment for the betterment of the system and the quality of care provided at the facility.

C. Mission Statement

Our mission statement is “Ararat Nursing Facility exists to provide ‘resident centered’ nursing care primarily for the Armenian Community, regardless of individuals’ financial status, and to promote Armenian heritage and culture in America.” Our vision statement is, “Ararat Nursing Facility will continue its quest for excellence in a culture of compassion through the continued employment of best practices, innovative care models, and state-of-the-art facilities.”

D. Purpose of this PIQI Plan

The Facility’s written PIQI plan sets forth the basis and goals of our Facility’s overall quality improvement program. PIQI principles will drive the decision making within our Facility. Decisions will be made to promote excellence in quality of care, quality of life, resident choice and resident centered care. Focus areas will include areas from our Quality Measures and Satisfaction Surveys, and all areas that affect the quality of life for persons living and working in our Facility. Our goal is to continuously improve

organizational performance and resolve problems, concerns or issues as identified through the PIQI implementation process.

E. PIQI Philosophy

We believe that we can certainly improve quality of care and life when we focus on our core values and when we continuously measure and improve our performance, primarily, the performance of our organizations systems, processes and outcomes through a systematic manner of data collection, analysis, decision making, implementation, intervention, and evaluation. Our Quality Improvement Plan is called PIQI (Performance Improvement Quality Improvement). PIQI program is a structured, process-outcome oriented system for the entire RCC (Resident Centered Care) team and its services. The program's focus is on root cause analysis, continuous improvement, employee empowerment, proactive approach, human resource excellence and compassionate care. PIQI does not bear any negative connotation. It is a life style of our culture.

F. Review and Revision

The Executive Director (Administrator) will assure that the PIQI Plan is reviewed no less than annually, or as needed by the PIQI Committee. Revisions will be made to the PIQI Plan on an as needed basis, to reflect our current practices and goals. When conducting the annual review of the PIQI Plan, the Administrator will consider whether previous goals were met, if outcomes were maintained, and identify obstacles to achievement that need to be resolved. Revisions to the PIQI Plan will be communicated as they occur to board members, residents, families and staff through meetings, mailers, and/or postings.

SECTION 2 – SCOPE

PIQI activities will be integrated across all of the care service areas of our Facility. Staff Members will work together to identify opportunities for improvement across our continuum of care to better meet the needs of the residents living in our Facility. On an annual basis, and as needed, the Facility is required to conduct a Facility Assessment (42 C.F.R. § 483.70(e)) which will include a review of the services and care areas that are provided by Facility Staff. Any new service areas or changes in resident population identified during the Facility Assessment will be included in our PIQI plan.

The PIQI Program includes, but is not limited to, the continuous monitoring of the following services and issues:

1. Nursing Services
2. Comprehensive Resident Care Planning
3. Resident Assessments
4. Restorative Nursing
5. Therapeutic Activity Services / Life enrichment
6. Social Services
7. Food and Nutritional Services
8. Infection Prevention
9. Administration
10. Physician Services
11. Environmental Services/Laundry Services
12. Pharmaceutical Services/ Drug Utilization
13. Business Services
14. Medical Records
15. Human Resources
16. Contract Services (Lab, Pharmacy, Ambulance, Dental, etc.)
17. Staff Education/Orientation/Training (Annual Mandatory)
18. Unusual Occurrences/Incident/Accidents
19. Grievances
20. Plant Management
21. Staff Turnover
22. Survey Deficiencies
23. Staffing Patterns (Consistent Assignments, Flexibility)

Ararat Nursing Facility

24. Resident/Family Satisfaction Surveys
25. Guest Relations
26. Minutes of Various Meeting (Staff, Resident and Family Council, Safety, IDT, etc.)
27. Employee Recognition
28. State and Federal Regulatory Standards
29. RN/LVN Practice Act
30. CMS Quality Indicator/Measures
31. Resident Liaison Committee
32. Rehabilitation Services

Our Responsibility:

1. Establish a policy to implement the plan
2. Determine the objective of the plan
3. Establish PIQI Committee and meet at least quarterly
4. Assign authority for implementing the plan
5. Support and supervise the implementation process
6. Protect the confidentiality of the PIQI data
7. Assist with the development and/or revision of the PIQI program
8. Assist with the development of PIQI activities
9. Identify trends/patterns and act upon them
10. Review quarterly data and make recommendations for corrective action plans

PIQI Committee membership shall consist of:

1. Executive Director
2. Medical Director/ and/or UR Physician
3. Director of Clinical Services
4. PIQI Nurses
5. Human Resources
6. Resident Assessment Coordinators
7. Resident Care Planners
8. Business Services Coordinators

Ararat Nursing Facility

9. Director of Staff Development
10. Social Services Director and/or Designee
11. Staffing Coordinator
12. Life Enrichment Team Leaders
13. RNA Team Leader
14. Director of Food and Nutritional Services
15. Director of Environmental Services - Housekeeping
16. Director of Environmental Services – Laundry
17. Director of Rehabilitation Services
18. Representative/Medical Records
19. Representative/CNAs
20. Representative/LVNs
21. Plant Manager and/or Designee
22. Consultant/Laboratory and Diagnostic Services
23. Consultant/Pharmaceutical Services
24. Consultant/Infection Prevention and Control

Our service areas include:

- Long-Term Care;
- Rehabilitation Services; and

Our PIQI Plan establishes the policies and procedures used to:

- Establish goals and thresholds for our performance measurement;
- Identify and use data to monitor our performance;
- Utilize resident, staff and family input;
- Identify and prioritize problems and opportunities for improvement;
- Develop corrective action or performance improvement activities; and
- Systematically analyze underlying causes of problems and adverse events.

The principles of PIQI will be taught to board members through annual Governing Board reports and to staff through in-services.

Problem Identification:

Ararat Nursing Facility

Our Facility will partner with residents, their families and/or advocates to achieve their individualized goals and provide care that respects their autonomy, preferences and choices through IDT meetings, feedback from Satisfaction Surveys, and our suggestion box. When an unmet need is identified, we will implement corrective action plans or Performance Improvement Projects to improve processes, systems, outcomes, and satisfaction.

Problems will be identified and prioritized by continuous monitoring of all aspects of the Scope of Care. The entire organization will be involved in this process utilizing the following:

1. Philosophy of PIQI program
2. Unusual Trends (repetitive repairs, high turnover, frequent refusal for treatments by residents, unresolved behavior patterns by resident, physician unavailability, Medi-Cal/Medicare/HMO denials, etc.)
3. Unusual occurrences (accidents, injuries, medication errors, etc.)
4. Grievances (resident, family, guest, employee)
5. Medical Records Requests and Monitoring
6. Consultant Report and Recommendations
7. Facility Policies And Procedures
8. Regulatory Agency (State, Federal) Standards
9. RCC Meetings
10. Any problem/issue/concern submitted by any person, be it anonymous or signed.

The following three basic questions will be asked every time a problem/issue/concern is identified:

1. Is it knowledge deficit?
2. Is it lack of system design?
3. Is it behavioral?

The resolution will be based upon the validity of the data collected and root cause analysis.

Performance Improvement Indicators:

Monitoring will include indicators and specific criteria with pre-established thresholds to aspects of the Scope of Care.

Data Collection:

All levels of RCC team will be involved in data collection. Services Supervisor/Team Leader/Director is responsible for the accurate collection and analysis of the data.

Analysis of Data:

The Executive Director will review the data collected from each service to determine trends, patterns, issues, concerns, and/or problems. The data and recommendations for resolution of the problem/concern will be presented to the PIQI Committee.

Development of Action Plan:

1. Problem Identification (Root Cause Analysis)
2. Corrective Action Plan
3. Implementation of the Corrective Action Plan
4. Evaluation of the Corrective Action Plan
5. Re-evaluation of the Corrective Action Plan

Communication of the Action Plan:

The entire process of the above (1-4 steps) will be communicated to all services involved through their supervisor/team leader.

Confidentiality:

1. All data relating to activities of Performance Improvement/Quality Improvement are immune from discovery and not admissible into a court of law.
2. The minutes of PIQI committee are confidential and not subject to review unless approved by the governing board.
3. Custody of PIQI files is the responsibility of the governing board, the Executive Director, and they will be retained for a period of not less than seven (7) years.

Our Facility strives to employ evidence based practices related to performance excellence in all management practices, clinical care, and resident and family satisfaction. We will solicit and utilize staff, resident and family input into our PIQI program. The Facility will utilize data including, but not limited to the following: PEPPER Report, Satisfaction Surveys, Resident Council, and Quality Measures.

The PIQI Committee will review acquired data on a quarterly basis to assure systems are adequately monitored and performance levels are maintained to achieve the highest level of quality for our organization.

SECTION 3 – GOVERNANCE AND LEADERSHIP

A. Oversight and Governing Body Involvement

The Executive Director/Administrator, Director of Clinical Services, and Medical Director will provide the framework or structure for PIQI in our Facility. The PIQI Committee will communicate and coordinate PIQI activities by focus areas. The Facility will appoint the Administrator to facilitate discussion of PIQI activities at the quarterly PIQI Committee meeting. Input will be solicited from all staff members on PIQI activities. The Facility will communicate PIQI activities to the governing board through annual meetings so that all current projects and outcomes can be reviewed.

Ararat Nursing Facility

The Administrator is responsible and accountable for reporting to the governing body and ensuring that PIQI is implemented throughout our Facility. The Administrator is also responsible for assuring that all PIQI activities and required documentation are provided to the governing body.

B. Staff Member Training and Collaboration

Our Facility will ensure that Staff Members receive training on PIQI principles through annual in-services. This PIQI Plan will be provided to new hires during the orientation process. At least annually, revisions to the PIQI Plan will be discussed with Staff Members and copies of the updated PIQI Plan will be available upon request.

Our Facility adheres to the practices and principles of a fair and just culture. The promote staff involvement in improving quality. All Staff Members are encouraged to bring concerns, issues, and opportunities for improvement to any supervisor/manager by promoting retaliation our Open-Door Policy and an atmosphere of non-retaliation. Department managers will respond in a consistent manner to encourage, and not discourage, transparency and open communication to learn from incidents and make systemic changes to prevent recurrences. Facility Staff Members will be held accountable for their behavioral choices and noncompliant behavior will not be tolerated. Our Facility's goal is to improve the systems that drive our actions.

C. Commitment of Resources

The Administrator and governing body will establish a budget to ensure that PIQI activities are supported. These expenses may include, but are not limited to: Staff Member time for being involved in Performance Improvement Projects and meetings, monies needed for improvement projects, investment in Staff Member training and education, etc. This budget will be reviewed by the Administrator and governing board, and revised as necessary.

SECTION 4 – DATA SYSTEMS, MONITORING AND FEEDBACK

A. Identification of PIQI Priorities

Our Facility recognizes that all aspects of resident care and quality of life are essential to our operations. As part of the Facility's annual review of the PIQI Plan, the PIQI Committee will identify priority service areas and collect data pertaining specifically to our Facility's priorities. Our current areas of focus include: Gradual Dose Reduction and appropriate use of antipsychotics. Our Facility identifies specific areas of focus to produce the most meaningful improvement to resident care and quality of life.

B. Data Analysis

Our Facility utilizes a systematic approach to determining problems, their cause, and the implication of a change. The Facility demonstrates proficiency of Root Cause Analysis (RCA), which is a term used to describe a systematic process for identifying contributing causal factors that underlie variations in performance. The structured method of analysis is designed to get to the underlying cause of a problem that helps identify systemic (i.e., indicative of a large problem) and isolated issues, indicating when a PIP(s) should be implemented to make improvements.

Our Facility has systems in place to monitor the identified focus areas through multiple data sources, such as Quality Measures, Quality Indicators, CASPER Reports, and Satisfaction Surveys, that are reviewed on a quarterly basis. The data collected by the PIQI Committee is assessed by the Administrator, Director of Clinical Services and Medical Director on a quarterly basis.

Our Facility will use benchmarking to compare outcomes against state and national data. The results of benchmarking analysis will aid the facility in identifying opportunities for changes in processes and systems to improve outcomes. The results will also be communicated to staff during annual in-services as well as during the PIQI Committee meetings.

C. Monitoring Performance

Our Facility's monitoring systems include processes to prevent adverse events through IDT and staff meetings. Our Facility also includes tracking, investigating, and monitoring adverse events that are investigated as they occur. Action plans are implemented to prevent recurrences. Additionally, the PIQI Committee utilizes performance indicators to monitor a wide range of care processes and outcomes. The PIQI Committee reviews findings against benchmarks and/or targets our Facility has established for performance measurement.

D. Feedback

Ararat Nursing Facility

Reviewing data through reports is a static process. Our Facility is committed to a dynamic process that recognizes the value of real time feedback from Staff Members, residents and families. The Facility feedback systems incorporate information obtained from staff, residents, families and others as appropriate, through IDT meetings, staff meetings, and Resident Council meetings.

SECTION 5 – PREFORMANCE IMPROVEMENT PROJECTS

Our Facility will conduct Performance Improvement Projects (PIPs) that are designed to take a systematic approach to revise and improve care or services in the areas that we identify need attention. We conduct PIPs that will lead to changes across all departments. Our PIPs have an impact on the quality of life and quality of care for residents living in our Facility, which impact resident, family, and Staff Member satisfaction.

A. Identification of PIPs

The PIQI Committee will use the PIQI forms and Prioritizing worksheets available at all nursing stations, charting areas, and common areas for Performance Improvement Projects to prioritize PIPs. This tool will assist in identifying which potential areas for improvement are the highest priority based on the needs of the residents and the organization. Priority will be given to areas we define as high-risk to residents and Staff Members, high-prevalence, or high-volume areas, and areas that are problem-prone that affect health outcomes, quality of care and services, and areas that affect Staff Member safety and retention. (See Attachment 1). Not all areas identified by the PIQI Committee for data analysis and monitoring will become PIPs. The PIQI Committee may identify a specific issue requiring immediate intervention and resolution and act accordingly. Alternatively, isolated incidents are not ideal for on-going PIP activities.

B. Defining the Scope of the PIP and Teams

A charter will be developed for each PIP at the beginning of the project that clearly establishes the goals, scope, timing, milestones, team roles, and responsibilities. (See Attachment 2) The PIP charter will be developed by the PIQI committee. Refer to Section 6 for more information regarding systemic analysis and goal setting to assist with the development of the PIP charter. The process for assembling PIP teams to work on specific PIPs is based on the skill-set and job function of staff. When chosen to participate on a PIP team, Staff Members with direct care responsibilities will be replaced so that the needs of residents continue to be met. A team leader, who has the ability to coordinate, organize, and direct the work, will be selected. The PIP teams will report findings to the PIQI Committee during quarterly meetings.

The PIP teams considers each PIP a learning opportunity. Anticipated training needs are be discussed, as well as other resources to complete the PIPs. The team follows steps and processes that are needed for any quality improvement project. The responsibilities of the PIP teams are to utilize problem solving models and report findings to PIQI committee. The PIP team will use RCA to ensure that the root cause and contributing factors are identified. When determining and implementing interventions, PDSA cycles (Plan-Do-Study- Act) will be used. (See Attachment 3) The team selects and/or creates measurement tools to ensure that the corrective actions they are implementing have the desired effect.

The PIP team schedules routine meeting times. During the meeting, the PIP team reviews assigned duties/tasks, results of assigned work, plan progress, lessons learned and a project timeline. A designated member of the PIP team is responsible for documenting the meeting minutes. A copy of these minutes is provided to the PIQI Committee.

C. PIP Progress Reporting

The PIQI Committee documents milestones, PDSAs, outcomes and other lessons learned through utilizing our PIP Worksheets and PIQI Minutes.

Information about PIPs is shared to all residents, families, and Staff Members through IDT meetings, staff meetings, Resident Council meetings, letters from Administrator, and small group and one-on-one meetings.

SECTION 6 – SYSTEMATIC ANALYSIS AND SYSTEMIC ACTION

Our Facility uses a systematic approach to determine when in-depth analysis is needed to fully understand identified problems, causes of the problems, and implications of a change. To get at the underlying cause(s) of issue, we bring teams together to identify the root cause and contributing factors using incident reports, investigations, and the “5 Whys.”

Our Facility also uses SMART formula to establish appropriate goals for individual measures and also for PIPs. By utilizing the SMART formula, our Facility ensures that goals are specific, measurable, attainable, relevant and met timely (See Attachment 4).

To prevent future events and promote sustained improvement our Facility establishes preventative measures and communication with different departments to monitor and correct any discrepancies.

To ensure the planned changes/interventions are implemented and effective in measuring progress and sustaining improvement, our Facility will continuously track and trend outcomes and report to the PIQI Committee.

Our overall Facility goal is to make changes that will result in lasting improvement by avoiding quick and weak actions.

ATTACHMENT 1

Prioritization Worksheet for Performance Improvement Projects

Directions: This tool will assist in choosing which potential areas for improvement are the highest priority based on the needs of the residents and the organization. Follow this systematic assessment process below to identify potential areas for PIPs. This process will consider such factors as high-risk, high-volume, or problem-prone areas that affect health outcomes and quality of care. This tool is intended to be completed and used by the QAPI team that determines which areas to select for PIPs. Begin by listing potential areas for improvement in the left-hand column. Then score each area in the following columns based on a rating system of 1 to 5 as defined below:

1 = very low	2 = low	3 = medium	4 = high	5 = very high
---------------------	----------------	-------------------	-----------------	----------------------

Rating is subjective and is meant to be a guide and to stimulate discussion. Finally, add the scores across the row and tally in the final column. Potential improvement areas with a higher score indicate a higher priority.

POTENTIAL AREAS FOR IMPROVEMENT Identified through: Dashboard(s) Feedback from staff, families, residents, other incidents, near misses, unsafe conditions Survey deficiencies	PREVALENCE The frequency at which this issue arises in our organization.	RISK The level to which this issue poses a risk to the well-being of our residents.	COST The cost incurred by our organization each time this issue occurs.	RELEVANCE The extent to which addressing this issue would affect resident quality of life and/or quality of care.	RESPONSIVENESS The likelihood an initiative on this issue would address a need expressed by residents, family and/or staff.	FEASIBILITY The ability of our organization to implement a PIP on this issue, given current resources.	CONTINUITY The level to which an initiative on this issue would support our organizational goals and priorities.	TOTAL SCORE TALLY

Disclaimer: Use of this tool is not mandated by CMS, nor does its completion ensure regulatory compliance.

Ararat Nursing Facility

Additional factors to take into account:

1. What existing standards or guidelines are available to provide direction for this initiative?
2. What measures can be used to monitor progress?
3. Is the topic publicly reported on Nursing Home Compare and/or is it a goal of the Advancing Excellence in America's Nursing Homes campaign?
4. Which type of changes primarily will be involved (i.e., system changes, environmental changes, staffing changes)?
5. Which staff will be most affected by the initiative? What training needs will this initiative present?
6. Is there an identified champion(s) for this initiative?

Disclaimer: Use of this tool is not mandated by CMS, nor does its completion ensure regulatory compliance.

ATTACHMENT 3

PDSA Cycle Template

Directions: Use this Plan-Do-Study-Act (PDSA) tool to plan and document your progress with tests of change conducted as part of chartered performance improvement projects (PIPs). While the charter will have clearly established the goals, scope, timing, milestones, and team roles and responsibilities for a project, the PIP team asked to carry out the project will need to determine how to complete the work. This tool should be completed by the project leader/manager/coordinator with review and input by the project team. Answer the first two questions below for your PIP. Then as you plan to test changes to meet your aim, answer question 3 below and plan, conduct, and document your PDSA cycles. Remember that a PIP will usually involve multiple PDSA cycles in order to achieve your aim. Use as many forms as you need to track your PDSA cycles.

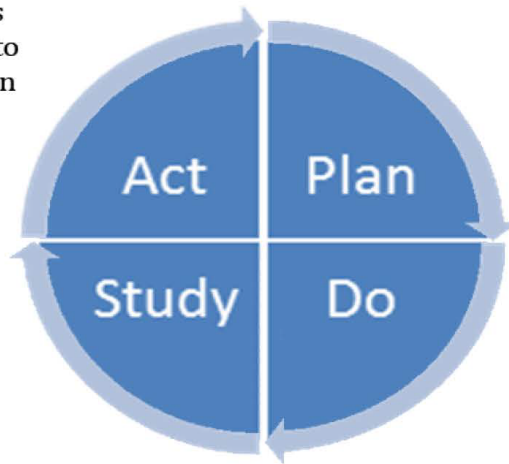

Model for Improvement: Three questions for improvement

<p>1. What are we trying to accomplish (aim)? State your aim (review your PIP charter – and include your bold aim that will improve resident health outcomes and quality of care)</p>
<p>2. How will we know that change is an improvement (measures)? Describe the measureable outcome(s) you want to see</p>
<p>3. What change can we make that will result in an improvement?</p> <p>Define the processes currently in place; use process mapping or flow charting</p> <p>Identify opportunities for improvement that exist (look for causes of problems that have occurred – see Guidance for Performing Root Cause Analysis with Performance Improvement Projects; or identify potential problems before they occur – see Guidance for Performing Failure Mode Effects Analysis with Performance Improvement Projects) (see root cause analysis tool):</p> <ul style="list-style-type: none"> ▪ Points where breakdowns occur ▪ “Work-a-rounds” that have been developed ▪ Variation that occurs ▪ Duplicate or unnecessary steps <p>Decide what you will change in the process; determine your intervention based on your analysis</p> <ul style="list-style-type: none"> ▪ Identify better ways to do things that address the root causes of the problem ▪ Learn what has worked at other organizations (copy) ▪ Review the best available evidence for what works (literature, studies, experts, guidelines) ▪ Remember that solution doesn’t have to be perfect the first time

Disclaimer: Use of this tool is not mandated by CMS, nor does its completion ensure regulatory compliance.

What changes are we going to make based on our findings?

What exactly are we going to do?

What were the results?

When and how did we do it?

<p>Plan</p> <p>What change are you testing with the PDSA cycle(s)? What do you predict will happen and why? Who will be involved in this PDSA? (e.g., one staff member or resident, one shift?). Whenever feasible, it will be helpful to involve direct care staff. Plan a small test of change. How long will the change take to implement? What resources will they need? What data need to be collected?</p>	<p>List your action steps along with person(s) responsible and time line.</p>
<p>Do</p> <p>Carry out the test on a small scale. Document observations, including any problems and unexpected findings. Collect data you identified as needed during the “plan” stage.</p>	<p>Describe what actually happened when you ran the test.</p>

Disclaimer: Use of this tool is not mandated by CMS, nor does its completion ensure regulatory compliance.

<p>Study</p> <p>Study and analyze the data. Determine if the change resulted in the expected outcome. Were there implementation lessons? Summarize what was learned. Look for: unintended consequences, surprises, successes, failures.</p>	<p>Describe the measured results and how they compared to the predictions.</p>
<p>Act</p> <p>Based on what was learned from the test: Adapt – modify the changes and repeat PDSA cycle. Adopt – consider expanding the changes in your organization to additional residents, staff, and units. Abandon – change your approach and repeat PDSA cycle.</p>	<p>Describe what modifications to the plan will be made for the next cycle from what you learned.</p>

Disclaimer: Use of this tool is not mandated by CMS, nor does its completion ensure regulatory compliance.

ATTACHMENT 4

Goal Setting Worksheet 

Directions: Goal setting is important for any measurement related to performance improvement. This worksheet is intended to help QAPI teams establish appropriate goals for individual measures and also for performance improvement projects. Goals should be clearly stated and describe what the organization or team intends to accomplish. Use this worksheet to establish a goal by following the SMART formula outlined below. Note that setting a goal does **not** involve describing what steps will be taken to achieve the goal.

Describe the business problem to be solved:

Use the SMART formula to develop a goal:

SPECIFIC

Describe the goal in terms of 3 'W' questions:

What do we want to accomplish?
Who will be involved/affected?
Where will it take place?

MEASURABLE

Describe how you will know if the goal is reached:

What is the measure you will use?
What is the current data figure (i.e., count, percent, rate) for that measure?
What do you want to increase/decrease that number to?

Disclaimer: Use of this tool is not mandated by CMS for regulatory compliance nor does its completion ensure regulatory compliance.

ATTAINABLE

Defend the rationale for setting the goal measure above:

Did you base the measure or figure you want to attain on a particular best practice/average score/benchmark?
Is the goal measure set too low that it is not challenging enough?
Does the goal measure require a stretch without being too unreasonable?

RELEVANT

Briefly describe how the goal will address the business problem stated above.

TIME-BOUND

Define the timeline for achieving the goal:

What is the target date for achieving this goal?
--

Goal Setting Worksheet

Write a goal statement, based on the SMART elements above. The goal should be descriptive, yet concise enough that it can be easily communicated and remembered.

[*Example:* Increase the number of long-term residents with a vaccination against both influenza and pneumococcal disease documented in their medical record from 61 percent to 90 percent by December 31, 2011.]

Tip: It's a good idea to post the written goal somewhere visible and regularly communicate the goal during meetings in order to stay focused and remind caregivers that everyone is working toward the same aim.

Disclaimer: Use of this tool is not mandated by CMS for regulatory compliance nor does its completion ensure regulatory compliance.

CERTIFICATE OF AMENDMENT
OF
ARTICLES OF INCORPORATION

MAR -4 1998

BILL JONES, SECRETARY OF STATE

Arthur Arutian and Charles Hintlian certify that:

1. They are the Chairman/Chief Executive Officer and Secretary, respectively of Ararat Home of Los Angeles, a California nonprofit public benefit corporation.
2. FIRST of the Articles of Incorporation of the corporation is amended to read as follows:

"The name of this corporation is

Ararat Home of Los Angeles, Inc."
3. FOURTH of the Articles of Incorporation of the corporation is amended to read as follows:

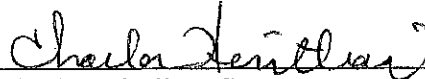

"The management of the affairs of the corporation shall be vested in a Board of Trustees, the number of which shall be specified in the corporation's bylaws."
4. The foregoing Amendment of Articles of Incorporation has been duly approved by the Board of Trustees.
5. The foregoing Amendment of Articles of Incorporation has been duly approved by the required vote of members.

We further declare under penalty of perjury under the laws of the State of California that the matters set forth in this certificate are true and correct of our own knowledge.

Date: February 27, 1998

Arthur Arutian, Chairman
Chief Executive Officer

Charles Hintlian, Secretary

COMPOSITE OF
ARTICLES OF INCORPORATION
AS OF MARCH 5, 1998

FIRST: That the name of said corporation shall be:
ARARAT HOME OF LOS ANGELES, INC.

SECOND: That it is a nonprofit corporation organized solely for general charitable and eleemosynary purposes under section 606 of the Civil Code of California.

THIRD: That the County in the State of California where the principal office for the transaction of the business of this corporation is to be located is Los Angeles County.

FOURTH: The management of the affairs of said corporation shall be vested in a Board of eighteen (18) trustees to be elected by a majority vote of the members present or by proxy at annual meetings;

Six (6) trustees shall be elected as aforesaid each year and the trustees so elected shall hold office for a period of three (3) years and until their successors are elected and qualify.

Paragraph 4A: That this corporation is not organized or operated for profit and does not contemplate the distribution of gains, profits or dividends to the members and no part of the net earnings enures to the benefit of any member or individual;

That the property or properties used by it as a home for the aged shall not be used or operated by it or by any other person for profit regardless of the purposes for which the profit is devoted or so as to benefit any officer, trustee, director, shareholder, member, employee, contributor or bondholder of this corporation, or any other person, through the distribution of profits, payment of excessive charges, or compensation or the more advantageous pursuit of their business or profession; nor shall it be used for fraternal or lodge purposes, or for social club purposes except where such use is clearly incidental to the primary charitable purposes for which it is formed and said property so used shall be used exclusively for, and is irrevocably dedicated to, charitable purposes, and upon the liquidation,

dissolution or abandonment of this corporation, it will not inure to the benefit of any private person except a fund, foundation or corporation organized and operated for such charitable purposes.

FIFTH: The names and residences of the members of the first Board of Trustees are respectively as follows:

Avedick H. Poladian	2670 Clyde Avenue. Los Angeles 16, Cal.
George J. Abajian	2325 Sixth Avenue, Los Angeles 16, Cal.
Maurice Kadjian	1426 Victoria Avenue, Los Angeles 6, Cal.
Haig Zavattjian	2426½ Hauser Blvd., Los Angeles 16, Cal.
Atoosiag Jarahian	1556 South Carmona Ave., Los Angeles 25, Cal.
Ervant OHannesian	1240 Crenshaw Blvd., Los Angeles 6, Cal.
Harry Kazanjian	897 N. Hill Ave., Pasadena 7, Cal.
Marie Pilibossian	814½ S. Mariposa St., Los Angeles 5, Cal.
Hetoun Balian	3761 East Olympic Blvd., Los Angeles 23, Cal.
John Moomjian	1181 Mullen Ave., Los Angeles 6, Cal.
Isabel Poladian	2760 Clyde Ave., Los Angeles 16, Cal.
Ghevent Cherbajian	2123 West Blvd., Los Angeles 16, Cal.
Sam Ishkanian	4114 Cumberland Ave., Los Angeles 27, Cal.
Nazenig Arjanian	1556 S. Carmona Ave., Los Angeles 25, Cal.
Margaret Hoogasian	1690 West Blvd., Los Angeles 16, Cal.
Other members and organizers:	
Dr. Sooran S. Alexander	1101 Redondo Blvd., Los Angeles 35, Cal.
Alice Ohannesian	1240 Crenshaw Blvd., Los Angeles 6, Cal.
Satenig Kadjian	1426 Victoria Ave., Los Angeles 6, Cal.
Berjoughie Simonian	3607½ W. Washington Blvd., Los Angeles 16, Cal.
Charles Jarahian	1556 S. Carmona Ave., Los Angeles 35, Cal.

SIXTH: Notwithstanding any other provision contained herein the corporation is authorized to enter into a contract (Regulatory Agreement) with the Federal Housing Commissioner and shall be bound by the terms thereof to enable the Commissioner to carry out the provisions of Title II, Section 207(b)(2) of the National Housing Act, as amended. Upon execution the contract (Regulatory Agreement") shall be binding upon the corporation, its successors and assigns, so long as a mortgage is outstanding, unpaid, and insured or held by the Federal Housing Commissioner.

CERTIFICATE OF AMENDMENT
OF ARTICLES OF INCORPORATION
ARARAY HOME OF LOS ANGELES, INC.

The undersigned, ARTHUR AGAJANIAN and ARMINE JANEVESIAN, do hereby certify that they are respectively, and have been at all times herein mentioned, the duly elected and acting Chairman and Secretary of the Board of Trustees of the Araray Home of Los Angeles, ~~INC.~~, a California non-profit corporation, and further that:

At the annual meeting of the Board of Trustees of said corporation, held at its principal office for the transaction of business at 3730 West 27th Street, Los Angeles, California, on the 24th day of March, 1974, at which meeting there was at all times present and acting a quorum of the members of said Board of Trustees, the following resolution was duly adopted:

WHEREAS, The Articles of Incorporation, paragraph FOURTH, as amended by Certificate filed September 21, 1966, of said corporation, provides as follows:

"FOURTH: The management of the affairs of said corporation shall be vested in a Board of fifteen (15) trustees to be elected by a majority vote of the members present or by proxy at annual meetings;

Five (5) trustees shall be elected as aforesaid each year and the trustees so elected shall hold office for a period of three (3) years, and until their successors are elected and qualify."

WHEREAS, it is deemed by the Board of Trustees of the corporation to be to the best interests of the corporation and to the best interests of its members that its Articles of Incorporation be amended as hereinafter provided:

NOW, THEREFORE, BE IT RESOLVED that paragraph FOURTH of the Articles of Incorporation be amended to read as follows:

"FOURTH: The management of the affairs of said corporation shall be vested in a Board of eighteen (18) trustees to be elected by a majority vote of the members present or by proxy at annual meetings:

Six (6) trustees shall be elected as aforesaid each year and the trustees so elected shall hold office for a period of three (3) years, and until their successors are elected and qualify."

RESOLVED FURTHER that the Chairman and Secretary of this corporation be, and they are hereby authorized and directed to procure the adoption and approval of the foregoing amendment by the vote or written consent of the members of this corporation holding at least a majority of the voting power; and thereafter to sign and verify by their oaths and to file a certificate in the form and manner required by Section 3672 of the Corporation Code of the State of California, and in general to do any and all things necessary to effect said amendment in accordance with the law made and provided therefore.

At the annual meeting of said corporation duly held at its principal office for the transaction of business, on the same day, the 24th day of March, 1974, at the hour of 4:00 P.M., there were

present fifty (50) members, thereby constituting a quorum, which by the By-Laws of this corporation requires only twenty-five (25) members to be present, the foregoing resolution was unanimously adopted and approved by the affirmative vote of said fifty (50) members for the approval and adoption of said resolution, no vote having been cast against.

The total number of members entitled to vote or consent to the adoption of such amendment is two hundred fifty (250).

The offices of Chairman and Secretary of the Board of Trustees of this corporation are equivalent to those of President and Secretary of the ordinary corporation.

IN WITNESS WHEREOF, the undersigned have executed this Certificate of Amendment this 30th day of April, 1974.

CERTIFICATE OF AMENDMENT

HANK M. JORDAN, Secretary of State
By A. G. YOUNG,
Deputy

OF

ARMENIAN SENIOR CITIZENS HOME AT LOS ANGELES

The undersigned, ARTHUR AGAJANIAN and ARMINE JANEVESIAN, do hereby certify that they are respectively, and have been at all times herein mentioned, the duly elected and acting Chairman and Secretary of the Board of Trustees of Armenian Senior Citizens Home At Los Angeles, a California non-profit corporation, and further that:

At a special meeting of the Board of Trustees of said corporation held at its principal office for the transaction of business at 2730 West 27th Street, Los Angeles, California, at 2:00 P.M., on the 14th day of January, 1969, at which meeting there was at all times present and acting a quorum of the members of said Board of Trustees, the following resolution was duly adopted:

WHEREAS, The Articles of Incorporation, paragraph FIRST, as amended by Certificate filed September 21, 1966, of said corporation, provides as follows:

"FIRST: That the name of said corporation shall be: ARMENIAN SENIOR CITIZENS HOME AT LOS ANGELES."

WHEREAS, it is deemed by the Board of Trustees of the corporation to be to the best interests of the corporation and to the best interests of its members that its Articles of Incorporation be amended as hereinafter provided:

NOW, THEREFORE, BE IT RESOLVED that paragraph

FIRST of the Articles of Incorporation be amended to read as follows:

"That the name of said corporation shall be: ARARAT HOME OF LOS ANGELES".

RESOLVED FURTHER that the Chairman and Secretary of this corporation be, and they are hereby authorized and directed to procure the adoption and approval of the foregoing amendment by the vote or written consent of the members of this corporation holding at least a majority of the voting power; and thereafter to sign and verify by their oaths and to file a certificate in the form and manner required by Section 3672 of the Corporation Code of the State of California, and in general to do any and all things necessary to effect said amendment in accordance with the law made and provided therefore.

At a special general meeting of said corporation duly held at its principal office for the transaction of business at 8:00 P.M., on the 19th day of January, 1969, forty (40) members were present thereby constituting a quorum, which by the By-Laws of this corporation requires only twenty-five (25) members to be present, the foregoing resolution was duly adopted and approved by the affirmative vote of said forty (40) members and eighty (80) absentee members voting for said resolution by proxy, or a total of one hundred twenty (120) votes for the approval and adoption of said resolution, no vote having been cast against.

The total number of members entitled to vote or consent to the adoption of such amendment is one hundred ninety (190).

The offices of Chairman and Secretary of the Board of Trustees of this corporation are equivalent to those of President and Secretary of the ordinary corporation.

I, FRANK M. JORDAN, Secretary of State of the State of California, do hereby certify that the name _____

"ARARAT HOME OF LOS ANGELES"

is not one which is likely to mislead the public and is not the same as, and does not resemble, so closely as to tend to deceive, the name of a corporation formed under the laws of this State, or the name of a corporation not incorporated under the laws of this State which is authorized to transact intrastate business in this State, or a name which is under reservation, as provided in Section 310 of the Corporations Code of said State, and that said name is hereby reserved for a period of thirty days from the date hereof for the exclusive use of the applicant for this certificate.

IN WITNESS WHEREOF, I hereunto set my hand

and affix the Great Seal of the State of California,

this 10th day of December _____

A.D. 1968.

OF

LOS ANGELES HOME FOR THE ARMENIAN AGED

The undersigned, JACK DANELIAN and ARMINE JANE VESIAN, do hereby certify that they are respectively, and have been at all times herein mentioned, the duly elected and acting Chairman and Secretary of the Board of Trustees of Los Angeles Home For The Armenian Aged, a California non-profit corporation and further that:

The Articles of Incorporation, as amended by Certificate filed April 16, 1956, paragraph FOURTH, of said corporation, provide as follows:

"FOURTH: The management of the affairs of this corporation shall be vested in a board of nine (9) trustees to be elected by a majority vote of the members present or by proxy at annual meetings as follows:

Three (3) trustees shall be elected as aforesaid each year and the trustees so elected shall hold office for a period of three (3) years, and until their successors are elected and qualify."

At a special meeting of the Board of Trustees of said corporation held at its principal office for the transaction of business at 3730 West 27th Street, Los Angeles, California, at 8 o'clock P.M. on the 28th day of February, 1965, at which meeting there was at all times present and acting a quorum of the members of said Board of Trustees, the following resolution was duly adopted:

WHEREAS, paragraph FOURTH of the Articles of Incorporation of Los Angeles Home For The Armenian Aged provides that the management of the affairs of said corporation shall be vested in a Board of nine (9) trustees to be elected by a majority vote of the members present or by proxy at annual

1 meetings, and further that three (3) trustees shall be elected in each year and
2 shall all hold office for three (3) years; and

3 WHEREAS, it is deemed by the Board of Trustees of the corporation to
4 be to the best interests of the corporation and to the best interests of its
5 members that its Articles of Incorporation be amended as hereinafter provided:

6 NOW, THEREFORE, BE IT RESOLVED that paragraph FOURTH of the
7 Articles of Incorporation be amended to read as follows:

8 "The management of the affairs of said corporation shall be vested in a
9 Board of fifteen (15) trustees to be elected by a majority vote of the members
10 present or by proxy at annual meetings:

11 Five (5) trustees shall be elected as aforesaid each year and the trustees
12 so elected shall hold office for a period of three (3) years, and until their
13 successors are elected and qualify."

14 RESOLVED FURTHER that the Chairman and Secretary of this corporation
15 be, and they are hereby authorized and directed to procure the adoption and
16 approval of the foregoing amendment by the vote or written consent of the
17 members of this corporation holding at least a majority of the voting power;
18 and thereafter to sign and verify by their oaths and to file a certificate in the
19 form and manner required by Section 3672 of the Corporation Code of the
20 State of California, and in general to do any and all things necessary to effect
21 said amendment in accordance with the law made and provided therefore.

22 The Articles of Incorporation, paragraph FIRST, of said corporation
23 provide as follows:

24 "FIRST: That the name of said corporation shall be:

25 LOS ANGELES HOME FOR THE ARMENIAN AGED.

26 At a special meeting of the Board of Trustees of said corporation held at
27 its principal office for the transaction of business at 3730 West 27th Street,
28 Los Angeles, California, at 8 o'clock P.M. on the 28th day of February, 1965,
29 at which meeting there was at all times present and acting a quorum of the
30 members of said Board of Trustees, the following resolution was duly adopted:

31 WHEREAS, paragraph FIRST of the Articles of Incorporation of Los
32 Angeles Home For The Armenian Aged provides that the name of this corporation

shall be, LOS ANGELES HOME FOR THE ARMENIAN AGED; and

WHEREAS, it is deemed by the Board of Trustees of the corporation to be to the best interests of the corporation and to the best interests of its members that its Articles of Incorporation be amended as hereinafter provided:

NOW, THEREFORE, BE IT RESOLVED that paragraph FIRST of the Articles of Incorporation be amended to read as follows:

"That the name of said corporation shall be: ARMENIAN SENIOR CITIZENS HOME AT LOS ANGELES."

RESOLVED FURTHER that the Chairman and Secretary of this corporation be, and they are hereby authorized and directed to procure the adoption and approval of the foregoing amendment by the vote or written consent of the members of this corporation holding at least a majority of the voting power; and thereafter to sign and verify by their oaths and to file a certificate in the form and manner required by Section 3672 of the Corporation Code of the State of California, and in general to do any and all things necessary to effect said amendment in accordance with the law made and provided therefore.

At a special general meeting of said corporation duly held at its principal office for the transaction of business at 2:30 P.M. on the 28th of March, 1965, fifty (50) members were present thereby constituting a quorum, which by the By-Laws of this corporation requires only twenty-five (25) members to be present, the foregoing resolutions were duly adopted and approved by the affirmative vote of said fifty (50) members and seventy-five (75) absentee members voting for said resolutions by proxy, or a total of one hundred twenty-five (125) votes for approval and adoption of said resolutions, no vote having been cast against.

The total number of members entitled to vote or consent to the adoption of such amendment is one hundred ninety (190).

The offices of Chairman and Secretary of the Board of Trustees of this corporation are equivalent to those of President and Secretary of the ordinary corporation.

CERTIFICATE OF AMENDMENT

OF

LOS ANGELES HOME FOR THE ARMENIAN AGED.

The undersigned, Haig Zavatjian and Alex Phillian, do hereby certify that they are respectively, and have been at all times herein mentioned, the duly elected and acting Chairman and Secretary of the Board of Trustees of Los Angeles Home For The Armenian Aged, a California non-profit corporation, and further that:

The Articles of Incorporation, paragraph FOURTH, of said corporation, provide as follows:

"FOURTH: The management of the affairs of said corporation shall be vested in a board of 15 trustees to be elected by a majority vote of the members present or by proxy at annual meetings. The trustees hereinafter named shall hold office for a period of 30 days from and after the date of filing of these Articles of Incorporation in the office of the Secretary of State of the State of California and until their successors are elected and qualify. Within said period, said trustees will call a members' meeting to adopt a form of corporation by-laws. The first Board of Trustees shall be elected by the incorporators, five members for one year, five members for two years, and five members for three years. Thereafter all vacancies in the Board occurring through expirations of terms or otherwise, shall be filled by the remaining members of the Board, and the trustees elected at

1 the expiration of the terms of members of the first Board and
 2 thereafter shall hold office for three years. Vacancies in the
 3 Board occurring through death or resignation shall be filled for
 4 the unexpired term. The executive officers of said corporation
 5 shall consist of a chairman, a vice-chairman, secretary and
 6 treasurer, and such other officers or assistants as the by-laws
 7 may provide, and shall be annually elected by and from the Board
 8 of Trustees, and hold their respective offices until their
 9 successors are elected and qualified. The membership fee will
 10 be fixed by the Board of Trustees. All persons having qualified
 11 by payment of the membership fee shall have the right to vote."

12 At a special meeting of the Board of Trustees
 13 of said corporation held at its principal office for the tran-
 14 saction of business at 3730 West 27th Street, Los Angeles, Cali-
 15 fornia, at 8 o'clock P.M. on the 13th day of February, 1956,
 16 at which meeting there was at all times present and acting a
 17 quorum of the members of said Board of Trustees, the following
 18 resolution was duly adopted:

19 WHEREAS, paragraph FOURTH of the Articles of
 20 Incorporation of Los Angeles Home For The Armenian Aged provides
 21 that the management of the affairs of said corporation shall
 22 be vested in a Board of Fifteen (15) Trustees to be elected by
 23 a majority vote of the members present or by proxy at annual
 24 meetings, and further that five (5) Trustees shall be elected
 25 in each year and shall hold office for three (3) years; and

26 WHEREAS, it is deemed by the Board of Trustees of
 27 the corporation to be to the best interests of the corporation
 28 and to the best interests of its members that its Articles of
 29 Incorporation be amended as hereinafter provided:

30 NOW, THEREFORE, BE IT RESOLVED that paragraph FOURTH
 31 of the Articles of Incorporation be amended to read as follows:

32 "The management of the affairs of this corporation

1 shall be vested in a Board of nine (9) Trustees to be elected
2 by a majority vote of the members present or by proxy at
3 annual meetings as follows:

4 Three (3) Trustees shall be elected as aforesaid each
5 year and the Trustees so elected shall hold office for a period
6 of three (3) years, and until their successors are elected and
7 qualify."

8 RESOLVED FURTHER that the Chairman and Secretary
9 of this corporation be, and they are hereby authorized and
10 directed to procure the adoption and approval of the foregoing
11 amendment by the vote or written consent of the members of this
12 corporation holding at least a majority of the voting power;
13 and thereafter to sign and verify by their oaths and to file
14 a certificate in the form and manner required by Section 3672
15 of the Corporation Code of the State of California, and in
16 general to do any and all things necessary to effect said
17 amendment in accordance with the law made and provided therefor.

18 At a special general meeting of the members of
19 said corporation duly held at its principal office for the
20 transaction of business at 3:00 P.M. on the 8th day of April,
21 1956, the foregoing resolutions were duly adopted and approved
22 by the affirmative vote of 21 members, being all the members
23 present at said meeting, and 24 absentee members voting for
24 said resolutions by proxy, or a total of 45 votes for approval
25 and adoption of said resolutions, no vote having been cast
26 against.

27 The total number of members entitled to vote or
28 consent to the adoption of such amendment is 62.

29 The offices of Chairman and Secretary of the Board
30 of Trustees of this corporation are equivalent to those of
31 President and Secretary of the ordinary corporation.

CERTIFICATE OF AMENDMENT

OF

LOS ANGELES HOME FOR THE ARMENIAN AGED.

The undersigned, George J. Abajian and Zorah S. Sassahian, do hereby certify that they are, respectively, and have been at all times herein mentioned, the duly elected and acting President and Secretary of Los Angeles Home For The Armenian Aged, a California non-profit corporation and further that:

At a special meeting of the Board of Trustees of said corporation duly held at its principal office for the transaction of business at 3730 West 27th Street, Los Angeles, California, at 8 o'clock P.M. on the 25th day of April, 1952, at which meeting there was at all times present and acting a quorum of the members of said Board of Trustees, the following resolution was duly adopted:

Whereas, it is deemed by the Board of Trustees of this corporation to be to the best interests of the corporation and to the best interests of its members, that its Articles of Incorporation be amended to qualify this corporation for the "welfare exemption" as provided by Section 214 of the Revenue and Taxation Code of the State of California, and that its Articles of Incorporation be amended as hereinafter provided;

NOW, THEREFORE, BE IT RESOLVED that Paragraph 4A be added to the Articles of Incorporation of this corporation as follows:

1 Paragraph 4A: That this corporation is not organized or
2 operated for profit and does not contemplate the distribution of
3 gains, profits or dividends to the members and no part of the net
4 earnings enures to the benefit of any member or individual;

5 That the property or properties used by it as a home for
6 the aged shall not be used or operated by it or by any other person
7 for profit regardless of the purposes for which the profit is
8 devoted or so as to benefit any officer, trustee, director, share-
9 holder, member, employee, contributor or bondholder of this cor-
10 poration, or any other person, through the distribution of profits,
11 payment of excessive charges, or compensations or the more advan-
12 tageous pursuit of their business or profession; nor shall it be
13 used for ~~the~~ fraternal or lodge purposes, or for social club purposes
14 except where such use is clearly incidental to the primary chari-
15 table purposes for which it is formed and said property so used
16 shall be used exclusively for, and is irrevocably dedicated to,
17 charitable purposes, and upon the liquidation, dissolution or
18 abandonment of this corporation, it will not inure to the benefit
19 of any private person except a fund, foundation or corporation
20 organized and operated for such charitable purposes;

21 RESOLVED FURTHER, that the Board of Trustees of this
22 corporation hereby adopts and approves said amendment to its
23 Articles of Incorporation; and

24 RESOLVED FURTHER that the Chairman and the Secretary of
25 this corporation be, and they are hereby authorized and directed,
26 to procure the adoption and approval of the foregoing amendment
27 by the vote or written consent of the members of this corporation
28 holding at least a majority of the voting power; and thereafter
29 to sign and verify by their oaths and to file a certificate in
30 the form and manner required by Section 3672 of the Corporation
31 Code of the State of California, and in general to do any and all

32

1 things necessary to effect said amendment in accordance with the
2 law made and provided therefor.

3 TWO. At a special general meeting of the members of said
4 corporation duly held at said principal office for the transaction
5 of business at 8 o'clock P.M. on the 7th day of May, 1952, the
6 following resolutions were duly adopted:

7 WHEREAS, the Board of Trustees of this corporation
8 at a special meeting duly held on the 25th day of April, 1952, at
9 the principal office of the corporation located at 3730 West
10 27th Street, Los Angeles, California, adopted and approved by
11 resolution of said Board an amendment to the Articles of Incorporation
12 by adding thereto Paragraph 4A as follows:

13 Paragraph 4A: That this corporation is not organized or operated
14 for profit and does not contemplate the distribution of gains,
15 profits or dividends to the members and no part of the net earnings
16 accrues to the benefit of any member or individual;

17 That the property or properties used by it as a home for
18 the aged shall not be used or operated by it or by any other person
19 for profit regardless of the purposes for which the profit is devoted
20 or so as to benefit any officer, trustee, director, shareholder,
21 member, employee, contributor or bondholder of this corporation,
22 or any other person, through the distribution of profits, payment
23 of excessive charges, or compensation or the more advantageous
24 pursuit of their business or profession; nor shall it be used for
25 fraternal or lodge purposes, or for social club purposes except
26 where such use is clearly incidental to the primary charitable
27 purposes for which it is formed and said property so used shall
28 be used exclusively for, and is irrevocably dedicated to, charitable
29 purposes, and upon the liquidation, dissolution or abandonment
30 of this corporation, it will not inure to the benefit of any private
31 person except a fund, foundation or corporation organized and
32

1 operated for such charitable purposes.

2 NOW, THEREFORE, BE IT RESOLVED that the foregoing
3 amendment of the Articles of Incorporation be, and the same is
4 hereby, adopted and approved by the members of this corporation
5 and that said added Paragraph 4A as herein set forth be added to
6 said Articles of Incorporation.

7 Three. The foregoing amendment was adopted and approved
8 at said meeting of the members by the affirmative vote of forty
9 members, being all the members present at said meeting.

10 Four. The total number of members entitled to vote or
11 consent to the adoption of such amendment is sixty-one.

12 IN WITNESS WHEREOF, the undersigned have executed this
13 Certificate of Amendment this 22nd day of May, 1952.

19 COUNTY OF LOS ANGELES) SS.

20 GEORGE J. ABAJIAN and ZORAH S. CASSABIAN being first duly
21 sworn, each for himself, deposes and says:

22 That George J. Abajian is, and at all times mentioned in
23 the foregoing Certificate of Amendment, the Chairman of the Board of
24 Trustees of Los Angeles Home For The Armenian Aged, the California
25 corporation named therein, and Zorah S. Cassabian is, and was at all
26 of said times, the Secretary of said corporation; that each has
27 read said Certificate and that the statements therein made are true
28 of his own knowledge, and that the signatures purporting to be the
29 signatures of said chairman and secretary thereto are the genuine
30 signatures of said chairman and secretary respectively.

ARTICLES OF INCORPORATION
OF

LOS ANGELES HOME FOR THE ARMENIAN AGED

KNOW ALL MEN BY THESE PRESENTS:

That we, the undersigned, have voluntarily associated ourselves together for the purpose of forming a nonprofit corporation under and pursuant to the laws of the State of California, and we do hereby certify:

FIRST: That the name of said corporation shall be:

LOS ANGELES HOME FOR THE ARMENIAN AGED.

SECOND: That it is a nonprofit corporation organized solely for general charitable and eleemosynary purposes under section 606 of the Civil Code of California.

THIRD: That the County in the State of California where the principal office for the transaction of the business of this corporation is to be located is Los Angeles County.

FOURTH: The management of the affairs of said corporation shall be vested in a board of 15 trustees to be elected by a majority vote of the members present or by proxy at annual meetings. The trustees hereinafter named shall hold office for a period of 30 days from and after the date of filing of these Articles of Incorporation in the office of the Secretary of State of the State of California and until their successors are elected and qualify. Within said period, said trustees will call a members' meeting to adopt a form of corporation by-laws. The first Board of Trustees shall be elected by the incorporators, five members for one year, five members for two years, and five members for three years. Thereafter all vacancies in the Board occurring through expirations of terms or otherwise, shall be filled by the remaining members of the Board, and the trustees elected at the expiration of the terms of members of the first Board and thereafter shall hold office for three years. Vacancies in the Board occurring through death or

1 resignation shall be filled for the unexpired term. The executive
 2 officers of said corporation shall consist of a chairman, a vice
 3 chairman, secretary and treasurer, and such other officers or
 4 assistants as the by-laws may provide, and shall be annually elected
 5 by and from the Board of Trustees, and hold their respective offices
 6 until their successors are elected and qualified. The membership
 7 fee will be fixed by the Board of Trustees. All persons having
 8 qualified by payment of the membership fee shall have the right to
 9 vote.

10 FIFTH: The names and residences of the members of the
 11 first Board of Trustees are respectively as follows:

- 12 Avedick H. Poladian 2670 Clyde Ave. Los Angeles 16, Cal.
- 13 George J. Abajian 2325 Sixth Avenue Los Angeles 16, Cal.
- 14 Maurice Kadjian 1426 Victoria Avenue, Los Angeles 6, Cal.

STATE OF CALIFORNIA)
) SS.
COUNTY OF LOS ANGELES)

On this 27th day of September, 1949, before me the undersigned,
a Notary Public, in and for the said County and State, residing therein,
duly commissioned and sworn, personally appeared George J. Ahajian,
Ghevant Charbajian, known to me to be the persons whose names are subscribed
to the within Instrument and acknowledged to me that they executed the
same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official
seal the day in this certificate first above written.

Alexander Skenderian
Notary Public in and for the County
of Los Angeles, State of California
My Commission Expires July 5, 1953

(NOTRIAL SEAL)

SECTION 999.5(d)(9)

4) Certified Bylaws

BY-LAWS
ARARAT HOME
OF
LOS ANGELES, INC.

A NON-PROFIT CORPORATION

INCORPORATED 1949
Amended
April 1, 2008

**BY-LAWS OF
ARARAT HOME OF LOS ANGELES, INC.
A NON-PROFIT CORPORATION**

**ARTICLE I
OFFICES**

Section 1. **PRINCIPAL OFFICE:** The principal office of Ararat Home of Los Angeles, Inc. (the Corporation) shall be located in the CITY of LOS ANGELES, COUNTY of LOS ANGELES, State of California.

**ARTICLE II
PURPOSE**

Section 1. **GENERAL PURPOSES:**

(a) The general purposes and powers of the Corporation shall be to exercise all rights and powers conferred on nonprofit public benefit organizations under the laws of the State of California exclusively for charitable purposes within the meaning of section 501(c)(3) of the Internal Revenue Code of 1986 (the "Code") and the corresponding provisions of California tax law and any subsequent provisions of federal tax law, and not for the private gain of any person.

(b) The Ararat Home of Los Angeles, Inc., exists to provide assisted living and nursing/convalescent care facilities primarily for the Armenian Community, regardless of their financial status, and to promote Armenian heritage and culture in America.

Section 2. **SPECIFIC PURPOSES:**

(a) To provide high quality assisted living services in a tranquil, familiar yet stimulating environment, which includes cultural events for the residents' participation and enjoyment;

(b) To provide nursing facility care for those residents who are unable to care for themselves while recognizing that the residents possess a wealth of character and much to share with each other and with the community;

(c) To provide community volunteers and professional resources effectively and prudently in fund raising, administration and direct assistance to the residents and areas of need;

(d) To provide a dignified, non-denominational chapel appropriate for religious services;

(e) To provide a major banquet hall and auxiliary facilities appropriate for gatherings in serving the Armenian-American community at large;

(f) To provide a cultural museum containing artifacts, historical documents and research library chronicling the history and culture of the Armenian people;

(g) To provide cooperation and partnership with other charitable, cultural and social organizations whose assistance is helpful toward meeting the above stated mission;

(h) To acquire, manage, and hold funds, real estate and personal property by gift, devise, bequest, or purchase.

Section 3. **Nonpartisan Activities:** No substantial part of the activities of the Corporation shall consist of the publication or dissemination of materials with the purpose of attempting to influence legislation, except as

provided in section 501(h) of the Code, and the Corporation shall not participate or intervene in any political campaign on behalf of any candidate for public office or for or against any cause or measure being submitted to the people for a vote. The Corporation shall not, except in an insubstantial degree, engage in any activities or exercise any powers that are not in furtherance of the purposes described above.

ARTICLE III MEMBERS

Section 1. **CLASSES OF MEMBERS:** This Corporation shall have four (4) classes of members. The designation of such classes and the qualifications and rights of the members of such class shall be as follows;

(a) **Founders;** Founder members are all members of the Corporation who are signatories to the Certificate of Incorporation.

(b) **Life Members;** Life members are members of the Corporation who shall have paid the life membership fee fixed by the Board of Trustees.

(c) **Active Members;** Active Members are all members of the Corporation who shall have paid annual dues fixed by the Board of Trustees.

(d) **Associate Members;** Associate members shall be individuals of such Board approved organized and established associations or societies, who wish to become members as a group to create and sustain interest in this Corporation and pay annual dues as fixed by their respective associations or societies.

Section 2. **MEMBERSHIP APPLICATION:** Applications for membership shall be delivered to the principal office of the Corporation on forms approved by the Board of Trustees, accompanied by the proper membership fee. Completion of an application for membership and payment of dues will be considered as an acceptance of membership and an agreement by the candidate to abide by the By-Laws and Rules of the Corporation.

Section 3. **VOTING RIGHTS:** Founder, Life, Active and individual Associate members who have been members of the Corporation for at least six (6) months at the time of voting shall have the exclusive right to vote. Any member who is in arrears in payment of his or her dues shall not be entitled to vote at the annual meeting or any specially called meeting.

Section 4. **TERMINATION OF MEMBERSHIP:** Membership in this Corporation may be terminated by the Board of Trustees:

(a) By voluntary resignation in writing, addressed to the Board of Trustees

(b) For failure to pay dues as provided in these By-Laws

(c) By a vote of three-fourths (3/4) of the Board of Trustees and referred to the next Membership meeting for final determination by majority vote. Upon written request signed by the former member and filed with the Secretary, the Board of Trustees, by the affirmative vote of two-thirds of the members of the Board, may reinstate such former member to membership on such terms as the Board of Trustees may deem appropriate.

Section 5. **TRANSFER OF MEMBERSHIP:** Membership in this Corporation is not transferable or assignable.

ARTICLE IV DUES

Section 1. **ANNUAL DUES:** The Board of Trustees shall determine the annual dues payable to the Corporation by members of each class.

Section 2. The dues of all classes of members shall be due and payable beginning in the month of March of each year. Failure to make payment of dues on the date fixed by the Board of Trustees may render the individual's membership null and void at the discretion of the Board of Trustees.

ARTICLE V MEETINGS OF MEMBERS

Section 1. **ANNUAL MEETING:** An annual meeting of the members shall be held on the last Sunday of February of each year at a time to be determined by the Board of Trustees. In the event of a legal holiday, or other reasonable cause, the annual membership meeting can be postponed, but must be held before the end of March of any such year and notice sent to every member thereof, as provided by these By-Laws. At such annual meeting there shall be an election of Trustees and the transaction of such other business as may come before the meeting. Each member shall be entitled to one vote on each matter on which a vote is taken and in the election of trustees, no member shall vote for more names than the number of vacancies required to be filled.

Section 2. **SPECIAL MEETINGS:** Special meetings of the members may be called by the Board of Trustees, its Chairman, or by not less than one-tenth of the members having voting rights.

Section 3. **PLACE OF MEETING:** The Board of Trustees may designate any place, either within or without the State of California, as the place for any annual meeting or for any special meeting called by the Board of Trustees. If no designation is made or if a special meeting be otherwise called, the place of the meeting shall be the registered office of the Corporation in the State of California.

Section 4. **NOTICE OF MEETING:** Written or printed notice stating the place, day and hour of any meeting of members shall be delivered to each member, not less than fifteen (15) nor more than ninety (90) days before the date of such meeting, by or at the direction of the Chairman, or the Secretary, or the officers or persons calling the meeting. In case of a special meeting or when required by statute or by these By-Laws, the purpose or purposes for which the meeting is called shall be stated in the notice. The notice of a meeting shall be deemed to be delivered when deposited in the United States mail addressed to the member at his address as it appears on the records of the Corporation, with postage thereon prepaid by First Class Mail.

Section 5. **QUORUM:** A quorum shall consist of not less than one hundred (100) members eligible to vote. If a quorum is not present at any meeting of the members, the presiding officer shall adjourn the meeting for two weeks without further notice and should there be no quorum at such second meeting, then notice shall be provided for a new meeting as required by Section 4 above.

ARTICLE VI BOARD OF TRUSTEES

Section 1. **GENERAL POWERS:** The affairs of the Corporation shall be managed by its Board of Trustees. Trustees must be members of the Corporation.

Section 2. **NUMBER AND TENURE:** Subject to the following sentence, the number of trustees shall be twenty-four (24) who shall be elected by the members of the Corporation at their annual meeting. Up to three (3) additional Trustees may be elected by a three-fourths (3/4) vote of all the members of the Board of Trustees. Each Trustee elected by the members shall hold office for a period of three (3) years from their election. The election

of trustees shall be staggered so as to elect no more than one-third (1/3) of the Board of Trustees at one time. Trustees elected by the Board shall hold office until the next annual membership meeting.

Section 3. DUTIES: The duties of the Board of Trustees shall be to establish general policies and to oversee the management of the Corporation and to oversee the care and protection of its operations and properties.

(a) At a minimum those duties shall include:

- (1) Fundraising
- (2) Long-range planning
- (3) Approve an annual budget and establish fiscal policies for the corporation
- (4) Publish and conduct the Annual meeting
- (5) Community relations
- (6) Employ, set goals and review corporate officers who report to the Board of Trustees
- (7) Approve the terms and conditions upon which all persons shall be admitted to the Corporate facilities pursuant to the Corporate policies and procedures, and the laws, regulations and statutes of the Federal, State, County and City governments

(b) The duties may be periodically reviewed and updated by the Board of Trustees

Section 4. REGULAR MEETINGS: An annual meeting of the Board of Trustees shall be held without other notice than these By-Laws immediately after, and at the same place as, the annual meeting of the members. Pursuant to Section 16(b) below, at the annual meeting of the Board of Trustees, officers of the Board shall be elected and a schedule and locations of additional meetings shall be approved.

Section 5. SPECIAL MEETINGS: Special meetings of the Board of Trustees may be called by or at the request of the Chairman or any two Trustees. The person or persons authorized to call special meetings of the Board may fix any place, within California, as the place for holding any special meeting of the Board called by them. Written notice shall be given to all Board members at least five days and no more than twenty days before any special meeting.

Section 6. QUORUM: A majority of the Board of Trustees shall constitute a quorum for the transaction of business at any meeting of the Board; but if less than a majority of the Trustees are present at said meeting, the Chairman must adjourn the meeting without further notice.

Section 7. MANNER OF ACTING: The act of a majority of the Trustees present at a meeting at which a quorum is present shall be the act of the Board of Trustees, unless the act of a greater number is required by law or by these By-Laws.

Section 8. VACANCIES: Any vacancy occurring in the Board of Trustees be filled by the Board of Trustees. A nominee for Trustee to fill a vacancy, meeting all of the qualifications as described in Sections 10(b) and 10(c) of this Article, shall be elected for the unexpired term of his predecessor in office. Such nominee shall be elected by an affirmative vote of three-fourths (3/4) of all the members of the Board of Trustees.

Section 9. TERMINATION OF TRUSTEESHIP: The Board of Trustees, by affirmative vote of three-fourths (3/4) of all of the members of the Board may expel a Board member after an appropriate hearing before the Board and after reasonable advanced notice of the hearing to all members of said Board.

Section 10. COMPENSATION: Trustees shall not be entitled to receive, and shall not accept, any compensation for their services provided to the Corporation.

Section 11. NOMINATIONS

(a) **Notice of Nomination:** The Nomination Committee shall deliver to the Secretary of this Corporation at least thirty (30) days prior to the annual meeting a final list of candidates for Trustees to be elected at the annual meeting.

(b) **Qualifications of Nominees:** Each nominee as Trustee shall be, and for a period of at least one year prior to the date of nomination shall have been, a member of the Corporation. Nominees shall be a current member of the Corporation. Each nominee shall, for at least one year, have served on a committee or sub-committee as described in Article VIII, or been an Associate Member as described in Article III; and shall have demonstrated competence, work ethics and the willingness to become involved in the activities and objectives of the Board of Trustees; and shall provide an experienced background that will be beneficial to the Board of Trustees in the objectives of the Corporation.

(c) **Restriction of Nominees:** A son, daughter, father, mother, sister, brother, husband or wife of a Trustee shall not serve on the Board of Trustees at the same time as the Trustee, unless there is no nominee having the same qualifications and expertise as this individual, the nominee otherwise qualifies, is nominated by the Nomination Committee and is approved by a three-quarters vote of the Board of Trustees.

(d) Procedures to Nominate:

(1) Nominated by the Board appointed Nomination Committee.

(2) No later than ninety (90) days prior to the annual meeting, the Nomination Committee shall send to all individuals who have been members for at least six months a notice of annual meeting and commencement of the nomination process and a Board proposed slate of candidates to serve on the Board of Trustees of the Ararat Home, Inc. The notice shall specify the date of the annual meeting and shall invite members to write in a nomination and specify that any such nomination shall include the nominee's consent to run and a description of the proposed nominee's background and qualifications to run for the position of Trustee. The notice shall specify that all nominations and any information relating to a proposed nominee shall be returned to the Nomination Committee not later than sixty (60) days prior to the date set for the annual meeting. The name and qualifications of any candidate so nominated and meeting the required qualifications, as verified by the Nomination Committee, shall be included in the list of candidates mailed to the membership at large.

(3) Nominated by the Board appointed Nomination Committee to fill a vacancy on the Board of Trustees.

Section 12. ABSENTEEISM: The Board of Trustees Secretary shall keep an attendance record of all regular meetings making note of any absence and include them in the minutes of that meeting. Upon the absence of any Board Member for three (3) consecutive meetings or of non-attendance of six (6) meetings in one year, the Secretary shall notify the Board of Trustees Chairman who then shall notify the Nomination Committee for their review and recommendation to the Board of Trustees.

Section 13. ORDER OF BUSINESS: The order of business shall be as follows; (a) roll call (b) minutes of the last meeting (c) report of officers (d) report of committees (e) unfinished business (f) new business.

Section 14. ADVISORY BOARD: The Board of Trustees may establish an Advisory Board for the Corporation. Appointments to the Advisory Board shall be with the prior approval of the Board of Trustees. The composition, responsibility, rights, powers and duties of such Advisory Board shall be determined by the Board of Trustees.

Section 15. OPEN MEETINGS: All meetings of the Board of Trustees and its Committees shall be open to members of the Corporation. Closed meetings may be called when necessary to discuss subjects of a confidential nature.

Section 16: OFFICERS:

(a) OFFICERS: The officers of the Board of Trustees shall be; Chairman, First Vice-Chairman, Second Vice-Chairman, Secretary, Treasurer Assistant, Secretary and Assistant Treasurer and such other officers as may be elected or appointed in accordance with the provisions of this Article. The Board of Trustees may elect or appoint such other officers as it shall deem advisable. Such officers to have the authority and perform the duties prescribed to them, by the Board of Trustees. Any two or more offices may be held by the same person except the offices of Chairman and Secretary.

(b) ELECTION AND TERM OF OFFICE: The officers of the Board shall be elected annually by the Board of Trustees at the regular annual meeting of the Board of Trustees. If the election of officers shall not be held at such meeting, such election shall be held as soon thereafter as conveniently possible. New offices may be created and filled at any meeting of the Board of Trustees. No individual shall serve as Chairman for more than three (3) successive years.

(c) REMOVAL: Any officer elected or appointed by the Board of Trustees may be removed by a majority vote of all members of the Board of Trustees whenever in its judgment, the best interest of the Corporation would be served thereby.

(d) VACANCIES: A vacancy in any office, because of the death, resignation, removal, disqualification, or otherwise, may be filled by a majority vote of all members of the Board of Trustees for the unexpired portion of the term.

(e) CHAIRMAN: The Chairman shall be the principal officer of the Board of Trustees. shall preside at all meetings of the members and of the Board of Trustees. He may sign, with the secretary or any other Board or Corporate officer, authorized by the Board of Trustees, any deeds, mortgages, bonds, contracts, or other instruments that the Board of Trustees have authorized to be executed, except in cases where the signing and execution thereof shall be expressly delegated by the Board of Trustees or by these By-Laws or by statute to some other officer or agent of the Corporation. He shall perform all duties incident to the office of Chairman and such other duties, both as may be prescribed by the Board of Trustees.

(f) VICE-CHAIRMEN: The Board of Trustees shall elect two Vice-Chairmen. In the absence of the Chairman, or in the event of his inability or refusal to act, the First Vice-Chairman shall perform the duties of the Chairman, and when so acting, shall have all powers of, and be subject to all the restrictions upon, the Chairman. The Vice-Chairmen shall perform such other duties as may be assigned to them by the Chairman or by the Board of Trustees. In the absences of both the Chairman and the First Vice-Chairman, the Second Vice-Chairman shall perform the duties of the Chairman.

(g) TREASURER: He shall have charge and custody of and be responsible for all funds and securities of the Corporation; receive and give receipts for moneys due and payable to the Corporation from any source whatsoever, and deposit all such moneys in the name of the Corporation in such banks, trust companies, or other depositories as shall be selected by the Board of Trustees. He shall perform all the duties of Treasurer and such other duties as may be assigned to him by the Chairman or by the Board of Trustees. He shall not pay out or disburse any of the money of the Corporation except in such manner and for such purposes as shall be approved by the proper officers of the Board or Corporate officers whose approval shall be authorized by resolution of the Board of Trustees. At each meeting of the Board of Trustees, the Treasurer shall present a statement of the financial condition of the Corporation. At the annual meeting of the Corporation, the Treasurer shall present a report of the financial condition of the Corporation for the preceding fiscal-year. The Treasurer shall present at the first Board of Trustees meeting following April 30, the previous fiscal-year end audited financial reports. Under the control of the Treasurer, these audited reports shall be available for review at the headquarters of the Corporation by any member of the Corporation.

(h) **SECRETARY:** The Secretary shall keep the minutes of the meetings of the members and of the Board of Trustees, and see that all notices are duly given in accordance with the provisions of these By-Laws or as required by law. He shall be custodian of the corporate records and of the seal of the Corporation and see that the seal of the Corporation is affixed to all documents, the execution of which on behalf of the Corporation, under its seal, is duly authorized in accordance with the provisions of these By-Laws. He shall keep a register of the post office address of each member which shall be furnished to the Secretary by such member; He shall perform all duties incident to the office of Secretary and such other duties as may be assigned to him by the Chairman or the Board of Trustees.

(i) **ASSISTANT TREASURER AND ASSISTANT SECRETARY.** The assistant treasurer and secretary shall perform such duties as shall be assigned to them by the treasurer or the secretary or by the Chairman or the Board of Trustees, and be subject to all the restrictions upon, the Treasurer and Secretary.

ARTICLE VII CORPORATE OFFICERS

Section 1. The officers of the Corporation, at a minimum, shall be President and Chief Executive Officer, Chief Financial Officer and Secretary.

(a) The President and Chief Executive Officer shall report to the Board of Trustees. He shall be responsible for the day-to-day operations of the entire organization as defined by the Board of Trustees. Such duties shall include total profit and loss responsibilities for each operational unit individually and collectively; hiring, supervision and scheduling of employees of the Corporation; monitoring and compliance for all federal, state and local laws pertaining to the licenses held; and participation on committees as designated by the Board of Trustees. These duties may be changed at the discretion of the Board. The President and Chief Executive Officer shall not be a member of the Board of Trustees.

(b) The Treasurer of the Board of Trustees shall act as Chief Financial Officer of the Corporation.

(c) The Secretary of the Board of Trustees shall act as Secretary of the Corporation.

ARTICLE VIII COMMITTEES

Section 1. **STANDING COMMITTEES:** The Board of Trustees shall have the following standing committees which shall have the function indicated by their name and as further supplemented or defined by the Board of Trustees: (a) By-Laws and Organization; (b) Executive; (c) Finance; (d) Fund Raising & Community Relations; (e) Human Resources; (f) Legal; (g) Membership/Balloting; (h) Ararat Home, Inc./Eskijian Museum Associates; (i) Nominations; and (j) Long-Range Planning.

(1) The Chairmen of the Standing Committees shall be appointed by the Chairman of the Board of Trustees, subject to the concurrence or ratification of the Board of Trustees, except that the Chairman of the Board of Trustees shall be the Chairman of the Executive Committee as described in Section 1(6) below.

(2) The Chairmen of these Standing Committees may appoint other voting members of their Standing Committee, who do not have to be Trustees, but must be members of the Corporation.

(3) The Board of Trustees may assign to each Standing Committee, one or more Sub-Committees, whose function shall be as defined by the Board of Trustees.

(4) The Chairman of any Sub-Committee shall be appointed by the Chairman of the respective Standing Committee, subject to the concurrence or ratification of the voting members of the respective Standing Committee.

(5) The Chairmen of the Sub-Committees may appoint other voting members, who do not have to be Trustees, but must be members of the Corporation. They may also appoint other non-voting members who do not have to be members of the Corporation.

(6) The Executive Committee shall, at a minimum, consist of the elected officers of the Board of Trustees and all preceding Chairmen of the Board of Trustees. Only Past Chairmen who are currently Trustees shall be eligible to vote on the Executive Committee.

- (i) It shall exercise the authority and powers of the Board of Trustees only in emergency situations if and when needed between meetings of Trustees;
- (ii) It shall conduct an annual performance evaluation of the President and Chief Executive Officer and recommend his salary compensation to be ratified by the Board of Trustees;
- (iii) All decisions and recommendations by the Executive Committee must be presented to the Board of Trustees for approval, at the next regular meeting.

(7) The Fund Raising and Community Relations Committee may include, but not be limited to, the following Sub-Committees: (a) Annual Fund; (b) Banquet; (c) Bricks, Tiles and Plaques; (d) Gift Shop; (e) Grant Writing; (f) Mailing List; (g) Newsletter; (h) Picnic; (i) Publicity and Printing.

(8) The Membership / Balloting Committee shall receive and count the Proxy votes and report the results at the Annual Meeting and shall monitor the voting procedures at the Annual Meeting.

(9) No member of the Nominations Committee shall serve concurrently on the Membership / Balloting Committee.

Section 2. COMMITTEES OF THE BOARD OF TRUSTEES: The Board of Trustees, by resolution adopted by a majority of the trustees in office, may designate one or more committees, in addition to the above Standing Committees, each of which consist of one or more Trustees.

(1) The Chairman of a Committee of the Board of Trustees shall be appointed by the Chairman of the Board of Trustees, subject to the concurrence or ratification of the Board of Trustees.

(2) The Chairmen of the Committees of the Board of Trustees may appoint other voting members, who do not have to be Trustees, but must be members of the Corporation. They may also appoint other non-voting members who do not have to be members of the Corporation.

(3) The designation of such committees and the delegation thereto of authority shall not operate to relieve the Board of Trustees, or any individual trustee, of any responsibility imposed on it or him by law.

Section 3. REMOVAL: Any member of a Committee may be removed by the person, or persons authorized to appoint such member, or by resolution adopted by a majority of the trustees in office whenever in their judgment the best interests of the Corporation shall be served by such removal.

Section 4. VACANCIES: Vacancies in the membership of any committee may be filled by appointments made in the same manner as provided in the case of the original appointments.

Section 5. QUORUM: Unless otherwise provided in the resolution of the Board of Trustees designating a committee, a majority of the whole committee shall constitute a quorum and the act of a majority of the members present at a meeting at which a quorum is present shall be the act of the committee.

Section 6. **QUALIFICATIONS OF COMMITTEE MEMBERS:** Except as otherwise provided for in these By-laws, each member of a committee shall be an active member of the Corporation; shall have demonstrated competence, work ethics and willingness to serve on the particular committee to which he or she is appointed; and shall provide an experienced background that will be beneficial to the work of such committee and to the objectives of the Board of Trustees.

Section 7. **TASK FORCES:** Task Forces, their function and composition, may be designated by a resolution adopted by a majority of the Trustees present at a meeting at which a quorum is present. Except as otherwise provided in such resolution, members of each such Task Force shall be members of the Corporation.

ARTICLE IX CONTRACTS AND FINANCE

Section 1. **FISCAL YEAR:** The fiscal year of this Corporation shall commence on January 1st and end on December 31st of each year.

Section 2. **AUDITING:** An Independent Certified Public Accounting firm shall be appointed by the Board of Trustees which shall audit the annual Financial Statements of the Corporation and express an opinion on these Financial Statements based on their audit. The Auditors shall not be a Member of the Board of Trustees.

Section 3. **CONTRACTS:** The Board of Trustees may authorize any officer or officers or agents of the Corporation, in addition to the officers so authorized by these By-Laws, to enter into any contract or execute and deliver any instrument in the name of and on behalf of the Corporation, and an authority may be general or confined to specific instances.

Section 4. **CHECKS, DRAFTS, OR MONEY ORDERS FOR PAYMENTS:** All checks, drafts, or orders for the payment of money, notes or other evidences of indebtedness issued in the name of the Corporation shall be signed by two of those individuals who shall be determined by resolution of the Board of Trustees

Section 5. **DEPOSITS:** All funds of the Corporation shall be deposited to the credit of the Corporation in such banks, trust companies, or depositories as the Board of Trustees may select.

Section 6. **BILLS:** All bills shall be approved showing the approval of the individuals authorized to purchase the merchandise or engage the services referred to therein, before presentation of such bill to the individual authorized to make payments.

Section 7. **GIFTS:** The Board of Trustees may accept on behalf of the Corporation any contribution, gift, bequest or devise for the general purposes or for any special purposes of the Corporation.

Section 8. **ENDOWMENT FUND:** The Board of Trustees may create an Endowment Fund and appoint a committee to manage the fund pursuant to Article VIII, Section 2.

ARTICLE X MISCELLANEOUS

Section 1. **BOOKS AND RECORDS:** The Corporation shall keep correct and complete books and records at the Corporate office.

Section 2. **CORPORATION SEAL:** The Board of Trustees shall provide a corporate seal consisting of the following words and figures: ARARAT HOME OF LOS ANGELES, INC., 1949 CALIFORNIA.

Section 3. **WAIVER OF NOTICE:** Whenever any notice is required to be given under the provisions of the general non-profit Corporation law or under the provisions of the Articles of Incorporation or the By-Laws of the Corporation, a waiver thereof in writing signed by the person or persons entitled to such notice, whether before or after the time stated therein, shall be deemed equivalent to the giving of such notice.

Section 4. **AUXILIARY ORGANIZATIONS:** The Board of Trustees may approve auxiliary, associate or affiliate groups or organizations to assist the Corporation in its work under such terms, conditions, and for such periods, as specified in the charter for such organizations provided by the Board of Trustees. Chairman or members of such organizations or groups shall not be Trustees unless elected or appointed as Trustees of this Corporation.

Section 5. **CONDUCT OF INDIVIDUALS:** The officers, employees and members of the Corporation shall interact with each other and the general public and shall perform their duties with loyalty, in confidence and in a manner to safeguard the best interests of the Corporation at all times.

Section 6. **CONDUCT OF MEETINGS:** Conduct of all meetings of the Board of Trustees and the Corporation shall be in accordance with the current edition of "Roberts Rules of Order unless specified otherwise in these By-Laws.

Section 7. **GENDER REFERENCE:** Use of a term reflecting gender is for reference and convenience only. Use of a masculine term or pronoun shall refer to and mean both a man and/or a woman. Similarly, use of a feminine term or pronoun shall refer to and mean both a woman and/or a man.

ARTICLE XI AMENDMENTS

Section 1. In addition to the method of amending By-Laws as provided by the laws of the State of California, these By-Laws may be amended or repealed or new By-Laws may be adopted by a two-thirds (2/3) vote of members present at its annual meeting, or at a special meeting called for that purpose, provided that notice of the proposed amendments shall be sent to all members by the Secretary no later than three weeks prior to the Annual Meeting or Special Meeting and posted in a conspicuous place at the Corporate office at least one week before the date of the meeting.

ARTICLE XII EMERGENCY PROVISIONS

Section 1. **General:** The provisions of this Article XIII shall be operative only during a national emergency declared by the President of the United States or the person performing the President's functions, or in the event of a nuclear, atomic or other attack on the United States or a disaster making it impossible or impractical for the Corporation to conduct its business without recourse to the provisions of this Article XIII. Said provisions in such event shall override all other Bylaws of the Corporation in conflict with any provisions of this Article XIII, and shall remain operative as long as it remains impossible or impracticable to continue the business of the Corporation otherwise, but thereafter shall be inoperative: provided that all actions taken in good faith pursuant to such provisions shall thereafter remain in full force and effect unless and until revoked by action taken pursuant to the provisions of the Bylaws other than those contained in the Article XIII.

Section 2. **Unavailable Trustees:** All Trustees of the Corporation who are not available to perform their duties as Trustees by reason of physical or mental incapacity or for any other reason or whose whereabouts are unknown shall automatically cease to be Trustees, with the effect as if such persons had resigned as Trustees, so long as such unavailability continues.

Section 3. Authorized Number of Trustees: The authorized number of Trustees shall be the number of Trustees remaining after eliminating those who have ceased to be Trustees pursuant to Section 2 of this Article XIII.

Section 4. Quorum: The number of Trustees necessary to constitute a quorum shall be the number bearing the same proportional relationship to the number of Trustees remaining pursuant to Section 2 of this Article XIII as the quorum established in Article VI, Section 6 bears to the authorized number of Trustees set forth in Article VI, Section 6 hereof.

ARTICLE XIII DISSOLUTION

Section 1. IRREVOCABLE DEDICATION: The property of this Corporation is irrevocably dedicated to charitable purposes, and no part of the net income or assets of this Corporation shall ever inure to the benefit of any director, officer, or member of this Corporation, or to the benefit of any private individual.

Section 2. DISPOSITION OF ASSETS: Upon winding up and dissolution of this Corporation, and after payment of all legal obligations of the Corporation, the remaining assets of the Corporation shall be distributed to other non-profit federal and state tax-exempt facilities and/or organizations, selected by the Board of Trustees, that are operated exclusively for charitable purposes and whose primary purposes is to care for the Armenian elderly.

Advanced Search

An Advanced search is required when searching for publicly traded disclosure information or a status other than active.

An Advanced search allows for searching by specific entity types (e.g., Nonprofit Mutual Benefit Corporation) or by entity groups (e.g., All Corporations) as well as searching by ?begins with? specific search criteria.

Disclaimer: Search results are limited to the 500 entities closest matching the entered search criteria. If your desired search result is not found within the 500 entities provided, please refine the search criteria using the Advanced search function for additional results/entities. The California Business Search is updated as documents are approved. The data provided is not a complete or certified record.

Although every attempt has been made to ensure that the information contained in the database is accurate, the Secretary of State's office is not responsible for any loss, consequence, or damage resulting directly or indirectly from reliance on the accuracy, reliability, or timeliness of the information that is provided. All such information is provided "as is." To order certified copies or certificates of status, (1) locate an entity using the search; (2)select Request Certificate in the right-hand detail drawer; and (3) complete your request online.

RE: Ararat Home of Los Angeles, Inc.
EIN: 95-1809572

Gentlemen:

This letter is in response to your request for a copy of the determination letter for the above named organization.

Our records indicate that this organization was recognized to be exempt from Federal income tax in May 1953 as described in Internal Revenue Code Section 501(c)(3). It is further classified as an organization that is not a private foundation as defined in Section 509(a) of the code, because it is an organization described in Section 509(a)(2).

The exempt status for the determination letter issued in May 1953 continues to be in effect.

If you need further assistance, please contact our office at the above address or telephone number.

Sincerely,

Barbara S. Cowans mk

Independent Auditors' Report

To the Board of Trustees
Ararat Home of Los Angeles, Inc.
Mission Hills, California

We have audited the accompanying financial statements of Ararat Home of Los Angeles, Inc. (the "Organization" or the "Home"), which comprise the statement of financial position as of December 31, 2021, the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ararat Home of Los Angeles, Inc., and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Ararat Home of Los Angeles, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matter

The financial statements of Ararat Home of Los Angeles, Inc. for the year ended December 31, 2020 were audited by Martini Akpovi Partners, LLC, who joined with WithumSmith+Brown, PC on February 1, 2022 and expressed an unmodified opinion on those statements dated June 14, 2021.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Independent Auditors' Report (continued)

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

The Accompanying Notes are an Integral Part of These Financial Statements

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies

Nature of Operations

Ararat Home of Los Angeles, Inc. (the "Organization or the "Home") is a non-profit and non-denominational organization founded in 1949 to care for elderly Armenians in Southern California. Since its early inception, the Home has expanded in both size and scope. Today, the Home exists to provide assisted living, skilled nursing and convalescent care facilities, primarily for the Armenian community, and to promote Armenian heritage and culture in America. The Board of Trustees oversees the management of the Home.

Standards of Accounting and Financial Reporting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). According to U.S. GAAP, the Home is required to report information regarding its financial position and activities according to two classes of net assets: net assets without donor restrictions, and net assets with donor restrictions.

Net assets without donor restrictions are resources available to support operations. The only limits on the use of net assets without donor restrictions are the amounts designated by the board to be held for specific purposes. Net assets with donor restrictions are resources that are restricted by a donor for the use for a particular purpose or in a particular future period.

Functional Allocation of Expenses

The financial statements report certain categories of expenses that are attributable to more than one program or supporting function. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include salaries and benefits, supplies and ancillary services, utilities and depreciation which are allocated on the basis of estimates of time, effort and usage.

Salaries and related expenses are allocated based on job descriptions and the best estimates of management. Expenses, other than salaries and related expenses, which are not directly identifiable by program or supporting services, are allocated based on the best estimates of management.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Significant estimates and assumptions made by management are used for, but not limited to, the estimated useful lives of long-lived assets, the allowance for doubtful accounts and the functional allocation of expenses. Actual results could differ from those estimates.

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Operating Indicator

The Home’s operating income (operating indicator) includes all revenue and expenses for the reporting period, except for any gain on forgiveness of debt, investment income, interest income and interest expense. These amounts are added to operating income to arrive at change in net assets in the accompanying statements of activities.

Patient Care and Resident Revenue

The Home provides a comprehensive range of health care services to residents. Patient care revenue consists of the following categories:

Skilled Nursing:

The most significant portion of the home’s operations is the operation of the skilled nursing facilities at the Mission Hills and Eagle Rock campuses. Caregivers provide residents with comprehensive, individualized care 24 hours a day. In addition, the facilities provide licensed therapy services, quality nutrition services, social services, activities, and housekeeping and laundry services.

Assisted Living:

The Home’s assisted living facility provides personal care services and assistance with general activities of daily living such as dressing, bathing, meal preparation and medication management. Resident assessments are performed to determine what services are desired or required and residents are encouraged to participate in a range of activities.

During the years ended December 31, 2021 and 2020 patient care and resident revenue consisted of the following:

	<u>2021</u>	<u>2020</u>
Skilled nursing revenues	\$ 32,643,520	\$ 29,724,723
Assisted living revenues	2,433,622	2,724,857
Ancillary revenues	55,451	45,445
	<u>\$ 35,132,593</u>	<u>\$ 32,495,025</u>

The Home recognizes revenue as its performance obligations are completed. The performance obligations are satisfied over time as the resident simultaneously receives and consumes the benefits of the healthcare services provided. Additionally, there may be ancillary services which are not included in the daily rates for routine services, but instead are treated as separate performance obligations satisfied at a point in time when those services are rendered.

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Patient Care and Resident Revenue (continued)

Skilled nursing and assisted living revenues are based on services rendered at amounts equal to established rates. Amounts paid for residents under the Medi-Cal, HMO, Medicare and Medicaid programs are generally based on fixed rates per patient day, adjusted prospectively. All amounts earned under these, and other governmental programs are subject to review by the third-party payers. Any differences between estimated settlements and final determination are reflected in operations in the year finalized.

During the years ended December 31, 2021 and 2020, the Home received approximately 90% of its skilled nursing and assisted living revenues from federal and state sponsored programs, and approximately 10% from private pay sources.

Donations

Donations are recognized at fair value when the donor makes an unconditional promise to give and are reported as donor support without restrictions unless they are received with donor stipulations that limit the use of the donated assets. Donations received with donor stipulations are reported as donor support with restrictions. When donor restrictions are satisfied, net assets are released and reported as an increase in net assets without donor restrictions.

Donated goods are recognized at their fair values at the dates of donation. Contributed services are also recognized at fair value when they are received, if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not donated. The Home receives substantial contributed services from constituents, the general public and the members of the Board of Trustees who give their time and expertise to the Home in a wide variety of areas. These contributions, despite their considerable value to the mission of the Home, are not recorded in the accompanying financial statements unless the services meet the requirements for recognition.

Fair Value of Financial Instruments

The accompanying statements of financial position included the following financial instruments as of December 31, 2021 and 2020: accounts receivable, prepaid expenses and other current assets, accounts payable and accrued expenses. The Home expects to realize the current assets, and to pay the current liabilities, within a short period of time. Therefore, the carrying amounts of these financial instruments approximate fair value.

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

The Home considers all highly liquid investments purchased with maturities of three months or less at the time of purchase to be cash equivalents. The Home maintains cash in bank deposit accounts which, at times, may exceed federally insured limits. The Home has not experienced any losses and does not believe it is exposed to any significant risk of loss on cash and cash equivalents.

Accounts Receivable

Substantially all of the Home's accounts receivable are related to providing assisted living, skilled nursing and convalescent care to patients. The accounts receivable is reduced by an estimated implicit price concessions by each major payor type based on historical experience of collections and contractual write downs. Management regularly reviews data about these major payors in evaluating the sufficiency of the estimate for price concession. For receivables associated with services provided to patients with third-party coverage, the Home analyzes contractually due amounts and provides an allowance, if necessary (for example, for payors who are known to be having financial difficulties that make the collection of receivables unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Home estimates uncollectible amounts based on its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. These amounts are considered implicit price concessions and are recorded as a reduction to revenue.

As of December 31, 2021 and 2020, the allowance for price concession was \$55,077 and \$108,029, respectively. Account balances are charged against the allowance after reasonable collection efforts have been exhausted and the potential for recovery is considered remote. Interest is not charged on past due amounts. Beginning balances of accounts receivable at January 1, 2020 was \$8,199,126.

Assets Limited as to Use

Assets limited as to use at December 31, 2020 included assets held by a bank pursuant to the Home's insured refunding revenue bonds, discussed in Note 3. Amounts required to meet current liabilities of the Home were included in current assets.

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Property and Equipment

Property and equipment are recorded at cost and depreciated over their estimated useful lives using the straight-line method of depreciation. The Home estimates the useful lives of the respective classes of property and equipment as follows:

Buildings and improvements	10 – 40 years
Furniture and equipment	5 – 20 years
Transportation equipment	5 – 15 years

Expenditures for maintenance and repairs are charged to operations when incurred.

Impairment

The Home reviews its long-lived assets whenever events or circumstances indicate that the carrying amounts of such assets may not be recoverable. Impairment is evaluated by comparing the carrying value of the assets with the estimated future net undiscounted cash flows expected to result from the use of the assets, including cash flows from disposition. Should the sum of the expected future net cash flows be less than the carrying value, the Home would recognize an impairment loss at that date for the amount by which the carrying amount of the asset exceeds its fair value. Management has determined that no such impairment currently exists.

Investments and Investment Income

The Home's investment portfolio consists primarily of money market mutual funds and marketable debt and equity securities that are measured at fair value in the statements of financial position. Investment income or losses, including net realized and unrealized gains and losses, are included in the statements of activities.

Fair Value Measurements

Certain assets are measured at fair value per Accounting Standards Codification Topic 820, *Fair Value Measurement and Disclosures* ("ASC Topic 820"), which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

- Level 1: Quoted market prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date.
- Level 2: Observable inputs or unobservable inputs that are corroborated by market data.

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

Level 3: Unobservable inputs that are not corroborated by market data.

The assets or liabilities fair value measurement level, within the fair value hierarchy, is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Discount on Debt

Debt issuance costs are presented in the statements of financial position as a direct deduction from the carrying value of the associated debt liability and amortized as interest expense over the term of the related debt. Unamortized debt issuance costs at December 31, 2021 and 2020 were \$0 and \$2,502, respectively. Amortization expense, recorded as interest expense, during the years ended December 31, 2021 and 2020 were \$5,336 and \$13,289 respectively.

Income Taxes

The Home is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and a similar provision of state law. However, the Home is subject to federal income tax on any unrelated business taxable income. The Home applies the income tax standard for uncertain tax positions. This standard prescribes recognition and measurement of tax positions taken, or expected to be taken, on a tax return that are not certain to be realized.

The Home's income tax returns are subject to review and examination by federal, state and local authorities. The Home is not aware of any activities that would jeopardize its tax-exempt status. The Home is not aware of any activities that are subject to tax on unrelated business income or excise or other taxes. The home is subject to routine audits by taxing and other jurisdictions, however, there are no such audits currently in progress.

Subsequent Events

The Home has considered subsequent events through March 21, 2022, the date the financial statements were available to be issued, in preparing the financial statements and notes thereto.

Note 2 – Availability of Financial Assets

The following table reflects the Home's financial assets as of December 31, 2021 and 2020, reduced by amounts not available for general use because of donor-imposed restrictions within one-year. Amounts not available include amounts set aside for long-term investing in the endowment and capital replacement fund that could be drawn upon if the board of trustees approves that action.

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 2 – Availability of Financial Assets (continued)

	<u>2021</u>	<u>2020</u>
Financial assets, as of December 31	\$ 44,233,741	\$ 38,306,716
Less: net assets subject to satisfaction of donor restrictions	(1,938,041)	(2,558,967)
Board designations:		
Endowment fund, primarily for long-term investing	(19,820,208)	(17,386,704)
Capital replacement fund	(246,672)	(246,632)
Assets limited as to use	-	(580,083)
Financial assets available to meet cash needs for general expenditures within one year	<u>\$ 22,228,820</u>	<u>\$ 17,534,330</u>

As part of the Home's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities and other obligations come due. The Home invests cash in excess of immediate requirements in interest-bearing checking, mutual funds, money market and investment accounts.

Note 3 – Assets Limited as to Use

Pursuant to insured refunding revenue bonds (see note 7), the Home is required to hold certain funds in trust that are restricted by the terms of the indenture agreement. As of December 31, 2021 and 2020, assets limited as to use were comprised of cash and cash equivalents contained in the following funds:

	<u>2021</u>	<u>2020</u>
Interest fund	\$ -	\$ 2,832
Principal fund	-	275,516
Debt service reserve fund	-	301,735
Total assets limited as to use	-	580,083
Less: current portion	-	(278,348)
Long term portion	<u>\$ -</u>	<u>\$ 301,735</u>

Note 4 – Fair Value Measurements

As of December 31, 2021 and 2020, all of the Home's investments, including fixed income securities, mutual funds and stocks, were all measured using level 1 inputs. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Home believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies, or assumptions, to determine the fair value of certain financial instruments could result in a different fair value measurement at December 31, 2021 and 2020.

Ararat Home of Los Angeles, Inc.
Notes to Financial Statements
December 31, 2021 and 2020

Note 4 – Fair Value Measurements (continued)

At December 31, 2021 and 2020, the Home's investments consisted of the following:

	<u>2021</u>	<u>2020</u>
Quasi-Endowment Fund		
Short-term cash funds	\$ 186,698	\$ 817,826
Domestic corporate bonds	-	338,028
Common stocks	191,332	72,120
Real estate investment trusts	313,226	143,893
Exchange traded funds	-	265,907
US Government backed securities	1,655	102,067
Mutual funds		
Large-cap funds	8,030,954	7,227,287
Income funds	4,734,602	3,645,957
Mid-cap funds	4,721,695	3,326,469
Small-cap funds	1,312,982	1,226,251
Other funds	327,064	220,899
	<u>19,820,208</u>	<u>17,386,704</u>
Capital Investment Fund		
Short-term cash funds	725	246,082
US Government backed securities	245,947	550
	<u>246,672</u>	<u>246,632</u>
Investments		
Short-term cash funds	572,586	2,908,824
Mutual funds	4,207,705	1,527,653
Domestic Corporate Common Stocks	977,089	837,067
	<u>5,757,380</u>	<u>5,273,544</u>
Total	<u>\$ 25,824,260</u>	<u>\$ 22,906,880</u>

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 5 – Endowment and Capital Replacement Funds

The Home maintains investments in two funds set aside for specific purposes. The Home relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Pursuant to these objectives, the Home has adopted a policy for their investment funds that attempts to provide a balance of maintenance of adequate cash reserves and the preservation of principal and growth within reasonable and prudent levels of risk.

Endowment Fund

The endowment fund investments consist of assets designated by the Board of Trustees to be invested in perpetuity for the purpose of generating income to support the Home's operations. Although the designated assets of the endowment fund are intended to be invested in perpetuity, the Board retains the discretion to utilize the endowment fund to support the Home's operations should the need arise. Since the board retains this discretion, the endowment fund is, therefore, more properly described as a "quasi-endowment fund".

Interpretation of Relevant Law

The Board of Trustees, in concurrence with the advice of legal counsel, has interpreted the California adopted Uniform Prudent Management of Institutional Funds Act ("UPMIFA") as requiring a long-term investment strategy designed to preserve the fair value of the endowment fund. In accordance with California UPMIFA, the organization considers the following factors in deciding to appropriate or invest endowment funds:

- (1) The duration and preservation of the fund.
- (2) The purposes of the Home and the donor-restricted endowment fund.
- (3) General economic conditions.
- (4) The possible effect of inflation and deflation.
- (5) The expected total return from income and the appreciation of investments.
- (6) Other resources of the Home.
- (7) The investment policies of the Home.

Endowment Investment and Spending Policies

The Home has adopted investment and spending policies for endowment assets that attempt to maintain the long-term purchasing power of the endowment assets. The endowment assets are invested in a manner that is intended to produce results that provide a reasonable balance between the quest for growth and the need to protect principal. The investment policy calls for a diversified portfolio utilizing various asset classes with a goal of reducing portfolio volatility and risk.

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 5 – Endowment and Capital Replacement Funds (continued)

The Home uses a total investment return methodology for determining its spending policy each year. The portfolio's total returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The spending policy calculates the cumulative amount of money available for distribution from the endowment to support operations.

The spending policy is reviewed annually in light of changing market assumptions, investment returns and the rate of inflation. Accordingly, over the long term, the Home expects current spending policy to allow its endowment assets to grow.

Changes in endowment net assets for the years ended December 31, 2021 and 2020 were as follows:

	<u>2021</u>	<u>2020</u>
Endowment, beginning of year	\$ 17,386,704	\$ 15,466,269
Contributions	569	1,034
Total investment income	<u>2,432,935</u>	<u>1,919,401</u>
Endowment, end of year	<u>\$ 19,820,208</u>	<u>\$ 17,386,704</u>

Capital Replacement Fund

The Capital Replacement fund is composed of Board-designated investments for the acquisition of new or the replacement of obsolete or worn-out equipment, the performance of major repairs and construction of additions to, or improvements of, the Home's facilities.

Note 6 – Property and Equipment

Property and equipment consisted of the following:

	<u>2021</u>	<u>2020</u>
Land and land improvements	\$ 13,774,643	\$ 13,774,643
Building and building improvements	52,419,576	51,783,298
Furniture, equipment and vehicles	<u>5,135,815</u>	<u>4,956,372</u>
	71,330,034	70,514,313
Less: accumulated depreciation	<u>(28,723,657)</u>	<u>(26,899,567)</u>
	42,606,377	43,614,746
Construction in progress	<u>1,983,409</u>	<u>1,856,009</u>
	<u>\$ 44,589,786</u>	<u>\$ 45,470,755</u>

As of December 31, 2021 and 2020, construction in progress of \$1,983,409 and \$1,856,009, respectively, relates to the preparation of raw land acquired adjacent to the Home's Assisted Living Facility in Mission Hills, California.

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 7 – Long-Term Debt

In April 1998, the Home entered into an agreement with the California Statewide Communities Development Authority pursuant to which the insured refunding revenue bonds (the “Bonds”) were issued. On November 27, 2012, the Home refinanced the 1998 Bonds with new Bonds. The refinanced Bonds are due in annual principal payments and semi-annual payments of interest rates ranging from 2.00% to 3.00%. Principal payments are made annually and continued through June 1, 2021. The Bonds are collateralized by a pledge and assignment agreement of the Home’s revenues and a security interest in substantially all of the Home’s assets. The Bonds are redeemable at the option of the Home. The Bond agreement requires the Home to comply with certain covenants including the maintenance of certain financial ratios, restrictions on capital expenditures and disposals and restrictions on additional indebtedness. During May 2021, the Organization paid off its remaining Bond balance and has not entered into any new Bond agreements.

Note 8 – Contingencies

Laws and Regulations

The health care industry is subject to numerous laws and regulations of Federal, State and Local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, governmental health care program participation requirements, reimbursement for patient services and Medi-Cal, Medicare and Medicaid fraud and abuse rules. Violations of these laws and regulations could result in expulsion from governmental health care programs together with the imposition of significant fines and penalties, as well as repayments for patient services previously billed. Management believes that the Home is in compliance with all applicable laws and regulations.

Litigation

From time to time, in the ordinary course of business, the Home is named in various legal proceedings. In management’s opinion, all such matters are adequately provided for, covered by insurance or, if not so covered or provided for, are without merit.

General Uninsured Losses

The Home carries comprehensive liability, fire, flood, environmental, and other insurance with policy specifications, limits, and deductibles that management believes are adequate and appropriate under the circumstances given the relative risk of loss, the cost of such coverage, and industry practice. There are certain types of losses that may be either uninsurable or not economically insurable. Should an uninsured loss occur, the Home could lose assets, anticipated profits and cash flows from its operations.

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 8 – Contingencies (continued)

Insurance

The Organization bears insurance risk as a member of a group captive insurance entity for certain workers' compensation insurance programs. The Organization records estimated liabilities for its insurance programs based on information provided by the third-party plan administrators, historical claims experience, expected costs of claims incurred but not paid and expected costs to settle unpaid claims. The Organization monitors its estimated insurance related liabilities on a regular basis. As facts change, it may become necessary to make adjustments that could be material to the Organization's results of operations and financial condition. Through issuance date of these financial statements, no material claim has been made against the Home and management is not aware of any event that would result to a future material claim. The Home has a medical malpractice insurance policy in the amount of \$4,000,000. The Organization believes that its present insurance coverage is adequate.

Note 9 – Net Assets with Donor Restrictions and Donations with Donor Restrictions

Net assets with donor restrictions consist of cash and artwork donated to the Home having an aggregate fair value of \$290,000. As a condition of receiving these donations, the Home agreed to promote and exhibit the artwork and provide art scholarships. Costs incurred to fulfill this obligation during the years ended December 31, 2021 and 2020 were \$10,000 and \$7,500, respectively.

In 2019, the Home received donations of \$3,180,000 to a building fund to be used to acquire, construct and repair land and facilities. Costs incurred to fulfill this obligation during the years ended December 31, 2021 and 2020 were \$610,926 and \$443,306, respectively.

Note 10 – Pension Plan

The Home has a 403(b) defined contribution plan covering substantially all employees who are age 21 and older. The plan requires that an employee provide at least 1,000 hours of service in any twelve consecutive month period to be eligible for participation. The Home matches 100% of participant contributions up to 3% of employee compensation, as defined. During the years ended December 31, 2021 and 2020, the Home made matching contributions of \$150,872 and \$167,731, respectively.

Ararat Home of Los Angeles, Inc.

Notes to Financial Statements

December 31, 2021 and 2020

Note 11 – Coronavirus

In December 2019, a novel strain of coronavirus (“COVID-19”) surfaced. The spread of COVID-19 around the world has caused significant volatility in the U.S. and the international markets. There is significant uncertainty around the breadth and duration of business disruptions related to COVID-19, as well as its impact on the U.S. and international economies. As of the date of the issuance of these financial statements, the Organization continues to assess and respond, wherever they may deem necessary, to the impact of COVID-19 to its operations.

In May 2020, the Organization entered into a Paycheck Protection Program Loan (“PPP Loan”) under the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”) and applicable regulations CARES Act. Under the PPP Loan, the Organization borrowed \$1,109,312. The outstanding balance on the PPP Loan at December 31, 2020 was \$1,109,312. In October 2021, the Organization received confirmation from the Small Business Administration (“SBA”) that the full amount of the PPP Loan has been approved for forgiveness. Accordingly, the Company has recorded a gain on extinguishment of Paycheck Protection Program Loan in the accompanying statement of activities for the year ended December 31, 2021.

In 2020, the Organization received \$1,921,479 of Provider Relief Fund under the CARES Act. Provider Relief Fund proceeds are to be used for economic support of health care entities in connection with health care-related expenses or lost revenues attributable to COVID-19 and treatment of uninsured COVID-19 patients. During the year ended December 31, 2020, the Organization utilized all of the Provider Relief Fund to pay for qualified expenses in full satisfaction of the conditions for the contribution. Accordingly, Provider Relief Fund Contribution in the amount of \$1,921,479 were included in the Organization’s total revenues and other support without donor restrictions for the year ended December 31, 2020.

SECTION 999.5(d)(10)

- (10) The written notice of any proposed agreement or transaction set forth in section 999.5(a)(1) shall include a description of the applicant's efforts to inform local governmental entities, professional staff and employees of the health facility or facility that provides similar health care services and the general public of the proposed transaction. This description shall include any comments or reaction to this effort.**

HumanGood SoCal announced the proposed sale of Windsor to Ararat Home of Los Angeles, Inc. to its internal management team and residents on July 15, 2022. Since announcing the sale of the facility, the Chief Operating Officer of Ararat Home of Los Angeles has met with the residents and staff of Windsor several times to answer questions from residents and staff. During these meetings, participants discussed the rationale for the transaction, the transaction's effect on employees and residents, and the management team's role in improving and expanding the Windsor community.

On March 24, 2022, the board of HumanGood SoCal formally approved the transaction. The organization officially announced the transaction via written notice and email. Notice letters announcing the transaction were sent to all Windsor residents and staff (sample letters attached).

HumanGood SoCal and Ararat Home of Los Angeles have also given several Town Hall Presentations regarding this transition to both Windsor employees and residents.

The following documents are attached to this Section:

1. Letter to Windsor Residents Advising of Sale of Windsor to Ararat Home of Los Angeles dated July 15, 2022.
2. Letter to Windsor Employees Advising of Sale of Windsor to Ararat Home of Los Angeles dated July 15, 2022.
3. Letter to HumanGood Communities Advising of Sale of Windsor to Ararat Home of Los Angeles dated July 15, 2022.
4. Frequently Asked Questions Document sent to Windsor Residents on July 15, 2022.
5. Frequently Asked Questions Document sent to Windsor Employees on July 15, 2022.
6. Frequently Asked Questions Document sent to HumanGood Communities on July 15, 2022.
7. Powerpoint Presentation for Windsor Residents Town Hall Meeting with Ararat Home of Los Angeles conducted on July 15, 2022.
8. Powerpoint Presentation for Windsor Employees Town Hall Meeting with Ararat Home of Los Angeles conducted on July 15, 2022.

9. Windsor Website Intranet Post regarding the sale to Ararat Home of Los Angeles.

SECTION 999.5(d)(10)

1) Letter to Windsor Residents Advising of Sale of Windsor to Ararat Home of Los Angeles dated July 15, 2022

July 15, 2022

To Windsor residents and family members,

Since 1937, Windsor has been a valued member of the HumanGood (previously be.group/Southern California Presbyterian Homes) family of senior living communities. HumanGood cherishes this history and is honored to have served so many residents at Windsor.

Due to changing demographics and other market forces, however, HumanGood has determined that the Windsor community would benefit from an owner and operator with a fresh approach and deep ties to the local community.

After carefully considering Windsor's needs and the attributes essential to its governance and management, HumanGood and Ararat Home of Los Angeles, Inc. (Ararat Home) have come to an agreement for the transfer of Windsor to Ararat Home.

Ararat Home is a highly respected, non-profit, non-denominational organization founded in 1949, which operates three residential care and nursing facilities on two campuses in the Los Angeles area.

The sale of Windsor to Ararat Home will help promote a future of growth for one of HumanGood's smallest life plan communities. Ararat Home has received numerous recognitions, including its Nursing Facility being ranked as the #1 nursing home in California by Newsweek magazine in 2021. The organization's deep ties to the local market will help Windsor retain and improve its reputation as a leading provider of senior living and healthcare services in the Glendale area.

HumanGood and Ararat Home are currently working together to obtain licensing and regulatory approvals of the agreed-upon sale. Both parties hope to close the sale before the end of 2022.

We understand that you may have questions about the sale and Ararat Home and attached is a Frequently Asked Questions document with additional details on this change. You can also reach out to me directly with questions.

Sincerely,
Greg Bearce
Executive Director

SECTION 999.5(d)(10)

2) Letter to Windsor Employees Advising of Sale of Windsor to Ararat Home of Los Angeles dated July 15, 2022

July 15, 2022

To Windsor team members,

Since 1937, Windsor has been a valued member of the HumanGood (previously be.group/Southern California Presbyterian Homes) family of senior living communities. HumanGood cherishes this history and is honored to have served so many residents at Windsor.

Due to changing demographics and other market forces, however, HumanGood has determined that the Windsor community would benefit from an owner and operator with a fresh approach and deep ties to the local community.

After carefully considering Windsor's needs and the attributes essential to its governance and management, we are pleased to announce that HumanGood and Ararat Home of Los Angeles, Inc. (Ararat Home) have come to an agreement for the transfer of Windsor to Ararat Home.

This transition will help promote a future of growth for our community and a chance for Ararat Home to build upon the foundation established by HumanGood and continue to inspire a rich and rewarding life for residents.

There will be no immediate changes to day-to-day operations and services for Windsor team members or residents. Team members will keep their current job without lapse in benefits and will be offered a retention bonus for transitioning to the Ararat Home family.

We are in the process of working with Ararat Home to obtain licensing and regulatory approvals of the agreed-upon sale and hope to close the sale before the end of 2022.

We understand that you may have questions about the sale and Ararat Home, and we encourage you to join us for a town hall meeting on July 15. Also attached is a **Frequently Asked Questions** document with additional details on this change.

About Ararat Home of Los Angeles, Inc.

Ararat Home is a highly respected, non-profit, non-denominational organization founded in 1949, which operates three residential care and nursing facilities on two campuses in the Los Angeles area.

Ararat Home has received numerous recognitions, including its Nursing Facility being ranked as the #1 nursing home in California by Newsweek magazine in 2021. The organization's deep

ties to the local market will help Windsor retain and improve its reputation as a leading provider of senior living and healthcare services in the Glendale area.

We encourage you to join us for our town hall meeting if you have additional questions, or you can reach out to me directly.

Greg Bearce
Executive Director

SECTION 999.5(d)(10)

3) Letter to HumanGood Communities Advising of Sale of Windsor to Ararat Home of Los Angeles dated July 15, 2022

July 15, 2022

To our HumanGood family,

I want to share news about Windsor, our life plan community in Glendale, CA.

At HumanGood, we consistently explore opportunities that are in the best interest of our communities, team members and residents. As such, today we are announcing that HumanGood and Ararat Home of Los Angeles have been working together to transition the Windsor life plan community to the Ararat Home family of senior living communities.

Ararat Home of Los Angeles is a highly respected, non-profit, non-denominational organization founded in 1949 which operates three residential care and nursing facilities on two campuses in the Los Angeles area. Ararat Home has received numerous recognitions, including its Nursing Facility being ranked as the #1 nursing home in California by Newsweek magazine in 2021

Ararat Home also has deep ties to the local market, which will help Windsor retain and improve its reputation as a leading provider of senior living and healthcare services in the Glendale area.

We are confident the transition will bring a bright and promising future for the community, as Ararat Home will employ all Windsor team members, honor resident contracts and remain committed to building upon the already strong foundation established by HumanGood.

To all the team members of Windsor, thank you for your outstanding work and dedication to HumanGood. We know each of you will continue to inspire rich and rewarding lives for residents. We hope the rest of the organization will join us in wishing our Windsor family all the best.

We understand many of you may have questions about this transition, so we are also sharing a **Frequently Asked Questions** document.

Thank you to all for your support and thank you to our team members for all that you do on behalf of our residents and each other.

Sincerely,
John Cochrane & Dan Ogus

HumanGood and Ararat Home: FAQs for Windsor residents and family

HumanGood and Ararat Home of Los Angeles, Inc. are working together to help the Windsor life plan community (LPC) join the Ararat Home family of senior care facilities.

Frequently Asked Questions (FAQs)

What's changing?

Windsor will join the Ararat Home family of care facilities—upon receipt of all necessary governmental approvals and licensing—promoting a bright and promising future for Windsor's residents and team members.

Who is Ararat Home of Los Angeles, Inc.?

Ararat Home is a highly-respected, non-profit, non-denominational organization founded in 1949, which operates three residential care and nursing facilities on two campuses in the Los Angeles area. Ararat Home has received numerous recognitions, including its Nursing Facility being ranked as the #1 nursing home in California by [Newsweek](#) magazine in 2021.

Why is HumanGood working with Ararat Home on this sale?

Historically, Ararat Home has deep ties to Windsor's local market, thereby helping retain and improve its reputation as a leading provider of senior living and healthcare services in the Glendale area. We are confident that this sale will promote a bright and promising future for Windsor's residents and team members.

How will the sale affect Windsor's residents?

Residents have always been our absolute top priority. HumanGood and Ararat Home will work closely to ensure a smooth transition, so Windsor residents can be assured that their valued high-quality, personalized services will remain in place. Ararat Home will assume and honor all resident contracts.

What will happen to Windsor team members?

Current Windsor team members will be offered the opportunity to stay within the community and transition to the Ararat Home team. Once the sale is finalized, they will be hired by Ararat Home.

When will the sale occur?

HumanGood and Ararat Home are currently working together on finalizing the sale with regulatory agencies and we hope to close the sale by late Fall 2022. We will continue to provide updates throughout the transition.

How will the sale work?

Before the sale is finalized, it is subject to approval by multiple government agencies and Ararat Home must obtain appropriate licensing. Plus, advance notice must be given to various parties, including Windsor residents.

This approval process and notice period spans at least 120 days, and may take longer. That's why

we anticipate the sale to close by late Fall 2022, and we'll continue to provide updates throughout the process.

What happens next?

HumanGood and Ararat Home will work closely during the sale to ensure a smooth transition for Windsor's residents. Current Windsor team members will be offered the opportunity to stay within the community and transition to the Ararat Home team.

What does this sale mean for residents' residential living contracts?

Ararat Home will assume and honor all resident contracts.

Will this sale affect Windsor's services/programs?

We expect Ararat Home to continue to offer services/programs that engage residents to live rich and rewarding lives.

What happens to Windsor's HumanGood branding?

Once the sale is finalized, Windsor's community materials will be updated with Ararat Home's name and branding. We will continue to provide updates throughout the transition.

If I have questions about this sale, who should I ask?

Please direct your questions to Greg Bearce, executive director.

This approval process and notice period spans at least 120 days, and may take longer. That's why we anticipate the sale to close by late Fall 2022, and we'll continue to provide updates throughout the process.

What happens next?

HumanGood and Ararat Home will work closely during the sale to ensure a smooth transition for Windsor's residents. Current Windsor team members will be offered the opportunity to stay within the community and transition to the Ararat Home team.

What does this sale mean for me, my pay and my benefits?

During the transition period, all Windsor team members will keep their current jobs, pay and benefits (subject to terminations for cause). HumanGood team members at Windsor will be offered a retention bonus for transitioning to the Ararat Home family. Once the sale is finalized, they will be hired by Ararat Home, and will not experience any lapse in pay or benefits.

More specifics about the Ararat Home transition and benefit programs will be provided at a later date.

Will there be layoffs or job cuts? If so, will there be severance?

No, there will not be layoffs or job cuts due to the sale. All current HumanGood Windsor team members who wish to receive a retention bonus will sign a letter with details on transitioning to the Ararat Home family.

Will I need to reapply to my job after the sale?

No, Windsor team members will not need to reapply to their jobs. Once the sale is finalized, HumanGood team members at Windsor will be hired by Ararat Home, and will not experience any lapse in pay or benefits.

How will the sale affect Windsor's residents?

Residents have always been our absolute top priority. We expect Ararat Home to continue to offer services/programs that engage residents to live rich and rewarding lives.

9) Windsor Website Intranet Post regarding the sale to Ararat Home of Los Angeles

Message from John Cochrane and Dan Ogus: News about our Windsor life plan community

HumanGood | 15 July 2022 by JAMES PARK • Dan Ogus, john cochrane, Windsor, Ararat

HumanGood and Ararat Home of Los Angeles are working together on the sale of Windsor to the Ararat Home family of senior living communities.

To our HumanGood family,

We want to share news about Windsor, our life plan community in Glendale, CA.

At HumanGood, we consistently explore opportunities that are in the best interest of our communities, team members and residents. As such, today we are announcing that HumanGood and Ararat Home of Los Angeles have been working together to transition the Windsor life plan community to the Ararat Home family of senior living communities.

Ararat Home of Los Angeles is a highly respected, non-profit, non-denominational organization founded in 1949 which operates three residential care and nursing facilities on two campuses in the Los Angeles area. Ararat Home has received numerous recognitions, including its Nursing Facility being ranked as the #1 nursing home in California by Newsweek magazine in 2021.

Ararat Home also has deep ties to the local market, which will help Windsor retain and improve its reputation as a leading provider of senior living and healthcare services in the Glendale area.

We are confident the transition will bring a bright and promising future for the community, as Ararat Home will employ all Windsor team members, honor resident contracts and remain committed to building upon the already strong foundation established by HumanGood.

To all the team members of Windsor, thank you for your outstanding work and dedication to HumanGood. We know each of you will continue to inspire rich and rewarding lives for residents. We hope the rest of the organization will join us in wishing our Windsor family all the best.

We understand many of you may have questions about this transition, so we are also sharing a [Frequently Asked Questions](#) document, which is also copied below.

Thank you to all for your support and thank you to our team members for all that you do on behalf of our residents and each other.

Sincerely,

John Cochrane & Dan Ogus

FAQ

Who is Ararat Home of Los Angeles, Inc.?

Ararat Home is a highly respected, non-profit, non-denominational organization founded in 1949, which operates three residential care and nursing facilities on two campuses in the Los Angeles area. Ararat Home has received numerous recognitions, including its Nursing Facility being ranked as the #1 nursing home in California by Newsweek magazine in 2021.

What's changing?

The Windsor life plan community in Glendale, California, will join the Ararat Home family of care facilities—upon receipt of all necessary governmental approvals and licensing—promoting a bright and promising future for Windsor's residents and team members. Ararat Home will build upon the foundation established by HumanGood and continue to inspire rich and rewarding lives for residents.

Why is HumanGood working with Ararat Home on this sale?

Ararat Home has deep ties to Windsor's local market, thereby helping retain and improve its reputation as a leading provider of senior living and healthcare services in the Glendale area. We are confident that this sale will promote a bright and promising future for Windsor's residents and team members.

When will the sale occur?

HumanGood and Ararat Home are currently working together on finalizing the sale with regulatory agencies and anticipate closing the sale by late Fall 2022. We will continue to provide updates to Windsor residents and team members throughout the transition.

How will the sale work?

Before the sale is finalized, it is subject to approval by multiple government agencies and Ararat Home must obtain appropriate licensing. Plus, advance notice must be given to various parties, including Windsor residents. This approval process and notice period spans at least 120 days, and may take longer. That's why we anticipate the sale to close by late Fall 2022 and we'll continue to provide updates throughout the process.

What will happen to Windsor team members?

Current Windsor team members will be offered the opportunity to stay within the community and transition to the Ararat Home team. Once the sale is finalized, they will be hired by Ararat Home.

How will the sale affect Windsor's residents?

Residents have always been our absolute top priority. This sale will not impact the quality service and care that Windsor provides, and we expect Ararat Home to continue to offer services/programs that engage residents to live their best lives. HumanGood and Ararat Home will work closely to ensure a smooth transition, so Windsor residents can be assured that their valued high-quality, personalized services will remain in place.

Is HumanGood a financially strong organization?

Yes, HumanGood is a financially healthy organization. All financial documentation is readily available at www.humangood.org/disclosures.

Are there plans for more community sales?

There are no additional sales planned. As always, we will keep you updated with the latest information as it becomes available.

If I have questions about the Windsor sale, who should I ask?

Please direct your questions to your community leadership.

2. Board Resolution from HumanGood SoCal Board approving the Sale of Windsor dated March 24, 2022.
3. Powerpoint Presentation to HumanGood SoCal Requesting Approval of the Sale of Windsor to Ararat Home of Los Angeles dated March 24, 2022.
4. Meeting Minutes from HumanGood SoCal Board Meeting dated March 24, 2022.
5. A copy of the Executive Session Meeting Minutes from HumanGood SoCal Board Meeting concerning the Letter of Intent received from Solheim Lutheran Homes dated December 10, 2021 has been submitted to the Attorney General's office under separate cover.
6. Meeting Minutes from HumanGood Strategic Planning Committee Meeting dated December 9, 2021.

*Please note that any information pertaining to matters unrelated to the sale of Windsor have been redacted from the HumanGood SoCal meeting minutes.

SECTION 999.5(d)(11)(A)

**1) Meeting Minutes from HumanGood SoCal Board Meeting dated
April 21, 2022**

**MINUTES OF MEETING OF BOARD OF DIRECTORS
HUMANGOOD NORCAL
THE HYATT REGENCY HOTEL
LA JOLLA, CALIFORNIA
APRIL 21, 2022
12:30 PM**

A meeting of the Board of Directors (the “Board”) of HumanGood NorCal (the “Corporation”) was held on April 21, 2022, in La Jolla, California. Board members present, constituting a quorum, were: Mr. Randall Stamper (Chair), Mr. Al Kelley (Vice-Chair), Mr. Declan Brown (Secretary), Ms. Judith Baker, Mr. William Battison, and Rev. Michelle Holmes. Ms. Irene Feller, and Ms. Sharon Roth participated via Zoom.

Other Board members in attendance on Zoom were: HumanGood Fresno board members Ms. Pamela Claassen and Ms. Gloria Kunz.

Staff members in attendance were: Mr. John Cochrane (President and CEO), Mr. Dan Ogus (Chief Operating Officer), Mr. Andrew McDonald (Chief Financial Officer), Mr. James Park (Senior Vice President, Communications), Ms. Lisa Holland (Senior Vice President, Experience), Mr. Dennis Gradillas (Senior Vice President, Revenue) and Ms. Jennifer Kappen (Senior Vice President, Affordable Housing)

Staff members on Zoom were: Ms. Bethany Ghassemi (General Counsel) and Ms. Roxanne Chase (Governance Board Relations Manager), taking minutes.

Mr. Stamper called the meeting to order at 12:33 p.m. and Mr. Kelley provided the opening prayer.

Mr. Ogus reported that management is engaging a national search firm for the senior vice president human resource position. He introduced Mr. Gradillas, Ms. Holland, Mr. Park, and Ms. Kappen to the Board as the new senior vice presidents and explained their respective roles. Mr. Ogus stated that the new organizational structure would position the organization to grow and provide a unified strategy and better coordination with the C-suite executives.

FOLLOW UP: Mr. Stamper requested at the next HumanGood Affordable Housing board meeting that the Board receive a more in-depth state of the affordable housing industry and to include what the challenges and concerns are for Ms. Kappen.

Update on Windsor: Mr. Ogus stated that the Purchase and Sale Agreement with Ararat has been going back and forth with comments received back from Ararat's attorneys. Ms. Ghassemi is not concerned with the comments received as the team works through the practicality of the transition. There is a call scheduled on April 22, 2022, to continue to iron out the agreement's details. The Purchase and Sale Agreement potentially be signed next week. Ms. Ghassemi noted that the California Attorney General will require every record and note of the meetings regarding this sale.

Ms. Ghassemi stated that since every single aspect of the record must be sent to the California Attorney General she wanted to correct the record relating to residents' rights.

She stated that at the last meeting she presented the following RCFE contract resident’s rights. See below.

Original Slide: Windsor Residents

- 120-day notice must provide options available to any depositor or resident who does not wish to have his or her contract assumed by a new provider.
 - We would assign contracts to new provider pursuant to an Assignment and Assumption Agreement.
 - If resident doesn't want to assign contract to new owner, we'd need to offer alternative options such as buyout, placement at another CCRC, etc.
- Note: we are looking for buyers who will assume resident contracts. DSS would be resistant to a buyer who did not agree to assume resident contracts.
- RCFE Residents don't have a right to alternatives. After giving notice, we would simply assign contracts to the new provider.

Ms. Ghassemi reported that after further research, she discovered that because this is a sale and not a closure, the above-stated residents’ rights do not apply. She requested the Board ratify its prior approval of the purchase and Sale agreement with Ararat noting the change in Windsor contracted residents’ rights indicated in the slide below.

Revised Slide: Windsor Residents

- 120-day notice must provide options available to any depositor or resident who does not wish to have his or her contract assumed by a new provider.
 - We would assign contracts to new provider pursuant to an Assignment and Assumption Agreement.
 - Residents who do not want their contracts assumed by Ararat can terminate their contracts and receive any refund, rebate or repayment due thereunder.
- Note: we are looking for buyers who will assume resident contracts. DSS would be resistant to a buyer who did not agree to assume resident contracts.
- RCFE Residents: After giving notice, we would simply assign contracts to the new provider.

Ms. Ghassemi addressed inquiries that the purchase price should not change if residents decide to relocate and stated that the definition of what is a “material adverse event” was being negotiated.

ACTION TAKEN: Upon a motion made and seconded, the Board ratified its prior actions approving the Purchase and Sale Agreement with Ararat subject to the corrected change as it relates to Windsor resident rights stated above.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

Mr. Stamper adjourned the meeting at 1:27 p.m.

H. Declan Brown, Secretary of HumanGood
NorCal, a California nonprofit public benefit
corporation

SECTION 999.5(d)(11)(A)

2) Board Resolution from HumanGood SoCal Board approving the Sale of Windsor dated March 24, 2022

HUMANGOOD SOCAL

APPROVAL OF SALE DISCUSSIONS AND AUTHORIZING THE EXECUTION OF A PURCHASE AND SALE AGREEMENT WITH ARARAT HOME OF LOS ANGELES, INC.

DULY ADOPTED ON MARCH 24, 2022

WHEREAS, HumanGood SoCal is a California nonprofit public benefit corporation (the “Corporation”) that owns and operates, a continuing care retirement community (“CCRC”) located at 1230 E Windsor Rd, Glendale, CA 91205 known as “Windsor” and previously, “Windsor Manor” (the “Community”);

WHEREAS, each of the Corporation and its sole member, HumanGood, holds, in its capacity as a co-provider, a continuing care certificate of authority (the “COA”) and a residential care facility for the elderly (“RCFE”) license, and the Corporation holds a skilled nursing facility license (“SNF License”), for the Community;

WHEREAS, over several years, the Corporation has experienced both operational and financial challenges operating the Community as a senior care community, including declining sales, low SNF census, and difficulties recruiting sufficient staff;

WHEREAS, the Corporation has sought to improve the operational and financial stability and raise the profile of the Community in the local community by expanding and enhancing the scope and extent of services provided to the Community's senior residents;

WHEREAS, despite the Corporation's efforts, the Community has continued to struggle both financially and operationally;

WHEREAS, in an effort to address these challenges, the Corporation began exploring a potential sale of the Community and in doing so obtained an Appraisal Report from CBRE, Inc. (“CBRE”), an experienced appraiser of senior care communities, and valuations from two investment banking firms with deep experience and connections in the senior living space, Ziegler Investment Banking (“Ziegler”) and Herbert J. Sims & Co., Inc. (“HJ Sims”);

WHEREAS, the CBRE appraisal appraised the Community at a value of \$16,800,000, Ziegler issued a preliminary valuation of \$10,000,000 to \$14,000,000, and HJ Sims issued a preliminary valuation of \$12,902,184;

WHEREAS, as previously authorized by the Board, the Corporation initially engaged in discussions with a prospective nonprofit buyer for the purchase of the Community, but after evaluating an informal offer from such prospective buyer that was lower than CBRE’s appraised value of the Community and upon learning from such prospective buyer that it might desire to delicense and close the skilled nursing facility at the Community in the future, the Corporation decided to stay in the market with the hope of identifying a better matched buyer;

WHEREAS, the Corporation identified and subsequently engaged in discussions with Ararat Home of Los Angeles, Inc., a California nonprofit public benefit corporation (“Ararat”) for the purchase of the Community;

WHEREAS, the Corporation thoroughly evaluated an offer from Ararat to purchase the Community for \$14,800,000 in cash, which offer includes the commitment to assume all active resident contracts (the “Sale Price”);

WHEREAS, the Corporation believes that Ararat is a strong candidate as a potential owner/operator of the Community because it is a nonprofit with strong ties to the local community, it is an experienced operator of a continuing care retirement community that serves a senior population similar to those residing at the Community, it has a strong licensing compliance record, and it plans to maintain and potentially increase the number of licensed beds at the Community's skilled nursing facility;

WHEREAS, the Corporation also believes that Ararat's proposed purchase offer is fair and consistent with the appraised value assigned by CBRE, given that the CBRE Appraisal Report does not reflect the cash resources needed to rehabilitate the Community in light of the current and long lasting operational and financial challenges it has been experiencing;

WHEREAS, the Corporation is in the process of conducting due diligence, determining any necessary review and approval by state regulatory and licensing agencies, and preparing documents, including a purchase and sale agreement, in order to further evaluate and proceed with effectuating Ararat's purchase offer; and

WHEREAS, having considered the foregoing, the Board of Directors of the Corporation desires to authorize the sale of the Community to Ararat for the Sale Price (the “Transaction”), which authorization shall include the authorization of (1) such actions as are necessary or desirable to obtain regulatory approval of the Transaction, (2) the execution of a purchase and sale agreement in the form reviewed and approved by management of the Corporation and legal counsel to the Corporation (the “Purchase and Sale Agreement”), (3) the execution of other documents and the taking of such actions as are necessary or desirable to further the Transaction, and (4) the ratification of such actions or activities pertaining to the Transactions taken prior to the date of this resolution.

NOW THEREFORE, IT IS:

RESOLVED, that the Corporation approves the Transaction and the execution of the Purchase and Sale Agreement by the President and Chief Executive Officer of the Corporation in the form approved by management of the Corporation and legal counsel to the Corporation;

RESOLVED FURTHER, the President and Chief Executive Officer, Chief Operating Officer, Chief Financial Officer and General Counsel of the Corporation (“Authorized Officers”), each acting alone, are hereby authorized and directed to prepare and execute any other documents to which the Corporation is a party in connection with the Purchase and Sale Agreement and/or sale of the Community;

RESOLVED FURTHER, that the Corporation is authorized to provide all necessary notices to residents and regulatory and licensing agencies and receive approvals from all regulatory and licensing agencies as needed for the proposed sale of the Community;

RESOLVED FURTHER, that the Corporation is authorized, but not required, to file a change of manager application for the RCFE License, COA, and SNF License in order to have Ararat begin managing the Community on the Corporation's behalf in anticipation of Ararat receiving the necessary regulatory and licensing approvals regarding its purchase of the Community;

RESOLVED FURTHER, that the Corporation will cooperate with Ararat to obtain all necessary regulatory, licensing, and certification change of ownership approvals of the Community and meet any other conditions of closing as described in the Purchase and Sale Agreement; and

RESOLVED FURTHER, the acts of the Authorized Officers of the Corporation and of any person or persons and authorized to act by any such officer of the Corporation, which acts would have been authorized by the foregoing resolutions except that such acts were taken prior to the adoption of such resolution, are hereby separately ratified, confirmed, approved and adopted as acts in the name of and on behalf of the Corporation.

CERTIFICATION

I, H. Declan Brown, Secretary of HumanGood SoCal, a California nonprofit public benefit corporation (the "Corporation"), do hereby certify and declare that the foregoing is a full, true and correct copy of the resolution duly passed and adopted the Board of Directors of the Corporation at a meeting of the Board of Directors of the Corporation duly called special meeting, noticed and held on March 24, 2022; that said resolutions are now in full force and effect; that there is no provision in the Articles of Incorporation or Bylaws of the Corporation limiting the powers of the Board of Directors of the Corporation to pass the foregoing resolutions and that such resolutions are in conformity with the provisions of such Articles of Incorporation and Bylaws of the Corporation.

IN TESTIMONY WHEREOF, I have hereunto set my hand as of March 24, 2022.

A handwritten signature in blue ink, appearing to read "H. Declan Brown", is written over a horizontal line.

H. Declan Brown,
Secretary of HumanGood SoCal,
a California nonprofit public benefit corporation

SECTION 999.5(d)(11)(A)

**3) Powerpoint Presentation to HumanGood SoCal Requesting
Approval of the Sale of Windsor to Ararat Home of Los Angeles dated
March 24, 2022**

Request for Approval of Sale of Windsor to Ararat Home of Los Angeles, Inc.

March 24, 2022

Proposed Sale of Windsor: where we are

- Ziegler and Sims provided preliminary valuations ranging from \$10-\$14MM
- COG Boards approved LOI with Solheim December 10, 2021
- Solheim proposed \$13,250,000 (combination of land and cash) but did not sign LOI
- Solheim and HumanGood agreed to obtain an appraisal to better assess the value of the Community
- Ararat Home of Los Angeles, Inc. (“Ararat”) offered \$14MM cash
- CBRE Appraisal valued community at \$17MM
- Ararat increased offer to \$14.8MM

Why Sell Windsor?

- Windsor has experienced sustained operational challenges and significant and growing financial losses
- All initiatives to date have not been successful in improving financial performance

Net Cash Flow	(\$1,051)	(\$225)	(\$1,846)	(\$2,306)	(\$3,463)

\$8.9M cash flow loss over last 5 years

Why Sell Windsor?

- Sale will provide meaningful financial improvement to the HG COG

Windsor Cash Flow Trend

COG RATIOS IF WINDSOR WAS SOLD ON JANUARY 1, 2021

	12/31/2021	Less: WI	12/31 Adj
Debt Service Coverage Ratio			
Income Available For Debt Service	\$87,687	\$2,158	\$89,845
Maximum Annual Debt Service	\$27,523	\$0	\$27,523
DSCR	3.19	→	3.26

Days Cash on Hand

Cash & Investments	\$361,227	\$17,729	\$378,956
Operating Expenses	\$261,122	(\$10,354)	\$250,768
Interest Expense	\$11,364	\$0	\$11,364
Expenses	\$272,486	(\$10,354)	\$262,132
Daily Expenses	\$746.54		\$718.17
DCOH	484	→	528

Why Ararat?

- Nonprofit with strong ties to the local community
- Experienced operator of a continuing care retirement community (holds Certificate of Authority from DSS) with excellent RCFE licensing compliance record
- Serves a senior population similar to the Community's current residents
- Plans to maintain and potentially increase the number of licensed beds at the Community's skilled nursing facility
- All cash offer (no financing contingency) includes agreement to assume resident contracts

Why \$14.8MM is a Good Price

- CBRE appraised value of \$16.8M plus \$1M for excess land assumes a material improvement in operating results
- Valuation assumes a stabilized and improving cash flow
- We cannot charge for results not achieved...sold at \$2M discount to stabilized value

Selling a CCRC in California

- Documents governing the real estate transaction, assumption of contracts to provide care and residence, and ongoing relationship post-closing:
 - Letter of Intent (LOI)- non-binding but makes relationship exclusive
 - Purchase and Sale Agreement (PSA)- commits buyer and seller to transfer the property subject to satisfaction of conditions, including regulatory approvals
 - Assignment and Assumption Agreement
 - Operations Transfer Agreement/Interim Leaseback and Management Agreement for SNF
- Primary regulatory agencies that must approve:
 - Continuing Care Contracts Branch of DSS (DSS/CCCB)
 - CCLD Division of DSS (DSS/CCLD)
 - CDPH (State Agency that regulates SNF)
 - CMS (Federal Agency responsible for administering Medicare/Medi-Cal)
 - California Attorney-General

Selling a CCRC in California: overview of regulatory requirements for Change of Ownership (“CHOW”)

- CHOW Notices and approvals required:
 - 120-day to DSS/CCCB (REQUIRES **DSS APPROVAL**)
 - 60-Day notice to DSS/CCLD (REQUIRES **DSS APPROVAL**)
 - 120-day notice to Residents
 - 90-day Notice to California AG (REQUIRES **AG APPROVAL**)
- All of the above must be accomplished prior to closing the sale. DSS does not permit sale/leaseback arrangements.
- **CDPH/CMS approval** of CHOW and licensing of new SNF takes 9 months to a year. Approval is typically accomplished post-closing via a sale/leaseback.

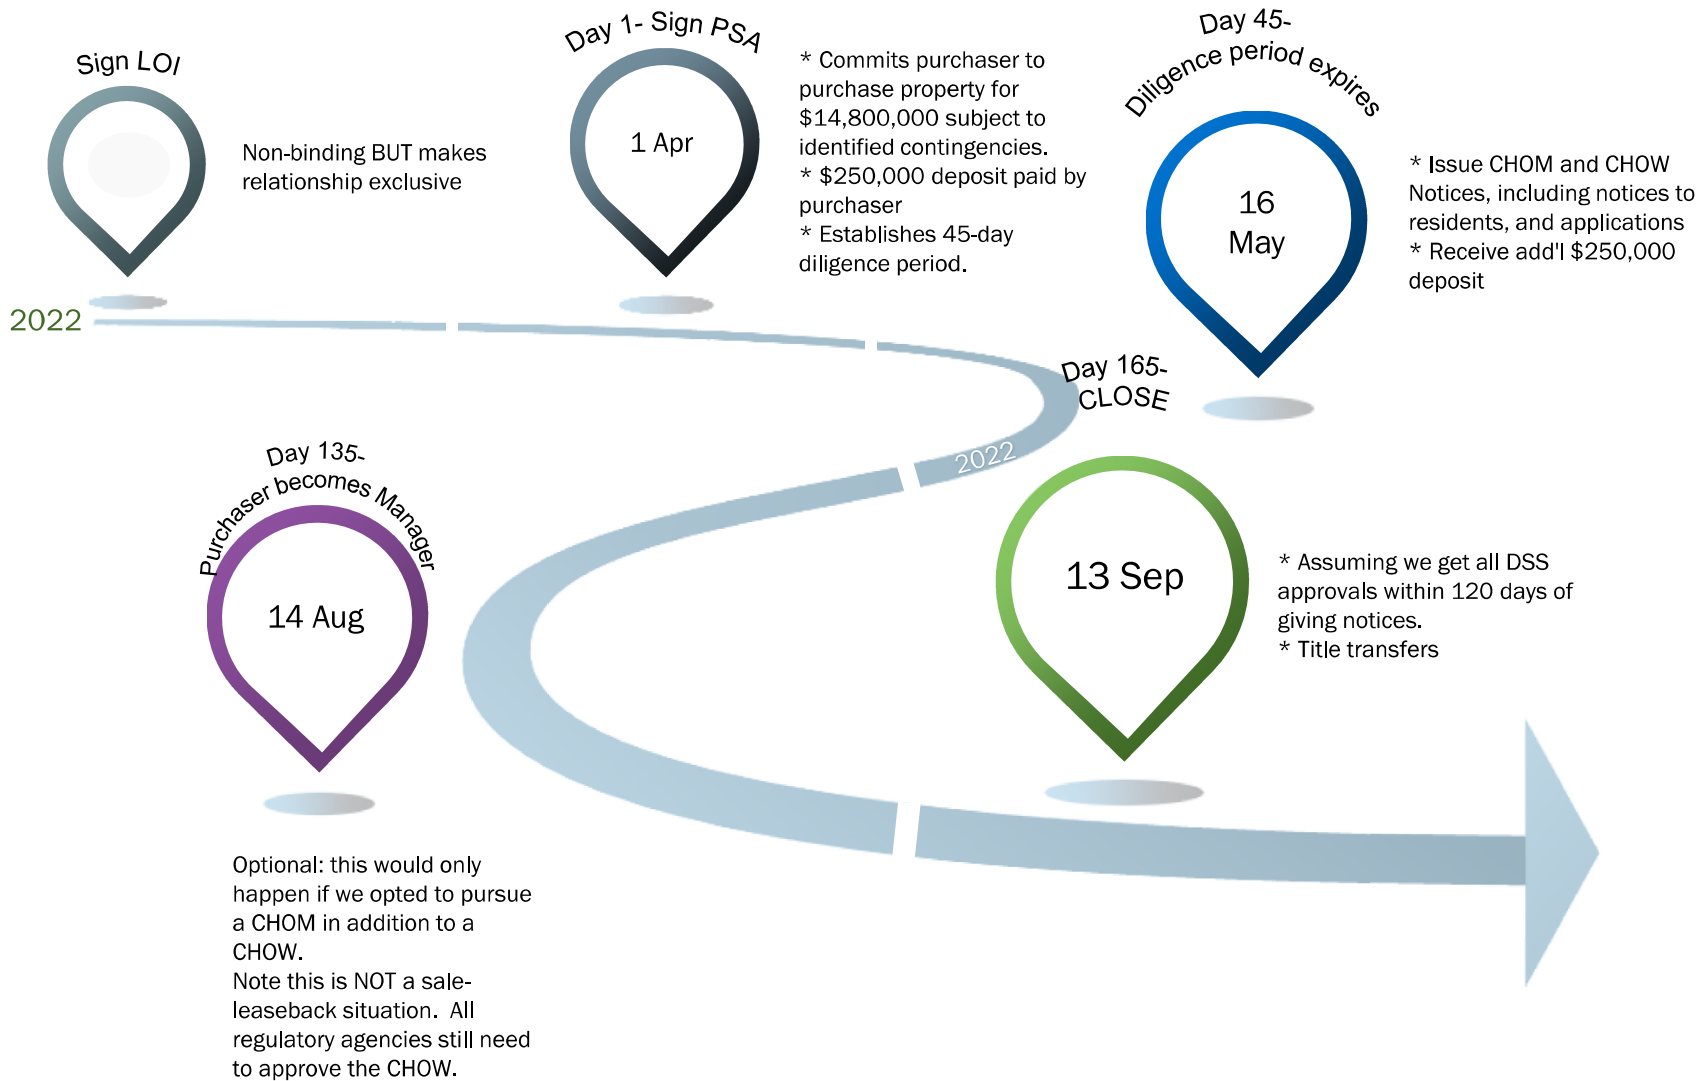

Optional: In order to install purchaser as manager during the lengthy waiting period, pursue a Change of Manager (“CHOM”)

- CHOM Notices and Applications:
 - 30-Day notice to RCFE residents
 - 60-Day notice to DSS/CCCB; application must be made available for review to CCRC residents within 10 days of submission of notice to DSS
 - **DSS (CCLD and CCCB) must approve**; estimated 60 days for approval if all is well
 - 90-day advance Notice to SNF residents
 - **CDPH must approve**; estimated 90 days for approval

Obtaining approvals: agency priorities

- California AG approval:
 - Ensuring this is the best buyer, including that FMV will be paid
 - AG likes seeing alternatives explored- i.e. going to market, valuations from brokers
 - No reduction in SNF beds
 - AG will impose on purchaser agreement not to sell SNF and maintain Medicare/Medi-Cal availability for five years post-closing
- DSS/CCLD
 - Conducts extremely thorough review of new owners/managers. If history is problematic, consider other buyers/work closely with DSS before issuing notices to residents.
- DSS/CCCB focused on assumption of resident contracts.
- CDPH- also performs licensing compliance review. See above re diligence.

Prior to signing LOI perform diligence on purchaser to assess compliance history [Approach DSS]

Windsor Residents

- 120-day notice must provide options available to any depositor or resident who does not wish to have his or her contract assumed by a new provider.
 - We would assign contracts to new provider pursuant to an Assignment and Assumption Agreement.
 - If resident doesn't want to assign contract to new owner, we'd need to offer alternative options such as buyout, placement at another CCRC, etc.
- Note: we only interested in a buyer who will assume resident contracts. DSS would be resistant to a buyer who did not agree to assume resident contracts.
- RCFE Residents don't have a right to alternatives. After giving notice, we would simply assign contracts to the new provider.

Post-closing SNF concerns

- Under Medicare rules, HumanGood must remain the provider at the SNF until Medicare CHOW is approved by CMS (typically about 1 year, so 9 months after closing). Indemnification provisions under PSA and OTA are crucial.
- After closing, the buyer will use HG SoCal's NPI and PTAN to continue to bill Medicare and Medi-Cal for services provided at the SNF.
- Per the OTA, when Medicare/Medi-Cal pays for those services, payment goes into HumanGood's bank account. For first 90 days after closing, HumanGood would do a reconciliation of bank accounts and sweep money to the purchaser daily. After 90 days, both parties have joint access to a bank account, and purchaser performs the reconciliation and allocation.
- Bottom line: for about 9 months post-closing, (1) we are on the hook for purchaser's liabilities (adverse event could potentially trigger actions by CMS that affect ability to provide skilled nursing at other HG SoCal SNFs), and (2) we will have an ongoing financial relationship with the purchaser.

SECTION 999.5(d)(11)(A)

**4) Meeting Minutes from HumanGood SoCal Board Meeting dated
March 24, 2022**

**CONFIDENTIAL MINUTES OF MEETING OF BOARD OF DIRECTORS OF
HUMANGOOD FRESNO
BY ZOOM
MARCH 24, 2022
12:30 PM**

A meeting of the Board of Directors (the “Board”) of HumanGood Fresno (the “Corporation”) was held on March 24, 2022 by Zoom. Board members present, constituting a quorum, were: Mr. Randy Stamper (Chair), Mr. Al Kelley (Vice Chair), Mr. Declan Brown (Secretary), Ms. Judith Baker, Mr. Alan Griffith, Mr. William Battison, Ms. Gloria Kuntz and Ms. Pamela Claassen.

Other LPC Governing Board members present were: Ms. Sharon Roth, and Ms. Irene Feller.

Staff present were: Mr. Dan Ogus (Chief Operating Officer), Mr. Andrew McDonald (Chief Financial Officer), Ms. Bethany Ghassemi (General Counsel), Mr. James Park (Senior Vice President Communications), and Ms. Roxanne Chase (Governance Board Relations Manager), taking minutes.

Mr. Stamper called the meeting to order at 12:31 p.m.

Windsor Sale: Ms. Ghassemi reported that this Board had previously approved HumanGood SoCal’s non-binding Letter of Intent to sell Windsor to Solheim, for \$14 million. She stated that Solheim never signed the Letter of Intent and responded with an offer constituting a combination of land and cash in the amount of \$13.25 million. Solheim and HumanGood SoCal then agreed to obtain an appraisal of the property, and HumanGood SoCal engaged CBRE to perform an appraisal. Thereafter, Ararat Home of Los Angeles, Inc. (“Ararat”) expressed interest in buying the property and offered HumanGood SoCal \$14 million in cash. The CBRE appraisal valued the community at \$17.8 million. After reviewing the appraisal with HumanGood management, Ararat increased its cash offer to \$14.8 million.

Mr. McDonald described HumanGood’s reasons for selling the community. He noted that it has lost over \$5.5 million in the last two years and \$9 million over five years. He explained that management has undertaken several initiatives to improve the community’s performance, including converting from an entry fee model to month-to-month rental model and making capital improvements, but despite these interventions, the community continues to experience sustained operational challenges. Mr. McDonald explained that one benefit of the sale would be to increase the HumanGood California Obligated Group’s Debt Service Coverage Ratio from 3.19 to 3.26 and its Days Cash on Hand from 484 to 528.

Ms. Ghassemi explained that in addition to offering what management believes to be a good price for the community, Ararat is an attractive buyer because it has strong ties to the wider Glendale community, is a nonprofit, holds a Certificate of Authority from DSS, has a stellar RCFE licensing record, will assume resident contracts, and plans to maintain or increase the number of licensed skilled nursing beds at the community.

In response to inquiries, management explained the following:

- The debt associated with the community is \$2 million with a book value of \$6 million. The amount of the proceeds related to the debt would be redeployed toward tax-exempt capital purposes in the California Obligated Group to meet the tax requirements.
- The city of Glendale, and particularly the neighborhood around Windsor, is predominantly Armenian. Ararat, an Armenian organization, has a significant waiting list for its RCFE and SNF beds, ample cash, fundraises, and is dedicated to serving the surrounding community through an active outreach approach.
- Regarding the difference between the appraised value and the \$14.8 million offered by Ararat: CBRE's appraisal reflected positive cash flows that have not actually been achieved. Another appraiser might appraise the community at a lower value, which would not be a desired outcome for HumanGood. HumanGood believes that because Ararat will need to subsidize losses while it helps the community achieve a positive margin, the \$14.8 million price is fair and reasonable.

Mr. Ogus stated that if the sale goes forward, he will be work with Ararat during the transitional period to enable a transfer that is smooth for residents and employees. He noted that it may take through the rest of the year to get the regulatory approvals required to close the transaction. He noted that the sale is confidential, and he is working with Human Resources on a plan to retain current community team members until the sale is final.

Ms. Ghassemi went over the process of selling a continuing care retirement community, referring to the materials provided. She a brief description of the approval process and the rights of the residents currently living at Windsor following the announcement of the transfer.

FOLLOW-UP: Ms. Ghassemi offered to do a recorded Webinar on the process of selling a CCRC, including notices and resident rights.

Ms. Ghassemi presented resolutions authorizing the execution of the letter intent and purchase and sale agreement with Ararat and the completion of all regulatory and non-regulatory actions needed to close the transaction.

ACTION TAKEN: Upon a motion made and seconded, the Board approved the resolutions of HumanGood SoCal authorizing the sale of Windsor to Ararat Home of Los Angeles, Inc.

The meeting was adjourned at 12:52 p.m.

H. Declan Brown, Secretary of HumanGood
Fresno, a California nonprofit benefit
corporation

HUMANGOOD SOCAL

APPROVAL OF SALE DISCUSSIONS AND AUTHORIZING THE EXECUTION OF A PURCHASE AND SALE AGREEMENT WITH ARARAT HOME OF LOS ANGELES, INC.

DULY ADOPTED ON MARCH 24, 2022

WHEREAS, HumanGood SoCal is a California nonprofit public benefit corporation (the “Corporation”) that owns and operates, a continuing care retirement community (“CCRC”) located at 1230 E Windsor Rd, Glendale, CA 91205 known as “Windsor” and previously, “Windsor Manor” (the “Community”);

WHEREAS, each of the Corporation and its sole member, HumanGood, holds, in its capacity as a co-provider, a continuing care certificate of authority (the “COA”) and a residential care facility for the elderly (“RCFE”) license, and the Corporation holds a skilled nursing facility license (“SNF License”), for the Community;

WHEREAS, over several years, the Corporation has experienced both operational and financial challenges operating the Community as a senior care community, including declining sales, low SNF census, and difficulties recruiting sufficient staff;

WHEREAS, the Corporation has sought to improve the operational and financial stability and raise the profile of the Community in the local community by expanding and enhancing the scope and extent of services provided to the Community's senior residents;

WHEREAS, despite the Corporation's efforts, the Community has continued to struggle both financially and operationally;

WHEREAS, in an effort to address these challenges, the Corporation began exploring a potential sale of the Community and in doing so obtained an Appraisal Report from CBRE, Inc. (“CBRE”), an experienced appraiser of senior care communities, and valuations from two investment banking firms with deep experience and connections in the senior living space, Ziegler Investment Banking (“Ziegler”) and Herbert J. Sims & Co., Inc. (“HJ Sims”);

WHEREAS, the CBRE appraisal appraised the Community at a value of \$16,800,000, Ziegler issued a preliminary valuation of \$10,000,000 to \$14,000,000, and HJ Sims issued a preliminary valuation of \$12,902,184;

WHEREAS, as previously authorized by the Board, the Corporation initially engaged in discussions with a prospective nonprofit buyer for the purchase of the Community, but after evaluating an informal offer from such prospective buyer that was lower than CBRE’s appraised value of the Community and upon learning from such prospective buyer that it might desire to delicense and close the skilled nursing facility at the Community in the future, the Corporation decided to stay in the market with the hope of identifying a better matched buyer;

WHEREAS, the Corporation identified and subsequently engaged in discussions with Ararat Home of Los Angeles, Inc., a California nonprofit public benefit corporation (“Ararat”) for the purchase of the Community;

WHEREAS, the Corporation thoroughly evaluated an offer from Ararat to purchase the Community for \$14,800,000 in cash, which offer includes the commitment to assume all active resident contracts (the “Sale Price”);

WHEREAS, the Corporation believes that Ararat is a strong candidate as a potential owner/operator of the Community because it is a nonprofit with strong ties to the local community, it is an experienced operator of a continuing care retirement community that serves a senior population similar to those residing at the Community, it has a strong licensing compliance record, and it plans to maintain and potentially increase the number of licensed beds at the Community's skilled nursing facility;

WHEREAS, the Corporation also believes that Ararat's proposed purchase offer is fair and consistent with the appraised value assigned by CBRE, given that the CBRE Appraisal Report does not reflect the cash resources needed to rehabilitate the Community in light of the current and long lasting operational and financial challenges it has been experiencing;

WHEREAS, the Corporation is in the process of conducting due diligence, determining any necessary review and approval by state regulatory and licensing agencies, and preparing documents, including a purchase and sale agreement, in order to further evaluate and proceed with effectuating Ararat's purchase offer; and

WHEREAS, having considered the foregoing, the Board of Directors of the Corporation desires to authorize the sale of the Community to Ararat for the Sale Price (the “Transaction”), which authorization shall include the authorization of (1) such actions as are necessary or desirable to obtain regulatory approval of the Transaction, (2) the execution of a purchase and sale agreement in the form reviewed and approved by management of the Corporation and legal counsel to the Corporation (the “Purchase and Sale Agreement”), (3) the execution of other documents and the taking of such actions as are necessary or desirable to further the Transaction, and (4) the ratification of such actions or activities pertaining to the Transactions taken prior to the date of this resolution.

NOW THEREFORE, IT IS:

RESOLVED, that the Corporation approves the Transaction and the execution of the Purchase and Sale Agreement by the President and Chief Executive Officer of the Corporation in the form approved by management of the Corporation and legal counsel to the Corporation;

RESOLVED FURTHER, the President and Chief Executive Officer, Chief Operating Officer, Chief Financial Officer and General Counsel of the Corporation (“Authorized Officers”), each acting alone, are hereby authorized and directed to prepare and execute any other documents to which the Corporation is a party in connection with the Purchase and Sale Agreement and/or sale of the Community;

RESOLVED FURTHER, that the Corporation is authorized to provide all necessary notices to residents and regulatory and licensing agencies and receive approvals from all regulatory and licensing agencies as needed for the proposed sale of the Community;

RESOLVED FURTHER, that the Corporation is authorized, but not required, to file a change of manager application for the RCFE License, COA, and SNF License in order to have Ararat begin managing the Community on the Corporation's behalf in anticipation of Ararat receiving the necessary regulatory and licensing approvals regarding its purchase of the Community;

RESOLVED FURTHER, that the Corporation will cooperate with Ararat to obtain all necessary regulatory, licensing, and certification change of ownership approvals of the Community and meet any other conditions of closing as described in the Purchase and Sale Agreement; and

RESOLVED FURTHER, the acts of the Authorized Officers of the Corporation and of any person or persons and authorized to act by any such officer of the Corporation, which acts would have been authorized by the foregoing resolutions except that such acts were taken prior to the adoption of such resolution, are hereby separately ratified, confirmed, approved and adopted as acts in the name of and on behalf of the Corporation.

CERTIFICATION

I, H. Declan Brown, Secretary of HumanGood SoCal, a California nonprofit public benefit corporation (the "Corporation"), do hereby certify and declare that the foregoing is a full, true and correct copy of the resolution duly passed and adopted the Board of Directors of the Corporation at a meeting of the Board of Directors of the Corporation duly called special meeting, noticed and held on March 24, 2022; that said resolutions are now in full force and effect; that there is no provision in the Articles of Incorporation or Bylaws of the Corporation limiting the powers of the Board of Directors of the Corporation to pass the foregoing resolutions and that such resolutions are in conformity with the provisions of such Articles of Incorporation and Bylaws of the Corporation.

IN TESTIMONY WHEREOF, I have hereunto set my hand as of March 24, 2022.

H. Declan Brown,
Secretary of HumanGood SoCal,
a California nonprofit public benefit corporation

SECTION 999.5(d)(11)(A)

**6) Meeting Minutes from HumanGood Strategic Planning Committee
Meeting dated December 9, 2021**

**MINUTES OF THE MEETING OF HUMANGOOD STRATEGIC PLANNING
COMMITTEE MEETING
MARRIOTT HOTEL, MARINA DEL REY, CALIFORNIA
DECEMBER 9, 2021
1 PM PT**

A meeting of the HumanGood Strategic Planning Committee (the “Committee”) was held on December 9, 2021, in Marina del Rey, California. Committee members present, constituting a quorum were Mr. Randall Stamper, Mr. Albert Kelley, Mr. Declan Brown, Mr. William Battison, Ms. Judith Baker, Rev. Michelle Holmes, and Mr. Alan Griffith.

Staff members present were: Mr. Dan Ogus (Executive Vice President and Chief Operating Officer) Mr. Andrew McDonald (Chief Financial Officer), Mr. James Park (VP Communications), Mr. Daniel Chen (IT Administrator), and Ms. Roxanne Chase (Governance and Board Relations Manager), taking minutes.

Staff members on Zoom were: Mr. John Cochrane (President and CEO), Ms. Lisa Holland (Vice President, Operations) Mr. Fleming Meng (Chief Information Officer), and Ms. Bethany Ghassemi.

The meeting was called to order at 12:57 a.m. by Mr. Stamper and Ms. Baker provided opening prayer.

Chair report: Mr. Stamper outlined the schedule and agenda for the Board and guests for the two days. Mr. Stamper reported that there would be two executive sessions where board members will have the opportunity to raise any issues on any topics.

ACTION TAKEN: Upon a motion made and seconded, the July 13, 2021, minutes were approved.

Other Updates:

- Windsor Update: Mr. Ogus reported on that HumanGood SoCal will be voting on approval of a nonbinding LOI with Solheim Lutheran. He stated that this community is losing \$2 million annually, and due to its size and staffing, it is not sustainable. For HumanGood’s and residents’ best interest the preference is to sell to a not for profit. He stated that he would like for their board to meet members of the HumanGood Board. If the decision is to move forward, the HumanGood Board and HumanGood SoCal Board would have to approve.

[REDACTED]

The Committee went into Executive Session at 4:49 p.m. and ended its session at 5:15 p.m.

Respectfully submitted,

Roxanne Chase
Governance and Board Relations Manager

SECTION 999.5(d)(11)(B)

(B) Copies of all documents relating or referring to the reasons why any potential transferee was excluded from further consideration as a potential transferee for any of the health facilities or facilities that provide similar health care services that are the subject of the agreement or transaction.

HumanGood SoCal received two offers for Windsor. Although Solheim initially expressed interest in the facility in February 2022, Solheim did not sign the initial LOI and indicated that they were no longer interested in purchasing the facility in January of 2021.

1. Email Communications Between Solheim and HumanGood Confirming Waiver of NDA dated August 18, 2022.
2. Revised NDA signed by Solheim dated January, 18, 2022

Copies of additional communications between HumanGood SoCal and Solheim have been submitted to the Attorney General's office under separate cover.

Bethany,

Following up on our conversation yesterday, this email confirms that Solheim is fine with a full mutual waiver of the NDA provision that is currently in effect between Solheim and HumanGood – subject to and effective immediately upon HumanGood also confirming, in writing, that it also agrees to fully mutually waive that NDA provision.

Happy to discuss via telephone if there's anything else that you think we should address regarding this or any other issues.

Thanks,
Adam

[EXTERNAL EMAIL]

Hello Sam,

It was nice to catch up. Pursuant to our conversation yesterday, HumanGood agrees to terminate the attached NDA between Solheim and HumanGood and to the release by each party of the other party from any obligation imposed by the NDA, including any obligation to keep confidential communications between the parties relating to Solheim's offer to purchase the Windsor community. Please confirm Solheim's agreement to these terms. HumanGood will consider this confirmation sufficient to terminate the NDA.

Thank you,
Dan

SECTION 999.5(d)(11)(B)

2) Revised NDA signed by Solheim dated January, 18, 2022

January 18, 2022

HumanGood SoCal

Dan Ogus, CEO

VIA EMAIL

Re: Windsor Community, 1230 E Windsor Rd, Glendale, CA 91205

Dear Dan:

This letter of intent (“Letter of Intent”) will set forth the proposal by Solheim Lutheran Home dba Solheim Senior Community, a California nonprofit public benefit corporation (“Buyer”), to purchase the above-referenced Senior Living Community from HumanGood SoCal, a California nonprofit public benefit corporation (“Seller”) (jointly, the “Parties”). **Except for Sections 3.3 and 8, which are intended to be legally binding, this Letter of Intent is not intended to be nor shall it be construed as a legally enforceable agreement.** This Letter of Intent is meant only for the mutual convenience of the Parties in the course of negotiating in good faith to enter into a further and formal Purchase Agreement (as defined below), in accordance with the following terms and provisions:

1. Description of Assets.

Buyer proposes to purchase, and Seller proposes to sell, all of the assets of a certain Senior Living Community located at 1230 E Windsor Rd, Glendale, CA 91205, commonly known as the “Windsor”. The assets of the Facilities (“Assets”) to be purchased and sold under the Purchase Agreement consist of the following:

- (a) All of Seller’s right, title and interest to the real property and in the Facilities, including without limitation, all improvements, fixtures leases, rights, privileges, easements, development rights, land use entitlements, building permits, licenses, permits, certificates, utilities, air rights, water rights, rights of way, and all other appurtenances of any kind in connection with the beneficial use and enjoyment of the real property thereon (collectively, all “Real Property”).

- (b) All of Seller's right, title and interest in any intangible property rights pertaining to the Facility, including operating materials and methods, trade secrets, service marks, any associated logos, any and all attendant state and/or federal service mark registrations, telephone numbers, facsimile numbers, websites, and the goodwill and going concern of the business of the Facility (collectively, all "Intangible Property").
- (c) All of Seller's personal property at the Facility, including without limitation, furniture and furnishings, equipment, and inventory used at the Facilities (collectively, all "Personal Property").

2. Purchase Price.

2.1 Price. Subject to further good faith negotiations between the Parties to arrive at an exact price, at the time of the signing of this Letter of Intent, the Parties currently anticipate that the purchase price ("Purchase Price") for the Facility shall be in the range of \$13,250,000. The Parties also contemplate that some portion of that Purchase Price may be satisfied via a separate transfer and sale (from Buyer to Seller) of all of the assets and interest that Buyer currently holds in a second property which is located at 2223 Fair Park Avenue, Los Angeles, CA 90041. The Parties shall also determine, at a later date and via further negotiations in good faith, whether the purchase of this second property located at 2223 Fair Park Avenue shall also occur pursuant to the terms of Section 6, below, or whether it shall occur pursuant to other and different terms which shall then be negotiated with respect to this second real estate transaction.

2.2 Deposit. Within two (2) business days following execution of a definitive and binding Purchase Agreement (as defined below), Buyer will deposit the sum of \$250,000 (the "Initial Deposit") with Commonwealth Land Title ("Title Company"). An additional deposit of \$250,000 (the "Second Deposit," and together with the Initial Deposit, comprising the full "Deposit") will be required upon completion of the Due Diligence Period set forth in Section 3 hereof. The Deposit shall be held by Title Company in an interest-bearing account designated by Buyer with all accrued interest for the benefit of Buyer.

3. Due Diligence.

3.1 Due Diligence Period. For a period of ninety (90) days from and after the execution and delivery of this Letter of Intent (the "Due Diligence Period"), Buyer, at Buyer's expense, shall be entitled to review and investigate the physical and environmental condition of the subject property, the character, quality, and general utility of the Assets, the zoning, land use, environmental and building requirements, and restrictions applicable to the Real Property and its development, the state of title to the Assets, any leases or other agreements effecting the Assets, all applicable licensing matters and all other matters Buyer feels are necessary to evaluate all Assets and determine its acceptability to Buyer. If, during the Due Diligence Period, Buyer determines that the Assets are not acceptable for any reason in Buyer's discretion, Buyer shall have the right, by giving written notice to Seller on or before the last day of the Due Diligence Period, to

terminate this letter of intent. If Buyer does not exercise the right to terminate this Letter of Intent in accordance with this Section, then this Letter of Intent shall continue in full force and effect.

3.2 Cooperation. Seller hereby grants to Buyer and Buyer's representatives the right to enter onto the Real Property during the Due Diligence Period to conduct inspections for its due diligence and to inspect and copy the files of Seller relating to the Assets. Seller shall deliver to Buyer any and all due diligence information reasonably requested by Buyer within ten (10) business days of Buyer's request. Buyer shall defend, indemnify, and hold Seller harmless against any losses, damages, costs and expenses, including reasonable attorney's fees and disbursements, arising from any entry on the Real Property by Buyer or any of its representatives to conduct due diligence (other than the discovery of pre-existing conditions).

3.3 Confidentiality. Buyer agrees to keep all such information confidential and not to disclose any such information to any third party except the extent necessary to carry out their responsibilities to assist Buyer in its due diligence pursuant to this Section 3 and in the consummation of the purchase contemplated hereby.

4. Title and Condition of the Property.

4.1 Title. Seller shall convey to Buyer all of Seller's right, title, and interest into the Assets by grant deed free and clear of all liens, encumbrances, claims, easements, restrictions, covenants, and conditions except the following exceptions ("Permitted Exceptions"): (i) the lien of supplementary taxes; (ii) real property taxes not yet due; (iii) any existing leases approved by Buyer, if any; (iv) easements, restrictions and rights of way and other exceptions shown in the preliminary report approved in writing by Buyer; and (v) exceptions shown by a survey approved by Buyer.

5. Conditions Precedent to Closing. The obligations of Buyer to purchase the Assets or any portion of it shall be subject to such conditions as are specified in a future and further Purchase Agreement (as defined below), including without limitation:

- (a) Approvals. All consents, approvals, and other authorizations of any governmental agencies and third parties required for the Buyer's intended use of the Assets will have been obtained, without the imposition of conditions unsatisfactory to Buyer.
- (b) Title Insurance. Title Company's issuance to Buyer of Title Company's ALTA Owner's Policy of Title Insurance together with all endorsements required by Buyer ("Title Policy") in the amount of the applicable Purchase Price, subject only to the Permitted Exceptions.
- (c) Licensure of Buyer. To the extent required by applicable regulatory authorities, Buyer will have been licensed by the State of California to operate the Senior Living Community with the same authorization, right, and privileges that Seller currently holds (collectively, "Licenses") as of the Closing Date. It is the intention of the parties,

however, to enter into an arrangement at Closing providing for continued operation of the Facility for Buyer's benefit pending issuance of the Licenses to the extent permitted by applicable regulatory authorities. Buyer shall use its commercially reasonable efforts to obtain the Licenses.

6. Title Company, Closing, Prorations and Expenses.

6.1 Closing. The purchase of the Assets ("Closing") shall occur through an escrow with Commonwealth Land Title ("Title Company") at 4100 Newport Place Drive, Suite 120 Newport Beach, CA 92660, on a date specified by Buyer, which date is to be no more than one hundred and twenty (120) days after expiration of the Due Diligence Period ("Closing Date"), subject to extension to a specified outside closing date if required to obtain (i) any required permitting or regulatory approvals (to the extent the applicable regulatory authorities do not permit a leaseback arrangement), or (ii) the attorney general's approval of the sale transaction, to be further addressed in the Purchase Agreement. Prior to the Closing Date, Seller and Buyer each shall give appropriate written escrow instructions.

6.2 Title Policy. On the Closing Date, Title Company shall be obligated to issue and shall issue to Buyer a Title Policy in an amount equal to the total Purchase Price for the Assets, subject only to the Permitted Exceptions. Seller shall transfer possession of the Assets to Buyer on the Closing Date.

6.3 Closing Costs. For each closing contemplated hereunder, Seller shall pay 50% of escrow charges, any transfer taxes, and the base premium for the Title Policy. Buyer shall pay 50% of escrow charges, any lender's policy, and any extended coverage and all endorsements to the Title Policy. All other closing costs shall be allocated in accordance with the custom in Los Angeles County.

6.4 Prorations. At the Closing on the Closing Date, the current installment of real property taxes and assessments, rent, if any, and all current operating expenses of the Assets shall be prorated between Seller and Buyer as of such date on the basis of a 30-day month.

7. Purchase Agreement.

The parties agree to negotiate in good faith a future and further standard purchase agreement ("Purchase Agreement") in accordance with the above business terms. All references herein to this Agreement shall also be applicable to that Purchase Agreement.

8. Exclusivity.

The Parties agree that during the Due Diligence Period, Seller will not solicit, offer, discuss, accept, or permit any representative to solicit, offer, discuss, or accept from any person or entity the sale of all or any portion of the Assets.

9. Brokers.

Each Party shall be responsible for all broker's fees or other commissions payable to any broker or any other person engaged by it in connection with the proposed transaction. Each Party shall also indemnify, defend, and hold harmless the other party from and against any and all claims for amounts owed in connection with the consummation of the proposed transaction made by any broker or other person through whom any such broker or finder makes a claim.

10. Expiration of Offer.

This offer will remain open until 5:00 p.m. Pacific Standard Time on January 21, 2022, at which time, unless accepted in writing, it will terminate automatically.

I am authorized to make this offer on behalf of Buyer. If the above correctly sets forth our understanding, please execute a copy of this letter and return it to me.

Very truly yours,

Sam Oden
Chief Executive Officer, Solheim Senior Community

AGREED TO BY HUMANGOOD SOCAL:

By:

SECTION 999.5(d)(11)(C)

(C) Copies of all Requests for Proposal sent to any potential transferee, and all responses received thereto.

HumanGood SoCal did not prepare any formal Requests for Proposals regarding the sale of Windsor. However, we have submitted copies of all communications between HumanGood SoCal and the interested parties to the Attorney General's office under separate cover.

SECTION 999.5(d)(11)(D)

(D) All documents reflecting the deliberative process used by the applicant and any related entity in selecting the transferee as the entity to participate in the proposed agreement or transaction.

Copies of communications outlining the deliberative process of HumanGood SoCal in selecting Ararat Home have been submitted to the Attorney General's office under separate cover.

SECTION 999.5(d)(11)(E)

(E) Copies of each Proposal received by the applicant from any potential transferee suggesting the terms of a potential transfer of applicant's health facilities or facilities that provide similar health care services, and any analysis of each such Proposal.

As noted above, HumanGood SoCal received two expressions of interest regarding the sale of the Windsor community from Solheim and Ararat Home. However, Solheim never signed the Letter of Intent that they initially submitted.

Copies of email communications between HumanGood SoCal and the potential buyers have been submitted to the Attorney General's office under separate cover.

SECTION 999.5(d)(11)(F)

(F) The applicant's prior two annual audited financial statements, the applicant's most current unaudited financial statement, business projection data and current capital asset valuation data.

Attached is the following financial information for HumanGood SoCal :

1. FY 2022 current unaudited financial statements, as of April 2022;
2. FY 2021 audited consolidated financial statements;
3. FY 2020 audited consolidated financial statements.

SECTION 999.5(d)(11)(F)

1) FY 2022 current unaudited financial statements, as of April 2022

Independent Auditors' Report

To the Boards of Directors of
HumanGood California Obligated Group & Foundation Affiliates

Opinion

We have audited the combined financial statements of the HumanGood California Obligated Group & Foundation Affiliates (the Corporations), which comprise the combined balance sheets as of December 31, 2021 and 2020, and the related combined statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the combined financial statements.

In our opinion, the accompanying combined financial statements present fairly, in all material respects, the financial position of the Corporations as of December 31, 2021 and 2020 and the results of their operations, and changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Combined Financial Statements section of our report. We are required to be independent of the Corporations and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Combined Financial Statements

Management is responsible for the preparation and fair presentation of the combined financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the combined financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporations' ability to continue as a going concern within one year after the date that the combined financial statements are issued.

Auditors' Responsibilities for the Audit of the Combined Financial Statements

Our objectives are to obtain reasonable assurance about whether the combined financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the combined financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the combined financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the combined financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporations' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the combined financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporations' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the combined financial statements as a whole. The combining information on pages 45 to 68 is presented for purposes of additional analysis of the combining financial statements rather than to present the financial position, changes in net deficit and cash flows of the individual organizations, and it is not a required part of the combined financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined financial statements. The combining information has been subjected to the auditing procedures applied in the audit of the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements or to the combined financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining information is fairly stated, in all material respects, in relation to the combined financial statements as a whole.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

1. Business and Organization

HumanGood (Parent Organization) is a California nonprofit public benefit tax-exempt corporation providing housing, health care and supportive services for seniors through its Life Plan Communities (LPCs) and affordable housing communities owned by its subsidiaries. HumanGood is the sole member of HumanGood NorCal (NorCal), HumanGood SoCal (SoCal), HumanGood Fresno (dba Terraces at San Joaquin Gardens, TSJG) and HumanGood Cornerstone (Cornerstone). NorCal is the sole member of HumanGood Foundation West (Foundation West) and SoCal is the sole member of HumanGood Foundation South (Foundation South). NorCal, SoCal and TSJG, which collectively form the HumanGood California Obligated Group, share the common parent entity of HumanGood, and together with Foundation West and Foundation South, constitute the HumanGood California Obligated Group & Foundation Affiliates (collectively, the Corporations).

HumanGood California Obligated Group

On August 1, 2019, concurrent with the date of issuance of the Series 2019A Tax-Exempt Revenue and Refunding Bonds and the Series 2019B Taxable Bonds, the HumanGood California Obligated Group (COG) was formed (see Note 6).

HumanGood NorCal

NorCal is a California nonprofit public benefit tax-exempt corporation which owns, operates and manages LPCs in which housing, health care and supportive services are provided for seniors. Seven of NorCal's nine directors are HumanGood's directors. The executive officers of HumanGood also serve as executive officers of NorCal. As of December 31, 2021, the following LPCs were owned and operated by NorCal:

Terraces at Los Altos	Valle Verde
Grand Lake Gardens	Rosewood
Piedmont Gardens	Terraces of Los Gatos
Plymouth Village	

HumanGood SoCal

SoCal is a California nonprofit public benefit tax-exempt corporation which owns, operates and manages LPCs in which housing, health care and supportive services are provided for seniors. Seven of SoCal's nine directors are HumanGood's directors. The executive officers of HumanGood also serve as executive officers of SoCal. As of December 31, 2021, the following LPCs were owned and operated by SoCal:

Royal Oaks	Regents Point
White Sands La Jolla	Westminster Gardens
Windsor	Redwood Terrace

HumanGood Fresno

TSJG is a California nonprofit public benefit tax-exempt corporation providing housing, health care and supportive services for seniors in Fresno, California, through its LPC. Seven of TSJG's nine directors are HumanGood's directors. The executive officers of HumanGood also serve as executive officers of TSJG.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

HumanGood Foundation West

Foundation West is a California nonprofit public benefit tax-exempt corporation whose primary purpose is to develop, invest and administer funds to provide housing and care on behalf of certain residents. Foundation West's principal activity is to administer such funds under donor agreements. NorCal is the sole member of Foundation West, and therefore, elects the directors of Foundation West. As a result, NorCal has control over Foundation West, and therefore, Foundation West is included in these combined financial statements. Foundation West guarantees the NorCal Series 2015 bond obligation. Foundation West's obligations under the guaranty agreement are limited to Foundation West's income earned on its net assets without donor restrictions (see Note 6).

HumanGood Foundation South

Foundation South is a California nonprofit public benefit tax-exempt corporation whose primary purpose is to develop, invest and administer funds to provide housing and care on behalf of certain residents. Foundation South's principal activity is to administer such funds under donor agreements. SoCal is the sole member of Foundation South, and therefore, elects the directors of Foundation South. As a result, SoCal has control over Foundation South, and therefore, Foundation South is included in these combined financial statements.

HumanGood Cornerstone and Related Enterprises

HumanGood Cornerstone, an affiliate of the Corporations, is a California nonprofit public benefit tax-exempt corporation and, as the sole member, exercises its direction and control through the appointment of the Board of Directors of HumanGood Arizona, Inc. (dba Terraces of Phoenix, TOP), HumanGood Washington (dba Judson Park, JP), HumanGood Nevada (dba Las Ventanas), HumanGood Idaho (dba The Terraces of Boise, Boise), HumanGood Properties (formerly known as Seniority Properties), HumanGood East, HumanGood Affordable Housing and Beacon Development Group, LLC (BDG) and in conjunction with an affiliation, effective in February 2022, West Valley Nursing Homes, Inc., dba Living Care Retirement Community. HumanGood Arizona, Inc. and HumanGood Washington together constitute an obligated group (HumanGood National Obligated Group). In March 2021, HumanGood Cornerstone approved a resolution to transfer BDG to HumanGood Affordable Housing as its sole member.

HumanGood and HumanGood Cornerstone's Boards are composed of the same seven directors.

HumanGood Affordable Housing

HumanGood Affordable Housing (HGAH) is a California nonprofit public benefit tax-exempt corporation. HGAH serves as the sole or majority General Partner and controlling organization for 22 tax-credit affordable housing communities, serves as the sole or majority member and controlling organization for 27 additional affordable housing communities and provides management services to ten affordable housing communities.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

On January 1, 2015, NorCal purchased BDG for a combination of cash and a \$2,000,000 note and simultaneously assigned its rights thereto to HGAH. NorCal then entered into a \$2,350,000 affiliate note with BDG to assign the cost of purchase to the acquired entity.

Simultaneous with this January 1, 2015 purchase, NorCal transferred all operational activities, assets and liabilities associated with NorCal's affordable housing line of business to HGAH in exchange for a noninterest bearing affiliate note with NorCal for \$2,242,000 and a noninterest bearing contingent note with NorCal for \$1,364,000, which is payable upon HGAH's ability to achieve certain operating performance metrics. These notes receivable are included in subordinated notes receivable, net on NorCal's balance sheet included in the supplementary combining balance sheets.

Beacon Development Group, LLC

Beacon Development Group, LLC (BDG) is a professional services firm that consults primarily in the development and construction of affordable housing communities. BDG provides services to affiliates of the Corporations and other nonprofits and housing authorities. In March 2021, HumanGood Cornerstone approved a resolution to transfer BDG to HumanGood Affordable Housing as its sole member.

HumanGood Arizona, Inc.

HumanGood Arizona, Inc. is an Arizona nonprofit tax-exempt corporation providing housing, health care and supportive services for seniors in Phoenix, Arizona through its LPC, Terraces of Phoenix. Prior to September 29, 2003, TOP was a controlled affiliate of NorCal. The funds previously advanced by NorCal to support TOP's operating and capital needs were retained in the form of a subordinated note receivable from TOP. The note has been recorded as part of subordinated notes receivable, net in the accompanying combined balance sheets at the estimated net realizable value of \$4,315,000 as of December 31, 2021 and 2020.

NorCal manages TOP under a multiyear management agreement at a management fee of 8.5 percent of budgeted cash revenues, with half of this amount subject to subordination upon noncompliance with certain covenants. The agreement automatically renews annually unless terminated.

HumanGood Washington

HumanGood Washington is a Washington nonprofit public benefit tax-exempt corporation providing housing, health care and supportive services for seniors in Washington through its LPC, Judson Park. On May 30, 2012, NorCal entered into a ten-year management agreement, at a base fee of 8.5 percent of budgeted cash revenues, with half of this amount subject to subordination upon noncompliance with certain covenants. The agreement automatically renews at the end of the term unless terminated.

HumanGood Nevada

HumanGood Nevada is a California nonprofit public benefit tax-exempt corporation providing housing, health care and supportive services for seniors in the Las Vegas, Nevada area, through its LPC, Las Ventanas. On July 1, 2004, NorCal began providing oversight management services to Las Ventanas. On January 1, 2010, NorCal began providing full management services to Las Ventanas. Under the current agreement, management fees accrue at 3.0 percent of total cash revenues, with payment deferred until certain operating metrics have been met as laid out in the agreement. The paydown of deferred fees cannot cause the total fees paid in any one year to exceed 5.0 percent of total revenues.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

On September 12, 2012, Las Ventanas, its bondholders and NorCal executed a restructuring agreement of Las Ventanas' debt, ground lease and other key obligations, which involved the exchanging of existing bonded indebtedness for three new series of tax-exempt bonds. NorCal contributed capital and released its interests in the Las Ventanas ground lease and construction loan, and forgave all previously accrued management fees in exchange for interests in the newly issued Las Ventanas Series 2012 A-2, Series B-2, Series B-3 and Series C-2 Bonds.

As a result of the aforementioned restructuring, NorCal received \$16,414,000 (par value) of HumanGood Nevada Bonds, which were classified as investments in HumanGood Nevada Bonds in the accompanying combined balance sheet for the year ended December 31, 2020. Annual revaluations of the investments have resulted in unrealized mark-to-market losses on the Bonds of \$8,834,000 as of December 31, 2020.

On February 19, 2019, HumanGood Nevada filed a voluntary public disclosure announcing its intent to explore various options related to tendering, purchasing, refinancing or restructuring all, or portions, of its Series 2012 Bonds. On February 12, 2021, an additional disclosure was filed detailing that NorCal had refined this exploration to potentially contacting holders of the Series 2012B-1 and C-1 Bonds to purchase all or a portion of those bonds with a current expectation to hold such Series 2012B-1 and C-1 Bonds within its investment portfolio in anticipation of a possible refinancing of the Series 2012 Bonds in the future. On February 18, 2021, NorCal purchased \$4,922,000 par amount of the Series 2012B-1 and \$9,136,000 par amount of the Series 2012C-1 Bonds at a discount of \$7,230,000.

On November 16, 2021, HumanGood Nevada filed a public disclosure informing bondholders that it intended to call for redemption the entirety of its outstanding Series 2012 Bonds. On December 16, 2021, using a combination of \$22,540,000 of NorCal cash, \$11,851,000 of HumanGood Nevada cash and an exchange of \$28,262,000 of Series 2012 Bonds held by NorCal, HumanGood Nevada retired, at a 1.0 percent premium, its Series 2012 Bonds in exchange for the issuance to NorCal of a CUSIP-bearing \$43,819,000 Series 2021 senior secured note bearing interest at a fixed rate of 4.0 percent over 35 years, which is included in investments in HumanGood Nevada Bonds on the accompanying combined balance sheet at December 31, 2021. Concurrent with the issuance of the Series 2021 interfacility note, HumanGood Nevada paid to NorCal \$2,412,000 of outstanding management fees owing, which NorCal recorded as other operating revenue in the accompanying combined statements of operations and changes in net assets.

In connection with this financing transaction, NorCal recognized a realized gain of \$8,834,000 of previous unrealized mark-to-market loss on its Series 2012 A-2, B-2, B-3 and C-2 bond holdings which is included in realized gain on investment in HumanGood Nevada Bonds in the accompanying combined statement of operations and changes in net assets. Additionally, NorCal exchanged its HumanGood Nevada Series 2012 B-1 and C-1 Bonds at their discounted value, as described above, for an equivalent amount of HumanGood Nevada Series 2021 notes received. As a result of this exchange, HumanGood Nevada recognized a gain on debt redemption of \$7,230,000.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

HumanGood Idaho

HumanGood Idaho is a California nonprofit public benefit tax-exempt corporation, which has been providing housing, health care and supportive services for seniors in Boise, Idaho, through its LPC, the Terraces of Boise, since 2015.

To support Boise's Series 2014 financing, NorCal provided \$3,000,000 in equity along with \$1,000,000 of funded liquidity support and an additional \$1,250,000 of unfunded liquidity support. At the same time, Boise purchased the parcel of land upon which the Terraces of Boise is built from NorCal for cash and a \$2,000,000 interest bearing subordinated note receivable. On March 18, 2020, Boise entered into a Second Supplemental Master Trust Indenture for which one of the amendments caused NorCal to fund its remaining liquidity support obligation of \$1,250,000 with the Master Trustee on March 31, 2020.

Effective February 2021, NorCal succeeded Greystone Management Services Company Idaho, LLC as manager. Under the terms of the management agreement, NorCal receives a base fee of 5 percent of budgeted cash revenues, with 3 percent deferred and payable only from cash balances greater than 150 days. No such payments have been received in 2021 and deferred amounts of \$416,000 are included in interest and management fees due from affiliates on the accompanying combined balance sheet at December 31, 2021.

On July 26, 2021, HumanGood Idaho filed an EMMA notice stating that the company had entered into a debt restructuring term sheet agreement with the majority of the holders of its 2014 Bonds. On October 6, 2021, HumanGood Idaho issued \$75,045,000 of Series 2021A Bonds and \$4,170,000 of Series 2021B Bonds in exchange for the outstanding Series 2014 Bonds. NorCal contributed \$6,500,000 in working capital in exchange for subordinated Series 2021C Bonds and forgave previous unsecured amounts owing in exchange for \$2,250,000 of junior subordinated Series 2021 Direct Obligation No. 4, both included in subordinated notes receivable, net in the accompanying combined balance sheet as of December 31, 2021. Amounts forgiven include the \$2,000,000 land purchase subordinated note and \$597,000 of related interest, and \$1,212,000 of intercompany amounts owing. The accrued interest and intercompany amounts owing were fully reserved on NorCal's accompanying combined balance sheet at December 31, 2020, whereas the forgiveness of the subordinated land note gave rise to a forgiveness of indebtedness to affiliate in the accompanying statement of operations and changes in net assets for the year ended December 31, 2021.

HumanGood Properties (formerly known as Seniority Properties)

HumanGood Properties is a California for-profit corporation, which was formed in February 2014 for the purpose of holding equity interests in developed and acquired senior housing communities and other similar investments.

On September 1, 2015, HumanGood Properties, through a subsidiary LLC, purchased a 49 percent equity interest, and later, through a purchase option, an additional 1 percent interest in a memory care senior housing community in Oklahoma.

HumanGood East

HumanGood East is a Pennsylvania nonprofit tax-exempt corporation providing housing, health care and supportive services for seniors through its three LPCs, 17 owned and managed affordable housing communities and 21 additional affordable housing communities managed for unrelated entities.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

Basis of Presentation and Principles of Combination

The accompanying combined financial statements combine the accounts of NorCal, SoCal, TSJG, Foundation West and Foundation South (HumanGood California Obligated Group & Foundation Affiliates) in accordance with accounting principles generally accepted in the United States of America (GAAP). All entities except Foundation West and Foundation South share a common parent, HumanGood, which has the sole corporate membership and controlling financial interest in each of these organizations, and Foundation West and Foundation South are affiliates of NorCal and SoCal, respectively.

All interaffiliate transactions between the Corporations eliminate in combination.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of the combined financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the combined financial statements and the reported amounts of revenues and expenses during the reported periods. Significant items subject to such estimates and assumptions include the fair values of interest rate swaps and caps assets and liabilities; allowances for contractual and uncollectible accounts receivable; fair values of notes receivable; fair values of investments; future service benefit obligations; rebatable entrance fees due; entrance fees subject to refund; entrance fees nonrefundable; liabilities for self-insured workers' compensation; self-insured health insurance; liabilities for pension and retirement plans; and valuation of split-interest agreements. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents are defined as cash on hand, demand deposits with financial institutions and overnight investments considered to be cash equivalents. For the purposes of the combined statements of cash flows, cash, cash equivalents and restricted cash include investments purchased with an initial maturity of three months or less.

Restricted Cash

Restricted cash is defined as cash and cash equivalents, which are restricted in their use by debt agreements.

Resident Accounts Receivable

The Corporations assess collectability on all resident accounts prior to providing services. An allowance for uncollectible accounts is recognized to reduce accounts receivable to its net realizable value for impairment of revenues for changes in resident credit worthiness. The allowance is estimated by management based on factors such as aging of the accounts receivable (outstanding balances over 150 days are fully reserved), and anticipated collection of the consideration. Accounts are written off through bad debt expense when the Corporations have exhausted all collection efforts and accounts are deemed uncollectible.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

Investments

Investments include certain cash equivalents held by investment managers, mutual funds, equity securities, exchange-traded funds and closed-end funds, domestic corporate debt, U.S. and foreign government securities and certain cash equivalents and securities held by trustees for capital project expenditures and debt service, and are stated at fair value in the accompanying combined balance sheets.

Investment income or loss (including interest, dividends and fees), realized gains and losses and unrealized gains and losses on investments are included in income from operations and changes in net assets without donor restrictions. Interest income is measured as earned on the accrual basis. Dividends are measured based on the ex-dividend date. Purchases and sales of securities and realized gains and losses are recorded on a trade-date basis.

The Corporations' investments are comprised of a variety of financial instruments and are managed by investment advisors. The fair value reported is subject to various risks, including changes in the equity markets, the interest rate environment and general economic conditions. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is reasonably possible that the amounts reported could change materially in the near term.

Restricted Investments

Certain investments are restricted as assets held in trust. These include assets held by trustees in accordance with the indentures relating to debt agreements and assets set aside in accordance with various trust agreements with third parties, including donors. Assets held in trust as well as assets managed with donor restrictions are classified as restricted investments in the accompanying combined balance sheets (see Note 4).

Designated Investments

Designated investments of \$130,957,000 and \$123,966,000 as of December 31, 2021 and 2020, respectively, are designated by the Board of Directors primarily for future capital projects, to advance strategic corporate initiatives and for Foundation West Board-designated benevolence funds (see Note 4).

Investments in HumanGood Nevada Bonds

Investments in HumanGood Nevada Bonds as of December 31, 2020 included holdings in three tranches of the Las Ventanas Series 2012 Bonds (see HumanGood Nevada Subsection in Note 1). As of December 31, 2021, as part of the aforementioned HumanGood Nevada Series 2012 debt redemption, investments in HumanGood Nevada Bonds as of December 31, 2021 consist of a \$43,819,000 Series 2021 senior secured note bearing interest at a fixed rate of 4.0 percent over 35 years. These investments are recorded at fair market value as of December 31, 2021 and 2020, in the accompanying combined balance sheets.

Changes in fair market value are included in unrealized loss on investments in HumanGood Nevada Bonds in the accompanying combined statements of operations and changes in net assets.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

Subordinated Notes Receivable, Net

Subordinated notes receivable, net as of December 31, 2021 and 2020 are comprised of the following (in thousands):

	<u>2021</u>	<u>2020</u>
Subordinated note receivable from the Terraces of Phoenix	\$ 4,315	\$ 4,315
Subordinated note receivable from the Terraces of Boise	6,500	4,250
Junior subordinated note receivable from the Terraces of Boise	2,250	-
Notes receivable related to HGAH and BDG acquisition	<u>2,542</u>	<u>4,007</u>
Total	<u>\$ 15,607</u>	<u>\$ 12,572</u>

All subordinated notes receivable are further described in HumanGood Cornerstone Related Enterprises Subsection in Note 1.

COG Member Subordinated Notes Receivable, Net

Subordinated notes amongst members of the affiliated Corporations included in COG are included in the accompanying supplemental combining balance sheets but eliminated in the accompanying combined financial statements.

Prior to September 26, 2012, TSJG was one of eight LPCs constituting NorCal's Obligated Group. Effective September 26, 2012, by vote of the NorCal Board of Directors, and consistent with the rights and abilities granted in NorCal's Master Trust Indenture, sole corporate membership and control of TSJG was transferred from NorCal to Cornerstone, and subsequently to HumanGood, in conjunction with the issuance of the TSJG Series 2012 Bonds. Furthermore, at this time, the portion of NorCal's Series 2006 Bonds previously allocated to TSJG was replaced with a \$23,336,000 variable rate subordinated note, and a portion of NorCal's Series 2010 Bonds previously allocated to TSJG was replaced with a \$6,438,000 fixed rate subordinated note. Debt service payments on these subordinated notes were contingent upon TSJG being in compliance with certain performance metrics. These subordinated notes receivable from TSJG are included in NorCal's subordinated notes receivable in the accompanying supplemental combining balance sheets as of December 31, 2020. Both subordinated notes payable are included in TSJG's notes and bonds payable, net in the accompanying supplemental combining balance sheet as of December 31, 2020.

Concurrent with the 2012 financing, NorCal and TSJG entered into a ten-year management agreement at a base fee of 8.5 percent of budgeted cash revenues, with half of this fee subject to subordination. The agreement automatically renews at the end of the term unless terminated.

Upon meeting certain performance criteria, interest payments of \$4,150,000 were made to NorCal for the year ended 2020, for interest expense that had been deferred in previous fiscal years, and principal payments of \$1,634,000 were made in 2020. Interest expense of \$804,000 at December 31, 2020, related to these notes was accrued but not fully paid. All amounts related to these notes and their debt service payments eliminate in the accompanying combined financial statements.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

Effective December 31, 2021, the Boards of Directors of TSJG and NorCal approved the retirement of the \$23,336,000 and \$6,438,000 subordinated notes in exchange for a direct allocation of NorCal Series 2015 and COG Series 2019 Bonds to TSJG. Additionally, the Boards of Directors approved the management agreement be amended and restated to remove terms restricting the timely payment of management fees owed from TSJG to NorCal. As a result of these actions, the total debt allocated to TSJG was lowered by \$8,526,000, and previously owed amounts for management fees and interest expense on the aforementioned subordinated notes of \$8,567,000 were released from payment restrictions, giving rise to a subsequent payment from TSJG to NorCal of \$17,093,000 in 2022 to satisfy all amounts formerly owed.

At December 31, 2020, \$6,396,000 of management fees were accrued but not paid and are included in other liabilities in the accompanying supplemental combining balance sheet of TSJG and are eliminated in the accompanying combined financial statement at December 31, 2020. There were no accrued but unpaid management fees at December 31, 2021.

Land, Buildings and Equipment, Net

Land, buildings and equipment are recorded at cost, or fair value when received, if donated. The cost basis includes any interest, finance charges and other related costs capitalized during construction. Maintenance and repair costs are charged to operations when incurred.

Depreciation of buildings and equipment is computed on the straight-line method using estimated useful lives of 3 to 40 years. When assets are retired or otherwise disposed of, the cost of the asset and its related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income for the period.

Asset Impairment

The Corporations periodically evaluate the carrying value of their long-lived assets for impairment. The evaluations address the estimated recoverability of the assets' carrying value, which is principally determined based on projected undiscounted cash flows generated by the underlying tangible assets. When the carrying value of an asset exceeds estimated recoverability, an asset impairment is recognized. No asset impairment was recorded during the years ended December 31, 2021 and 2020.

Other Noncurrent Assets

Other noncurrent assets are primarily comprised of membership interests in Caring Communities, a Reciprocal Risk Retention Group (CCrRRG), limited partner interests in Ziegler's Longevity Funds and capitalized contract acquisition costs.

Deferred Debt Issuance Costs

Expenses incurred in connection with the issuance of debt are deferred and are amortized over the term of the related financing agreements using the interest method. These unamortized amounts are presented in the combined balance sheets as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Amortization expense, which is included as a component of mortgage interest, in the accompanying combined statements of operations and changes in net assets was \$283,000 in 2021 and \$255,000 in 2020.

Revocable Trusts

Revocable trusts are trust agreements that are revocable by trustors at any time, with specific terms for each agreement. Consequently, a liability is reflected in revocable trusts in the accompanying combined balance sheets equal to those related trust assets in restricted investments in the accompanying combined balance sheets.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

Obligations Under Annuity Agreements

In conjunction with certain giving arrangements, Foundation West and Foundation South are required to pay a certain sum of money to the donor or a designated beneficiary, and, consequently, a liability is reflected in obligations under annuity agreements in the accompanying combined balance sheets.

These types of arrangements are summarized as follows:

Gift Annuities Fund

As consideration for gifts made to Foundation West and Foundation South, the Foundations enter into agreements to pay fixed annual payments to the donors or their beneficiaries for life. In accordance with Section 11521 of the California Insurance Code, a liability has been established for the future payments under the outstanding annuity contracts. The annual computation of the restricted amount of the gift is based upon the 2012 Individual Annuity Reserving Mortality Table, with an interest assumption at 2.75 percent per annum. Assets in excess of liabilities, if any, related to these annuities are available for the use of the Foundations with the approval of the California Department of Insurance.

Annuity Trusts

Annuity trusts are trust agreements that provide for a fixed annual payment of not less than 6 percent of the initial value of trust assets to one or more income beneficiaries, with an irrevocable remainder interest contributed to charity. The annual payment never varies, regardless of trust income or the appreciation or depreciation in the value of trust assets.

Unitrusts

Unitrusts are trust agreements that are similar to annuity trusts, except that the annual payout generally is a fixed percentage, ranging from 5 percent to 7 percent, of the value of the trust assets valued annually. In general, the unitrust beneficiary payment amounts rise and fall in proportion to the value of trust assets. In certain cases, the payout from unitrusts may be tied to trust income.

Obligation to Provide Future Services

If the present value of future outflows to provide future healthcare services to current contracted residents, adjusted for certain noncash items, exceeds the present value of future cash in-flows, a liability is recognized. Management engages an actuary to periodically calculate the obligation to provide future health care services to current contracted residents. Based upon the last calculations performed using a discount rate of 5 percent, the present value of future outflows to provide future services, adjusted for certain noncash items, did not exceed the present value of future cash in-flows. Based upon these calculations, and analysis of management, no liability for the obligation to provide future services has been recorded at December 31, 2021 and 2020.

Types of Entrance Fees

The care and residence agreements between the Corporations and the residents provide for the payment of an entrance fee. Entrance fees received by the Corporations are categorized into two types: initial entrance fees and entrance fees from reoccupancy, and are recorded as either rebatable entrance fees due, entrance fees subject to refund or entrance fees nonrefundable. Initial entrance fees, which are the initial fees on new or expanded facilities, are used to provide funds for acquisition and construction of physical facilities, debt retirement and to defray anticipated deficits in the operations of new homes for a period of time. Entrance fees from reoccupancy in existing homes are used for general purposes, including capital expenditures, support of operations (including benevolence), new development and funding of reserves.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

Refund Policy on Entrance Fees

The current care and residence agreement provides the resident with the right to a refund of the entrance fee, less 2.0 percent for each month of residency for 41 months after an initial reduction to the original fee after 90 days of the contract, under certain circumstances. In certain cases, upon the move out of a resident, the unamortized balance of the entrance fee on a contractual basis is payable to the resident.

The Corporations had nonrefundable entrance fees of \$199,606,000 and \$187,787,000 as of December 31, 2021 and 2020, respectively, related to entrance fees received that will be recognized as revenues in future years. Additionally, the Corporations had entrance fees subject to refund of \$79,974,000 and \$75,827,000 as of December 31, 2021 and 2020, respectively, which will be recognized as revenues in future years unless refunded.

The Corporations have offered contract options whereby a specified percentage between 50 percent and 100 percent of the entrance fee is rebatable at termination of the contract and subsequent reoccupancy of their apartment. As of December 31, 2021, and 2020, respectively, \$174,707,000 and \$178,597,000 of the entrance fees related to these types of contracts are contractually rebatable and are included in rebatable entrance fees due and entrance fee rebates payable in the accompanying combined balance sheets.

Actual refunds and rebates of entrance fees were \$23,845,000 and \$25,143,000 for the years ended December 31, 2021 and 2020, respectively. Based on historical experience, management expects to pay refunds in future years of approximately \$23,000,000 per year.

Interest Rate Swaps and Caps

The Corporations use interest rate swaps and caps as part of its overall debt management policy. The Corporations account for interest rate swaps and caps in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 815, *Derivatives and Hedging*. The topic requires that all derivatives be carried at fair value and are included in noncurrent assets in the accompanying combined balance sheets (see Note 7).

Net Assets

Net assets, revenues, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions - Net assets available for use in general operations and not subject to donor restrictions. All revenues not restricted by donors and donor-restricted contributions whose restrictions are met in the same period in which they are received are accounted for in net assets without donor restrictions.

Net Assets With Donor Restrictions - Net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. All revenues restricted by donors as to either timing or purpose of the related expenditures or required to be maintained in perpetuity as a source of investment income are accounted for in net assets with donor restrictions. When a donor restriction expires, that is when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and are included in net assets released from restrictions in the accompanying combined statement of operations and changes in net assets.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

Also included in net assets with donor restrictions are assets held in trust under life annuity gifts. The assets are valued at fair value in accordance with the requirements of the specific trust agreements. Foundation West and Foundation South are required to pay a certain portion of the annual income from these assets to the donor or a designated beneficiary for the life of the donor or the beneficiary. Such amounts have been estimated and are reflected as obligations under annuity agreements in the accompanying combined balance sheets. The remaining assets will revert to the Foundations at the donor or beneficiary's death. The portion of assets received in excess of that required to meet the annuity's obligations has been recognized as a contribution at the time received.

Assets received from external trusts that are controlled by third-party trustees are recognized at the present value of the estimated future distributions to be received by the Corporations over the term of the agreement.

Net assets with donor restrictions for the years ended December 31, 2021 and 2020 are comprised of the following (in thousands):

	<u>2021</u>	<u>2020</u>
Benevolence	\$ 12,956	\$ 10,550
Purpose restricted	16,452	15,416
Funds held by trustee	5,795	5,971
Restricted in perpetuity	<u>5,682</u>	<u>5,672</u>
Total	<u>\$ 40,885</u>	<u>\$ 37,609</u>

Endowment Funds

Foundation South's endowment funds consist of approximately 16 individual donor-restricted funds established primarily for benevolence and are recorded in net assets with donor restrictions in the accompanying combined balance sheets.

Foundation South has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Foundation South classifies net assets with donor restrictions of the original value of gifts donated to the permanent endowment and the original value of subsequent gifts to the permanent endowment. The investment earnings of the donor-restricted endowment funds are classified as donor-restricted until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA.

The changes in endowment net assets with donor restriction for the years ended December 31, 2021 and 2020, are as follows (in thousands):

Endowment net assets, December 31, 2019	\$ 8,258
Contributions	6
Net investment returns	373
Disbursements	<u>(332)</u>
Endowment net assets, December 31, 2020	8,305
Contributions	10
Net investment returns	1,039
Disbursements	<u>(644)</u>
Endowment net assets, December 31, 2021	<u>\$ 8,710</u>

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

The endowment net assets with donor restrictions were comprised of the following as of December 31, 2021 and 2020 (in thousands):

	<u>2021</u>	<u>2020</u>
Endowment gains with donor restrictions	\$ 3,028	\$ 2,633
Endowment funds held in perpetuity, the portion of perpetual endowment funds that is required to be retained permanently either by explicit donor stipulation or by UPMIFA	<u>5,682</u>	<u>5,672</u>
Total	<u>\$ 8,710</u>	<u>\$ 8,305</u>

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires Foundation South to retain as a fund of perpetual duration. There were no deficiencies of this nature as of December 31, 2021 and 2020.

Foundation South has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity or for donor-specified periods. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of the S&P 500 index while assuming a moderate level of investment risk.

To satisfy its long-term rate of return objectives, Foundation South relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Foundation South targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

Net Resident Service Revenues

Net resident service revenues are reported at the amount that reflects the consideration the Corporations expect to receive in exchange for the services provided. These amounts are due from residents or third-party payors and include variable consideration for retroactive adjustments, if any, under reimbursement programs. Performance obligations are determined based on the nature of the services provided. Net resident service revenues are recognized as performance obligations are satisfied.

Payment terms and conditions for the Corporations' resident contracts vary by contract type and payor source. Net resident service revenues for recurring and routine monthly services are generally billed monthly in advance. Net resident service revenues for ancillary services are generally billed monthly in arrears. Additionally, entrance fees are generally billed and collected in advance of move-in.

Net resident service revenues are primarily comprised of the following revenues streams:

Health Center

Health center revenues are primarily derived from providing nursing services to residents at a stated daily fee, net of any explicit and implicit price concessions. The Corporations have determined that health center services are considered one performance obligation, which is satisfied over time as services are provided. Therefore, health center revenues are recognized on a daily basis as services are rendered.

Health center revenues, including monthly service fees, ancillary and other services fees are reported at the estimated net realizable amounts from residents, third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

The Corporations receive revenues for services under third-party payor programs, including Medicare, MediCal and other third-party payors. Nursing and ancillary services provided to Medicare and MediCal beneficiaries are paid at prospectively determined rates per day. These rates vary according to a resident-specific classification system that is based on clinical, diagnostic and other factors and the reimbursement methodology is subject to various limitations and adjustments. The determination of these rates is partially based on the Corporations' clinical assessment of their residents. The Corporations are required to clinically assess its residents at predetermined time periods throughout the year. The documented assessments are subject to review and adjustment by Medicare and MediCal. The basis for payment to the Corporations for other payor agreements includes prospectively determined rates per day or discounts from established charges. Laws and regulations governing the Medicare and MediCal programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action, including fines, penalties and exclusion from the Medicare and MediCal programs.

Settlements with third-party payors for retroactive adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing resident care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence with the payor and the Corporations' historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenues recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years are settled or no longer subject to such audits, reviews and investigations. Adjustments arising from a change in the transaction price were not significant in 2021 or 2020.

Assisted Living and Memory Care

Assisted living and memory care revenues are primarily derived from providing housing and personal care services to residents at a stated monthly fee. The Corporations have determined that the services included in the monthly fee have the same timing and pattern of transfer and are a series of distinct services that are considered one performance obligation for each of these levels of care, which is satisfied over time as services are provided. Therefore, assisted living and memory care revenues are recognized on a month-to-month basis.

Residential Living

Residential living revenues are primarily derived from providing housing and services to residents. The Corporations have determined that the services included in the monthly fee have the same timing and pattern of transfer and are a series of distinct services that are considered one performance obligation, which is satisfied over time as services are provided. Therefore, residential living monthly fees are recognized on a month-to-month basis.

Entrance fees collected from residents in advance are recognized as deferred revenues from entrance fees until performance obligations are satisfied and are included in entrance fees nonrefundable in the accompanying combined balance sheets. The Corporations recognized amortization income of \$43,034,000 and \$44,275,000 in 2021 and 2020, respectively. The Corporations apply the practical expedient in ASC 606, and therefore, do not disclose amounts for remaining performance obligations that have original expected durations of one year or less.

The guaranteed refund component of entrance fees is not amortized to income and is classified as rebatable entrance fees due in the accompanying combined balance sheets.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

For residents with Type B contracts, revenues from entrance fees other than rebatable entrance fees received are recognized through amortization using the straight-line method over annually adjusted estimated life expectancies of the residents, which approximates the period of time the goods and services under the agreements are expected to be transferred to residents. Amortization of entrance fees other than rebatable entrance fees is included as amortization of entrance fees in the accompanying combined statements of operations and changes in net assets.

Benevolence

The Corporations provide services to residents who meet certain criteria under their benevolence policy without charge or at amounts less than its established rates. Partial payments to which the Corporations are entitled from public assistance programs on behalf of residents that meet the Corporations' benevolence criteria are reported as revenues. Because the Corporations do not normally pursue collection of amounts determined to qualify as benevolence, they are not reported as revenues. For the years ended December 31, 2021 and 2020, benevolence recorded was \$1,973,000 and \$1,969,000, respectively.

Contractual Allowances

A portion of the Corporations' health center revenues are subject to explicit price concessions (contractual allowances) under contracts with third-party payors. These price concessions, were \$3,395,000 and \$8,774,000 for the years ended December 31, 2021 and 2020, respectively.

COVID Relief Funding

COVID relief funding in the accompanying combined statements of operations and changes in net assets is comprised of amounts received from federal and state funding sources related to the COVID-19 pandemic. The Corporations account for this funding in accordance with FASB ASC 958-605 guidance for conditional contributions and accordingly, revenues are measured and recognized when barriers are substantially met, which occurs when the Corporations comply with the terms and conditions related to the purpose of the grant rather than those that are administrative in nature.

In March 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law to combat the financial effects of COVID-19. The CARES Act created a Provider Relief Fund (PRF) to provide financial support for healthcare providers. In accordance with the terms and conditions of PRF, the Corporations could apply the funding against lost revenues and eligible expenses not reimbursed from other sources. The Corporations received PRF funding payments of \$994,000 in 2021 and \$9,089,000 in 2020. The Corporations also received other COVID relief funding of \$29,000 during 2021.

The Corporations incurred lost revenues and eligible expenses sufficient to allow them, in accordance with the terms of the respective funding sources, to recognize PRF revenues and other COVID relief funding revenues of \$1,145,000 and \$29,000 in 2021, respectively (including \$151,000 of deferred revenue from funds received in 2020) and \$8,338,000 in 2020. These amounts were recognized and included in COVID relief funding in the accompanying statement of operations and changes in net assets. During 2020, \$600,000 of CARES Act funding received was transferred to Terraces of Phoenix, an affiliated organization with a common parent, HumanGood, as allowed under the CARES Act Provider Relief Fund terms and conditions.

COVID-19 testing expenses of \$3,277,000 in 2021 and \$2,187,000 in 2020 are included in other operating expenses in the accompanying statements of operations and changes in net assets. Other costs due to the pandemic, such as increased personal protective equipment usage, are included in supplies in the accompanying statements of operations and changes in net assets.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

The Corporations' methodology for calculating lost revenues, considered an alternate reasonable method due to the standard timing of budget approvals for the Corporations, was calculated using the difference between budgeted resident care revenues and actual resident care revenues for quarterly periods in 2021 and 2020. The Corporations' budgeting process is consistent, rigorous, and represents the Corporations' best estimate of actual results given the current environments and known circumstances. Budget variances in operating revenues for 2020 and 2021 were attributable to fluctuations in occupancy due to the COVID-19 pandemic and as such an alternate reasonable method mirroring the budget revenue method was deemed a reasonable approach by the Corporations in establishing how lost revenues were attributable to the coronavirus pandemic.

The majority of the funding received is subject to future reporting and audit requirements. Noncompliance with the terms and conditions of the funding sources could result in repayment of some or all of the support, which can be subject to government review and interpretation. An estimate of the possible effects of these matters cannot be made as of the date these combined financial statements were issued.

Paycheck Protection Program

In May 2021, the Corporations received proceeds in the amount of \$21,060,000 under the Paycheck Protection Program (PPP) which was established as part of the CARES Act (as amended by the Economic Aid Act (EAA) on December 27, 2020) and is administered through the Small Business Administration (SBA). The PPP provides loans to qualifying nonprofit organizations in amounts up to 2.5 times their average monthly payroll expenses and was designed to provide a direct financial incentive for qualifying nonprofit organizations to keep their workforce employed during the Coronavirus crisis. PPP loans are uncollateralized and guaranteed by the SBA. Advances from the PPP are forgivable after a "covered period" (of eight to twenty-four weeks) as long as the borrower maintains its payroll levels and uses the proceeds for eligible expenses, including payroll, benefits, mortgage interest, rent, and utilities. The forgiveness amount will be reduced if the borrower terminates employees or reduces salaries and wages more than 25 percent during the covered period. The Corporations initially recorded the funds as an advance subject to refund and will record the forgiveness in accordance with guidance for conditional contributions when there is no longer a measurable performance or other barrier and a right of return of the PPP loan, or when such conditions are explicitly waived.

As of December 31, 2021, the Corporations had expended all of the PPP funds received on qualified expenses but continue to work with counsel to confirm that there are no barriers to recognition. As such, no grant revenue is recorded within the accompanying statement of operations and changes in net assets for the year ended December 31, 2021. The full amount of \$21,060,000 of PPP funds received is included as advances subject to refund in the Corporations' accompanying balance sheet at December 31, 2021.

The SBA reserves the right to audit any PPP loan, regardless of size. These audits may occur after forgiveness has been granted. In accordance with the CARES Act (as amended by the EAA), the Corporations are required to maintain their PPP loan documentation for six years after the PPP loan is forgiven or repaid in full and to provide that documentation to the SBA upon request. The Corporations do not believe the results of any audits or reviews by the SBA would have a material impact on the combined financial statements.

Performance Indicator

Income from operations as reflected in the accompanying combined statements of operations and changes in net assets is the performance indicator. Income from operations includes all changes in net assets without donor restrictions other than changes in minimum pension liability, other affiliate distributions and equity transfers, forgiveness of indebtedness to affiliate, and unrealized gains on interest rate swap and caps.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

Tax-Exempt Status

The Corporations are comprised of several California nonprofit corporations as described in Section 501(c)(3) of the Internal Revenue Code (IRC) and have been granted tax-exempt status by the Internal Revenue Service and the California Franchise Tax Board.

The Corporations assess uncertain tax positions in accordance with the provisions of the FASB ASC Topic 740-10, *Income Taxes*. The Corporations recognize the tax benefit from uncertain tax positions only if it is more likely than not that the tax positions will be sustained on examination by the tax authorities, based on the technical merits of the position. The tax benefit is measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. The Corporations recognize interest and penalties related to income tax matters in operating expenses. As of December 31, 2021, and 2020, and for the year ended December 31, 2021, there were no such uncertain tax positions.

Future Accounting Standards

During March 2020, the FASB issued Accounting Standards Update (ASU) No. 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. ASU No. 2020-04 provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions that reference LIBOR or another reference rate expected to be discontinued because of reference rate reform, if certain criteria are met. Entities may elect the optional expedients and exceptions included in ASU No. 2020-04 as of March 12, 2020 and through December 31, 2022. The Corporations have not elected the optional expedients and exceptions included in ASU No. 2020-04 as of December 31, 2021.

3. Liquidity and Availability of Resources

The Corporations have financial assets available for utilization within one year of the combined balance sheets date, which consist of the following as of December 31, 2021 and 2020 (in thousands):

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$ 52,624	\$ 23,013
Resident accounts receivable	13,017	12,682
Entrance fee notes receivable	1,047	870
Investments	<u>211,792</u>	<u>226,580</u>
Total	<u>\$ 278,480</u>	<u>\$ 263,145</u>

The Corporations have investments, which are available for utilization within one year in the normal course of operations. Accordingly, these assets have been included above.

The Corporations have other assets held by trustee under trust indenture, and assets reserved for future gift annuity payments and donor-restricted purposes. Additionally, certain other Board-designated assets are internally designated for long-term purposes and an operating reserve. These investments, which are more fully described in Note 4 are not used for general expenditure within the next year; however, the Board-designated amounts could be made available, if necessary.

As part of the Corporations' liquidity management plan, cash in excess of daily requirements is invested in short-term investments and money market funds. These funds may be drawn upon, if necessary, to meet unexpected liquidity needs.

Investments, designated	<u>130,957</u>	<u>123,966</u>
Total investments, designated investments and restricted investments	<u>\$ 592,626</u>	<u>\$ 433,143</u>

The following disclosure is made pursuant to Section 1790(a)(3) of the California Health and Safety Code. The Corporations have identified certain corporate initiatives and contingencies listed below to which assets without restriction may be exposed, and therefore, have designated reserves as a safeguard against such contingencies. Although not restricted in accordance with FASB ASC Topic 958, *Not-for-Profit Entities*, the designations are as follows (in thousands):

	<u>2021</u>	<u>2020</u>
Designated for Benevolence	\$ 65,829	\$ 59,013
Designated for Retirement	5,301	4,953
Designated for Innovation	10,000	10,000
Designated for Capital Projects	<u>49,827</u>	<u>50,000</u>
Total designations	<u>\$ 130,957</u>	<u>\$ 123,966</u>

Investment Return

Investment return for the years ended December 31, 2021 and 2020 is as follows (in thousands):

	<u>2021</u>	<u>2020</u>
Total dividend, interest and other investment income, net of expense	\$ 6,507	\$ 7,310
Total realized gains (losses) on investments	15,403	(3,231)
Total net change in unrealized gains on investments	3,218	21,856
Unrealized loss on investment in HumanGood Nevada Bonds	-	(535)
Realized gain from investment in HumanGood Nevada Bonds	<u>8,834</u>	<u>-</u>
Total	<u>\$ 33,962</u>	<u>\$ 25,400</u>

Investment income is net of investment expenses of \$1,307,000 and \$1,123,000 for the years ended December 31, 2021 and 2020, respectively.

Fair Value Measurements

FASB ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC Topic 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or net asset value (NAV) per share (or its equivalent) with the ability to redeem the investments in the near term.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized in the accompanying combined financial statements, as well as the general classification of such instruments pursuant to the valuation hierarchy:

- Mutual funds - Mutual funds registered with the U.S. Securities and Exchange Commission as mutual funds under the Investment Company Act of 1940 are valued based on quoted market prices, which represent the NAV of shares, and are categorized as Level 1.
- Equities, exchange-traded funds and closed-end funds - Equity securities that are actively traded on a securities exchange are valued based on quoted prices from the applicable exchange and are categorized as Level 1.
- Corporate debt (domestic and foreign) - Investment-grade bonds are valued using inputs and techniques which include third-party pricing vendors, dealer quotations and recently executed transactions in securities of the issuer or comparable issuers. To the extent that these inputs are observable and timely, the values are categorized as Level 2.
- Government securities (U.S. and foreign) - Government securities are valued based on prices provided by third-party vendors that obtain feeds from a number of live data sources, including active market makers and interdealer brokers. To the extent that these inputs are observable and timely, values are categorized as Level 2.
- Municipal bonds - Municipal bonds are valued using inputs and techniques which include identification of similar issues and market activity. To the extent that these inputs are observable and timely, values are categorized as Level 2.
- Investments in HumanGood Nevada Bonds - The fair value is estimated by a third-party using a small sample of sales comparables of other nonrelated LPC fixed rate bonds. Due to a lack of available Level 1 and Level 2 inputs, the investments have been classified as Level 3.
- Alternative investments valued at NAV - Primarily hedge funds are valued at NAV per share of the underlying investment fund. In accordance with ASU No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate NAV per Share (or Its Equivalent)*, investments are not categorized within the fair value hierarchy.
- Interest rate swaps and caps agreements - The fair value is estimated by a third-party using inputs that are observable or that can be corroborated by observable market data and, therefore, are classified as Level 2.

Notes to Combined Financial Statements
December 31, 2021 and 2020

5. Land, Buildings and Equipment, Net

Land, buildings and equipment, net at cost as of December 31, 2021 and 2020, consisted of the following (in thousands):

	<u>2021</u>	<u>2020</u>
Land	\$ 18,108	\$ 19,674
Land improvements	17,978	16,553
Buildings and improvements	764,122	762,074
Furnishings, equipment and automotive	76,506	74,172
Total	876,714	872,473
Accumulated depreciation	<u>(450,194)</u>	<u>(423,882)</u>
Total	426,520	448,591
Construction in progress	<u>40,341</u>	<u>26,033</u>
Land, Buildings and equipment, net	<u>\$ 466,861</u>	<u>\$ 474,624</u>

Depreciation expense for the years ended December 31, 2021 and 2020, respectively, was \$41,629,000 and \$42,461,000.

Fully depreciated assets of \$15,360,000 and \$16,227,000 were disposed of during the years ended 2021 and 2020, respectively.

Effective May 15, 2021, SoCal sold its corporate office building with a net book value of \$3,456,000 to an unrelated party, for \$9,000,000, less selling costs, for a gain of \$5,021,000 which is included in gains on disposal of fixed assets in the accompanying combined statement of operations and changes in net assets as of December 31, 2021.

The Corporations have entered into negotiations to sell operating assets to unrelated parties. Management evaluated the accounting treatment of the land and building based on ASC Topic 360, *Property, Plant and Equipment*, and met the criteria for assets held for sale as of December 31, 2021 and is being accounted for at the lower of cost or net realizable value. No impairment loss has been recorded in the accompanying combined statement of operations for the year ended December 31, 2021, as the fair value exceeds the net book value of the property. The carrying amount of the assets held for sale was \$5,949,000 as of December 31, 2021 and is included land, buildings and equipment, net in the accompanying combined balance sheets.

Notes to Combined Financial Statements
December 31, 2021 and 2020

The Corporations are subject to financial covenants on debt, which include debt service coverage ratios and minimum days of cash-on-hand requirements.

On September 29, 2021, HumanGood California Obligated Group completed a \$120,000,000 financing at a premium of \$13,481,000 and a 2.89% yield to maturity with proceeds intended to fund on-going capital and infrastructure needs.

Loss on Early Retirement of Debt

During October 2020, HumanGood California Obligated Group completed a financing transaction and closed \$125,000,000 of bank capital with Washington Federal Bank, which was comprised of:

- \$15,480,000 Series 2020A Tax-Exempt Revenue and Refunding Bonds, refunding the existing Tax-Exempt Series 2012 Private Placement Bonds with PNC Bank;
- \$64,765,000 Series 2020B Taxable Revenue and Refunding Bonds (through a so-called Cinderella Financing), which used taxable proceeds to legally defease the existing Tax-Exempt Series 2012A and 2013A Bonds, and then is convertible to tax-exempt bonds subsequent to the advanced refunding of the defeased bonds.
- \$33,755,000 Taxable Term Loan with the loan draws available over the initial 24 months subsequent to issuance; and
- \$11,000,000 million Taxable Revolving Line of Credit with a five-year term and a taxable variable rate with interest payable monthly based on one-month LIBOR plus a bank credit spread.

The majority of the proceeds were used to refund the NorCal Series 2012 Bonds, and to defease the NorCal Series 2013 and HumanGood Fresno Series 2012 Bonds. In conjunction with this transaction, the HumanGood California Obligated Group recorded a loss on early retirement of debt that is included in the combined statement of operations and changes in net assets.

The loss consists of the following (in thousands):

Deposit to escrow deposit fund	\$	86,476
NorCal Series 2012 Bonds outstanding		(15,275)
NorCal Series 2013 Bonds outstanding		(19,140)
Fresno 2012 Bonds outstanding		(45,055)
Accrued interest		(292)
Subtotal		6,714
Unamortized debt issuance costs		2,233
Unamortized bond issuance premiums		(1,327)
Total	\$	<u>7,620</u>

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

7. Interest Rate Caps and Swaps

On December 1, 2015, HumanGood SoCal entered into an interest rate cap agreement with a counterparty to extend the management of interest rate risk on \$25,000,000 of its Series 2015 Tax-Exempt Variable Rate Revenue Bonds from December 1, 2015 to December 1, 2025. The agreement establishes that when 65.1 percent of the one-month LIBOR rate exceeds 2.50 percent, SoCal is reimbursed for the excess by the counterparty to the transaction.

On October 16, 2020, in conjunction with the aforementioned Series 2020 financing, NorCal, as an Obligated Group representative, entered into four derivative agreements with two counterparties. The first agreement is an interest rate cap agreement with a counterparty to extend the management of interest rate risk on the \$15,480,000 Tax-Exempt Series 2020A Variable Rate Bonds from October 28, 2020 to October 1, 2035. The agreement establishes that when 79 percent of the one-month LIBOR rate exceeds 2.394 percent, NorCal is reimbursed for the excess by the counterparty to the transaction. The second agreement is an interest rate cap agreement with a counterparty to extend the management of interest rate risk on the \$64,675,000 Series 2020B Variable Rate Bonds during the anticipated period that the bonds would be taxable from October 28, 2020 to August 1, 2022. The agreement establishes that when the one-month LIBOR rate exceeds 1.6 percent, NorCal is reimbursed for the excess by the counterparty to the transaction. The third agreement is a forward-starting interest rate swap agreement with a counterparty to extend the management of interest rate risk on the outstanding \$63,270,000 Series 2020B Variable Rate Bonds during the anticipated period that the bonds would be tax-exempt from August 1, 2022 to October 1, 2035. The agreement establishes that when 79 percent of the one-month LIBOR rate exceeds 0.768 percent, NorCal is reimbursed for the excess by the counterparty to the transaction and conversely when 79 percent of the one-month LIBOR rate is less than 0.768 percent, NorCal pays the shortfall to the counterparty. The fourth agreement is a forward-starting interest rate swap agreement with a counterparty to extend the management of interest rate risk on the \$33,755,000 Series 2020 taxable variable rate bank loan from November 1, 2022 to October 1, 2035. The agreement establishes that when the one-month LIBOR rate exceeds 0.9957 percent, NorCal is reimbursed for the excess by the counterparty to the transaction and conversely when the one-month LIBOR rate is less than 0.9957 percent, NorCal pays the shortfall to the counterparty.

For the years ended December 31, 2021 and 2020, the aforementioned floating interest rates for the cap and swap agreements failed to exceed the respective cap and strike rates, and thus none of the aforementioned cap and swap agreements had an impact on interest expense.

The fair value of the interest rate caps and swaps was \$4,658,000 and \$1,011,000 as of December 31, 2021 and 2020, respectively. The unrealized gain from mark-to-market of floating to fixed rate interest rate caps was \$3,647,000 and \$808,000 for the years ended December 31, 2021 and 2020, respectively.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

8. Employee Benefit Plans

Defined Benefit Pension Plan

HumanGood SoCal has a defined benefit retirement plan (the Plan) which, prior to being frozen, provided retirement benefits through a noncontributory defined benefit retirement plan for substantially all full-time SoCal employees. On October 22, 2009, the Board of Directors of SoCal froze the Plan, whereby effective October 31, 2009, further accrual of benefits ceased for participants in the Plan. SoCal has not taken action to terminate the Plan.

Prior to October 31, 2009, the benefits were based upon years of service and the employee's compensation during the years of employment. SoCal's funding policy, at a minimum, was to contribute amounts to the Plan sufficient to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974, plus additional amounts deemed to be appropriate.

The plan assets include separate investment accounts with underlying mutual funds invested in fixed-income and equity securities whose values are subject to fluctuations of the securities markets. Changes in these values attributable to the differences between actual and assumed returns on plan assets were deferred as unrecognized gains or losses and were included in the determination of the net pension expense over time.

A summary of the components of net periodic pension cost as of the date of the actuarial valuation for the years ended December 31, 2021 and 2020 is as follows (in thousands):

	<u>2021</u>	<u>2020</u>

Notes to Combined Financial Statements
December 31, 2021 and 2020

	<u>2021</u>	<u>2020</u>
Components of net periodic benefit cost:		
Interest cost	\$ 1,088	\$ 1,314
Expected return on plan assets	(1,610)	(1,561)
Net loss amortization	<u>1,233</u>	<u>1,152</u>
Net periodic benefit cost	711	905
Settlement charge	<u>576</u>	<u>441</u>
Total benefit expense	<u>\$ 1,287</u>	<u>\$ 1,346</u>
Net losses recognized in net assets without donor restrictions	<u>\$ (104)</u>	<u>\$ (875)</u>
Amounts not yet reflected in periodic benefit costs and recognized in accumulated net assets without donor restrictions, net actuarial loss	<u>\$ 12,313</u>	<u>\$ 12,209</u>
Total accumulated charge to net assets without donor restrictions	<u>\$ 12,313</u>	<u>\$ 12,209</u>

In 2021 and 2020, SoCal offered lump sum payouts for certain terminated vested participants. Approximately \$1,983,000 and \$1,544,000 was paid out during the 2021 and 2020 plan years, respectively, under this program.

Weighted-average assumptions used to determine benefit obligations as of December 31, 2021 and 2020, are as follows:

	<u>2021</u>	<u>2020</u>
Discount rate	2.66 %	2.67 %
Rate of compensation	N/A	N/A

Weighted-average assumptions used to determine net periodic pension cost for the years ended December 31, 2021 and 2020, are as follows:

	<u>2021</u>	<u>2020</u>
Discount rate	2.67 %	3.43 %
Expected long-term rate of return on plan assets	4.00	4.00
Rate of compensation	N/A	N/A

SoCal determines the estimates of expected long-term rate of return on assets. These estimates are primarily driven by actual historical asset class returns and advice from external actuarial firms, while incorporating specific asset class risk factors. For the years ended December 31, 2021 and 2020, the expected long-term rate of return used in determining net periodic pension cost was 4.00 percent.

The Plan invests primarily in asset categories to permit conservative investments with minimal risk of loss of principal. The Plan invests in asset categories that provide diversification benefits and are easily measured. Maximum and minimum holding ranges for each of these asset categories are set by the investment committee and defined in an investment policy. The current target allocations for equity and fixed income are 20 percent and 80 percent, respectively, for the years ended December 31, 2021 and 2020. Actual asset allocation within these approved ranges is based on a variety of economic and market conditions and consideration of specific asset category risk. To assess the Plan's investment performance, a long-term asset allocation policy benchmark has been established. The Plan's assets are invested in separate accounts which are considered Level 2 securities and the asset allocation was in line with the target allocations as of December 31, 2021 and 2020.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

SoCal expects to contribute approximately \$1,000,000 to the Plan during the year ending December 31, 2022. SoCal estimates that benefit payments will be paid over the next ten years as follows (in thousands):

Years ending December 31:		
2022	\$	3,115
2023		2,402
2024		2,857
2025		3,244
2026		2,682
2027 - 2031		<u>12,065</u>
Total	\$	<u>26,365</u>

Actuarial losses of \$789,000 related to the Plan are expected to be recognized as a component of the change in minimum pension liability during the year ending December 31, 2022. Management has included the net periodic pension cost in SoCal's 2022 operating budget.

Supplemental Retirement Income Plan Agreements

Certain NorCal management employees or retirees of NorCal participate in supplemental retirement income plans, and have individually entered into agreements with NorCal whereby the employees will be provided specific amounts of annual retirement income for the balance of their lifetime following retirement. During 2005, accrued benefits for active participants in the supplemental retirement income plan were transferred into a new nonqualified plan under IRC 457(f) that distributes a lump-sum payment at age 65. On October 2, 2015, the plan was frozen to new entrants. On December 1, 2017, the HumanGood Board of Directors elected to terminate the plan and, in 2018, final termination payouts of \$2,143,000 were made. Subsequent to the termination and payout of the IRC 457(f) plan, the remaining NorCal frozen supplemental retirement income plan had a present value of future payments to participants of \$1,485,000 and \$1,680,000 as of December 31, 2021 and 2020, respectively and are included in retirement liabilities in the accompanying combined balance sheets. Assets available for benefits to this remaining pool of participants are subject to the claims of the NorCal's creditors. The assets are included in designated investments in the accompanying combined balance sheets and amounted to \$5,301,000 and \$4,953,000 as of December 31, 2021 and 2020, respectively.

In 2020, a separate IRC 457(f) plan was established for certain key executive leadership whereby the plan will fund based on predetermined annual contributions and earn a return equal to the Consumer Price Index rate plus 2.5 percent with a cap of 6.0 percent, with a present value of future anticipated participant distributions of \$674,000 and \$318,000 as of December 31, 2021 and 2020, respectively, which is included in retirement liabilities in the accompanying combined balance sheets.

Defined Contribution Plan

The Corporations also participate in a defined contribution retirement plan covering all eligible employees. The Corporations' contribution is a match of employee contributions up to 4 percent of eligible earnings in a calendar year. Annual expenses incurred under the plan for the years ended December 31, 2021 and 2020, respectively, were approximately \$3,219,000 and \$3,294,000.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

9. Self-Insured Programs

Workers' Compensation Plan

The Corporations are self-insured to a stipulated retention amount followed by a commercial policy with a major insurance company providing benefits up to state statutory limits for 2021 and 2020. Claims are accrued under the plan as the incidents that give rise to them occur. The estimate of incurred but not reported claims is based on actuarial projections of the ultimate cost of settlement, including claim settlement expenses, using the Corporations' historical claim payment experience. The estimated liability is continually monitored and reviewed and, as settlements are made or estimates are adjusted, differences are reflected in current operations. The Corporations have recorded a total liability for claims payable of \$18,086,000 and \$16,112,000, including an estimate of incurred but not reported claims as of December 31, 2021 and 2020, respectively. The estimated insurance recovery receivables of \$6,034,000 and \$4,948,000 are recorded under other receivables in the accompanying combined balance sheets as of December 31, 2021 and 2020, respectively. As required by the insurer, the Corporations have obtained a letter of credit for \$1,108,000 in connection with this program, subject to annual renewal, with the next scheduled renewal date on September 30, 2022.

Given the inherent variability of such estimates, the actual liability could differ significantly from the estimates. While the ultimate payments of self-insured workers' compensation claims are dependent upon future developments, management believes that the recorded liability is adequate.

Health Insurance Plan

Effective in 2019, the Corporations are self-insured for health insurance claims for eligible active employees with certain self-insured retention limits. Based on claims incurred through December 31, an estimated liability for claims incurred, but not paid of \$2,162,000 and \$2,074,000 is included in accounts payable and accrued expenses in the accompanying combined balance sheets as of December 31, 2021 and 2020, respectively. The estimate of incurred but not paid claims is based on actuarial projections using the Corporations' historical claim payment experience and previous patterns of payments. While estimates are based on the information and data available at a point in time, management believes that the recorded liability has been properly accounted for and accrued at December 31, 2021 and 2020.

Professional Liability Insurance

The Corporations have secured claims-made policies for malpractice and general liability insurance with certain self-insured retentions. The Corporations have accrued liabilities of \$709,000 and \$1,375,000 as its best estimate of the cost of known claims incurred prior to December 31, 2021 and 2020, respectively. Related insurance recovery receivables of \$150,000 and \$765,000 as of December 31, 2021 and 2020, respectively, are recorded under other receivables in the accompanying combined balance sheets. In addition, the Corporations have accrued liabilities of \$2,308,000 as of December 31, 2021 and 2020, as its best estimate of the cost of claims incurred but not yet reported. These liabilities are included in accounts payable and accrued expenses in the accompanying combined balance sheets.

Notes to Combined Financial Statements
December 31, 2021 and 2020

11. Functional Expenses

The Corporations provide housing, healthcare and other related services to residents within their geographic location. Financial statements report certain expense categories that are attributable to more than one program service or support function. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. Expenses relating to providing these services are approximately as follows at December 31, 2021 and 2020 (in thousands):

	2021		
	Residential Services	General and Administrative	Total
Salaries and wages	\$ 112,234	\$ 25,703	\$ 137,937
Employee benefits	27,763	7,532	35,295

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

12. Transactions With Affiliates

The Corporations manage rental housing communities and LPCs (see Note 1) under management agreements whereby the Corporations and its affiliates provide administrative and management services to all communities and sales management services to the LPCs.

Management fees for providing these services for the years ended December 31, 2021 and 2020, are included in other operating revenues earned by the Corporations in the accompanying combined statements of operations and changes in net assets and are as follows (in thousands):

	<u>2021</u>	<u>2020</u>
HumanGood LPCs Management Fee:		
Terraces of Phoenix	\$ 1,826	\$ 1,968
Judson Park	1,857	1,888
Las Ventanas	2,952	612
Terraces of Boise	277	-
HumanGood Affordable Housing Cost Allocation	<u>300</u>	<u>300</u>
Total	<u>\$ 7,212</u>	<u>\$ 4,768</u>

During the year ended December 31, 2021, in conjunction with the debt restructuring of Las Ventanas (see Note 1), Las Ventanas paid to NorCal \$2,412,000 in deferred management fees. Interest and management fees due from affiliates in the accompanying combined balance sheets include deferred management fees due from Las Ventanas in the amounts of \$0 and \$2,662,000, deferred management fees due from the Terraces of Boise in the amounts of \$416,000 and \$0, as well as interest income receivable from Beacon Development Group, related to the outstanding purchase note described further in Note 1, in the amounts of \$61,000 and \$17,000 as of December 31, 2021 and 2020, respectively.

Amounts due from affiliates for management fees and cost recoveries for other services such as dining, purchase cards, payroll, benefits and insurance are included in intercompany advances due as of December 31, 2021 and 2020 in the accompanying combined balance sheets, and are as follows (in thousands):

	<u>2021</u>	<u>2020</u>
Due from HumanGood Affordable Housing and Affiliates	\$ 3,988	\$ 2,600
Due from HumanGood SoCal Affordable Housing Communities	841	873
Due from HumanGood Washington	2,250	3,326
Due from (to) HumanGood Arizona, Inc.	242	(337)
Due from HumanGood Idaho	214	76
Due from HumanGood Nevada	320	755
Due from HumanGood East	901	289
Due (to) from HumanGood Cornerstone and certain affiliates	<u>(112)</u>	<u>93</u>
Total	<u>\$ 8,644</u>	<u>\$ 7,675</u>

These balances are settled in the normal course of operations with no fixed repayment terms.

Other affiliate distributions and equity transfers in the accompanying combined statements of operations and changes in net assets is primarily comprised of cash distributions of \$5,050,000 and \$5,000,000 from NorCal and SoCal to Cornerstone for the years ended December 31, 2021 and 2020, respectively.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

13. Commitments and Contingencies

The Corporations are party to various claims and legal actions in the normal course of business. In the opinion of management, based upon current facts and circumstances the resolution of these matters is not expected to have a material adverse effect on the financial position of the Corporations.

The Corporations are aware of the existence of asbestos in certain of its buildings. The Corporations have not recorded a liability for any asbestos abatement costs because the cost cannot be reasonably estimated at this time. At such time in the future that plans are made to make changes to structures with asbestos and the related asbestos removal cost estimates are completed, the Corporations will record an estimate of the costs of the required asbestos abatement.

For the tax-credit financed affordable housing communities in which HGAH serves as a General Partner (see Note 1), NorCal and HGAH, as co-guarantors, have issued on-going guarantees to cover operating deficits and guarantees to ensure compliance with certain on-going aspects of the Limited Partnership Agreement (LPA). NorCal periodically evaluates the potential exposure from these on-going guarantees. NorCal has not provided support under these guarantees in the past and based on the current evaluation, management believes they cumulatively do not constitute a material future financial risk exposure for NorCal.

In addition to operating deficit and LPA guarantees, NorCal and HGAH, as co-guarantors, also issue, unconditional project completion guarantees for tax-credit financed affordable housing communities in which HGAH serves as a General Partner (see Note 1). NorCal has not provided support under these guarantees in the past and based on the current evaluation, management believes they cumulatively do not constitute a material future financial risk exposure for NorCal.

Senior Living Services Industry

The senior living services industry is subject to numerous laws, regulations and administrative directives of federal, state and local governments and agencies. Compliance with these laws, regulations and administrative directives is subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time. Government activity continues to increase with respect to investigations and allegations concerning possible violations by healthcare providers of fraud and abuse statutes and regulations, which could result in the imposition of significant fines and penalties as well as significant repayments for resident services previously billed. Management is not aware of any material incidents of noncompliance; however, the possible future effects of this matter on the Corporations, if any, are not presently determinable.

COVID-19

The spread of COVID-19 around the world has caused significant volatility in U.S. and international markets, supply chains and businesses. The Corporations' evaluation of the effects of these events is ongoing as of the date the accompanying combined financial statements were issued. COVID-19 may impact various parts of the Corporations' 2022 operations and financial performance, including but not limited to additional costs for emergency preparedness, disease control and containment, COVID testing and vaccinations, potential shortages of personnel, supply chain disruption, declines in revenue related to decreases in occupancy or volumes of certain revenue streams. The extent of the impact will depend on future developments, including the duration and spread of the outbreak and related governmental or other regulatory actions. Throughout the pandemic, the Corporations have provided up to date information on their COVID-19 response through a dedicated page on the Corporations' website.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2021 and 2020

14. Concentrations of Credit Risk

The Corporations grant credit without collateral to their residents, some of whom are insured under third-party payor arrangements.

The Corporations maintain cash accounts, which, at times, may exceed federally insured limits. The Corporations have not experienced any losses from maintaining cash accounts in excess of federally insured limits. Management believes it is not subject to any significant credit risk on its cash accounts.

15. Subsequent Events

Subsequent events are events or transactions that occur after the combined balance sheet date but before the combined financial statements are issued. The Corporations recognize in the combined financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the combined balance sheet, including the estimates inherent in the process of preparing the combined financial statements. The Corporations' combined financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the combined balance sheet but arose after the combined balance sheet date and before the combined financial statements are issued.

The Corporations have evaluated subsequent events through April 28, 2022, which is the date the combined financial statements were issued.

Independent Auditors' Report

To the Boards of Directors of
HumanGood California Obligated Group & Foundation Affiliates

Report on the Financial Statements

We have audited the accompanying combined financial statements of the HumanGood California Obligated Group & Foundation Affiliates (the Corporations), which comprise the combined balance sheets as of December 31, 2020 and 2019, and the related combined statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the combined financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with the accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of the Corporations as of December 31, 2020 and 2019, and the results of their operations and changes in net assets and cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the combined financial statements as a whole. The supplementary information is presented for the purpose of additional analysis rather than to present the financial position, results of operations and changes in net assets and cash flows of the individual entities and is not a required part of the combined financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined financial statements. The information has been subjected to the auditing procedures applied in the audits of the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements or to the combined financial statements themselves, and other additional procedures in accordance with the auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the combined financial statements as a whole.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

1. Business and Organization

HumanGood (Parent Organization) is a California nonprofit public benefit tax-exempt corporation providing housing, health care and supportive services for the elderly through its Life Plan Communities (LPCs) and affordable housing communities owned by its subsidiaries. HumanGood is the sole member of HumanGood NorCal (NorCal), HumanGood SoCal (SoCal), HumanGood Fresno (dba Terraces at San Joaquin Gardens, TSJG) and HumanGood Cornerstone (Cornerstone). NorCal is the sole member of HumanGood Foundation West (Foundation West) and SoCal is the sole member of HumanGood Foundation South (Foundation South). NorCal, SoCal and TSJG, which collectively form the HumanGood California Obligated Group, share the common parent entity of HumanGood, and together with Foundation West and Foundation South, constitute the HumanGood California Obligated Group & Foundation Affiliates (collectively, the Corporations).

HumanGood California Obligated Group

On August 1, 2019, concurrent with the date of issuance of the Series 2019A Tax-Exempt Revenue and Refunding Bonds and the Series 2019B Taxable Bonds, the HumanGood California Obligated Group (COG) was formed (Note 6).

HumanGood NorCal

NorCal is a California nonprofit public benefit tax-exempt corporation which owns, operates and manages LPCs in which housing, health care and supportive services are provided for the elderly. Seven of NorCal's nine directors are HumanGood's directors. The executive officers of HumanGood also serve as executive officers of NorCal. As of December 31, 2020, the following LPCs were owned and operated by NorCal:

Terraces at Los Altos	Valle Verde
Grand Lake Gardens	Rosewood
Piedmont Gardens	Terraces of Los Gatos
Plymouth Village	

HumanGood SoCal

SoCal is a California nonprofit public benefit tax-exempt corporation which owns, operates and manages LPCs in which housing, health care and supportive services are provided for the elderly. Seven of SoCal's nine directors are HumanGood's directors. The executive officers of HumanGood also serve as executive officers of SoCal. As of December 31, 2020, the following LPCs were owned and operated by SoCal:

Royal Oaks	Regents Point
White Sands La Jolla	Westminster Gardens
Windsor	Redwood Terrace

Until 2019, Westminster Gardens and Redwood Terrace were affiliates of SoCal and NorCal that also shared HumanGood as their sole corporate member. Westminster Gardens and Redwood Terrace were legally merged into SoCal during 2019.

HumanGood Fresno

TSJG is a California nonprofit public benefit tax-exempt corporation providing housing, health care and supportive services for the elderly in Fresno, California, through its LPC. Seven of TSJG's nine directors are HumanGood's directors. The executive officers of HumanGood also serve as executive officers of TSJG.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

HumanGood Foundation West

Foundation West is a California nonprofit public benefit tax-exempt corporation whose primary purpose is to develop, invest and administer funds to provide housing and care on behalf of certain residents. Foundation West's principal activity is to administer such funds under donor agreements. NorCal is the sole member of Foundation West, and therefore, elects the directors of Foundation West. As a result, NorCal has control over Foundation West, and therefore, Foundation West is included in these combined financial statements. Foundation West guarantees certain of the NorCal bond obligations. Foundation West's obligations under the guaranty agreement are limited to Foundation West's income earned on its net assets without donor restrictions (see Note 6).

HumanGood Foundation South

Foundation South is a California nonprofit public benefit tax-exempt corporation whose primary purpose is to develop, invest and administer funds to provide housing and care on behalf of certain residents. Foundation South's principal activity is to administer such funds under donor agreements. SoCal is the sole member of Foundation South, and therefore, elects the directors of Foundation South. As a result, SoCal has control over Foundation South, and therefore, Foundation South is included in these combined financial statements.

HumanGood Cornerstone and Related Enterprises

HumanGood Cornerstone, an affiliate of the Corporations, is a California nonprofit public benefit tax-exempt corporation and, as the sole member, exercises its direction and control through the appointment of the Board of Directors of HumanGood Arizona, Inc. (dba Terraces of Phoenix, TOP), HumanGood Washington (dba Judson Park, JP), HumanGood Nevada (dba Las Ventanas), HumanGood Idaho (dba The Terraces of Boise, Boise), Seniority Properties (dba HumanGood Properties), and in conjunction with an affiliation effective June 30, 2019, HumanGood East (formerly Philadelphia Presbytery Homes and Services for the Aging, dba Presby's Inspired Life). In conjunction with finalizing transfer agreements in 2019, Cornerstone is the sole member and exercises its direction and control through the appointment of the Board of Directors of HumanGood Affordable Housing (HGAH) and the managers of Beacon Development Group, LLC (BDG). HumanGood and HumanGood Cornerstone's Boards are composed of the same seven directors. In March 2021, HumanGood Cornerstone approved a resolution to transfer BDG to HumanGood Affordable Housing as its sole member.

HumanGood Affordable Housing

HumanGood Affordable Housing (HGAH) is a California nonprofit public benefit tax-exempt corporation. As described above, during 2019, Cornerstone became the sole member of HGAH, by means of a membership transfer from NorCal.

HGAH serves as the sole or majority General Partner and controlling organization for 21 tax-credit affordable housing communities, serves as the sole or majority member and controlling organization for 28 additional affordable housing communities and provides management services to 11 affordable housing communities.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

On January 1, 2015, NorCal purchased for \$350,000 in cash and a \$2,000,000 note all of the outstanding membership interests in BDG and simultaneously assigned its rights thereto to HGAH. NorCal then entered into a \$2,350,000 affiliate note with BDG to assign the cost of purchase to the acquired entity.

Simultaneous with this January 1, 2015 purchase, NorCal affordable housing employees became employees of HGAH. All operational activities, assets and liabilities associated with NorCal's affordable housing line of business were also transferred to HGAH. In late fiscal year 2015, following United States Department of Housing and Urban Development (HUD) approval, NorCal transferred its sole memberships in all of its owned affordable housing communities as well as the management agreements for all of its owned and managed communities to HGAH.

In exchange for this transfer of affordable housing related assets and liabilities, HGAH entered into a noninterest bearing affiliate note with NorCal for \$2,242,000 as well as a noninterest bearing contingent note with NorCal for \$1,364,000, which is payable upon HGAH's ability to achieve certain levels of cash flow and operating margin. These notes receivable are included in subordinated notes receivable, net on the combined balance sheets of NorCal. The remaining \$1,542,000 of assets transferred was recorded as a capital contribution from NorCal to HGAH.

In 2019, HUD approval to transfer SoCal's sole memberships and management agreements for all of its seven low-income senior housing tax-credit communities and 20 owned and managed affordable housing communities to HGAH was finalized.

Beacon Development Group, LLC

Beacon Development Group, LLC (BDG) is a professional services firm that consults primarily in the development and construction of affordable housing communities. BDG provides services to affiliates of the Corporations, other nonprofits and housing authorities. In conjunction with transfer agreements finalized in 2019, Cornerstone is the sole member of BDG. In March 2021, HumanGood Cornerstone approved a resolution to transfer BDG to HumanGood Affordable Housing as its sole member.

HumanGood Arizona, Inc.

HumanGood Arizona, Inc. is an Arizona nonprofit tax-exempt corporation providing housing, health care and supportive services for the elderly in Phoenix, Arizona through its LPC, Terraces of Phoenix. Prior to September 29, 2003, TOP was a controlled affiliate of NorCal. The funds previously advanced by NorCal to support TOP's operating and capital needs were retained in the form of a subordinated note receivable from TOP. The note has been recorded as part of subordinated notes receivable, net in the accompanying combined balance sheets at the estimated net realizable value of \$4,315,000 as of December 31, 2020 and 2019.

NorCal manages TOP under a multiyear management agreement at a management fee of 8.5 percent of budgeted cash revenues, with half of this amount subject to subordination upon noncompliance with certain covenants.

HumanGood Washington

HumanGood Washington is a Washington nonprofit public benefit tax-exempt corporation providing housing, health care and supportive services for the elderly in Washington through its LPC, Judson Park. On May 30, 2012, NorCal entered into a ten-year management agreement at a base fee of 8.5 percent of budgeted cash revenues, with half of this amount subject to subordination upon noncompliance with certain covenants.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

HumanGood Nevada

HumanGood Nevada is a California nonprofit public benefit tax-exempt corporation providing housing, health care and supportive services for the elderly in the Las Vegas, Nevada area, through its LPC, Las Ventanas. On July 1, 2004, NorCal began providing oversight management services to Las Ventanas. On January 1, 2010, NorCal began providing full management services to Las Ventanas. Under the current agreement, management fees accrue at 3.0 percent of total cash revenues, with payment deferred until certain operating metrics have been met as laid out in the agreement. The paydown of deferred fees cannot cause the total fees paid in any one year to exceed 5.0 percent of total revenues.

On September 12, 2012, Las Ventanas, its bondholders and NorCal executed a restructuring agreement of Las Ventanas' debt, ground lease and other key obligations, which involved the exchanging of existing bonded indebtedness for three new series of tax-exempt bonds. NorCal contributed capital and released its interests in the Las Ventanas ground lease and construction loan, and forgave all previously accrued management fees in exchange for interests in the newly issued Las Ventanas Series 2012 A-2, Series B-2, Series B-3 and Series C-2 Bonds. Additionally, NorCal provided an unfunded \$2,000,000 debt service support agreement for the Las Ventanas Series A-1 Bonds, with any resulting funded amounts triggering the issuance to NorCal of an equal amount of the Las Ventanas Series B-4 Bonds, comparable in structure to the Las Ventanas Series B-3 Bonds.

As a result of the aforementioned restructuring, NorCal received \$16,414,000 (par value) of HumanGood Nevada Bonds, which are classified as investments in HumanGood Nevada Bonds in the accompanying combined balance sheets. Annual revaluations of the investments have resulted in unrealized mark-to-market losses on the Bonds, with an aggregate unrealized loss on investments in HumanGood Nevada Bonds of \$8,834,000 and \$8,299,000 as of December 31, 2020 and 2019, respectively.

On February 19, 2019, HumanGood Nevada filed a voluntary public disclosure through the Electronic Municipal Market Access website announcing its intent to explore various options related to tendering, purchasing, refinancing or restructuring all, or portions, of its Series 2012 Bonds. On February 12, 2021, an additional disclosure was filed detailing that NorCal had refined this exploration to potentially contacting holders of the Series 2012B-1 and C-1 Bonds to purchase all or a portion of those Bonds with a current expectation to hold such Series 2012B-1 and C-1 Bonds within its investment portfolio in anticipation of a possible refinancing of the Series 2012 Bonds in the future. On February 18, 2021, NorCal purchased \$4,922,000 par amount of the Series 2012B-1 and \$9,136,000 par amount of the Series 2012C-1 Bonds at a discount.

HumanGood Idaho

HumanGood Idaho is a California nonprofit public benefit tax-exempt corporation, which leased, and subsequently purchased from NorCal, a site in Boise, Idaho, upon which the Terraces of Boise was constructed and began operations in July 2015, with the community fully operational in all levels of care on June 1, 2016. The obligations of Boise are nonrecourse to NorCal.

To support the Boise financing, in 2014 NorCal provided \$3,000,000 in equity at financing along with \$1,000,000 of funded liquidity support and an additional \$1,250,000 of unfunded liquidity support. At the same time, Boise purchased the parcel of land upon which the Terraces of Boise is built from NorCal for \$5,000,000. This purchase price consisted of \$3,000,000 in cash and a \$2,000,000 interest bearing subordinated note receivable. On March 18, 2020, Boise entered into a Second Supplemental Master Trust Indenture for which one of the amendments required NorCal to deposit \$1,250,000 with the Master Trustee by March 31, 2020 in full satisfaction of the previously unfunded liquidity support obligation. The funds were timely deposited consistent with requirements.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

Boise had a Sales and Marketing Oversight Services Agreement with NorCal. Additionally, under Boise's Development Administration Services Agreement, NorCal was entitled to a Development Administrative Support Services Fee equal to \$17,000 per month for each month that Greystone Development Corporation (GDC) was entitled to a management fee during the term.

On May 31, 2017, the Sales and Marketing Oversight Services and Development Administration Service Agreements were terminated, thus ending the accrual of further amounts owing. These fees are subject to subordination under the Boise master trust indenture, and as such, NorCal has fully reserved the accrual of this revenue.

Effective February 2021, NorCal succeeded Greystone Management Services Company Idaho, LLC and entered into a management fee agreement with Boise at a base fee of \$32,000 monthly through May 2021 and 5 percent of budgeted cash revenues thereafter.

Seniority Properties dba HumanGood Properties

HumanGood Properties is a California for-profit corporation, which was formed in February 2014 for the purpose of holding equity interests in developed and acquired senior housing communities and other similar investments.

On September 1, 2015, HumanGood Properties, through a subsidiary LLC, purchased a 49 percent equity interest, and later, through a purchase option, an additional 1 percent interest in a memory care senior housing community in Oklahoma.

HumanGood East

HumanGood East (formerly Philadelphia Presbytery Homes and Services for the Aging dba Presby's Inspired Life) is a Pennsylvania nonprofit tax-exempt corporation providing housing, health care and supportive services for the elderly through its three LPCs, 17 owned and managed affordable housing communities and 19 additional affordable housing communities managed for unrelated entities. On June 30, 2019, in conjunction with the HumanGood and Presby's Inspired Life affiliation, Cornerstone became the sole member of Presby's Inspired Life. On June 30, 2019, amendments to the articles of incorporation of Presby's Inspired Life took effect and the Presby's Inspired Life corporation name was changed to HumanGood East.

Basis of Presentation and Principles of Combination

The accompanying combined financial statements combine the accounts of NorCal, SoCal, TSJG, Foundation West and Foundation South (HumanGood California Obligated Group & Foundation Affiliates) in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). All entities except Foundation West and Foundation South share a common parent, HumanGood, which has the sole corporate membership and controlling financial interest in each of these organizations, and Foundation West and Foundation South are affiliates of NorCal and SoCal, respectively.

All interaffiliate transactions between the Corporations eliminate in combination.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of the combined financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the combined financial statements and the reported amounts of revenues and expenses during the reported periods. Significant items subject to such estimates and assumptions include the fair values of interest rate swaps and caps assets and liabilities; allowances for contractual and uncollectible accounts receivable; fair values of notes receivable; fair values of investments; future service benefit obligations; rebatable entrance fees due; entrance fees subject to refund; entrance fees nonrefundable; liabilities for self-insured workers' compensation; self-insured health insurance; liabilities for pension and retirement plans; and valuation of split-interest agreements. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents are defined as cash on hand, demand deposits with financial institutions and overnight investments considered to be cash equivalents. For the purposes of the combined statements of cash flows, cash, cash equivalents and restricted cash include investments purchased with an initial maturity of three months or less.

Restricted Cash

Restricted cash is defined as cash and cash equivalents, which are restricted in their use by debt agreements.

Resident Accounts Receivable

The Corporations assess collectability on all resident accounts prior to providing services. An allowance for uncollectible accounts is recognized to reduce accounts receivable to its net realizable value for impairment of revenues for changes in resident credit worthiness. The allowance is estimated by management based on factors such as aging of the accounts receivable (outstanding balances over 150 days are fully reserved), and anticipated collection of the consideration. Accounts are written off through bad debt expense when the Corporations have exhausted all collection efforts and accounts are deemed impaired.

Investments

Investments include certain cash equivalents held by investment managers, mutual funds, commodities and structure products, equity securities, corporate debt, U.S. and foreign government securities and certain cash equivalents and securities held by trustees for capital project expenditures and debt service, and are stated at fair value in the accompanying combined balance sheets.

Investment income or loss (including interest, dividends and fees), realized gains and losses and unrealized gains and losses on investments are included in income from operations and changes in net assets without donor restrictions. Interest income is measured as earned on the accrual basis. Dividends are measured based on the ex-dividend date. Purchases and sales of securities and realized gains and losses are recorded on a trade-date basis.

The Corporations' investments are comprised of a variety of financial instruments and are managed by investment advisors. The fair value reported is subject to various risks, including changes in the equity markets, the interest rate environment and general economic conditions. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is reasonably possible that the amounts reported could change materially in the near term.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

Restricted Investments

Certain investments are restricted as assets held in trust. These include assets held by trustees in accordance with the indentures relating to debt agreements and assets set aside in accordance with various trust agreements with third parties, including donors. Assets held in trust as well as assets managed with donor restrictions are classified as restricted investments in the accompanying combined balance sheets (see Note 4).

Designated Investments

Other investments of \$123,966,000 and \$121,046,000 as of December 31, 2020 and 2019, respectively, are designated by the Board of Directors primarily for future capital projects, to advance strategic corporate initiatives and for Foundation West Board-designated benevolence funds (see Note 4).

Investments in HumanGood Nevada Bonds

Investments include holdings in three tranches of the Las Ventanas Series 2012 Bonds (see HumanGood Nevada Subsection in Note 1). These investments are recorded at fair market value as of December 31, 2020 and 2019, in the accompanying combined balance sheets. Changes in fair market value are included in unrealized (losses) gains on investments in HumanGood Nevada Bonds in the accompanying combined statements of operations and changes in net assets.

Subordinated Notes Receivable, Net

Subordinated notes receivable, net as of December 31, 2020 and 2019 include the interest bearing subordinated note from Boise for \$2,000,000, the \$4,315,000 note receivable from Terraces of Phoenix, the liquidity support funded to Boise of \$2,250,000 and \$1,000,000 at December 31, 2020 and 2019, respectively, and the notes related to the BDG purchase and the HGAH assets and liability transfers from NorCal. All subordinated notes receivable are further described in HumanGood Cornerstone Related Enterprises Subsection in Note 1.

Subordinated notes amongst members of the affiliated Corporations are included in the accompanying supplemental combining balance sheets but eliminated in the accompanying combined financial statements.

Prior to September 26, 2012, TSJG was one of eight LPCs constituting NorCal's Obligated Group. Effective September 26, 2012, by vote of the NorCal Board of Directors, and consistent with the rights and abilities granted in NorCal's Master Trust Indenture, sole corporate membership and control of TSJG was transferred from NorCal to Cornerstone, in conjunction with the issuance of the TSJG Series 2012 Bonds. Furthermore, at this time, the portion of NorCal's Series 2006 Bonds previously allocated to TSJG was replaced with a \$23,336,000 variable rate subordinated note, and a portion of NorCal's Series 2010 Bonds previously allocated to TSJG was replaced with a \$6,438,000 fixed rate subordinated note. Debt service payments on these subordinated notes are contingent upon TSJG being in compliance with certain performance metrics. These subordinated notes receivable from TSJG are included in NorCal's subordinated notes receivable in the accompanying supplemental combining balance sheets as of December 31, 2020 and 2019. Both subordinated notes payable are included in TSJG's notes and bonds payable in the accompanying supplemental combining balance sheets as of December 31, 2020 and 2019, respectively. Upon meeting certain performance criteria, interest payments of \$4,150,000 and \$900,000 were made to NorCal for the years ended 2020 and 2019, respectively, for interest expense that had been deferred in previous fiscal years, and principal payments of \$1,634,000 were made in 2020. Interest expense of \$804,000 and \$3,548,000 at December 31, 2020 and 2019, respectively, related to these notes was accrued but not fully paid. All amounts related to these notes and their debt service payments eliminate in the accompanying combined financial statements.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

Concurrent with the 2012 financing, NorCal and TSJG entered into a ten-year management agreement at a base fee of 8.5 percent of budgeted cash revenues, with half of this fee subject to subordination. During 2019, the recognition \$1,020,000 of TSJG management fee revenues were deferred by NorCal, with collection pending achievement of certain TSJG operating performance criteria. No amounts were deferred in 2020.

At December 31, 2020 and 2019, \$6,396,000 of management fees have been accrued but not paid and are included in other liabilities in the accompanying supplemental combining balance sheets of TSJG and are eliminated in the accompanying combined financial statements.

Land, Buildings and Equipment, Net

Land, buildings and equipment are recorded at cost, or fair value when received, if donated. The cost basis includes any interest, finance charges and other related costs capitalized during construction. Maintenance and repair costs are charged to operations when incurred.

Depreciation of buildings and equipment is computed on the straight-line method using estimated useful lives of 3 to 40 years. When assets are retired or otherwise disposed of, the cost of the asset and its related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income for the period.

Asset Impairment

The Corporations periodically evaluate the carrying value of their long-lived assets for impairment. The evaluations address the estimated recoverability of the assets' carrying value, which is principally determined based on projected undiscounted cash flows generated by the underlying tangible assets. When the carrying value of an asset exceeds estimated recoverability, an asset impairment is recognized. No asset impairment was recorded during the years ended December 31, 2020 and 2019.

Other Noncurrent Assets

Other noncurrent assets are primarily comprised of membership interests in Caring Communities, a Reciprocal Risk Retention Group (CCrRRG) and limited partner interests in Ziegler's Longevity Funds.

Deferred Debt Issuance Costs

Expenses incurred in connection with the issuance of debt are deferred and are amortized over the term of the related financing agreements using the interest method. These unamortized amounts are presented in the combined balance sheets as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Amortization expense, which is included as a component of mortgage interest, in the accompanying combined statements of operations and changes in net assets was \$311,000 in 2020 and \$427,000 in 2019.

Revocable Trusts

Revocable trusts are trust agreements that are revocable by trustors at any time, with specific terms for each agreement. Consequently, a liability is reflected in revocable trusts in the accompanying combined balance sheets equal to those related trust assets in restricted investments in the accompanying combined balance sheets.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

Obligations Under Annuity Agreements

In conjunction with certain giving arrangements, Foundation West and Foundation South are required to pay a certain sum of money to the donor or a designated beneficiary, and, consequently, a liability is reflected in obligations under annuity agreements in the accompanying combined balance sheets.

These types of arrangements are summarized as follows:

Gift Annuities Fund

As consideration for gifts made to Foundation West and Foundation South, the Foundations enter into agreements to pay fixed annual payments to the donors or their beneficiaries for life. In accordance with Section 11521 of the California Insurance Code, a liability has been established for the future payments under the outstanding annuity contracts. The annual computation of the restricted amount of the gift is based upon the 2000 Group Annuity Mortality Table, with an interest assumption at 5 percent per annum. Assets in excess of liabilities, if any, related to these annuities are available for the use of the Foundations with the approval of the California Department of Insurance.

Annuity Trusts

Annuity trusts are trust agreements that provide for a fixed annual payment of not less than 6 percent of the initial value of trust assets to one or more income beneficiaries, with an irrevocable remainder interest contributed to charity. The annual payment never varies, regardless of trust income or the appreciation or depreciation in the value of trust assets.

Unitrusts

Unitrusts are trust agreements that are similar to annuity trusts, except that the annual payout generally is a fixed percentage, of not less than 6 percent, of the value of the trust assets valued annually. In general, the unitrust beneficiary payment amounts rise and fall in proportion to the value of trust assets. In certain cases, the payout from unitrusts may be tied to trust income.

Obligation to Provide Future Services

If the present value of future outflows to provide future services, adjusted for certain noncash items, exceeds the present value of future cash in-flows, a liability is recognized. An evaluation of the future service obligation for residents indicated a liability was not considered necessary as of December 31, 2020 or 2019. The discount rate used to calculate the obligation to provide future service is 5 percent for the years ended December 31, 2020 and 2019.

Types of Entrance Fees

The Care and Residence Agreements between the Corporations and the residents provide for the payment of an entrance fee. Entrance fees received by the Corporations are categorized into two types: initial entrance fees and entrance fees from reoccupancy, and are recorded as either rebatable entrance fees due, entrance fees subject to refund or entrance fees nonrefundable. Initial entrance fees, which are the initial fees on new or expanded facilities, are used to provide funds for acquisition and construction of physical facilities, debt retirement and to defray anticipated deficits in the operations of new homes for a period of time. Entrance fees from reoccupancy in existing homes are used for general purposes, including capital expenditures, support of operations (including benevolence), new development and funding of reserves.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

Refund Policy on Entrance Fees

The current Care and Residence Agreement provides the resident with the right to a refund of the entrance fee, less 2 percent for each month of residency for 44 months after an initial reduction to the original fee, under certain circumstances. For a majority of contracts, upon the move out of a resident, the unamortized balance of the entrance fee becomes the property of the Corporations and is included in amortization of entrance fees in the combined statements of operations and change in net assets.

The Corporations had nonrefundable entrance fees of \$187,787,000 and \$181,180,000 as of December 31, 2020 and 2019, respectively, related to entrance fees received that will be recognized as revenues in future years. Additionally, the Corporations had entrance fees subject to refund of \$75,827,000 and \$89,811,000 as of December 31, 2020 and 2019, respectively, which will be recognized as revenues in future years unless refunded.

The Corporations have offered contract options whereby a specified percentage between 50 percent and 100 percent of the entrance fee is rebatable at termination of the contract and subsequent reoccupancy of their apartment. As of December 31, 2020 and 2019, respectively, \$178,597,000 and \$180,696,000 of the entrance fees related to these types of contracts are contractually rebatable and are included in rebatable entrance fees due and entrance fee rebates payable in the accompanying combined balance sheets.

Actual refunds and rebates of entrance fees were \$25,143,000 and \$13,187,000 for the years ended December 31, 2020 and 2019, respectively. Based on historical experience, management expects to pay refunds in future years of approximately \$19,000,000 per year.

Interest Rate Swaps and Caps

The Corporations use interest rate swaps and caps as part of its overall debt management policy. The Corporations account for interest rate swaps and caps in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 815, *Derivatives and Hedging*. The topic requires that all derivatives be carried at fair value in the combined balance sheets (see Note 7).

Net Assets

Net assets, revenues, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions - Net assets available for use in general operations and not subject to donor restrictions. All revenues not restricted by donors and donor-restricted contributions whose restrictions are met in the same period in which they are received are accounted for in net assets without donor restrictions.

Net Assets With Donor Restrictions - Net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. All revenues restricted by donors as to either timing or purpose of the related expenditures or required to be maintained in perpetuity as a source of investment income are accounted for in net assets with donor restrictions. When a donor restriction expires, that is when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

Also included in net assets with donor restrictions are assets held in trust under life annuity gifts. The assets are valued at fair value in accordance with the requirements of the specific trust agreements. Foundation West and Foundation South are required to pay a certain portion of the annual income from these assets to the donor or a designated beneficiary for the life of the donor or the beneficiary. Such amounts have been estimated and are reflected as obligations under annuity agreements in the accompanying combined balance sheets. The remaining assets will revert to the Foundations at the donor or beneficiary's death. The portion of assets received in excess of that required to meet the annuity's obligations has been recognized as a contribution at the time received.

Assets received from external trusts that are controlled by third-party trustees are recognized at the present value of the estimated future distributions to be received by the Corporations over the term of the agreement.

Net assets with donor restrictions for the years ended December 31, 2020 and 2019 are comprised of the following:

	<u>2020</u>	<u>2019</u>
Benevolence	\$ 10,550	\$ 9,067
Purpose restricted	15,416	13,965
Funds held by trustee	5,971	5,716
Restricted in perpetuity	<u>5,672</u>	<u>5,666</u>
Total	<u>\$ 37,609</u>	<u>\$ 34,414</u>

Endowment Funds

Foundation South's endowment funds consist of approximately 16 individual donor-restricted funds established primarily for benevolence and are recorded in net assets with donor restrictions in the accompanying combined balance sheets.

Foundation South has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Foundation South classifies net assets with donor restrictions of the original value of gifts donated to the permanent endowment and the original value of subsequent gifts to the permanent endowment. The investment earnings of the donor-restricted endowment funds are classified as donor-restricted until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA.

The changes in endowment net assets with donor restriction for the years ended December 31, 2020 and 2019, are as follows (in thousands):

Endowment net assets, December 31, 2018	\$ 7,700
Contributions	222
Net investment returns	553
Disbursements	<u>(217)</u>
Endowment net assets, December 31, 2019	8,258
Contributions	6
Net investment returns	373
Disbursements	<u>(332)</u>
Endowment net assets, December 31, 2020	<u>\$ 8,305</u>

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

The endowment net assets with donor restrictions were comprised of the following as of December 31, 2020 and 2019 (in thousands):

	<u>2020</u>	<u>2019</u>
Endowment gains with donor restrictions	\$ 2,633	\$ 2,592
Endowment funds held in perpetuity, the portion of perpetual endowment funds that is required to be retained permanently either by explicit donor stipulation or by UPMIFA	<u>5,672</u>	<u>5,666</u>
Total	<u>\$ 8,305</u>	<u>\$ 8,258</u>

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires Foundation South to retain as a fund of perpetual duration. There were no deficiencies of this nature as of December 31, 2020 and 2019.

Foundation South has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity or for donor-specified periods. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of the S&P 500 index while assuming a moderate level of investment risk.

To satisfy its long-term rate of return objectives, Foundation South relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Foundation South targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

Net Resident Service Revenues

Net resident service revenues are reported at the amount that reflects the consideration the Corporations expect to receive in exchange for the services provided. These amounts are due from residents or third-party payors and include variable consideration for retroactive adjustments, if any, under reimbursement programs. Performance obligations are determined based on the nature of the services provided. Net resident service revenues are recognized as performance obligations are satisfied.

Payment terms and conditions for the Corporations' resident contracts vary by contract type and payor source, although terms generally include payment to be made within 30 days. Net resident service revenues for recurring and routine monthly services are generally billed monthly in advance. Net resident service revenues for ancillary services are generally billed monthly in arrears. Additionally, entrance fees are generally billed and collected in advance of move-in.

Net resident service revenues are primarily comprised of the following revenues streams:

Health Center

Health center revenues are primarily derived from providing nursing services to residents at a stated daily fee, net of any explicit and implicit price concessions. The Corporations have determined that health center services are considered one performance obligation, which is satisfied over time as services are provided. Therefore, health center revenues are recognized on a daily basis as services are rendered.

Health center revenues, including monthly service fees, ancillary and other services fees are reported at the estimated net realizable amounts from residents, third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

The Corporations receive revenues for services under third-party payor programs, including Medicare, MediCal and other third-party payors. Nursing and ancillary services provided to Medicare and MediCal beneficiaries are paid at prospectively determined rates per day. These rates vary according to a resident-specific classification system that is based on clinical, diagnostic and other factors and the reimbursement methodology is subject to various limitations and adjustments. The determination of these rates is partially based on the Corporations' clinical assessment of their residents. The Corporations are required to clinically assess its residents at predetermined time periods throughout the year. The documented assessments are subject to review and adjustment by Medicare and MediCal. The basis for payment to the Corporations for other payor agreements includes prospectively determined rates per day or discounts from established charges. Laws and regulations governing the Medicare and MediCal programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action, including fines, penalties and exclusion from the Medicare and MediCal programs.

Settlements with third-party payors for retroactive adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing resident care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence with the payor and the Corporations' historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenues recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years are settled or no longer subject to such audits, reviews and investigations. Adjustments arising from a change in the transaction price were not significant in 2020 or 2019.

Assisted Living and Memory Care

Assisted living and memory care revenues are primarily derived from providing housing and personal care services to residents at a stated monthly fee. The Corporations have determined that the services included in the monthly fee have the same timing and pattern of transfer and are a series of distinct services that are considered one performance obligation for each of these levels of care, which is satisfied over time as services are provided. Therefore, assisted living and memory care revenues are recognized on a month-to-month basis.

Residential Living

Residential living revenues are primarily derived from providing housing and services to residents. The Corporations have determined that the services included in the monthly fee have the same timing and pattern of transfer and are a series of distinct services that are considered one performance obligation, which is satisfied over time as services are provided. Therefore, residential living monthly fees are recognized on a month-to-month basis.

Entrance fees collected from residents in advance are recognized as deferred revenues from entrance fees until performance obligations are satisfied and are included in entrance fees nonrefundable in the accompanying combined balance sheets. The Corporations recognized amortization income of \$44,275,000 and \$43,129,000 in 2020 and 2019, respectively. The Corporations apply the practical expedient in ASC 606, and therefore, do not disclose amounts for remaining performance obligations that have original expected durations of one year or less.

The guaranteed refund component of entrance fees is not amortized to income and is classified as rebatable entrance fees due in the accompanying combined balance sheets.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

For residents with Type B contracts, revenues from entrance fees other than rebatable entrance fees received are recognized through amortization using the straight-line method over annually adjusted estimated life expectancies of the residents, which approximates the period of time the goods and services under the agreements are expected to be transferred to residents. Amortization of entrance fees other than rebatable entrance fees is included as amortization of entrance fees in the accompanying combined statements of operations and changes in net assets.

Contractual Allowances

A portion of the Corporations' health center revenues are subject to explicit price concessions (contractual allowances) under contracts with third-party payors. These price concessions, were \$8,774,000 and \$13,552,000 for the years ended December 31, 2020 and 2019, respectively.

COVID Relief Funding

COVID relief funding includes amounts received from federal and state funding sources related to the COVID-19 pandemic. The Corporations account for this funding in accordance with the FASB ASC Topic 958-605 guidance for conditional contributions and, accordingly, revenues are measured and recognized when barriers are substantially met, which occurs when the Corporations comply with the terms and conditions related to the purpose of the grant rather than those that are administrative in nature.

In March 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law to combat the financial effects of COVID-19. The CARES Act created a Provider Relief Fund to provide financial support for hospitals and other healthcare providers. The Corporations received approximately \$9,089,000 in the year ended December 31, 2020 related to this funding. In accordance with the terms and conditions in place at December 31, 2020, the Corporations could apply the funding first against eligible expenses, and then lost revenues, which the Corporations' methodology for calculating lost revenues was the difference between 2020 budgeted and 2020 actual patient care revenues. \$600,000 of CARES Act funding was transferred to Terraces of Phoenix, an affiliated organization with a common parent, HumanGood, as allowed under the CARES Act Provider Relief Fund terms and conditions.

Noncompliance with the terms and conditions could result in repayment of some or all of the support, which can be subject to government review and interpretation. The Department of Health and Human Services (HHS) has indicated Provider Relief Fund payments are subject to future reporting and audit requirements. These matters could cause reversal or claw-back of amounts previously recognized; however, an estimate of the possible effects cannot be made as of the date these financial statements were issued. In addition, as of the date these combined financial statements were issued, it is unknown whether there will be further developments in the regulatory guidance.

The Corporations have incurred lost revenues and eligible expenses sufficient to allow it, in accordance with the original terms and conditions of the Provider Relief Fund as of December 31, 2020, to recognize revenues of \$8,338,000 which are included in COVID relief funding in the accompanying combined statement of operations and changes in net assets for the year ended December 31, 2020.

COVID-19 related expenses of \$3,687,000, including personal protective equipment and other equipment or supplies, are included in supplies in the combined statement of operations and changes in net assets for the year ended December 31, 2020. COVID-19 testing expenses of \$2,187,000 are included in other operating expenses in the combined statement of operations and changes in net assets for the year ended December 31, 2020. COVID-19 direct team member costs of \$217,000 and \$446,000 are included in salaries and wages and employee benefits, respectively, in the combined statement of operations and changes in net assets for the year ended December 31, 2020.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

Performance Indicator

Income from operations as reflected in the accompanying combined statements of operations and changes in net assets is the performance indicator. Income from operations includes all changes in net assets without donor restrictions other than changes in minimum pension liability, other affiliate distributions and equity transfers, and unrealized gains (losses) on interest rate swap and caps.

Tax-Exempt Status

The Corporations are comprised of several California nonprofit corporations as described in Section 501(c)(3) of the Internal Revenue Code and have been granted tax-exempt status by the Internal Revenue Service and the California Franchise Tax Board.

Due to a failure to timely file an annual report with the Attorney General, NorCal received notice in August 2019 that the California Franchise Tax Board revoked the State income tax exemption of NorCal. NorCal reapplied for exempt status in October 2019 and, in June 2020, was granted a retroactive reinstatement of its exempt status. No associated California income taxes, interest or penalties have been levied or paid to date.

The Corporations assess uncertain tax positions in accordance with the provisions of the FASB ASC Topic 740-10, *Income Taxes*. The Corporations recognize the tax benefit from uncertain tax positions only if it is more likely than not that the tax positions will be sustained on examination by the tax authorities, based on the technical merits of the position. The tax benefit is measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. The Corporations recognize interest and penalties related to income tax matters in operating expenses. As of December 31, 2020 and 2019, and for the year ended December 31, 2020, there were no such uncertain tax positions.

Reclassifications

Certain items in the 2019 combined financial statements have been reclassified to conform with the 2020 combined financial statements presentation.

3. Liquidity and Availability of Resources

The Corporations have financial assets available for utilization within one year of the combined balance sheets date, which consist of the following as of December 31, 2020 and 2019 (in thousands):

	<u>2020</u>	<u>2019</u>
Cash and cash equivalents	\$ 23,013	\$ 33,220
Resident accounts receivable	12,682	15,026
Entrance fee notes receivable	870	368
Investments	<u>226,580</u>	<u>200,927</u>
Total	<u>\$ 263,145</u>	<u>\$ 249,541</u>

The Corporations have investments, which are available for utilization within one year in the normal course of operations. Accordingly, these assets have been included above.

The Corporations have other assets held by trustee under trust indenture, and assets reserved for future gift annuity payments and donor-restricted purposes. Additionally, certain other Board-designated assets are internally designated for long-term purposes and an operating reserve. These investments, which are more fully described in Note 4 are not used for general expenditure within the next year; however, the Board-designated amounts could be made available, if necessary.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

As part of the Corporations' liquidity management plan, cash in excess of daily requirements is invested in short-term investments and money market funds. These funds may be drawn upon, if necessary, to meet unexpected liquidity needs.

4. Investments, Designated Investments, Restricted Investments and Fair Value Measurements

The composition of investments, designated investments and restricted investments is set forth in the following table (in thousands):

	<u>2020</u>	<u>2019</u>
Investments (including designated investments and investments in HumanGood Nevada Bonds):		
Cash and cash equivalents	\$ 13,783	\$ 30,001
Mutual funds	119,506	87,588
Equity securities	68,916	57,497
Exchange-traded funds and closed-end funds	38,509	31,272
Domestic corporate debt	50,270	43,508
U.S. government securities	42,428	56,617
Municipal bonds	13,314	14,183
Foreign government securities	1,496	474
Alternative investments	2,324	833
Investments in HumanGood Nevada Bonds	4,242	5,018
	<u>354,788</u>	<u>326,991</u>
Total investments (including designated investments and investments in HumanGood Nevada Bonds):		
Restricted investments:		
Cash and cash equivalents	40,383	40,270
Mutual funds	9,390	7,515
Equity securities	1,672	2,397
Exchange-traded funds and closed-end funds	15,356	18,983
Domestic corporate debt	4,583	5,092
U.S. government securities	4,437	6,498
Municipal bonds	1,667	848
Foreign government securities	116	872
Alternative investments	751	471
	<u>78,355</u>	<u>82,946</u>
Total restricted investments		
Total investments, designated investments and restricted investments	<u>\$ 433,143</u>	<u>\$ 409,937</u>

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

Investments held as of December 31, 2020 and 2019 were comprised of the following (at fair value) (in thousands):

	<u>2020</u>	<u>2019</u>
Restricted investments:		
Principal, interest and other reserves held in trust under bond indenture or mortgage agreements	\$ 6,716	\$ 12,783
Undrawn funds held for LPC construction projects	31,931	32,805
Donor-restricted investments, including investments held in trust under revocable trust, gift annuity, annuity trust or unitrust agreements	<u>39,708</u>	<u>37,358</u>
Total restricted investments	78,355	82,946
Investments in HumanGood Nevada Bonds	4,242	5,018
Investments, unrestricted	226,580	200,927
Investments, designated	<u>123,966</u>	<u>121,046</u>
Total investments, designated investments and restricted investments	<u>\$ 433,143</u>	<u>\$ 409,937</u>

The following disclosure is made pursuant to Section 1790(a)(3) of the California Health and Safety Code. The Corporations have identified certain corporate initiatives and contingencies listed below to which assets without restriction assets may be exposed, and therefore, have designated reserves as a safeguard against such contingencies. Although not restricted in accordance with FASB ASC Topic 958, *Not-for-Profit Entities*, the designations are as follows (in thousands):

	<u>2020</u>	<u>2019</u>
Designated for Endowment	\$ 59,013	\$ 56,185
Designated for Retirement	4,953	4,460
Designated for Innovation	10,000	10,000
Designated for Capital Projects	<u>50,000</u>	<u>50,401</u>
Total designations	<u>\$ 123,966</u>	<u>\$ 121,046</u>

Investment Return

Investment return for the years ended December 31, 2020 and 2019 is as follows (in thousands):

	<u>2020</u>	<u>2019</u>
Total dividend, interest and other investment income, net of expense	\$ 7,310	\$ 9,843
Total realized (losses) gains on investments	(3,231)	4,886
Total net change in unrealized gains on investments	21,856	23,452
Unrealized (losses) gains on investment in HumanGood Nevada Bonds	<u>(535)</u>	<u>412</u>
Total	<u>\$ 25,400</u>	<u>\$ 38,593</u>

Investment income is net of investment expenses of \$1,123,000 and \$1,113,000 for the years ended December 31, 2020 and 2019, respectively.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

Fair Value Measurements

FASB ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC Topic 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or net asset value (NAV) per share (or its equivalent) with the ability to redeem the investments in the near term.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized in the accompanying combined financial statements, as well as the general classification of such instruments pursuant to the valuation hierarchy:

- Mutual funds - Mutual funds registered with the Securities and Exchange Commission as mutual funds under the Investment Company Act of 1940 are valued based on quoted market prices, which represent the NAV of shares, and are categorized as Level 1.
- Equities, exchange-traded funds and closed-end funds - Equity securities that are actively traded on a securities exchange are valued based on quoted prices from the applicable exchange and are categorized as Level 1.
- Corporate debt (domestic and foreign) - Investment-grade bonds are valued using inputs and techniques which include third-party pricing vendors, dealer quotations and recently executed transactions in securities of the issuer or comparable issuers. To the extent that these inputs are observable and timely, the values are categorized as Level 2.
- Government securities (U.S. and foreign) - Government securities are valued based on prices provided by third-party vendors that obtain feeds from a number of live data sources, including active market makers and interdealer brokers. To the extent that these inputs are observable and timely, values are categorized as Level 2.
- Municipal bonds - Municipal bonds are valued using inputs and techniques which include identification of similar issues and market activity. To the extent that these inputs are observable and timely, values are categorized as Level 2.
- Investments in HumanGood Nevada Bonds - The fair value is estimated by a third-party using a small sample of sales comparables of other nonrelated LPC fixed rate bonds. Due to a lack of available Level 1 and Level 2 inputs, the investments have been classified as Level 3.
- Alternative investments valued at NAV - Primarily hedge funds are valued at NAV per share of the underlying investment fund. In accordance with Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate NAV per Share (or Its Equivalent)*, investments are not categorized within the fair value hierarchy.
- Interest rate swaps and caps agreements - The fair value is estimated by a third-party using inputs that are observable or that can be corroborated by observable market data and, therefore, are classified as Level 2.

Notes to Combined Financial Statements
December 31, 2020 and 2019

	2020	2019
Series 2019B Taxable Bonds issued concurrently with Series 2019A in August 2019 and maturing in 2028 with annual principal payable in varying amounts ranging from \$2,995 in 2020 to \$3,415 in 2027 and \$650 in 2028; interest at fixed rate of 3% through 2028, payable annually on October 1.	\$ 22,615	\$ 25,610
Series 2020A Tax-Exempt Revenue and Refunding Bonds issued by the California Municipal Finance Authority (dated October 1, 2020) and subsequently sold and delivered to Washington Federal Bank to refund existing NorCal Series 2012A Bonds in a tax-exempt variable rate mode with interest payable monthly based on the sum of one-month LIBOR, plus a bank credit spread multiplied by a factor of 79%. Interest rate at December 31, 2020 was 1.26%. Principal payments are payable annually commencing on October 1, 2021, in varying amounts ranging from \$770 to \$1,125 through 2036. In connection with the issuance of the Series 2020A Bonds, an interest rate cap was purchased with an "all in" strike price of 3.50% and an expiration of November 1, 2035. Bonds are secured under a Master Trust Indenture on HumanGood California Obligated Group's gross revenues pledge.	15,480	-
Series 2020B taxable Revenue and Refunding Bonds issued by the California Municipal Finance Authority (dated October 1, 2020) and subsequently sold and delivered to Washington Federal Bank to refund existing NorCal Series 2013A Bonds and TSJG Series 2012A Bonds, initially in a taxable variable rate mode with interest payable monthly based on one-month LIBOR, plus a bank credit spread, convertible to a tax-exempt variable rate mode after August 1, 2022 with interest payable monthly based on the sum of one-Month LIBOR, plus a bank credit spread multiplied by a factor of 79%. Interest rate at December 31, 2020 was 1.56%. Principal payments on the Series 2020B Bonds are payable annually commencing on October 1, 2021, through 2047. In connection with the Series 2020B Bonds, an interest rate cap was purchased with an "all in" strike price of 1.6% and an expiration of August 1, 2022 and a forward starting swap was entered into, beginning August 1, 2022 at a fixed rate of 0.768% and expiring November 1, 2035. Bonds are secured under a Master Trust Indenture on HumanGood California Obligated Group's gross revenues pledge.	64,765	-

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

The Corporations maintain a standby letter of credit with a bank for workers' compensation as discussed in Note 9.

The Corporations are subject to financial covenants on debt, which include debt service coverage ratios and minimum days of cash-on-hand requirements.

Loss on Early Retirement of Debt

During August 2019, the HumanGood California Obligated Group completed a financing transaction through the issuance of the Series 2019A and Series 2019B Bonds to provide for overall debt service savings and to join the previously separated Obligated Groups into one combined HumanGood California Obligated Group under a common master trust indenture. The majority of the proceeds were used to refund the NorCal Series 2010 Bonds and the HumanGood SoCal Series 2009 Bonds. In conjunction with this transaction, the HumanGood California Obligated Group recorded a loss on early retirement of debt that is included in the combined statement of operations and changes in net assets.

The loss consists of the following (in thousands):

Deposit to escrow deposit fund	\$ 173,103
NorCal Series 2010 Bonds outstanding	(100,130)
SoCal Series 2009 Bonds outstanding	(67,980)
Accrued interest	<u>(3,659)</u>
Subtotal	1,334
Unamortized debt issuance costs	3,157
Unamortized bond issuance discounts	<u>3,073</u>
Total	<u><u>\$ 7,564</u></u>

During October 2020, HumanGood California Obligated Group completed a financing transaction and closed \$125,000,000 of bank capital with Washington Federal Bank, which was comprised of:

- \$15,480,000 Series 2020A Tax-Exempt Revenue and Refunding Bonds, refunding the existing Tax-Exempt Series 2012 Private Placement Bonds with PNC Bank;
- \$64,765,000 Series 2020B Taxable Revenue and Refunding Bonds (through a so-called Cinderella Financing), which used taxable proceeds to legally defease the existing Tax-Exempt Series 2012A and 2013A Bonds, and then is convertible to tax-exempt bonds subsequent to the advanced refunding of the defeased bonds.
- \$33,755,000 Taxable Term Loan with the loan draws available over the initial 24 months subsequent to issuance; and
- \$11,000,000 million Taxable Revolving Line of Credit with a five-year term and a taxable variable rate with interest payable monthly based on one-month LIBOR plus a bank credit spread.

The majority of the proceeds were used to refund the NorCal Series 2012 Bonds, and to defease the NorCal Series 2013 and HumanGood Fresno Series 2012 Bonds. In conjunction with this transaction, the HumanGood California Obligated Group recorded a loss on early retirement of debt that is included in the combined statement of operations and changes in net assets.

Total	\$	<u>7,620</u>

7. Interest Rate Caps and Swaps

On December 1, 2015, HumanGood SoCal entered into an interest rate cap agreement with a counterparty to extend the management of interest rate risk on \$25,000,000 of its Series 2015 Tax-Exempt Variable Rate Revenue Bonds from December 1, 2015 to December 1, 2025. The agreement establishes that when 65.1 percent of the one-month LIBOR rate exceeds 2.50 percent, SoCal is reimbursed for the excess by the counterparty to the transaction.

On October 16, 2020, in conjunction with the aforementioned Series 2020 financing, NorCal, as an obligated group representative, entered into four derivative agreements with two counterparties. The first agreement is an interest rate cap agreement with a counterparty to extend the management of interest rate risk on the \$15,480,000 Tax-Exempt Series 2020A Variable Rate Bonds from October 28, 2020 to October 1, 2035. The agreement establishes that when 79 percent of the one-month LIBOR rate exceeds 2.394 percent, NorCal is reimbursed for the excess by the counterparty to the transaction. The second agreement is an interest rate cap agreement with a counterparty to extend the management of interest rate risk on the \$64,675,000 Series 2020B Variable Rate Bonds during the anticipated period that the bonds would be taxable from October 28, 2020 to August 1, 2022. The agreement establishes that when the one-month LIBOR rate exceeds 1.6 percent, NorCal is reimbursed for the excess by the counterparty to the transaction. The third agreement is a forward-starting interest rate swap agreement with a counterparty to extend the management of interest rate risk on the outstanding \$63,270,000 Series 2020B Variable Rate Bonds during the anticipated period that the bonds would be tax-exempt from August 1, 2022 to October 1, 2035. The agreement establishes that when 79 percent of the one-month LIBOR rate exceeds 0.768 percent, NorCal is reimbursed for the excess by the counterparty to the transaction and conversely when 79 percent of the one-month LIBOR rate is less than 0.768 percent, NorCal pays the shortfall to the counterparty. The fourth agreement is a forward-starting interest rate swap agreement with a counterparty to extend the management of interest rate risk on the \$33,755,000 Series 2020 taxable variable rate bank loan from November 1, 2022 to October 1, 2035. The agreement establishes that when the one-month LIBOR rate exceeds 0.9957 percent, NorCal is reimbursed for the excess by the counterparty to the transaction and conversely when the one-month LIBOR rate is less than 0.9957 percent, NorCal pays the shortfall to the counterparty.

For the years ended December 31, 2020 and 2019, the aforementioned floating interest rates for the cap and swap agreements failed to exceed the respective cap and strike rates, and thus none of the aforementioned cap and swap agreements had an impact on interest expense.

The fair value of the interest rate caps and swaps was \$1,011,000 and \$36,000 as of December 31, 2020 and 2019, respectively. The unrealized gain (loss) from mark-to-market of floating to fixed rate interest rate caps was \$808,000 and \$(157,000) for the years ended December 31, 2020 and 2019, respectively.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

8. Employee Benefit Plans

Defined Benefit Pension Plan

HumanGood SoCal has a defined benefit retirement plan (the Plan) which, prior to being frozen, provided retirement benefits through a noncontributory defined benefit retirement plan for substantially all full-time SoCal employees. On October 22, 2009, the Board of Directors of SoCal froze the Plan, whereby effective October 31, 2009, further accrual of benefits ceased for participants in the Plan. SoCal has not taken action to terminate the Plan.

Prior to October 31, 2009, the benefits were based upon years of service and the employee's compensation during the years of employment. SoCal's funding policy, at a minimum, was to contribute amounts to the Plan sufficient to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974, plus additional amounts deemed to be appropriate.

The plan assets include separate investment accounts with underlying mutual funds invested in fixed-income and equity securities whose values are subject to fluctuations of the securities markets. Changes in these values attributable to the differences between actual and assumed returns on plan assets were deferred as unrecognized gains or losses and were included in the determination of the net pension expense over time.

A summary of the components of net periodic pension cost as of the date of the actuarial valuation for the years ended December 31, 2020 and 2019 is as follows (in thousands):

	<u>2020</u>	<u>2019</u>
Changes in projected benefit obligation:		
Projected benefit obligation, January 1	\$ 40,083	\$ 35,301
Service cost	-	-
Interest cost	1,314	1,473
Benefits paid	(1,173)	(2,499)
Settlement payments	(1,544)	-
Actuarial loss	4,039	5,808
Projected benefit obligation, December 31	<u>42,719</u>	<u>40,083</u>
Changes in plan assets:		
Fair value of plan assets, January 1	40,303	37,718
Actual return on plan assets	3,227	4,219
Employer contributions	1,000	1,000
Expenses	(94)	(135)
Settlement payments	(1,544)	-
Benefits paid	(1,173)	(2,499)
Fair value of plan assets, December 31	<u>41,719</u>	<u>40,303</u>
Funded status	<u>\$ (1,000)</u>	<u>\$ 220</u>
Accumulated benefit obligation	<u>\$ (42,719)</u>	<u>\$ (40,083)</u>
Amounts recognized in retirement liabilities in the accompanying combined balance sheets	<u>\$ (1,000)</u>	<u>\$ 220</u>

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

	<u>2020</u>	<u>2019</u>
Components of net periodic benefit cost:		
Interest cost	\$ 1,314	\$ 1,473
Expected return on plan assets	(1,561)	(1,500)
Net loss amortization	<u>1,152</u>	<u>656</u>
Net periodic benefit cost	905	629
Settlement charge	<u>441</u>	<u>-</u>
Total benefit expense	<u>\$ 1,346</u>	<u>\$ 629</u>
Net losses recognized in net assets without donor restrictions	<u>\$ (875)</u>	<u>\$ (2,567)</u>
Amounts not yet reflected in periodic benefit costs and recognized in accumulated net assets without donor restrictions, net actuarial loss	<u>\$ 12,209</u>	<u>\$ 11,334</u>
Total accumulated charge to net assets without donor restrictions	<u>\$ 12,209</u>	<u>\$ 11,334</u>

In 2020, SoCal offered a one-time lump sum payout for certain terminated vested participants. Approximately \$1,544,000 was paid out during the 2020 plan year under this program.

Weighted-average assumptions used to determine benefit obligations as of December 31, 2020 and 2019, are as follows:

	<u>2020</u>	<u>2019</u>
Discount rate	2.67 %	3.43 %
Rate of compensation	N/A	N/A

Weighted-average assumptions used to determine net periodic pension cost for the years ended December 31, 2020 and 2019, are as follows:

	<u>2020</u>	<u>2019</u>
Discount rate	3.43 %	4.26 %
Expected long-term rate of return on plan assets	4.00	4.00
Rate of compensation	N/A	N/A

SoCal determines the estimates of expected long-term rate of return on assets. These estimates are primarily driven by actual historical asset class returns and advice from external actuarial firms, while incorporating specific asset class risk factors. For the years ended December 31, 2020 and 2019, the expected long-term rate of return used in determining net periodic pension cost was 4.00 percent.

The Plan invests primarily in asset categories to permit conservative investments with minimal risk of loss of principal. The Plan invests in asset categories that provide diversification benefits and are easily measured. Maximum and minimum holding ranges for each of these asset categories are set by the investment committee and defined in an investment policy. The current target allocations for equity and fixed income are 20 percent and 80 percent, respectively, for the years ended December 31, 2020 and 2019. Actual asset allocation within these approved ranges is based on a variety of economic and market conditions and consideration of specific asset category risk. To assess the Plan's investment performance, a long-term asset allocation policy benchmark has been established. The Plan's assets are invested in separate accounts which are considered Level 2 securities and the asset allocation was in line with the target allocations as of December 31, 2020 and 2019.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

SoCal expects to contribute approximately \$1,000,000 to the Plan during the year ending December 31, 2021. SoCal estimates that benefit payments will be paid over the next ten years as follows (in thousands):

Years ending December 31:	
2021	\$ 3,972
2022	2,741
2023	2,240
2024	2,710
2025	3,759
2026 - 2030	<u>12,097</u>
Total	<u>\$ 27,519</u>

Actuarial losses of \$711,000 related to the Plan are expected to be recognized as a component of the net periodic pension cost during the year ending December 31, 2021. Management has included the net periodic pension cost in SoCal's 2021 operating budget.

Supplemental Retirement Income Plan Agreements

Certain NorCal management employees or retirees of NorCal participate in supplemental retirement income plans, and have individually entered into agreements with NorCal whereby the employees will be provided specific amounts of annual retirement income for the balance of their lifetime following retirement. During 2005, accrued benefits for active participants in the supplemental retirement income plan were transferred into a new nonqualified plan under IRC 457(f) that distributes a lump-sum payment at age 65. On October 2, 2015, the plan was frozen to new entrants. On December 1, 2017, the HumanGood Board of Directors elected to terminate the plan and, in 2018, final termination payouts of \$2,143,000 were made. Subsequent to the termination and payout of the IRC 457(f) plan, the remaining NorCal frozen supplemental retirement income plan had a present value of future payments to participants of \$1,680,000 as of December 31, 2020 and 2019. Assets available for benefits to this remaining pool of participants are subject to the claims of the NorCal's creditors. The assets are included in designated investments and amounted to \$4,953,000 and \$4,460,000 as of December 31, 2020 and 2019, respectively.

In 2020, a separate IRC 457(f) plan was established for certain key executive leadership where the plan will fund based on predetermined annual contributions and earn a return equal to the Barclay's Intermediate Government Credit Index, with a present value of future anticipated participant distributions of \$318,000 as of December 31, 2020.

Defined Contribution Plan

The Corporations also participate in a defined contribution retirement plan covering all eligible employees. The Corporations' contribution is a match of employee contributions up to 4 percent of eligible earnings in a calendar year. Annual expenses incurred under the plan for the years ended December 31, 2020 and 2019, respectively, were approximately \$3,294,000 and \$2,934,000.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

9. Self-Insured Programs

Workers' Compensation Plan

The Corporations are partially self-insured under an occurrence form insurance policy for 2020 and 2019. Claims are accrued under the plan as the incidents that give rise to them occur. The estimate of incurred but not reported claims is based on actuarial projections of the ultimate cost of settlement, including claim settlement expenses, using the Corporations' historical claim payment experience. The estimated liability is continually monitored and reviewed and, as settlements are made or estimates are adjusted, differences are reflected in current operations. The Corporations have recorded a total liability for claims payable of \$16,112,000 and \$14,379,000, including an estimate of incurred but not reported claims as of December 31, 2020 and 2019, respectively. The estimated insurance recovery receivables of \$4,948,000 and \$4,503,000 are recorded under other receivables in the accompanying combined balance sheets as of December 31, 2020 and 2019, respectively. As required by the insurer, the Corporations have obtained a letter of credit for \$1,108,000 in connection with this program, subject to annual renewal, with the next scheduled renewal date on September 30, 2021.

Given the inherent variability of such estimates, the actual liability could differ significantly from the estimates. While the ultimate payments of self-insured workers' compensation claims are dependent upon future developments, management is of the opinion that the recorded liability is adequate.

Health Insurance Plan

Effective in 2019, the Corporations are self-insured for health insurance claims for eligible active employees with certain self-insured retention limits. Based on claims incurred through December 31, an estimated liability for claims incurred, but not paid of \$2,074,000 and 2,048,000 is included in accounts payable and accrued expenses in the accompanying combined balance sheets as of December 31, 2020 and 2019, respectively. The estimate of incurred but not paid claims is based on actuarial projections using the Corporations' historical claim payment experience and previous patterns of payments. While estimates are based on the information and data available at a point in time, management is of the opinion that the recorded liability has been properly accounted for and accrued at December 31, 2020 and 2019.

Professional Liability Insurance

The Corporations have secured claims-made policies for malpractice and general liability insurance with certain self-insured retentions. The Corporations have accrued liabilities of \$1,375,000 and \$341,000 as its best estimate of the cost of known claims incurred prior to December 31, 2020 and 2019, respectively. Related insurance recovery receivables of \$765,000 and \$245,000 as of December 31, 2020 and 2019, respectively, are recorded under other receivables in the accompanying combined balance sheets. In addition, the Corporations have accrued liabilities of \$2,308,000 as of December 31, 2020 and 2019, as its best estimate of the cost of claims incurred but not yet reported. These liabilities are included in accounts payable and accrued expenses in the accompanying combined balance sheets.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements

Notes to Combined Financial Statements
December 31, 2020 and 2019

11. Functional Expenses

The Corporations provide housing, healthcare and other related services to residents within their geographic location. Financial statements report certain expense categories that are attributable to more than one program service or support function. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. Expenses relating to providing these services are approximately as follows at December 31, 2020 and 2019 (in thousands):

	2020		
	Residential Services	General and Administrative	Total
Salaries and wages	\$ 106,469	\$ 22,636	\$ 129,105

12. Transactions With Affiliates

The Corporations manage rental housing communities and LPCs (see Note 1) under management agreements whereby the Corporations and its affiliates provide administrative and management services to all communities and sales management services to the LPCs.

Management fees for providing these services for the years ended December 31, 2020 and 2019, are included in other operating revenues earned by the Corporations in the accompanying combined statements of operations and changes in net assets and are as follows (in thousands):

	<u>2020</u>	<u>2019</u>
HumanGood LPCs Management Fee:		
Terraces of Phoenix	\$ 1,968	\$ 1,881
Judson Park	1,888	1,878
Las Ventanas	612	592
HumanGood Affordable Housing Cost Allocation	<u>300</u>	<u>520</u>
 Total	 <u>\$ 4,768</u>	 <u>\$ 4,871</u>

Interest and management fees due from affiliates in the accompanying combined balance sheets includes deferred management fees due from Las Ventanas in the amounts of \$2,662,000 and \$2,412,000 as of December 31, 2020 and 2019, respectively, as well as interest income receivable from Beacon Development Group in the amounts of \$17,000 and \$529,000 as of December 31, 2020 and 2019, respectively, related to the outstanding purchase note described further in Note 1.

Amounts due from affiliates for management fees and cost recoveries for other services such as dining, purchase cards, payroll, benefits and insurance are included in intercompany advances due as of December 31, 2020 and 2019 in the accompanying combined balance sheets, and are as follows (in thousands):

	<u>2020</u>	<u>2019</u>
Due from HumanGood Affordable Housing and Affiliates	\$ 2,600	\$ 4,000
Due from HumanGood SoCal Affordable Housing Communities	873	2,193
Due from HumanGood Washington	3,326	1,906
Due (to) HumanGood Arizona, Inc.	(337)	(49)
Due from HumanGood Idaho	76	277
Due from HumanGood Nevada	755	239
Due from HumanGood East	289	-
Due from HumanGood Cornerstone and certain affiliates	<u>93</u>	<u>154</u>
 Total	 <u>\$ 7,675</u>	 <u>\$ 8,720</u>

These balances are settled in the normal course of operations with no fixed repayment terms.

During the year ended December 31, 2020, affiliate distributions and transfers in the accompanying combined statements of operations and changes in net assets is primarily comprised of cash distributions of \$5,000,000 from NorCal and SoCal to Cornerstone.

During the year ended December 31, 2019, affiliate distributions and transfers in the accompanying combined statements of operations and changes in net assets is primarily comprised of cash distributions of \$8,151,000 from NorCal and SoCal to Cornerstone.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

13. Commitments and Contingencies

The Corporations are party to various claims and legal actions in the normal course of business. In the opinion of management, based upon current facts and circumstances the resolution of these matters is not expected to have a material adverse effect on the financial position of the Corporations.

The Corporations are aware of the existence of asbestos in certain of its buildings. The Corporations have not recorded a liability for any asbestos abatement costs because the cost cannot be reasonably estimated at this time. At such time in the future that plans are made to make changes to structures with asbestos and the related asbestos removal cost estimates are completed, the Corporations will record an estimate of the costs of the required asbestos abatement.

On September 12, 2012, Las Ventanas closed on the restructuring of its indebtedness. As discussed in Note 1, NorCal provided an unfunded \$2,000,000 debt service support agreement for the Las Ventanas Series A-1 Bonds, with any resulting funded amounts triggering the issuance to NorCal of an equal amount of Las Ventanas Series B-4 Bonds.

For the tax-credit financed affordable housing communities in which HGAH serves as a General Partner (see Note 1), NorCal and HGAH, as co-guarantors, have issued on-going guarantees to cover operating deficits and guarantees to ensure compliance with certain on-going aspects of the Limited Partnership Agreement (LPA). NorCal periodically evaluates the potential exposure from these on-going guarantees. NorCal has not provided support under these guarantees in the past and based on the current evaluation, management believes they cumulatively do not constitute a material future financial risk exposure for NorCal.

In addition to operating deficit and LPA guarantees, NorCal and HGAH, as co-guarantors, also issue, unconditional project completion guarantees for tax-credit financed affordable housing communities in which HGAH serves as a General Partner (see Note 1). NorCal has not provided support under these guarantees in the past and based on the current evaluation, management believes they cumulatively do not constitute a material future financial risk exposure for NorCal.

Senior Living Services Industry

The senior living services industry is subject to numerous laws, regulations and administrative directives of federal, state and local governments and agencies. Compliance with these laws, regulations and administrative directives is subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time. Government activity continues to increase with respect to investigations and allegations concerning possible violations by healthcare providers of fraud and abuse statutes and regulations, which could result in the imposition of significant fines and penalties as well as significant repayments for resident services previously billed. Management is not aware of any material incidents of noncompliance; however, the possible future effects of this matter on the Corporations, if any, are not presently determinable.

COVID-19

The spread of COVID-19 around the world has caused significant volatility in U.S. and international markets, supply chains and businesses. The Corporations' evaluation of the effects of these events is ongoing as of the date the accompanying combined financial statements were issued. COVID-19 may impact various parts of the Corporations' 2021 operations and financial performance, including but not limited to additional costs for emergency preparedness, disease control and containment, COVID testing and vaccinations, potential shortages of personnel, supply chain disruption, declines in revenue related to decreases in occupancy or volumes of certain revenue streams. The extent of the impact will depend on future developments, including the duration and spread of the outbreak and related governmental or other regulatory actions. Throughout the pandemic, the Corporations have provided up to date information on their COVID-19 response through a dedicated page on the Corporations' website.

HumanGood California Obligated Group & Foundation Affiliates (Members of HumanGood)

Notes to Combined Financial Statements
December 31, 2020 and 2019

14. Concentrations of Credit Risk

The Corporations grant credit without collateral to their residents, some of whom are insured under third-party payor arrangements.

The Corporations maintain cash accounts, which, at times, may exceed federally insured limits. The Corporations have not experienced any losses from maintaining cash accounts in excess of federally insured limits. Management believes it is not subject to any significant credit risk on its cash accounts.

15. Subsequent Events

Subsequent events are events or transactions that occur after the combined balance sheet date but before the combined financial statements are issued. The Corporations recognize in the combined financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the combined balance sheet, including the estimates inherent in the process of preparing the combined financial statements. The Corporations' combined financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the combined balance sheet but arose after the combined balance sheet date and before the combined financial statements are issued.

In April 2021, the Corporations applied and were approved for loans pursuant to the Paycheck Protection Program (PPP), administered by the U.S. Small Business Administration. The Corporations signed agreements with an effective date of April 29, 2021 for HumanGood NorCal, HumanGood SoCal and HumanGood Fresno in the amounts of \$10,000,000, \$9,246,000 and \$1,814,000, respectively. The loans carry no collateral or guarantee requirements. Under the terms of the loans, interest and principal payments are deferred for six months from the date of issuance. The PPP loans bear interest at 1 percent per annum and mature five years after issuance. Subject to certain eligibility and certification requirements under the PPP, some or all of the loan amounts may be forgiven; however, the amount and timing of any forgiveness is uncertain.

The Corporations have evaluated subsequent events through April 30, 2021, which is the date the combined financial statements were issued.

As of January 2022, the threshold languages for Medi-Cal beneficiaries as determined by DHCS in Los Angeles County include Arabic, Armenian, Cambodian, Cantonese, Farsi, Korean, Mandarin, Russian, Spanish Tagalog and Vietnamese.

WINDSOR NOTICE – 10/5/2022

8) A description of the Ararat's policies, procedures, and eligibility requirements for the provision of charity care

Ararat Home of Los Angeles, Inc.
Charity Care Policy

Ararat Home of Los Angeles, Inc. ("Ararat") has adopted the following charity care policy at its communities.

1. Possibility of Alternative Arrangements. If a resident is unable to pay the Monthly Fees or other charges promptly, Ararat may, in its discretion and consistent with its financial ability to do so, extend the time to make payment or work out another alternative payment arrangement. To qualify for and maintain such alternative payment arrangement, a resident must comply with the other terms of this Policy.
2. Eligibility. A resident will not qualify for an alternative payment arrangement if he or she (i) transfers (by gift or bargain sale) his or her assets for less than their fair market value after signing the admission agreement; (ii) encumbers his or her assets or otherwise dilutes their value; (iii) made material misrepresentations as to his or her financial status in any admission documents; (iv) invests his or her assets in vehicles or takes other actions that enable the resident to qualify prematurely for Medi-Cal benefits; or (v) inappropriately spends his or her assets (e.g., by spending down, irresponsible expenditures, or waste) before or after being accepted for residency at the community, which, in Ararat's judgment, impairs the resident's ability to pay all foreseeable charges during his or her residency at the Community.
3. Application for Public Benefits. To qualify for an alternative payment arrangement, the resident must first seek the benefits of any public assistance program for which he or she qualifies, such as Social Security, SSI/SSP, Aid to the Blind, veterans' pensions, or Medi-Cal.
4. Change in Apartment. A resident seeking public assistance or a subsidy may be asked to transfer to an apartment that bears a lower monthly fee, if appropriate.
5. Increase in Assets; Preservation of Assets; Repayment Instruments. To maintain an alternative payment arrangement with Ararat, a resident must: (1) report promptly to Ararat any material increase in his or her assets (whether by gift, inheritance, appreciation in value, or otherwise) and state their value; (2) refrain from transferring, giving or selling any assets for less than their fair market value; (3) if requested by Ararat, make arrangements for the preservation and management of the resident's property by others; and (4) if Ararat deems necessary, execute promissory notes or other instruments to facilitate repayment of loans by Ararat.
6. Repayment. If a resident's financial situation improves while at the Community, Ararat's subsidy may be decreased or eliminated, as determined by Ararat in its discretion. If his or her financial situation improves to the extent that the resident is able to repay all or part of Ararat's subsidy, the resident will be asked to make repayment on terms established by Ararat.
7. Skilled Nursing Facility Residents. Ararat accepts Medi-Cal beneficiaries and accepts the financial terms of the Medi-Cal program, including its prohibition against balance billing.
